Miscellaneous.—Commutation of artificial limbs, $130,000; appliances for disabled soldiers, $2,000; expenses of military convicts in State penitentiaries, $10 000; collection and payment of bounty and prize money and other claims of colored soldiers and sailors, $2,000; continuing publication of Records of War of Rebellion, $36,000; support of Military Prison at Fort Leavenworth, $38,839.12; books, instruments, etc., for Fort Monroe Artillery School, $5,000; support of national homes for disabled soldiers, $1,810,556.

The Senate was forced to recede from its amendment to the Sundry Civil Bill appropriating $50,000 for a preliminary reconnaissance, under the Navy Department, with the view to establishing a boundary line between Alaska and British Columbia, thus sending the project over for another session.

A SENTENCE MITIGATED.

SECRETARY WHITNEY has mitigated the unexpired portion of the Court-martial sentence of Ensign Fitz Aubert Huntoon, of the Navy. In June, 1885, Ensign Huntoon was tried on board the *Juniata*, then attached to the Asiatic Squadron, for "absence from his duty and station without leave;" the second, "disobedience of the lawful orders of his superior officer while in the execution of the duties of his office;" and the third, "drunkenness." He pleaded guilty to all three charges and the court thereupon sentenced him "to be suspended from rank and duty on furlough pay for two years, and to retain his present number on the list of ensigns during that time." The sentence went into effect June 25, 1885, and would have expired next June. Rear-Admiral Davis, who was then commanding the squadron, and who is now in Washington, in reviewing the sentence of the court, said: "The proceedings and findings of the General Court-martial in the foregoing case of Ensign Fitz Aubert Huntoon are approved, and the sentence is also approved, against my conviction that it is entirely inadequate to the nature of the offences, for the reason that Ensign Fitz Aubert Huntoon would otherwise go unpunished." In conclusion he stated that "the single offence of willful disobedience of orders merited dismissal from the Service." Ensign Huntoon, through his friends, has prevailed upon Secretary Whitney to mitigate the sentence upon promise of future good conduct.

THE Second Comptroller has allowed the following War claims: 2d Lieut. Egbert L. Viele, 1st U. S. Infantry, $66.93.

NAVAL APPROPRIATION BILL.

WE give here the text of the Naval Appropriation bill as it finally passed, omitting only some of the details of the standard appropriations :

Pay of the Navy	$7,000,000
Pay, miscellaneous	205,000
Contingent, Navy	7,000
Bureau of Navigation	83,500
Special Ocean Surveys	5,000
Duplications, Surveys, Mexican Coast	25,000
Contingent, B. Navigation	5,000

Civil establishment, Bureau of Navigation—Navy Yard, New York : For one clerk, at $1,400; one writer, at $1,000; one storekeeper, at $900; one master of tugs, at $1,500. Portsmouth, N. H. : For one clerk, at $1,000. Norfolk, Va. : For one clerk, at $1,200. Washington, D. C. : For one clerk, at $1,000. Mare Island, Cal. : One clerk, at $1,000; in all, $9,000.

BUREAU OF ORDNANCE.

Ordnance and Ordnance Stores : For procuring, producing, preserving and handling ordnance material; for the armament of ships; for fuel, tools, material and labor to be used in the general work of the Ordnance Department; for furniture at magazines, at the ordnance dock, New York, and at the naval ordnance battery and proving-ground, $120,400; of which sum $20,400, or so much thereof as may be necessary, may be used, in the discretion of the Secretary of the Navy, for the purchase and completion of three steel-cast, rough-bored and turned, six-inch, high-power rifle cannon, of domestic manufacture, one of which shall be of Bessemer steel, one of open-hearth steel, and one of crucible steel : *Provided*, That the casting for said cannon shall not be paid for until the cannon shall have been completed and have successfully stood the statutory test required by the act of July 26, 1886, entitled "An act making appropriations for the naval service for the fiscal year ending June 30th, 1887, and for other purposes."

For proof of naval armament, $6,000.

For purchase of land for proving and ranging ground for naval guns, and for constructing buildings, butts, shelters, and batteries, $40,000; for necessary repairs to ordnance buildings, magazines, gun parks, boats, lighters, wharves, machinery, and other objects of the like character, $15,000; for miscellaneous items, namely: freight to foreign and home stations; advertising; cartage and express charges; repairs to fire engines; gas and water pipes, gas and water tax at magazines; toll, ferriage, foreign postage, and telegrams to and from the Bureau, $5,000.

For the civil establishment under the Bureau of Ordnance, namely:

Navy-yard, Portsmouth, N. H.—For one writer, (when required), $500.

Boston—For one writer, (when required), $500.

New York—For one clerk, at $1,400.

Washington—For one clerk at $1,600; two writers, at $1,017.25 each; one draughtsman, at $1,545; three draughtsmen, at $1,080 each; one assistant draughtsman, at $772; one foreman, at $2,156; two copyists, at $720 each; one telegraph operator, at $900. Norfolk, for one clerk, at $1,200. Mare Island, for one writer, at $1,017.25. Naval ordnance proving ground, for one writer, at $1,017.25.

Torpedo Station, Newport—For one chemist, $2,500; one clerk, at $1,200; one draughtsman, at $1,500; in all, $24,342.25. And no other fund appropriated by this act shall be used in payment for such service.

Torpedo Corps.—For labor, material, freight, and express charges; general care of repairs to grounds, buildings, wharves; boats; instruction; instruments, tools, furniture, experiments, and general torpedo outfits, $50,000; extension to electrical laboratory, $3,000; pontoon, $800; repairs to sea wall, $3,000; water pipe from Newport to station, $1,000; in all, $57,000.

To enable the Secretaay of the Navy to purchase the steamer *Stiletto* for use as a torpedo-boat for experimental purposes, $25,000.

BUREAU OF EQUIPMENT AND RECRUITING.

Equipment of vessels.—$625,000. Transportation and recruiting, $25.000.

Contingent, Bureau of Equipment and Recruiting.—For extra expenses of training-ships, freight and transportation of equipment stores, printing, advertising, telegraphing, books and models, postage on letters sent abroad, ferriage, ice, apprehension of deserters and stragglers, continuous-service certificates, good-conduct badges, and libraries for enlisted men, school-books for training-ships, medals for boys, and emergencies arising under cognizance of the Bureau of Equipment and Recruiting unforeseen and impossible to classify, $15.000.

Civil Establishment, Navy-yard, Portsmouth.—For one clerk, at $1,200; Boston, for one superintendent rope walk, $1,875; one clerk, at $1,400; one at $1,300; one writer, at $950; New York, for one clerk, at $1,200; LeagueIsland, for one clerk, at $1,200; Norfolk, for one clerk, at $1,200; Mare Island, for one clerk, at $1,200; in all, $11,525.

BUREAU OF YARDS AND DOCKS.

Maintenance of yards and docks.—$170,000. For rebuilding wharves at the Navy-yard, Boston, Mass., $25,000; for rebuilding floating-gate, dry dock, Boston, Mass., to be immediately available $31 000; for two timber dry-docks, to be located at such Navy-yards as the Secretary of the Navy may indicate, each dock to be not less than 480 feet in length, the cost of the two docks not to exceed in the aggregate the amount herein appropriated, $1,100,000; for railroad extension in the Navy-yard at Norfolk, Va., and engine-house, $20,000; for cisterns at the Navy-yarn at Mare Island, Cal., $46,364; for repairs and preservation at Navy-yards, $450,000; Naval training station, Coaster's Harbor Island, Rhode Island, for extending wharf and dredging; repairs to main causeway, sea-wall, roads, buildings, and grounds, and the necessary labor and implements required for the proper preservation of the same; for repairs and improvements on buildings; heating, lighting, and furniture for same; books and stationery; freight and other contingent expenses; purchase of food and maintenance of horses and mail-wagon, and attendance on same, $14.000.

For continuing the erection of the new Naval Observatory, $60,000. of which sum $10,000 may be used for the puschase of a new meridian circle. Said observatory shall not cost more than $400,000, and no work shall be done thereon except under a contract which shall provide for the completion of the same, upon plans previously adopted, for a sum not exceeding said limit of cost hereby affixed; in all, $1,732.364.

Contingent, $20,000.

Civil establishment, Navy-yard, Portsmouth.—For one clerk to civil engineer, at $1,400; one mail messenger, at $600 per annum; one messenger, at $600 per annum; one foreman laborer at $4 per diem; one pilot, at $3 per diem. Boston—For one clerk to civil engineer, at $1,400; one foreman laborer, at $4 per diem; one messenger to commandant, at $1.76 per diem; one messenger to civil engineer, at $1.76 per diem; one mail messenger, at $600 per annum. Brooklyn—For one clerk to civil engineer, at $1,400; one writer, at $1,017.25; one foreman laborer, at $4.50 per diem; one mail messenger, at $600 per annum; one messenger to commandant, at $2.50 per diem; one messenger to captain, at $2.25 per diem; one messenger to yards and docks, at $2 per diem; one draughtsman, at $5 per diem; one quarterman, at $4 per diem. League Island—For one clerk to civil engineer, at $1,400; one messenger, to commandant, at $2 per diem; one foreman laborer, at $4 per diem. Washington—For one clerk to civil engineer, at $1,400; one messenger, at $1.76 per diem; one foreman laborer, at $3.50 per diem. Norfolk—For one clerk to civil engineer, at $1,400; one writer, at $1,017.25; one foreman laborer, at $4 per diem: three messengers, at $2 per diem each; one pilot, at $2.26 per diem. Pensacola—For one clerk to civil engineer, at $1,200; one mail messenger, at $600 per annum. Mare Island—For one clerk to civil engineer, at $1,400; one writer, at $1,017.25; one foreman mason, at $6 per diem; one foreman laborer, at $5.50 per diem; one pilot, at $4.80 per diem; one draughtsman, at $5 per diem; one mail messenger, at $2.74 per diem; one messenger, at $2.20 per diem; one messenger and lamplighter, at $2.20 per diem; one bellringer, at $2.26 per diem. Naval Station, Sackett's Harbor.—For one ship keeper, at $1 per diem: in all, $45,700.49.

Naval Asylum, Philadelphia, $63,167, which sum shall be paid out of the income from the naval pension fund.

BUREAU OF MEDICINE AND SURGERY.

Medical Department.—For surgeons' necessaries for vessels in commission, navy-yards, naval stations, Marine Corps, and Coast Survey, and for the civil establishment at the several Naval hospitals, Navy-yards, Naval laboratory, museum of hygiene, and Naval Academy, $57,500.

Naval hospital fund, $30,000.

Naval hospital and sanitarium and wharf for landing, on Widow's Island, Penobscot Bay., Me., $50,000, to be immediately available; said sum to be in full for all expenses of erecting and furnishing said sanitarium, including all necessary improvements on the island. Contingent, $25,000. For necessary repairs of naval laboratory, naval hospitals, and appendages, including roads, wharves, outhouses, sidewalks, fences, gardens, farms, and cemeteries, $15,000. For the improvement of the naval hospital park at Portsmouth, Va., $5,000.

BUREAU OF PROVISIONS AND CLOTHING.

For provisions for the seamen and marines; commuted rations for officers, naval cadets, seamen, and marines; commuted rations stopped on account of sick in hospital and credited to the hospital fund; water for drinking and cooking purposes on board ships; and for labor and expenses of inspections, in all $1,121,000.

Contingent expenses, $50,000; and to pay the expenses of consolidating and arranging, under orders of the Secretary of the Navy, the stores and other property of the United States under control of the Department of the Navy, to be immediately available, $20,000, or as much thereof as may be necessary. For the civil establishment, to include clerks, firemen, writers, receivers, assistant receivers, messengers, leading men and pressmen in inspection office, superintendent of coffee and spice mill, boxmaker, coffee roaster, engine tender, teamster, telephone operating, cutter, machine operator, and laborers, $70,000.

BUREAU OF CONSTRUCTION AND REPAIR.

Construction and repair of vessels: For preservation and completion of vessels on the stocks and in ordinary; purchase of materials and stores of all kinds; for steam-steerers, pneumatic steerers, steam-capstans, steam-windlasses, and other steam auxiliaries; labor in Navy-yards and on foreign stations; purchase of machinery, and tools for use in shops; wear, tear, and repair of vessels afloat, and for general care, increase, and protection of the Navy in the line of construction and repair; incidental expenses, such as advertising, freight, foreign postages, telegrams, photographing, books, plans, stationery, and instruments for drawing room, $900,000: *Provided*, That no part of this sum shall be applied to the repairs of any wooden ship when the estimated cost of such repairs, to be appraised by a competent board of naval officers, shall exceed 20 per cent. of the estimated cost, appraised in like manner, of a new ship of the same size and like material : *Provided further*, That nothing herein contained shall deprive the Secretary of the Navy of the authority to order repairs of ships damaged in foreign waters or on the high seas, so far as may be necessary to bring them home: *Provided further*, That the Secretary of the Navy shall sell the *New York*, under the laws and regulations applicable to the sale of condemned property in the Navy Department.

For repairs on the *Hartford*, *Kearsarge*, *Trenton*, *Swatara*, *Thetis*, *Richmond*, *Nipsic*, and *Enterprise*, or such of said vessels as the Secretary of the Navy may deem advisable, $200,000, to be immediately available.

Civil Establishmeut—Portsmouth, N. Hampshire: For one clerk to naval constructor, at $1,400; two writers, at $1,017.25. Boston—For one clerk to naval constructor, at $1,400; one writer, at $1,017.25. Brooklyn—For one clerk to naval constructor, at $1.400; three writers, at $1 017.25. League Island—For one clerk to naval constructor, at $1.400. Washington—For one clerk to naval constructor, at $1,400. Norfolk—For one clerk to naval constructor, at $1.400; two writers, at $1,017.25. Pensacola—For one writer, at $1.017.25. Mare Island—For one clerk to naval constructor, at $1,400; two writers, at $1,017.25 each. In all, $20,989.75. And no other fund appropriated by this act shall be used in payment of such services.

BUREAU OF STEAM-ENGINEERING.

Steam Machinery.—$75,000. *Provided*, That no part of said sum shall be applied to the repair of engines and machinery of wooden ships where the estimated cost of such repair shall exceed twenty per centum of the estimated cost of new engines and machinery of the same character and power; but nothing herein contained shall prevent the repair or building of boilers for wooden ships the hulls of which can be fully repaired for twenty per centum of the estimated cost of a new ship of the same size and materials.

Contingent.—$500.

Civil Establishment.—Portsmouth—For clerk to department, at $1,200; messenger, at $600. Brooklyn—For clerk to department, at $1,400; draughtsman, at $1,500; messenger, at $600; writer, at $1,000; assistant draughtsman, at $1,200. League Island—For clerk to department, at $1.200. Norfolk—For clerk to department, at $1,300; assistant draughtsman, at $1,100; messenger, at $600. Pensacola—For writer, at $1,000. Mare Island—For clerk to department, at $1,400; draughtsman, at $1,500; messenger, at $600; writer, at $1,000; in all, $17,200.

Naval Academy.—$203,830.45.

Marine Corps.—$872,935.90.

Sec. 2. That for the purpose of increasing the naval establishment of the United States the President is hereby authorized to have constructed, by contract, 2 steel gunboats of 1,700 tons displacement, of type of gunboat No. 1, to cost $550,000 each, and 2 steel cruisers, to be provided with such armament for each as the Navy Department may deem suitable. The cost of both of said cruisers in the aggregate, complete, exclusive of armament, shall not be more than $3,000,000. The sum of $1,500,000 is hereby appropriated out of any money in the Treasury not otherwise appropriated toward construction of said vessels. That in the construction of the aforesaid vessels all of the provisions of the act of August 3, 1886, entitled "An act to increase the naval establishment," as to material for said vessels, their engines, boilers and machinery, the contracts under which they are built, the notice of and proposals for the same, the plans, drawings and specifications therefor, and the method of executing said contracts, shall be observed and followed, and said vessels shall be built in compliance with the terms of said act, so far as the same relate to vessels constructed under contract, save that in all their parts they shall be of domestic manufacture. The contracts for the construction of said cruisers shall contain provisions to the effect that the contractor guarantees that when completed and tested for speed, under conditions to be prescribed by the Navy Department, the vessel shall exhibit a maximum speed of at east 19 knots per hour; and for every quarter knot of speed so exhibited above said guarantee the contractor shall receive a premium over and above his contract-price of $50,000, and for every quarter knot that said vessel fails of reaching said guaranteed speed there shall be deducted from the contract-price the sum of $50,000.

In making proposals for contracts for building the vessels authorized to be constructed under this act, it shall be required that one of such vessels shall be built on or near the coast of the Pacific Ocean, or the waters connecting therewith, one of them on or near the coast of the Gulf of Mexico, or the waters connecting therewith, and 2 of them on or near the coast af the Atlantic Ocean, or the waters connecting therewith, and at such places on or near such coasts or waters as the Secretary of the Navy shall approve.

If it shall appear to the satisfaction of the President of the United States, from the biddings for said contracts, when the same are opened and examined by him, that said vessels cannot be constructed at a fair cost on or near the coast of the Pacific Ocean or the Gulf of Mexico, he shall authorize the construction of said vessels, or either of them elsewhere in the U. S.

That for the purpose of further increasing the naval establishment or the United States, the sums of money hereinafter named are hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be expended by the President, in the exercise of his discretion, upon plans and specifications to be furnished by the Navy Department: For floating batteries or rams, or other naval structures to be used for coast and harbor defence, $1,000,000; the final cost of said batteries, etc., not to exceed $2,000,000, exclusive of armament. For the purchase of and the trial and testing of torpedoes and appliances, using explosives to be operated from naval vessels, floating batteries or rams, $50,000, which sum shall be immediately available.

That the material used in all naval structures provided for in this act, and the armament for the same, shall be, so far as practicable, of American production and furnished and manufactured in the United States, and all contracts made for their construction shall be under the provisions of the act of Aug. 3, 1886, entitled "An act to increase the naval establishment:" *Provided*, That the Secretary of the Navy may employ and pay out of appropriations for new ships such civilian expert aids, additional draughtsmen, writers, copyists, and model makers on the designs therefor as may be necessary.

Sec. 4. For expenditure toward the construction and completion (exclusive of armament) of the five double turreted monitors, the four vessels authorized by the act of March 3, 1885, and the vessels authorized by the act of August 3, 1886, $2,420,000.

Towards the armament of domestic manufacture for the vessels authorized by the act of March 3, 1885, of the vessels authorized by sections one and two of the act of Aug. 3, 1886, of the unfinished monitors mentioned in sec. 3 of the same act, and of the *Miantonomoh*, and of vessels authorized by this act, $1,128,362.

Towards procuring, testing, and delivering the armor and gun steel for the vessels authorized by sec. 1 of the act of Aug. 3, 1886, and the unfinished monitors mentioned in sec. 3 of the same act, and the vessels authorized by this act, $4,000,000: *Provided*, Said armor and gun steel shall be of domestic manufacture.

To enable the Secretary of the Navy to carry out the recommendation contained in the report of the Naval Board, Capt. J. A. Howell, president, dated June 5, 1886, and purchase one pneumatic gun carriage and necessary attachments, $25,000, or so much thereof as may be necessary, the weight, space, and conditions of working to be agreed upon between the Department and the company.

BOGUS VETERAN—Will you be kind enough to tell me if it is a fact that the President has vetoed the Pension bill? Gentleman—He has. "Well, if this country gets into another war, just count me out. I'll never risk my life again in the service of my country." "Were you hurt during the war?" "Indeed I was." "What regiment were you in?" "I wasn't in any regiment. I got the rheumatism from bathing in the St. Lawrence River during the second day of the battle of Gettysburg. Ah, Sir, those were the times that tried men's souls. Haven't got a surplus dime for an old vet, have you?"

LORD WOLSELEY ON GENERAL LEE.

(Extracts from Gen. Wolseley's Article in McMillan's.)

GEN. LEE'S presence commanded respect, even from strangers, by a calm, self-possessed dignity, the like of which I have never seen in other men. Naturally of strong passions, he kept them under perfect control by that iron and determined will of which his expression and his face gave evidence. He was then just fifty-four years old, the age of Marlborough when he destroyed the French Army at Blenheim. In many ways and on many points these two great men much resembled each other. Both were of a dignified and commanding exterior, eminently handsome, with a figure tall, graceful and erect, while a muscular, square-built frame bespoke great activity of body. The charm of manner which I have mentioned as very winning in Lee, was possessed in the highest degree by Marlborough. Both, at the outset of their great career of victory, were regarded as essentially national commanders. Both had married young and were faithful husbands and devoted fathers. Both had in all their campaigns the same belief in an ever watchful Providence, in whose help they trusted implicitly and for whose interposition they prayed at all times. They were gifted with the same military instinct, the same genius for war, the power of fascinating those with whom they were associated, the spell which they cast over their soldiers who believed almost superstitiously in their certainty of victory. Their contempt of danger and their daring courage constitute a parallel that is difficult to equal between any other two great men of modern times.

What most strikes the regular soldier in these campaigns of Gen. Lee is the inefficient manner in which both he and his opponents were often served by their subordinate commander, and how badly the staff and outpost work generally was performed on both sides. It is most difficult to move with any effective precision young armies constituted as these were during this war. The direction and movement of large bodies of newly raised troops, even when victorious, are never easy and often impossible. Over and over again was the South apparently within a stone's throw of independence, as it has been many times remarked, when from want of a thoroughly good staff to organize the pursuit the occasion was lost and the enemy allowed to escape. Lee's combinations to secure victory were the conceptions of a truly great strategist, and when they had been effected his tactics were also almost always everything that could be desired up to the moment of victory. But there his action seemed to stop altogether. Was ever an army so hopelessly at the mercy of another as that of McClellan when he began his retreat to Harrison's Landing after the seven days' fighting round Richmond? What commander could wish to have his foe in a tighter place than Burnside was in after his disastrous attack upon Lee at Fredericksburg? Yet in both instances the Northern commander got safely away; and other similar instances could be mentioned. The critical military student of this war who knows the power which regular troops, well officered and well directed by a thoroughly efficient staff, placed in the hands of an able general, and who has acquired an intimate and complete knowledge of what these two contending American armies were really like, will, I think, agree that from first to last the cooperation of even one army corps of regular troops would have given complete victory to whichever side it fought on.

One of Lee's faults was a too great dread of wounding the feelings of others, which led him to leave incompetent men to fill important positions. This softness of heart or amiability, however good in itself, may amount to crime in the man intrusted with public affairs at critical moments. Lee's devotion to duty and great respect for obedience seem at times to have made him too subservient to those charged with the civil Government of his country. He carried out too literally the orders of those whom the Confederate Constitution made his superiors, although he must have known them to be entirely ignorant of the science of war. He appears to have forgotten that he was the great revolutionary chief engaged in a great revolutionary war, that he was no mere leader in a political struggle of parties carried on within the lines of an old, well established form of Government. It was very clear to many at the time, as it will be commonly acknowledged now, that the South could only hope to win under the rule of a military dictator. If Gen. Washington had had a Mr. Davis over him, could he have accomplished what he did? It will I am sure be news to many that Gen. Lee was given command over all the Confederate armies a month or two only before the final collapse, and that the military policy of the South was throughout the war dictated by Mr. Davis as President of the Confederate States. He had no power to reward soldiers or promote officers. It was Mr. Davis who selected the men to command divisions and armies.

Gen. Lee was opposed to the defence of Richmond at the last and he was right, for if he had drawn Gen. Grant's great army into the interior, far away from his base of supplies, he would have greatly weakened it. But it were vain to speculate. Richmond fell and Lee's army surrendered. Who shall ever fathom the depth of Lee's anguish when the bitter end came, and when beaten down by sheer force of numbers and absolutely nothing else, he found himself obliged to surrender?

When all the angry feelings roused by the Secession are buried with those which existed when the Declaration of Independence was written; when Americans can review the history of their last great rebellion with calm impartiality, I believe all will admit that Gen. Lee towered far above all men on either side in that great struggle. I believe he will be regarded not only as the most prominent figure of the Confederacy, but as the great American of the nineteenth century, whose statue is well worthy to stand on an equal pedestal with that of Washington, and whose memory is equally worthy to be enshrined in the hearts of all his countrymen.

Lord Wolseley said that Lee told him that he had only 30,000 men in front of McClellan at Antietam, with a few tired reserves behind, while McClellan had an army of 100,000 men. He states that Lee always spoke well of McClellan, though he spoke bitterly of none of his Federal opponents. In his reference to the thirty-five days' fighting around Richmond, just before the surrender at Appomattox, Wolseley says; "Lee had only 55,000 exhausted soldiers to oppose 190,000 fresh men under General Grant."

Speaking of the United States, Lord Wolseley recently said: "I am a great admirer of America and the American people. I witnessed at Washington the final review of the armies of the republic at the close of the war. The spectacle of that immense force melting away among the people and being almost immediately absorbed was the most colossal I have ever seen, and left upon me an ineffaceable impression. I never lose the opportunity of assuring people in England that the education of a public man is not complete until he has been in America and stayed there six months. Every step which brings England and America nearer together seems to me a step nearer the realization of the ideal civilization of the future. I am therefore always delighted when I hear of an Englishman marrying an American lady, or vice versa. With such a miserable squabble over a kettle of fish, as the present fisheries dispute, I have not a moment's patience. I am convinced that if I, or any man of ordinary tact or experience, was sent over with sufficient authority to arrange matters with a similar American representative, the whole affair could be settled outright, and in a week."

THE 110 AND 118-TON GUNS.

THE English 110-ton gun was fired for the first time on Feb. 12th at the proof-butts adjoining Woolwich Arsenal. It measures within a small fraction of 44 feet. Its actual weight is 247,795 lbs. The order being given to load, a dozen gunners withdrew from the breech the big screw block which closes it, in weight 2¼ tons, and swung it by the help of a derrick on to an adjacent shelf, while the projectile and charge were inserted. The former is a bolt of iron, 1,800 lbs. in weight and 16¼ inches in diameter. The charge of 600 lbs. was divided into separate cartridges of 150 lbs. each, for convenience of handling. The gun recoiled about 20 feet up the platform, the total weight being 225 tons, and the incline 5 deg. The velocity was found to be 1,695 feet per second, and the pressure 9.65 tons. Two more rounds were afterwards fired, with charges of 700 lbs. and 800 lbs. of powder, the ultimate charge decided upon being 900 lbs.

A further trial was had, Feb. 15th, with 850 lbs. of powder. Although the pressure rose beyond anticipation, the velocity was not increased proportionately, the estimated velocity being slightly over 1,200 feet per second, while the actual muzzle velocity attained was 2,078 feet. The recoil of the gun on its carriage was 3 feet 3 inches only, as compared with 4 feet 6 inches with the 800 pounds powder charge on the former occasion. The remainder of the programme, to fire 900-pound and 950-pound charges, will most probably be carried out with slower burning Waltham Abbey powder.

The weight of the largest Krupp gun, the 40 c. m., is 121,000 kg., 118 tons. Its calibre is 15.75 inches; length of bore, 35 calibres, or 45.93 feet. The breech mechanism is heavier than that of the English gun, weighing 3,760 kg., or 8,290 lbs. It fires a shot measuring 50.39 inches, and weighing 2314.8 lbs. The charges in the trials from Aug. 31 to Sept. 28, 1886, varied from 727.5 lbs. of brown prismatic powder, "Duneberg," made up into five cartridges of 145.5 lbs. each, to 846.57 lbs. The initial velocities obtained ranged from 1,736 feet to 1,899.5 feet, and the energies from 57,664 to 58,122 ft. tons. The longest range obtained (for five rounds) was about 7½ miles, 39,439 feet. The power of penetration into wrought iron is estimated at the muzzle as 40.94 inches at a distance of 1,000 metres, 1,093 yards, 38.19, the shot striking perpendicularly. The Italians have two of these guns mounted, but for some unexplained reason they ceased firing them after a few rounds. A third gun, which was manufactured for the Italian Government, has, we are informed, been sent back to the foundry and cut up. We give here a comparison between the two guns:

	Weight. Tons.	Calibre. Inches.	Charge. Lbs.	Projectile. Lbs.	In. vel. Feet.
Krupp	119	15.75	827	2,315	1,899
English	111	16.25	900	1,800	2,078

The mean pressure of the English gun was 18.75 tons per square inch, the total energy at muzzle 53.927 foot tons, or 490 foot tons per ton of gun. The obturation, or means of stopping the escape of powder gas, is peculiar to this gun. It is not the Elswick cup nor the De Bange asbestos pad, but a modification introduced by Mr. Vavasseur, wherein the mushroom-head of the De Bange pad is retained, but the asbestos is replaced by a ring of soft copper which is forced by compression, on the discharge of the gun, into close contact with the inner tube; no ring is required to be inserted inside the end of the bore.

The polygroove rifling commences with one turn in 120 calibres and increases to one turn in 56 calibres at the muzzle. The fourth round (which was fired on Wednesday, Feb. 16) was fired with 850 lbs. of Westphalian powder, "Prismatic, No. 1 Brown," the prisms measuring 1¼ in. from face to face and 1 in. in length.

PENSACOLA, FLA.

A CORRESPONDENT writes: On Monday, Feb. 21, a most delightful and highly fashionable reception was given at the Osceola Club. All of our Pensacola ladies looked unusually stylish. The following were the guests from the Army and Navy: Gen. Judson A. Bingham, U. S. A., and wife, the latter in rich black silk and lace; Col. L. L. Langdon, U. S. A., commanding at Barrancas, and wife, who was richly dressed in cream silk, rare old lace, pearls and diamonds; Lieut. M. Crawford, 2d Art., on Col. Langdon's staff; Mrs. Crawford, black velvet and crimson trimmings, with elegant jewelry; Mrs. O. Horton, of Augusta, Ga., (guest of Lieut. and Mrs. Crawford), blue surah silk, Valenciennes lace, pearl trimmings, diamonds; Evelyn L. Spotts, white silk and silk mull and pearl roses; Lieut. L. G. Fillette, U. S. N., and wife, who wore an elegant bridal costume of white silk. This reception at the Osceola Club was the closing event of the social entertainments before Lent, and was a great success. The gentlemen of the city present looked splendid in the regulation full-dress evening suit. The officers of the Army and Navy presented a noble appearance in full dress uniform. Gen. Bingham did not "don" his uniform, yet looked the fine, dignified officer to perfection in full dress citizen suit.

CAPTAIN A. E. WOOD, 4th U. S. Cavalry, of Fort Bowie, was married recently at Chicago to Miss Minnie M. Mansfield, daughter of the Rev. D. Mansfield.

THE ARMY.

ARMY NOMINATIONS TO THE SENATE.

February 26, 1887.

For Appointment by Transfer—1st Lieut. Arthur C. Ducat, Jr., 3d Cavalry, to be 1st Lieut., 24th Inf., Feb. 23, 1887, with rank in the infantry arm from Nov. 26, 1884.

1st Lieut. Henry L. Ripley, 24th Inf., to be 1st Lieut., 3d Cav., Feb. 23, 1887, with rank in the cavalry arm from Nov. 26, 1884.

February 28, 1887.

9th Cavalry—2d Lieut. John F. McBlain to be 1st Lieut., Feb 11, 1887, vice Conline, promoted.

2d Infantry—1st Lieut. Luther S. Ames to be Captain, Feb. 27, 1887, vice Cook, promoted to the 13th Infantry.

2d Lieut. Abner Pickering to be 1st Lieut., Feb. 27, 1887, vice Amos, promoted.

13th Infantry—Capt. Henry C. Cook, 2d Inf., to be Major, Feb. 27, 1887, vice Vance, deceased.

March 1, 1887.

(Under act approved Feb. 28, 1887.)

Adjutant General's Department—To be Assistant Adjutant Generals, with the rank of Colonel: Lieut. Cols. Wm. D. Whipple and Chauncey McKeever, Feb. 28, 1887, to fill original vacancies.

To be Asst. Adjt. Gens., with the rank of Lieut. Col.: Major Oliver D. Greene, Feb. 28, 1887, vice Whipple, promoted; Major Samuel Breck, vice McKeever, promoted; Major Henry C. Wood and Major James P. Martin, Feb. 28, 1887, to fill original vacancies.

Accompanying the nomination of 2d Lieut. John F. McBlain to be 1st Lieut., 9th Cav., sent to the Senate on Monday, is the following memorandum from the President: "This nomination is accompanied by a statement from the Secretary of War, the findings of a court-martial before which the said John F. McBlain was tried, showing the disapproval by the department commander of the sentence of said court, and also by an opinion of the Acting Judge Advocate General, showing the present position of the said McBlain as related to said trial and sentence. He has been once rejected by the Senate upon his nomination for promotion; but a vacancy having again occurred in the rank next above him, and he still retaining a rank in his company which, notwithstanding such court-martial and previous rejection, apparently makes it my duty, under the law and Army regulations, to nominate him for such vacancy, his name is again submitted to the Senate for its action."

March 3, 1887.

13th Infantry—1st Lieut. John S. Bishop to be Captain, March 2, vice Pratt, deceased.

2d Lieut. Charles S. Hall to be 1st Lieut., March 2, vice Bishop, promoted.

8th Cavalry—Capt. Edmond G. Fechet to be Capt., 8th Cav., to rank from May 23, 1870. (This nomination is in accordance with an act of Congress just approved, by which Capt. Fechet gets a number above instead of below Capt. Wells.)

The nomination of Lieutenant John F. McBlain was not acted upon by the Senate. With this exception all Army nominations, including those contained in this issue of the JOURNAL, and Captains O'Reilly and Heizmann to be Surgeons, and Paul Clendenin, George L. G. Anderson and Robert R. Ball to be Asst. Surgeons, have been confirmed, the medical cases under date of Feb. 28. The record of Army nominations has been unusually clear this session, not a single appointment or promotion being rejected or recalled.

G. O. 11, H. Q. A., Feb. 16, 1887.

By direction of the Secretary of War, the use of Form 12, Quartermaster's Department, is discontinued, it being no longer necessary in the preparation of accounts of that department, and Form 11, of the same department, is amended to agree with the example published herewith.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 16, H. Q. A., Feb. 26, 1887.

Publishes the act of Congress to amend section sixteen hundred and sixty-one of the Revised Statutes, making an annual appropriation to provide arms and equipments for the militia.

G. O. 17, H. Q. A., Feb 28, 1887.

The following order, received from the War Department, is published for the information and guidance of all concerned:

The Minneapolis and St. Louis Railway Company having on Feb. 8, 1886, abandoned the use of the land grant railroad of the St. Paul, Minneapolis and Manitoba Railway Company between St. Paul and Minneapolis, and having on that date assumed the control and use of the non-land grant railroad of the St. Paul and Northern Pacific Railway Company in transporting passengers and freight between the points named, it is directed that no deductions for land grant be made in the settlement of accounts of the Minneapolis and St. Louis Railway Company for the transportation of United States troops and military supplies between St. Paul and Minneapolis on and after Feb. 8, 1886. The St. Paul, Minneapolis and Manitoba Railway between those points will be continued to be treated as a land grant railroad.

The Minneapolis and St. Louis Railway Company will be stricken from the list of land grant railroads, pages 16 and 17 of G. O. 89, Adjutant General's Office, of 1885.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 18, H. Q. A., Feb. 17, 1886.

Publishes the acts of Congress, approved Feb. 17: "Making an appropriation for the establishment and erection of a military post near the city of Denver, in the State of Colorado: the act to grant the right of way through Fort Bliss Military Reservation to the Rio Grande and El Paso Railroad Company, and the act authorizing the Secretary of War to adjust and settle the account for arms, ammuniton, and accoutrements between the Territory of Montana and the United States.

CIR., WAR DEPARTMENT, A. G. O., Feb. 24, 1887.

The amount of U. S. bonds now held in trust by the Treasury of the U. S. to secure public deposits in the Tradesmen's National Bank of Pittsburg, Pa., is $300,000.

CIR., WAR DEPARTMENT, A. G. O., Feb. 26, 1887.

The amount of U. S. bonds now held in trust by the Treasurer of the U. S. to secure public deposits in the Norfolk National Bank, of Norfolk, Va., is $300,000.

WAR DEPARTMENT, A. G. O., March 1, 1887.

Publishes proclamation of President of U. S., directing that the military reservation at Fort Colville, Washington Territory, be placed under the control of the Secretary of the Interior for disposition, having become useless for military purposes.

G. O. 3, DEPT. OF CALIFORNIA, Feb. 2, 1887.

Pistol practice will be held by the troops of cavalry twice each week during two months not included in the target season.

Post and troop commanders will use their utmost endeavors to bring this important branch of instruction to a high state of efficiency.

CIR. 5, OFFICE OF CHIEF OF ENGINEERS, Feb. 14, 1887.

The granting of general authority for the employment of Assistant Engineers and others provided for under par. 2487 A. R. 1881 is not considered to be in accordance with the spirit and intent of the regulation. In all such cases, separate authority must be obtained from the Chief of Engineers for each work for which specific appropriation has been made. . . . When work is suspended, from the exhaustion of the appropriation or other cause, and the services of such an employee are dispensed with, the authority for his employment expires. Upon the renewal of operations, a new authority must be obtained.

G. O. 1, DEPT. OF MISSOURI, Feb. 21, 1887.

The "practice season" for posts for 1887, is:

Fort Crawford, Colo.—May, June and July.
Fort Elliott, Texas—May, June and September.
Fort Gibson, I. T.—April 15 to June 14 and October.
Fort Hays, Kas.—May, June and July.
Fort Leavenworth, Kas.—June, September and October.
Fort Lewis, Colo.—June, July and September.
Fort Lyon, Colo.—May, September and October.
Fort Reno, I. T.—April 20 to June 19, and Sept. 20 to Oct. 19.
Fort Riley, Kas.—May, June and September 15 to Oct. 14.
Fort Sill, I. T.—May, June and October.
Fort Supply, I. T.—May 15 to June 30, and Sept. 1 to Oct. 14.

Post commanders will designate at least two months for pistol practice for all cavalry troops of their respective commands, care being taken that the period selected does not in any way interfere with the practice season for Rifle and Carbine firing.

It has been observed that little or no attention has been paid by some post commanders to the provisions of pars. 13 and 14, "Blunt's Rifle and Carbine Firing." Failure to comply with the requirements of these regulations hereafter will be regarded as a positive neglect of duty.

CIR. 3, DEPT. OF THE PLATTE, Feb. 19, 1887.

Publishes a table so that Post and Regimental Commanders and Recruiting Officers may have information of the "Authorized and Actual Strength" of troops and companies in this Department, and guard against making enlistments or assignments in excess of the "Authorized Strength."

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

The Inspector General, Dept. of Dakota, will proceed, on inspection service, to Bismarck and Fort Abraham Lincoln Ordnance Depot, D. T., returning to St. Paul upon completion of the duty (S. O. 13, Feb. 21, D. Dakota).

Pay Department.

Major De Witt C. Poole, Paymr., will proceed to Portland, and receive from Major James P. Canby, Chief Paymr., all public funds in his possession. During the temporary absence of Major Canby, Major Poole will assume the duties of Chief Paymr. (S. O. 30, Feb. 18, D. Columbia.)

Under S. O. 25, A. G. O, Major Daniel N. Bash, Paymr., is relieved from duty in the Dept. of Texas (S. O. 24, Feb. 19, D. Texas).

Payment of troops will be made as follows: Major Alfred E. Bates, Paymr., Forts Abraham Lincoln, Yates, and Totten, D. T. Major William H. Eckels, Paymr., Forts Sisseton and Pembina, D. T., and Fort Snelling, Minn. Major Eckels will return to his proper station. Major John E. Blaine, Paymr., Forts Shaw, Assiniboine and Missoula, M. T., and Troop M, 1st Cavalry, at Camp Sheridan, Yellowstone National Park, Wyo. T. Major James R. Roche, Paymr., Forts Randall, Sully, Bennett and Meade, D. T. Major Charles H. Whipple, Paymr., Forts Keogh, Custer and Maginnis, M. T., Fort Buford, D. T., and Camp Poplar River, M. T. (S. O. 14, Feb. 23, D. Dakota.)

The troops in the Dept. of Missouri will be paid, to include the muster of Feb. 28, 1887, as follows: At the Leavenworth Military Prison and the Ordnance Detachment at Fort Leavenworth, Kansas, by Lieut. Col. W. A. Rucker, Deputy Paymr. Gen. At the Cavalry Recruiting Depot and Ordnance Powder Depot at Jefferson Barracks, Missouri; Forts Gibson, Sill and Reno, and Camp Martin, I. T., by Major Wm. Smith, Paymr. At Forts Leavenworth, Riley and Hays, Kansas, by Major Alexander Sharp, Paymr. At Forts Supply, I. T., Elliott, Texas, Lyon, Crawford and Lewis, Colorado, and Troop F, 6th Cavalry, at Amargo, N. M., by Major J. P. Baker, Paymr. (S. O. 25, Feb. 25, Dept. Mo.)

Medical Department.

The leave of absence for seven days granted to Capt. W. Gray, asst. surg., is extended twenty-three days (S. O. 13, Feb. 21, D. Dak.)

The contract of A. A. Surg. R. M. Whitefoot is annulled (S. O. 27, Feb. 14, D. Columbia).

Leave for one month, on surgeon's certificate, is granted Capt. W. F. Carter, asst. surg., Fort Ringgold (S. O. 25, Feb. 24, D. Texas).

Capt. Louis S. Tesson, asst. surg., is assigned to duty as attending surgeon at Div. H. Q., and as examiner of recruits at Chicago (S. O. 24, Feb. 28, Div. Missouri).

Hospl. Steward Henry Winkelmann is relieved from duty in the Dept. of Mo. (S. O. 24, Feb. 24, Dept. Mo.)

The Kansas City *Times*, referring to the departure from Fort Leavenworth for Frankford Arsenal, Pa., of Hospital Steward Henry Winkelman, says: "He has been in the Army over 28 years, and while his departure from here is regretted by his friends, they are pleased with the pleasant station to which the War Department has assigned him."

Engineers and Ordnance Departments.

Col. Wm. P. Craighill, C. E., will proceed to Washington, D. C., and Norfolk, Va., on duty connected with works under his charge (S. O. 32, Feb. 25, C. E.)

Capt. Daniel W. Lockwood, C. E., will proceed to the harbor at Saint Joseph, Mich., on duty connected with works under his charge (S. O. 32, Feb. 25, C. E.)

Lieut. Col. Walter McFarland, C. E., will proceed to Washington, D. C., on duty connected with the improvement of New York Harbor (S. O. 33, Feb. 26, C. E.)

Capt. William T. Rossell, C. E., will proceed to Vicksburg and Arkansas City on duty connected with works under his charge (S. O. 33, Feb. 26, C. E.)

Lieut. Lansing H. Beach, C. E., is relieved from duty as Recorder of the Board of Engineers, constituted by S. O. 23, H. Q., C. E., Feb. 10, 1887 (S. O. 33, Feb. 26, C. E.)

Major Charles J. Allen, C. E., will proceed to Eau Claire, Wis., on duty connected with works under his charge (S. O. 34, Feb. 28, C. E.)

Major Thomas H. Handbury, C. E., will proceed to La Grange Lock, on the Illinois River, on duty connected with works under his charge (S. O. 34, Feb. 28, C. E.)

The resignation by 1st Lieut. W. W. Gibson, Ord. Dept., of his commission as 2d Lieut., 3d Art., only, has been accepted (S. O., March 2, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Col. Nelson B. Sweitzer will inspect C. and G. E., Q. M. stores, and O. and O. stores at Fort Walla Walla (S. O. 29, Feb. 16, D. Columbia.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

S. O. 22, granting leave on Surgeon's certificate to Capt. J. C. Thompson, is revoked, for the reason that leave on Surgeon's certificate for six months was on Feb. 16 granted Capt. Thompson in S. O. 37, A. G. O. (S. O. 24, Feb. 19, D. Tex.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

1st Lieut. G. L. Scott will proceed from Los Angeles, Cal., to Albuquerque, N. M., on duty in connection with the assignment and distribution of cavalry horses (S. O. 20, Feb. 19, D. Ariz.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; D, Camp Del Rio, Tex.; E, F, G, K, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Capt. H. W. Sprole is designated as recruiting officer at Camp Del Rio, Tex. (S. O. 25, Feb. 24, D. Tex.)

Leave for four months, to take effect between April 1 and 10, is granted 2d Lieut. Andrew G. Hammond (S. O., March 1, H. Q. A.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

A furlough for four months is granted Sergt. William Robinson, Troop B (S. O. 24, Feb. 28, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

The journey performed Nov. 28 to 30, 1886, by 1st Lieut. S. L. Woodward, Adjt., changing station from Fort Grant, A. T., to Santa Fe, N. M., was necessary for the public service (S. O. 20, Feb. 19, D. Ariz.)

The extension of leave on Surgeon's certificate granted Capt. Robert G. Smither is further extended one month on account of sickness (S. O., Feb. 26, H. Q. A.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

Leave for one month is granted Capt. James E. Wilson, Fort Barrancas, Fla. (S. O. 41, Feb. 26, Div. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.

* Light battery.

Leave for one month on Surgeon's certificate is granted Capt. Arthur Morris, Fort Adams, R. I. (S. O. 44, March 2, Div. A.)

The leave granted 1st Lieut. Richard P. Strong, Fort Adams, R. I., is extended five days (S. O. 45, March 3, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.

* Light battery.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

By direction of the President the order from the War Department, dated Feb. 8, relating to 1st Lieut. Lewis H. Strother, published in S. O. 35, Feb. 11, is revoked (S. O., Feb. 26, H. Q. A.)

Major Edward Moale, 1st Inf., promoted from Captain 3d Inf., will report to commanding General Div. P. and Dept. Cal., for assignment to a station. (S. O., March 3, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

The leave for seven days granted 2d Lieut. F. T. Van Liew, Fort Omaha, is extended six days (S. O. 17, Feb. 18, D. Platte.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

2d Lieut. H. S. Cole, A. C. S. Fort Custer, is authorized to send, by express, to the nearest depository, all subsistence funds he may have on hand (S. O. 12, Feb. 19, D. Dak.)

Leave for one month and ten days is granted 2d Lieut. Erneste V. Smith, Fort Missoula (S. O. 24, Feb. 28, Div. M.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Col. William P. Carlin will inspect subsistence stores at Fort Cœur d'Alene (S. O. 27, Feb. 24, D. Columbia.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

1st Lieut. John Carland, R. Q. M., having served four years on the Regimental Staff, is relieved from duty as Quartermaster of this regiment, to date Feb. 28, 1887. 1st Lieut. A. M. Wetherill is appointed Quartermaster of this regiment, to date March 1, 1887, vice Carland, relieved. 1st Lieut. John Carland is assigned to Co. I (Orders 11, March 1, Hdqrs. 6th Infantry).

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

2d Lieut. John L. Barbour is relieved from duty at Fort Laramie and will proceed to Fort McKinney, Wyo., and report for duty with his company (S. O. 17, Feb. 18, D. Platte.)

The leave for one month granted Capt. Thaddeus S. Kirtland is extended ten days (S. O. 23, Feb. 25, Div. M.)

Lieut. Colonel Edward Collins, 7th Infantry, promoted from Major 1st Inf., now waiting orders at Milton, Mass., will report in person to the Commanding General, Dept. Platte, for assignment to duty. (S. O. March 3, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

Private Herman Loth, Co. F, hospital steward, 2d class, will proceed to Fort Thomas, A. T., and report for duty (S. O. 19, Feb. 18, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

2d Lieut. J. A. Perry will proceed from Los Angeles to San Francisco in charge of public animals, and upon arrival will report to the Chief Q. M. for further orders (S. O. 21, Feb. 21, D. Ariz.)

Leave for four months, to take effect about March 15, is granted 2d Lieut. Andre W. Brewster (S. O., Feb. 26, H. Q. A.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

The extension of leave granted Capt. George S. Wilson is further extended seven days (S. O., Feb. 26, H. Q. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Leave for ten days is granted 1st Lieut. Thomas S. Mumford, recruiting officer (S. O., Feb. 26, H. Q. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Lieut. Col. Isaac D. DeRussy, Inspector of Rifle Practice, will proceed to Benicia Barracks, Cal., on public business (S. O. 8, Feb. 2, D. Cal.)

Capt. Gilbert S. Carpenter will inspect Q. M. stores, subsistence property and stores at Fort Klamath (S. O. 29, Feb. 16, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Kas.

The leave for seven days granted 1st Lieut. G. L. Turner, Adjt., Fort Hays, is extended ten days (S. O. 23, Feb. 23, Dept. M.)

The leave for seven days granted 1st Lieut. G. L. Turner, Adjt., is further extended thirteen days (S. O. 25, Feb. 25, Dept. M.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, E, F, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; G, Ft. Brown, Tex.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

The extension of leave on Surgeon's certificate granted 1st Lieut. Thomas W. Lord is still further extended until further orders on Surgeon's certificate (S. O., Feb. 26, H. Q. A.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. C. M. Truitt, Fort Du Chesne, Utah (S. O. 19, Feb. 24, D. Platte.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

The C. O. Fort Mackinac is authorized to issue a furlough for two months to Corpl. Frederick W. Earll, Co. E (S. O. 45, March 3, Div. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The leave for seven days granted 1st Lieut. W. H. W. James, Fort Reno, I. T., is extended eight days (S. O. 22, Feb. 21, Dept. M.)

1st Lieut. A. A. Augur is relieved from temporary duty at Fort Elliott, Tex., and will return to Fort Sill, I. T. (S. O. 24, Feb. 24, Dept. M.)

Capt. Charles C. Hood, 24th Inf., is appointed to act as inspector on certain clothing at the recruiting rendezvous, Philadelphia, for which 1st Lieut. A. L. Scott, 7th Cav., is responsible. (S. O., March 2, H. Q. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, February 26, 1887.

CASUALTY.

Major William P. Chambliss (retired), died February 22, 1887, at Cobourg, Ontario, Canada.

Courts-martial.

The following courts have been ordered:

At Fort Shaw, M. T., Feb. 24. Detail: Capts. George W. H. Stouch and Joseph Hale, 3d Inf.; 1st Lieut. George F. Wilson, Med. Dept.; 1st Lieuts. Fayette W. Roe, Adjt., Frederick Thies, R. Q. M., and Frank P. Avery, 2d Lieuts. Henry P. McCain and James H. McRae, 3d Inf., and 1st Lieut. William E. P. French, 3d Inf., J.-A. (S. O. 12, Feb. 19, D. Dak.)

At Fort Union, N. M., Feb. 28. Detail: Col. Henry Douglass, 10th Inf.; Major P. J. A. Cleary, Surg.; Major H. S. Hawkins, 10th Inf.; Major Emil Adam and Capt. Adam Kramer, 6th Cav.; Capts. C. L. Davis, John Drum, and W. T. Duggan, 10th Inf.; 2d Lieut. Thomas Cruse, 6th Cav.; 2d Lieuts. W. C. Wren, A. W. Brewster, R. L. Bullard, and E. M. Johnson, Jr., 10th Inf., and 1st Lieut. E. H. Plummer, 10th Inf., J.-A. (S. O. 21, Feb. 21, D. Ariz.)

At Fort Snelling, Minn., March 1. Detail: Lieut.-Col. James J. Van Horn, 25th Inf.; Capt. George B. Rodney, 4th Art.; Capt. Edwin J. Stivers, 1st Lieuts. Redmond Tully and Harvey D. Reed, 25th Inf.; 2d Lieut. Williston Fish, 4th Art.; 2d Lieuts. George P. Ahern, Alfred S. Frost, and Wm. F. Martin, 25th Inf., and 2d Lieut. Charles C. Tear, 25th Inf., J.-A. (S. O. 13, Feb. 21, D. Dak.)

At Fort Wayne, Mich., March 1. Detail: Capts. Charles Wheaton and Richard I. Eskridge, 1st Lieuts. Frederick L. Dodge, Orlando L. Wieting, and Stephen O'Connor, 2d Lieuts. Daniel B. Devore and George D. De Shon, 23d Inf., and 2d Lieut. W. H. Allaire, 23d Inf., J.-A. (S. O. 40, Feb. 25, Div. A.)

At Fort Monroe, Va., March 1. Detail: Major Alexander C. M. Pennington, 4th Art. Capt. James M. Ingalls, 1st Art.; Capt. Frank E. Nye, Sub. Dept. > Capt. William A. Kobbé and 1st Lieut. Henry H. Ludlow, 3d Art.; 1st Lieut. Edward E. Gayle, 2d Art.; 2d Lieut. Henry De H. Waite, 5th Cav.; 2d Lieut. Beverly W. Dunn, 3d Art.; 2d Lieut. Stephen M. Foote, 4th Art., and 2d Lieut. Adelbert Cronkhite, 4th Art., J.-A. (S. O. 41, Feb. 26, Div. A.)

At Madison Barracks, N. Y., March 3. Detail: Capts. Alex. B. MacGowan, David J. Craigie, and James Halloran, 1st Lieuts. Augustus G. Tassin, Frederick Von Schrader, and Robert K. Evans, 2d Lieuts. Charles W. Abbot, Jr., David J. Baker, Jr., Walter H. Gordon, and George J. Godfrey, 12th Inf., and 2d Lieut. Benjamin A. Poore, 12th Inf., J.-A. (S. O. 42, Feb. 28, Div. A.)

At Fort McHenry, Md., March 3. Detail: Major Richard Lodor, 3d Art.; Major William H. Gardner, Surg.; Capt. Edward R. Warner, 1st Lieuts. Edward C. Knower, James O'Hara, and Charles G. Woodward, and 2d Lieut. John K. Cree, 3d Art., and 1st Lieut. Charles Sellmer, 3d Art., J.-A. (S. O. 43, March 1, Div. A.)

At Fort Warren, Mass., March 7. Detail: Major La Rhett L. Livingston, 4th Art.; Capt. William C. Shannon, Asst. Surg.; Capts. John P. Story and George G. Greenough, 1st Lieuts. William F. Stewart and John A. Lundeen, 4th Art., and 1st Lieut. A. S. Cummins, 4th Art., J.-A. (S. O. 45, March 3, Div. A.)

Army Boards.

A Board of Survey, to consist of Capt. Matthew Markland, 1st Lieut. Thomas H. Barry, R. Q. M., and 2d Lieut. Charles B. Vogdes, 1st Inf., will assemble at Angel Island, Cal., Feb. 21, to fix the responsibility for loss of two mules and one buffalo overcoat, for which 1st Lieut. Lewis H. Strother, 1st Inf., late A. A. Q. M. Fort McDermit, Nev., is responsible (S. O. 9, Feb. 10, D. Cal.)

A Board of Officers, to consist of Lieut.-Col. C. E. Compton, 5th Cav.; Major A. A. Woodhull, Med. Dept.; Capt. C. A. Woodruff, 2d Art.; Capt. G. E. Pond, Q. M. Dept., and 1st Lieut. H. L. Ripley, 24th Inf., will meet at Fort Riley, Kas., Feb. 24, to report upon the sanitary condition and needs, water supply and sewerage at that post (S. O. 21, Feb. 18, Dept. M.)

A Board of Officers, to consist of Major Charles J. Allen and Capts. Daniel W. Lockwood and William L. Marshall, C. E., will assemble at Ashland, Wis., to report upon the improvement of Ashland Harbor, Wis. (S. O. 35, March 1, C. E.)

Retirements of Enlisted Men.

Sergt. Charles F. King, Mounted Service, Feb. 26, 1887.

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

The defeat in the House of Representatives of the Senate bill granting permission for the building of John Chamberlin's projected new hotel on the reservation at Fort Monroe is ascribed to the Hon. Harry Libby. The project and plans have been approved by the Secretary of War, Gen. Sheridan and the Chief of Engineers, and only Mr. Libby's "objection" is in the way.

(Correspondence of the Army and Navy Journal.)

WILLET'S POINT, N. Y. H.

THE Hipple brothers, charged with assaulting Samuel E. Taylor, of the Engineer Battalion, because he loved their sister, Miss Ella Hipple, were found not guilty. The local reporter says: "Upon the conclusion of the trial Miss Hipple embraced Taylor tenderly in the street near the Village Hall. They expect to be married as soon as his term of enlistment expires, which will be two years hence." In the meantime they "wait and hope."

The band of the Engineer Battalion stationed at Willet's Point, entertained the citizens of Whitestone, L. I., Tuesday evening with some excellent musical selections. Deppes International Hall was the scene of the entertainment and a large audience listened with pleasure to the inspiring strains of the band. The programme was prepared with care by Band Leader Julius Kamper. Mr. Kamper is an excellent violinist and his performances upon the King of Instruments were received with marked favor. A pleasing feature of the concert was Mr. Otto's cornet playing. The whole programme was good. After the concert the hall was prepared for dancing and votaries of Terpsichore paid tribute to the God of Song and Dance until broad daylight.

FORT LEWIS, COLORADO.

THE Kansas City *Times* says:

A board of officers has been sitting for the past ten days taking evidence as to reported irregularities at the post-traders and has obtained evidence that the trader was in the habit of letting out his tables in the saloon on pay day for $10 a day for gambling purposes; that the men could buy any desired quantity of liquors, and that articles sold to enlisted men were rated 200 per cent. higher than those sold to officers. The most serious case is that of a member of Co. G (Miner's), who was discharged and re-enlisted. He had his final statement cashed by the trader, for which he was to take a discount of 3 per cent. and to be paid whatever amount the paymaster would pay the trader. It turns out that the man only received $187, while the trader was paid $230. The soldier, knowing that he was not paid enough, asked to see the books. This was refused him, when he reported the matter to Capt. Miner, who wrote to Maj. Sharpe for information with the above result.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., March 1, 1887.

FOR nearly four years the seat of honor—the head of the table—of the bachelor officers' mess at West Point has been occupied by the Professor of Chemistry. When Professor Kendrick laid aside his duties and gave up his seat at the table, he resigned both to Professor Tillman. Nearly everyone thought that he would continue to grace *both* places as long as did his predecessor. It appeared as if the Chemical Department had a mortgage on that head seat, which had become outlawed and, therefore, uncollectable, but lo! the mortgage is about to be foreclosed by the clergyman instead of the sheriff. The announcement was made on Sunday of the engagement of Professor Tillman to Miss Williams, of Flushing, Long Island, the wedding to be in May. The presidency of the mess will go to Captain Sharpe, but as he is about to go and do likewise, Lieut. Homer will fall heir to the vacant seat. Next to him comes Lieut. Mott.

The first accident on the toboggan slide happened last Friday. As an officer, with two ladies, was going down, the toboggan became somewhat unmanageable and ran up on the bank alongside, when both ladies fell off. One escaped with a good shaking up, but the other received several cuts in the face and a sprained shoulder. There have been a number of upsets, but no one has been injured.

On Ash Wednesday the Rev. Mr. Thomas, of Highland Falls, held services at the chapel at 11 A. M. During Lent he will come to the Post every Tuesday afternoon. At the Catholic chapel there will be a service every Tuesday evening. Father Early has gone to Florida for his health, and his duties are performed by Father Smith, from St. Joseph's Church, New York.

Everyone is happy over the liberality of Congress to the Military Academy. A new gymnasium, another story and rebuilding of the Academic Building, new work shops with suitable appliances, etc., etc., will make things interesting. It is thought that it will take a long time to remodel the Academic Building, for it will have to be done so as not to intertere with the recitations. No site for the gymnasium has been selected, but the lot between Lieutenant Simpson's quarters and the cadet commissary building has been suggested as the most suitable. Another place is the hill south of barracks, but this will necessitate the removal of the brick house used for quarters for two of the cadet mess employees.

Lieut. Bettens, 9th Cavalry, and bride spent Saturday and Sunday at the post, the guest of Mrs. Postlethwaite.

The following-named persons have been designated for examination for admission to the U. S. Military Academy:

Alfred Whittemack Drew, Houston, Texas.
Bright Burnett Henshaw, Bloomfield, Cal.
Charles C. Ogden, Greenville, Ill.
Lucien G. Smith (Alt.), Greenville, Ill.
Joseph L. Moyse, Summit, Miss.
Harry J. Hirsch, Philadelphia, Pa.
Robert Walker Mearns, Kemblesville, Pa.
Wilson Jones Taylor (Alt.), Edgemont, Pa.
Henry Crosky Quigley, Blanchard, Pa.
George P. White, Union Township, Iowa.
M. E. Reed (Alt.), Waukon, Iowa.
John S. Sweitzer, Markleysburg, Pa.
Lee Catron, West Plains, Mo.
Joseph Albert (Alt.), Cape Girardeau, Mo.
John S. Sewell, Louisville, Ky.
Simon Everett Koown, Trenton, N. C.
B. F. Freed, Deavertown, Pa.
Charles Walter Fulkerson, Balls Mills, Va.
Vance Killiam Brownson (Alt.), Saltville, Va.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

FEBRUARY 24.

GLORIOUS GEORGE'S birthday has come and gone and was duly remembered here by some, though not by all. Patriotism flickers and we need some strong national incentive to fan it into a bright and steady flame. How would a war with Mexico at one end, Canada at the other, with England thrown in as a makeweight, do for the purpose? But of this anon.

Gen. Stanley and party have returned from Aransas Pass evidently well pleased with their trip. Major Bash left Saturday for Cheyenne, but Mrs. Bash will remain here for several weeks yet. Lieut. Brooks, 8th Cav., and bride returned last night, have been received into the inner circle, and have had many tokens of welcome. Miss Lillian L. Lee, daughter of Col. J. G. C. Lee, U. S. A., now of Chicago, arrived yesterday on a month's visit to Capt. and Mrs. Simpson. The young lady is a great favorite here. The civil employees on Government Hill have organized a social club with Mr. Holt, of the Subsistence Dept., President, and Mr. E. A. Derby, Secretary. Monthly hops are to be in order. I shall hop. Elmer Otis, son of Col. Otis, 8th Cav., was near being severely injured recently while playing polo. His pony ran against Lieut. Gaston's and young Otis was hurt, but not so much as at first thought. We had a Washington's Birthday hop which was a social success. While you Northern barbarians are tobogganing, we of the "Queen City of the West" enjoy lawn tennis. Col. Otis and a few friends are smitten with the royal game of golf, as our English friends here call it. Lieutenant Cabell is laboring hard to get the target range in order.

JOEY BAGSTOCK.

FORT WALLA WALLA.

THE *Morning Union* says:

Unquestionably the most enjoyable and brilliant party of the winter was the one given at the Garrison Hop Room Feb. 22 by Mrs. General Sweitzer, Mrs. Lieut. Kingsbury and Miss Wheelan. It marked a fitting close to an exceptionably pleasant winter season. Hacks began conveying their loads of maskers to the Hop Room about 8 o'clock in the evening, where they were received by the hostesses and Lieut. Kingsbury, new arrivals provoking wonder and setting the guessing faculties of their predecessors into active operation. Dancing was indulged in by the maskers to the inspiring music of the full 2d Cavalry orchestra, led by Prof. Meyrelles. The party broke up during "the wee sma hours ayant the twal."

FORT DAVIS, TEX.

THE Presidio County *News* says:

Dr. L. A. Buffington finds numerous old friends in the Fort Davis community.....Invitations are out for a hop to be given by the Brackett Social Club.....Lieut. W. H. Barnum was expected from Fort Hancock this week.....Capt. J. C. Thompson took advantage of the Government sale to dispose of his team of horses and carriage, which brought him the round sum of $250. He is improving in health and starts for Hot Springs, Ark.....Some of the younger officers and ladies of the post, with others, were at a "candy-pull" at Mrs. M. B. Anderson's one evening recently.

FORT NIOBRARA, NEB.

THE Valentine *Blade* says:

A Soiree Musicale was given by Mrs. Gen. Kautz Saturday evening, Feb. 5. The part performed by the 8th Infantry Band Quintette Club, which took nearly an hour, was wonderful. Mrs. Lippincott, whose voice is a full rich contralto, sang "Non Torno," and afterward "Dream of Home," in an artistic and pleasing manner. Mrs. Gen. Kautz sang "La Serenata" and "Waiting" with marked effect. The piano solo, by Miss Lynch, was well executed and showed good method and magnificent technique. Lieut. Emmett executed his number in pleasing style. Last, but not least, the piano duett, by W. Meissner and Master Austin Kautz, was a success.

FORT LEAVENWORTH, KAS.

THE Kansas City *Times* says:

The amateur talent of the post essayed the production of "A Scrap of Paper" at the hop room Monday night and met with unqualified success. The following was the caste: Louise de la Glaciare, Miss Melson; Suzanne de Ruseville, Miss Hawkins; Mathilde, Miss Alice Wherry; Mademoiselle Zenoble, Miss Wherry; Pauline, Miss Gretchen Wherry; Prosper Couramont, Mr. W. M. Arnold; Baron de la Glaciare, Mr. S. B. Arnold; Brismouche, Mr. J. G. Greer; Anatole, Mr. F. Nelson; Baptiste, Mr. H. Hawkins; Francois, Mr. C. Carland. The large audience which witnessed the performance was enthusiastic in the extreme. Mr. W. M. Arnold as Prosper Couramont, and Miss Nelson as Louise de la Glaciere sustained their different roles in a faultless manner, and, in fact, too much cannot be said in praise of the young people to whose untiring efforts those who were present are indebted for a most enjoyable evening. The 6th Infantry band furnished the music during the intermissions. After the performance refreshments were served at Mrs. Col. Arnold's residence to the caste and a few invited friends.....The recent organization of an Army co-operative fire association, with headquarters at this post, is meeting with great encouragement from Army officers stationed at almost every point of the country. It is entirely on the mutual assessment plan, and the object is to establish a fund from which a benefit not to exceed $2,000 shall be paid for the relief of members who may sustain losses by fire. The constitution and by-laws have been perfected, and already 50 officers have become members. The following are the officers elected for the present year: Lieut.-Col. A. K. Arnold, 1st Cav., president; Capt. Arthur MacArthur, 13th Inf., vice-president; Lieut. R. G. Hill, 20th Inf., secretary and treasurer. The members of the executive committee, consist of these officers and two others, Capt. C. A. Woodruff, 2d Art., and Lieut. Townsend, 6th Inf.

An amateur performance of "Penelope, or the Fatal Pepper Box," took place Feb. 24, for the benefit of the Kansas orphan asylum, with the following caste: Director, Lieut. Paddock; Pianist, Miss McCleery; Properties, Lieut. Atkinson; Penelope, Mrs. Barnhart; Mrs. Croaker, Mrs. Wetherill; Pitcher, Lieut. Atkinson; Tosser, Lieut. Alvord; Chalks, Lieut. McCarthy. Overture, 6th Infantry band. Prince Adolph March—Michaelis. Caledonian Club Parade. Operetta.

The singing was very fine and showed practical and strict attention to detail. The success of the entertainment was a surprise to all, no one having anticipated such talent for comic opera.

The Department Commander's reception, tendered to the officers at the fort, was a fit finale to a successful season, and to the career, well-nigh ended, of a hero who has been true to his God, to his country and to his race.

The dramatic stage was a feature this year far more pronounced than heretofore. Desertions are now almost unknown and disorders arising from drink are greatly diminished. The increased attendance at the Episcopal and Catholic chapels is quite noticeable. The chaplains are warm friends, backed up as they are by the eloquent spiritual director of the Military Prison, Chaplain McCleery.

FORT OMAHA, NEB.

THE *Excelsior* says:

The Misses Alice and Mary Brown and Miss Kinzie, daughter of Major Kinzie, gave a pleasant hop in the ballroom at Fort Omaha Washington's birthday. Many young people from the city were present....Capt. and Mrs. H. C. Cook entertained very handsomely their friends in the garrison on Tuesday evening of this week. The guests were treated to some choice vocal music, Mrs. Cook, Mrs. Wheaton and Lt. Kinzie gaining the applause of their audience. The instrumental music was from Mrs. Cook's new Sohmer piano recently received from New York. Capt. Cook is now the senior captain in the entire line of the Army, and his promotion to a majority may at any day occur, thus taking him from his old regiment where he is so well and favorably known: this loss together with that of his estimable wife, a lady of culture and refinement, will be universally regretted by the 2d Infantry. [Since this was written Capt. Cook has been promoted Major 13th Infantry.—ED. JOURNAL.]

COURT-MARTIAL CASES.

Pvt. Thomas H. Walsh, Co. H, 17th Inf., recently tried at Fort Bridger for having "on the approach of Chaplain G. W. Simpson, U. S. A., said in his presence and hearing, 'There comes the biggest fraud at the post,'" has been acquitted. (G. C. M. O. 4, D. Platte, 1887.)

VANCOUVER BARRACKS.

THE *Independent* says: A german was given Tuesday evening by Major Bazil Norris, Medical Director, which was highly successful....A. A. Surgeon W. M. Walker, who arrived last week, has gone to Fort Walla Walla....Col. H. M. Lazelle, A. I. G., on Friday evening delivered at the barracks his very interesting lecture on India, to a full house....Lt. J. J. O'Brien, 4th Inf., has been relieved at Vancouver Barracks, and returned to Fort Spokane.... The skirmishing between the beef contractors has been set down for March 17.

GETTYSBURG BATTLE-FIELD.

UPON the historic battle-field at Gettysburg, nearly 100 monuments, costing from $300 to $4,000 each, have been erected, and eight miles of avenues, substantially enclosed with wire fence, have been constructed. Across the twenty-five square miles of territory where the battle was fought—and which embraces the village and all the suburbs of Gettysburg—strips of land 300 feet wide, which embrace the lines of battle, the breastworks and the like, are being purchased of the original owners by the Battle field Memorial Association, along which the avenues are constructed. Upon these avenues the monuments are erected to mark the positions in line of battle occupied by the several commands, whose flanks are marked by appropriate tablets. The visitor of the future can drive along these highways and not only trace the lines of battle, but the identical positions occupied by each regiment as determined by the veterans themselves.

THE Secretary of State has received a dispatch from Minister McLane at Paris, in regard to the admission into this country of 50 chassepot muskets and accoutrements which he says the Government of France desires to present to the French Mutual Aid Society of San Francisco. The Secretary of State, in a letter to the Treasury Department on the subject, suggests that in view of the extraordinary character of the proposed gift, and pending the decision of the question as to whether a foreign country has a legal right to arm a military organization within the jurisdiction of this country, the arms be held at the Custom House at New York for the present. The Collector at New York has been instructed accordingly, and is busy reading up on the subject of the Trojan horse. Is this a movement on the part of the French to overthrow this republic in the interest of the Suez Canal?

THE RETICENT JOHN CREMONY.

To the Editor of the Army and Navy Journal:

I CERTAINLY agree with A. M. (your page 618) as to John Cremony's reticence!!!

Without invidiousness, he was among the most accomplished conversationalists it has been my fortune to meet. I first knew him at the Castle of San Carlos de Perote, Mexico, in '47, as a captain of the 1st Massachusetts. His battalion, under Lieut.-Col. Isaac Hull Wright, had just relieved Col. Black's battalion of Wynkoop's Pennsylvania. And Thanksgiving Day came and the Yankee officers projected a regular New England Thanksgiving dinner. When I say that among the brilliant representative Democratic officers of that regiment, many Pennsylvanians, some Illinoisians, and Regulars—Wright, Abbott, Mitchell of Illinois, the gifted Adjutant of the Massachusetts, McClaren and Cooper of the Army, Montgomery and Hoff of Pennsylvania, and all—John Cremony, in oratorical eloquence, stood *facile princeps*, it is not a small compliment.

He was called on time and again, but, showing no sign of exhaustion, poured out wit, humor, and information from an inexhaustible brain in the choicest of periods. I suspect his "business" capacity was not good. An anecdote if you please:

One night in '54 in San Francisco I had indulged in the luxury of a visit to the French Opera, and afterward, being hungry, I dropped into a fashionable restaurant on Kearney street for some tiffin. While eating, in came my old friend Cremony with a "How are you, old fellow?" John being an admiré of mine, he agreed to accept *un petit verre avec toi*, so I ordered a bottle of his favorite Golden Sherry—a luxury which I may say, *en passant*, I was ill able to afford (but John was an exceptional friend). After the first glass to the memories of Old Perote:

I.—"Well, Cremony, do you know that you have a very nice French Opera in town?"

C.—"O yes, of course; Lucia was given well tonight; I just dropped in; I am the *Herald's* critic, you know."

I.—"Why, no; it was La Fille du Regiment that I heard."

C. (stopping, the second *verre* rising to his lips.)—"What! do you tell me—that they didn't sing Lucia di Lammermoor?"

I.—"Well, Cremony, my ear for French is certainly inferior to yours, but that vieux moustache and the fille certainly gave the finest rataplan I have ever heard rendered."

C. (rising to go.)—"Good-night!"

I.—"Why, stay and finish the bottle; have I offended you?"

C.—"No, no, my dear fellow; but the fact is—ahem—well—you see—well the fact is I—have—written—out the—criticism—for Lucia, not knowing the bill had been changed, and it is in type; the *Herald* goes to press in an hour, and I'll have to hasten to the office and correct it, or I'll be a butt for a month. Good-night, old fellow; it will be the first honest critique they have had during the season. Bye, bye! Many thanks!"

Poor John! in his grave were buried many of my first admirations of my fellow man. An orator, a soldier, a sailor, a linguist, a literateur, a prince of good fellows; an Apollo, an Admirable Crichton was John C. Cremony. May we meet in the better world!

JOHN HAMILTON.

LAW ORGANIZING A HOSPITAL CORPS.

THE following is the text of the new law organizing the Hospital Corps of the Army, to define its duty and fix its pay:

That the Hospital Corps of the United States Army shall consist of hospital stewards, acting hospital stewards, and privates; and all necessary hospital services in garrison, camp, or field (including ambulance service) shall be performed by the members thereof, who shall be regularly enlisted in the Military Service; said Corps shall be permanently attached to the Medical Department, and shall not be included in the effective strength of the Army nor counted as a part of the enlisted force provided by law.

Sec. 2. That the Secretary of War is empowered to appoint as many hospital stewards as, in his judgment, the Service may require; but not more than one hospital steward shall be stationed at any post or place without special authority of the Secretary of War.

Sec. 3. That the pay of hospital stewards shall be $50 per month, with the increase on account of length of service as is now or may hereafter be allowed by law to other enlisted men. They shall have rank with ordnance-sergeants and be entitled to all the allowances appertaining to that grade.

Sec. 4. That no person shall be appointed a hospital steward unless he shall have passed a satisfactory examination before a board of one or more medical officers as to his qualifications for the position, and demonstrated his fitness therefor by service of not less than twelve months as acting hospital steward; and no person shall be designated for such examination except by written authority of the Surgeon-General.

Sec. 5. That the Secretary of War is empowered to enlist, or cause to be enlisted, as many privates of the Hospital Corps as the service may require, and to limit or fix the number, and make such regulations for their government as may be necessary; and any enlisted man in the Army shall be eligible for transfer to the Hospital Corps as a private. They shall perform duty as wardmasters, cooks, nurses, and attendants in hospitals, and as stretcher-bearers, litter-bearers, and ambulance attendants in the field, and such other duties as may by proper authority be required of them.

Sec. 6. That the pay of privates of the Hospital Corps shall be $13 per month, with the increase on account of length of service as is now or may hereafter be allowed by law to other enlisted men; they shall be entitled to the same allowances as a corporal of the arm of service with which on duty.

Sec. 7. That privates of the Hospital Corps may be detailed as acting hospital stewards by the Secretary of War, upon the recommendation of the Surgeon-General, whenever the necessities of the service require it; and while so detailed their pay shall be $25 per month, with increase as above stated. Acting hospital stewards, when educated in the duties of the position, may be eligible for examination for appointment as hospital stewards as above provided.

Sec. 8. That all acts and parts of acts in so far as they contravene the provisions of this act are hereby repealed.

MARCH.

Ho! month of March! Although a braggart thou,
A bearded ruffian, a bowie knife in belt,
Now hot, now cold, ready to freeze or melt,
I welcome thee, thou month of iron brow.
Though turbulent and wild, all must allow
Thou art the harbinger of warmth and light;
For untamed winter's savage ways affright
Thee not. Thou lov'st a frontier row.
Thou stridest fierce, a hardy sentinel,
Between the lines of icy war and peace,
Guarding the treasured hoards of summer well,
Until the raid of winter's minions cease.
Conservative, yet broad as heaven's arch;
Laggard, and yet thy watchward, *Forward, March!*

—*Harper's Magazine.*

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at St. Thomas Jan. 18.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Sailed from Key West, Fla., Feb. 7, for a cruise to the West Indies, arrived at St. Thomas, W. I., Feb. 24. Letters will reach the vessel if sent not later than March 18 to Port au Prince, and not later than March 28 to Santiago de Cuba.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, Feb. 5, all well, and will probably sail, March 1, for St. Helena. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Maldonado, Uruguay, Jan. 1.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Intended to sail from Alexandria, Egypt, to Piraeus, Greece, Feb. 7. At Athens, Greece, Feb. 11.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Madeira, Feb. 22, and would sail for Gibraltar March 1.

Pacific Station—Commodore J. H. Gillis
(in temporary command).

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Left Mare Island, Cal., Feb. 23, for Mazatlan, Mexico.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. At Panama February 7. Will sail northward from Colon, in compliance with Department instructions, as soon as stores arrive from New York, which were expected Feb. 8.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Talcahuano, Chile, Feb. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Reported by cable to have arrived at Valparaiso, Chili, Dec. 16.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Is en route for Panama from Valparaiso, and will probably arrive about the 25th of the present month.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Address care of Navy Pay Agent, San Francisco, Cal.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Valparaiso, Chili, Dec. 16.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Singapore Jan. 28.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Arrived at Yokohama, Japan, Feb. 8.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Jan. 30.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Canton, China, Jan. 30.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Jan. 30, but was shortly to leave for Nagasaki.

OSSIPEE, 3d rate, 8 guns, Comdr. John F. McGlensey. Left New York, March 4, for Norfolk, Va.

PALOS, † 4th rate, 6 howitzers, Commander T. elson. At Tientsin, China, Jan. 30.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Trinidad Feb. 21. After target practice in gulf of Paria will probably go to St. Kitts.

MINNESOTA, 1st rate, 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will probably go to St. Kitts.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will go to St. Kitts.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York, undergoing slight repairs, and when ready she will proceed on a cruise to the Spanish main, surveying the Lake and Port of Maracaibo, Venezuela, with their approaches.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Jan. 3.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about March 30. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about March 1. It is not known at present where she will be ordered.

VARIOUS NAVAL ITEMS.

A PATENT for a marine torpedo has been issued to Mr. Sid. H. Nealy, of Washington.

RELIEF to the extent of $15,000 came to Constructor Pook at the Brooklyn Navy-yard on Thursday, and the force of men discharged a week ago will resume work in a few days.

WORK on the details for the engines of the 4,000 ton steel cruiser are in a forward state in the Bureau of Steam Engineering, and will soon be ready for the "blue process" of duplication for the use of contractors.

MEDICAL INSPECTOR RHODES, of 140 W. 44th street, who is now in medical attendance upon officers of the Navy and their families in New York and vicinity, has established office hours from 8 to 10 A. M., and after 5 A. M.

THE Life-Saving Boat Board is waiting for models of boats which are claimed by the inventors to be what inventors desire. None has yet been received that in the opinion of the board would be suitable for the Navy.

THERE has been no trouble with the Navy nominations this session. Every case sent in was promptly acted upon by the Naval Committee and confirmed by the Senate without delay. Those sent in this week were confirmed before adjournment.

THE Navy Inventory Board, Capt. R. W. Meade, president, which is now acting in advisory capacity to the board on the consolidation of supplies, will meet at Newport this week to take an account of the stores there and will thence proceed on the same mission to the Philadelphia Naval Asylum and the Naval Academy at Annapolis.

FEB. 9 the official trial took place of a Turkish torpedo-boat. The boat is 126 ft. long and 15 ft. beam. Satisfactory runs were made at the measured mile at Long Reach, and were carried out without any hitch, the vessel being free from vibration. The mean speed of the runs was 21.7 knots. Commodore Egerton, R. N., was present, representing the Admiralty.

SECRETARY WHITNEY expresses much satisfaction over the recently received report made by the Inspection Board on the U. S. S. *Ossipee*. Everyone was agreeably surprised when it was found that her condition amply justified the necessary expenditures for putting her in condition for sea service. She has accordingly been ordered to Norfolk, Va., where the work of refitting the ship for another commission will be at once taken in hand.

DETAILED instructions have been prepared for the guidance of the various officers assigned to the duty of inspecting steel for the new cruisers, and having been printed in convenient pamphlet form for the pocket, has been distributed. The instructions consist of a compilation from the "Report of the Naval Advisory Board on the mild steel used in the construction of the hull, boilers, and machinery of the *Dolphin*, *Atlanta*, *Boston*, and *Chicago*, prepared by Assistant Naval Constructor R. Gatewood, U. S. N., from the records of the Board." The circular is signed by Commander R. D. Evans, U. S. N., Steel Inspector.

THE Naval Appropriation bill appropriates $25,000 to carry out the recommendation contained in the report of the Naval Board, Captain J. A. Howell, president, dated June 5, 1886, and purchase one pneumatic gun carriage and necessary attachments. A pneumatic gun carriage built by this same company that is to furnish the carriage is now at Sandy Hook, the property of the Army. The probability is that if this carriage shall prove as successful on shipboard as it has at the testing ground at Sandy Hook, it will supersede the existing system of mounting guns on all our naval vessels.

THE Académie des Sciences at Paris has issued a report on a series of experiments instituted by the Prince of Monaco, designed to test the velocity of currents in the North Atlantic by means of light watertight caskets or vessels launched into the sea at a considerable distance from the land. Some such caskets launched off the Azores in 1885 reached the land after an interval of time which indicated a daily rate of motion of from two to four miles. Later observations indicate a quicker rate of movement. Of 500 launched in deep sea off Cape Finisterre, twelve arrived at the French coast, a little below Arcachon, after an interval which suggests an average daily rate of about six miles.

THE Messrs. Napier, of Glasgow, recently shipped to Sebastopol the largest set of triple expansion engines ever constructed for a man-of-war. They are of 12,000 horse power and are for the new Russian ironclad *Sinope*.

THE work of rifling the 10-inch steel breechloading gun is progressing pretty well toward completion at the Washington Ordnance Yard, and it is expected that the coming summer will see this fine-looking piece of ordnance transferred to the proving butts and put through its high pressured paces, unless, indeed, further trials of similar guns abroad should suggest still further modifications in this often modified piece of work.

SECRETARY WHITNEY, desiring to be informed as to the expenditures made by the Bureaus of Construction, Steam Engineering, and Ordnance on the vessels built under the Roach contract, has called on each of the bureaus named for a statement to show what has been expended. He knows that the original estimates for these vessels have been largely exceeded, especially in the matter of armament for the cruisers. The Advisory Board estimated that the guns of the Roach vessels would cost about $500,000. It is stated that more than $1,000,000 has been paid out on this account and the guns are not yet ready. The Ordnance Bureau has been severely criticised for its method of constructing guns. It is alleged that no notice is taken by the bureau of the time expended in putting the guns together. At the Washington Ordnance Yard, one gun has been on the lathes for more than a year and is not yet ready for trial. In estimating the cost of this piece of ordnance, only the material will be considered; the money paid for labor does not seem to be included. The Ordnance Bureau does not ask for a specific appropriation for guns to be placed on the Roach vessels, but it is thought that a large portion of the $1,000,000 desired for the continuance of gun construction will be used in that direction. This point will be brought out by Secretary Whitney's call for statements. It is roughly estimated by naval officers that before the guns are all on board these vessels they will have cost the Government three times the $500,000 named by the Advisory Board as the probable cost.

NAVY GAZETTE.

Ordered.

FEB. 25.—Ensign Thomas W. Ryan, to duty at the branch Hydrographic Office, New York.

FEB. 26.—Assistant Paymaster Leeds C. Kerr, to examination for promotion.

Paymaster T. S. Thompson, as member of the Board of Appraisal at the Washington Navy-yard.

Passed Assistant Paymaster Wm. W. Barry, to examination for promotion.

FEB. 28.—Carpenter Henry R. Philbrick, to the receiving ship Minnesota.

Detached.

FEB. 24.—Surgeon H. P. Harvey, from the nautical school ship St. Mary's and placed on waiting orders.

Passed Assistant Surgeon L. J. Heneberger, from the Despatch and ordered to the Naval Hospital, New York.

Passed Assistant Surgeon N. H. Drake, from the Naval Hospital, New York, and ordered to the nautical school ship St. Mary's.

FEB. 26.—Lieutenant Commander H. W. Lyon, from duty as Inspector of Ordnance at the South Boston Iron Works and placed on waiting orders.

Lieutenant James K. Cogswell, from ordnance instruction at the Washington Navy-yard and ordered as Inspector of Ordnance at the South Boston Iron Works.

Lieutenant S. H. May, from ordnance instruction at the Washington Navy-yard and ordered to ordnance duty at that yard.

MARCH 1.—Carpenter Arthur W. Massey, from the Minnesota and placed on sick leave.

Retired.

Lieutenant Webster Doty, to take effect Feb. 28.

Sentence Mitigated.

The unexpired portion of the sentence of Ensign Fitz Aubert Huntoon. The sentence was two years suspension to date, from June 25, 1885.

Changes on the European Station.

Assistant Surgeon L. W. Altee detached from the Quinnebang and ordered home.

Commander G. W. Coffin condemned by Medical Survey and ordered home.

Nominations.

FEB. 26.—Commodore Lewis A. Kimberly, to be a rear admiral from Jan. 26, 1887, vice McCauly, retired.

Captain William P. McCann, to be a commodore from Jan. 26, 1887, vice Kimberly, promoted.

Commander Gilbert C. Wiltse, to be a captain from Jan. 26, 1887, vice McCann, promoted.

Lieutenant Commander Felix McCurley, to be a commander from Jan. 26, 1887, vice Wiltse, promoted.

FEB. 28.—Captain James H. Gillis, to be a commodore from Jan. 29, 1887, vice Johnson, deceased.

Commander James O'Kane, to be a captain from Jan. 29, 1887, subject to examination, vice Gillis, promoted.

Lieutenant Commander John McGowan, to be a commander from Jan. 29, 1887, vice O'Kane, promoted.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending March 2, 1887:

William Copp, ordinary seaman, attached to U. S. S. Quinnebaug, drowned Dec. 26, 1886, at sea.

John Stephens, seaman, attached to U. S. S. Quinnebaug, died Dec. 26, 1886, at sea.

William T. Truxtum, commodore (retired), died Feb. 25, 1887, at Norfolk, Va.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., March 2, 1887.

THE first week of the Lenten season has been a quiet one at the Naval Academy. A large number of cadets of the first, second and third classes assembled at the gymnasium on Saturday night, to participate in a "stag" hop, under the direction of the first class. The orchestra, under Leader Shoff, at these times, practices the new music for the hops. Many members of Prof. Muller's dancing class were present, to practice their new accomplishment. These hops are well attended by the cadets, and will be continued throughout the season.

This is the last week of indoor drills for the cadet corps. Each division has completed the work in the different departments, and the outdoor spring drills will begin on Monday next. The first class have not, as yet, finished their course in the Steam Department, but will receive practical instruction on Friday nights. The first of the spring drills is seamanship on the U. S. S. *Wyoming*. The cadets will rig ship and get all in readiness for the Saturday morning cruises that begin in March.

The results of the recent February examinations have been posted for the notice of the cadets, and a large number are unsatisfactory. Among these are many who were only retained conditionally, and who must soon improve their standing or be dropped from their classes.

An entertainment, whose proceeds will be devoted to charitable purposes, is announced. It will be given at the house of Comdr. Sampson, and will partake of the character of a fair. The young ladies of the yard will take part. Services are held in the chapel every Wednesday and Friday evening. Chaplain Rawson also announces that at the Sunday afternoon services he will alternately deliver a lecture and a sermon. These meeting are well attended.

Now that the weather will permit, the marines at the barracks drill daily on the parade ground, under the direction of Capt. Huntington, M. C., and Lieuts. Mercer and Wood. The report that the bill to change the course had failed to pass in Congress was not very favorably received. The general opinion seems to be that a good measure for the Service and for cadets affected has been lost. A slight attempt at a demonstration by those who have always opposed the bill was attempted in the cadet quarters, but this was soon stopped. Several hunting expeditions have been undertaken by parties of officers attached to the Academy—the special feature being duck shooting. These parties are reported as having met with considerable success.

Miss Ricketts and Miss Thom, of Washington, are the guests of Lieut. and Mrs. Wood, of the Marine Corps.

Miss Kernochen, who has been visiting with Mrs. Leutze, has returned to her home in Connecticut.

CRUISE OF THE "JUNIATA."

A CORRESPONDENT of the Baltimore *Sun*, writing from on board the U. S. S. *Juniata* at Rio de Janeiro, Brazil, sends the following regarding her voyage: The *Juniata* sailed from New York Aug. 16, 1886, bound for the South Pacific station, and a cruise, it is said, to unfrequented ports, and make a number of deep-sea soundings on the way out. At the first attempt we lost 1,500 fathoms of wire, with all below it, and we have lost small amounts of wire on two other occasions.

We continued our deep-sea soundings till we reached the "line," finding no great variation in the depth of the water, from 2,500 to 3,000 fathoms. In one case we recovered one shot from the latter depth, the first time, probably, such a thing has occurred from so great a depth. Heaving it up was too much for our small engine, and we had to assist it with two men at the cranks.

We made a long passage to Porte Grande, Cape de Verdes—39 days—and the time passed very monotonously. Still, we were not entirely without amusement. We did a good deal of fishing, and caught many interesting specimens of marine life. During a cyclone on the passage we tried the effect of oil upon the sea. First the oil was put into a canvas bag and thrown overboard to windward, towing it by a line. From this we perceived little benefit, probably because it would drift to windward in spite of our efforts. Afterwards, when the sea seemed to be at its worst, we poured the oil slowly down our weather scupper, and the results were marked. After that we shipped nothing more than a little spray occasionally.

We were 25 days running from Porte Grande to Rio. It was a long, monotonous, wearisome trip, though with continued good weather and fair winds, except in the doldrums, where we steamed for several days.

We caught a number of sharks, and with them some of their peculiar parasites, *remoræ*, small fish resembling catfish, which, by a sucker on the top of their heads, attach themselves to the sharks under their fins so firmly it is difficult to pull them off. In some places a large remora is used for catching turtles. The fishermen carry them out in boats with a line made fast to a ring neatly fitted around the tail. When they approach a turtle they throw the remora towards it, which quickly swims to it and attaches itself so firmly the turtle is drawn to the boat by it.

One evening we seemed to run into a sea of fire. On all sides the surface of the water was illuminated with a greenish blue phosphorescent light. Buckets were thrown over the side to ascertain the cause, and when drawn up found to contain a number of objects resembling corncobs in size, form and roughness of exterior, but of a hard, transparent, gelatinous substance.

We were expecting a visit from Neptune when we crossed the "line," as we had quite a number of both officers and men who have never gone through the formality of an introduction to his Majesty and received from him permission to enter his domain. However, for some reason known only to himself, he did not board us.

REVENUE MARINE.

The Sundry Civil Appropriation bill as finally enacted into a law contains the following provision for this service:

For expenses of the Revenue Cutter Service: For pay of captains, lieutenants, engineers, cadets and pilots employed, and for rations for the same; for pay of petty officers, seamen, cooks, stewards, boys, coal passers and firemen, and for rations for the same; for fuel for vessels, and repairs and outfits for the same; ship chandlery and engineers' stores for the same; travelling expenses of officers travelling on duty under orders from the Treasury Department; instruction of cadets; commutation of quarters; for protection of the interests of the Government on the seal islands and the sea otter hunting grounds, and the enforcement of the provisions of law in Alaska; contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor and miscellaneous expenses which cannot be included under special heads, $915,000.

For constructing a Revenue steamer for Southern coast: For the construction of one Revenue steamer for duty on the Southern coast of the United States, $60,000.

The N. Y. *Tribune* has this pleasant bit of gossip about the senior officer of the Revenue Marine, who has been some time disabled by disease, but whose cloud has, as it appears, a silver lining:

Capt. James H. Merriman, the senior officer in the U. S. Revenue Marine, a gallant old bachelor of sixty years, spending his days of invalidism at the Englewood Hotel, was married unexpectedly in his rooms on Wednesday night to Mary Lee Fondey, of Springfield, Ill., a friend and flame of his youth. The veteran inspector of life saving stations is a Benedick whom no charms or audacity could allure. When on active duty he lived in this city and later in Elizabeth, but some time ago he moved to Englewood and quartered himself, as it seemed, for life in his bachelor rooms in the big rambling, shaded Englewood Hotel. Here about two months ago he had a slight stroke of paralysis, which took him off his feet for three weeks, and only ten days or more ago he had a second stroke. Neither, however, could quite disable the energetic and hopeful captain. He was laid up temporarily, but had no fear of not getting through all right. A few days ago Mrs. Fondey, a widow who had known and admired the gallant old captain long ago, arrived on the scene from Illinois. She announced her intention of nursing the disabled officer, and what seemed at first to the other guests at the hotel a charming bit of friendship soon ripened into a warmer affection. The captain, not without scars, perhaps, but as yet invincible, surrendered. He offered himself off-hand from his sick bed and was accepted. A wedding day was set, the first one on which the invalid could get out into his easy chair again. The stars were propitious for Wednesday, it seems, and the Rev. Dr. A. G. Vermilye, of New York, was summoned to perform the marriage ceremony. The captain slipped into his dressing gown and the wedding was celebrated. But few people were present, yet the congratulations were almost overpowering for the veteran inspector. He has been in his rooms ever since, and it is likely that he will settle down at once in Englewood as a model married man, saving time by dispensing with the conventional wedding tour.

NAVAL MILEAGE CLAIMS.

THE following claims of naval officers for mileage under the Graham decision are contained in a supplemental list of claims certified by the accounting officers of the Treasury to Congress last week for an appropriation. These may be said to be the last of this class of claims to be settled. An appropriation will be made for all those reported at this session in the general deficiency bill:

Administratrix of Leonidas McDougall, $38.93; William Conard, attorney, $28.37; Estate of Thomas La Blanc, $267.53; Administrator of William H. Ball, $535.20; Otway C. Berryman, $42.57; Silas Bent, $372.18; A. M. McBlair, Attorney, $30.12; Executor of Sylvanus W. Gordon, $35.55; Henry C. Barrows, $8.65; Administratrix of Henry A. Wise, $259.23; A. M. McBlair, $24.17; Theodore Cooper, $85.75; Seaton Schroeder, $191.86; John Paul Jones and Robert B. Lines, $20.62; Alexander V. Frazer, $462.67; John Lee Davis, $43.80; Administratrix of the estate of John Q. A. Ford, $477.04; J. W. Bell, Attorney, $35.63; Administratrix of James B. Kimball, $220.80; W. J. Moberly, attorney, $22.15 and $3.95; Elizabeth F. Long, administratrix of the estate of Andrew K. Long, deceased, $40.30; Administrator of John T. Barton, $469.75; Ferdinand Mullan, attorney, $35.25; A. K. Hughes, $794.90; Harry A. Egbert, $99.29; Heirs of Daniel Egbert, $299.88; R. B. and C. G. Warden, attorneys, $31.43; Administrator of Edward Barrett, $852.64; Ferdinand Mullan, attorney, $50.

STEEL FOR THE NAVY.

(Special Washington Despatch to the Baltimore Sun.)

THE expected "growl" over the stringent conditions of the Navy steel circular is beginning to be heard. The circular received more careful consideration, probably, than any document that has emanated from the Navy Department. Every paragraph was studied by no less than three experts, then by the Chief of Ordnance, and finally by Secretary Whitney, before it was adopted. It was known that but few American steel manufacturers could produce metal which would stand the prescribed tests, but it was concluded that it would be better to make the conditions so exacting that irresponsible men could not enter the competition. There are a few American steel men who claim that they can furnish the steel under the prescribed conditions. Complaint has been received from others that the outlay of money required to get a plant to produce steel of the grade required would not be warranted by the amount of the orders which would be received from the Government. The ordnance officers are still confident that steel of American production will be obtained at a fair price which will compare favorably with the foreign article.

(From a Letter to the New York World.)

In the ARMY AND NAVY JOURNAL of this date is the following paragraph:

"The long-delayed circular containing the specifications for armor plates and gun forgings, proposals for which are to be submitted next month, has finally been perfected, and it is now stated will be out by Feb. 15 without fail. Before finally approving the circular the Department sent it around to the prominent steel manufacturers of the country for criticism, and it is only lately that the last of the replies was received. The suggestions made by many of the manufacturers prompted a number of changes, so that the circular, when issued, will be very different in its requirements from what is set forth in the one already inspected by manufacturers."

Can the genius of "protection" go any further? The United States Government wants armor for the safety of its war vessels and of the men and stores in them, and is entitled to the best the world can produce, but because no manufacturer in this country has had any experience in producing modern armor the standard of excellence is to be lowered to suit the abilities of our "infant industries," and the real object of defence is lost sight of in order to give a good contract to some of the steel producers here who are to make for us armor that does no harm!

REX.

NAVAL COURTS-MARTIAL.

A CORRESPONDENT of the Philadelphia *Inquirer* gives an analysis of the 331 Naval G. C. M. Orders issued from Jan. 1, 1879, to October, 1886, as follows:

Classes.	Number.	Cases.	Per cent.
Line officers	5,588	31	.005546
Staff officers	4,190	23	.005489
Warrant officers	1,447	8	.005528
Seamen, etc.	64,500	202	.003132
Marine officers	610	6	.009835
Marines (privates)	15,145	180	.011885
Grand total	91,480	450	.00492

Cases tried before General Courts-martial are those where the offences are such as to warrant a greater punishment than ordinary or solitary confinement for periods not exceeding sixty and thirty days, respectively, disrating or extra police duty. The record does not therefore include the punishments by summary Court martial.

If I wuz up an yonder hill I'd sit me down and cry me fill,
An ivery tear wud turn a mill, Oh! why did yees go for a so—ger?
Chorus: Shule! Shule! Shule Agrah! Time can only aise my woe:
Oh! why did yees go for a so—ger?

ANENT THE INTER-STATE COMMERCE BILL.

TRY not the "pass," the solon said,
'Tis wrong to ride as a bribed deadhead.
The legislator winked his eye;
"In getting around your scruples I
Excel, sir."

BLACK, STARR & FROST

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

BLACK, STARR & FROST have models of the West Point Class Rings for many years, and can supply duplicates (in case of loss) at short notice.

BROWN BROTHERS & CO.,
59 Wall Street, New York,
Buy and Sell Bills of Exchange
In Great Britain and Ireland, France, Germany, Belgium and Holland, Switzerland, Norway, Denmark, Sweden, Australia, and British West Indies. Issue *Commercial* and *Travellers' Credits in Sterling*, available in all parts of the World. MAKE TELEGRAPHIC TRANSFERS OF MONEY TO EUROPE.

Warnock's Military Goods Unsurpassed.

Fine Wines, Havana Cigars.

Orders by Mail will receive prompt attention.

Established 1811.
CHOICE OLD
WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

H. & H. W. CATHERWOOD,
114 SOUTH FRONT STREET, PHILADELPHIA.

N. Y. OFFICE—16 SOUTH WILLIAM ST.

CALIFORNIA VINTAGE CO.
21 PARK PLACE, NEW YORK.
LA ROSA ZINFANDEL CLARET—per cask $60.00, or bottled, corked only, 2⅞ doz., $76.30. Packing for shipment at cost additional (cheapest manner, $7.50.) Send $4.50 for sample case to try, and you will *never* again pay high prices for inferior French wines. White wines, Ports, Sherries, Brandies, &c., *pure and reliable* at *moderate* prices.

WINES AND LIQUORS
Of Fine Quality,
(Sample Cases.)
RELIABLE QUALITY,
MODERATE PRICES.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, MARCH 5, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: 240 Broadway, New York.
ARMYNAVY.

THE JOURNAL AND ITS CRITICS.

FROM information that comes to us through naval officers we judge that our article of February 12 on the discussion before the Naval Institute on "Steel for Heavy Guns," has been read too carelessly by those who are disposed to criticise it. In reviewing the discussion we assumed that the question of chief concern to the Navy was as to how far the conclusion of the ordnance officers was sustained by those who took part in this discussion, and not so much as to how far Mr. Dorsey's argument in favor of mild steel was accepted. As we stated, of the thirty-two persons who took part in the discussion but nine were prepared with an unreserved endorsement of the ordnance position. Against these were arrayed "on lines of greater or less divergence" all the rest. We spoke with deliberation, and our precise language is to be considered by those who call in question our statement. That each one might judge for himself as to the value of the several expressions of opinion we took pains to cite the names of all the speakers and letter writers. To show the exact measure of each individual divergence in opinion would have compelled us to republish the entire discussion, and this there was neither room nor occasion for, as it is contained in the pamphlet which can be had by sending to the Naval Institute, as every one should do who is interested in the subject. We are quite content to be judged by the full report of that discussion, but not by those who seem disposed to avail themselves of the lawyer's advice—"when you have no case abuse the plaintiff's attorney."

We also receive the information, which is news to us, that we have been arguing in favor of mild steel, and that our arguments are to be explained by the fact that we have a large pecuniary interest in its adoption. As to this we cannot see how the force of our arguments, or our statement of well established facts, would be in any way affected if it could be shown that we owned all the steel works in the country. There can be no objection to those who have a pecuniary interest in steel joining in this discussion—their co-operation is, indeed, invited. What the Navy object to, and what they should insist upon, is that no man who is so much as suspected of having a pecuniary interest in the result should be allowed any voice in determining the *selection* of the guns upon which the fate of battles is to depend. It has been our fortune to record the achievements of our Navy from week to week during the crisis of war; we know how much depends upon sending selfish schemers to the rear when battles are to be fought or material for them selected: never shall we give even the consent of silence to any plan to prejudge this question of guns in the selfish interest of any class or of any combination whatever.

It seems hardly necessary to say it, but as a matter of fact we have never argued in favor of mild steel and there is no one in any way connected with the management of the ARMY AND NAVY JOURNAL who has a dollar's interest, in any form, in the settlement of this gun question. The gentleman upon whom we have placed our chief dependence in the matter of metallurgical information, is a scientist of reputation, who is at present in the employ of the Chinese Government for the development of the mineral wealth of China, and who is in no way connected with the manufactory of steel in this country. As to the manufacture of guns, the position to which we have committed ourselves is this: that blind dependence upon European precedents is in danger of misleading us, and that the application of the Rodman system of casting to steel offers us so hopeful an outlook for the future that it should be tried without question and without further delay. When we presented our argument for steel cast-guns we were nearly alone in our position. We have found plenty of company since, as a reference to the discussion before the Naval Institute will show, and to a later discussion, still to be published, which was had on a paper read before the Institute of Civil Engineers on Wednesday last, by Mr. Wm. Metcalfe.

In view of the challenge to which our opinions on this question, as to the best method of obtaining guns for the Navy, has been subjected, it may be instructive to see what is said in reference to this matter by officers of the Services themselves. One opinion we have had before us we have hesitated to publish because we did not wish to give this discussion of a scientific question any appearance of personal criticism. We have concluded finally that, under the circumstances, it is best to give it as it comes to us. An officer wrote us some time ago as follows:

It is a sad fact that beyond a few officers who, having a natural penchant for the subject, have studied up on guns and their manufacture, the Navy is to-day totally unfitted for the fabrication of its own ordnance on anything like original lines. An intelligent examination of the work thus far done develops the fact that the few guns which have been assembled, not made, are quite identical in detail with the guns made by our friends, the English, a year or two since. This is to be expected as an inevitable result of assigning officers to important duties, whose only qualification for its proper performance is unbounded self conceit. A board appointed to supervise the expenditure of money for naval ordnance, composed of disinterested men and with full access to the expense account of the guns assembled and finished at the Washington Ordnance Yard, would speedily see that their duties had not been begun too soon. But the matter of cost is not of the highest importance, the quality and efficiency of the result being the real desideratum, and when subjected to these tests it is feared that the United States Navy has been leaning upon a broken reed, and its guns but servile copies of English models which have failed to satisfy even their designers.

Metallurgy and the science of the strength of materials are not to be picked up and learned in a day, and those men who, after a few weeks, or even months, of "instruction in ordnance," aspire to select, test and superintend the working of metals, demonstrate by the very aspiration their unfitness for the work.

Criticism of an important and valuable department of the Government service is an unwelcome task, but when it is seen that disappointment and disaster wait upon incompetency and vain glory, criticism becomes the imperative duty of the patriotic American. It is asserted, in this connection, that every rifled gun which has been turned out of the Washington yard within the last three years would have been better made, would have cost less money, because it would have been finished quicker if it had not been for the unskillful and unmechanical interference of the officers detailed as assistant inspectors. Let Congress, then, see to it that no more money is appropriated for naval ordnance without providing for its intelligent expenditure to the best advantage of the country. Let it organize a committee to investigate as to the way in which past sums have been frittered away in the putting together of a few guns of medium calibre, whose performance is to this day a matter of doubt and controversy.

Why such mystery about our new steel guns, their cost, their performances, their condition after test, etc.? A few months ago when a high-powered gun was said to have shown signs of weakness under fire, the only information given to the public press for the satisfaction of the taxpayers of the country, was

a brief telegram to the effect that "the gun is all right. ——, Ensign, U. S. N." Of course those familiar with naval methods, and especially ordnance methods, understand that an ensign is better fitted to be made a scapegoat of, in case of investigation, than an officer of higher rank.

Another officer writes:

A careful consideration of the subject has made it apparent to me that the present system of ordnance is simply a magnificent conception of certain European ordnance sharps, concocted for the purpose of throwing dust in the eyes of and mystifying the uninitiated, and thus cloaking their own clever design in ordnance matters, viz., to furnish guns at the maximum of cost and having in them the minimum of service life and usefulness—weak, sickly things which, when they chance to hold together for a couple of hundred service rounds, must then go into hospital, so to speak, for a tedious and costly treatment, in order to give them another brief lease of life. They seem to me to be, in every way, a costly and dangerous fraud, and they surely *must go*. Let them go at once, so far as we are concerned, and no doubt we shall thus save years in time, millions in money, to many of our friends their valuable lives, and in the hour of trial perhaps the nation's life and honor. It seems to me that these are most important matters to us, and that now is the time to take them into most thorough and careful consideration.

Another letter contains the following:

It is the misfortune of this country, and has been for many years, that the ordnance matters have gone entirely under the control of a couple of Government cliques who know just enough to follow along after the lead of Woolwich and Co., of Europe, in all their fads and notions, and to have no ideas whatever of their own; hence we are now fiddling along with these long, clumsy, sickly 15-ton pressure guns, which are in reality no better than cast-iron guns.

Here is Russia going ahead with a new and powerful explosive, and France has, I believe, fully adopted melinite for shells, etc. What have we? We have not even produced a decent steel projectile yet; there is no inducement for any one to do so; nothing must be produced except through the regular course, if it takes fifty years to do it; and the regular course never produces, but *only reproduces* the things which are English—"don't you know?"

One other thing: this idea of the immense amount of time necessary to make steel ordnance is, I think, all rot, a trick of the trade. Let private competition once get hold of the business, and the diminution of the element of time in the matter will be something amazing.

With this last letter is enclosed a communication addressed by Mr. Wm. P. Hunt to the Washington *Republican*, and which concludes as follows:

If cast-iron rifles are to be refused a trial, and if built-up steel guns are to be adopted without a trial, this action will be brought about not by the merits of the case, but by designing officials and influential men, who, availing themselves of the unthinking popular prejudice in favor of European methods, and by reason of the ideal character which naturally we give to unfamiliar things, are able to keep down the merits and to lift up the policy that makes for their interest.

The arraignment of Ordnance officers by members of the services to which they belong, goes much beyond our own indulgence in what the victims of criticism are pleased to describe as "mud throwing." Our own position agrees rather with that of Mr. Wellman, of the Otis Steel Co., who, in his remarks at Annapolis, said: "It would seem that the Ordnance Departments of our Army and Navy were doing the correct thing in copying the best practice on the other side, until, from our own experience, we can make an improvement on it which, I have no doubt, will come in a very short time." What we should criticize them for is the unwillingness to give American manufacturers the encouragement they might have and should have in directing upon this subject of heavy guns the results of American manufacturing experience and American inventive talent. We do not believe that the Ordnance officers of the Services are able to produce the best results without the co-operation of the manufacturers, and they can only obtain that by treating them in a spirit of frankness and open-minded consideration of their propositions and suggestions. There is, undoubtedly, an impression among the class whose co-operation is so essential to success, that they are not to be treated in this spirit. All experience is to the contrary, and within a few days we have been told of the fate of a leading manufacturer of steel who submitted some suggestions to the Navy Department, at the request of the Secretary, and who was incontinently snubbed by the officials to whom his communication was referred in the ordinary routine. Is it not to be assumed that the men who are handling steel from day to day in large undertakings should know quite as much of its peculiarities as those who deal with it from behind a desk at the Navy Department? In this matter of steel the last word is the best, for our knowledge of it is enlarging every day through actual experience in dealing with it, which the Services have not had, and, in the nature of things, cannot have.

THE Committee on Foreign Relations of the Senate has before it a treaty transmitted by the President, Feb. 14, which is designed to establish "perpetual peace and amity between the United States of America and the King of Tonga, his heirs and successors." Two articles of the treaty are as follows:

Article VI.—The ships of war of either of the high contracting parties may enter all ports, places and waters within the jurisdiction of the other, to anchor and remain, take in stores, refit and repair, subject to the laws and regulations of the country. To enable this privilege to be carried out in his dominions, the King of Tonga agrees to secure to the Government of the United States by lease at nominal rent, with covenants of renewal, all rights of free use of necessary ground in any harbor of the Tonga Islands which shall be mutually agreed upon, for the purpose of establishing a permanent coaling and repair station, the rights of Tongan sovereignty therein being fully reserved and admitted: and in selecting a station for this purpose due regard shall be had for any similar concession which the King of Tonga may have granted by treaty to any other Government.

Article X.—Should any member of the ship's company desert from a vessel of war or merchant vessel of either of the high contracting parties, while such vessel is within the territory or jurisdiction of the other, the local authorities shall render all lawful assistance for the apprehension of such deserter, on application to that effect made by the Consul of the high contracting party concerned; or if there be no Consul, then by the master of the vessel.

Similar treaties have been made by the King of Tonga with Great Britain and Germany. The Senate has already ratified a treaty with the Hawaiian Islands which will, if accepted by the Hawaiians, secure to us a harbor in that group, Pearl River Harbor. With these two treaties in effect, we shall have coaling places for our naval vessels at two important points in the vast expanse of the Pacific, one in lat. 20 deg. N. and lon. 155 deg. W., and the other in lat. 20 deg. S. and lon. 175 deg. W. This would divide the voyage between San Francisco and Melbourne, Australia, into three nearly equal stages, with a halting place under our naval control at the commencement of each—first, San Francisco; next, the Sandwich Islands, and, third, the Friendly Islands. The United States Senate has never exhibited any great amount of prevision in the matter of securing a foothold for our Navy, but we hope that they will show a disposition to co-operate with the State Department in this instance. The addition of a clause in the Hawaiian treaty giving us control of Pearl River Harbor is thought to jeopardize the acceptance of that treaty, but for this the Senate is not responsible. But they thwarted Mr. LINCOLN'S plan of securing St. Thomas in the West Indies and refused to confirm General GRANT'S lease of Samana Bay.

THE distribution of the new annual Navy Register was summarily stopped this week, and those that had already been issued called in as far as possible. This action was taken by order of the Secretary, who, it is said, has directed that Paymaster-General Fulton, Chief Constructor Wilson, and Colonel Remey be given their proper rank on the first page of the book. In the copies issued these officers are put down as pay director, naval constructor, and captain, respectively, a fact that we noted when the Register first made its appearance. It is also said that the Secretary desires to have the make up of the Register correspond with that of the July edition, the statement of an officer's duty being shifted to the opposite page, instead of following immediately after his name. The chiefs of the several bureaus are published in the Register as Captain Walker, Captain Sicard, and Commander Sebley, with a footnote stating that they have the relative rank of "Commodore," but the law distinctly provides that while the head of the bureaus of Provisions and Clothing and Construction and Repair shall have the same relative rank they shall also have the *title* of "Paymaster-General" and "Chief Constructor" respectively. The law also provides that the Judge-Advocate General shall have the "*rank*, pay, and allowances of a Captain in the Navy or a Colonel in the Marine Corps." The titles of the Chiefs of the bureaus of Medicine and Surgery and the Engineer-in-Chief are correctly given in the Register. Why those of the other staff bureaus should have been omitted does not appear.

THE London *Army and Navy Gazette* says: "The United States Government have just appropriated $16,000,000 for the production of steel ordnance of the most modern description, and $5,000,000 for coast defences. Who shall say how much Capt. Greene's article, 'Our Defenceless Coast,' may not have had to do with the readiness evinced to vote the money? When is our defenceless London to be protected?" Alas, but the United States Government has not voted this sum, not even the eloquence of Captain Greene being capable of moving the stony heart of the House of Representatives. The *Horse Guards Gazette* says: "Here, we require nothing like the expenditure proposed by the Board of which Captain Greene speaks, but our coast towns are just as defenceless in many respects as those of the United States, and in far greater danger, while his arguments apply also to the Colonial ports and the coaling stations with, if anything, increased strength."

AN Army officer, signing himself "Wyoming," writes from Fort Laramie to the New York *Times*, criticizing the plan of limiting details of regimental adjutants and quartermasters to four years, and says: "To make a law compelling a colonel to go down a roster of his lieutenants and take each one in succession would be absurd, inexpedient and impracticable, and no other course could be pursued, because to be just in the matter all must be treated alike. The indifferent, lazy, vicious, stupid must all have a turn because it is fair and just. Is any business concern or any department of Federal, State or Municipal Government managed in this way? Does the Secretary of War rotate all his subordinates and give all a chance of the best places and highest pay in each subdivision of his department? The fact that Lieut. McCannon, of the 17th, shows 17 years as regimental adjutant is a sad commentary on the slowness of promotion. Make promotion quicker and more lieutenants will get the places and profit by the valuable experience therein gained. Such a rule as that advocated could not be applied equitably. Some lieutenants would pass to the grade of captain without the colonel being able to give them the position even if he desired to treat all alike. There is another circumstance in regard to the tenure of office by regimental staff officers which does not apply to those detailed as aides and on other duty, separating them from their commands. It is held as a healthy principle at Army Headquarters, and will not be denied by any unprejudiced soldier, that officers should not be separated from their proper commands any more than the best interests of the Service require. Adjutants and quartermasters are constantly on duty with their regiments wherever they may be."

A COMMITTEE of Presbyterian Ministers of Baltimore have petitioned the President to order the abolition of Sunday morning inspections in the Army, a subject which of late years has given rise to a good deal of discussion. At their meeting to prepare the petition the reverend gentlemen recalled the following from the ARMY AND NAVY JOURNAL of September and October, 1886: "What is to prevent the weekly inspection being held on Saturday afternoon? The Sabbath guard-mount could be had at the place and hour of undress guard-mount, and all offices and storehouses closed (except for actual and pressing needs), and dress parade reviews, artillery salutes and band concerts be prohibited on this one day of the week." The final conclusion of the meeting was that the "Christian sentiment in the Army of the United States and of our people demand a letting up of the absolute rigidity of the existing rule, (1322 of A. R.) The French republic have but recently modified their army Sabbath practices. The English Army in India have their inspections on Thursday, and our marines at Washington have theirs on Monday. The soldiers of this republic in time of peace need not, like a watch-dog, be kept 'fierce that he may die for his owner's benefit in the hour of danger.' They need the sanctity and offices of our Christian Sabbath freed from military duties and ceremonies proper for other days."

NOTWITHSTANDING the extreme care observed by the German War-office in preventing other nations securing a sample of the new Mauser repeating rifle, Messrs. Hartley and Graham, of Maiden Lane, have within a few days, through their Continental agents, obtained one of the new arms. The rifle is, for a European production, pretty well made and finished. It is heavy, weighing ten and a half pounds without the bayonet, but may probably not prove an irksome burden to those stalwart Pomeranians of the Guard when the French are in front. Its bad feature is the magazine under the barrel, which, however, motives of economical conversion are made to excuse.

IN the matter of the claim of P. A. Engineer W. A. H. Allen, U. S. Navy, for mileage, the Second Comptroller has written the following decision:

August 30, 1877, the claimant was appointed a member of a Board to examine and report on the *Puritan*, to meet at Chester, Pa., Sept. 12, 1877. At the time the order was issued he was on duty in the Bureau of Steam Engineering. The order was endorsed by the Secretary of the Navy, that the meeting of the Board having been postponed after Mr. Allen had reported, or proceeded to Chester and back, in addition to mileage covered by the order of Aug. 30, 1877. No date appears on this endorsement. Sept. 1, 1877, the Secretary of the Navy addressed Mr. Allen at Chester, and ordered him to proceed to Washington City and report to the Chief of the Bureau of Steam Engineering for temporary duty, and when concluded to return and resume his duties. Reported at the Bureau Sept. 4, 1877, and on this order he claims mileage. Dec. 19, 1877, he was paid mileage from Washington to Chester, $9.84; and on March 28, 1878, he was paid mileage from Chester to Washington, and from Washington to Chester and return, $30. Under orders requiring this officer to report for duty at Chester, in connection with the examination to be made by the Board which was to meet on Sept. 12, 1877, he is only entitled to mileage for two trips each way, for which he has already been paid.

There was no authority for the first trip which he made to Chester, and it must be assumed to have been made for his own convenience, and mileage cannot be allowed in excess of the sums already paid.

THE General Deficiency bill, which contains provisions for completion of four new cruisers, for payment of Graham mileage claims, for Army mileage during the remainder of the year and many other items of interest to the Army and Navy, was finished too late by the conference committee to be enrolled and signed by the President, and, of course, failed. No agreement was reached by the conferees on the Fortification bill, making the second year that this work has been left unprovided for. The differences between the conferees were radical—Senate members favored an appropriation of $40,000,000 while the House conferees would not go beyond $17,000,000. A hitch also occurred over the cast-iron and steel problem.

THE bill to regulate promotions in the Medical Department of the Army and the bill for the relief of Alfred Hedberg were passed by the two Houses of Congress, but as the President failed to sign them, they do not become laws. Among the bills that became law during the last hours of the session were: For acceptance of land for a military site near Chicago; for return of Twigg swords; to turn over a portion of Newport barracks to the city of Newport, Ky.; for printing of Commander Schley's report on the Greely relief expedition, and for payment of Mexican pensions.

WE give elsewhere the Naval Appropriation bill as finally agreed upon by the two Houses. It will be seen that the House has followed the lead of the Senate in providing for the increase of the Navy. The appropriation for the Naval War College was stricken out at the last moment.

REFERRING to the notice which appeared in the JOURNAL of February 12, that a circular had been issued asking contributions for the purpose of erecting a monument to the late lamented Captain Emmet Crawford, U. S. Army, etc., Captain Charles Morton, 3d U. S. Cavalry, of Fort Concho, Tex., writes: "The movement is by a few friends of the late Captain Crawford. To save writing letters to his numerous friends, a circular was printed, and one sent to each, as far as known, but with no desire for further publicity than that word should reach all his friends who are anxious to participate."

THE Legislative bill, as reported to the Senate by the Appropriation Committee, contains a provision for a clerk of Class 3 for General Sherman. A similar provision was put in the Army Appropriation bill by the Senate Committee when that measure was under consideration, but was subsequently stricken out in conference committee on motion of General Bragg, who was not willing to have the Corps of Army Clerks increased beyond the present limit.

THE several provisions in the Sundry Civil and legislative bill contemplating the transfer of the bureaus of the War Department, now in outside buildings, to the West and centre wings of the State, War and Navy Department building on Jan. 4 next, having failed in conference committees, these bureaus will have to remain in their old quarters for another year, unless the three Secretaries shall decide that they have the power to make an allotment of space in the new wings without authority from Congress.

OUR NAVAL GUNS.

THE following letter is addressed to Gen. Viele:

NAVY DEPARTMENT,
BUREAU OF EQUIPMENT AND RECRUITING,
WASHINGTON, D. C., Feb. 28, 1887.

MY DEAR SIR: In relation to your personal inquiry about the character of guns made at this yard and those made abroad, I would merely say that with the six (6) inch guns of high power, using powder of American manufacture, our results have exceeded the best attained abroad—namely, a muzzle velocity of 2,100 feet, with a ballistic energy in striking of about 1,900 foot tons. These results are better than the English or the famous Krupp guns. The best results with smooth bore guns of Annapolis were with the 15 inch; 1,700 feet velocity was reached, with a ballistic energy in striking of 9,000 foot tons. Compared with a 14-inch rifle, its nearest competitor, we have a velocity of 2,000 feet, with a ballistic energy of 31,000 foot tons in striking. With powder now being manufactured for our 8-inch high power guns we have every reason to believe that we shall secure results similar to these for the six inch when compared with foreign guns of same classes. Very truly yours, W. S. SCHLEY.

For the new Woolwich 9.2 inch gun a muzzle velocity of 2,520 feet is claimed, and an average of 18,728 ft. tons or 880 ft. tons per ton of gun. See ARMY AND NAVY JOURNAL of Feb. 12, p. 676.

RECENT DEATHS.

MAJOR DUNCAN MCARTHUR VANCE, 13th U. S. Infantry, who was brought sick to St. Augustine, Fla., some time ago, and recently removed to Washington, D. C., died in the latter city, Feb. 28, in the 46th year of his age. Major Vance was a native of Ohio, and was appointed from that State, a 1st Lieutenant of the 11th U. S. Infantry, May 14, 1861, and served with great credit during the war, being present in many engagements, including the siege of Yorktown, Seven Days' Fight, Gaines's Mills, Malvern Hill, 2d Bull Run, Antietam, Fredericksburg, Chancellorsville, Gettysburg, etc. For gallantry during the Pennsylvania Campaign he received the brevet of Captain and the brevet of Major for similar conduct at Gettysburg. January 6, 1864, he was promoted to Captain, 11th Infantry, afterwards transferred to the 16th Infantry, and on June 28, 1885, was promoted Major, 13th Infantry. Since the close of the war his service has been chiefly of the most arduous kind—frontier duty and assignment requiring all the highest qualities of a soldier. The seeds of the disease with which he died were sown some six or eight months ago, while he was in command at Fort Stanton, N. M. If he had then sought a leave it is possible he might not have become seriously ill, but, with devotion to duty, he remained until the close of the Apache campaign. Major Vance had a large circle of friends by whom his death will be sincerely regretted. The remains were taken to Urbana, O., for interment. The deceased officer was the grandson of General Vance, who was the second Governor of Ohio, and also of General MacArthur, who was Governor of the "Northwest Territory," which included the present States of Ohio, Indiana, Michigan, Illinois, and Wisconsin.

THE War Department has been notified of the death, at Fort Stanton, New Mexico, of Captain Henry C. Pratt, 13th Infantry, which occurred suddenly, from apoplexy, on March 1. This is the second vacancy created in this regiment by death during the week. Captain Pratt entered the 13th Infantry as 2d Lieutenant, May 11, 1866, after a service of three years in the Volunteer Service during the war as 2d lieutenant, 1st lieutenant, and captain of the 38th N. Y. Infantry, and as 1st lieutenant and captain of the 13th N. Y. Heavy Artillery.

MRS. HUNTER, the venerable widow of Major-General David Hunter, U. S. A., who died at Washington, D. C., Feb. 22, was the daughter of John Kinzie, the Indian Trader, who carried on his business at Chicago when the house he lived in was the only one outside the garrison of the first Fort Dearborn. She was about 22 years old when she married Lieutenant David Hunter, then stationed at Fort Dearborn, and in 1831 she accompanied him to Green Bay. She was five years old when, in April, 1812, the dwellers at Lee's Place were murdered by the Indians, and it was in the following August the Indians massacred the garrison at Fort Dearborn. Mr. Kinzie succeeded in saving the lives of his two children and they were removed to Detroit and turned over to the British military authorities as prisoners of war. In 1816 they returned to Chicago.

GENERAL THOMAS W. EGAN, who served with distinction during the war in the Volunteer Service, died at New York City, Feb. 24. He was wounded at Gettysburg and at Petersburg, and was appointed Brigadier-General, Sept. 3, 1864. At the battle of the Boydton plank road, October, 1864, he commanded a division of the Second Corps, consisting of four brigades, and saved the day, for which he was brevetted Major-General. This was his last battle, for on Nov. 14, 1864, he was almost fatally wounded in front of Petersburg. On his partial recovery, in March, 1865, he was sent to the Shenandoah Valley, at General Hancock's personal request, and commanded the Provisional Division, Army of the Shenandoah. The remains were interred with military honors in Cypress Hills Cemetery, on Sunday, Feb. 27, under the direction of the G. A. R.

THE funeral of Mrs. Slack, wife of Major William B. Slack, U. S. Marine Corps, who died at Colorado Springs last week, took place Feb. 28th at Baltimore. The pall-bearers were Rear Admiral John S. Worden, Gen. P. V. Hagner, Senator McPherson of New Jersey, Dr. J. C. Welling, James M. Johnson, W. A. Gordon, of Washington. The interment was in Greenmount Cemetery.

MRS. SALLIE WASHINGTON, widow of Col. Lawrence Washington, a grandnephew of General Washington, died recently near Fairfax Court House, Va., aged 87.

INSPECTORS-GENERAL OF THE ARMY.

To the Editor of the Army and Navy Journal:

REFERRING to your issue of Feb. 19 the following appears as part of the report of Lieut.-Col. E. C. Mason, Inspector of the Dept. of Dakota, viz.: "That the Army is obtaining a fair paper record as marksmen is doubtless true. It may be fairly questioned whether we are making well set up, drilled and disciplined soldiers at the same time. I think the opinion is gaining ground that target practice, as now conducted in these northern latitudes, where the period for outdoor exercises is short, occupies more than its fair share in the military instruction of the soldier."

Will or will not Col. Mason admit that the Army, for efficient field duty for which soldiers are trained, are 50, yes 100 per cent., better than ten years ago? Why, in the Custer massacre, not one third of the men had been trained in firing, and those who had thought hitting a barn door at 100 yards fine shooting. Two-thirds of Crook's command at the Rosebud had never fired a shot, and yet, according to Col. Mason, those commands were efficient because they had devoted so much time to drill and discipline and were doubtless well "set up;" so much so that none ever "set up" again. Gallant souls, ignorance of the proper duty to be taught them was the cause, and are we to go back to that period?

The chief objection to target practice seems to be that men become enthusiastic in this duty, which they know is of great importance, and they will not over a drill, which they know, in battle, would, with an improved fire, become useless. I am in for discipline of the strictest kind, and it is the duty of inspectors to report all violations of discipline, and if it is decided that rifle practice, which requires good physique and most excellent habits, is destructive of discipline, then let us abolish it, and start emulation by companies in drills, and let that regiment who can march in line of battle 2,000 yards, under fire, elbow to elbow, take the gold medal every time. It would be, in fact, as good taste for these inspectors to criticize all the departments in the Army, if they are not run according to their views. After reporting so much on this matter of target practice, they had better come to a "halt," and confine themselves to pars. 1320 to 1377, Army Regulations. I imagine this is the view of all the General officers of the Army, and some action on these reports would show that "life is too short" for the return endorsement to this effect.

We will be satisfied if the inspectors recommend two months of target practice, with no drills during that time. Then we will give you the ten months of the year for drill, etc. In foreign armies the practice in firing is for twelve months of the year, and certainly two or three months with us is not too much.

ONE OF THE INSPECTED.

THE FORTY-NINTH CONGRESS.

The following list of bills which have become laws will show how the Army and Navy have been treated during the session:

No. 1. To fix the pay of graduates of West Point.
No. 2. For retirement of Vice Admiral Stephen C. Rowan and Rear Admiral John L. Worden.
No. 6. To give appointed petty officers of the Navy the benefits of the Navy pension fund.
No. 16. To appoint Albion S. Keith an Ensign on the retired list of the Navy.
No. 33. Granting pensions to soldiers and sailors of the Mexican War.
No. 34. To release unto the city part of the San Antonio reservation.
No. 35. To provide a school of instruction for cavalry and light artillery, and for the construction and completion of quarters, etc., at Forts D. A. Russell and Robinson.
No. 38. To amend the act of June 3, 1884, to provide for the muster and pay of certain officers and enlisted men of the volunteer forces.
No. 49. Regular Army appropriation act.
No. 51. Increasing the appropriation to provide arms and equipments for the militia.
No. 54. To adjust and settle accounts for arms, ammunition, etc., between Territory of Montana and the U. S.
No. 55. Granting right of way for railroad purposes through Fort Bliss military reservation.
No. 57. For the establishment of a military post near the city of Denver, Col.
No. 58. For the construction of a military telegraph line from Sanford to Point Jupiter, Fla., and the establishment of a signal station.
No. 65. Authorizing the city of Newport, R. I., to use the site of Fort Greene as a public park.
No. —. To effect a rearrangement of the grades of officers of the Adjutant-General's Department.
No. —. Organizing a hospital stewards' corps of the Army.
No. —. To credit the Territory of Dakota with certain sums for ordnance and ordnance stores.
No. —. Granting right of way for military purposes across Whipple Barracks and Fort Meade military reservations.
No. —. Regular appropriation for the support of the Military Academy.
No. —. Regular appropriation for the support of the Navy.

Following are the private laws:

For relief of Major Wm. P. Chambliss; of survivors of exploring steamer *Jeannette*; of sufferers by wreck of the U. S. S. *Ashuelot*; of Major G. W. Candee; to correct record of Capt. Edward G. Fechet, U. S. A.

Bills were passed granting pensions to Gen. B. F. Kelly, late Brig.-General, U. S. A.; widow of Lieut.-Comdr. B. L. Edes, U. S. N.; widow of Gen. John W. Davidson, U. S. A.; widow of General Durbin Ward; widow of Rear-Admiral J. C. P. DeKrafft, U. S. N.; Frederick Robertson, late an Asst. Surgeon, U. S. A.; widow of John W. S. Gardiner, late a Major on the retired list, U. S. A.; Seth Weldy, late Captain, 23d Infantry; widow of Thomas Francis Meagher, late Brig.-General, U. S. V.

In the House March 3, on motion of Mr. Adams, of Illinois, the rules were suspended and the House passed, by a vote of 147 to 21, the Senate bill authorizing the Secretary of War to accept from the Commercial Club certain lands known as High Tract, near Chicago, Ill., for military purposes.

Mr. O'Neill, of Missouri, said that this bill was the outgrowth of the labor troubles which had occurred in Chicago. The workingmen of the city had protested against the passage of the bill.

Mr. Whitthorne's bill to create a naval reserve of auxiliary cruisers, officers and men from the mercantile marine of the United States, was reported with a favorable recommendation from the Senate Committee on Naval Affairs on Wednesday last. Several minor amendments were made to it.

House bills No. 5959, granting right of way for military purposes through the Fort Douglas military reservation, and H. R. 38, to reappoint Alfred Hedberg (late captain, 15th Inf.) a 2d lieutenant of infantry, were passed by the Senate on Wednesday. The latter bill as passed by the House, authorized the beneficiaries appointment as captain.

The closing session of the 49th Congress expired at noon on Friday. The apprehension of an extra session, so rife the early part of the week, seems to have stimulated the two Houses to activity, and the necessary work of the session was disposed of. The closing days were given up to the consideration of appropriation bills, which were, as usual, only half considered.

(Washington Despatch to the Louisville Courier-Journal.)

THE CAVALRY OF THE SEA.

"WHAT do we most need in the line of getting ready for a war, or for our proper defence?" (asked General Viele of General Sheridan).

"Two things—steel guns and a good Navy. I have spoken already of the guns. As far as the Navy is concerned, I am in favor of building a Navy with a view to speed and strength combined. The Navy should be the cavalry of the sea."

SOME CONGRESSIONAL OPINIONS.

IN the debate in the Senate on Wednesday of last week, on the bill for the increase of the Naval Establishment, Mr. Butler said: "For myself, I do not attach so much importance to what is commonly called seacoast defence. It has been stated again and again that we must expend $200,000,000 for the erection of permanent forts of steel or of masonry. Why, sir, the experience in the last civil war demonstrated beyond peradventure that there is not a harbor, or an inlet, or a creek, or a bay on any coast of the United States that cannot be reasonably protected within thirty days after the troops are posted there. We are talking about building permanent fortifications and rams and floating batteries, without a single gun to put on them. There is not a gun to-day in the possession of the Government of the United States that any ordnance officer would advise to be erected upon any fort that might be built, unless it be one of those which have been recently built in the navy-yard at Washington. I undertake to say with some little experience, not in the fabrication of guns but in the use of them, that they can manufacture as good cannon in the navy-yard here as can be made in the world; and I believe that the 10, 8, and 6-inch guns that are being made there now, and some of them completed, will compare favorably with those of any other nation on the face of the earth. I would prefer, if I had my way, that a large sum of money, much larger even than that we have provided for, should be appropriated for the fabrication of improved artillery.

"The coast defences will take care of themselves, and any officer can erect earth works upon any of the harbors except, perhaps, the Narrows of New York and some other places, within thirty days, certainly within two months; erect forts practically impregnable to the highest power guns known to mankind. The experience in the last war demonstrates and proves that. There was Fort Sumter, that was practically untenable long before it was knocked down. There was Battery Weitzel, and there were other outworks on the seacoast of my State that were actually strengthened by bombardment. I am, therefore, opposed to appropriating so much money for what are called seacoast defences, and not one dollar for the building of ships of war to go upon the high seas to meet an enemy wherever he may present himself."

Mr. Hale said that half-a-dozen ships will cost from thirty to fifty million of dollars, and he thought we needed other vessels more. He believed in rams, torpedoes and torpedo-boats. He said: "All of these come strictly within the domain that I seek to confine this bill to, and that is defence, not aggression, not craft that shall sail out upon the waters of the globe and offer battle with the navies of other powers, but for our protection at home. As I said once before, I am for that first, and after that for a great armament of armored ships."

Mr. Hawley said: "I wish to correct a misapprehension under which some gentlemen labor; it is this, that those who insist that there must be an extensive manufacture of powerful steel guns of the best modern description think our old cast-iron guns are useless and are to be thrown away; that we depreciate their value. Not at all, sir. They were good in their day; they are good of their kind now; they are valuable for harbors of shallow draught. So the old-fashioned 10-inch Columbiads will be a very powerful gun still against one of the lighter unarmored vessels. Many of our harbors can be defended with old converted rifles and old smooth-bores. But those are not the places where an enemy would care to come. What are we to do in from 18 to 30 feet of water against the powerful ironclads and the magnificent modern rifles? It is against those we are to defend, and we are not seeking in these bills to defend against them on the open sea in the waters of the Atlantic, or to contest there on the sea with them, but to defend the points at which they will aim, and that is to be done to the very best advantage by heavy floating batteries and by the rams from which I think the Senator from Maine does not expect too much. I believe they would be among the most formidable vessels—highly armored, some of them well plated in front, and without a single gun, or torpedo, or Gatling gun even for defence, nothing but boats moving at the rate of 12 or 15 miles an hour, and weighing, if you please, not more than 1,000 tons each, if built of steel. Let me correct another misapprehension. The Senator from South Carolina (Mr. Butler) said that in six months or three months or in one month, with no strong defences anywhere at the entrance of the harbors, innumerable ready hands would pile up sand and drift. The modern rifle will go through from 30 to 70 feet of sand. He says truly we have not the guns to defend them. That is true, but the first bill we have passed here is one that will start the work: it will make a beginning in the work of manufacturing the best modern guns of all descriptions."

Though Mr. Vest repeated the stale slander about $420,000,000 having been wasted on our Navy since 1865, Mr. Riddleberger omitted to ring the chestnut bell which he has irreverently suggested should be provided among the paraphernalia of the Senate chamber. Mr. Vest said:

"It is not the fault of Congress that Admiral Porter of the United States Navy, our highest naval authority, says that we have to-day but one single war vessel that can go to sea safely, and that is the *Dolphin*. It is not the fault of Congress that to-day our seaboard cities could be powdered to ashes by the armored vessels of foreign nations, even those of Chili and of Italy. I know that the stereotyped reply will be made in answer to these statistics, 'Oh, yes; we were compelled to keep up a navy of officers and men,' the fact being that we have had here upon the streets of Washington, year after year for twenty years, naval lamp-posts, commanders and captains and lieutenants, without a ship and without a sailor and without a gun, this enormous naval establishment of men and officers with no navy and with no place for them to go, many of whom never saw salt water, except at a watering place, for years at a time."

Mr. Hale said in reply: "The $420,000,000 which the Senator says have been expended in twenty years have gone to maintain the naval establishment. Out of that net, more than $60,000,000 have been appropriated for repairs and construction. It is a smaller sum than any other nation which begins to approach this in magnitude has spent in these years past. The Senator might as well arraign us for extravagance in expending during those years $500,000,000 for the Army when we have not to-day so big an Army as we had twenty years ago. He might as well arraign a man for expending money in extravagance when using it in household expenses. Taking the Senator's figures, how much does it amount to per year? Less than $4,000,000 a year upon old wooden ships, decayed, going to pieces, which had to be rebuilt—which had to be kept afloat."

PROF. MICHIE AND THE ARTILLERY.

To the Editor of the Army and Navy Journal:

THE article by Prof. Michie, of the Military Academy, concerning the personnel of the artillery, presents that branch of the Army in a sufficiently dismal plight, and he sees the germ of all the ills he complains of in the regimental organization under which it exists. He at the same time admits that "before the war," when it had, except in the number of regiments the identical organization of the present, "it was active, efficient, well drilled in its special arm, and in complete accord with the defence of that period." There must be other reasons then for the emasculated condition he describes, granting it to be approximately true, and they may be enumerated as follows:

The Military Academy is and has for over 35 years been in no small degree responsible for all the Professor complains of. Jefferson Davis, a graduate in the infantry, as Secretary of War, broke up at the Academy the "Department of Artillery," probably at the instigation of his mentor, Maynadier, of the Ordnance, and instituted in its place the "Department of Ordnance and Gunnery." Since that time the Academy has taught all its graduates, that the artillery duties which give character and standing to the artillery of all other armies, appertain wholly to an anomaly called the Ordnance Department. A cadet leaves West Point with the impression, so far as all there taught him of artillery is concerned, that the horizon of duty for an artillery officer is provided by the monotonous "By detail load, 2-3-4," or "Heave," interspersed at intervals years apart by field battery drill or parade; never having seen an artillery soldier's uniform, except as a cure for the nakedness of a day laborer or a post scavenger. The writer was once shocked beyond measure at hearing a distinguished artillerist say: "The Military Academy, instead of being an *alma mater* to us (meaning the artillery) was a step-mother, and a harsh and brutal one at that; for she not only wronged and persecuted us, but taught our own children to do the same. He has lived long enough to sadly realize the truth of the remark—an artillery officer's duty is simply that of a gun pointer and a drill sergeant, as taught at the Academy; all else appertains to the Ordnance Department.

The rise of this anomaly from the artillery, due to the desire of certain of its Coburgers, with personal and political influence to so arrange that they should monopolize the flesh pots of Egypt, its lapse and subsequent resurrection as a non-combatant department of the Army with defined civil duties "to consist of skilled armorers, wheelwrights, carriage-makers, blacksmiths and laborers," its firm establishment at the seat of government, and at various arsenals, under the claim that "military control of artisan labor would lead to troublesome consequences," its subsequent accession of full-fledged soldiers, the endeavor to place them in seacoast forts, and as light artillery soldiers under ordnance officers in military expeditions, the gradual assumption of all professional duty of artillerists save the active command of so-called artillery troops, the destruction of the provisions of the Army Regulations of 1821, which relegated the ordnance to their depots and arsenals and forbade their appearance at any headquarters, the orders of the War Department of 1864 transferring artillery duties to the ordnance, and, finally, the orders of 1877 requiring all artillery commanders to report to the Chief of Ordnance, in his blanks, of every shot fired in instruction, practice, or even in action, are facts too well known to be dilated upon here, and have accomplished much of their object as well-laid schemes to render the present organization of artillery supernumerary, and allow the Coburgers to swallow the shadow as they have the substance, relegating the "regiments" to other arms, or to be mustered out—in the fulness of time—as an economical Congress may see fit. All this has been, and is, an active factor to be counted in considering the present state of the artillery regiments.

The neglect of the artillery by the War Department and the Headquarters of the Army during and since the war has been another factor not noticed by the Professor that has tended to paralyze progress in a professional direction.

In 1861, when the War Department without a law increased the Regular Army, the infantry increased in number of company organizations 216 per cent., the artillery 24 per cent. In the reorganization of 1866 the number of infantry organizations were further increased 42 per cent., while the artillery was not increased at all. This last change was made by enactment of Congress, but in the technical questions of proportion of different kinds of troops Congress would be quieted by the War Department. When the day of reduction and consolidation came, connected with the purgative remedy, known as the "Benzine Board," the artillery, that had derived little or no advantage from expansion, was denied the advantage of its benzine vacancies. Infantry supernumeraries, with the advanced rank derived from expansion, were thrust upon the artillery to the prejudice of the rank of its officers, and in some cases the law, bad as it was, was violated by transferring into the artillery officers already filling places in infantry regiments.

The best and most promising of the experienced artillery officers were given greatly advanced rank in the volunteer infantry, while the superannuated morbose and inefficient were left with the young and inexperienced to take care of the artillery. With the knowledge that hundreds of thousands of men required hundreds of guns, and that these required experience and professional knowledge to properly handle them, the trained and experienced artillerists were sent to places requiring skill and experience to a less degree, and of a kind much easier acquired, while hosts of worthy and patriotic citizens, entirely innocent of any military knowledge or experience whatever were accepted and mustered into the Service as colonels, lieutenant colonels, surgeons and captains of artillery. The artillery arm was never vouchsafed but two general officers whose time and attention was devoted to that arm, and but one of those, Gen. Hunt, remained constantly in the field as an artillery commander, while it prolifically furnished the other arms with their most distinguished commanders.

With every successive reduction in the enlisted strength of the Army, the artillery organizations have been given by far a greater percentage of reduction than this shows. An artillery company now numbers 40 men, while an infantry company has 50, and a cavalry company 66.

We will take issue with the Professor on his assertion that the personnel has, on the whole, deteriorated since the close of the Civil War. On the reorganization of the peace establishment in 1866, already referred to, the most able and distinguished of the older officers were removed from the artillery by promotion into other arms in which they had served as general officers. In the places these men would have filled to-day, the senior grades, there has been, with a few honorable exceptions, an undoubted falling off in ability and character, and for the last four years, the Ordnance Department has, by its vastly more rapid promotion, (every lieutenant in the Ordnance by law becomes a captain in 14 years, while the 2d lieutenant of artillery of to-day has held that grade over 24 years) pleasant stations and veritable duty to perform, been inducing many of our most promising young men to transfer to that organization.

But with all this we maintain that it cannot be proven by quotations of anything done or undone, where the artillery were the responsible parties that the standard of average ability has in the least deteriorated. The Professor will understand us when we say of our ability that it is merely latent. He absolves us from blame for ignorance of modern armament for the abundant reason that we have none to be ignorant of, and falls back on his stated fact: that we do not use what we have. He says nothing of the fact that we depend upon the Ordnance Dept., not only for guns, but for projectiles, powder, and implements of all kinds; that they are doled out with the utmost parsimony at all times, and often refused as things that nobody but an ordnance person should be allowed to have. He asserts there are some lieutenants of artillery of over eight years of service who have never even witnessed the firing of a 15-inch gun.

Supposing he means service after graduating, we will again call his attention to the fact that this reflects somewhat upon the Academy; for there is but one lieutenant of artillery of over eight years' standing who is not a graduate of the Military Academy, and he happens to be a graduate of the Naval Academy. We will vouch for it that while there he not only saw, but helped to fire every gun known to the naval service; and at the risk of being regarded as somewhat disagreeable, we will say that if the Military Academy had a department of artillery as it once had, presided over as it once was by an artillery officer, we do not believe *any* cadet would ever be graduated without not only having seen, but himself engaged in the firing of all kinds.

Regarding his remarks against musketry practice, we would remind him of the fact that in all armies the musket or rifle is part of the equipment of the foot or garrison artillerymen; that it is the corner stone, foundation and superstructure of all modern fighting, and that it has been and is a struggle for the artillery to hold its own against this weapon, and that it is a poor soldier of any kind or rank who is ignorant of its use or indifferent to its power. While no one would advocate the neglect of the artilleryman's typical weapons for the hand rifle, it goes without saying that if many of our artillerymen did not practice with the rifle they could not practice with anything at all; and that no artilleryman has ever been hurt, as such, by any experience or skill he may have acquired with a rifled musket.

We cannot go to the length the Professor does in holding the organization entirely responsible for the condition of the artillery. If the colonels have no command or authority beyond their home posts, because they have not sought it, it is their fault rather than that of the organization; if they have sought for it and it has been denied them, then the fault rests with the authority that denied it, be it department, division, or any headquarters. The writer believes the fault rests with the colonels, for the reason that he never heard of but one colonel who sought such authority, and he was at once granted all the authority he wanted, and he exercised it, too. Considerably younger than his peers in rank, soldierly, energetic, professionally learned and ambitious, to him duty was a pleasure and progress a delight. To the ordinary colonel of average years, who usually abhors a new idea or a departure from the rut of ages only less than he does the person who has the temerity to introduce or uphold it, this officer was an incomprehensible and unpopular man. Supply it with such commanders as he was, even with its faulty organization, the artillery would be speedily lifted out of its monotonous routine and become an asserting and progressive organization. To the want of these much that is complained of is due, and the want will be felt as long as the only stepping-stone to promotion is the sequence of numbers upon the Army Register. Give us examination for promotion and dismissal for incompetency and we will answer for the result.

The writer entirely agrees with Professor Michie that a corps organization, consisting of a chief, a proper number of field officers, and light and foot batteries, is the only proper one for the artillery force of any army, and no one would, or has, for the last quarter of a century more earnestly advocated such a change. He regrets to be compelled to say that the idea has never been popular in the artillery. General McClellan, in the height of his popularity, caused such a measure to be introduced into Congress that would easily have passed into a law, but it was opposed by most of the older officers of artillery for the avowed reason that if it became a law one of their number who did not happen to be popular would surely be appointed chief, and they preferred nothing to that. He has heard it opposed stoutly by middle-aged officers because it would break up regimental association and esprit!! It is always, with still some short-sighted foolishness, stout-

ly opposed by subalterns who would, for the time being, lose a few files in the race for the higher grades. He argues that the times are propitious for a change, thanks Prof. Michie for his thoughtful championship of the cause of a worthy body of men, and will assist at all times in agitating the subject to a successful issue. There is much more to be said, and it is hoped the discussion will be kept up until something is accomplished.

EDWIN M. STANTON.

MR. CHARLES F. BENJAMIN, a clerk in the War Department, has an interesting chapter of recollections of Secretary Stanton in the March *Century*. He tells us that the story of Stanton's alleged contemptuous reception of letters from the President are grossly exaggerated or wholly false. They originate in the collisions in which the Secretary was sometimes involved with persons who presumed upon the possession of an order from the President to make a display of insolent impatience for a prompt acquiescence in the orders of his superior officer. On being threatened by the bearer of such an order, "I shall go back to the President and tell him how his positive commands are disregarded here," the irate Secretary would not unnaturally answer:

"You may go to the devil, sir—leave the room."

Stanton was a passionate man, a word or gesture would arouse him in an instant, but the storm would pass away as quickly as it came and the victim would be treated in some way with special consideration, every undeserved exhibition of wrath being followed by an act of expiation. Adjt.-Gen. Townsend, who was the special victim of these outbreaks, was touched by finding himself named in kindly phrase as one of the executors of Stanton's will. This irascibility is ascribed to ill-health. The Secretary's dislikes were very few and his aversions most sincere, even when possibly unjust. He was always and before everything a lawyer, and it was the legal attainments of Gens. Halleck and Canby that placed them so high and kept them so steadily in his esteem. One day a prominent Senator made his way into the Secretary's presence full of fury against the Quartermaster General.

"Stanton," he roared out, "I wonder how a lawyer as you are, can keep that man Meigs where he is; why, he pays no regard to either law or justice."

Mr. Stanton looked at his excited visitor and replied dryly: "Now don't you say a word against Meigs, he is the most useful man I have about me. True, he isn't a lawyer, and, therefore, he does many things that I wouldn't dare to do."

"Then why in the name of Heaven do you let him do them," demanded the Senator.

"Somebody *has* to do them."

Mr. Stanton held an opinion concerning military men and matters which was very nearly akin to contempt. This was shown in his practically abandoning the whole business of brevets after the war to a clerk in his office, saying in effect: "Here is something that means nothing and costs nothing; take all you want." A party of departmental clerks, for a lark, undertook to get a companion and butt of theirs, breveted from his rank of 1st lieutenant to that of Brig.-General, and got as far as lieutenant-colonel when he took fright and insisted upon stopping there. "It made a man of him, for some wealthy relatives took him up on hearing of the honors showered upon him, established him in business and helped him to a desirable marriage."

A BOMB TEST.

A WASHINGTON despatch of Feb. 14 says: "The inventor of a new kind of bomb, for which a patent is pending, came to see the commissioner, who happended to be out. He brought with him a specimen bomb, which was enclosed in a pasteboard case, and he showed it to the commissioner's private secretary, Mr. Will Montgomery. The inventor said that it would go off as soon as it touched water, and this specimen would make a noise when exploded like a fire cracker. The private secretary had some curiosity to see the bomb tested and sent out and procured a pail of water. When the bomb was thrown into the water the effect was startling. The water was forced up with violence to the ceiling and fell in a shower pretty well all over the room, while the noise of the explosion was like the report of a cannon. As soon as the few spectators could wipe the water out of their eyes they pronounced the test a great success."

THEY PREFER TRIBUTE TO DEFENCE.

AS A result of the meeting of the Executive Committee of the Universal Peace Union, which was in session at Philadelphia for three days, the following petition has been forwarded to members of Congress:

To the Honorable the Senate and the House of Representatives in Congress assembled:

Your petitioners view with deep concern the vigorous efforts made by persons interested in Army and Navy expenditures and in the appropriations for fortifications, the construction of ordnance of an expensive character, etc., to induce your honorable body to vote large sums of money to prepare for the formation of a military and naval system on a gigantic scale in imitation of the establishments of the great despotic empires of the Old World. The history of all empires and nations that have maintained such systems abundantly proves that the personal liberty of the subject or citizen is sacrificed in the struggle for military supremacy, and the worst form of despotism and oppression exists where the Governments surround themselves with powerful war establishments. The policy of this Government, as wisely directed by President Washington, to keep clear of entangling alliances with other nations, renders a foreign war exceedingly improbable, and the example set by President Grant of settling international disputes by peaceful negotiation and arbitration, and the remarkable success of these methods in many prominent instances, have taken away all excuse for the legislation now before you providing for the construction of large steel guns, fortifications and war ships. The United States as a republic was founded on principles of justice and popular rights, and therefore does not need these appliances of despotism to maintain its power and authority. Your petitioners therefore pray that you will defeat bills for warlike purposes now pending before you, and that you take up and pass those measures which have been introduced providing for peaceful negotiation and arbitration.

Signed on behalf of the Universal Peace Union.
ALFRED H. LOVE, President.

GEN. LORD WOLSELEY favors a close confederation of all English speaking peoples, so that freedom and peace can be proclaimed authoritatively throughout the world.

THE STATE TROOPS.

THE ELEVENTH AND TWELFTH NEW YORK.

THE competitive drill between squads of Co. C, 11th, and D, 12th New York, which came off at the armory of the latter on March 2, created a vast deal more interest than was anticipated. Few people expected that either regiment could produce squads so well posted and so precisely drilled as turned out to be the case here. The contest took place too late in the week for us to give a full report of it in our present issue, but we desire to say that both squads are entitled to much credit for their excellent performance. The decision in favor of the 12th was doubtless a just one. Still the contest was so close and the points in favor of the 11th so many, that their disappointment at the verdict is very reasonable. What the outcome would have been if the affair had taken place on neutral ground is very doubtful. As it stands, both detachments covered themselves with glory, and the losers need not feel chagrined at their defeat.

(Correspondence of the Army and Navy Journal.)

ILLINOIS NATIONAL GUARD.

THE agitation of the project for a camp for the 1st Brigade, I. N. G., in the vicinity of Chicago, has brought forth a shower of sectional abuse from both the Chicago and Springfield papers, which will, to say the least, not do the Illinois National Guard any good. While the importance, and indeed necessity, of a northern camp and rifle range is admitted on all sides, there has been a wide diversity of opinion as to the manner in which the attempt to get it should be brought up in the State Legislature. By endeavoring to add it to the regular appropriation bill for the expenses of the Guard for the next two years, against the wishes of the Adjutant General, and making the struggle on this point, instead of submitting a separate bill, it is probable the project has been killed for this session, the Senate Committee having decided to report the regular bill without this amendment.

Company D, 3d Infantry, of Aurora, opened their new armory on Tuesday evening last (Washington's Birthday). Adjt.-Gen. Vance, Col. Ewert, A. A. G.; Col. Evans, of the Governor's staff, and a party of officers from Chicago were present. The armory is a rink, having a floor 150x50 feet, which has been secured for a year; and it is hoped, ere that time has passed, that it will become the property of the company. The company, under command of Lieut. Reeve, gave a short drill, and then "The Silent Three" gave an exhibition of silent Zouave drill. Dancing continued until a late (or early) hour.

The 1st Infantry have secured the option of leasing a tract of land on Wabash avenue, near 16th Street, for 99 years, on very favorable terms, and are now using their utmost endeavors to raise the "wherewithal" to erect the building. If they are not successful, it is hard to predict what the future of this command may be, as many of its officers and men feel that if their services are of so little value to the business men of Chicago that they are not worthy of an armory, they had better leave the National Guard.

There are rumors floating in the air concerning a possible consolidation of the 1st Cavalry with one of the city regiments. Some of the officers of the cavalry have resigned, and it is probable more will do so ere long; so there may be some truth in the story.

The 1st Infantry have secured Prof. Currier, late of Cincinnati, as bandmaster, and it is hoped that the new band may prove to be the best organization in the West.

The Illinois National Guard is fortunate in being ordered to camp this year by regiments, instead of by brigades, as in the past. The opportunities for improvement in every necessary line of duty which a militiaman should know, is so much greater in regimental camps, and so thoroughly appreciated by the men as well as the officers, that a glad shout went up in more than one command on the promulgation of the orders.

The Adjutant-General's report for the past two years, and the revised report of the Adjutant-General for Illinois during the war of 1861-1865 (8 volumes), have just been issued, and are valuable books of reference.

CIVIL ORGANIZATIONS IN THE GUARD.

They have no authority to control the terms of Enlistment.—The general regulation upon the subject of company by-laws declared to be "patently illegal as being in conflict with the provisions of the statute."—Decision by the Judge-Advocate-General.

STATE OF NEW YORK,
OFFICE OF THE JUDGE ADVOCATE GENERAL,
NEW YORK, February 16, 1887.

Major-General Josiah Porter, A. G., S. N. Y.:

SIR: I have the honor to acknowledge the receipt of a communication addressed to you under date of Oct. 14, 1886, by Captain Welcome B. Randall, commanding the 41st Separate Company, stating the case of a company having by-laws that require applicants for enlistment to be voted upon and elected to membership prior to their enlistment by the commanding officer of the company; and inquiring whether the commanding officer has the legal power to enlist such applicants without such action by the company.

The provisions of the M. C. which directly refer to the enlistment of men into the National Guard are sections 40 and 42. Sec. 40 defines the persons who may be enlisted as "able-bodied men of good character who can read and write," regulates the term of enlistment and requires the consent of parents and guardians where the recruit is a minor.

Sec. 42 relates to the manner of enlistment and the formalities attending it. It requires the signing of an enlistment paper, the taking of the oath of allegiance, and the approval of the paper by the commanding officer of the organization to which the troop, battery or company is attached. The form of the enlistment paper is to be prescribed by the Commander-in-chief.

There is nothing in either of these sections which contemplates or requires an election of the would-be soldier to membership by the civil organization, as a prerequisite to his enlistment, and as these are two sections dealing with the formalities of enlistment, such a provision would naturally be found in them.

The civil organization is regulated by M. C. 139 and 140. There is no provision in either of these sections which in any way assumes to regulate enlistments. The adoption of the by laws, rules and regulations is authorized, and it is provided that they shall conform to the system prescribed in the General Regulations, but it is also required that they must not be "inconsistent with this act." The question then fairly arises whether R. 147, which in terms requires the election of recruits by the civil organization before they can be enlisted, is a valid regulation. . . .

The raising, equipping and supplying of a military force, including naturally therein the power to determine who shall be enlisted, calls for the exercise of legislative powers. Matter of Riley, 1 Benedict, 408; 6 Opin. Att'y Gen'l U. S., 10. These powers having been exercised by the Legislature in the form of statutory enactment, the duty of carrying them into effect is cast on the Governor, and that duty is strictly executive in character. To hold valid a regulation issued by him, which is contrary to the statute under which it is made, is to invest him with a legislative power superior to that possessed by the Senate and Assembly. A similar objectionable result is obtained by giving effect to a regulation which assumes to deal with a subject that can properly be controlled only by the exercise of legislative powers.

These questions were considered by the Hon. Caleb Cushing when Attorney-General of the United States, in passing on a "System of Orders and Instructions for the Navy," which had been promulgated by the President. These he held of no effect in that they were not properly executive, but were legislative in character, and, as he pointedly expressed it, if the executive "may by a general order legislate on a military or Naval question, so may he on any other, and there is an end of all the barriers of the Constitution." 6 Opin. Atty.-Gen., 10.

It has been pointed out that the intervention of the civil organization in the enlistment of recruits is not in terms authorized by any section of the Military Code. The Legislature has exercised its power and defined who may be recruited and also prescribed a system to be pursued in making enlistments.

Any regulation on the subject must conform to the provisions of the M. C. R. 147 prescribes a system for enlistment, different in a material matter from that laid down by the Legislature. It calls for the approval of the enlistment by a body whose approval is not required by the act in question. The regulation does not conform to the statute in this behalf but is contrary to its provisions. It is not executive, but if upheld would be legislative, and is inimical to the rules of construction to which attention has been directed.

A few words may well be said upon the operation of Regulation 147. By the terms of the preceding Regulation each organization is permitted to adopt, subject to the approval of the Judge-Advocate, a system of by-laws for its government. These by-laws differ in many important requirements, and especially in so far as they pretend to regulate the enlistment of members. In some instances they are entirely silent upon this particular subject; in others they are flagrantly illegal. Naturally if each company has the right to make its own by-laws, with regard to matters so essentially important as that of enlistment, great irregularity and lack of uniformity in the system is to be expected, and while this is the case, I doubt if the worst anticipation would be as bad in these regards as the system which has actually grown up. For the purpose of discovering, if possible, what this system is, I have examined with care into by-laws of every company in the National Guard in this State, of which I have been able to get copies. Not only is it possible, under the theory which has hitherto prevailed, for the system which applies in one regiment to be entirely unlike that which applies in another, but for the system applicable to two companies in the same regiment to be entirely unlike. I am certain neither the law nor the law-makers ever contemplated such a possibility. The National Guard is something more and more serious than an aggregation of military clubs, over the control of which the club members themselves have absolute and final authority concerning admissions and expulsions. It is a well planned and thoroughly organized military body, designed for strictly military purposes, and intended to be the final police power of the State. It was the object of the law to breathe into this body as deep a spirit of military uniformity and duty as is compatible with the fundamental character of the citizen soldiery. If it is possible for each company to make its own requirements in these regards, then the State may be deprived of the very men whose service as soldiers would be of the utmost value. If the by-laws now prevailing in a majority of the companies are correct the authority of the sworn officers of this service is nullified by the right of the civil organization to exclude from membership any person whomsoever on the score of his age, on the score of his looks, of his habits, manners, the company he keeps, and even on the score of his race. One company has already been mustered out of the Service because of a race quarrel. The scarred but experienced veteran may be excluded on the ground that he is a German or a Hebrew, inasmuch as he associates habitually with Germans and Hebrews, which may not be satisfactory to the members of those companies which require that the associations of persons seeking admission to the Service shall be satisfactory to the majority of the members. A person seeking to be recruited, who should be excluded from one company, could be admitted into another, by virtue of the difference in the number of black-balls required for exclusion, and so on *ad infinitum*.

[The conditions of membership required by the by-laws of a large number of companies belonging to the National Guard of New York are here reviewed to show the great diversity of requirement and the insertion of wholly illegal provisions. The height for recruits runs from 5 ft. 2 in to 5 ft. 6 in., and the number of black balls required to prevent their acceptance from two to five. In them also, in a large number of cases, it is provided, contrary to the statute, that a two-thirds vote of the members present shall be sufficient to expel. Among other provisions quoted are such as these: that the matter of admission shall not even be presented to the company; that the candidate shall be of gentlemanly manner and appearance, reputable associations and occupation; that a person expelled shall be elected de novo or be ineligible to re-election; that a man enlisted by a com. officer on satisfactory proof of good character and reputation may be rejected by the company. Gen. Ivins says: 'As to what may be regarded a reputable occupation by the members of a company, one can only speculate, but such a by-law makes it possible to organize the company on the most thoroughly undemocratic basis. Co. I, (13th Regt.), requires that the candidate shall have a good constitution, and be 'of good moral character and gentlemanly in behavior and appearance.' I find no provision among the officers of the civil organization of this company for any officer to regulate the standard of gentlemanliness."]

This present state of affairs which could never have been foreseen by the Legislature, and which certainly was never designed, and is not permissible by the law. The entire system has grown out of the fact that the Service has been led to believe it to be legal and allowable, in view of the provisions of the General Regulations upon the subject of company by-laws. The evil lies in the fact that this general regulation is itself patently illegal, as being in conflict with provisions of the statute. I have thus gone into the matter in detail for the purpose of illustrating the outgrowth of the regulation, the legality of which I have discussed earlier in this opinion.

I have examined all of the by-laws presented to me under Special Order 97, Series of 1886, and have not found a single instance in which the qualifications for membership and the system of enlistment by the civil organization in any regiment is exactly the same in all of its companies; and but one instance in which the qualifications and procedure are substantially the same. This statement will serve to emphasize my remark made earlier in this opinion, that there is not only a diversity in procedure between the various regiments but the utmost difference among the companies composing each regiment. This condition of things is the outcome of the present system by which the civil organization assumes, in my opinion quite unlawfully, to regulate the enlistments into the National Guard. It is not to be expected that these differences will decrease, but rather that they will increase with the lapse of time. Nothing could present a stronger contrast to this general lack of system than the simplicity and uniformity in the manner of enlistment called for by Section 42 of the Military Code. The Military Code recognizes the existence of the civil organization, but, as I have already said in my former opinion, there is nothing in the present law which makes such civil associations the foundation and centre of the entire Service, by giving them an unlimited and final control in the matter of enlistment. This

question of recruiting and enlistment lies at the very foundation of the Service, and if the present system could be upheld the State might be deprived of the services of its best and most available men, because of the predominance of the spirit of exclusiveness, or for any other reason which might prevail to lead companies to enact into their by-laws requirements, which are out of place in any democratic system of government and in any true military service.

It is also to be observed that the conclusion which I have reached in reference to the legality of R. 147 does not leave the system of enlistment devoid of a proper and competent authority to determine the suitableness of the recruits. In addition to the general obligation cast on all officers who are directly connected with the matter of enlistment, it is expressly provided by the last sentence of M. C. 42 that "no person shall be considered as enlisted in the National Guard until his enlistment paper has been approved by the commanding officer of the organization to which the troop, battery or company is attached." The approval cast upon such officer is plainly not of a perfunctory character. With him resides the power to determine whether the recruit shall be enlisted; and with his assent, all previous proceedings become final. In the discharge of the duty of examining and approving applications for enlistment, such commanding officer is plainly required to satisfy himself that the recruits are "able-bodied men of good character, who can read and write." He may well require their physical condition to be certified to him by a regimental surgeon, and their good character to be vouched for by persons of known standing, and their capacity to read and write to be made manifest by examination or proper certification. In a word, he may require any legal and proper evidence that the recruit possesses the qualifications required by M. C. 41. Indeed, the action contemplated by the words just quoted from M. C. 42, cannot be advisedly taken without the possession of some evidence that the recruit is up to the requirements of Section 40.

In conclusion I would invite attention to the fact that the present condition of the by-laws of the various military organizations is such that action is needed to do away with illegal provisions, to some of which I have called attention, and to conform such by laws to the plain provisions of the Code.

I have the honor to advise that upon the case submitted as stated by me at the commencement of this opinion, the commanding officer of a separate company has the legal power to enlist would-be recruits, subject to the approval of his commanding officer, under M. C. 42, and this, although such a company has n civil organizations and by-laws requiring applicant for enlistment to be voted for and elected to its membership prior to their enlistment by the commanding officer. This conclusion necessarily involves the illegality of R. 147, in so far as it seeks to make election to membership in the civil organization a pre-requisite to membership in the National Guard.

I have the honor to remain,
Very respectfully yours,
(Signed) WM. M. IVINS,
Brigadier-General and Judge-Advocate General.

THE TROUBLES IN THE THIRTEENTH, N. Y.

G. HDQRS., S. N. Y., A. G. O., ALBANY, Feb. 25.
Special Order No. 15.

A General Court-martial for the trial of Privates Marlbro Walker, Geo. A. Wilson and James F. Knudson, of Co. H, 13th Regt., and such other persons as may be brought before it by authority from these Headquarters, will convene at the Headquarters of the 2d Brigade in the city of Brooklyn, N. Y., on Friday, March 4, at 8 o'clock P. M. Detail for the Court, Capt. Wm. Haubennestel, 19th Sep. Co.; Capt. George F. Demarest, 22d Regt.; Capt. Chas. A. Hess, Inspector of Rifle Practice, 71st Regt.; 1st Lieut. J. S. Shepherd, 23d Regt.; 1st Lieut. Austin O. Crane, 14th Regt. Major Almet F. Jenks, Judge-Advocate 2d Brigade, is detailed as Judge-Advocate.

By order of the Commander-in-Chief,
JOSIAH PORTER, Major-General and Adjt.-General.

The charges and specifications are: Charge I.—Disrespect to his superior officer; Specification I.—That he signed a written request demanding in writing the resignation of his presiding officer; Specification II.—That he did demand and ask Capt. Kretschmar that he should resign the office of captain. Charge II.—Conduct prejudicial to good order and military discipline; Specification I.—In that he did with other persons unknown, surreptitiously and wrongfully take away the lock from the room of Co. H, in the Armory of the 13th Regt., so that the same could not be fastened and secured. It is understood that as soon as the present cases are disposed of other members of the company will have to pass through the same ordeal.

Eighth New York.—Col. Geo. D. Scott.

THE Eighth has had two battalion drills. They were hard work with dim light, small space, a rickety building and a corps of new officers, intelligent in a high degree, but inexperienced after all. It is, however, due to the regiment to say that for years past it has not possessed a corps of bright, young and energetic officers, as is the case at present. The formations on both occasions were small, 16 files on the first and 12 files, with blanks, on the second occasion. The instruction was merely elementary, both officers and guides needing close looking after, and the repetition of movements thus rendered necessary prevented much variety. The instruction by Colonel Scott was good, however, and the appearance of the whole shows new signs of life.

Twenty-third New York.—Col. Chas. L. Fincke.

IN Orders No. 25, C. Colonel Fincke directs that hereafter in all instructions to the "loadings, at the second motion of 'load,' the right hand is to be carried to the front of the body, to the place where the cartridge box is (for purpose of instruction) supposed to be." So much of G. O. No. 17, 1876, as relates to unfixing bayonets is countermanded, and hereafter that portion of the Manual of Arms will be executed strictly as prescribed in Par. 82, Upton's Tactics. Commandants of companies are directed in their company drills, beginning from the date of this order, to devote half an hour on each and every drill night to instruction in "skirmish drill" by bugle. The regimental bugler will report on each night to the senior captain present, who will arrange with the other commandant drilling on that same evening as to the division of the time for each company. Half an hour, at least, will be devoted to guard and sentry duty, and "Phisterer's Manual" will be the authority and standard of instruction. The remaining part of the drill will be at the option of each commandant, particular attention being given to movements in single rank.

The spring games, to be held at the armory on the evening of Saturday, April 2, under the auspices of Co. A, comprise the following events, in which gold medals will be given to the first and silver medals to the second, open to all amateurs: 50 yards dash (handicap), 220 yards run (handicap), quarter-mile run (handicap), 1 mile run (handicap), 1 mile walk (handicap), running high jump (handicap), potato race (scratch). A 100 yards hurdle race, five hurdles three feet high, and a sack race, open only to members of the regiment, are also on the programme. A tug-of-war for the championship of the National Guard will be open to teams of four not weighing over 650 pounds. The rules of the N. A. A. A. will govern all the contests, and the handicapping will be done by that association's official handicapper. The entrance fee will be 50 cents for each event, except to the tug-of-war, which will be $2 for each team. Co. A reserves the right to refuse any entry. The entries will close March 25, with A. H. Mullen, P. O. Box 137, New York, or Co. A, 23d Regiment.

Seventy-first New York.—Col. E. A. McAlpin.

The adjutant of the 71st formed a battalion of four companies on Thursday evening, Feb. 24, in good style, but he spoiled his work by not adhering to par. 382 in the equalization. It is a good idea to vary this part of the work by dividing the companies on the ground, instead of going through the tortuous method of having the 1st sergeants report and transferring men from company to company before the adjutant's call, but whenever such a thing is attempted it should be done properly. The adjutant should read up the paragraph mentioned before next drill. Major (now Lieutenant Colonel) Frederick Kopper was in command, and opened with a well done break from the right to march to the left in column of fours, which means that it was as well done as possible in a room hardly large enough for three sets of fours to manœuvre. He followed with on right into line, which would have been equally good if the adjutant had posted his markers in proper time. The captain of the the first company had to call for them. The adjutant who, by the way, did not leave the battalion immediately after its formation, as has been his custom, nevertheless left his post as soon as the captain of the first company had placed the markers and retired behind the front, neglecting to assure the guides. He should look out for this when he comes out for drill the next time. This was a successive movement, and called for support arms, but the first company was the only one which did comply with the requirement. The command was then centre forward fours left and right, and it was fairly done, as well as the deployment right and left front into line, but the three right companies failed to support arms. This was another successive movement, and there is no excuse for the neglect of the captains in this respect. The movement was done twice. On right close column of companies was next done, and it was very good, the same as a similar movement left in front. In a change of direction by the right flank the fourth company failed to support arms, otherwise the movement was good. There seemed to be evident disinclination to support arms at the proper time, but the fourth company by going through this motion in forming right of companies and into column made up for previous omissions in a most blundering manner. This is a simultaneous movement, and the captain was entirely wrong. His company should have remained at carry. The battalion commander, no doubt, executed the close in mass on fourth company as a reminiscence of his service in the 7th Regiment. As a piece of instruction here it was of no use. The companies did it well, however, but in movements of this sort the guides should be instructed not to invert their pieces. They did so in the three companies which closed in mass. After this the battalion formed line and executed the manual, which was very fair for the 71st. The drill lasted one hour and fifteen minutes. It was the best of those we have witnessed here this season, but we still adhere to our remark of last week, that battalion drills can be of no use to the 71st until sufficient space is secured to execute them properly. Under present circumstances it is simply what Mr. Mantalini would designate as a "demd horrible grind," without good to either officers or men.

Some of the peculiarities of the drill were that the captains did not designate the number and position of their companies as required by Tactics, and that the adjutant neglected to assure the company guides after the markers were placed in front of the company making the initial movement. The instructor handled his command well, but he failed to point out mistakes and merely repeated faulty movements without saying a word of correction. In consequence of this there was less benefit derived from the drill than was possible.

Major Frederick Kopper, on Saturday evening, was unanimously elected Lieutenant-Colonel in place of Palmer resigned. The election is a happy one and the best that could be made. The Lieutenant-Colonel elect entertained the officers at the St. Cloud Hotel in a handsome manner after the election.

The officers of the 71st Regiment, N. G. S. N. Y., met, Feb. 26, at the armory, Broadway and 35th street, and unanimously elected Major Fred Kopper Lieutenant-Colonel, in place of Appleton D. Palmer, resigned. Brig.-Gen. Fitzgerald presided at the meeting and congratulated Col. Kopper on his elevation, to which the Colonel responded. Col. Kopper is a member of the 7th Regiment Veteran Association and saw active service in that regiment during the Rebellion and in the Orange riots of 1871 and the railroad riots of 1877. He has served as Major of the 71st since 1884. After the meeting the officers enjoyed a banquet at the St. Cloud.

MILITIA ITEMS.

By O. No. 7, Feb. 25, a school of instruction for the officers in the 7th N. Y. is established; the meetings to be held on the first Saturday in each month at 8.30 o'clock P. M. Commandants of companies will establish schools of instruction for the non-commissioned officers and impart theoretical and practical instruction in guard duty to non-commissioned officers and privates. Commandants of companies will instruct their commands in the sighting and aiming drill, and not less than four drills, each of at least thirty minutes duration, should be had in these exercises before May 1 next.

A skirmish drill was practiced by the 23d N. Y. on Feb. 28, the commands being given by the bugle. As this is an innovation, of course blunders were not to be surprised at. The drill on a whole was very satisfactory.

The coming ball of the 69th N. Y., which will be held at Tammany Hall on the evening of March 17, is said to promise a grand success. The tickets are in great demand.

The 14th N. Y. is ordered to assemble at the armory in State service uniform, for drill and instruction, on Tuesday evening, March 8, and also on the evening of Wednesday, March 16, in full dress uniform. On this occasion the marksmen will receive badges, and Gen. James McLeer and staff will review the regiment.

The New York Militia are having some amusement at the expense of Gen. T. F. Rodenbough, U. S. A. When the General was Assistant Inspector-General of the State of New York he selected a man for his orderly whom he paraded as his model militia soldier. The "model militia soldier" was recently ordered before a Militia Examining Board to be tested as to his qualifications as an officer. Instead of answering the questions he presented his resignation as a bar to examination. The Board thereupon passed a resolution dismissing him from the service.

The return rifle match between teams of eight from Co. A, 23d N. Y., and Co. G, 13th N. Y., was shot, Feb. 28, on the 23d's range, and A's team won by 14 points. At the first match A won by 17 points. The score in detail was as follows: Co. A, 23d—G. S. Scott, Jr., 47; J. R. Barton, 45; J. M Carrere, 44; W. A. Robinson, 44; P. H. Worth, 44; W. G. Kimball, 41; E. B. Thurber, 38; W. S. Woodrow, 37. Total, 340. Co. G, 13th—H. G. Morris, 45; B. N. McQueen, 45; G. W. Lotz, 43; J. M. McQueen, 43; J. T. Baxter, 40; G. R. Hazard, 40; A. A. Hayward, 38; W. P. Rae, 32. Total, 326.

In G. O. 2 of Feb. 15, the commander of the 4th Brigade, Buffalo, directs that the Ambulance Corps of the brigade be organized at once under direction of Brigade Surgeon Roswell Park, the regimental surgeons of the 65th and 74th Regiments, and the assistant surgeons of the various separate companies.

MASSACHUSETTS MILITIA.

THE Boston *Sunday Record* says of the preparations for mob duty: "The militia have been making a study of the subject for some time past. When Gen. Nathaniel Wales was Police Commissioner, he had the 1st Brigade well posted as to what its duties were in such emergencies. The officers of the 5th Regiment have held meetings at headquarters every Friday evening for weeks past, when this has been the topic of discussion. Manuals giving the necessary instruction as regards street firing, the authority of commanders, and other details have been studied, and the captains have got the matter down fine, so that they know just what to do and when. The orders are in case a mob gathers and is ordered dispersed, to fire low and use ball cartridges. No blank cartridges will be used, and there will be no firing for fun over the heads of the mob, but to kill. In the recent call for Cos. B, of the First, and B, of the Fifth, to await orders at the Cambridge armories last Monday, the militia showed up to good advantage. At 9 A. M. Tuesday morning only three men of Co. B of the Fifth were absent, one of those being sick and the other two out of the State. They were under arms Monday night and Tuesday, but were not called out. There is no doubt that the fact that they were ready for immediate action had a quieting and salutary effect upon the hoodlum element of Cambridge."

The *Record* also asks: "Why don't some of the crack companies of Boston enter for the prizes which will be given at the National Drill and Encampment at Washington, D. C., the coming spring? Is it because we have not a company equal to the task of meeting the companies from other States, or is it that the prizes are not worth seeking? The latter cannot be the cause, and I know the former is not. There are five prizes offered, the largest being $5,000 and the smallest $500. There are prizes for the best marksmen also, and I believe that Massachusetts will be well represented in this respect at least."

PENNSYLVANIA NATIONAL GUARD.

THE new code now before the Legislature of Pennsylvania for action provides the following additions to the departmental, staff and non-commissioned staff officers. Staff of commander-in-chief, sergeant-major, commissary-sergeant, quartermaster-sergeant, chief musician and color sergeant. The aides-de-camp are limited to twelve and the positions of chief of artillery and paymaster are wiped out.

Division Staff—An inspector of rifle practice, sergeant-major, quartermaster sergeant, commissary-sergeant, chief musician and color sergeant. The aides are limited to three.

Brigade Staff—Sergeant-major, quartermaster-sergeant, commissary-sergeant, chief musician and color sergeant. All the staffs have at present the above non-commissioned officers attached, but they are only assigned to duty being enlisted in the various commands; the change removes them from their organizations and gives the commanding officers the right to enlist them directly for their respective duties.

Regimental field and staff will consist of one colonel, one lieutenant-colonel, not exceeding three majors (at discretion of commander-in-chief), adjutant, quartermaster-surgeon, two assistant surgeons, inspector of rifle practice (an extra first lieutenant), chaplain, and one principal musician instead of two.

An assistant surgeon is allowed to each company of cavalry. An extra first lieutenant and an assistant surgeon, with rank of first lieutenant, are added to each battery of artillery.

CONNECTICUT NATIONAL GUARD.

FROM Connecticut comes the story that the National Blues, one of the local companies of the 2d Regt., gave a big ball in the armory and invited the Governor and his staff to be present. Gov. Lounsbury has accepted a number of these invitations since his inauguration, and did not decline this one. During the evening he, with a number of his staff officers, gathered in the refreshment room, and while there the Governor noticed one of his staff officers in the act of raising a glass of very thin punch to his lips. The Governor laid his hand on his shoulder, and said:

"Colonel, it must be clearly understood that no man can be a member of my staff and drink intoxicating liquors. It must be understood."

The Colonel was much embarrassed and surprised, but he laid his glass down and turned away. Those who heard the admonition were much surprised, but very little has been said of it. A gentleman prominent in military circles says that he has learned from members of the staff that there were two officers rebuked instead of one, and that these two were Surg.-Gen. Fox, of Willimantic, and Col. Horne, of Winsted. It is claimed that the affair has created much feeling, and that the Governor is criticized for not taking a more opportune time and place to give this little temperance lecture to the members of his staff.

CALIFORNIA NATIONAL GUARD.

THE *Post* sagaciously remarks with reference to certain bills pending in the Legislature: "The National Guard of California is a force of which the State is justly proud. The State frequently manifests this pride, but in a very economical way. It is always ready to call out the citizen soldiers, to let them parade, and to cheer them while they are doing it, but it has never shown any enthusiastic desire to meet their necessary expenses. California now has one of the most admirable militia systems in the Union. In our remote situation, our National Guard is an indispensable protection, and its members have shown a public spirit and devotion to their duty that cannot be too highly commended. When they are so ready to make sacrifices for the State, the State can hardly refuse their request, not for personal aid, but for the means of doing it better service."

The proposed review and drill of Regulars and Militia at the Presidio of San Francisco on Washington's Birthday having been postponed, the *Report* of that city waxes wroth, and indulges in much satire, saying: "A militia officer was heard last night to resent with indignation the inference that the militia were afraid of taking cold in damp weather. The reason of the postponement was, he said, that damp weather would have damaged their uniforms. The reply of a bystander was that the militia's uniforms should be such as to stand wet. The officer went on to say that the material on their belts was such that a little damp made it come off on the cloth, where it stuck like so much white paint. The reply was obvious—'Then they should not have such belts.'" Then the officers come in for a hit. "The work could be done," says the *Report*, "if there were enough good officers. The men are willing to work and willing to learn. But when they are not brigaded between July and February, and are sent home in haste whenever the ground becomes muddy or clouds cluster on the horizon, naturally the military spirit is not very strong in their ranks, and many of the right kind of men, who would otherwise enlist, decline to put themselves in such an invidious position."

OHIO NATIONAL GUARD.

COL. F. W. MOORE, of the 1st Regiment, is in receipt of a letter from Adjutant-General Axline, in which he says: "We are very much gratified with the large representation of the 1st Regiment at the Convention. The full delegation of your officers and your excellent band had much to do in making the meeting a success."

"THE YANKEE MILITIA MUSTER."

Now they halt, and now they dress,
Now they march and countermarch, sirs,
See, they on each other press,
With chins bedecked with starch, sirs.

Now the captain calls aloud,
While each hero looks so proud;
How they eye the gaping crowd,
And quiz the girls so arch, sirs,

HE ADMIRED THE SERGEANT.

1ST SERGEANT FRANK N. BELL, of the 17th Separate Co. Infantry, N. G., S. N. Y., of Flushing, Long Island, was elected, Tuesday evening, to fill the office of First Lieutenant, vice Hepburn, resigned. The result of the election, it appears, was too much for a member of the company, who is the reporter for the local paper, for his account of the election closes with the remarkable statement:

1st Sergeant Bell has held the office which he now vacates over seven years, having been elected to admirable manner as to be recognized as one of the most efficient, prompt and that position from the rank, and always discharged its duties in such an painstaking first sergeants in the State militia.

We do not learn whether or not the election was followed by a display of "wet groceries," but this paragraph would seem to indicate it.

MILITIA—CANADA.

NEXT summer will witness Co. D, Infantry School Corps, and Battery C organized, with headquarters at London, Ontario, and Victoria, British Columbia, respectively. The

Minister of Militia is to ask Parliament to vote $100,000 for this purpose. The infantry school at London, at the date of organization, will consist of 100 men, exclusive of officers. Although the total strength of permanent corps of the Dominion is limited to 1,000 men, they will ultimately form nine schools in all, and these, being situated in different provinces, will be calculated to afford the best opportunity for military education that has ever been attainable in Canada. Battery C, to be organized this year, with headquarters at Victoria, British Columbia, will be devoted to garrison purposes. Barracks will probably be erected at Esquimalt.

NEW PUBLICATIONS.

There is something fascinating to the popular imagination in the idea of a fighting parson, and this attraction attaches itself to the volume just published by D. Lothrop and Co., Boston, entitled, "Perry's Saints, or the Fighting Parson's Regiment in the War of the Rebellion, by James M. Nichols." The fighting parson was Rev. James H. Perry, who entered the Military Academy at West Point in 1833, but did not graduate, dropping out after entering the 3d Class. He subsequently took service under the Texan Government and at the battle of San Jacinto killed a Mexican officer, supposing that he was Santa Anna, whose life the Texans had sworn to take in revenge for the massacre of the Alamo. Finding that he had mistaken his victim, Perry was so grieved and shocked that he left the Service and became a clergyman. This is the story with which his biographer introduces him. He was pastor of the Pacific street Methodist Church in Brooklyn, when the War of Secession broke out and resigned this charge to accept the command of the 48th N. Y. Vols. It is to the history of this regiment that this volume is devoted and not to that of the Colonel who gave its name. The narrative includes experiences first at Camp Wyman, next on the expedition to Port Royal and in the Department of the South, afterwards with the Army of the James and finally as part of the Sixth Corps. The book is handsomely printed and illustrated with 44 engravings. It opens with a brief memorial sketch of its author, Col. Nichols, who died July 1, 1886. He was a resident of Haverhill, Mass., and a classmate of President Garfield's at Williams College in 1857.

Our former Minister to Sweden and Norway, C. C. Andrews, late Major General of Volunteers, who was at one time Consul General to Brazil, has availed himself of his experiences in South America to give us a volume, published by D. Appleton and Co., on "Brazil, Its Condition and Prospects." It corrects some of the current misapprehensions concerning this country, and gives us more correct ideas concerning its resources and climate, its system of agriculture and stock raising, its Government, national and local, not omitting the personal characteristics of the Emperor, whose visit to this country has made him reasonably well known to our people. Our sensibilities are shocked by the discovery that, while the people of Brazil are entirely friendly to the United States, they are very indifferent as to what is going on in this country, their papers not even alluding to matters concerning us which, seen from our point of view, are far more important than the details of European life which occupy columns of their space. This is partly explained by the fact that twenty steamships a month arrive at Rio Janeiro from leading European ports to one steamship that arrives from the United States. The volume is very systematic in its presentation of what would seem to be of interest, and is a valuable addition to our knowledge of the great South American Empire, as large as the United States, excluding Alaska, and with which our relations should be far more intimate than they are.

"The Insurance Co. of Dakota," whose home office is at Sioux Falls, D. T., and whose business is to provide insurance for losses by fire, marine disasters, tornadoes and hail, have issued a neat and useful calendar, showing the dates for two weeks on a printed page, with a space allotted for each day for memoranda. At the bottom of the 27 pages are printed selected maxims and quotations.

We are in receipt from Harrison and Sons, of St. Martin's Lane, London, of a copy of the "Naval Handbook of the Hotchkiss Rapid Firing Gun, 6 pdr., 3 pdr., and 1 pdr. Guard Boat Gun," a pamphlet of 37 pages. Several excellent illustrations, tables of weights and measurement and other statistics are incorporated with the manual and make a valuable addition.

The *North American Review* for March contains among other articles "Some Unpublished War Letters," addressed to General Sherman, and "A Rejoinder to General Beauregard," by Rear Admiral Taylor, and "Drury's Bluff and Petersburg," by General Beauregard.

The March number of the "Magazine of American History" contains a short and thrilling article on "The Wreck of the *Saginaw*," by Lieut. Edmund B. Underwood, U. S. A., and "Incidents in Sir Walter Raleigh's Life," by Hon. Horatio King.

ANSWERS TO CORRESPONDENTS.

M. J. F. M.—The information you desire is not to be obtained.

Birket.—General J. G. Parke, U. S. A., will be retired for age Sept. 22, 1891.

N. G., S. N. Y. asks: Does a sentinel, whenever compelled to speak or call, come to arms port before doing so? ANS.—Yes.

Jumbo.—"Desertion during the period of enlistment forfeits retained pay." See page 5, of General Orders 51, dated June 22, 1872.

Galaxy.—The President is allowed to have ten cadets at-large at West Point *at one time*. The next appointment will be made in July, 1887, to fill one vacancy to occur by graduation in June, 1888.

A. M.—If you are physically fit for a soldier's duty, your age (36) might be no bar to enlistment. There are two recruiting rendezvous at Chicago—at Nos. 9 and 10 South Clark Street (near you). Why not go there and get particulars?

J. H. G.—Captain Samuel McKee, 1st U. S. Cavalry, who died June 30, 1864, of wounds received at Cold Harbor, was born in Missouri and appointed to the Regular Army from Utah. Perhaps the Adjt.-General of the Army, Washington, D. C., might be able to give you the address of some of his relatives.

Wyoming asks: 1. If a minor enlists without proper consent, deserts, and is apprehended can he be punished if he can prove that he was a minor when he enlisted? ANS.—Yes.

2. If punished, does he get the full extent of the law? ANS.—There is no law which regulates the punishment for desertion. It is at the discretion of the court-martial, and doubtless would be in accordance with the facts presented to it.

Marine asks: "Is a paymaster's clerk in the Navy considered as a civilian or as an enlisted man, and is he amenable to the Articles of War?" ANS.—The status of a paymaster's clerk is not clearly defined by law or decisions of the courts. The Supreme Court has held, in the case of Reed (Otto X, page 13), that a regularly appointed clerk of a paymaster in the Navy is "a person in the Naval Service of the U. S." within the meaning of Art. 14, Sec. 1624, of the Revised Statutes, and, for a violation of its provisions, is subject to be tried, convicted and sentenced by a Naval General Court-martial.

J. H. asks: A company being in place rest, is it within the authority of a captain to call a special meeting for the transaction of business, and would such special meeting be regular and legal, being held before the company is dismissed? ANS.—Such a meeting may be legal, but in a military light it is decidedly improper. The company was evidently turned out for parade or drill under orders from proper authority and it was wrong to use it for any other purpose. If "meetings" are to be held they should be so regulated as not to interfere with proper military work, and captains should possess sufficient tact to observe this.

Correspondence asks: 1. Can the battalion be ployed into close columns on an interior subdivision? ANS.—No such movement is laid down in Tactics, and, therefore, should not be executed.

2. Are the Lieut.-Colonel and Major ever replaced when absent? ANS.—Yes, whenever the battalion commander chooses to do so.

3. A company sergeant acting as sergeant-major requires a sword.

4. Why does a "regimental and battalion color-sergeant" have a distinctive chevron, if the position is not a permanent one? ANS.—There is no such permanent rank in the Army (par. 366, Tactics), and where the State regulations do not provide for it, the sergeant who bears the colors is not entitled to any "distinctive chevron."

J. H. T. asks: 1. In what years were the 24th, 25th and 32d U. S. colored regiments (volunteers) organized at Camp William Penn, Philadelphia? ANS.—The 24th was organized March, 1863; the 25th, January and February, 1864; the 32d, February and March, 1864.

2. Were the troops of the Regular Army employed in the field during the war? ANS.—Yes. If you will consult an Army Register, say for 1867, you will find at the head of each regiment a list of the battles participated in.

3. Can a Regular soldier enter the volunteer service without being duly discharged from the Army? ANS.—We presume you mean the militia, as there is no other volunteer service now. Enlistment elsewhere does not release him from his obligation for Army duty, absence from which, without leave, will subject him to the penalties of desertion.

D. F. S. asks: 1. To execute right front into line, or on right into line? ANS.—The moment the guide takes his place on the flank of the leading four the column of fours formation ends and the company is virtually in line, which subjects the guide to the ruling of Par. 189 of the Tactics.

2. Tactics state the company at a halt may be marched a few paces to the rear by the commands—1. Company; 2. About; 3. Face; 4. Forward; 5. Guard (right or left) march. Am I to understand that the company must be faced to the original front before it can be manœuvred, and does not this same rule apply to columns of fours and twos? ANS.—The company need not be faced to the original front before it can be manœuvred, for Par. 229 says that "the captain may direct the file closers to place themselves in rear of the company by passing around the flanks and afterwards manœuvre by fours as already explained. Having faced about, number one of each four becomes number four, and the reverse. As to column of fours and twos, an official decision from the War Department says: "A column of fours, twos or files may be marched a short distance to the rear, or to a flank, but no manœuvres should be executed until the column is again faced to the original front. The officers and non-commissioned officers face with the column and retain their original positions."

3. Is it necessary in executing the loadings and firings to open the cartridge box when you are not using cartridges? ANS.—The opening of the cartridge box is more frequently omitted than executed, but to make the exercise complete it is best not to omit it.

Military Order of the Loyal Legion.

At a meeting of the District of Columbia Commandery, to be held March 2, the following applicants for membership will be balloted for: Gen. John C. Kelton, U. S. A., Major Geo. F. Barstow U. S. A., Capt. H. N. Snyder, U. S. V., and Francis P. B. Sands, late Acting Master, U. S. N.

A meeting of the Michigan Commandery will be held at Jackson March 2, when the following will be balloted for: Capt. C. H. Hodskin, U. S. V.; Maj. H. Soule, U. S. V., and Lieuts. G. W. Jenks and L. H. Chamberlin, U. S. V. After the business meeting a paper entitled "Michigan in the Opening of the War" will be read by Companion W. H. Withington.

At a meeting of the Maine Commandery, to be held at Portland March 2, the following will be balloted for: Maj. Jared A. Smith, Corps of Engineers, U. S. A.; Surg. G. W. Martin, U. S. V., and Lieut. H. B. Hill, U. S. V.

At a meeting of the Minnesota Commandery, held at St. Paul, March 2, the following were balloted for: Gen. J. H. Hammond, U. S. V.; Lieut. F. J. Carr, U. S. V.; Major B. F. Wright, U. S. V.; Gen. T. H. Barrett, U. S. V., and Captain B. P. Shuler, U. S. V. After the meeting a paper was read by General Andrews entitled "The Third Regiment, Minnesota Infantry, U. S. V." This Commandery now numbers 130 members.

At a meeting of the Wisconsin Commandery, held at Milwaukee March 2, Mr. Paul Thorndike, eldest son of Surgeon W. T. Thorndike, U. S. V.; Lieut. A. Jackson, U. S. V., and Capt. M. C. Nichols were elected. A portrait in oil of Major Gen. Geo. H. Thomas, U. S. A., has been presented to the commandery by several companions.

The following decisions have been promulgated by the commandery-in-chief under date of Feb. 9, 1887: "Third assistant engineers were not at any time considered commissioned officers. The application for membership, when the right of a rebel intervenes, must be referred to the commandery-in-chief. The son of an officer dying prior to Dec. 31, 1885, is eligible to membership upon attaining his majority. In the interim the membership must lie unoccupied. Eligibility to membership, being waived by its possessor, goes to the one next entitled. If the next entitled be a minor the right rests until his majority.

THE ITALIAN NAVY.

THE *Nuova Antologia* recently contained a remarkable article on the Italian Navy from the pen of Signor Rocco de Zerbi. He divides modern Italian naval history into three periods: (1), A period of paralysis, after Lissa, from 1866 to 1876; (2), an "incubatory" period, from 1876 to 1886; (3), a period of gradual growth, from 1886 to 1892, by which date he anticipates that Italy will be able to meet any Power in the Mediterranean on fairly equal terms. She has been fortunate in possessing in Admiral Brin one of the ablest of living constructors, and she has spent under his guidance 230,000,000 lire. At the opening of the present year she had four of the most powerful armorclads afloat (the *Duilio*, *Dandola*, *Italia*, and *Lepanto*), carrying between them 16 100-ton guns. She had also the *Affondatore*, with a new armament, and the *Bausan*, a protected cruiser of great speed (18½ knots), heavily armed, and built at Elswick. She had besides 60 first-class torpedo-boats, one torpedo-cruiser, and five ordinary cruisers, which, with obsolete ironclads and coast-defence vessels, brought the total number to 156. Already launched or on the stocks, in addition to torpedo-boats and 10 cruisers, she has at present six gigantic ironclads (*Daria*, *Lauria*, *Morosini*, to be completed in 1888, and *Re Umberto*, *Sardegna*, and *Sicilia*, in 1892), all resembling in their main lines and in their armament the *Italia*. The *Italia*, in armament (four 100-ton guns), in displacement (14,000 tons), and in speed (17½ knots), far exceeds any ironclad now afloat, except her sister-ship, the *Lepanto*. No other country in the world has any gun afloat over 80 tons (and there are only four of these in the *Inflexible*). Italy has at present in actual service 16 100-ton guns, and will in 1888 have 28, and in 1892, 40. Incessant progress and intolerance of official delay have been the characteristics of Admiral Brin's tenure of office; and the result achieved is sufficiently remarkable. Especial attention is just now being given to the torpedo armament, which will in 1888 consist of 150 first-class boats, 10 torpedo-cruisers, and seven torpedo-rams. Signor de Zerbi concludes as follows: "The substitution of armored for unarmored vessels blunted the edge of valor. If there had been no 'Affondatore' to hide in at Lissa, no Admiral would have turned coward. The captain must not be put in an armored conning tower, but left among his officers, unscreened and visible to all; that is the only way to compel him to heroism. With no sailing and no boarding the sailor became a timorous fellow, running to take refuge behind his armor plates at the sound of the first shot; the unprotected war-vessel and the torpedo will regenerate him."

VICE ROYALTY IN CANADA.

VICE ROYALTY in Canada is thus described: "Lord Lansdowne keeps up a fine show. His carriages and horses have given a great idea of his wealth to the colonists. But there is no burning of candles at both ends at Government House as in the Dufferins' time. Lord Dufferin not only spent his $50,000 a year, but dipped his estates and sold the timber on them when he could gain political points by a judicious use of money. Lorne and the Princess Louise did not salt away a dollar when they were in Canada. The Princess was as beneficent as could be, and never was appealed to for money without (when she was satisfied that she had to deal with honest people) putting her hand in her pocket or signing a check. Lorne was just as good as he could be and first-rate in business, but he was unendurable, he was so stand-off in his demeanor. Dufferin knew the Christian and pet names of all the children in Ottawa, read of the births in the papers, and remembered to congratulate the fathers of the new-born babes. He shook hands publicly with a grocer's wife who had triplets, and one day got out of his carriage to go and admire them when they were with their mother and the servant in the street. If a newsboy said a smart thing to him he'd stop to talk to him, and I often saw him shake hands with a conductor of the street cars who came from his part of Ireland, and he had always something bright and pleasant to say. Lorne's stand-offishness after Dufferin's chaff and heartiness was like an icy blast in the month of May."

THE FRENCH ARMY.

THE *Avenir Militaire* quotes the German reproach: "The French Army is eaten up with egotism; there is no such thing as solidarity, comradeship, or *esprit de corps* among the officers. Between inferior and superior there is neither reciprocal attachment, nor sentiments of devotion and affection: individualism alone flourishes." Had *camaraderie* existed in 1870 among the French troops, 4,000 men would not have remained idle while Gen. Douai, with the 2d Division, was fighting like a hero six miles away. "But for the petty rivalry between our generals," adds the writer, "the divisions Metman, Castagny, and Montaudon would have marched to the assistance of Gen. Frossard at Forbach, and the Prussians would have been thrown into the Sarre." Gen. de Failly seeing Gen. Frossard in difficulties, exclaimed, "He is in a muck; let him remain there," or words to that effect. This state of affairs draws forth some very gloomy reflections on the part of the writer, who can hardly conceive the existence of so much fraternity in a monarchy, and so little fraternity in a republic, where captains do not mess with field officers, nor lieutenants with captains, and where all contact with an inferior is supposed to be fatal to prestige.

FOREIGN ITEMS.

FORTIFICATIONS have recently been erected by the Spanish Government in the Balearic Islands. Mahon has been transformed into a first-rate stronghold, considered to be impregnable.

ACCORDING to a St. Petersburg correspondent, the construction of a railway from Lake Baikal, Southern Siberia, to Sretensk, on the Amur, has been resolved upon by the Russian Government. The Baikal is about 60 versts from Irkutsk.

WIMBLEDON will be abandoned as a place for long range matches after next year. The Duke of Cambridge owns land back of the butts which is more or less exposed to dropping fire. He is commander-in-chief of the British Army, and in this capacity, as well as a property holder, he has issued a fiat numbering the days of this famous rifle range.

THE purchase of large quantities of sulphuric ether in Germany, through a Belgian house, on account of the French Government, for the manufacture of the new explosive, melinite, appears to have given little concern to the German Government, although it has greatly the Continental and especially the German press. The company furnishing it was told, in answer to inquiries, that they might sell to the Frenchmen as much as ever they wanted without compunction, only they should take care to get a good price for their ether.

A PARIS correspondent writes: "A solitary weak point in the French Army is a dearth of good horseflesh. For a long time the French have been buying right and left, but now the chief markets are closed, and the War Office is conscious that it has not a suitable reserve store of horses. In other respects the French are highly confident. It is significant that the more intimately a Frenchman knows the workings of the army the more sanguine he is. Officers have been working seriously and steadily for 16 years with a sole view of equalling and surpassing the excellence of the German officers, to which the results of the last war was so largely due. This is so marked a feature of the French efforts, in fact, that the private soldier is rather neglected, and it is Gen. Boulanger's chief title to distinction and popularity that he has remedied this fault."

THE Military bill has again been submitted to the Bundesrath. No change has been made in the provisions of the measure. The reports that the Government, being sure of a majority in the Reichstag, proposed to perpetuate the Military bill are unfounded.

THE *Avenir Militaire*, in an article on small arms, says: "The rifle which General Boulanger would give to the army is only a temporary weapon, destined to disappear in brief period. It would consequently be better to renounce this costly experiment while there is yet time; and in view of the eventualities of the present hour, to complete, without great expense, the arming of our infantry with the converted rifle of 1874. This also is a temporary solution, but it would cost less time and less money."

A LONDON despatch says: The cutlass scandal gives rise to open discussions between the Admiralty and War Office. Mr. Edward Stanhope rose directly after Lord George Hamilton to say that he could not accept his account of the weapons. The truth is that the War Office supplies the weapons to the Navy; the Admiralty has no interest in hushing the scandal, and the War Office, as usual, seeks to defend its own people who passed these weapons after a mild test. Underneath all that, however, lies a worse difficulty. The report is that by no means all the weapons were tested before issue, but only samples or a certain number taken at random.

THE *Immortalite*, at Chatham, is to be ready for launching next month.

"I HAVE here war or peace," cried the old Roman, holding up his Toga of office to the Carthagenians, "which will you take?" "Give us which you will," was the surly response of the Carthaginians. "Then let it be war," said the Roman, letting fall his Toga, and thus commenced one of the greatest of ancient armed conflicts. At any moment just as simple a remark may precipitate the greatest of modern armed conflicts. In the midst of a chorus of protestations of peace, the Powers go on calmly and methodically preparing for war.—*San Francisco News Letter.*

THE *Admiralty Gazette* says: "At last, it seems probable that a new *Polyphemus* is to be commenced at Chatham in April. It has been a matter of wonder to most people why, having scored such a success, though at a vast cost, the Admiralty did not follow it up by taking advantage of the money spent in experiments and build two or three of the same sort. The *Polyphemus* has speed, seaworthiness, and handiness, and if we have torpedoes they are more likely to be effectively used from her than from any other class of vessel." The same paper says: "We hear on very good authority that the amalgamation of the two corps of Royal Marines—the Artillery and the Light Infantry—is nearer being a *fait accompli* than it ever was before."

THE 1st and 2d Corps of the Prussian Army are to have a special series of exercises, preparatory to the autumn manœuvres. The infantry divisions and cavalry brigades are to manœuvre against a supposed enemy. The total number of infantry reserves called out for the annual drill is 107,000. The artillery, pioneer and reserves called out number 14,000.

IN spite of the utmost efforts to prevent freedom of action, Alsace returned a nearly unanimous delegation to the German Reichstag in opposition to the Government. This has produced an immense sensation in France. The *Revanche* says: "These two provinces are still the advanced forts of France." Gen. Boulanger was naturally looked to for a striking expression of opinion. He said: "When the ballot boxes speak as they did yesterday after fifteen years of occupation one may well ask whether Alsace would not burst into revolt were Germany to declare war on France."

JOHN PHILIP SOUSA'S "Book of Instruction for the Field Trumpet and Drum" is attaining much popularity. It has been sanctioned by the War Department, and is already extensively in use in the Navy. Mr. Sousa has brought skill and experience to bear on the book, and has consequently produced a manual of great value to trumpeters and drummers. The book is in handy shape, adapted for the pocket,

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

R. H. MACY & CO.,

Fourteenth St., Sixth Avenue and 13th St., New York.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL, 20 Nassau St., New York.

Proposals for Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST., COR. GREENE, NEW YORK CITY, Feb. 17, 1887.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M. March 19, 1887, at which time and place they will be opened in the presence of attending bidders for furnishing and delivering at this depot the lumber, gasoline, office desks, &c., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal.

Envelopes containing proposals should be marked "Proposals for Quartermaster's Stores, to be opened March 19, 1887," and to be addressed to the undersigned.

HENRY C. HODGES, Lieut.-Colonel and Deputy Quartermaster-General, U. S. A., Depot Quartermaster.

Improving the Channel between Staten Island and New Jersey.

ENGINEER OFFICE, U. S. ARMY, Room 31, Army Building, Cor. Houston and Greene Streets, NEW YORK, FEBRUARY 23, 1887.

SEALED PROPOSALS for Improving the Channel between Staten Island and New Jersey, by dredging, will be received at this office until twelve (12) o'clock M. on Wednesday, March 30, 1887.

Proposals must be made in triplicate. Specifications, blank forms and instructions to bidders may be had on application at this office. WALTER McFARLAND, Lieut. Col. of Engineers.

AMATEUR OUTFITS. Patent Detective, Novel Fairy and Bijou Cameras, Illust'd Catalogues Free.

THOSE ANSWERING AN ADVERTISEment will confer a favor upon the Advertiser and the Publisher by stating that they saw the Advertisement in the ARMY AND NAVY JOURNAL

Proposals for Fuel, Forage, and Straw.

ACTING ASST. QUARTERMASTER'S OFFICE, WEST POINT, N. Y., March 1, 1887.

SEALED PROPOSALS, in triplicate, subject to the usual conditions, with copy of this advertisement attached, will be received at this office until twelve o'clock noon, the 1st day of April, 1887, at which time and place they will be opened in the presence of bidders, for furnishing and delivering to U. S. Quartermaster's Department at West Point, N. Y., such Fuel, Forage and Straw, as may be required during the fiscal year, commencing July 1st, 1887.

The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information will be furnished by this office upon application.

Envelopes containing proposals should be marked—"Proposals for Fuel," (or "Forage and Straw,") at West Point, New York, and addressed to the undersigned.

C. H. ROCKWELL, Captain 5th Cavalry, Actg. Asst. Quartermaster.

Proposals for Stoves, &c.

JEFFERSONVILLE DEPOT, Q. M. DEPT., JEFFERSONVILLE, IND., February 26, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock A. M. (Central Standard time,) on Monday, the 28th day of March, 1887, at which time and place they will be opened in the presence of attending bidders, for furnishing this Depot with Stoves for burning wood and hard or soft coal, and parts of Ranges of Army pattern.

The Government reserves the right to reject any or all proposals, and to accept the whole or any portion of the articles bid for.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished on application to this office.

Envelopes containing proposals should be plainly marked "Proposals for Stoves, &c., at Jefferson Depot, Indiana," and addressed to the undersigned. RUFUS SAXTON, Asst. Quartermaster General, U. S. Army.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
For prices and other information please address

24 PAGES.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 33. WHOLE NUMBER 1229.

NEW YORK, SATURDAY, MARCH 12, 1887.

SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

NO OFFICER of either the Army or the Navy, who is at all interested in the progress of his profession, can fail to appreciate the value to him and to the Services of this number of the ARMY AND NAVY JOURNAL. We have added an extra four pages to the paper to make room for the elaborate discussion of questions which are of immediate and vital importance, especially to the Navy. An officer of the Navy who has had recent experience in the Ordnance Bureau, Commander SUMNER, considers at length the subject of the WHITWORTH system of artillery, which has had such a triumphant success in the Brazilian service; Mr. WM. METCALF, who stands at the head among civilians in this country in his mastery of the subject of steel as applied to heavy ordnance, presents his views on that subject, and, finally, a correspondent, "L. W.," gives us some facts from authentic and confidential sources concerning armor which are worthy of the most serious attention of our naval authorities. We have so arranged these articles on pages 653, 654, 659 and 660, that by disassembling the paper they can be laid aside in a separate sheet for more convenient use and reference. We call attention also to the article giving the first complete statement which has thus far appeared of the vessels authorized to be built for the New Navy; the name or the type of each one, its size, armament, cost, speed, present status, etc. This shows a total tonnage of 65,609 tons, costing thirty millions of dollars or more.

SPECIAL ORDERS of this week make several changes in the line officers on duty at the Military Academy, West Point, to take effect August 28th next, when many pleasant associations will be severed, never, perhaps, to be renewed again.

PRESIDENT CLEVELAND will reach his fiftieth birthday on Friday next, March 18, and will thus be the fourth President who has celebrated his semi-centennial anniversary in the White House. The other three were James K. Polk, Franklin Pierce, and U. S. Grant.

THE good (or bad) old times are recalled to us by a recent sentence awarded a prisoner at Fort Custer, a portion of which directed that he "be drummed once around the post parade ground, having on his back a placard bearing the word 'Thief!'" then to be dishonorably discharged, etc. The reviewing authority, for sufficient reasons, set aside the sentence, and directed the release of the prisoner.

THE San Francisco *Report*, adverting to the undeniable fact that "Memorial Day" is "degenerating into a day of mere amusement," well says: "We do not believe in the eternity of the bloody shirt; but we do believe that the memory of the brave men who laid down their lives to preserve the Union is worthy of one day's solemn memory in a year, and that it should command the deep respect of the young men who are now reaping the glorious harvest the dead boys in blue fructified and made possible with their blood."

THE President has been kept busy this week signing commissions of Army and Navy officers and other officials whose nominations were confirmed during the last days of the session. All of the Army and Navy officers will have received their new parchments before March 15th. A general order containing the list of appointments, promotions, retirements and other casualties in the Army during the past six months, has been completed, and is now in the hands of the printer.

A PRIVATE of the British army, for striking a lance-corporal, has been sentenced to five years' penal servitude, and *Broad Arrow* says: "The court had not the power given to it to decree a slighter punishment if the verdict was 'guilty.'" A private of our Service, for striking and abusing his first sergeant, recently, at Fort Du Chesne, got three months' confinement and a forfeiture of sixty dollars. We are, perhaps, too lenient with regard to such offences, but the British code seems rather severe and inflexible.

THE mileage fund of the Army is down to the lowest ebb, and as the appropriation of $25,000 estimated for the remainder of the fiscal year, failed with the general deficiency bill, the prospects are that there will be but little travel by officers during the next three months. Of the $130,000 appropriated for the current year, $120,000 will have been expended by the end of March, leaving only $10,000 for the remaining three months. The transportation fund is also very low, so that orders involving travel will necessarily be few and far between until the new appropriation becomes available.

A CORRESPONDENT, speaking of a recent General Court-martial Order which contains, in print, a specification setting forth against a private soldier an unnatural offence, asks the pertinent question: "Is there any need of spreading abroad such a disgraceful affair?" To this we answer that there is no absolute need of reciting in full in the printed Court-martial orders the specifications to charges, and, in deed, we might go further and say that in the opinion of many there is no necessity for printed Court martial orders at all. They only serve to delay transmission to the posts concerned of the action of the reviewing authority endorsed upon the proceedings. The simplest and best plan, it seems to us, would be the following: The Department Commander endorses his remarks upon the proceedings, which are then promptly sent to the post commander for necessary action. Such action being taken, the post commander then returns the proceedings to Department Headquarters, whence they are sent to the Bureau of Military Justice as completed records. This system, it seems to us, is less cumbersome than the present, and worthy of trial.

THE Army ordnance officials are quite jubilant over the results obtained last week at Sandy Hook with the new 8-inch steel gun, which was recently hooped to the muzzle after having been fired successfully 24 rounds. Since the re-hooping, the gun has been fired 19 rounds, making 43 rounds in all. The ordnance officers who witnessed the trial report that during the last firings the gun, with a powder charge of 110 lbs. and a 289 lbs. shot gave the following results: Initial velocity, 1,878 ft.; pressure, 36,000 lbs. per square in.; energy, 7066 ft. tons. With a 302 lb. shot, the powder charge and density of loading being the same, the results produced were: Velocity, 1,857 feet per second; pressure, 37,000 lbs. per square inch, and energy 72.19 foot tons, which is equivalent to an energy of a shot of 289 lbs. weight with a velocity of 1,898 feet per second. These results are considered equal to those given by the Krupp 8¼-inch gun, and considerably in advance of anything produced by guns of similar dimensions. Still better results are anticipated with improved powder. The gun went through the last firings without a blemish, the breech mechanism (the Dubange system) working admirably.

THE half-pay list of the British Army prompts *Broad Arrow* to some remarks which doubtless will find favor with many in our own Service. Our contemporary says: "A system which forces a man in the prime of life, in the best of health, fond of his profession, to leave it, when he has still years of useful work in him, is on the face of it wrong. It is equally wrong to retain in the service an officer whose medical history, say at twenty-five or thirty years of age, shows that each succeeding year will find him less fit for military duty. Let any impartial individual inspect a garrison, and see how many young officers he would like to shelve; and how many men of forty-six or forty eight he would be glad to retain in the service. Age is no test of efficiency, mentally or bodily. Many men at fifty are more physically fit for hard work than others at thirty; still the physically fit man of forty six is forced to go on a pension, his place being taken by a man younger, it is true, but not of the same stamina. Let the army be kept up, nay, let it be increased, but do not, whilst officers are still in the prime of life, force them to retire from the service, and try to exist on a beggarly pittance. If an officer is unfit to serve at twenty-five, pension him; if he is fit physically to serve at sixty, retain him, no matter what his rank."

THE record of the House Naval Committee during the Congress just closed has been a very peculiar one. Under the new rules they have had the whole interests of the Navy committed to their charge, and much was hoped by the Service from this new departure. But their attention was so occupied with matters relating to the materiel and the administration of the same, that the personnel, particularly the enlisted men, received no attention whatever. The only bill reported from the committee during the session (that for the voluntary retirement of officers after thirty years' service) was mercilessly slaughtered by the House. The whole influence of the chairman of the committee was directed to the passage of the re-organization bill, by which all other things were thrust aside, leaving the results of the two years' work practically nothing, so far as the personnel is concerned. Among the bills whose failure is due entirely to the inaction of the committee is that for the increase of the pay of ensigns, a measure demanded by every consideration of fair dealing. Passing the Senate in July last and duly referred to the House, it slumbered in a pigeon-hole until so late in this year that its passage was practically impossible. It is something for the young officers concerned to have had a favorable report upon the measure, but it is a matter for regret that they must see the fruition of their just hopes put off for another year, or perhaps two. On the principle that "truth is mighty and will prevail," we ask them to take courage for the future.

REVISING ARMY REGULATIONS.

To the Editor of the Army and Navy Journal:

I HOPE the Board now having the "new regulations" under consideration will modify many of the paragraphs. There is no doubt that it will act wisely, but in a work of such magnitude it cannot but overlook some desirable changes which would be recommended if its attention was invited to them.

I now have in mind a few, as follows: Par. 11 should be changed. The first sentence thereof states that volunteers mustered into the Service of the U. S. are upon equal footing with officers of the Regular Army. The second sentence states that officers serving by commission from any State, rank next after commissions of like grade from the United States, and then *excepts* commissions issued by the President to officers of volunteer regiments, and after excepting them it states they will be considered the same as if issued by Governors of States. It is this second sentence that puzzles me, for it seems to run around in a circle and conflicts with the first sentence. I may be obtuse, but I must confess I cannot make head or tail out of it.

Par. 79. The last sentence should be revised, *i. e.*, the day of departure should count as a day of duty and day of return as a day of leave. As it is now an officer's leave is up say at midnight on the 21st, and he is not required to be back until just before midnight on the 22d, so the morning report of the 22d cannot show him absent without leave, if he is not back when it goes in, for he has until midnight to make that "a day of duty." If adopted as I suggest, it would more accord with Par. 78, viz.: "The expiration of his leave must find him at his post." It would also, in most every case, make the "Morning Report" agree with the facts, for officers seldom arrive or depart before it goes in.

Par. 585 is a hardship on officers and men who pay their bills. The trader is not obliged to trust, therefore those who do pay should not be compelled to make good the losses occasioned by those who do not.

Pars. 764, 765 and 767 and, in fact, all pars. and forms that require a man's age, should be changed so as to show "when born." At present a description list given three years after the man enlists might or might not have three years added to the age at enlistment; and re-enlistment papers might be made from old records without making the proper change for age—the man himself seldom would notice it. By giving the date or year of birth there is less liability to error. A man can swear he was born in 1857 or on Feb. 21, 1857, just as well as he can swear he is 30 years old.

I might go on and state a number of other changes which to me appear desirable, but I will close by saying that if each Chief of Staff Corps and Regimental Commander were called upon to submit the views of their subordinates arranged in the order of the present regulations, there would be a comparatively few number of papers to consider, and the Board as it proceeds to consider each paragraph can refer to the recommendations, if any, thereon, and in this way obtain many valuable practical recommendations.

A SUBSCRIBER.

GENERAL STONE AND SENATOR BAKER.

To the Editor of the Army and Navy Journal:

THE battle of Ball's Bluff, Oct. 21, 1861, was one of those blundering affairs that occurred in the early stage of the War, brought about by the buzzing of ambition's bee. Every new fledged commander would suck the honey of renown from the enemy on his front. Gen. McClellan, for the purposes of a survey of the country on the upper Potomac, directed reconnoisances from different points. Notifying each commander to support them by demonstration, he had the hope that these demonstrations might disturb the enemy, to move him from the salient position about Leesburg. Gen. Banks at Darnstown and Gen. Smith at Mackall's Hill, were notified. Gen. McCall was to move towards Dranesville; Gen. Stone, at Poolesville, on Maryland side, was to

"Keep a good lookout upon Leesburg to see if the movement has the effect to drive them away; perhaps a *slight* demonstration on your part would have the effect to move them." [See p. 32, Vol. V., Series 1, R. Records.]

Gen. Banks's Adjt. Gen. telegraphed Oct. 20, 1861:

"The Signal Station at Sugarloaf telegraphs that the enemy have moved away from Leesburg." [R. R., same page.]

Gen. Stone went to Edward's Ferry and sent Col Lee, an old West Point officer from Massachusetts to Harrison's Island, a few miles above, with about 600 men. [See p. 33, Vol. V., Series 1, R. Record.] Gens. Smith and McCall retired on the 21st, having completed their parts. Gen. Stone at 1 A. M. on night of 20th, directed Senator Baker (who, by virtue of an appointment as colonel of a California regiment, in which there were few, if any Californians, afterwards numbered 71st Penn. Vols.) commanding one of his brigades, to send one battalion of that regiment under its Lieut.-Colonel, Wistar, to Harrison's Island Ferry, to cover the crossing at Col. Lee's position. The Senator Colonel followed the battalion, and about 9 o'clock A. M. on 21st, went to Edward's Ferry. His eloquence and some false reports from the front of Leesburg started a buzzing, which resulted in the following order, superseding Col. Lee, who would, doubtless, otherwise have withdrawn his force without a disaster, with the boats at hand:

HEADQUARTERS CORPS OF OBSERVATION,
EDWARD'S FERRY, October 21, 1861.

Col. E. D. Baker, Comd'g Brigade:

COLONEL: In case of *heavy* firing in front of Harrison's Island, you will advance the California regiment (battalion) of your brigade, or retire the regiments under Cols. Lee and Devens, now on the Virginia side of the river, at your discretion, assuming command on arrival.

Very respectfully, Colonel, your obedient servant,
CHAS. P. STONE, Brig.-General, commanding.

Some firing began (probably pickets) across the river, and the Senator, after sending back for the rest of his brigade, crossed at the head of his battalion, leaving orders for 2 pieces of artillery to follow. About 2 P. M. on the 21st one company had reached the Virginia shore and the other five, Harrison's Island. The boats had the capacity to carry about 150 men to the island, and the one boat about 60 at a time to the Virginia shore. The bluff bend on the Virginia side formed a cul de-sac, the edges on the river bank lined with timber. The enemy, driving the pickets from a wood in front opened upon the bluff bank, and the first recoil caused a huddling in the sac, which displayed to all the faulty position, with a bluff bank and a wide stream in the rear. The one boat was sunk, and had not darkness intervened the disaster would have been horrible. The brigade on the Maryland side was formed on a narrow strip of a few feet between the canal and river, with no means of crossing the canal. The overcaution of the enemy saved the entire command.

The shifting of responsibility to Gen. Stone at Edwards Ferry or to Gen. McClellan at Washington for the death of the popular Senator was in keeping with court clamor. He was a lifelong friend, personal and political, of Mr. Lincoln. He had shown from his hat an appointment of major general to Col. Schuyler Hamilton, aide-de-camp to Gen. Scott, which as Senator he could not accept, but said he would draw it on Stone in the first fight and assume command; it was found in his hat at Ball's Bluff. It was an open secret in his brigade, which I commanded after him, that in case of any success he was to be general-in-chief. The telegraphs of McClellan and Stone after the fight began to try and make it a success have been confounded with the original intention, and made to appear conflicting in controversy in connection with Stone's arrest and his after confinement. There are three distinct episodes. The first was Senator Baker's death, the second the Sumner letter, the third Secretary Stanton's action on report of Committee on Conduct of the War. All three combined, with the powerful influence behind them, were enough to blast the career of a saint. McClellan was in duty bound to investigate and report, as to obey orders of his superiors. The very fact of his known friendship made the duty more imperative. Yet he held Stanton's order eleven days, and then it was reiterated on collateral testimony which he could not disprove or suppress, but declared it not sufficient to base charges. He often pressed for a speedy trial, and when Stone was released applied for his services, vouching for his loyalty.

In this, as in most of the controversies growing out of a civil war, loyalty has a multitude of definitions: each man and case is interpreted to suit excited opinions. Mr. Lincoln ordered fugitive slaves returned: Mr. Sumner thought it disloyal. The loyalty of Phelps was not the loyalty of Butler. The loyalty of Fremont was not the loyalty of Cameron; and so on ad infinitum from Wendell Phillips to Jeff. Davis. To dislike a man was to charge him with disloyalty. And to-day we have the battles fought over the same lines in the press, pulpit and forum, following our heroes into their graves, tainting their souls with the spirit of disloyalty.

WM. W. BURNS.

GOVERNOR'S ISLAND, Feb. 21, 1887.

A ROLAND FOR AN OLIVER

To the Editor of the Army and Navy Journal:

U. M. BUILDED better than he knew, when, in his feeble effort to say a good word for a departed friend, he cited Antony's remark that "The good that men do is oft interred," etc.; for, behold, here cometh A. M. (Master of Arts?) and layeth his budget of blank-blank yarns upon the tomb of Captain C.

However, when the thoroughly-informed A. M. intimates, and the editor heads his contribution with the inferential remark that Bill Swasey was never dumb, poor U. M. has a chance to give a Roland for an Oliver.

A few years ago, when the proprietors of a famous nostrum concocted near the Monumental City were booming it out West, their agents were given *carte blanche* as to methods, provided they succeeded in getting testimonials from noted characters as to the curative powers of their specialty. One of these agents got hold of Bill Swasey, and the greatness which never could have been his through birth or achievement was thrust upon William F. with an overpowering intensity, so to speak. For within a week there was hardly a newspaper published west of the Rockies that did not have its double-leaded article headed "The Testimony of an Argonaut," over the signature of the thenceforth immortalized Bill.

And did Bill relish it? Not much! The writer cannot refer to any captains of the line as to the straightness of this tip, but Haquette, Sample, McCarthy, Kibbe, or any of the hosts of the gilded palaces on Kearny St., might recall the number of times Bill Swasey had set 'em up if the boys would say nothing that commenced with Saint.

It was a subject upon which Bill was dumber than a deaf and dumb oyster and regarding which he exacted the dumbest dumbness.

En passant. Bill Swasey wasn't the only victim. A jocund naval officer (somewhat above the grade of midshipman) then stationed at Vallejo, "testified" also, and if he had theretofore been troubled with any desire to see his name in print, it must have been thoroughly gratified by the results attending his testimonial.

U. M.

PORT TOWNSEND, March 5, 1887.

TO RELIEVE STAGNATION IN PROMOTION.

To the Editor of the Army and Navy Journal:

WITH a view to obtaining some expression of opinion of the lieutenants of the line of the Army, I submit the following proposition for the relief of this large class of officers:

Be it enacted, etc.: Sec. 1. That on and after the passage of this act, all lieutenants of the artillery, cavalry, and infantry, Army of the United States, shall have the rank, pay, and emoluments of captain, upon the completion of twenty years' service in the grades of 2d and 1st lieutenants, inclusive.

Sec. 2. That all officers of the artillery, cavalry, and infantry below the grade of major, upon the completion of thirty years' service in the Army, shall, upon their own application, be retired from active service, provided that the time served in the Army during the War of the Rebellion, either as officers or enlisted men, be counted in computing length of service for retirement under the provisions of this act

Sec. 3. That all laws repugnant to, or in conflict with the provisions of this act, are hereby repealed.

Sec. 4. That the retired list of the Army is hereby increased to meet the requirements of this act.

I do not claim perfection for this measure, but it expresses briefly my idea of what in my judgment would tend to relieve the stagnation now existing in promotion, and at the same time increase the efficiency of the Army by the infusion of young blood, and opening promotion in all of the lower grades of the Army.

The adoption of the above would remove from the active list of the Army many faithful and efficient officers who served gallantly and well during the whole war, and who have just as faithfully performed all duties imposed upon them since. This measure is not intended as a reflection on them now, but rather as an act of justice, which a restored and generous country owes to them.

I respectfully invite the views of lieutenants and officers of the Army generally, with a view to united action in the future, for the benefit of the whole Army.

The objections to making all 1st lieutenants captains after a certain fixed period cannot, I think, be urged against this measure, for certainly many captains who have completed thirty years, and who see no prospect of future advancement, would retire, so that not many companies would be loaded down with two captains.

The retired list would be opened, and there would be at once an increased flow of promotion in all of the lower grades of the Army, and the efficiency of the Army will of necessity be improved by putting younger officers to command and serve with the company organizations. This measure, coupled with the three battalion organization for regiments, and an increase of 5,000 men, and the taking away from the enlisted men all work except absolutely necessary extra and daily military duty, would in my judgment greatly increase the efficiency of the Army, and reduce to a minimum the number of desertions.

LIEUTENANT OF NEARLY 24 YEARS' SERVICE.

RIFLE PRACTICE.

To the Editor of the Army and Navy Journal

IN our present system of rifle practice (Blunt's) everything necessary for the perfect and successful instruction of the soldier is laid down, provided it was only complied with by company commanders, or that post-commanders compelled a compliance therewith. Practical use of the piece in actual firing on the target range is required of the enlisted men; but the first and almost as important point is neglected, that of compelling the theoretical instruction, by company officers, of both the soldier and the recruit in the aiming and sighting drills; effects of heat and cold, wind and weather, pursuant to Blunt's Manual. The soldier instead of being instructed in those points is generally allowed to find them out, pick them up; get at them the best way he can or not at all.

How many men in the average cavalry and infantry companies of to-day can tell whether a shot fired from a piece canted to the right will go high or low, to the right or to the left or where it will go. I venture to say that not as many as six men to the company throughout the Army can do so; or tell the effects of damp, dry or bright days upon the shot or velocity of the bullet; or the different allowances to be made for each mile of wind at the different ranges; or the amount of elevation or windage necessary to make the proper changes of position of a shot on the target. So far, it has been my experience to find even among sharpshooters of different companies and regiments that they were not even moderately well-posted on these important points.

They are all in Blunt's and part in the score books, to be sure, and the men, if they want to, can study them up; yes, if they want to and if they happen to have the book or access to the score books when off the range—but the manual of instruction was hardly issued for the instruction of the soldier if he felt like it, and not if he did not. Why can't the authorities require a compliance of post and company commanders to Pars. 9, 13, 15, 16, 17, 18 and 19, of Blunt's Manual, and reports made at the proper time, that all of the men in the company have received the proper theoretical instruction from their officers in the use of the rifle, and the amount of instruction given each man and his proficiency before the man is required to shoot on the range, as now, with little or no idea of the proper allowances to make in windage or elevation, as circumstances may require.

Such an order would certainly increase the general efficiency of the troops in the use of their rifle. An order is out in the Department of the Missouri requiring drill of the men in estimating distance, but what good can that do the soldier, if not able to estimate correctly the allowance necessary for wind or weather, or to make the proper change from the first shot striking the ground, in front, to the right or left, that will place the second at once upon the object aimed at, instead of wasting half a dozen shots to accomplish the same end; even if he can guess the approximate distance, what is one worth without the other?

We have got the manual, now let us have the instruction; there are plenty of second lieutenants.

"FRONTIER."

ISSUES OF CLOTHING.

To the Editor of the Army and Navy Journal:

REFERRING to your editorial remarks on General A. McD. McCook's order relative to the issuing of clothing to enlisted men, in the JOURNAL of November 20 last, it is respectfully submitted that said order is all right, *so far as it goes*, but that the simple order of any officer, no matter what his rank may be, can cure the evil is impossible. First, because soldiers when on a spree will sell their clothing to procure the wherewithal that furnishes the means to continue their spree, regardless of how said clothing is marked, and utterly heedless of punishment. Secondly, as long as condemned clothing is publicly sold at auction at military posts to any, and every, person who makes the highest bid, no one can tell whether citizens who have soldiers' clothing in their possession have come by it legally or otherwise. No matter where you go all over our extensive frontier you will find any number of soldiers' overcoats worn by citizens, and it does not enter into the mind of any officer to stop one of said citizens and ask him where or how he got that overcoat. Blouses and trousers come under the same head. There is but one way to stop soldiers disposing of their clothing for a little ready cash, and that is, allow no clothing, of any description, that is condemned as moth-eaten, or worthless, by a board of survey, or

inspecting officer, to be sold at public auction, or to any person but a soldier. A mere nominal price should be put on such clothing, so low that it would be the next thing to giving it to the soldier for nothing, which every officer who has had the duty of selling condemned clothing by auction knows is pretty nearly the price realized at such sales, viz., almost giving the clothing away. Thirdly, there should be a stringent law passed by Congress prohibiting any citizen from owning, or having in his possession, any military clothing whatever, unless he belongs to some organization of the National Guard, a violation of this law punishable by a heavy fine. Fourthly, it should be made the imperative duty of every Army officer to investigate any and every case of citizens having military clothing in their possession and satisfy himself that they were legally entitled to have it. And, lastly, issue every soldier about to be discharged (provided he does not intend to re-enlist) a full suit of citizen's clothing and do not allow him to carry away any military clothing with him, or to sell it to any person but a soldier.

With all these restrictions rigidly enforced the evil would be abated, but to expect it would be thoroughly eradicated is, to say the least, Utopian.

* * *

CHANGES OF TWENTY YEARS.

To the Editor of the Army and Navy Journal:

TWENTY years ago the list of 3d lieutenants in the United States Revenue Cutter Service, comprised the following:

1. J. H. Kelso.
2. F. M. Munger.
3. M.G.Woodward.
4. H. L. Bennett.
5. Russell Glover.
6. C. S. Hooper.
7. J. Davison.
8. A. W. Constable.
9. L. Sheppard.
10. R. Henderson.
11. J. O. Johnson.
12. G. E. Thurston.
13. J. H. Rogers.
14. A. J. Melchert.
15. W. C. Pease.
16. J. H. Berry.
17. E. Pendexter.
18. W.M.McKendry, Jr.
19. E. W. Creecy.
20. H. C. Snow.
21. T. E. Baldwin.
22. T. H. Ridgate.
23. I. McVay.
24. G. Gerard.
25. S. A. Brooks.
26. T. E. Ashmead.
27. W. B. Barnes.
28. C. H. Reed.
29. W. Charlton, Jr.
30. L. C. Cowan.
31. J. F. Otis.
32. G. R. Bakeman.
33. T. S. Smythe.
34. G. Williams.
35. H. D. Smith.
36. L.E.N.Grahame.
37. R. Barstow.
38. John Walker.
39. T. A. Murray.
40. J. W. Congdon.
41. W. Walton.
42. W. C. Coulson.
43. R. Canfield.

Thirteen of the forty-three alone hold commissions in the Service to-day. Three are captains, nine 1st lieutenants, two of whom have passed their examinations for the next highest grade, and one remains a 3d lieutenant, incapacitated for duty from illness incident to the Service. Berry, Pendexter, McKendry, McVay, Girard, Cowan, Otis, Walker, Graham and Canfield have joined the silent majority. The balance, through resignations and other causes, have returned to civil life.

Two have adopted the profession of medicine and practice respectively in Georgia and Philadelphia. Another rejoices in a farm and is located in Maine; the same State is favored with a lecturer who formerly wore the button. Another keeps a restaurant in New York City. Chicago retains one in the sewing-machine business. Three could not resist the fascinations of a "Life on the Ocean Wave"—and while two entered the merchant service, the third cast his fortunes with steam-boating, and Boston claims two as citizens of the Hub, one keeping a stand devoted to finny specimens of the deep, the other presides over a house for the accommodation of the weary. Washington retains two amongst its population. One is employed in the Treasury Department, while his companion finds the tobacco business suited to his taste. One ex-officer lives in retirement on a sea girt island, while the Crescent City is honored with the presence of another.

There are three or four gentlemen on the list who have completely disappeared from view, and whose identity, since leaving the Service, it has been impossible to trace, but it is hoped that their lot has been cast in pleasant places, and that they bask in the smiles of prosperity.

For those who have remained in the Service, the principal reward hoped for and looked forward to, is promotion. The path to advancement during the past 20 years has not been of a character calculated to stimulate ambitious hopes and dreams of a young and vigorous manhood. But the mature and sober reflections of middle age are better calculated for philosophical reflections, the acceptance of the inevitable—and a lingering hope, that in another fifth of a century shall have been numbered with the past, the survivors of the 3d lieutenant's list of 1867, may have reached that Mecca of all faithful Revenue Cutter officers' aspirations, the captain's grade.

SELAH.

LIFE AT DAVID'S ISLAND.

FROM David's Island, a correspondent sends to the *Daily News* of Danville, Ill., an account of life at this recruiting station. After describing the routine of daily duty, he says:

"At nine all lights are put out and thus ends the day for a recruit. However, when he has so far been instructed as to do his first guard, the routine is slightly altered, for he does in addition 'fatigue duty,' and a guard about once a week. But the fatigue duty here is very light, as all the menial work is performed by prisoners who have been apprehended for desertion and are awaiting transfer to the Military Prison at Fort Leavenworth, Kansas, to serve out their sentence. The food issued by the Government is plain, but sufficient, and when well cooked is palatable. As an experiment a mess hall has been erected here. It is a handsome edifice capable of seating 700 men and is supplied with all the modern improvements, such as steam heating and cooking apparatus, gas, etc. Formerly when each company had its own mess, numerous complaints were made, both of the quality and quantity of the food, but under the new system of messing all the troops at a post together, we have better cooking, and the men are without exception very much pleased with the change. And when, as is intended, the mess halls are introduced into all parts, one of the chief causes of desertion will be removed.

"The barracks are large, well ventilated and healthy, and kept very clean. The beds now in use are a great improvement on the old style; instead of the wooden slats, wire-woven mattresses, and in the place of the old straw mattress, a fine stuffed one. A recruit formerly upon entering the Army filled his mattress cover himself, but now he finds a comfortable bed, with pillow and sheets awaiting him. And I must say some of my best nights' rest have been taken on an Army bunk.

"The general character of the island is, in summer, very fine; the breeze from the Sound sweeping over the place cools the air, and we have very seldom what is termed a hot day. Fine walks and lawns throughout, and a concert daily by the military band, augment the attractiveness of the place, and to a visitor it is indeed a lovely place. But in winter the whole aspect of the place changes, and we have some very cold weather.

"The life of a recruit here is an easy one, and to a certain extent is what he chooses to make it. The officers are kind and observant of the wants of their men, and he who tries to behave properly will find no fault for bad treatment or harshness from any of his superiors.

"The regular habits formed in the Army will cling to a man throughout his life, even if totally disconnected from the Service, and I have not the slightest doubt but that if some of our prematurely old men were brought under Army discipline for a short time, that they would be returned to health and think that 'Uncle Sam's' Army is not as dreadful a sphere in life as it is painted.

"AN OLD SUBSCRIBER."

GENERAL DEFICIENCIES.

THE failure of the General Deficiency Bill, General Greely says, will seriously impair the efficiency of the Signal Service until Congress meets again and makes the necessary appropriation. The deficiency estimates of the Service aggregate but $23,770, the greater part of which was intended for the payment of transportation and mileage accounts. The estimate for the transportation of men, baggage, etc., was a small item, amounting to 2,325, but the failure of the bill to secure the appropriation will cause much embarrassment. According to the statement of the Chief Signal Officer "it is now impossible to remove a man, even to discharge or recruit him, or to replace those who are dead or dangerously ill." The term of service of a number of men has expired, but they must be retained in the corps from the lack of money to send them to their homes. The telegraphic reports of cold waves, storms, warnings, etc., must be discontinued at a number of important points, as the funds on hand for that purpose are nearly exhausted.

It is stated in the Naval Ordnance Bureau that the failure of the deficiency bill will not affect the armament of the Roach cruisers. It will merely result in a reduction of the allowance for the vessels. For instance, instead of allowing a vessel 100 shells only 40 will be given. A corresponding reduction will be made throughout.

Naval officers whose claims for mileage under the Graham decision were reported to Congress during the late session, and included in the deficiency bill, will be compelled to wait another year for their money.

GUNBOATS v. TORPEDO-BOATS.

ADMIRAL SIR GEORGE ELLIOT, K. C. B., delivered a lecture on the subject of "Coast Defence by Gunboats," Feb. 11, at the Royal United Service Institution. He held that none of the modern improvements had superseded the gunboat, which had rather gained than lost in its offensive and defensive properties. While an attack by torpedo-boats could be repulsed by gun-fire from ships under weigh in the offing, gunboats would successfully harass an enemy into keeping at a respectful distance from the shore. It follows that defence by torpedo-boats alone cannot be relied upon, except under certain favorable local configurations of sea and land to prevent the bombardment of open places. In future wars shore batteries will have so far obtained superiority over ships that close engagements will be avoided by the latter, and that bombardment at long ranges will be resorted to where it is deemed operative, in which mode of attack flotilla protected by ships will bear a conspicuous part.

As to seagoing torpedo-boats, *Engineering* says: "All investigations show that while the basin experiments are highly satisfactory, those made at sea prove with equal force the unreliability of these crafts when they leave the coast. At the beginning of the Milford Haven operations, the boisterous weather necessitated the postponing of operations on account of the unfitness of the torpedo-boat crews to continue work after the twelve hours of serious fatigue they had already undergone. In the French evolutions, the difficulties of the passage from Bastia to Ajaccio, although not remarkably severe, so unfitted fifteen of the twenty boats that they could take no part in the final attack. In two nights we find recorded collisions, which disabled boats Nos. 52, 61, 63, and 72, and required their return to port for repairs. Of the twenty-two torpedo-boats leaving Toulon a few days before, but six arrived near the enemy, although their commanders displayed admirable energy; one had run aground and was full of water, another had been sunk by collision; another's engine was seriously injured; and, as for the rest, they could not follow. Of the boats under the command of Admiral Brown de Colstoun but five remained for service, for the sixth received an accident to her machinery which prevented her taking part in the attack. During the operations off the Balearic Isles, only one of six boats attacked, and none were able to follow the armor-clads, all meeting with circumstances quite unexpected and embarrassing. With the weather as it existed May 13, the armor-clads had the torpedo fleet completely at their mercy, for even if they had not been destroyed by the excellent practice of the Hotchkiss gunners, they would have been of no use, as they could not with safety discharge their torpedoes. In fact, the search lights discovered distinctly that one of the boats, which burned her Coston's signal to announce victory, did not have her torpedo tube open on account of the heavy sea. Furthermore, their positions were frequently easily discovered by the immense volume of smoke and flame ejected while going at great speed. This applies as well by night as by day. It was also reported that after the four days' running the speed of the boats was reduced to twelve knots. In quoting a German opinion on the development of the Russian torpedo fleet, Charmes refers to the type which will, no doubt, be most successful upon the seas, namely, the torpedo-cruisers, and it is to this type, more than for any other, that we may expect torpedo-boats to be adapted. Already writers have dropped the phrase 'torpedo-boats' for 'torpedo-vessels.'"

(Correspondence of the Army and Navy Journal.)

FORT WALLA WALLA.

MARDI GRAS ENTERTAINMENT.

FEBRUARY 23, 1887.

A MARDI GRAS party given at the officers' hop-room last night by Mrs. Sweitzer, Miss Kingsbury and Miss Wheelan, was the most brilliant social event this post has ever known since the advent here of the 2d Cavalry, nearly three years ago. There were in attendance in all, about 40 couples, many of whom were from the town of Walla Walla about half-a-mile distant. Neither pains nor expense were spared in the appointments; the room was beautifully decorated with flags, and many ingenious devices, emblematical of the deeds of valor for which the old 2d is justly renowned, were tastily arranged among the festooned banners on the walls.

The guests began arriving about 7.45, and were received by the charming hostesses, assisted by Lieut. Kingsbury, all unmasked. The attractive, and in some cases, gorgeous costumes of those in fancy dress formed a strange contrast to the sombre and grotesque figures in domino.

Dancing commenced soon after 8 o'clock, the music being furnished by the 2d Cavalry orchestra, under the leadership of Prof. Meyrelles.

Soon after 10 o'clock the signal for unmasking was given, and the guests then sat down to partake of an elegant repast prepared for the occasion, and served in the hall on small tables brought in for that purpose. When this was finished dancing was resumed, and not until nearly 2 o'clock did the party regretfully retire from the scene of so much jollity and animation.

There were many amusing situations observed and several ludicrous mistakes were made by some of the merry maskers, who were over-confident in their ability to distinguish friends in the throng. In one instance, a young man had for some time been whispering his soft nothings into the ear of she whom he considered destined for himself alone, when the signal for unmasking was given. Imagine his amazement and chagrin on beholding, not his fair charmer, but her mother!

Among those in costume were the following: Miss Helen McGregor, California; Miss Grace Isaacs, peanut girl; Miss Bessie Isaacs, Queen Margaret; Miss Mattie Isaacs, Ophelia; Mrs. F. W. Paine, shepherdess; Mrs. H. D. Chapman, peasant girl; Miss Imo Boyer, flower girl; Miss Grace Legrow, flower girl; Miss Elma Rees, Swiss girl; Miss Susie Legrow, music; Miss Ellen Dohney, flower girl; Miss Sarah Stine, Aurora; Mrs. Wm. Stine, Jr., court lady; Miss May Hooten, French peasant girl; Mrs. A. R. Fink, Quakeress. Mrs. J. L. Sharpstein, jockey; Miss Ada Stone, tambourine girl; Lt. R. B. Bryan, Hamlet; Mr. Charles Sharpstein, dude; Mr. J. L. Sharpstein, Neapolitan dancing boy; Mr. H. D. Chapman, knight; Mr. Wm. Jones, king; Mr. Eugene Boyer, blue knight; Mr. A. R. Fink, Spanish don; Mr. Marcus Gillian, Spanish bandit; Mr. Wellington M. Clark, negro dude, and Mr. Jerry J. Dohney, negro dudess.

The others present, all but a few of whom were masked, were: Gen. and Mrs. Sweitzer, Major McGregor, Mrs. McGregor, Lieut. Kingsbury, Mrs. Kingsbury, Miss Wheelan, Capt. Hamilton, Capt. Swigert, Mrs. Swigert, Lieut. Pearson, Lieut. Sibley, Mrs. Sibley, N. B. Sweitzer, Jr.; Miss Sweitzer, Lieut. Roe, Mrs. Roe, Lieut. Schofield, Lieut. Brainard, Dr. Whitefoot, Dr. Forbes, Miss Rawolle, Mr. L vi Ankeny, Mr. and Mrs. J. B. Allen, Mr. F. Boyer, Mr. Joseph Dohney, Mr. Bert Forsyth, Mr. and Mrs. L. Goodman, Mr. P. B. Johnson, Mr. and Mrs A. P. Legrow, Mr. and Mrs. MacEwan, Dr. and Mrs. Mauzey, Mr. F. W. Paine, Major and Mrs. R. R. Rees, Mr. and Mrs. W. H. Stine, Mr. Ben. Wingard, Mr. and Mrs. W. H. Upton, and several others whose names could not be obtained.

Yours, DOMINO.

SOME DATA FROM NEW ARMY REGISTER,

Showing the number in each arm and grade of the Service who are graduates of the Military Academy; appointees from civil life or the Army; the number who served in the volunteers; the number having a record of war and the number who had no war service.

Professors, M. A	6	1	—	3	5	4

*Total in active service, 2156.

Several of those appointed from the Army had only nominal service in the ranks while many of the civil appointments, and some of the M. A. ones had seen previous service in the Army. There are in Service about 45 officers who were at the M. A. and failed to graduate. It appears that all of the retired list but seventeen have a record of War Service.

PERSONAL ITEMS.

ASSISTANT SURGEON G. L. EDIE, U. S. A., is North, from San Antonio, on a few weeks' visit.

INSPECTOR-GENERAL J. C. BRECKINRIDGE, U. S. Army, is East, from Chicago, on a short leave.

MAJOR W. C. MANNING, U. S. A., rejoined at Fort Mackinac, Mich., this week from a short leave.

CAPTAIN W. W. GRAY, Post Surgeon at Fort Maginnis, is visiting friends East, on a short leave.

LIEUTENANT WILLISTON FISH, 4th U. S. Artillery, is East on a brief visit from Fort Snelling, Minn.

MAJOR ANSON MILLS, 10th U. S. Cavalry, lately visiting in the East is en route to his station in Arizona.

MAJOR-GENERAL JOHN POPE, U. S. A., will celebrate his sixty-fifth birthday on Wednesday next—March 16.

CAPTAIN A. H. YOUNG, U. S. A., has rejoined at Columbus Barracks, Ohio, from a visit to New York, etc.

ADJUTANT R. C. VAN VLIET, 10th U. S. Infantry, has taken charge of recruiting matters at Fort Union, N. M.

LIEUTENANT P. A. BETTENS, JR., and bride, in Washington lately, were expected to visit in Chicago this week.

GENERAL J. G. PARKE, U. S. A., will spend the summer abroad and secure a well-earned rest from his official labors.

CAPTAIN J. S. BISHOP, 13th U. S. Infantry, under his recent promotion goes from Fort Wingate to Fort Stanton, N. M.

LIEUTENANT W. L. BUCK, 13th U. S. Infantry, expects to leave Fort Wingate, N. M., next week, to be absent about three months.

LIEUTENANT W. W. WOTHERSPOON, 12th U. S. Infantry, rejoined at Sackett's Harbor, N. Y., early in the week from a short leave.

CAPTAIN J. W. GELRAY, U. S. Army, retired, has been added to the list of patients in the General Hospital at Hot Springs, Ark.

CAPTAIN LOUIS BRECHEMIN, Assistant Surgeon, U. S. A., sailed March 5, from New York for Havre on the steamship *La Bretaque*.

INSPECTOR-GENERAL H. G. BURTON, U. S. A., of Fort Leavenworth, will pay a few weeks' visit with his family to relatives in Delaware.

CAPTAIN BENJAMIN KING, U. S. A., retired, of Obligation, Md., who entered the Army in 1818, has been visiting old friends in Washington.

LIEUTENANTS SHIPP, Cabell and Hasbrouck, U. S. Army, young officers, are enjoying a continental tour and at present are spending a short time in Paris.

CAPTAIN R. W. JOHNSON, U. S. A., assistant medical officer at Fort Adams, R. I., left there this week for West Point, for temporary service at the Military Academy.

LIEUTENANT J. M. CARSON, Jr., 5th U. S. Cavalry, who has been spending a leave with relatives in Washington, is on his return journey to Fort Reno, Indian Territory.

COLONEL WILLIAM LUDLOW, U. S. A., returned to Washington early in the week from Oakdale, L. I., where he went to attend the funeral of his nephew, the son of Comdr. Ludlow, U. S. N.

LIEUTENANTS W. H. COFFIN, 5th U. S. Artillery, has taken temporary charge of quartermaster and subsistence matters at Fort Schuyler, N. Y. H., during the absence on leave of Lieut. T. R. Adams.

LIEUTENANT-COLONEL EDWARD COLLINS, 7th Inf., was to leave Milton, Mass., this week for Omaha to report to Gen. Crook and from there will likely join the headquarters of his regiment at Fort Laramie, Wyo.

THE wife of Lieut. G. T. T. Patterson, 14th Inf., is suffering from dementia, and may have to be placed in an asylum. Lieut. Patterson took her to San Francisco a few days since for treatment.—*Vancouver Independent.*

CAPTAIN O. E. MICHAELIS, Ordnance Corps, U. S. Army, went this week from West Troy to Philadelphia where he delivered on Friday evening before the Franklin Institute a lecture on "The Army of Kukuana Land."

COLONEL C. L. BEST, 4th U. S. Art., has selected as regimental quartermaster in succession to Lieut. F. Fuger, that able and experienced officer Lieut. Crosby P. Miller, at present adjutant of the Artillery School and post of Fort Monroe.

LIEUTENANT J. R. RICHARDS, 4th U. S. Cavalry, was married March 8, at Springfield, Mo., to Miss Bessie Russell, daughter of Mr. and Mrs. John G. Russell, of that city. The ceremony took place in the Westminster Presbyterian Church, which was crowded with friends. After the wedding tour the married couple go to Fort Huachuca, Ariz.

COLONEL F. D. GRANT is enjoying these days," says the *Tribune*, "both the sweets and acids of authorship. He is probably thirty-seven or thirty-eight years of age. In physical appearance he resembles his father, being stout, strong, and sturdy. The old associates of the General say that the Colonel grows to look more like his father as he ages, in spite of his black whiskers, the General's beard having been of a lighter color."

BRIG.-GENERAL GREELY, the new Chief Signal Officer, made his début in society—so to speak, it being his first appearance at a social gathering since the accession of the new honors—at the meeting last Saturday evening of the Washington Literary Society at the residence of Mr. Spofford, librarian of Congress. Gen. Greely choose Greenland for his theme, and gave many interesting facts concerning its inhabitants and animals and its vegetation as well as its manufactured articles. His wife and infant daughter are making good progress.

CAPT. J. L. CLEM, U. S. A., is East from Ogden, Utah, on a few weeks visit to relatives.

LIEUTENANT J. B. BELLINGER, 5th U. S. Cavalry, lately in New York City, has gone to St. Louis.

GEN. JAMES OAKES, U. S. A., Mrs. Oakes and Miss Oakes are at the Hygeia Hotel, Old Point Comfort.

GENERAL R. H. JACKSON, U. S. A., of Fort Schuyler, visited old friends at Governor's Island early in the week.

CAPTAIN JOHN CONLINE, 9th U. S. Cav., expects to leave Fort Niobrara, Neb., in a few days, to be absent about three months.

CAPTAIN M. C. WYETH, Assistant Surgeon, U. S. A., lately of Fort Wayne, Mich., joined at Fort Barrancas, Fla., this week for duty.

LIEUTENART A. B. JOHNSON, A. D. C. to Maj.-Gen. Terry, will remain under treatment at Hot Springs, Ark., for some weeks longer.

LIEUT. R. M. GETTY, 22d U. S. Infantry, lately visiting friends at Washington, will remain East on leave for a few weeks longer.

LIEUT. A. D. ANDREWS, 5th U. S. Artillery, who is recuperating from an illness at Massena, N. Y., will return to Governor's Island about April 1.

ASSISTANT SURGEON G. MCCREERY, U. S. A., on leave from Dakota, visited friends at 350 Lexington avenue, New York City, early in the week.

LIEUTENANT A. B. DYER, 4th U. S. Artillery, who relinquished the regimental adjutancy last week, has joined Egan's Light Battery at Fort Adams.

GENERAL W. D. WHIPPLE, U. S. A., have been the recipient of numerous congratulations on his promotion since his return to New York from Florida.

THE trial of Col. F. W. Benteen, U. S. A., at Fort Du Chesne having been completed, that officer has gone to Fort Douglas, Utah, to await further developments.

LIEUTENANT-GENERAL SHERIDAN and Mrs. Sheridan and Col. S. C. Kellogg, A.-D.-C., visited New York early in the week, quartering at the Fifth Avenue Hotel.

MR. P. E. VOLLUM, of Omaha, son of Colonel Vollum, Medical Director of the Department of Texas, has been visiting Lieutenant Blatchford, U. S. A., at Fort Leavenworth.

COLONEL J. S. MASON, 9th Inf., presides over a General Court-martial to organize at Fort McDowell, A. T., on Tuesday next for the trial of Lieut. A. T. Dean, 4th Cav.

MR. GEO. G. SICKLES, of New Rochelle, the aged father of Maj. Gen. D. E. Sickles, U. S. A., is seriously ill, and at latest advices his death was expected at any moment.

CAPT. J. H. DORST, 4th U. S. Cavalry, whose arduous services in Arizona are so well known, has received a well earned special detail at West Point, going there in August next.

THE Rev. P. M. Donohue, a young Catholic priest of Arcola, Ill., has been created by Gen. Boulanger, the French Minister of War, a lieutenant in the French Army for services rendered.

JUSTICE ARTHUR MACARTHUR, of the Supreme Court of the District of Columbia since 1870, resigned this week to retire to private life. His son is Captain MacArthur, of the 13th U. S. Inf.

FREDERICK P. MUFFE, Hospital Steward, U. S. A., stationed at Willet's Point, N. Y. H., was one of the graduates at the late commencement of the Medical Department, University, City of New York.

LIEUTENANT J. M. T. PARTELLO, 5th Inf., of Fort Keogh, is writing a book on Montana, to be brought out by Scribner Bros., of New York. He is also preparing a series of western articles for the *Century Magazine*.

GENERAL A. MCD. MCCOOK has selected Lieut. A. M. Wetherill, 6th Inf., for regimental quartermaster, in succession to Lieut. John Carland. The new incumbent is an experienced officer whose service dates from 1867.

LIEUTENANT-GENERAL P. H. SHERIDAN, U. S. A., paid a short visit to Governor's Island on Tuesday, and was received by Major-General Schofield and staff and tendered the customary salute. After a few visits to old friends on the Island, Gen. Sheridan returned to New York.

THE Washington *Critic* says: "Some Western papers seem to be thoroughly of the belief that Gen. Wesley Merritt, colonel 5th Cavalry, is sure to be appointed Brigadier General to succeed General Willcox, after that officer retires in April next for age. The *Critic* has placed a number of officers in nomination for promotion during the past two years, who have gained the rank each one wanted, and it predicts now that Gen. James W. Forsyth, colonel 7th Cavalry, will get the coming prize."

DOCTOR FRED. MORSE TAYLOR, son of Surg. M. K. Taylor, U. S. A., who has been in New York since November, expects to return to Fort Sill, Ind. Ty., the latter part of this month. Doctor Taylor was an applicant for the position of Assistant Surgeon, U. S. A., and received orders to appear before the Army Medical Board in New York. The order was, however, revoked one day later by order of the Secretary of War on the ground that no candidates should be examined whose applications were dated later than January 1. The cases of twelve other applicants were similarly decided.

REFERRING to the death at New York, Feb. 22, of Harry Hinton, son of Lieut. C. B. Hinton, 18th U. S. Inf., the Kansas City *Times* says: "Handsome and prepossessing in person, unusually bright and promising in mind, he was the idol of his parents and a general favorite of all with whom he came in contact. His death took place under more than ordinary painful circumstances to the family. He was sent with his mother and elder brother to the East with the greatest reluctance by his father, in order that he might obtain school advantages not available at the remote military station of Fort Gibson, in the Indian Territory, and died before the father could reach him."

COLONEL JOHN R. BROOKE, 3d U. S. Infantry visited Helena, Mont., this week on civil business.

LIEUTENANT G. H. KINZIE, 15th U. S. Infantry, of Columbus Barracks, O., visited Fort Leavenworth, Kas., a few days ago.

SURGEON E. A. KOERPER, U. S. A., and Mrs. Koerper, of Fort Keogh, are recent guests at the Ryan Hotel, St. Paul.

CAPTAIN E. R. WARNER, 3d U. S. Artillery, rejoined at Fort McHenry, Md., the latter part of this week from a short leave.

CAPT. E. B. ATWOOD, U. S. A., is a recent visitor at Albuquerque, N. M., on business connected with the purchase of cavalry horses.

ADJUTANT W. A. MANN, 17th U. S. Infantry, leaves Fort D. A. Russell, Wyo., next week for two months for the benefit of his health.

CHAPLAIN JEREMIAH PORTER, U. S. A., retired, and Mrs. Porter, have left Tampa for a short sojourn at Interlachen, Florida.

SURGEON CHARLES H. ALDEN, U. S. A., after a pleasant tour of duty at Fort Snelling, Minn., will go to West Point in August next.

MAJOR HENRY C. COOK, 13th U. S. Inf., under his recent promotion will likely be assigned by General Miles to duty at Fort Stanton, N. M.

LIEUT. A. C. DUCAT, Jr., who was transferred from the 3d Cavalry to the 24th Infantry, changes base from Fort Davis, Tex., to Fort Sill, I. T.

LIEUTENANT JOHN STAFFORD, 8th U. S. Infantry, and Mrs. Stafford, of Fort Leavenworth, are expected to visit friends in San Francisco during the coming summer.

WE regret to learn of the illness of Major John E. Blaine, Paymaster, U. S. A., at Helena. We have a pleasant recollection of Major Blaine while he was on duty in New York the past few years.

MR. J. C. SHOFNER, of Portland, who was graduated from West Point in 1877, assigned to the 21st U. S. Inf., and resigned June 1, 1881, has been appointed Brigadier-General of the Oregon State Militia.

CHAPLAIN WINFIELD SCOTT, U.S.A., celebrated his 50th birthday at Angel Island, Cal., Feb. 26, and numerous friends from San Francisco and Oakland were present on the occasion, besides the officers and ladies of the post.

CAPTAIN J. S. LOUD, 9th U. S. Cavalry, recruiting officer at Detroit, who has, with his family, since the death of their little daughter, been visiting at Dearborn, Mich., has returned to the former city and located at 374 Cass avenue.

COLONEL AND MRS. ALBERT BARNITZ, U. S. A., of Cleveland, O., with their three charming daughters, are, says the Tuscaloosa *Times*, at the Washington. This is their second or third visit here and they profess themselves more pleased every time.

LIEUTENANT H. L. RIPLEY, U. S. A., whose military career we have noted with much interest since his appointment in 1879, has effected a transfer from the 24th Infantry to the 3d Cavalry, and has been assigned to Captain Vroom's troop, at Fort Davis, Texas.

LIEUTENANT W. R. HAMILTON, 5th U. S. Artillery, is to read a paper on "Application and Use of Upton's Infantry Tactics to Modern Warfare," at the regular monthly meeting of The Canteen to be held at Martinelli's, New York City, on Saturday evening of this week.

"POOR CORBETT!" says the Sioux City *Times*. "He had run with McDowell, fortified with McClellan, charged with Hooker, fought it out under Grant, and shot Booth on his own account, but the talk of Kansas legislators was too much for his endurance and he is crazy".

WILLIAM J. HAYNES, of St. Louis, who will be 100 years old if he lives until December next, was on the staff of General Jackson at the battle of New Orleans, was engineer of the first steamboat that arrived at St. Louis from the South, and ran the first locomotive that ever left St. Louis for the West.

COL. FRANK WHEATON, 2d U. S. Inf., has selected Lieut. L. S. Ames as regimental adjutant, in succession to Lieut. C. W. Rowell, and Lieut. John Kinzie as regimental quartermaster, in succession to Lieut. S. E. Clark. Lieut. Ames is the senior first lieutenant of the regiment with a war record, and Lieut. Kinzie dates his service from 1872. Both are well qualified officers.

LIEUTENANT J. S. POWELL, Signal Corps, U. S. A., whose troubles we alluded to last week, is reported seriously ill at No. 114 Grant Place, Washington. The New York *Times* finds in Lieut. Powell's case "a temperance lecture and is a strong argument in favor of providing employment for Army officers." It says: "He was an energetic young fellow, who left the type case for the Signal Corps and who upon his merit alone secured a commission. Prosperity proved too much for him. He began to drink. Shortness of funds led him to borrow. The trouble came when he had out three accounts for the same month's pay and owned money to officers and men of the service."

THE failure of the Senate to act upon the nomination of 2d Lieut. John H. McBlain, 9th Cav., puts another peculiar phase to the status of this officer. When he was rejected a year ago the Department, after some deliberation, concluded that the action of the Senate did not deprive him of his commission as a 2d lieutenant, but that he was not eligible to a recess promotion to the vacancy to which he was not confirmed; and so he was carried along on the rolls as senior 2d lieutenant until Feb. 11, when a vacancy occurring in the grade of 1st lieutenancy, he was again nominated. Upon this the Senate failed to act, and now the question arises, does the non-action on the part of the Senate leave him where he was before nominated, or is he eligible to a recess appointment to the same vacancy? The opinion of the promotion experts in the Adjutant-General's Office is, that the Secretary cannot do otherwise than to give him a letter of appointment from Feb. 11. The matter is now before the Secretary.

GENERAL H. G. THOMAS, U. S. A., of Portland, Me., is visiting in Washington.

LIEUTENANT E. B. PRATT, 23d U. S. Infantry, left Fort Mackinac, Mich., early in the week on a short leave.

HENRY A. EHRINGER, who was appointed on Tuesday U. S. Consul at Cienfuegos, Cuba, is a West Point graduate, class of 1846.

BRIGADIER-GENERAL A. W. GREELY, Chief Signal Officer U. S. A., received his commission as such on Wednesday of this week.

AN equestrian statue to General Albert Sidney Johnston will be unveiled with due ceremony April 6, in the Metairie Cemetery, New Orleans.

CHAPLAIN G. G. MULLINS, U. S. A., who is residing at 3 Shaw Place, St. Louis, has received an indefinite extension of his sick leave, to await retirement.

MISS MARY SIMPSON, daughter of Chaplain and Mrs. G. W. Simpson, U. S. A., was married to Lieut. F. L. Palmer, U. S. A., Tuesday evening, April 12th, at Fort Bridger, Wyoming.

GENERAL FRANK WHEATON, U. S. A., left Fort Omaha this week for Fort Cœur d'Alene, Captain Clark, Quartermaster 2d Infantry, accompanying him, to testify before the Court of Inquiry there.

CAPT. ARTHUR MORRIS, 4th U. S. Art., who is on sick leave and expected to go to Saint Augustine, Fla., for the benefit of his health, has been detained in New York, at the Everett House, by an attack of pneumonia.

REV. DR. LEWIS, chaplain at Fort Niobrara, is engaged in the very commendable work of building up a parish at Valentine, Neb., and has been in the East collecting funds for the building of a church and rectory.

THE East Florida Seminary Corps of Cadets, under command of Capt. C. A. Curtis, U. S. A., Professor of Military Science, will take part in the obsequies of the late General Loring, C. S. A., at St. Augustine, on the 18th of March.

GENERAL A. G. EDWARDS, who was graduated from West Point in 1832, resigned in 1835, and has been Assistant Treasurer of the U. S. at St. Louis since 1865, is still holding that office, although soon to give way to a successor. He is held in high esteem in St. Louis.

LIEUT. GUY HOWARD, 12th Inf, of Fort Niagara, has been presented by his wife with a boy. He will be named after his two grandfathers, Major-General O. O. Howard, of San Francisco, and the Hon. Jas. M. Woolworth, of Omaha, Neb., Otis Woolworth Howard.

GENERAL GREELY received his new commission on Tuesday last, and has assumed full charge of the Signal Corps, with the avowed determination of convincing the country and Congress that the service is one of the essential features of the military establishments.

LIEUTENANT H. R. LEMLY, 3d U. S. Artillery, who was obliged, through the illness of a member of his family, to relinquish the detail of military *attaché* to the U. S. Legation at Bogota, Colombia, has succeeded Lieut. J. D. C. Hoskins as regimental adjutant. Gen. Gibson has certainly made a most excellent selection.

INCLUDED in the art exhibition at the Century Club on Saturday night last, was a very interesting sketch from the life of Napoleon I., by Capt. Maryatt, of the British Navy. It was taken on board the *Bellerophon*, after Napoleon's surrender to the British authorities. It is in the possession of Professor Michie, U. S. A., of West Point, to whom it was presented by Mr. Henry Irving.

GEN. BRECK was visited by a burglar one night recently, at his residence in Omaha. Mrs. Breck awoke, but with great presence of mind, instead of giving an alarm, complained of feeling ill, and asked her husband to get some medicine. When the General arose the burglar glided out, and a moment later was heard to jump down the stairs and rush out of a front window, being interrupted before he had secured anything.

A FORT DOUGLAS correspondent writes: "The train containing all the field officers of various regiments in Dept. Platte, who were ordered to Fort Duchesne for the trial of Maj. Benteen, a few weeks ago, had a severe collision in Echo Cañon, near Ogden. The engineer and a few other persons were killed, but none of the officers were injured, so that many captains and subalterns lost a possible chance for extensive promotion."

GENERAL FITZ JOHN PORTER, U. S. A., says a Washington scribe, "is a man of slender build, and is by no means in robust health. His hair is quite gray, and his face in repose is careworn. Mrs. Porter is a woman of sunny presence, and one to win and hold friends. I have never met two more charming girls than their daughters. They are thoroughly American girls, well educated and so well bred as never to fail in the smallest courtesy toward others, no matter where they are placed."

THE Washington *Sunday Herald* says: It is a good thing for the Army that it has such a watchful, intelligent friend in Congress as is Gen. Joseph Wheeler. I have before mentioned that to this gentleman belongs the unequalled *prestige* of having held the highest military rank ever attained on the North American continent by so young an officer, for he was a lieutenant-general long before he was thirty years old, and had reached this grade in time of war without any political backing, but on pure military merit. From an officer of such distinction naturally a good deal was anticipated when he came into Congress. His performances and record have maintained the highest expectations of his friends. Of his *alma mater*, West Point, General Wheeler is especially considerate. In the appropriation bill for the United States Military Academy for the next year there is the best possible evidence of his thoughtful care in the shape of money for some much-needed improvements. The next year, General Wheeler says, he will give them as much more, if possible, to make the institution what it should be, the leading Military Academy of the world.

GENERAL WESLEY MERRITT, U. S. A., of West Point, paid a visit to Washington this week.

GENERAL SIMON CAMERON, ex-Secretary of War, celebrated his eighty-eighth birthday March 8.

THE widow of Major D. M. Vance, 13th U. S. Inf., is now residing with her father-in-law, Judge Vance, Urbana, Ohio.

GENERAL KAUTZ, the presiding officer at the Benteen court martial, was in Omaha last week, and brought the record of the Court for General Crook.

UP to last Saturday night there had been filed in the Pension Office 7,716 applications for pensions under the Mexican Pension law, passed late in the last session of Congress.

LIEUT.-GENERAL KURODA and staff, of the Japanese army, arrived in New York from Europe on Tuesday, and went to the Fifth Avenue Hotel. They are on a tour of observation,

LIEUTENANT A. A. AUGUR, 24th U. S. Infantry, left Fort Elliott last week for Fort Sill. A correspondent at the former post writes: "Lieutenant and Mrs. Augur made many friends here, and their departure was universally regretted."

THE following Mexican War claims were allowed by the Second Comptroller this week: Joseph H. Bailey, Captain and Asst. Surgeon, $18.75; John H. Winder, Bvt. Lieut.-Col., 1st Art., $180; Joseph H. Potter, 1st Lieut., 7th Inf., $90; John C. Casey, Captain and Commissary of Subsistence, $50.

THE following Army officers are registered at the War Department this week: Lieut.-Col. Walter McFarland, Eng.; Major W. R. Livermore, Eng.; Col. J. C. Breckinridge, Insp.-Gen.; 1st Lieut. T. S. Mumford, 13th Inf.; Major G. H. Burton, Insp.-Gen.; Lt.-Col. C. B. Comstock, Eng.; Col. W. Merritt, 5th Cav.; Capt. James M. Pyne, retired.

THE late Gen. de Wimpffen, one of the bravest French soldiers of modern times, made in his diary, just published, this estimate of the British hero, Raglan, with whom he served in the Crimea: "Milord Raglan," he says, "is a good old officer, whose physiognomy evinces a straightforward, energetic will. He is, no doubt, one of the most remarkable soldiers of England, ready to bear anything for the glory and the interest of his country which he has served so long."

REAR ADMIRAL S. B. LUCE, U. S. N., spent a few days in Washington this week.

COMMO. B. GHERARDI, U. S. N., visited Philadelphia this week, registering at the Lafayette Hotel.

NAVAL CONSTRUCTOR W. H. VARNEY, U. S. N., visited Norfolk, Va., this week, to inspect the *Ossipee*.

THE Navy Mutual Aid Association will call an assessment to cover the death of Captain E. P. Lull, April 3.

COMDR. F. E. CHADWICK, U. S. N., our naval attache at London, is expected home soon on a month's vacation.

PROF. C. E. MONROE, U. S. N., stationed at the Torpedo Station, is engaged in experiments connected with the latest discoveries in high grade explosives.

COMMANDER J. R. BARTLETT, U. S. N., read before the Franklin Institute, Philadelphia, on Monday of this week, an interesting paper on "The Physical Geography of the Sea."

EX-SECRETARY RICHARD THOMPSON, it is said, will be dropped as an adjunct of the Panama Canal scheme. He has been drawing a salary of $25,000 a year for eight years, as a figure-head.

COMMANDER SCHLEY, Chief Bureau of Equipment, has been industriously at work this week preparing the final manuscripts of his report on the Greely relief expedition, which is shortly to be printed, in accordance with a recent act of Congress.

LIEUTENANT H. H. COSTEN, of the Marine Barracks, has left Portsmouth and removed to Norfolk to reside. Mrs. Morris, of Indianapolis, Ind., is stopping at the Yard, the guest of her daughter, Mrs. Capt. Geo. Brown. Capt. Geo. Brown, the Commandant, left for Washington to be gone about ten days.—*Norfolk Landmark.*

THE following officers registered at the Navy Department this week: Prof. W. W. Hendrickson, Lieut. E. H. Gheen, Chief Engineer John A. Scot, Rear Admiral S. B. Luce, Lieut. H. O. Rittenhouse, Commander John F. McGlensey, Lieut. John A. Rodgers, Lieut. W. E. Sewell, Lieut. Harry Knox, Commander E. T. Woodward, and Ensign W. F. Fullam.

To the personal interest of Mr. Herbert, Chairman of the House Naval Committee, is ascribed the credit for the appropriation for the beginning of the new Naval Observatory. Now that the construction has been definitely authorized, and the limit of cost fixed, it is greatly to be hoped that he will soon see the work under way, and that in the course of the administration of Captain Phythian we may have the privilege of congratulating him upon his removal into new quarters.

THE death of Lieut.-Col. R. N. Scott, 3d U. S. Art., promotes Maj. L. L. Livingston, 4th, to lieut.-colonel 3d Art.; Capt. H. C. Hasbrouck, 4th, to major 4th; 1st Lieut. F. Fuger, 4th, to captain, and 2d Lieut. W. S. Alexander to 1st lieutenant. Capt. Fuger, who has under recent regulations, just been relieved as regimental quartermaster of the 4th Artillery, will now take command of Battery M at Fort Preble. He has been nearly 22 years a 1st lieutenant, casualties among the captains of the 4th having been few in number since the Modoc War.

THE Surgeon-General of the Navy was informed on Thursday that Medical Director Somerset Robinson had been transferred to the Naval Hospital at Mare Island for treatment. The nature of his illness was not given, but it was stated that he would be unfit for further duty. Dr. Robinson was recently ordered to the San Francisco naval rendezvous. P. A. Surgeon Ernest Norfleet will be detached from the Naval Hospital at Mare Island and ordered to the rendezvous.

CHIEF ENGINEER R. L. HARRIS, U. S. N., is once more able to be out, but his recent severe illness has reduced his weight notably. It is not improbable that he may be assigned to duty in the course of the spring, but exactly where has not yet been indicated.

COMMODORE W. E. HOPKINS, U. S. N., retired, is residing in San Francisco, Cal., where he has a pleasant residence on Golden Gate avenue. He finds the climate of the Pacific slope more suitable to his declining years than that of his favorite valley of Virginia.

CHIEF ENGINEER G. W. MAGEE, U. S. N., whose recent admission to the Army and Navy Hospital, Hot Springs, Ark., was such a surprise to his friends, is reported as having been but very slightly benefited by the treatment since his admission. He is suffering from a complication of kidney troubles.

LIEUT. F. P. GILMORE, U. S. N., who has just reported his arrival home from the China Station, has been assigned to duty under Commander R. D. Evans as assistant inspector of steel for the new cruisers. Lieut. Gilmore will at once enter upon his new duties, but will obtain a leave of absence later in the season.

FRIENDS of Rear-Admiral T. H. Patterson, U. S. N., note with some concern the apparent falling off in his health during the last few months, but while his weight is growing slowly less, the well-knit figure preserves its military erectness, and few will believe that the Admiral was retired nearly five years ago at sixty-two years of age.

THE place left so long vacant on the *Atlanta* by the detachment of Chief Engineer Melville has at last been filled by the assignment of Chief Engineer J. P. Kelly, U. S. N., who has been for some time past on special duty in Buffalo, N.Y. His last cruise was on the U. S. S. *Alliance*, from which ship he was detached in July, 1884.

CIVIL ENGINEER WOLCOTT, U. S. N., will make every effort to put the finishing touches on the fine dry dock at the Mare Island Navy-yard, which he has superintended through its various stages with so much skill and care. Mr. Wolcott has instituted quite a number of improvements in that yard in the way of sewering, paving and other things which have for a long time needed attention.

THE orders of Lieut. Knox, of the Navy, to the Bureau of Navigation, imply but a temporary assignment for a particular purpose, as he is under preparatory orders for sea, and on completion of the duty in Washington upon which he is engaged, he will return to Greenville, Darke County, O., and conclude his interrupted preparations for sea. Lieut. Knox will probably make his next cruise on the North Atlantic Station.

CHANGES IN REGIMENTAL STAFF OFFICERS.

THE following changes among regimental quartermasters and adjutants have taken place since the new orders limiting the term of detail to four years went into effect:

5th Cavalry—Lieut. Hall, R. Q. M., promoted to Captain March 8—vacancy not filled.

3d Artillery—Lieut. Pratt, R. Q. M., relieved March 1, and Lieut. Satterlee appointed to succeed him; Lieut. Hoskins, Adjt., relieved March 1, and Lieut. Lemly appointed.

4th Artillery—Lieut. Fuger, R. Q. M., promoted March 5 to Capt.: Lieut. Miller appointed to date from March 31; Lieut. Dyer, Adjt., relieved March 1; Lieut. Taylor appointed.

6th Infantry—Lieut. Carland, R. Q. M., relieved March 1; Lieut. Wetherhill appointed.

17th Infantry—Lieut. Brush, R. Q. M., relieved, and Lieut. Chynoweth appointed—date not fixed.

18th Infantry—Lieut. Hoyt, R. Q. M., relieved, and Lieut. Leahy appointed—date not fixed.

1st Infantry—Lieut. Clark, R. Q. M., relieved; Lieut. Kenzie appointed from March 3; Lieut. Rowell, Adjt., relieved March 3—vacancy not filled.

(From the Los Angeles Tribune.)

GEN. NELSON A. MILES.

GEN. MILES is an able soldier, who has done great things for his government and the people in the line of his profession. He has achieved honors in the field of civilized warfare to recover States in rebellion. He has perilled life and limb in a thankless hunt for ambushed savages that vast, rich vallies might know the cheerful sounds of peace, and seekers for new homes in the wilderness might find them and, not scalpless, enjoy them. His last brilliant campaign against the Indians in Arizona should entitle him to the admiration and gratitude of every man who recognizes that Los Angeles is the natural and also the actual centre of trade and manufacture of all this extensive region. Obvious as are the immediate advantages of the presence here of Gen. Miles and his officers and material of war, a hundred times greater advantages his skill and valor have made it possible for the future to hold for this city, as among the results of settlements now making, and to be made every year, until Arizona shall have become a populous State, with peace and plenty everywhere, and her people taking merchandise from our dealers and manufactures from our factories. The last of Indian wars has been fought. Agriculture and mining will henceforth be undisturbed by the marauding savage. Life and property are secure. Gen. Miles has thus presented to the business men of this city a commercial dependency in territory as large as any three of the Eastern States. If any deem this a trifle, and fail to expect much good to come out of that, in uninformed quarters, still despised country, they have but to wait a very few years to have their erroneous views corrected.

LATE ARMY ORDERS.

Upon the return of 1st Lieut. Montgomery M. Macomb, 4th Art., to duty at Fort Preble, Me., 2d Lieut. Walter N. P. Darrow, 4th Art., will proceed to Fort Adams, R. I., and rejoin his battery (S. O. 51, Div. A., March 11.)

LIEUTENANT S. E. ALLEN, 5th U. S. Artillery, of Fort Columbus, N. Y. H., was made the happy father of a daughter March 10.

THE ARMY.

G. O. 19, H. Q. A., March 7, 1887.

Publishes the act of Congress, approved March 1, 1887, making appropriations for the support of the Military Academy for the fiscal year ending June 30, 1888.

G. O. 20, H. Q. A., March 8, 1887.

Publishes the opinions of the Attorney General, of Feb. 16 and 24, 1887, in regard to arrests in the Indian Territories.

CIR., WAR DEPARTMENT, A. G. O., March 7, 1887.

The amounts of U. S. bonds held by the Treasurer of the U. S to secure public deposits in the following banks are as follows:

First National Bank of Leavenworth, Kans., $150,000.
Third National Bank of Springfield, Mass., $120,000.
Second National Bank of St. Paul, Minn., $400,000.
Manufacturers' National Bank of Troy, N. Y., $200,000.
Farmers' and Mechanics' National Bank of Buffalo, N. Y., $117,000.
National Bank of Raleigh, Raleigh, N. C., $50,000.
First National Bank of Richmond, Va., $50,000.

G. O. 1, DEPT. OF DAKOTA, March 1, 1887.

The months of June, July and September are selected, and announced, to constitute the practice season at all posts in this department, for the current year.

In forwarding charges to these headquarters recommending trial by General Court-martial, the commanding officer of the post will state, in an endorsement on the charges, that he has thoroughly investigated the circumstances of the case, and is of the opinion that the charges and specifications can be substantiated.

By command of Brig. Gen. Ruger:
THOMAS M. VINCENT, Asst. Adjt.-Gen.

G. O. 2, DEPT. OF MISSOURI, March 5, 1887.

When orders are issued sending enlisted men in pursuit of deserters, the name, rank, company and regiment of the deserter will be mentioned in the order and will be also endorsed on the back of the transportation request; this to insure the prompt settlement of the accounts of the officer making payment.

By order of Brig. Gen. Willcox:
J. P. MARTIN, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Leave for twenty days, to take effect Feb. 20, is granted Brig. Gen. George Crook, Omaha (S. O. 20, Feb. 25, D. Platte).

Judge Advocate General's Department.

Capt. J. G. Ballance, A. J. A., will proceed to Forts Ringgold and Brown, Tex., on public business (S. O. 28, March 1, D. Texas).

Adjutant and Inspector Generals.

Leave for one month, with permission to apply for an extension of fifteen days, is granted Major G. H. Burton, I. G. (S. O. 26, Feb. 28, Dept. Mo.)

Leave for ten days is granted Colonel Joseph C. Breckinridge, I. G., Chicago (S. O. 25, March 2, Div. Missouri).

The leave granted Major George H. Burton, I. G., is extended fifteen days (S. O., March 7, H. Q. A.)

Quartermasters and Subsistence Departments.

Capt. E. B. Atwood, A. Q. M., Santa Fe, will proceed to Albuquerque, N. M., in connection with the assignment and distribution of cavalry horses to troops (S. O. 24, Feb. 28, D. Ariz.)

A furlough for one month, with permission to apply for an extension of one month, is granted Post Q. M. Sergt. Carl Damus (S. O. 22, Feb. 23, D. Arizona).

Leave for one month is granted Capt. John L. Clem, A. Q. M., Ogden, Utah (S. O. 22, March 2, D. Platte).

Pay Department.

Major Daniel N. Bash, Paymr., is assigned to duty at Cheyenne Depot, Wyo. (S. O. 20, Feb. 25, D. Platte.)

The troops will be paid as follows: Major G. E. Glenn, Paymr., San Diego Barracks, Cal., Forts Mojave and Verde and Whipple Barracks. Major F. M. Coxe, Paymr., Forts Huachuca, Bowie, Grant and Thomas, San Carlos and Fort Apache. Major W. M. Maynadier, Paymr., Forts Marcy, Union, Wingate, Stanton, Selden and Bayard, N. M. Major G. R. Smith, Paymr., Forts Lowell and McDowell (S. O. 23, Feb. 24, D. Ariz.)

Leave for four months is granted Major Wm. E. Creary, Paymr. (S. O., March 4, H. Q. A.)

Payment of troops is assigned as follows: Major John B. Keefer, Paymr., Forts Walla Walla, Spokane, and Cœur d'Alene. Major DeWitt C. Poole, Paymr., Vancouver Barracks, and Forts Canby and Townsend (S. O. 34, Feb. 25, D. Columbia).

In consequence of the illness of Major John E. Blaine, Paymr., Helena, Major Alfred E. Bates, Paymr., St. Paul, is designated for certain payments (S. O. 16, March 1, D. Dakota).

Medical Department.

Upon the recommendation of the Medical Director of the Dept., A. A. Surg. E. I. Pring is assigned temporarily to duty at Fort Union, N. M. (S. O. 25, March 3, D. Ariz.)

Major Charles H. Alden, surgeon, will report Aug. 28, to the Supt., Military Academy, West Point, for duty, relieving Lieut. Colonel Andrew K. Smith, who will then report by letter to the Surg. Gen. (S. O., March 5, H. Q. A.)

Lieut. Col. Edward P. Vollum, Medical Director, will proceed to the Camp at Eagle Pass, Texas, on public business (S. O. 27, Feb. 28, D. Texas).

A. A. Surg. A. L. Buffington will report for temporary duty to the C. O., Fort Hancock, Texas (S. O. 27, Feb. 28, D. Texas).

Leave for one month, to take effect about March 1, is granted 1st Lieut. Guy L. Edie, asst. surg., San Antonio (S. O. 27. Feb. 28, D. Texas).

Capt. Richard W. Johnson, asst. surg., Fort Adams, will proceed to West Point, and report for temporary duty (S. O., March 4, H. Q. A.)

The leave granted Capt. George McCreery, asst. surg., is extended one month (S. O., March 5, H. Q. A.)

The furlough granted by the C. O., Fort Missoula, M. T., to Hospital Steward Joseph A. Sealey, is extended thirty days (S. O. 16, March 1, D. Dakota).

Major Warren Webster, surgeon, on sick leave since Feb. 4, 1885, is relieved from duty at Fort Preble, Me., and will be carried as "unassigned and on sick leave" (S. O. 49, March 9, Div. Atlantic).

A. A. Surg. M. M. Walker is relieved at Fort Townsend, and will proceed to Fort Walla Walla and report for duty (S. O. 32, Feb. 23, D. Columbia).

A. A. Surg. A. L. Buffington will be relieved from temporary duty at Fort Hancock, on receipt of this order, and will return to Fort Davis. Maj. Francis L. Town, Surgeon, will take charge of the office of the Medical Director of the department and perform the duties of that officer, during his absence (S. O. 29, March 4, D. Tex.)

Engineers and Ordnance Departments.

Capt. Clinton B. Sears, C. E., will proceed to Sioux City, Iowa, on duty connected with works under his charge (S. O. 38, March 5, C. E.)

Capt. Wm. T. Rossell, C. E., will proceed by river to Wilson's Point, La., and Arkansas City, Ark., on duty connected with works under his charge (S. O. 39, March 7, C. E.)

Col. Wm. P. Craighill, C. E., will proceed to Wilmington, N. C., on duty connected with works under his charge (S. O. 37, March 3, C. E.)

Major Alexander M. Miller, C. E., will proceed to Tuscumbia, Mo., on duty connected with works under his charge (S. O. 37, March 3, C. E.)

Leave for four months, with permission to go beyond sea, is granted Col. John G. Parke, C. E. (S. O., March 4, H. Q. A.)

Capt. Ira MacNutt, O. D., will proceed to the Dupont Powder Mills, near Wilmington, to inspect powder being made for the Ord. Dept. (S. O., March 5, H. Q. A.)

Capt. John G. Butler, O. D., will proceed to the Colt's Patent Fire-arms Manufacturing Company's Works, Conn., to inspect Army revolvers and Gatling guns being manufactured for the Ord. Dept. (S. O., March 5, H. Q. A.)

Chaplains.

The leave of absence granted Post Chaplain John V. Lewis is extended twenty-two days (S. O., March 9, H. Q. A.)

Post Chaplain George W. Simpson is relieved from duty in the Dept. Platte (S. O. 21, March 1, D. Platte).

Signal Corps.

The telegraphic instructions of March 6, directing Sergt. Rutherford H. Paxton, now at Denver, Colo., to proceed to Cheyenne, Wyo., and assume charge of that station, are confirmed (S. O. 15, March 7, Sig. Office).

THE LINE.

Changes of Stations of Troops and Field Officers

Ordered, as reported to the Adjutant-General's Office during the week ending March 5, 1887:

TROOPS.

Troop D, 8th Cav., to Fort Clark, Tex.
Troop K, 8th Cav., to Camp Del Rio, Tex.

FIELD OFFICERS.

Lieutenant-Colonel G. M. Brayton, 9th Inf., to Fort Thomas, Arizona.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

Leave for one month, with permission to apply for an extension of ten days, is granted 2d Lieut. George L. Byram, Fort Custer (S. O. 16, March 1, D. Dak.)

2d Lieut. Geo. W. Goode, now on leave at St. Louis, Mo., will report on expiration of leave to the commanding officer at Jefferson Barracks, Mo., for temporary duty, and to conduct first detachment of recruits that may leave that depot after his arrival for the Dept. of Dakota. He will thereafter proceed to join his troop (S. O., March 10, H. Q. A.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Col. Nelson B. Sweitzer will inspect O. and O. stores at Fort Walla Walla, for which 1st Lieut. Charles B. Schofield, Adjt., is accountable (S. O. 31, Feb. 21, D. Columbia.)

Major Thomas McGregor will inspect C., C. and G. E., Q. M. stores, O. and O. stores, and one public horse, at Fort Walla Walla, for which Capt. Eli L. Huggins is accountable (S. O. 35, Feb. 26, D. Columbia.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex., G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

On mutual application, 1st Lieut. Arthur C. Ducat, Jr., is transferred from the 3d Cav. to the 24th Inf. (Co. E, Fort Sill, Ind. T.), and 1st Lieut. Henry L. Ripley, from the 24th Inf. to the 3d Cav. (Troop L, Fort Davis, Tex.) (S. O., March 7, H. Q. A.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell Ariz.

A. G. C.-M. will meet at Fort McDowell, A. T., March 15, for the trial of 2d Lieut. A. T. Dean (S. O. 22, Feb. 23, D. Ariz.)

Capt. H. W. Lawton will proceed to Santa Ana, Cal., to identify an alleged deserter and cause his arrest (S. O. 24, Feb. 28, D. Ariz.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

2d Lieut. John B. Bellinger will proceed to 174 Hudson street, New York City, and report to Capt. James Jackson, 1st Cav., R. O., for duty to conduct recruits to Jefferson Bks. (S. O. 34, March 1, R. S.)

A furlough for four months, with permission to go beyond sea, is granted Corpl. Carl Barnstien, Troop L (S. O. 25, March 2, Div. M.)

The Supt. of the Recruiting Service will cause fifty recruits to be forwarded to the Dept. of Missouri for the 5th Cav. (S. O., March 9, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

Leave for six months is granted 1st Lieut. John N. Glass (S. O., March 7 H. Q. A.)

Thos. Acton, recently discharged at Fort Verde, A. T., for disability, seems to have had a hard time of it before reaching his home at Pittsburgh. While going to Flagstaff, 60 miles from Verde, he was overtaken by one of the fierce snowstorms common to that region, which lasted four days and four nights. For three days and nights he was without food. On the morning of the fifth day he succumbed and dropped in the snow, almost at the threshold of a trapper's cabin. The inmate carried him in and succeeded in resuscitating him. Acton was terribly frozen, his hands and feet being black. He arrived in Pittsburgh on Friday of last week, reaching home alive after his terrible experience.

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The leave on Surgeon's certificate granted 2d Lieut. James D. Mann is extended two months on Surgeon's certificate (S. O., March 5, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Maj. John A. Wilcox will be relieved from duty at Fort Clark, Tex., and will proceed to Fort Ringgold, Tex., and take station and command (S. O. 19, March 4, D. Tex.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

On the adjournment *sine die* of the G. C. M. at Fort Du Chesne, Utah, Major Frederick W. Benteen (in arrest), will proceed to Fort Douglas, Utah, and report to await further orders (S. O. 21, March 1, D. Platte.)

Leave for one month, to take effect upon the arrival of his commission as Captain, with permission to apply for an extension of two months, is granted 1st Lieut. John Conline, Fort Niobrara (S. O. 26, March 3, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

A furlough for two months is granted Sergt. Henry Robinson, Troop C (S. O. 24, Feb. 28, D. Ariz.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

Capt. Joseph P. Sanger, A. D. C., will proceed to Albany, N. Y., and make an inspection of the penitentiary at that place used as a military prison (S. O. 48, March 8, Div. A.)

The C. O. Fort Canby will grant a furlough for forty-two days to Sergt. Charles F. B. Zimmerman, Bat. D (S. O. 32, Feb. 23, D. Columbia.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

The following appointments are announced: 1st Lieut. H. R. Lemly to be Reg. Adjt., vice 1st Lieut. J. D. C. Hoskins, assigned to Light Bat. C.; 1st Lieut. C. B. Satterlee to be Reg. Quartermaster, vice 1st Lieut. Sedgwick Pratt, assigned to Bat. A. In thus severing, in obedience to the imperative orders of the War Department, the official relations which have for three years existed between them, the Colonel of the regiment tenders to Lieuts. Pratt and Hoskins his sincere thanks for their zealous, efficient and thorough discharge of their respective duties, and he trusts that their future professional and personal success may be commensurate with their deserts and faithful services. (Orders 14, 3d Art., March 6.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

1st Lieut. Crosby P. Miller, on duty at the Artillery School, Fort Monroe, will report, March 31, to the C. O. 4th Art., Fort Adams, for duty as Regimental Quartermaster (S. O., March 5, H. Q. A.)

Leave for twenty days is granted Capt. John P. Story, Fort Warren, Mass. (S. O. 49, March 9, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, H, and M, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; E, Ft. Schuyler, N. Y.; K, Ft. Wood, N. Y. H.
* Light battery.

Leave for two months on Surgeon's certificate is granted 2d Lieut. Robert G. Procter, Fort Schuyler, N. Y. H. (S. O. 48, March 8, Div. A.)

The leave for one month on Surgeon's certificate granted 2d Lieut. Avery D. Andrews, Fort Columbus, is extended fourteen days on account of sickness (S. O. 49, March 9, Div. A.)

The troops of the 5th Artillery at Fort Hamilton are to take part this year in the memorial parade at Brooklyn.

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

Leave for two months, with permission to apply for an extension of one month, is granted Lieut.-Col. Joshua S. Fletcher, Jr., Fort Omaha, Neb. (S. O. 28, March 9, Div. M.)

Leave for one month on Surgeon's certificate is granted 1st Lieut. William R. Abercrombie, Fort Omaha, Neb. (S. O. 28, March 9, Div. M.)

In Orders 16, of March 3, Col. Frank Wheaton relieves 1st Lieut. C. W. Rowell as Adjutant and 1st Lieut. S. E. Clark as R. Q. M., in accordance with late regulations, and says: "In severing the close and agreeable official relations that have existed between me and Lieuts. Rowell and Clark, who have for nearly nine and twelve years, respectively, so

admirably served as Adjutant and Quartermaster of this regiment, its commander desires to record in this public manner his high appreciation of these officers' high character and ability as officers and gentlemen." 1st Lieut. Luther S. Ames is appointed Adjutant, and, subject to the approval of the Secretary of War, 1st Lieut. John Kinzie is appointed Quartermaster of the 2d Infantry.

A handsome roster of non-commissioned officers, 2d Inf., dated March 1, has been received through the courtesy of Sergt.-Major Staser. There are many veteran non-commissioned officers on the list, with warrants dating back as far as 1872.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Col. John R. Brooke, Fort Shaw, will be governed by the subpœna served on him to appear, on March 11, at the term of the U. S. District Court, in Helena, M. T., as witness in the case of the U. S. v. John H. Buttolph, *et al.* (S. O. 16, March 1, D. Dak.)

Leave for one month is granted Major George E. Head, Fort Missoula, M. T., to take effect about March 25 (S. O. 17, March 4, D. Dak.)

Leave for six months on Surgeon's certificate is granted 1st Lieut. John H. H. Peshine (S. O., March 7, H. Q. A.)

At a meeting of the members of Co. E, 13th Inf., at Fort Stanton, N. M., March 1, 1887, upon the occasion of the sudden death upon that date, by apoplexy, of their captain (Sergt. H. B. Fletcher, chairman; Pvt. Edw. A. Kohl, secretary), the following resolutions were passed:

Whereas, It has pleased the Almighty God to remove from us our beloved Captain, H. C. Pratt, 13th Inf., and

Whereas, As our company commander he at all times made our welfare a particular object of his care:

Resolved, That in his death the Service has lost a brave, efficient, and accomplished soldier, the country an earnest patriot, and we, the members of Co. E, 13th Inf., a commander so devoted to his duties as such, as to endear him to each and all of us.

Resolved, That we sincerely deplore his death, deeply sympathize with his family in this their hour of affliction, and that a copy of these resolutions be tendered Mrs. H. C. Pratt, as a token of the esteem in which her late husband was held by those under his command.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Sergt. Dennis Lyons, Co. A, will return to Fort Townsend (S. O. 32, Feb. 23, D. Columbia.)

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The thermometer at Fort Maginnis, Mont., on Feb. 28, stood at 51 below, with a southwest wind blowing 34 miles an hour.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch from Nogales reports a conflict between some Mexican troops and a deputy sheriff and others, the Mexicans having entered the United States to release, as it was said, a Mexican supposed to be held as a prisoner. The despatch says: Acting U. S. Consul W. B. Grozclose has made a demand upon the Mexican authorities for Lieut. Guitterez, the aggressor. Gov. Jones has been advised of the situation, and is expected to-morrow. Gen. Miles has been requested by the U. S. Attorney at Tucson to send troops immediately. The captain of the Home Guards at Crittenden has been requested to forward all available arms and 1,000 pounds of ammunition for the arming of the citizens.

A later despatch says: Gen. Miles received a telegram, March 6, from Capt. Lawton, saying that troops were encamped near Nogales, but that he anticipated no trouble. The Mexican authorities regret the outrage committed by Lieut. Guitterez and the four Mexican soldiers, and have arrested all the offenders but one, and turned them over to the American civil authorities.

A despatch from Benson says: "Small pox has broken out among the soldiers of the 10th Cavalry, who are under command of Lieut. Johnson, at Muscal Springs, in the Whetstone Mountains, where a quarantine is in existence against them."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Aspinwall March 7.

The prospective cruise is given as follows: Bermuda, Martinique, St. Lucia, Barbadoes, Trinidad, Curacoa, Cartagena, Aspinwall, Port Cortez Cienfuegos, Kingston, Santiago, Nipa, Neuvitas, Matanzas, Havana, Key West, returning to Fortress Monroe about May 1. All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York Navy-yard.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at St. Thomas, W. I., Feb. 24. Letters will reach the vessel if sent not later than March 18 to Port au Prince, and not later than March 28 to Santiago de Cuba.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, Feb. 5, all well, and will probably sail, March 1, for St. Helena. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Maldonado, Uruguay, Jan. 1.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. c. s.), Captain George Dewey. At Athens, Greece, Feb. 11.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Maderia, Feb. 22, and would sail for Gibraltar March 1.

Pacific Station—Commodore J. H. Gillis
(in temporary command).

Rear Admiral L. A. Kimberley is ordered to command, and leaves per steamer of April 1.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Arrived at Mazatlan, Mexico, March 8.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. At Panama February 7. Will sail northward from Colon, in compliance with Department instructions, as soon as stores arrive from New York, which were expected Feb. 8.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Talcahuano, Chile, Feb. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. At Valparaiso, Chili, Jan. 8.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Is en route for Panama from Valparaiso, and will probably arrive about the 25th of the present month.

A report just received by the Chief Constructor of the Navy, from the Commanding Officer of the *Mohican*, under date of Dec. 31, 1886, states that she steams, with half boiler power, in good weather, 200 miles per day, on a consumption of 13 tons of coal, using seven boilers. Her maximum speed under full steam is given as not less than twelve knots, nor less than eleven knots for a continuous run. Dec. 4 last, close hauled under all plain sail, sea smooth, 49.8 knots in five hours, a considerable part of it being done at the rate of 10.5 knots. The distance was measured by patent log. The chip log cast gave her 10.8 knots. With the wind on the quarter, under single reefed topsails and top-gallant sails, she made, without the aid of steam, 12.6 knots.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Mail matter will reach this vessel quicker by sending them direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Valparaiso, Chili, Jan. 12.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Singapore Jan. 28. Expected at Yokohama about April 1.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, Japan, Feb. 10.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Feb. 10.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, China, Feb. 10.

OMAHA, † 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Feb. 10.

OSSIPEE, 3d rate, 8 guns, ——————
At Norfolk, Va. Will be refitted for service. Her old officers and crew were detached March 7, and a new set will be ordered.

PALOS, † 4th rate, 6 howitzers, Commander T. Nelson. At Tientsin, China, Feb. 10. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Trinidad Feb. 21. After target practice in gulf of Paria will probably go to St. Kitts.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will probably go to St. Kitts.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will go to St. Kitts.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York, undergoing slight repairs, and when ready she will proceed on a cruise to the Spanish main, surveying the Lake and Port of Maracaibo, Venezuela, with their approaches.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Feb. 10.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about March 30. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission some time in March. It is not known at present where she will be ordered.

VARIOUS NAVAL ITEMS.

THE Naval board on life-saving boats have suspended their meetings for the present. The board will continue in existence until late in the spring, when experiments with life-boats and rafts will be practicable.

THE Naval Bureau of Ordnance is still engaged in the preparation of a circular prescribing the conditions upon which torpedo inventions will be received and tested. It is expected that the circular will be issued in a few weeks.

CAPTAIN WALKER, Colonel Remey, and Chief Clerk Hogg, have been constituted a board to revise the Navy Register. They will complete their work this week, and the Secretary of the Navy will then determine whether a new edition shall be printed or those already printed shall be issued.

A QUESTION has arisen as to whether the line officers of the Navy or the paymasters are the proper persons to make purchases. A carefully prepared opinion on the subject will soon be issued reviewing all the laws on the subject of purchases, and showing clearly that the right to purchase rests entirely with the pay corps.

THE friends of the Naval War College will be glad to learn that the failure of the appropriation for the construction of quarters, etc., will not interfere with the course of lectures to be delivered next fall. The building is in sad need of repairs, but the instructors and the officers attending the lectures will have to put up with the inconvenience incident to a life in a leaky, dilapidated old building. It is expected that the lectures and torpedo instructions will extend over a full academic term, opening in September next.

THE construction work on the Roach cruisers has been suspended to await the decision of Secretary Whitney as to whether any available fund can be used for the purpose. The Engineer officers have enough money to pay for labor, but none for materials. The Department still has under consideration the question of what money can be used for the completion of the cruisers, and will doubtless fortify itself with an opinion from the Attorney-General.

THE new issue of Naval Register will contain brief of record of each officer.

CAPT. MCCANN will probably be ordered to the command of the Boston Navy Yard.

SECRETARY WHITNEY has prepared a statement denying truth of the rumor that the United States has purchased from English Naval people plans for a 6,000-ton vessel.

THE board of which Commander Robley D. Evans, U. S. N., is president, has issued its circular prescribing tests for the steel to be used in the new cruisers designed by the board of officers of which Captain Walker was president.

THE Government has notified the Herreshoffs that the *Stiletto* will be purchased by the Navy Department as soon as the appropriation of $25,000 made by Congress is available. Meanwhile the vessel will be put in complete order for the transfer.

CAPT. SCOTT, British Navy, commander of the cruiser *Acadia* and Admiral of the fisheries protection fleet, has arrived at Ottawa to confer with Minister Foster regarding the advisability of increasing Canada's navy by the addition of several swift steamers.

A LETTER received by the Chief of the Bureau of Equipment and Recruiting from Admiral Davis, this week, reports the officers and crew of the Training Squadron in good health and everything going well. The squadron will leave for Trinidad in a few days, to go through the prescribed manœuvres, and will thence cruise east, arriving at Newport about May 1.

THE Navy Department are awaiting with a good deal of interest to see what will be the result of their application for proposals for supplying armor and gun steel for the new cruisers. The bids are to be opened on the 22d of March, when we shall know definitely whether our manufacturers are prepared to meet the requirements of the Department. A consultation was held at the Department on the 8th of March between representatives of the Midvale Steel Company, the Secretary and the chiefs of bureaus as to the form of contract which successful bidders would be required to execute. The time for presenting the bids has been extended one week.

"CIVIL ENGINEER A. G. MENOCAL, of the Nicaragua Inter-Oceanic canal enterprise," says the New York *Tribune*, "has returned to Washington after a day's business visit to New York. He was asked about the recent attack of Count de Lesseps on the Nicaragua scheme, especially with reference to the action of fresh water on ships, and replied that the force of the attack indicated the animus of it. 'The theory and argument are both susceptible of refutation and do not require any reply at the present time,' said he. 'It is ground that has all been carefully gone over before, and there is nothing in the objections raised by the Count that has not already been successfully met with the papers presented to Congress.'"

THE daily newspapers have stirred up a tempest in a teapot on the subject of the betrayal to the American Legation in London of Admiralty secrets by an employee in a dockyard named Terry. The American Minister, Mr. Phelps, has thought it necessary to explain that the secrets reached America through a private channel, information having been furnished by a man in the north of London to whom Terry sold the confidential specification for the manufacture of a new torpedo appliance still in the draughtsman's office awaiting approval. The matter is to be made the subject of an enquiry in Parliament. The fact is that the Englishmen have been for a long while dependent on American publications for information in regard to their own Navy, and such works as that of Chief Engineer King give a more complete description of English naval constructions than can be obtained from any English publication.

UNDER the circular issued in August last to marine architects, engineers, manufacturers, naval officers, and other experts, offering $15,000 each for the best designs for the 6000-ton armored cruisers and 6000-ton armored battle ship, designs have been received at the Navy Department from Naval Constructor Pook and Draughtsman Geo. F. Frothingham, jointly; Lieut. W. D. Chambers, Capt. Norton, the inventor of the Norton lifeboat, and Capt. L. N. Towns, naval architect and shipbuilder of New York. Several designs are expected through the U. S. Legation at London. Commander Chadwick is now on his way home from there and it is supposed has a large stock of plans and information to be used in connection with the new ships, in addition to designs submitted for formal competition. As soon as the plans are all in it is expected that a special board will be appointed to examine them. In case none of those submitted by outsiders prove satisfactory the Department will have the Bureau designs, which are now in course of preparation, to fall back upon Comdr. Chadwick may also bring home something that may prove useful.

NAVY GAZETTE.

Ordered.

MARCH. 2.—Lieutenant F. P. Gilmore, to duty as inspector of steel for the new cruisers under instruction from Commander Evans.

Lieutenant Harry Knox, to temporary duty in Bureau of Navigation.

MARCH 5.—Chief Engineer John P. Kelly, to the Atlanta.

Assistant Surgeon Frederick W. Olcott, to the Minnesota.

MARCH 7.—Commodore Lewis A. Kimberly, to command the Pacific station, per steamer of April 1 next.

Lieutenant Charles E. Vreeland, to duty in the Bureau of Navigation April 15.

Paymaster George H. Read, Chief Engineer Benj. F. Wood, P. A. Engineer Ralph Aston and Cadet Engineer Andrew McAllister, to the Ossipee.

MARCH 8.—Ensign B. C. Dent, to the Coast Survey.

Assistant Engineer Wm. F. Durand, to duty at the Worcester Free Institute.

MARCH 9.—Commander J. O'Kane. Lieutenant-Commander James G. Green and Lieutenant W. T Swinburne, to examination for promotion.

Lieutenant J. D. Adams, to the Vermont.

P. A. Surgeon J. W. Steele, to the Naval Hospital, Philadelphia.

Detached.

MARCH. 2.—Naval Cadet Walter W. Joynes, from the Richmond and placed on sick leave.

MARCH 5.—Commander John F. McGlensey, from the command of the Ossipee and placed on waiting orders.

Lieutenant-Commander Wm. B. Newmann, Lieutenants John A. Rodgers, Wm B. Caperton and W. E. Sewell, Ensigns Valentine S. Nelson, Benj. W. Hodges and Philip V. Lansdale, Surgeon Abel F. Price, P. A. Surgeon A. C. H. Russell, Chief Engineer L. W. Robinson, P. A. Engineers W. S. Moore and W. L. Catheart, Assistant Engineer C. G. Talcott and Carpenter W. H. Barrett, from the Ossipee and placed on waiting orders.

Paymaster L. A. Frailey, from the Ossipee, ordered to settle accounts and then wait orders.

MARCH 7.—Lieutenant-Commander Jos. E. Craig, from the Vandalia on her arrival at Panama and ordered to take passage on the first steamer for Yokohama, Japan, and on arrival to report for the command of the Palos.

Captain James H. Gillis, as member of the board of inspection at San Francisco and await orders.

Assistant Engineer R. T. Hall, from the Navy-yard Norfolk and ordered to the Ossipee.

MARCH. 8.—Ensign Simon Cook, from the Coast Survey and granted three months' leave.

MARCH 9.—Lieutenant D. L. Wilson, from the Hydrographic Office and granted three months' leave.

Leave.

The sick leave of Chaplain Geo. A. Crawford is extended one year.

Changes on the European Station.

Lieutenant Aaron Ward, detached from the Iroquois and ordered to the Monongahela.

MARINE CORPS.

MARCH. 8.—1st Lieutenant H. G. Ellsworth, detached from the Marine Barracks, Brooklyn, N. Y., and ordered to proceed to Norfolk, Va., and report for duty as the officer detailed to command the (new) guard of the U. S. S. Ossipee.

2d Lieutenant C. H. Lauchheimer, detached when the U. S. S. Ossipee's guard has been transferred to the Marine Barracks, Norfolk, Va., and granted leave of absence for one month with permission to apply for an extension.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending March 9, 1887:

John Carr, ship's barber, attached to U. S. R. S. St Louis, died Feb. 26, at Philadelphia, Pa.

Frederick A. Grass, corporal, U. S. Marine Corps, attached to U. S. S. Michigan, died March 6, at Erie, Pennsylvania.

TO THE STEEL MANUFACTURERS OF THE UNITED STATES OF AMERICA.

NAVY DEPARTMENT,
WASHINGTON, March 10, 1887.

THE time fixed by the Department's advertisement dated August 21, 1886, for receiving proposals for steel gun-forgings and armor-plates, which, by the Department's order dated November 6, 1886, was extended to 12 o'clock noon, March 15, 1887, is hereby further extended to 12 o'clock noon, March 22, 1887, at which hour the opening of the bids will take place. WILLIAM C. WHITNEY, Secretary of the Navy.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., March 9, 1887.

THE entertainment given at the residence of Commander Sampson, on Thursday last, was very successful, both socially and as a financial aid to the fund for charitable purposes. Nearly all the officers and their families were present, but no cadets were allowed to attend, as it would have interfered with the regular routine of study.

On Saturday afternoon the dancing class, composed of the younger sons and daughters of officers in the yard, gave an entertainment in the gymnasium. The programme consisted in great part of fancy dancing, and with their odd costumes the young people presented a gay appearance.

There was no "stag" hop at the gymnasium on Saturday evening, as cadets were not granted the use of the band, their services being needed at the entertainment given in the afternoon.

Cadets of the first and second classes were excused from study hours on Friday evening and allowed to attend a meeting of the Naval Institute for the purpose of hearing a lecture delivered by Mr. Edson, of New York, on the subject of Pressure Gauges.

The principal event of the week is that attending the order of the Superintendent, read to the battalion of cadets on Tuesday. Hereafter cadets of all classes and divisions will have their quarters in the new building, now occupied by the second, third and fourth divisions of cadets. Moreover, cadets will be divided on the different floors by classes. The first class will occupy all the front rooms of the first floor. Cadet officers will be allowed to select their rooms according to their rank; other members of this class will draw rooms by lot. Members of the second class will occupy the front rooms of the second floor, and will draw places by lot. Members of the third class will occupy the front rooms of the fourth floor, and fourth class will be divided among the back rooms on the first and second floors. The companies will probably remain unchanged. Each cadet must select a room mate, while formerly, owing to excess of rooms, some have been allowed to room alone.

Because of the bad weather the out-door drills have been postponed. The cadets were notified that there would be a seamanship drill on the *Wyoming* on Saturday. The first class have practical work on Deviation of the Compass, on the Monitor and at the Phlox's wharf. The second class are exercised with broadswords, the third class drill with pivot guns on the *Wyoming*, and the fourth class have infantry in the armory.

The resignations of Cadets H. W. Williams and Mason, of the fourth class, were accepted during the past week.

Miss Ricketts and Miss Thom, of Washington, have returned from their visit with Mrs. Lieut. Wood.

Miss Tatt of Providence, R. I., is visiting with Mrs. Lieut. Miller.

The parents of Cadets Ryan, J. P. J., and Ryan, E. D., of the fourth class; also of Cadet Kennedy, of the third class, have been visiting them during the past week.

REVENUE MARINE.

The U. S. R. M. S. *Dix* was at New Orleans, La., March 2. Her repairs are about finished, and she was to leave in a few days for Galveston, Texas.

Names and Stations of Revenue Cutters.

Alert, 2d Lieut. E. C. Chaytor, Elizabeth City, N. C.
Bear, Capt. M. A. Healy, San Francisco, Cal.
Bibb, Ogdensburg, out of commission.
Boutwell, Capt. W. S. Simmons, comdg, Savannah, Ga.
Chase, Capt. L. G. Shepard, comdg, New Bedford, Mass.
Colfax, Capt. J. B. Moore, comdg. Wilmington, N. C.
Corwin, Lieut. J. W. Howison, Astoria, Oregon.
Crawford, Capt. A. A. Fenger, comdg., Key West, Fla.
Coxe, 1st Lieut. W. C. Coulson, comdg, Philadelphia, Pa.
Chandler, 1st Lieut. H. D. Smith, comdg, New York.
Dallas, Capt. Frank Barr, comdg, Portland, Me.
Dexter, Capt. L. N. Stodder, comdg, Newport, R. I.
Dix, Capt. H. T. Blake, comdg, New Orleans, temp'y.
Discover, Engineer E. P. Webber, Savannah, Ga.
Ewing, Capt. T. W. Lay, comdg, Baltimore, Md.
Fessenden, Detroit, Mich., out of commission.
Forward, Capt. M. L. Phillips, comdg, Mobile, Ala.
Gallatin, Capt. C. A. Abbey, comdg, Boston, Mass.
Grant, Capt. A. B. Davis, comdg, New York.
Guthrie, Lt. George Williams, comdg, Baltimore, Md.
Hamilton, Capt. Eric Gabrielson, comdg, Norfolk, Va.
Hamlin, 1st Lieut. J. A. Slamm, comdg, Boston, Mass.
Hartley, 2d Lt. Albert Buhner, comdg, San Francisco, Cal.
Hawley, 2d Lieut. C. T. Brian, Mobile, Ala.
Johnson, Milwaukee, Wis., out of commission.
McCulloch, Capt. J. C. Mitchell, comdg, Charleston, S. C.
McLane, out of commission.
Manhattan, Lieut. D. F. Tozier, Whitestone, N. Y.
Penrose, 2d Lieut. O. S. Willey, comdg, Galveston, Tex.
Perry, Erie, Pa., out of commission.
Report, 2d Lt. J. F. Wild, comdg, Chincoteague, Va.
Rush, Capt. C. L. Hooper, at San Francisco, Cal.
Stevens, Lt. W. H. Hand, comdg, New Berne, N. C.
Seward, Capt. J. H. Parker, comdg, Shieldsborough, Miss. P. O. address: Bay St. Louis, Miss.
Search, 2d Asst. Eng. C. W. Munroe, in charge, Balt., Md.
Saville, out of commission.
Vanderbilt, 1st Lieut. C. F. Shoemaker, in charge, Centre, Moriches, L. I.
Woodbury, Capt. E. L. Deane, comdg, Eastport, Me.
Wolcott, Capt. Russell Glover, comdg, Port Townsend.
Washington, Lieut. J. W. Congdon, comd'g, New York.

STATIONS OF COAST SURVEY VESSELS.

W. H. Brownson, Lt. Comdr. U. S. N., Hydrographic Insp'r, Coast and Geodetic Survey Office.
Lt. J. M. Hawley, U. S. N., Coast and Geodetic Survey Office.
Lt. Geo. H. Peters, U. S. N., Coast and Geodetic Survey Office.
Ensign E. H. Tillman, U. S. N., Coast and Geodetic Survey Office.
Ensign W. H. Maxwell, U. S. N., Coast and Geodetic Survey Office.
P. A. Paymaster J. N. Speel, U. S. N., Harrisburg, Pa.

Steamer *A. D. Bache*, Lieut. J. F. Moser, U. S. N., commanding. Address Cedar Keys, Fla.
Steamer *G. S. Blake*, Lt. J. E. Pillsbury, U. S. N., comdg. Address Key West, Fla.
Schooner *Eagre*, Lieut. Chas. P. Perkins, U. S. N., comdg. Address Navy-yard, N. Y.
Schooner *Earnest*, Lieut. C. T. Forse, U. S. N. Address Box 219, Olympia, Wash. Ter.
Steamer *Gedney*, Lieut. F. H. Crosby, U. S. N., comdg Address Navy-yard, New York.
Steamer *Hassler*, Lieut. Comdr. Chas. M. Thomas, U. S. N., comdg. Address Box 2402, San Francisco, Cal.
Steamer *M'Arthur*, Lieut. J. C. Burnett, U. S. N., comdg. Address Navy Pay Agent, San Francisco, Cal.
Steamer *Patterson*, Lieut. Comdr. A. S. Snow, U. S. N., comdg. Address Navy-yard, Mare Island, Cal.

THE QUESTION OF ARMOR.

Forged Steel Plates and Compound Metal Plates of Combined Iron and Steel for Armor of Ships.

To the Editor of the Army and Navy Journal:

A FEW English scientific periodicals, among them *Engineering*, have lately commenced a regular campaign in favor of forged steel plates for the armor of ships, and have tried to establish their superiority over the compound plates of combined steel and iron. Other newspapers, *The Engineer*, particularly, have opposed these attacks, and they have easily demonstrated that their position is the correct one.

The whole truth, however, was not told, and in order to elucidate the question, it is necessary to present with precision certain facts. The forged steel plates for armor are manufactured in France, by the Creusot Works. The successive phases of their manufacture are the following:

1st. The running off by means of the Siemens furnace, of an ingot proportionate to the weight required for the plate, when finished; about 55 to 60 per cent. are utilized.

2d. The heating of the mass in gas furnaces and the forging of the plate under the 80-ton block hammer.

3d. The shaping either by hammering or with the hydraulic press, followed by annealing in a coal furnace.

4th. The trimming either with a planer or the saw when the metal is cold.

5th. A first verticle oil-tempering at a high temperature, followed by another tempering at a lower temperature, and often by annealing.

6th. The finishing up of the plate by the planing off of the end.

The first contract for forged steel plates made by the French Government with the Creusot works bears date of July 19, 1880, and applies to the furnishing of the armor ship, *Le Terrible*. Since then Creusot has obtained orders for the armor of the *Furieux*, of the *Amiral Baudin*, of the *Formidable*, of the *La Grenade*, of the *Fusée*, and lastly for plates of various thickness, destined to the trial of projectiles.

The whole of these contracts forms a total of about 8,500 tons. How has all this work been produced and what result has it given?

In order to obtain a clear account of it it will be sufficient to examine the work done for the first armored ship, *Le Terrible*, and also for the manufacture of the last plates ordered, which are destined to be used in the tests of the forged projectiles. The supply required for the *Le Terrible* consisted of five lots, comprising 90 plates, weighing altogether 1,700 tons.

Conformably to the terms of contract of the French Government, each lot was submitted to a trial at Gâvres, and the report about the five test plates was the following:

1st lot. Very satisfactory; 2d lot, passable; 3d lot, very satisfactory; 4th lot, passable; 5th lot, passable.

The trial tests were, therefore, not bad; but to obtain such results the establishment, besides substituting plates for the test plates, was obliged to manufacture 108 plates to be able to deliver the 90 wanted. There were 18 of them rejected, all having *tapures* or cracks. This designation is given to internal fractures often invisible on the surface but affecting the entire thickness of the plate, which consequently they divide into several fragments. These 18 cracked plates were divided as follows:

1st lot. Two plates which broke after having been stored at Brest and almost at the moment of being placed on board the ship.

2d lot. Four plates, one of which cracked at Brest, like the two preceding ones, and the three others cracked at Creusot during the manufacture.

3d lot. Six plates, one of which cracked at Brest, like those of the first and second lots; the five others having cracked at the moment of being forwarded.

4th lot. Four plates, two of which cracked in the course of manufacturing, and two while being worked.

5th lot. Two plates, one of which cracked at Brest, like those of the first, second and third lots, and the other cracked at the moment of being forwarded.

The fact that this number of plates cracked, more than one-fifth of the delivery, and the conditions under which these accidents occurred, several plates having cracked when being shipped, created a commotion among navy officers and a commission of investigation was formed and instructed with the examination of the facts and the right of altering if necessary the conditions of the contract.

The commission went to Creusot, and there caused to be broken with the stamp, in their presence, one plate having a crack at one of its corners. Then, to their great astonishment, they ascertained that besides the fracture which had been apparent, the plate had others affecting its centre without reaching the surface. Therefore it was to be feared that plates had been accepted looking sound externally, although broken internally. In order to provide, as much as possible, against such eventuality the commission proposed and the Minister prescribed a supplementary trial of all the forged steel plates, to consist of raising horizontally the finished plate, to the heighth of two metres and then letting it fall upon a cast iron floor. This trial, called the "Fall Test," having been applied to all the plates which followed those provided for the *Le Terrible* caused the rejection of several, without giving, however, absolute security to the Navy.

To avoid this mortification Creusot modified the process of manufacture by softening their metal. Then at the Gâvres trials, in consequence of the deeper penetration of the projectiles, the plates of the said establishment did not obtain any more the report "very satisfactory," which had been given to some of the first and third lots of the *Le Terrible*. For the fifteen following lots the mention "satisfactory enough" had replaced that of "just passable," and notwithstanding such modification there were many rejections.

Lately a circumstance induced Creusot to harden again their steel; it was when they received orders for the plates to be used in the trials of forged and tempered projectiles. These projectiles of all calibres are received only after one of them is taken from a lot of 150 to 200 and has passed, whole and without any fracture, through a forged steel armor plate having a thickness at least equal to its diameter.

Creusot not being manufacturers of this class of projectiles, they brought every possible influence to bear to oppose them. Here are the results obtained by them:

1st. Contract of Dec. 8, 1884, comprising five plates, 30 centim., and five plates 25 centim. thick. A plate 25 centim. was selected for the trial of this lot. It was received on July 20, 1885, at Gâvres, with the report "Middling," just saving rejection. After that trial the fall test took place, which caused the breaking of four plates, the fractures of which were not apparent at the surface, viz., two plates of 30 centim. and two plates of 25 centim. These four plates corresponding to 40 per cent. of the delivery were replaced.

2d. Contract of July 6, 1885, comprising nine plates, 40 centim. thick. Contrary to what had been practiced for the contract of Dec. 3, the trial plate was not chosen before the fall test. Of the nine plates manufactured three were rejected, because of cracks which occurred during the working of them,

and two were rejected after the fall test. These five plates were replaced by others. Then was selected the test plate, which was rejected at Gâvres after the firing practice.

The establishment was authorized to work over again the remaining lot of eight plates by subjecting them to a new tempering. Of these eight plates, three were broken by the fall test, which revealed some cracks not apparent on the surface. There remained four plates which are to be replaced. The test plate will be taken only when finished. To recapitulate: of a lot of nine plates ordered, nine were rejected, one of them at the firing test and eight others for cracks. The entire order is to be made over again or remain suspended.

3. Contract of March 1, 1886, comprising seven plates, 55 centim. thick. No test plate has yet been selected, but already four plates have cracked and the fall test is not finished.

4 Contract of March 8, 1886, comprising two plates 12 centim. thick, three plates 16 centim. thick, two plates 20 centim. thick. These plates being of less thickness, the cracks have been less numerous, but the test plate, taken from the three plates, 16 centim. thick was rejected at Gâvres.

Such is the final result of the last operation of Creusot. From it must be inferred:

1. That the steel plate even made with metal relatively hard, containing a proportion 4-1,000ths of carbon, and 5 to 6 1000ths of Manganese., frequently cracks, either at the forging, or at the tempering, or after being worked, often without the possibility of developing the fractures which are not apparent externally.

2. That said plates are easily pierced by steel projectiles of all calibres.

3. That when it is attempted to harden the metal, in spite of all the skill of the establishment and the experience in that sort of manufacture, cracks are so frequent that the proportion of rejections renders this almost impossible.

The forged steel plate is not, therefore, the armor of the present; still less so, the armor of the future. The compound plate, of combined steel and iron, is the armor of the future. The manufacture of the compound plate, to which are devoted several establishments: Messrs. Morrell Bros.; Les Forges de la Marine at St. Chamond and La Société de Chatillon and Commentry, is similar to that of the steel plate. The manufacture consists in:

1. Rolling an iron plate, or base of the quality used for tires, and of a thickness equal to that of the plate when finished.

2. Placing on the base the side bars, which are to retain the steel to be welded to it.

3. Heating the base, either in a gas furnace or a coal furnace.

4. Taking the base out of the furnace and placing it vertically in an ingot mould.

5. Running off the steel into the space existing between the plate, side bars, and the fore part of the ingot mould, giving to the steel the thickness of 35 to 40 per cent. of that of the base.

6. Bringing back the plate to its original thickness, by means of successive rollings and heatings.

7. Forming, annealing, and working the plate thus obtained.

Experience demonstrates that when the operation is well conducted, the welding of the steel to the iron is complete. The steel presents sometimes superficial blow holes and scales, but never any internal crack, as the compound plate is neither forged nor tempered, but simply rolled and annealed; and as the steel has only 35 per cent. of its total thickness, it is well understood that it must be so.

Then the manufacturers, having no fear of producing internal fractures, are enabled to increase almost indefinitely the hardness of the metal plate, which in the compound plate is destined to resist the shock of the projectile. This is why the steel of the compound plate, which at first contained only 7-1000ths to 8-1000ths of carbon and 7-1000ths to 9-1000tns of maganese, has these proportions raised progressively up to 9-1000ths to 11-1000ths of carbon and 9-1000ths to 11-1000ths of manganese. It contains thus, a quantity of carbon and manganese, three times larger than that which can possibly be introduced into the steel of the forged plates.

Consequently, the harder the projectile was made, the more evident became the superiority of the compound plate over the steel plate, which was sufficient against the cast iron projectiles, but was perforated by the projectiles made of tempered forged steel.

The reports of Gâvres are to establish these facts: On the 16,500 tons of compound armor plates, ordered for the French Navy, the report "Very satisfactory" was obtained four times, and the report "Satisfactory" was given to most of the other lots; and this when Creusot had two lots rejected, and could not, after softening their metal, obtain even once the report "Very satisfactory," and obtained only six times in fifteen trials the report "Satisfactory." The conditions governing the trials between the compound plates and the forged steel plates give an advantage, however, to the latter. It is true that the firing is made with the same projectiles and at the same velocity, but the selection of plates is not made under conditions which can be compared. In the mode of manufacturing the steel plate, there is no incident which could enable the Navy officers to determine whether one plate is sensibly better than another. It may be said that the test plate is selected at random and represents well the average value of the lot. In the manufacture of the compound plates, on the contrary, the smallest defect may be examined and understood in any one of the operations; for instance, if anything has retarded the plate in coming out of the furnace or if occasioned at the running off of the steel. The plate having the appearance of such accidents is always selected for trial by the Navy officer; so that, at Gâvres they do not experiment with the compound plates of an average value, as is done with those of forged steel, but always with plates having the minimum of resistance; that is to say, the poorest of the lot.

Therefore, if, in spite of this unpropitious condition, the compound plates obtain reports at least equal to those of the best steel plates, it is to be inferred that, on the whole, their quality is greatly superior. The compound plate, which is without internal cracks and offers a greater resistance to the piercing shots, is therefore the plate of the present. Let us see whether it will be the plate of future.

It is necessary that the plate of the future, in order to give to ships an absolute perfection, resist the projectiles of tempered forged steel, produced to-day by several establishments, particularly by the forgers of St. Chamond. To obtain this result it is indispensable that the hardness of the steel of the plate approach the hardness of the steel of the projectiles.

But the last productions of Creusot, which have given broken plates in the proportion of 50 to 80 per cent. either at the forge or at the tempering, have demonstrated the impossibility of producing steel armor, containing more than three to four thousandths of carbon and five to six thousandths of manganese. In this direction no improvement is to be realized. Steel, even tempered at a very high temperature, will be always relatively soft. On the contrary, the compound plate, which is only annealed and never presents internal cracks, favors wonderfully all the combinations.

Steel can be hardened, as it has been said before, by increasing the proportions of carbon and manganese or by adding to the metal certain material, as the Chromium, the Tungsten, which are the principal ingredients in the manufacture of the piercing projectiles, giving them their exceptional quality. In this way all is possible, and it may be said all is easily obtained.

At the time this memorandum is written the best mixture for the steel of the compound plate is perhaps already found. It is a problem to be speedily solved, at any rate.

The compound plate, which is the plate of the present giving alone complete security, is therefore the plate of the future.

The French Government, which at the start had an infatuation for the forged steel plate, is now inclined to renounce its first impression. Since 1880 the said government has ordered 16,500 tons of compound plates for armor, against 8,500 tons of steel plate.

The last manufactures of Creusot, which caused such serious misreckonings, are of such a nature as to convince the most prejudiced minds. The trial shots soon to be fired against compound plates made with Chrome steel or Wolfram steel will destroy the illusions of the last defenders of the forged steel plates; and the powers which, like Italy, have had the imprudence of armoring their ships with soft steel will some day regret bitterly their hasty decision, so little justified. L. W.

STEEL: ITS PROPERTIES AND ITS USE IN HEAVY GUNS.

THE next number of the Transactions of the American Society of Civil Engineers will contain the paper read before the Society on the 2d of March, by Wm. Metcalf, one of its members, and with it will be given a full report of the discussion upon the paper. To the Secretary of the Society, Mr. John Bogart, we are indebted for an advance proof of Mr. Metcalf's paper. Its title is "steel: its properties; its use in structures and in heavy guns." Under this last head Mr. Metcalf says:

All who read the admirable and temperate remarks of Lieut. R. R. Ingersoll, Captain Rogers Birnie, Jr., and Lieut. Austin M. Knight, must be convinced that these gentlemen have studied their subject thoroughly in regard to the properties necessary to a good gun, and with equal thoroughness, from a European standpoint, they have convinced themselves as to the best way to make the gun. Messrs. Morgan and Davenport have shown also their exceeding skill in making the material which these gentlemen require.

Our fellow member, Captain O. E. Michaelis, however, seems to be inspired by the spirit and courage of Rodman, and knowing that Rodman started out with the right principle, he proposes to take up that principle where Rodman left it and carry it on into the higher domain of steel, where great success and great honor await the man who makes the first gun of the future.

My preceptors, Wade and Rodman, held that the qualities required in a gun were elasticity, springiness and a power to resist abrasion, combined with high strength and a power to offer a uniform resistance in every direction to all of the strains to which it might be subjected. All of the properties were reached in the highest degree possible in the material with which they had to work, and none of their guns ever failed.

If Rodman had lived, the advent of good steel in great masses would at once have been seized upon by him, and before now he would undoubtedly have cast the best and biggest, the safest and the cheapest, guns that were ever made. Rodman was a true engineer, and it was a cardinal principle with him, that any gun had a certain number of foot tons of work to do, whether it were to batter down an earthwork or to sink a ship; and he always claimed that the best gun was the gun that would do this work for the fewest cents per foot ton, including in the cost the making of the gun.

As Lieut. Knight quotes Holley, Mr. Metcalf quotes him a little further to show that he advocated a cheap cast gun, the metal to be not crude iron, but steel having three or four times the strength. Holley further said:

The hammering of a large mass of steel—for instance, a 40-ton ingot for a gun or marine shaft—is a very costly and hazardous undertaking. Forging, under the heaviest hammers, reaches only the parts in the immediate vicinity of impact; the piece is therefore subjected to a series of internal strains due to the difference in the molecular arrangement of adjacent parts. It is thus left subject to internal strains which may cause rupture when and where least expected.

Mr. Metcalf said:

For the information of any who may not know, I will say that the Rodman plan consists in casting the gun on end, breech down, with a hollow core. Water is circulated through the core to cool the interior rapidly, and a strong fire is kept in the pit to keep the exterior of the gun warm, thus forcing the metal to contract all in one direction and on the interior. The operation is so simple, so easy, so sure and so scientific, that it is beyond criticism, and it would seem superfluous to add other arguments than those given in the early pages of this paper, to make clear the possibilities of this process properly applied to steel. There are plants in the country now which only require the addition of some pits and molds to prepare for the casting of 40-ton guns for trial, and the extension of these plants to the casting of 100-ton or 150-ton guns would cost but a comparative trifle. The cost of one huge hammer, or one hydraulic plant, would build a half dozen casting plants. . . .

In conclusion of the gun subject I repeat what I have said before: I believe the built-up gun to be unscientific and unmechanical. To settle the question of the mode of manufacture, before the Government goes to enormous expense of build such guns, and before private parties make the hazardous investments involved in building the necessary plants, is it unwise to suggest the expediency of spending two or three hundred thousand dollars in testing the Rodman plan applied to steel; not merely because it is cheap but because it is full of promise, and it is pre-eminently American. It served us well in our hour of extremity and it laid the world at our feet. It has cost Europe probably a hundred millions of dollars to produce an uncertain gun of greater power, and we may hope that it will cost her another hundred millions to produce something to equal America's gun of the future.

I have not a word to say against the views given by the officers who discussed Mr. Dorsey's paper, as to the proper characteristics required in a metal which has to endure the strains to which a gun is subjected. That part of the subject they understand thoroughly.

I cannot imagine how a good gun could be made of dead soft steel. The bore of such a gun would enlarge from the first round: the lands of the rifling would give way under the pressure of the projectile: the vent would wear out rapidly; and altogether I should expect that after a hundred rounds such a gun would be about as symmetrical as an old battered hat.

My objection to proposed methods is: to the building-up system; the notion that "definite shrinkage" is a practical possibility; the idea that rings can be so shrunk together that each shall be strained to exactly its elastic limit, when in fact that elastic limit cannot be known; the enormous cost of unnecessary operations, and the doubtful utility of the operations after they are performed.

Lieut. Ingersoll says:

"What we want with gun steel is uniformity; but this should be a development with high rather than with low qualities, and the tendency and march of events indicate that this will be attained by: First, a more intimate chemical knowledge of steel; second, a less barbarous forging machine than the hammer; third, annealing; fourth, oil tempering."

As to the "First," when the departments begin to dabble in the chemistry of steel there will be no more guns made; what is needed instead is an intimate knowledge of the physics of steel.

To the "Second" all will agree who know anything of the subject, and we may add, we want a less barbarous forging machine than the hydraulic press. We want no forging machine at all, the steel can be made to forge itself by static pressure and by heat.

To the "Third," there can be no objection, as there is no known way of getting improper strains out or high steel except by annealing.

The "Fourth" is of doubtful utility. It is not probable that the benefit derived, if there be any, can compensate for the cost, especially when we reflect that the parts are annealed subsequently. What is the object of the annealing? Mr. Davenport answers that as follows:

"It is generally admitted that the effect of tempering in oil or any other liquid is to fix, by rapid cooling, the amorphous conditions existing in the heated mass, thus preventing the formation of a coarsely crystalline structure, and destroying the irregular and more or less crystalline condition existing in every forging of considerable size when it leaves the hammer.

"Besides this, the molecular condition of the mass is far more uniform after treatment than before."

Thus is the whole forging business effectually damned by the trusted defender of the system, whose unquestioned skill and success in this hazardous business entitle his statements to the fullest credence.

On the general subject of the characteristics of steel, Mr. Metcalf's paper was intended to illustrate the following propositions:

Iron and all metals are liquids.—Cold steel is congealed iron, containing in solution various ingredients, which give to it certain marked properties.—Heat is the power which gives to steel all of its good and all of its bad conditions.

Steel is as mercurial in structure and volume as mercury is in volume.—Slow, quiet cooling from a high temperature causes the formation of large, irregular crystals, and renders the steel weak.—Quick cooling and agitation form small, uniform crystals and a strong condition.—The application of heat alone will change the form and the size of the crystals.—The change of volume due to heat increases as the content of carbon increases; therefore, high carbon steel must be handled with exceeding care.

The temperature to which it was last subjected, moderated by its subsequent treatment, is always recorded in the structure of steel, and may be read there if the piece be fractured.—Annealing, making soft, ductile and uniform in texture, is the most important of all operations from an engineer's point of view. Over-annealing is caused by too much heat too long-continued. It is believed that time has more influence than temperature, but whatever the cause may be, it changes the entire nature of the steel, and there seems to be no remedy.

Steel being crystalline, has no fiber; therefore there should be no sharp angles, no sharp edges, and no unfilleted corners; the surfaces should be smooth and free from tool marks or indentations caused by sledge blows and the like.

With our present knowledge, the BEST STEEL for structural purposes is that which is most nearly composed of iron and carbon.—Finally, good steel, properly worked, is the most useful of all of man's productions, and it may always be relied upon to do its full work to its utmost limit; but if the laws of its being be violated, it will as certainly respond, causing disappointment and disaster.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., March 9, 1887.

AN order was published on Saturday evening at parade informing the Corps that the next encampment of the cadets would be called Camp William P. Sanders. Gen. Sanders was born in Kentucky, appointed from Mississippi, and graduated in 1856; he served before the war in the 2d Dragoons, and during the war in the Army of the Potomac and with the 23d Army Corps in East Tennessee, where, while commanding a brigade, he was mortally wounded in the engagement at Campbell's Station, Nov. 16, 1863, and died at Knoxville three days later.

The "Abridgement of Military Law," by Lieut.-Col. W. Winthrop, Deputy Judge-Advocate General, U. S. A., has been substituted as a text book in the Law Department in place of "Ives's Treatise on Military Law."

Plenty of snow and cold weather the past ten days made the toboggan slide a popular place both afternoons and evenings. The other day as an officer and lady were going down the slide, and just as they reached the bottom, where the velocity is greatest, a cat tried to cross; the next instant pussy was struck and sent whirling into space, clear out of sight, and it is not known exactly where she came down to mother earth.

Mr. Charles Rehm, who has been leader of the Military Academy Band for a number of years, has resigned his position and will leave about April 1 to locate in New York. In September, 1885, Mr. Rehm received an injury in the lower part of the leg. He was sick a long time and although he has nearly recovered his general health, he realizes that it will not be possible to appear with the band on occasions of ceremony. Mr. Rehm is a talented musician, (as is also his son), and there is general regret at his coming departure. He will leave with the best wishes of the entire community for his future success in business.

Hereafter the cadet party given after the June examination known as the graduating hop will be given by the Corps of Cadets. The elaborately engraved invitations to cadet hops will no longer be allowed. The invitations will be neat but plain. It has heretofore been the custom for the 2d Class to give the graduating hop to the 1st Class, but as the two classes are not on "hopping" terms, the 1st would not accept the offer of the 2d Class. The 3d Class then extended the usual courtesy which was accepted. One 3d Class man dolefully remarked: "We unanimously offered a graduating hop, and the 1st Class unanimously accepted it, but the Superintendent outvoted us by *one* majority."

Cadets E. T. Winston and Graves, of the 3d Class, have been appointed Corporals in the Battalion of Cadets.

Major Hutton, of the King's Royal Rifles, and Capt. George D'Aguilar Lawrence, Grenadier Guards, English Army, were visitors at the Point on Monday.

Lieut. Slocum, 8th Cav., spent last Saturday here.

A fine photograph (for the album of the Association of Graduates) of Gen. E. G. W. Butler and Gen. William S. Harney, the oldest living graduate and oldest officer of the Army, has just been received by the Secretary of the association. It is earnestly requested that all graduates follow this example and send their photographs.

A paragraph in the last report of the Board of Visitors conveys the idea that Fort Putnam was built and used during the Revolution. This is an error, for the fort was not constructed until several years after the close of that struggle.

The order announcing the annual changes of officers at the Academy was received yesterday. Except in one case the names of those going away were anticipated. A few exceptions were made to the "four year" rule. The chief topic of interest was to find out which of the new detail were married and which bachelors. The cavalry fared very well, as nearly half of the new comers belong to that branch of the service.

It is rumored that Lieut. Arthur Murray is to come back to superintend the building of the new gymnasium. No better selection can be made for this duty.

A number of tailors were here last Saturday afternoon taking orders from the graduating and furlough classes. They had possession of the gymnasium and made a tempting display of new goods. In 1832 a member of the 1st Class wrote to his mother in reference to his outfit: "It would take a fortune to furnish a graduate with his dress, etc., if he bought it here. Boots cost $7 a pair, leather trunks $20, which I would be shot before I'd pay; coats cost from $30 to $40." Prices now are about double what they were then.

—

The following named persons have been designated for examination for admission to the U. S. Military Academy:

William D. Moore, (alt.,) Connellsville, Pa.
Chas. Edward Sturtevant, Madison, N. Y.
Guthrie Milor Wilson, (alt.,) Bardstown, Ky.
Eli W. Henderson, Port Royal, S. C.
Chas. J. K. Madden, St. Louis, Mo.
Bradley Lindsley, (alt.,) St. Louis, Mo.

(Correspondence of the Army and Navy Journal.)

MADISON BARRACKS, N. Y.

THE Madison Barracks Social Club give their first annual masquerade ball at Madison Hall, on March 17, and have made great preparations for the event. The fun lovers of Watertown will be on hand in force, and with the 12th Infantry orchestra to furnish the music and a continuance of the good management characterizing previous efforts the M. B. S. C will have a good time. As a specimen of what may be done in a regimental printing office, the invitations are unique and tasteful, reflecting great credit upon the typo of the 12th Infantry OPEQUAN.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

MARCH 7.

THE severe storm which prevailed Feb. 28 compelled the mustering of the troops in quarters, which was conducted under the direction of Gen. Horatio G. Gibson, U. S. A.

Batteries E (Lancaster's) and L (Hess), under the command of Maj. Edmund C. Bainbridge, 3d Artillery, together with the regimental band, escorted the remains of Maj. M. Duncan Vance, 13th Infantry, from his residence to the Baltimore and Ohio Depot Feb. 28.

Upon the announcement of the death of Lieut. Col. Robert N. Scott, 3d Artillery, the flag was placed at half mast. The funeral took place Tuesday, the troops of this command escorting the remains.

Maj. Tucker, paymaster, pays on March 9.

Thursday evening, March 3, a crowded house greeted Maj. Wm. D. Wolverton, post surgeon, at Recreation Hall, to inaugurate a series of medical lectures as contemplated by G. O. 86 of 1886. Subject, "The Temporary Dressing and Transportation of the Wounded." Hospital Steward Robert F. Grant was used to experiment with, and Hospital Steward Robert F. Roche as assistant to lecturer. Surg. Wolverton instructed his hearers in the use of applying bandages, tourniquets, etc., and in fact just what would be required in the field when a man is wounded and no surgeon is near. The lecture was beautifully illustrated, and will undoubtedly be of much service. AULD LANG SYNE.

At the regular weekly meeting of the officers of the 3d Artillery, held at Washington Barracks, D. C., on Tuesday, March 1, 1887—Colonel H. G. Gibson in the chair—a paper by Professor Peter S. Michie, U. S. Military Academy, on "The Personnel of Sea Coast Defences" was read by the chairman. After the reading the following resolutions were unanimously adopted:

Resolved, That the thanks of all artillery officers are due, and those of the officers of this regiment are hereby tendered to Professor Peter S. Michie for his able exposition of the unsatisfactory condition, the great importance, and the absolute necessities of the artillery arm of the Service.

Resolved, That it is especially gratifying to us, that a champion whose disinterested position, and acknowledged ability, add weight to every word he utters, should thus voluntarily and ably advocate the cause of a now friendless and forgotten corps, the name and fame of which adorn so many pages of our nation's history, and the existence and efficiency of which are so essential to the safety of the nation.

Resolved, That Professor Peter S. Michie be enrolled as an "honorary member of our regimental Mess and Lyceum."

H. G. GIBSON, Col. 3d Artillery,
commanding regiment, Chairman.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

March 4, 1887.

WE are in our normal condition of dulness here, and the activity of the paymasters, on the February muster, has scarcely caused a ripple of excitement. The "languid" is at present "de rigeur." Captain Ballance and Lieut. Smith, of the Staff, have gone to McIntosh. Ringgold and Brown on public service, and Paymasters Muhlenberg and Arthur are also on the go, distributing chink throughout the length and breadth of the land. *Blasé* as we are we manage a few festivities. Mrs. Ruggles, wife of Adjutant General Ruggles, gave a dinner party on Wednesday to a few friends. Mrs. Millar, wife of Lieut. Millar, 3d Art., gives a reception this evening. Lieut. Brooks, 8th Cavalry, and bride, have returned, and been tendered a most cordial reception. The lady is a charming acquisition to our military family, and Brooks is a lucky man. They were serenaded by the 8th Cavalry Band on Monday evening, as was Miss Lillian Lee, daughter of the former Chief Quartermaster here, that genial soldier, Colonel J. G. C. Lee. Miss Lee, by the bye, is the guest of Captain and Mrs. Simpson. Under the operations of the late regulation, Lieut. J. B. Hickey, the popular adjutant of the 8th Cavalry, must go. Lieut. Q. O'M. Gillmore, R. Q. M., only having been appointed to that position in July, 1886, holds on until July, 1890. It is a tough regulation, but as I note, you uphold it, why it *must* be right. Anyhow, we will try to think so. JOEY BAGSTOCK.

(Correspondence of the Army and Navy Journal.)

COLUMBUS BARRACKS, O.

MARCH 7, 1887.

FIRST LIEUTENANT GEORGE H. KINZIE, 15th Inf., left March 2 for Fort Leavenworth, in charge of military convicts.

Captain T. W. Morrison, 16th Inf., is absent, conducting recruits to Fort Whipple, Ariz., for the 9th Infantry.

The non-commissioned officers have organized a "13 Club" at the depot, and gave their first dance on Feb. 16.

The depot library received, the past week, an addition of new books, 60 in all. This raises the number of volumes to 480. The total number of periodicals received at the library the past two months was 237. J. S.

FORT LEAVENWORTH, KAS.

THE Kansas City *Times* says:

Capt. Francis Moore, 9th Cav., has purchased the black match team of Gen. O. B. Willcox.

Mrs. Captain Carr gave a domino whist party in honor of Miss Huntington, a guest of Col. and Miss Woodruff.

Gen. Thomas Wilson, chief commissary, is confined to his residence with a sprained ankle.

The "officers' mess" is now being put in running order. The new set of officers' quarters just completed north of the hospital will be used as the mess.

The Fort Leavenworth correspondent of the *Times* thus gives vent to his feelings in regard to the Fort: "Its clubs, libraries, billiard halls, canteens, schools, churches, stores, and theatres crowd up on my imagination, and between regal receptions, fashionable parties, able lectures, excellent theatricals of every kind and a constant round of balls and germans, I know not where to begin. Never, perhaps, has Fort Leavenworth seen a more joyous time. The day of Gen. Pope are still remembered, but that was a family gathering compared with the intellectual and social life of to-day. Nowhere, I think, outside of the capital can so noticeable a gathering of the elite be found. The event of last evening at the Willcox mansion is a specimen. The post commander's reception of Brig.-Gen. Willcox, two weeks ago, was no less remarkable. Nearly every State in the Union was represented, and every charm known to art was employed—leaving the impression that the leader in many a hard fought battle could lead with equal grace on the social campus, and with no less distinction."

FORT DAVIS, TEX.

THE Presidio County *News* says:

Battalion drill has been the programme for some days past. Mrs. Capt. E. Z. Steever left on Feb. 23 for her home at Eagle Pass.

Dr. L. A. Buffington has been ordered to Nevill's Springs, and Asst. Surgeon Black comes to Fort Davis.

Lieut. W. H. Barnum and his detachment, who have been helping to build the dyke to protect Fort Hancock from the Brave river of the north, are back.

The officers' hop on Feb. 24 had a good number present, and all went as merry as usual on these occasions. Dr. Clendenin and Lieut. Robbins were up from Pena Colorado.

At the hop given under the auspices of the Brackett Social Club in the school room Tuesday evening a large number were present.

The concert on last Friday evening was quite largely attended, almost every available seat in the school room being occupied.

FORT CLARK, TEXAS.

THE ball and banquet on the night of Feb. 22 by W. H. Lewis Post, Grand Army of the Republic, in the post hall was a grand success. Besides the membership, consisting of many veterans, officers and soldiers now in the Service stationed at Fort Clark, and the old soldier citizens residents of the city and vicinity, there were invited guests numbering over one hundred present. 1st Lieut. W. M. Williams, 19th Inf., delivered, by request, an address which is described as eloquent.

(Correspondence of the Army and Navy Journal.)

FORT MISSOULA, MONTANA.

FEBRUARY 27.

THE progressive euchre party given by Col. and Mrs. Jewett on Feb. 7 was a most enjoyable affair. All the officers and ladies of the garrison were present, also Mr. Adams of the Indian agency. The progressive euchre party given by Lieut. and Mrs. Bell on the evening of Feb. 19 was another delightful party. The first prize was carried off by Capt. Krause, the "booby" by Col. Jewett. Tuesday evening Capt. and Mrs. Krause gave a dinner. Mrs. Dr. Woodruff gave a birthday party to her little son Ezra, Saturday afternoon. All the young people of the garrison were invited; the "big" young people appeared to enjoy it quite as much as the little ones. Saturday evening Lieut. and Mrs. Fremont gave a dinner, at which Col. and Mrs. Jewett, Capt. and Mrs. Krause, Lieut. and Mrs. Butler, and Lieut. Freeland were present. The soldiers gave a minstrel performance on Feb. 22, which was well attended by both people of the garrison and from the neighboring towns. Thanks to some of our enterprising officers, Missoula boasts of a No. 1 toboggan slide. Our fortnightly hops, which have been well attended and much enjoyed this winter, have been postponed until arrival of Mrs. Gibson, wife of Col. Gibson, of Fort Keogh, who is expected here in a few days to make a short visit. AMBER.

FORTS OMAHA AND NIOBRARA, NEB.

THE *Excelsior* says of Fort Omaha:

Lieut. and Mrs. Van Liew have returned from Fort Leavenworth, where they had gone for a couple of weeks after burying their little daughter, Helen, Feb. 11.

The change in the staff of the 2d Infantry has been made. The regiment loses in Lieut. Rowell a gentlemanly and urbane adjutant, who has, for the last eight years, filled the office so efficiently, and in losing Lieut. Clark from the quartermaster it parts with one of the oldest, most experienced regimental quartermasters in the Service. The new incumbents are Lieut. L. S. Ames, adjutant, and Lieut. John Kinzie, quartermaster.

At Niobrara we are told Captain Gillespie was a participant in the great social event of the season, the Martha Washington dress party.... Miss Carrie Brisbin, daughter of General Brisbin, Lieutenants Wright, 9th Cav., and Wilson, 8th Inf., have been visiting the garrison. The last "were right royally entertained by the bachelors at the fort."..... The last dance of the season was given Feb. 22 by the officers of the post.

Military Order of the Loyal Legion.

The Cincinnati *Gazette* says: "Wednesday evening was given over to festivities. The Loyal Legion enjoyed their March dinner at the Burnet, with ex-President Hayes at the head of the table. At the close of Gen. Fuller's paper on 'Our Kirby Smith,' the Union Jack, that floated over the little monitor when she annihilated the monster *Merrimac*, was presented by Col. Frank Foster to Gen. Hayes."

The *Pioneer Press*, referring to the meeting March 2 at St. Paul of the Minnesota commandery, says: "Each succeeding meeting given by this order increases the interest of its members in the occasion, and the event is looked forward to as a time when comrades can meet together and listen to recitals of struggles and victories that occurred almost a quarter of a century ago." Gen. C. C. Andrews's paper on the 3d Minnesota Regiment was listened to with great interest.

(From the London Standard.)

STEALING BOULANGER'S NEW EXPLOSIVE.

GENERAL BOULANGER has instituted a searching inquiry into a robbery of about a kilogramme of the new explosive melinite. The robbery was, it is stated, committed during the night of the 3d of February at the Powder Magazine of Sevran, where the new explosive is kept in a special magazine. The workmen employed in the manufacture of the melinite are subject to the strictest of rules, and are carefully searched before leaving their workshops, which, together with the magazines, are surrounded by a wall three metres in height. Notwithstanding all the precautions which have been taken, a guard employed inside the magazine to watch the stoves in which the powder prepared during the day is dried at night thought he saw two men slinking out of the magazine. Instead of running after them the man on duty in the magazine warned the guard outside. The soldiers and the gendarmes from Livry at once beat the country all round the magazine, in or near which no one was discovered, but the following morning it was perceived that the door of the special magazine in which the melinite is kept had been opened and that about a kilogramme of that explosive had been purloined.

JAMES BUCHANAN EADS, the engineer who projected the Tehuantepec Ship Railroad, who devised and furnished the Government with its first and most useful armored steamboats, who built the great St. Louis Bridge, and introduced the jetty system for deepening the channel of the Mississippi River, died at Nassau, New Providence, March 7, in the sixty-seventh year of his age. He had been ill for some time, and had gone to Nassau with the hope of improving his health, but an attack of pneumonia added to the complications of his disease and carried him suddenly away.

THE N. Y. *Sun* has this complimentary allusion to Alexander S. Bacon, a graduate of the Military Academy of 1876, and now a resident of Brooklyn and a member of the New York Legislature: "Col. Alex. Bacon's efforts the other day to bulldoze the witnesses in the Brooklyn investigation entitle him to be called a scoundrel if he is a man of brains, and a crank if he is a fool. The most reasonable explanation would be that he is a fool."

ESOP IN AMERICA.

"THIS," says an esteemed contemporary, "would be a good time for a congress of nations to agree upon universal disarmament." As we are a tailless fox, suppose we invite the other foxes to have their tails cut off!—*Washington Republican.*

CHAMPOIREAU has just been married. He and his wife are dark complexioned. "It is too bad," sighs the young wife, "I would have been so happy to have a blonde girl." The next day Champoireau appears with his hair as white as bleached flax. "What in the world have you been doing?" asks his better half. "You see," said he, "I had my hair dyed. Now our little girl stands a good show of being a blonde."—*Paris Gaulois.*

A GOOD story is told on the Governor in Chico. J. W. B. Montgomery had been tendered the position of Brigadier-General of the Fifth Brigade, and went to Sacramento to consult with the Government about the matter. He walked into the latter's office and remarked: "Well, Governor, I have come to tell you that I will accept that office as long as there's peace, but I want it understood that in case of war you are to accept my resignation." "Oh," replied Commander-in-Chief Bartlett, "that's all right; if there's ever a war, I propose to resign myself."—*Chico Enterprise.*

CHILD at Washington—"Who are all those men lounging around outside the Capitol?" Parent—"They are United States Senators, my child." "Are there any more Senators besides them?" "Only one." "Where is he?" "He is inside making a speech."

A FRENCH paper says the superiority of the new explosive substance adopted by the German artillery (roburite) to that adopted by the French artillery has by no means been proved, as the fort fired at was temporary.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	**$21.00**
Old Reserve Whiskey,	**18.00**
Unrivalled Upper-Ten Whiskey,	**15.00**
Brunswick Club Whiskey,	**12.00**

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.
PUBLISHED EVERY SATURDAY.
NEW YORK, SATURDAY, MARCH 12, 1887.
Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

Cable address: 240 Broadway, New York.
ARMYNAVY.

FACTS AS TO ARMOR PLATES.

IN our consideration, Feb. 26, of the relative qualities of steel-faced or compound and solid steel plates for the protection of belted, turreted or barbette warships, we referred particularly to the amount in tons of each, up to the present time, placed on vessels afloat and ordered for those in progress. It is obvious, if we are to draw a conclusion from the consensus of nations and the awards of contracts by war offices—that the compound type possesses superior merits to the solid steel. Practically the fact that over 70,000 tons of the former have been purchased and less than 20,000 tons of the latter, and that France has preferred the production of English metallurgists to that of Baron SCHNEIDER by a ratio from 1880 to 1886, inclusive, of 14,957 tons in favor of the Sheffield armor, as against 7,860 tons of the Creusot, would seem to be a conclusive argument for the compound type. We do not propose, however, to be actuated by simply commercial facts in our estimate of the qualities of the competitive systems. To adopt the precedents set by European nations in the character of war material, out of hand, would be not only inconsistent with American tradition, but antagonistic to the interests of domestic enterprise and production. The essays of England, France and Germany, in the direction of both guns and armor, it must be remembered, are yet but tentative.

The question of protection for our war ships is essentially one which we can decide for ourselves, and, when the type to be used shall be determined, can answer for ourselves. Though European contractors first put in actual shape the idea of an ironclad, the inspiration was our own, and the first trial of armor in warfare was in American waters.

The original armor for protected vessels was of wrought iron. At present the two types are of solid or homogeneous steel, or of a steel face backed by wrought iron, the latter being known as compound. So far as we know expert manufacturers in the United States would recommend the latter type, and we refer to such producers of plate as MOORHEAD AND CO., of Pittsburg, and others who have given the matter practical attention.

We publish on another page the translation of an article on armor plates, by a French correspondent, which details with unusual definiteness of statement the most recent trials of Creusot plate in France. The general facts therein recited we have for some time been possessed of, and can vouch for their correctness; but the remarkably specific character of the statement—indicating its authorship as that of an expert personally acquainted with the result at Gâvres—has prompted us to publish the article *in extenso* for the benefit of our manufacturers who may be entertaining the propositions of the circular of Feb. 12, issued by the Navy Department. It is certainly most desirable that armor plate production should be organized in the United States; but the conditions prescribed by the Naval Ordnance Bureau are such as to deter sagacious and experienced manufacturers from even considering the enterprise. The policy of the Department in selecting for the protection of our ironclads a material discredited by the great maritime powers and condemned in its own country, is in our opinion not only inconsistent with an intelligent study of European results but antagonistic to domestic industry. Past experience of the fairness of the Bureau has been sufficiently discouraging without offering to producers the chance of a new investment under conditions known on their face to be impracticable.

Had there been a want of specific information as to the most recent trials of solid steel armor in Europe—a circumstance hardly possible in view of the acknowledged employment of officers of our Navy by its manufacturer—the obviously proper course to determine the relative merits of armor would have been to invite European producers to submit plates for trial in this country. It is within our knowledge that some time since the Sheffield manufacturers of compound plate proposed such a trial to the Navy Department, offering to furnish at the proving-ground, without a penny of cost to the Department, a plate from 12 to 20 inches thick, 10 to 12 feet long by 6 to 8 wide, to be fired at in competition with solid steel, only conditioned upon the detail of the firing being made public. The proposition has not received the formality of an acknowledgment.

THE passage of the Inter-State Commerce bill by the Congress just adjourned will affect Army officers to a greater degree than many of them now realize. By this act it is made a penal offence for railroad officials to grant or allow a lower rate for passenger or freight transportation to one person than to any other, the practical effect of which, as determined by the railroad managers in session at Chicago last week, will be to abolish all free passes and special and half rates for passengers and freight heretofore allowed to shippers and other classes, among whom are officers of the Army. The allowance transported free by the War Department is so small that no married officer can ever keep within it and take along the necessities and comforts of life, so that a change involves, invariably, a considerable expense, whence arises the old Army saying that "three moves are equal to a fire." The new law will prevent any concessions on the part of the railroads and the officer, who has to change station after

March 31, when the new law goes into effect, will certainly be out of luck. It will also make a decided difference in the trips of officers going on leave of absence. The Army chaplains will have an advantage over the rest of the Service, as the law permits reduced rates for clergymen and their families, this being the only exception to the rule.

NEW NAVAL VESSELS AUTHORIZED.

WE find that there is a great lack of exact information as to what has been done by Congress for the increase of the Navy. To make this clear, we give here a table showing what vessels have been authorized, their size, proposed armament, cost, speed and present status. This will give a clear idea of the number and character of the vessels constituting our new Navy, the last of which should be in commission by 1890.

The total sum thus far allowed by Congress for the new Navy is, it will be observed, nearly thirty-one millions of dollars. Of this a little over three millions is provided for guns and a little over four millions for armor. This is over seven millions in all; a sum quite sufficient to make a beginning, and to stimulate our manufacturers to exert themselves to meet the requirements of modern warfare. It should be remembered that this is but a beginning and that no provision has thus far been made to meet the demands of the Army for heavy ordnance or coast defences. The new Navy thus far authorized includes 22 vessels, of different sorts, having a total tonnage or 65,609, and armed with two 12 in. guns, twenty-six 10 in., twelve 8-in., eighty one 6-in.; the armament of two large cruisers not yet being determined. Besides this we shall have the dynamite vessel, torpedoes and Hotchkiss and Gatling guns. The appropriations for armament of the new naval vessels amount altogether to $3,075,762, as follows:

Act of July 2, 1884	500,000	
" " March 3, 1885	84,000	
" " July 26, 1886	343,000	
" " Aug. 3, 1886	1,000,000	
" " March 3, 1887	1,128,762	
" " " " (for 3 steel cast guns)	20,400	
		$3,075,762

The appropriations for armor are as follows:

Act of March 3, 1885	25,000	
" " March 3, 1887 (armor and gun steel)	4,000,000	
		$4,025,000
Appropriations for new vessels		21,522,350
Batteries, torpedoes, etc.		2,150,000
Total appropriation for increase of Navy		$30,773,112

IT is gratifying to learn that the work of compiling the Rebellion Records was left in such excellent condition by the late Colonel Scott as to make it possible for the work to be carried on to completion under other management without its value being materially impaired. Seventeen volumes, comprising 25 books, have already been printed and distributed, 15 others are in type, waiting for indexing, and sufficient copy is now in the hands of the public printer to keep him employed for the next year. The manuscript in shape covers operations up to the end of 1863, and the work for 1864 had all been mapped out by Col. Scott before his death, leaving only a few months of the war period to be covered. With the valuable services of Mr. Kirkley, who had been associated with Col. Scott during his entire connection with the work, and a portion of the time in full charge, the new officers to be put in charge ought to be able to carry the publication along without interruption and to a successful close. It was estimated by Col. Scott that the work, when completed, would consist of about 80 volumes, embracing over 120 books. There is quite an array of candidates for the place left vacant by Col. Scott's death, but so far as known the Secretary of War has not yet made a choice. Among those most frequently mentioned on account of their well-known qualifications for work of this description, are Lieut.-Col. Henry M. Lazelle, 23d Inf.; Lieut.-Col. Wm. M. Vincent, Asst. Adjt.-Gen'l; Lieut.-Col. Henry W. Closson, 5th Art.; Major Robert H. Hall, 22d Inf., and Capt. Geo. W. Davis, 14th Inf.

THE failure of the Fortification Appropriation bill leaves the Army Ordnance Bureau and the Engineer Corps in a worse plight, in regard to fortification and gun construction, than at the close of the first session of the 49th Congress. At that time there were a few fag ends of appropriations available, and work on a small scale was continued for a few months, but now all work must come to a full stop. Two twelve-inch rifled cannon—cast iron strengthened with steel—have been lying for months incomplete in the South Boston shops, Congress having failed to reappropriate a sufficient sum of money out of the amount already authorized to be expended to put them in serviceable condition. There is no expectation among ordnance officers that Congress will pass a Fortification Appropriation bill before the closing days of the next Congress, and during the next fifteen months there will not be funds available even to pay the watchmen at forts without garrisons.

IT is understood that the Lieutenant-General of the Army will leave Washington in the course of a week or two on a Western inspection tour. The objective points will be the Fort Riley Cavalry and Artillery School post, where he will see what the board is doing in the way of preparing plans and locating points for the new buildings; Denver, Col., where he will select the site for the new post authorized to be established there by a recent act of Congress; and Chicago, to arrange for the final acceptance of the military site tendered by citizens of that city. Gen. Sheridan will also probably visit a number of other posts during the early spring, with the purpose of determining upon the allotment of the $200,000 appropriated in the Sundry Civil bill for improvement of barracks and quarters.

IN the battalion of four companies of the 3d Cavalry now serving at Fort Davis, Texas, there is no major or captain, the only field officer present being the colonel, who drills the battalion. We venture to say that no such state of affairs has existed before in the history of our Army in time of peace. From the colonel to first lieutenant there is no one of any intermediate grade belonging to the cavalry serving with the battalion. Five of the officers above the rank of lieutenant are on detached service, two are on sick leave, and one on leave.

THE list of Army officers found incapacitated by retiring boards has been materially reduced during the past few months through the complete recovery of some, and the retirement and death of others. At this date it comprises but twenty-one officers, as follows: Capts. J. W. Buell, W. R. Steinmetz, J. V. De Hanne and Jos. Y. Porter, of the Medical Dept.; Capt. Geo. M. Wheeler, Eng. Corps; Chaplain Geo. G. Mullins, 25th Inf.; Capt. John W. Martin, 4th Cav.; Capt. Chas. G. Gordon, 6th Cav.; Capt. Jno. Hamilton, 1st Inf.; Capt. Wm. H. Vinal, 16th Inf.; Capt. E. J. Stivers, 25th Inf.; 1st Lieuts. Geo. L. Converse, 3d Cav.; David J. Gibbon, 9th Cav.; Wm. T. Howard, 2d Art.; Hugh T. Reed, 1st Inf.; Edw. Lynch, 8th Inf.; Thad. H. Capron, 9th Inf.; John J. Dougherty, 11th Inf.; Geo. K. Spencer, 19th Inf.; Thos. W. Lord, 20th Inf. and Palmer Tilton, 20th Inf. Three of these—Capt. John W. Martin, 4th Cav.; Capt. Chas. G. Gordon, 6th Cav., and Capt. E. J. Stivers, 25th Inf., have so far recovered as to be able to perform duty again, so that their retirement need not be looked for in the near future. But one vacancy exists on the disability retired list at the present time.

THE total appropriations made by the last session of Congress, as footed up by the clerks of the two appropriation committees, amount to $247,387,144. Of this amount $23,724,718.69 is for the support of the Army, $419,936.93 for the Military Academy, $25,753,165.44 for the Navy, $76,252,500 for pensions and $6,900,000 for Mexican pensions; altogether $133,050,321.06, or more than one-half of the whole budget. The total annual expenditures for military and naval purposes in Germany are estimated at $111,500,000. Two thirds of our expenditures are for pensions, and represent to a large extent the waste due to a want of intelligent preparation for war. To judge from present indications we are destined to travel the same road again and to salve the wounds of the victims of our optimistic views of human nature, with pensions after the fact, instead of saving them from the disasters of war by adequate preparation in advance for preventing or limiting its operation.

THE first printed copy of the act organizing a Hospital Steward's Corps of the Army reached Surgeon-General Moore on Wednesday last. He has not yet matured his plans for carrying out the new law, but proposes to take up the subject without delay. The first step will be to form a set of regulations prescribing manner of appointment, mode of government, etc., of the new corps. Those now employed as hospital stewards and as cooks and nurses, will, of course, be retained and their increase of pay will begin from the date of the passage of the act, unless the Secretary of War should consider it necessary that they should have new letters of appointment, in which event the increase would not commence until date of new appointment.

AN Austrian officer, expressing an opinion on the general subject of the dress of all European armies, gives the palm to Russia, and next to Russia the Prussian army. The dress of the French heavy cavalry, he says, would be good were it not for the baggy trousers, which are ungainly. Some Spanish corps, he thinks, are smart, but their shakos are hideous, and so also is the head-dress of the Italian soldier. The dress of the Austrian army, which used to be most showy, is now ugly, but it is useful. The Dutch army ranks next to the English army in ugliness.

THE daily papers have had various reports of late of interference by the Secretary of War with what are regarded as the legitimate prerogatives of the Surgeon-General in the matter of the assignment of officers of his department. The explanation given at the War Department is that complaint was received from the Pension Office of delay by the Adjutant-General's office and the Surgeon-General's office in furnishing information. It is asserted that the interference of the Secretary with the routine of the Surgeon-General's office was due to his anxiety to expedite matters there, in accordance with the request of the Pension Bureau. The difficulty between the War Department and the Surgeon-General's office is ascribed to the order relieving Dr. Huntington from duty and Dr. Greenleaf from Chicago to take his place. The Philadelphia *Ledger* says: "Surgeon-General Moore called upon the Secretary, protested against officers of his corps being thus detailed without his knowledge, explained that he needed the services of Huntington in the discharge of his duties here, and requested a revocation of the order, urging, as an additional reason for this, that Greenleaf was personally distasteful to him, and therefore unqualified to serve in a position which would bring them in close relationship. The Secretary declined to revoke the order, whereupon Dr. Moore appealed to the President, as understood at the War Department, and requested to be relieved of his duties as Surgeon-General unless he can have direction and control of the details of his office. The President has promised to take up the question immediately upon the dissolution of Congress. This

matter excites unusual interest because of the high rank of the parties to the controversy. The action of the Secretary is unusual and contrary to the practice that obtains in making assignments of officers. It is intimated that Surgeon-General Moore proposes an inquiry into the management of the Purveyor-General's office, and, learning this, Dr. Baxter influenced the Secretary to assign Huntington, who is familiar with the business methods practiced in the Purveyor's office, to the Pacific coast and bring Greenleaf here, the latter being a friend and partisan of Baxter."

THE statistical exhibit of deaths in the U. S. Army during the late war, as shown by the records of the Adjutant General's Office, printed in the ARMY AND NAVY JOURNAL, June 13, 1885, giving the casualties in the Connecticut Volunteers differs essentially from those given in "The Military and Naval History of Connecticut during the Recent War," which are shown here in brackets immediately following the figures in the Adjutant General's Office:

	Officers.	Men.
Killed in action	81 [97]	1021 [1094]
Died of wounds	56 [48]	751 [663]
Died of disease	57 [63]	2485 [3246]
Accid'l deaths (except drowned)	2	45
Drowned	1 [1]	53 [35]
Murdered		3
Suicide	2	10
Executed		24 [2]
Died from Sunstroke		9
Other known causes	1	27
Causes not stated	1	92
Total	201 [209]	4520 [5010]

The Connecticut records report in addition, 9 officers cashered and 471 resigned; 385 officers and 5,457 men discharged prior to muster out of organization; 51 officers and 4,361 men discharged for disability; 51 officers and 30 men dishonorably discharged; 2 officers and 6,281 men deserted; 21 officers and 389 men missing; 6 officers and 56 men dropped from the rolls; 19 men taken by the civil authorities, and 16 officers and 1,487 men transferred to Veteran Res. Corps.

A resolution was passed by the House asking for information as to firing upon citizens in the Indian Territory by a squad of soldiers belonging to Co. L, 5th Cavalry. In reply Secretary Endicott sent a lurid affidavit, signed by Louis Weythman and others, charging that thirty shots were fired at them and their teams, one horse being killed, and the bullets whistling like a skirmish. A counter-affidavit from members of Company L follows, explaining that the firing was done only after the citizens had answered with insults and defiance the order to stop their wagons, loaded with wood and green timber. The purpose of the firing was to kill a horse in the leading team. As soon as the horse fell the wagons stopped and the doughty citizens surrendered.

THE *Army and Navy Gazette* says: According to a German paper, some experiments have recently been made with a new kind of mortar and a new explosire, warranted to beat the French *mélinite*. It is stated that when this explosive was used against a target representing as exactly as possible one of the French frontier forts, it took only 48 hours to blow the erection "completely from the ground." In the United States, Lieut. Zalinski appears to have beaten this record by entirely destroying the face of a natural cliff with one shell from his pneumatic gun. However, the British inventor intends to make a strong effort to hold his own, and we hear of a new kind of torpedo-shell which, if it realizes the hopes of its designer, will "run a mile, jump a gate, turn a somersault, and then blow the largest ironclad in the world to smithereens before her captain can say 'Jack Robinson.'"

JUDGE SAWYER, of San Francisco, last week delivered an opinion in the case of Louis Zimmerman, a deserter, remanding him to the custody of the military authorities, but stating in effect that if the court-martial disregards the statute of limitations, it will do so in violation of law. He was a minor, and enlisted without the consent of his parents, deserted, and recently reported to the commanding officer of the Presidio, who promptly confined him, afterwards produced him on writ of habeas corpus, and has now received him back again.

CAPTAIN E. T. COMEGYS, Assistant Surgeon, U. S. Army, has been delivering a series of lectures upon the practical treatment of diseases and injuries at Madison Barracks, N. Y. The lectures, four in number so far, have been attended by the officers and a large majority of the enlisted men of the post.

CAPTAIN HENRY P. BIRMINGHAM, assistant surgeon, U. S. A., will deliver the third and last of his series of medical lectures at Governor's Island on March 12. The subjects discussed will be "Resuscitation from Drowning," "Syncope," or fainting, "Sunstroke," etc.

LIEUTENANT JOHN P. WISSER, 1st U. S. Artillery, read a most interesting paper on "Practical Instruction in Minor Tactics" before the Military Service Institution at Governor's Island on Thursday. Major-General Schofield presided, and adverting to the importance of the subject said: "There is a great deal to discourage officers of the Army to-day. Promotion is terribly slow. There is little to be looked for ahead, and little inducement to work. But it has always been so. In my youth it was bad, and we determined to quit. As I was about to do so somebody said, 'Schofield, you had better hold on.' So I can say to you to-day, dark as the outlook is, you had better hold on. Don't waste your time. Study your profession, whatever means you may have to do so with. We will still indulge the hope while we live that promotion may not be so slow always. We will live in hope."

THE legislative bill as finally passed has the following provision in regard to the occupancy of the west and centre wings of the State, War and Navy Department Building: "That the offices and clerical force of the Quartermaster-General, Commissary-General, Paymaster-General, Chief of Engineers, Bureau of Military Justice, Chief of Ordnance, so much of the clerical force of the Adjutant General's Office now occupying rented buildings, and so much of the office and clerical force of the Surgeon General's Office as cannot be accommodated in the building for the Army Medical Museum and Library, shall on or before March 1, 1888, be removed to the west and centre wing of the State, War and Navy Department Building, and to occupy such rooms therein as may be assigned to them by the Secretary of War."

THE vacancy in the Army Regulation Board, caused by the death of Colonel Scott, will probably not be filled until the other members of the board have gone through the weeding out process, and put the various paragraphs into shape for final decision. It will then be necessary for the full board to come together and take final action upon paragraph after paragraph until the work has been completed.

A NEWSPAPER despatch from Washington says: "It is understood that the Secretary of War has severely reprimanded Col. Gibson, of the 3d Artillery, for the want of promptness and bad appearance of the troops on the occasion of the funeral of the late Col. Scott, and the unsoldierlike conduct of the officers." It was obvious to those who attended Col. Scott's funeral that something had gone wrong with reference to the military escort. After the religious exercises had closed there was a long pause before the 3d Artillery, which furnished the escort, made its appearance. As the Secretary of War and the Adjutant General of the Army were present with other distinguished officials, the occasion was not a propitious one for the misapprehension or neglect of official orders. We have no knowledge as to who is responsible for the delay beyond the statement contained in the paragraph which we quote. We presume that what is called a "reprimand" was simply a request for information as to the cause of the delay in the arrival of the troops.

THOSE who now pass the War Department after the hour of nine at night will find the lower stories lit up by the "midnight oil"—or gas—burned by the unhappy clerks of the Adjutant General's Office who are most unwillingly forced to do extra duty, to catch up with the demands in the matter of pensions.

THE Tammany Hall General Committee of the Tenth Assembly district on Wednesday adopted resolutions asking Congress to pass a law which will prohibit musicians who receive salary from the Government from competing with private bands in furnishing music to hotels, concerts, operas, theatres, etc.

CAPTAIN R. H. PRATT, 10th U. S. Cavalry, says in *The Morning Star*, published at the Indian School at Carlisle: "The Indian Bill passed by Congress gives us the $18,000 to buy the Parker Farm, but does not give the $19,500 for buildings. 'Half a loaf is better than no bread.'"

JAMES P. LEE, the veteran inventor of breech-loading and repeating small arms, accompanied by C. M. Dally, late of the Remington Company, sails for England to-day by the Werra. The system of magazine which is the distinctive feature of Mr. Lee's last repeating rifle, is very favorably regarded by the English War Office—a circumstance which suggests the purpose of his trip over sea. Mr. Lee is of Scotch nativity, born within sight of Abbotsford, and collaterally related to the Wizard of the North. Curiously enough, he has never read a novel of Scott's. Possibly he has had no interval between designing guns and needed rest to bestow upon romance. Thirty years ago last New Year's, he fired his first repeating arm. The cartridges, fifty in number, filled the breech in super-imposed sections, and were fed up by a ratchet mechanism like that of the Chaffee-Reece. The general design of the invention is pretty faithfully reproduced in one of the Mannlicher systems. We wish Mr. Lee *bon voyage*, and intelligent appreciation abroad.

DECISIONS BY THE SECOND COMPTROLLER.

THE Second Comptroller, in an opinion relative to the over-payment of mileage to Lieut.-Col. Closson from San Antonio to New York, the commutation of quarters to Col. Simpson and the payment made by Major Smith to the assignee of a fraudulent pay voucher, takes occasion to define the duties of the accounting officers. In the case of Lieut.-Col. Closson he says that he "is not aware of any law conferring on the Secretary of War the power to prescribe the route by which an officer shall travel which relieves the accounting officers of the necessity to pay mileage only for travel over the shortest possible route. It is within the province of the accounting officer to determine which is the shortest possible route. This does not conflict, however, with the Secretary's right to determine by what route the United States troops shall be transported in effecting the various movements of the Army directed by him." In the case of Col. Simpson he says the rate of commutation for quarters is fixed by statute and it is not discretionery with the Secretary of War. Col. Simpson was at a post where quarters in kind were afforded him and in such cases there is no commutation allowed. As regards the voucher of Lieut. Carson disallowed in the voucher of Major Smith, the Second Comptroller says that Lieut. Carson was absent without leave during the nine months for which the suspended payment was made, and the case showed that the paymaster had paid the amount to the person who claimed to be the assignee of the officer's pay vouchers, but the assignment was clearly illegal and in fraud of the rights of the United States. The Comptroller concludes by stating that no discretion is vested in the head of any Department or even the President himself, as to whether the law shall be obeyed or followed, and so far as the executive branch of the Government is concerned, Congress has seen fit to confer jurisdiction upon the accounting officers to determine whether the expenditures of disbursing officers are authorized by law or not.

DEAD BILLS.

THE following bills were introduced in the last hours of the expiring session of the 49th Congress, and will have to be reintroduced before the next Congress can consider them.

H. Res. 265, Mr. Little. That the Secretary of War be, and he is hereby, authorized and directed to ascertain, through suitable investigation by him caused, and report to Congress at as early a day as practicable—

First. Whether the house in which and premises where the late General Ulysses S. Grant was born, situate on the Ohio River in Clermont County, Ohio, can be purchased by the United States, for such purposes as Congress may prescribe, at a reasonable, and, if so, at what, price; also whether, in the event of such purchase, in his opinion, the United States, for the better protection and enjoyment of said property, should own any, and, if any, what, adjoining property, and at what cost the same can be procured.

Second. Whether, in his opinion, consistently with proper preservation and care, said property could be utilized to advantage for Governmental purposes.

H. R. 11239, Mr. Wheeler. That the sum of $150,000, or so much of it as may be necessary, be, and is hereby, appropriated, out of any money in the Treasury not otherwise appropriated, for the construction of one counterpoise battery for the protection of cannon in coast defence, and one such battery for field service, to mount one or two guns each, depending upon their weight. The Secretary of War will select their sites, and will take charge of all expenditures in their construction. That Beverley Kennon, the inventor and patentee, shall superintend and direct the work, and shall complete the same for actual service by December 25, 1887. His compensation will be fixed by the Secretary of War, out of a portion of this appropriation. The guns needed for said batteries, with their fittings, may be loaned by the Ordnance Departments of the Army or Navy, to be mounted temporarily on these batteries.

H. R. 11240, Mr. Wheeler. That the Secretary of War be, and he is hereby, authorized and directed to increase the number of officers of the Army detailed to colleges, under existing law, to fifty, the additional details to be made under the regulations and laws upon the subject now in force, except that such additional details shall be made at the request or upon the recommendation of the governor of the State within which the college to which the officer shall be detailed is located.

THE Naval Institute at Annapolis had an interesting meeting on Tuesday, March 8th, when a paper on the most suitable metals for naval guns was read by Mr. William J. McAlpine, the consulting engineer of the Harlem suspension bridge and the arcade railroad of New York, and past president of the American Society of Civil Engineers. We have not seen Mr. McAlpine's paper, but we understand from the secretary of the Institute that his views on the subject of steel for guns are in accord with those of the Ordnance Corps. At the same meeting, Rear Admiral Daniel Ammen, U. S. N., read some notes on the Nicaragua Canal. At a previous meeting of the Institute, on March 4th, the paper of Mr. Elson, already referred to, was read, and a paper by Lieut. Knight, U. S. N., on the latest instruments for measuring pressure in great guns. Another, by P. A. Engineer W. F. Worthington, U. S. N., on special instruments in boilers to give a continuous chart of the pressure, to cause uniformity in supply of coal, and have it as a tell-tale on engineers, in case of carelessness; and a third by Commander P. F. Harrington, of the Naval Academy, on the subject of instantaneous instruments for showing speed of vessels at any moment. Commander Sampson, superintendent of the Academy, also spoke on the subject of speed instruments.

THE rash *Critic* of Washington commits itself to the prophecy that Col. J. W. Forsyth of the 7th Cavalry is to succeed General Willcox as brigadier general, and it declares that Lieutenant General Sheridan is committed to the cause of his old staff officer. We are sure that everybody, General Sheridan included, would be glad to see "Saudy" Forsyth made a brigadier, but, without intending any reflection upon General Forsyth's distinguished services, we are inclined to think that the next vacancy will be offered as a reward of Merritt. A much more probable report is that on the next promotion the 7th Cavalry will be ordered to Fort Riley, and the New Cavalry and Artillery School placed under the charge of Colonel Forsyth.

GEN. CASTILLO has resigned the office of Minister of War of Spain, and is succeeded by General Cassala.

(Contributed to the Army and Navy Journal.)

GUNS, GUN METAL, GUNPOWDER, ETC.

1. What is the *beau ideal* of a Perfect Gun? or, What does the honest and competent gunmaker seek to produce? Says Tennent:

The *beau ideal* of a perfect gun is one which will give the gunner the positive mastery over gunpowder; in other words, *a gun which cannot be burst*. To realize this requires the combined action of two distinct sciences—those of the metallurgist and the engineer; and the latter, it is clear, can always work up to the utmost achievements of the former, and furnish artillery whose performance and power is only limited by the endurance of the metal out of which it is made. And although perfection is dependent on other conditions besides the tenacity of the metal, such as the form of the bore, the configuration of the projectile, and the peculiarities of loading, still these latter will render but inefficient service, unless combined with a material so strong and tenacious as to withstand the utmost violence of explosion.

Says Longridge:

The first point, in the science of gunnery, and that which limits its future is the construction of guns of sufficient strength to curb and govern the utmost force of the explosive which may be used in them. So long as gunpowder can burst guns, so long is it unmanageable, and wanting in that perfect obedience which is the first principle of effective service.

Says Col. C. B. Brackenbury, R. A.:

There is not a single gun actually adopted for service in any country, which is not, by its weakness, a hindrance to the full action of the "Spirit of Artillery."

2. Has the *beau ideal* of a Perfect Gun—or any approach to it—ever been produced, either in a single gun, or in any regularly established system of artillery?

We think so, and we think that when Col. Brackenbury said that "There is not a single gun actually adopted for service in any country, which is not, by its weakness, a hindrance to the full action of the 'Spirit of Artillery,'" he might well have made at least a partial exception to that statement in favor of a gun, and a system of artillery, concerning which we shall now proceed to quote much favorable mention, from quite a number of eminent authorities; we allude to the artillery system of Sir Joseph Whitworth, lately deceased, a celebrated English engineer, mechanic, and metallurgist, of whom circumstances made a gun-manufacturer of world-wide reputation.

Quoting from Sir Thomas Brassey, we have the following, going to demonstrate the immense strength of a Whitworth gun, the superiority of the metal from which it was made, the fine character of the workmanship employed in the construction of the gun, and the superior quality of the projectile:

Assuming the truth of the remarkable hypothesis of double loading (referring to the bursting of the *Thunderer's* 38-ton gun) it so happened that a Whitworth 12-inch muzzle-loading 35-ton gun was nearly three years ago exposed to an accidental test involving a similar strain to that on the *Thunderer's* gun—a strain to which it did not yield. The Whitworth gun was one of four made for the Brazilian Government, constructed entirely of fluid-pressed steel. They are shorter than the regular length, in order to suit the diameter of the turrets in which they are to be placed. . . . Forty-nine rounds were fired from the gun with projectiles of various weights, forty-seven rounds being fired for range and velocity, and two rounds for penetration. . . . . The first round fired for penetration was with a flat-headed steel-shell, empty, weighing 808 pounds. The shell penetrated the two sets of 8-inch plates forming the front of the target, punching out two discs of its own diameter, which it forced into the backing—composed of oak and wrought-iron plates—to a depth of about 36 inches from the face of the target. The shell remained entire, but was shortened .6 of an inch, otherwise remaining perfectly sound.

The second round for penetration was fired with a flat headed steel shell of 808 pounds weight, with a bursting charge of 20 pounds of powder. This projectile passed through the first 8-inch plate, and then exploded, blowing one entire plate off the target; the second set of plates was also deeply indented and broken in several places. Owing to the bursting charge in the shell not having a sufficient thickness of flannel at the front, the explosion took place before the shell had time to penetrate the second plate.

A third round for penetration, with an empty steel shell of 1180 pounds weight, with which there was an unfortunate accident [this accident is described to show that the fault was in the shell, the rear plug of which had not been screwed home up to the collar, and the threads of the screw-plug had thus to bear the whole force of the 120 pounds of powder, and were consequently stripped off; the account continues:] It is attributable to the great strength of the metal of which these shells are made that the results described took place, as had the shell been of the usual comparatively weak material it would have broken up at once under the strain to which it was subjected, and the gun would not have suffered. As it was, the injury was confined entirely to the muzzle end of the inner tube; no other part of the gun, except the copper vent, was in any way affected. Since the return of the gun from Gâvre the injured tube has been replaced at the request of the Brazilian officers; the gun has also been revented, and is now as good as before the accident. During the process of boring out the tube a piece was out from the muzzle end, and a test piece made from it, which gave a strength of 46.7 tons per square inch, with an elongation of 20 per cent. This test proves that the firing of the gun might have been continued with the injured tube.

Previous to the tube being bored out, Messrs. Whitworth were anxious that the gun should be fired again, but the Brazilian Government declined to have further experiments. Notwithstanding the enormous strain the gun had been subject to, there was not the slightest appearance of powder-gas on the breech screw when it was removed from the gun. The threads were as bright as when first put into the gun, affording ample evidence that the plan of closing the breech is effectual not only under ordinary circumstances, but was also sufficient with the enormous pressure there must have been when the accident occurred. The pressure of gas in the gun was in effect exploding 120 pounds of powder in a closed cylinder, for the copper vent was entirely closed up, and the sides of the shell were wedged against the bore of the gun, which checked its passage along the bore until the shell broke up. The amount of this pressure may be imagined from the fact that three inches of the copper vent above the platinum were actually melted away.

We will give another example illustrating the power of a Whitworth rifle, and the quality of a Whitworth projectile, and we would say that we think that the account of the performance of this gun merits the closest attention because, so far as we are informed, it describes a feat in artillery practice which is without any parallel. The gun was a 9-inch Whitworth breech-loading rifle, laid at a distance of 90 feet from a target composed in the following manner:

(*a*) A wrought iron plate, 18 inches thick, made by the firm of Sir John Brown and Co., Limited. (*b*) A steel cylinder, 37 inches long, placed horizontally, filled with sand rammed hard. (*c*) A backing consisting of a steel plate 1⅛ inch thick, furnished with T-pieces supporting a series of oak balks 7 inches thick. (*d*) Cast-iron support, 19½ feet long, 14 inches deep, 5 feet wide, intended to keep the backing in a vertical position. (*e*) Balks to strengthen the foot of the cast-iron supports. These balks were bedded on the ground and covered with wet sand, their ends resting against wooden piles set in the ground vertically.

The gun was fired with a charge of 197 pounds, one hole block prismatic powder, and a pointed steel shell, empty, weighing 403 pounds, and 4 calibres in length. The projectile cleanly penetrated the 18 inch armor plate; the cylinder filled with sand, which burst; the backing of oak and steel; and, leaving the cast iron support, penetrated the sand at a distance of 17 feet from the front face of the armor, and 4 feet from the lower edge of the cast iron support. The projectile, which had produced such great mechanical work, up to that time never arrived at by any other system, was even found capable of reproducing the same effect, showing merely a slight shortening of its curved point. At the distance of 28 metres from the muzzle of the gun, the projectile passed through: 18 inches of wrought iron armor, 1.4 inches of wrought iron, corresponding to a lining of steel 1½ inches thick, which formed the backing; 7 inches wood of the backing; 37 inches sand wet and rammed; 112 inches cast-iron support; 80 inches wet sand. All which, taken together, are equivalent to a resistance of 23 inches of wrought iron.

PECULIARITIES OF THE WHITWORTH SYSTEM OF ARTILLERY.

It becomes interesting now to inquire somewhat into the particulars of this Whitworth system of artillery, the method of its manufacture, the material from which made, etc., etc. Very briefly it may be described as follows:

The Whitworth construction belongs to the all steel "type," and differs in almost every particular from the other types. The guns are both muzzle and breech loaders. The body of the gun consists of a steel tube reinforced by steel hoops. The tube is cast solid, and submitted to a heavy hydraulic pressure while in a molten state, giving the metal as it solidifies a perfectly homogeneous crystallization throughout. This tube is bored completely through, and in the muzzle loaders the breech end is closed by a steel screw plug. The hoops are hollow cast and forged on a mandrel, the lengths in the different layers being accurately turned and screwed together. The layers are then put on the gun, and—though originally forced home cold from the muzzle end—are now understood to be shrunk on hot. The Whitworth groove is of a peculiar nature, the bore being almost a perfect hexagon, and having an extremely sharp twist of from one turn in two feet in the 2-pounders to one turn in thirteen feet in the 9-inch. The projectiles are cut to fit the grooves, the armor punching ones being of compressed steel.

It is a well known fact that the Whitworth is the established system of artillery for Brazil and has been so for many years, and it is well to note how and why they came to adopt it. The Brazilian Committee on Artillery Studies, after nearly two years of consideration of the various systems of cannon, pronounced definitely in favor of the Whitworth rifle cannon as that which from its material, the process of manufacture, and the system, most nearly approached perfection. The committee emphatically condemned the system of cast-iron strengthened by wrought-iron bands, as unscientific and practically proved inefficient. The Krupp gun, of Krupp cast-steel, strengthened with bands, they considered unreliable notwithstanding its fine material. This superiority of the Whitworth cannon the committee ascribed to the quality of the homogeneous steel used, the care in its selection, to the oil tempering which it received, to the use of the hydraulic press instead of the hammer, and to the mode of constructing and connecting the cylinders and other parts of the gun. In relation to the quality of endurance, the committee mentioned that, while the Krupp cannon had an average life of 600 to 800 shots, the Whitworth cannon employed by the Brazilian forces during the Paraguayan war had averaged 3,500 to 4,000 shots each, without a single case of bursting or serious damage having occurred among them. Sir Thomas Brassey says:

Before the present conflict between Chili and Peru the Whitworth guns had perhaps been used in actual war to a greater extent than any of the existing naval heavy rifled guns, many of these steel pieces having been on board the Brazilian ships in the Paraguayan war. If they were ordered as late as the date of the equipment of the *Independencia*, it is clear that Brazilian officers were satisfied with their experience of them.

SOME OPINIONS AS TO THE WHITWORTH SYSTEM.

Admiral Porter, in 1870, commended the Whitworth ordnance to the Hon. Secretary of the Navy in strong terms, as follows:

"In the Armstrong gun there is a combination of steel and iron, and the union of any two metals is always objectionable. The gun is, moreover, 'built up,' and the numerous welds are so many weak points. Finally, the gun is extremely expensive. In the Whitworth system all these objections disappear, as but a single metal is employed in the manufacture; yet the British government adheres to the Admiralty gun, and upon the latter depends the supremacy claimed for the royal navy. That the claims of the British are not altogether well founded may be inferred from the fact that serious injuries have already been discovered in their 18-ton gun, and they have reduced the charge in their 25-ton gun, throwing a shot of 600 pounds." It has been found at the Whitworth works that from the metal there in use can be made guns bearing a tensile stram of 84,000 pounds to the square inch. This is not on the Bessemer or the forged steel principle, which is not so strong at the Whitworth, because the metal is never free from porosity, but is simply molten decarbonized metal, which is poured into molds, and subjected to great compression while cooling, by means of a very powerful hydraulic press. The immense pressure closes all the pores in the metal, and, bringing its particles into close proximity, the result is the production of a casting having all the tenacity of forged steel combined with the special convenience and economy of cast steel. The press at present in use has a power of 2,500 tons, and another which the Whitworth company are now building will exert a pressure of 8,000 tons, and will be used to exert a pressure upon castings of 20 tons to the square inch. With this pressure no molds will stand except those made of the Whitworth metal itself. In the above extracts from the report of First Assistant Engineer R. H. Thurston you have the principle on which the Whitworth gun will be made in the future, and here we find the means by which we can obtain a cheap and effective gun that will at once, as respects ordnance, place us on an equality with any other naval power. Unless blind to our own interests we cannot permit such a principle as this to go unnoticed, and means should be at once adopted to secure its introduction in our Service, if it is correct. To sum up the advantages of guns made by the Whitworth process: "The metal can be relied on to bear a tensile strength of 45 tons per square inch, and to elongate 25 per cent. before breaking." Here then is a metal that will enable us to cast the toughest and lightest smooth bore gun, and is yet sufficiently hard to stand the friction of any steel projectile that may be fired from rifled ordnance—a desideratum long sought for in the fabrication of our guns—but never before attained. For shells intended to penetrate armor we have here also the metal that will not crumble to pieces against the hardest plates, and that made into a chilled or flat headed shot will cut through the toughest iron.

We will now make a few extracts from "Reports U. S. Commissioners Vienna International Exhibition, 1873:"

The Whitworth ordnance has a power of penetration and a range exceeding other guns by probably 30 per cent. The fact that the British Government has persistently refused to adopt, or even countenance, this system is one of those singular instances of wilful disregard of proven facts, or of official indifference to public interests, which it is difficult to account for, except on the supposition that private prejudice or private interests have been permitted to control the action of the departments. The result is unfortunate for Great Britain, but it may prove fortunate for her enemies. . . . These guns are manufactured very readily by modern methods, and there is no objection to their adoption on the score of economy. Their ammunition is cheaply made, and can be produced in large quantities, when demanded by the exigencies of war, promptly and at a comparatively small expense. Whitworth estimates the time of fitting the rough castings to gauge, and turning it out ready for use, at 12 minutes, and the expense at less than three pence. . . . In proving his guns the maker has sometimes adopted the novel expedient of securing the projectile in the gun and firing a diminished powder charge behind it, permitting the gases to escape only by the vent. . . . In putting the gun together Sir Joseph Whitworth dispensed entirely with the rude and usually awkward and hazardous process of shrinking the cylindrical "rings" upon the core, and adopts the more mechanical and satisfactory plan of turning and boring the parts to an exact fit, and forcing them into place by means of the hydraulic press. The hydraulic press is also used by Whitworth in forging the parts of the gun as Haswell uses that machine in forging the details of locomotive work. . . . In making shot and shell, Whitworth uses a molding machine, and has succeeded in making such smooth and accurate castings that they can be used without loss of time or money in tool-dressing. They are, when of iron, cast of Pontypool (Welsh) white iron, which chills well and makes remarkably smooth and solid castings. . . . . In the year 1870 the writer (Thurston) examined the principles, the design, and the methods of manufacture of the Whitworth ordnance, and made a report (Report of the Secretary of the Navy, 1870, p. 172. *et seq.*) on the rival systems of Great Britain, at the request of the Admiral of the Navy, exhibiting its superiority to the other systems of ordnance then known, and urging its thorough and immediate experimental examination and provisional adoption. There seems to be no reason to

doubt the correctness of the conclusions then arrived at. The system is philosophical, mechanical, effective and economical. . . .

Institution of Mechanical Engineers.—On Fluid-compressed Steel and Guns. By Sir Joseph Whitworth, Bart., D. C. L., F. R. S.

The difficulty he experienced in obtaining sound ductile steel led the writer to institute experiments in compressing steel in a fluid state. For melting steel there are in operation at his works in Charlton street the crucible, the Bessemer, and the Siemens-Martin processes; and pressure is applied to the fluid metal, in each case, as quickly as possible after it leaves the furnace. . . . The power of elongation, represented by the word "ductility," is of the first importance for some purposes, as in guns, torpedoes, boilers, etc., and whenever severe strains might be suddenly applied; while in some cases, as in cutting tools, the strength of the metal is of the first importance. Cylinders of steel, to resist with safety the strains produced by gunpowder, should have a ductility of 30 per cent.; more than this is unnecessary, for cylinders of such metal do not fly into pieces when burst, but simply open out or tear like paper, and a metal of greater ductility would not therefore be required for any structural purposes. It is now possible to produce with certainty by the compression of fluid metal, steel that will bear a strain of 40 tons per square inch, which elongates 30 per cent. of its length before breaking—the length of the test recommended by the author being two inches and its sectional area one-half a square inch; such a metal would not harden sufficiently to cut other metals. . . .

Forging.—The steel castings are forged by either the steam hammer, the rolls, or the hydraulic press, or a combination of these; but for large forgings generally there is a great superiority in the work produced by the hydraulic forging press. For the stroke of a press is that of a continuous pressure, and it is effective right through the mass of metal; whereas the blow of the steam hammer is largely expended within a short distance of the surface, while the centre of the work is for a certain period comparatively unacted upon and therefore the different parts of the metal of the forgings produced under the hammer exist in very different molecular conditions. This is not the case, as before stated, when the forging press is employed.

Cavalier de Cuverville, Capitaine de Vaisseau, in his "Progress in Naval Artillery from 1855 to 1880," says:

Steel in general, but above all cast-steel such as is employed by Whitworth, that is to say, compressed in the liquid state, forged under powerful hydraulic presses, which knead it so to speak, and form it over mandrels without the injurious action of the hammer—this steel tempered in oil, *is, without exception, the metal for guns*, because with a relatively high elastic limit which insures it against disfigurement as the result of firing, it possesses a high tenacity, and a total elongation before rupture, which increases its strength and guarantees the gun against the chances of bursting; it is capable of assuming a variety of attributes, which permit the choice of the particular quality of metal demanded by the object in view; it allows, finally, the construction of ordnance which for equal power weighs much less than that of cast-iron fretted and tubed. . . . . While works were being pursued in France which completely changed the iron industry and led two of our principal establishments to erect 80-ton steam-hammers—Le Creusot and St. Chamond—important results had been also obtained abroad. In view of the present extended use of steel, it can be but regretted that these magnificent establishments should not have preferred the Whitworth system of forging by hydraulic pressure to that of forging under the hammer, in order to secure homogeneous steel, which both simultaneously adopted.

Extract from a paper read before the British Association by Mr. B. Baker, M. I. C. E., on the "Forth Bridge."

It is hardly necessary to state that the whole of the superstructure will be of steel. . . . . The steady pressure of hydraulic presses is to be substituted for hammering wherever practicable, and annealing will be required if the steel has been distressed in any way.

In the House of Lords, on Feb. 10, 1882, the Duke of Somerset, in making some inquiries of the First Lord of the Admiralty, said he had long since come to the opinion that we must adopt breech-loading guns, and if we had them we could do with guns of fifty or sixty tons instead of one hundred tons, if we had compressed steel, and if that were not possible at present it would be soon.

It is unnecessary here to go over the recommendations of our own "Gun Foundry Board;" they are quite recent and, as is well known, they were strongly in favor of the Whitworth metal and methods of treating the same.

IS SLOW-BURNING POWDER A GOOD THING OR A TRICK OF THE TRADE.

3. Slow-burning powder—Why has it come into use? Is it a good thing, a necessary and economical innovation, or is it a mere "trick of the trade," introduced to nurse along incompetent, unmechanical and unscientific gun construction?

Let us hear first from Longridge, an eminent physicist, engineer and mathematician, and, for a great many years past a profound student of ordnance matters. He has a great deal to say upon the subject, but we shall make only a few extracts:

Slow burning powder is not *per se* an improvement as regards developing propulsive force. It is a retrograde step towards the practice of the Chinese. If we have a strong enough gun the quicker the powder the greater will be the effect of it *weight for weight*. Col. Maitland says that the great desiderata in a powder is "to obtain a low maximum pressure. long sustained." Let us consider this. Take the case of the 8 inch gun fired with 35 lbs. pebble powder and 180 lb. shot, length of barrel 112 inches, initial velocity 1,374 feet per 1". In this case the maximum pressure was found to be 15 tons per square inch at 29½ inches from the breech end of the gun, and this was reduced by expansion to about one ton per square inch at the muzzle. The mean of all the pressure on the shot during its passage to the muzzle was about six tons per square inch. Now, if Col. Maitland's desideratum were attained, we should have a powder burning slowly and developing this pressure of six tons all the time. When this shot left the muzzle there would be in the gun 3 27 cubic feet of gases at a pressure of six tons per square inch, all of which would be dead loss, and the work thus lost would be equal to the whole work expended on the shot in the first case during its passage through the last 50 inches of the chase. This is on the assumption that the weight of powder used was the same in both cases. Now suppose that the whole of this powder were ignited and converted into gas before the shot moved, we should then have an initial pressure of at least 25 tons per square inch and a mean pressure of about 10 tons per square inch, and the shot would leave the gun with a velocity of something like 1,780, instead of 1,370 feet per 1". Neither can I agree with Col. Maitland in his views of the relative effect of quick and slow burning powder in straining the gun. No doubt the slow burning powder strains the gun much less, and, with a weak gun, this is a great point gained; but Colonel Maitland's reasoning about this is altogether fallacious. He says: "When quick burning powder was used the metal in immediate proximity to the charge was called upon to undergo severe strains which had scarcely time to reach the more distant portions of the gun at all; the exterior was not nearly so much strained as the interior." . . . The velocity of the transmission of a strain through any material is, in fact, the velocity of the transmission of sound through the same. In iron this is 15,500 feet per 1", in steel, from 17,000 to 18,000 feet per 1". . . . As the size of guns increased, it was found that the powder was too strong for the guns, and efforts were directed to the production of a slow burning powder *to reduce the strain on the gun*. Thus the weakness of the gun was the real cause of the production of slow burning powder. . . . . The real *cause* of the alteration in the powder *was the weakness of the gun*, and its legitimate consequence is not the adoption of breechloading but the lengthening of the gun. . . . It is, moreover, rather curious that one of the advantages claimed for this expanding band of soft metal (on the base of the rifle projectile) neutralize *pro tanto* the advantage of the slow burning powder. The object of the slow burning powder powder was stated to be that it decreased the initial pressure.

The shot moved gradually away under a gradually increasing pressure. We are now told that the function of this band of soft metal is to prevent the shot running away until, by the more complete combustion of the charge, the pressure has accumulated behind it. Surely this is equivalent to getting back towards a quick-burning powder. . . . . But when it is said, as it often is, that a slow-burning powder gives a greater muzzle velocity, an assertion is made which is not true, *if the weight of the powder remains the same*. When slow-burning powder is used, a larger charge of it must be used to obtain the same muzzle velocity. . . . . There appears also to be an opinion that in the explosion of powder in close vessels or guns there is a "liquid residue," which continues to give out heat whilst the projectile is moving along the bore. . . . . But beyond this there is a fundamental objection against such an action (of "liquid residue") as regards its useful effect, which is fatal to this theory, as it also is to all the presumed ballistic advantages of slow-burning powder. This objection rests on the thermodynamic law, which is expressed as follows: "Any thermal machine which works between given limits of temperatures, gives the maximum useful effect when all the heat is received at the highest temperature and rejected at the lowest." In conformity with this law, the highest useful effect that can be obtained from gunpowder is when the whole of the heat is developed in the powder chamber before the shot begins to move, and this indisputable fact at once disposes of all the asserted advantages of a prolonged development of heat, whether derived from a liquid residue or a slow-burning powder. . . . . A great deal has been said about the effect of what is called "dissociation." It is asserted that at the very high temperature existing in a gun in the vicinity of the charge, the chemical reactions which give rise to the gases do not take place, but that as the shot proceeds towards the muzzle the fall of temperature allows those reactions to take place, and by the evolution of gases keeps up the pressure; but this is at direct variance with the evidence of the Crusher gauges, and rests, so far as we know, on pure hypothesis. If it were true, the pressure curve would be higher as we proceed from the breech than is given by the formula, and it would be lower near the breech. There is every reason to believe that the contrary is really the case, and it seems to us quite impossible to admit such a hypothesis as entitled to any weight in determining the pressure at different parts of the bore. . . . .

In a paper read, April, 1882, at the Society of Arts, Col. Maitland discoursed at some length on the merits of slow-burning powder, and he said in summing up that the great desideratum was "a low maximum pressure long sustained." Suppose, then, this desideratum perfectly realized, and that a powder is obtained not differing in chemical constituents, but which has the property of so burning as to give a uniform pressure on the base of the projectile from its first start till it leaves the muzzle. Suppose a gun with a charge of 1 lb. of powder at density = 1, and of such length as to give five expansions. In this case the powder will give out 91 foot-tons of work to the projectile. In the other case, with the same gun there must be a uniform pressure of 18.2 tons, and when the projectile leaves the muzzle the gun will be filled with powder gas at this pressure; the density of this gas will be 0.66; and as the volume is five times greater, the weight of the gas will be 5 x 0.66 = 3.3 lbs. In other words, 3.3 lbs. of the *improved* powder will just do the same work as 1 lb. of the old quick-burning powder. This is beyond dispute, and no jugglery about "dissociation" or rate of combustion can alter it.

Says Sir Joseph Whitworth, in a paper read before the Institution of Mechanical Engineers:

With weak materials, weak powder, long guns, and short projectiles must be used. Strong, ductile, sound material, allows of strong, quick-burning powder, short guns, long projectiles, and rapid rotation. Long projectiles give greater penetration at both long and short ranges, also a much lower trajectory, except at the lowest elevations, for very short distances.

From a Whitworth gun you may fire anything from a rifled sphere to a rifle projectile *ten* calibres in length. You may fire, from one of them, a half-a-dozen rifled spheres at one discharge, and this, under many circumstances which can easily be imagined, is a matter of the greatest consequence, for the rifled spheres fly well together for short ranges, and strike a tremendous blow: imagine their effect against a torpedo-boat, or an unarmored cruiser, etc. We have already quoted Col. C. B. Brackenbury, R. A., late Superintendent of the Royal Gunpowder Factory, Waltham Abbey, but we must have him right here again, in connection with this slow-burning powder question. In a recent paper, read at the Royal United Service Institution, he says:

There is not a single gun actually adopted for service in any country, which is not, by its weakness, a hindrance to the full action of the "Spirit of Artillery." When gunmakers say, as they frequently do, that their gun will produce a certain effect provided that a suitable powder be found for it, they mean, provided that the strength of gunpowder be restrained, cribbed, cabined, and confined, to suit the weakness of the gun. We sometimes see in human life a great and strong spirit tear to pieces a feeble frame which contains it, and we do not say, "What a pity that the spirit is so strong," but rather, "How sad that the body is so weak." In the case of artillery, we are always subduing and taming the spirit, instead of strengthening the body. This may be necessary under existing circumstances, but if so, the circumstances are unfortunate, and stand in the way of getting the most value out of the "Spirit of Artillery."

THE LINES ON WHICH WE SHOULD DEVELOP OUR ORDNANCE.

You are right, Colonel Brackenbury, "the circumstances are unfortunate"—they are infernally unfortunate, and we should not be overwhelmingly surprised should some clever statistician be able to figure out that thus far Krupp, Armstrong and Woolwich guns have wounded and slain somewhere in the vicinity of as many friends as foes. We have only one account of accidents at hand, but it is extremely interesting so far as it goes. Colonel Hennebert, in a communication to the *Correspondant*, speaking of the German artillery, says of Krupp: "When we took some guns from the Chinese during the Tonquin Expedition they were made by Krupp, and more recently, the heroic Gordon, shut up in Khartoum, mentioned the part played by these guns in the regions bathed by the waters of the White and the Blue Nile. And yet this *materiel* is far from being irreproachable. During the war of Bohemia several field pieces burst. After the war, in order to allay public agitation, trials *à outrance* were made and these cost several young officers their lives. In 1868, General de Bœuf declared that several guns firing ordinary charges had burst; nor can it be said that the Prussian steel guns of to-day are safe. In fact, between 1867 and 1870, numerous accidents occurred in Russia, England, Germany and Italy, on land and on board ship." Colonel Hennebert says that during the Franco-German war 200 Krupp guns burst, as mentioned by Major Haig in a report read before the Royal Artillery Institution, and by the Duke of Cambridge, in a speech in the House of Lords on April 30, 1876. "Out of 70 heavy guns employed against the southwest of Paris, 36 were disabled during the first fortnight of the bombardment by the effect of their own fire. At Versailles it was thought that if the French had held out a week longer, the German siege batteries would have been reduced to silence. It is equally certain that during the campaign on the Loire, Prince Frederick Charles had 24 of his guns disabled by their own fire."

Truly, "the circumstances are unfortunate," and in Europe they are likely to continue so, for well-known reasons; but in this country there is no reason nor excuse for going astray—the Gun Foundry Board have done their duty; Whitworth has shown how to make guns which do not burst, and which do not wear out in 200 rounds—no, nor in 5,000 rounds; many have shown the fallacy of costly slow-burning powder, with the necessary accompaniment of abnormally long, heavy and unwieldy guns. Why, therefore, do we not here, at the outset, commence our development of our new ordnance upon proper and well marked-out lines of procedure? Why go on fooling with conversions, with the multi-charge gun, with guns composed of forty different kinds of metal, etc. With the complications already existing to the north and to the south of us; with foreign nations constantly seizing and fortifying strategic positions all around us, it is not difficult to imagine that we may very shortly be in the most urgent need of the most effective, safe and durable artillery which can possibly be produced, and plenty of it.

G. W. SUMNER, Commander, U. S. N.

WASHINGTON, D. C., Feb. 10, 1887.

RECENT DEATHS.

THE lingering illness of Captain Edward P. Lull, U. S. Navy, terminated peacefully at the Pensacola Navy Yard, of which he was commandant, at 2 P. M. of Saturday last, the 5th inst. Although greatly emaciated and exhausted by his prolonged struggle with disease, the exact nature of which was not discovered until within a few weeks, Captain Lull died in harness, having attended to official duty only two hours before what most nearly resembled diabetic coma ended his useful and honorable career.

This career began at Windsor, Vt., Feb. 20, 1836, and was almost immediately invested with difficulty. Before he was two years of age, his father died, leaving a widow and six children, of whom he was the youngest, in very limited circumstances. When about nine years old, his mother decided to follow some of her older children who had gone to the great West, and set out upon her journey by way of the Erie Canal. She settled at Milwaukee, where, after a little schooling and some rough experience in farming, the junior Lull found himself an apprentice in a printing office.

While thus engaged he was fortunate enough to secure, in 1851, through the favor of ex-Governor Doty, an appointment to the Naval Academy from Wisconsin. By most diligent application he was enabled to pass the entering examination and ultimately graduated among the first of his class, which numbered many men who have made their mark in the Navy. He was immediately ordered to sea, his first duty being on the frigate *Congress*, in the Mediterranean. His second cruise was as master of the steam frigate *Colorado*, and in 1860 was returned to the Naval Academy, as Assistant Professor of Ethics. Soon after, Secretary Toucey, upon recommendation of Capt. Geo. S. Blake, Superintendent, discharged a well-known character, "Mr. Angelo Coppa, teacher of fencing," and appointed Lieut. Lull to this, in addition to his other duties, on account of his skill in the art.

At the outbreak of the war he went with the school when transferred to Newport, but in May was ordered to the *Roancke*, in which ship he took part in the engagement at Hatteras Inlet. The following September Captain Blake applied for "the services of Lieutenants Luce and Lull as highly necessary for the Academy," and he was returned there against his wishes. Dec. 9, 1861, the Navy Department directed Captain Blake to inform the officers who applied for service afloat that "the service upon which they were employed *was equal in importance to any other duty whatever*, that it was the the determination of the Government to sustain that important institution, and add to its efficiency in every possible way;" and for him to furnish copies of that letter to Lieutenants G. W. Rodgers, Edward Simpson, E. O. Matthews and E. P. Lull, and to Master J. G. Marvin. In 1863, when twenty-seven years old, he became commandant of midshipmen and Executive Officer of the Naval Academy, also immediate commander of the *John Adams*, *Santee* and *Constitution*. June 24 of that year, he took the *John Adams* to sea "with the least possible delay in pursuit of the privateer *Tacony*, known to be cruising upon our coast," and in December succeeded in getting orders to active service on the *Brooklyn* as Executive Officer. This enabled him to participate in the battle of Mobile Bay, and in subsequent engagements, and, successively, to command the captured Confederate ironclad *Tennessee*, the 3d district of the Mississippi Squadron, the *Seminole* in the blockade of Galveston, and the ironclad *Lafayette*.

Since the war, he has served on the Swatara, the Macedonian, the Savannah, as instructor in Spanish, and head of the Department of Drawing at Annapolis, on the Lancaster, in command of the Nantasket, 1869; in command of the Guard, Darien Surveying Expedition, and protecting the fisheries in Gulf of St. Lawrence, 1870-71; in Bureau of Yards and Docks, 1871-2; command of Nicaragua Surveying Expedition, steamer Kansas, 1872-3, for which he received the thanks of the Department for "energy displayed and satisfactory performance of laborious work;" command of Torpedo Station, and member of Interoceanic Ship Canal Commission, 1873-74; special survey of Panama canal route, 1875; Hydrographic Inspector of Coast Survey, June 4, 1875, to Dec. 1, 1880, during which time he was frequently in the field surveying in Maine, North Carolina, Louisiana and California, exhibiting such fidelity, efficiency and economy that his orders of detachments were endorsed by his chief, "forwarded with extreme and sincere regret, C. P. Patterson, superintendent Coast and Geodetic Survey," and accompanied by a letter of the most unqualified commendation. He commanded the Wachusett, Pacific Station, 1881, again receiving the thanks of the Department for efficiency and promptness in preparing his ship for sea to search for the missing Pacific mail steamer City of New York; ordered home from Alaska and promoted captain Oct., 1881, and in Feb., 1882, revisited Nicaragua upon a special mission to the Congress of that country, in the interest of the Provisional Interoceanic Canal Society.

In June, 1882, he reported for duty as Equipment Officer of the Navy-yard, Boston, and soon thereafter the disease, which ended his life, manifested itself in a marked loss of weight and strength. In July, 1884, he was detached and sought rest at Bethel, Maine. The following April he felt able to accept orders to command the Hartford, flagship of the Pacific Station, but broke down within a year, and was invalided home. The immense manly form so well known to the Navy returned almost a skeleton, and his once broad and happy face was pinched and haggard. At the earnest solicitation of friends he sought a mild climate, and last October assumed command of the Navy-yard at Pensacola. For a time he seemed to improve, but it was only apparent and he gave up all hope of recovery.

Captain Lull was a Master of Arts of Princeton, a Companion of the Military Order of the Loyal Legion, a Fellow of the American and honorary member of the British Association for the Advancement of Science, a corresponding member of the American Geographical Society, member of the New England Historical Geneological Society, of the Philosophic Society of Washington, of the Navy Mutual Aid, American Legion of Honor, and other beneficial societies. Of his total service of 35 years and 10 months only 2 years and 6 months were unemployed, and he leaves to the service a most worthy example and to his family the precious heirloom of an unsullied record. He was twice married. Two grown children, a son and a daughter, by his first wife, *neé* Elizabeth Ferguson Burton, survive him; also a son and daughter of the second, who is a sister of the late Commodore Edward Terry, U. S. N. Mrs. Lull is a daughter of the late Brvt. Brig. Gen. Henry S. Burton, colonel 5th U. S. Artillery.

His remains were interred with every military honor at the beautiful Barrancas National Cemetery on Monday last. All the Army and Navy officers of the station, a battalion of artillery and marines, the captain and four officers of the Italian corvette Flavio Gioia, and a great concourse of the employés of the Navy Yard and citizens, both white and black, attended the funeral. H. C. C.

—

The following well-merited tribute to the memory of Lieut.-Col. Robert N. Scott, 3d U. S. Artillery, who died March 5, has been issued:

WAR DEPARTMENT, A. G. O., WASHINGTON, March 7.

The following is published for the information of the Army:

WASHINGTON CITY, March 7, 1887.

It is with deep regret that the Secretary of War finds himself called upon to announce to the Army the death of Lieut.-Col. Robert Nicholas Scott, 3d U. S. Artillery, which occurred in Washington, D. C., on March 6, 1887.

Col. Scott was born in Tennessee Jan. 21, 1838, and was appointed from California Feb. 21, 1857, a 2d lieutenant in the 4th Infantry. He served on the Pacific Coast until the breaking out of the rebellion in the various grades of 2d lieutenant, 1st lieutenant, adjutant and captain, and joined the Army of the Potomac in November of 1861, being wounded at Gaines's Mill June 27, 1862, in which battle he gained the brevet of major "for gallant and conspicuous services." From August, 1862, to June, 1863, he was acting adjutant-general of provisional brigades and of Casey's Division, taking then the position of aide-de-camp to the Maj.-General Commanding the Army, which he held until March, 1864. He remained as aide to Gen. Halleck until September of that year, when he was appointed assistant adjutant general of volunteers with the rank of major, and was on duty at Headquarters of the Army and of the Military Division of the James until July, 1865. He was appointed lieutenant-colonel by brevet March 13, 1865, "for meritorious services in connection with the organization of the volunteer armies of the United States," and was assigned to duty as adjutant-general Military Division of the Pacific in July of that year, being mustered out of the volunteer service in January, 1867. He served on the Pacific Coast as assistant adjutant general and aide-de-camp to Major-General Halleck until June, 1869, when he accompanied that officer to the Military Division of the South, where he served until 1872. He was assigned to the 16th Infantry Jan. 26, 1870, and transferred to the 3d Artillery Dec. 31 of that year. From March, 1872, to June, 1873, he was professor of military art and science at the Seabury Mission, Minnesota, and commanded Fort Ontario, New York, from July, 1873, to December, 1877. He was promoted major, 3d Artillery, March 20, 1879, and lieutenant colonel March 22, 1885. Since Dec. 14, 1877, Col. Scott has been engaged, under the direct orders of the Secretary of War, in the compilation of the Official Records of the War of the Rebellion, and since the beginning of this year, in addition to his other duties, as a member of the board on Army Regulations, which duty he had also previously performed in 1877. He was the author of an analytical digest of the military laws of the United States. In 1878 he was assigned as military secretary to a Congressional committee engaged upon a reorganization of the Army.

Thus is closed a military career which for thirty years has been conspicuous for manly courage, intellectual ability, and unswerving fidelity to duty.

He needs no eulogium from anyone; his record is a part of the history of his country and speaks for itself, and while the Secretary of War feels deeply the loss which his death brings upon the Army and the office of the Secretary, where he was assigned to special duty, he feels that, having announced that death to the Army and recited that brilliant and stainless record, he has done all that words may do in paying homage to the memory of a gallant soldier and true-hearted gentleman. WM. C. ENDICOTT,

Secretary of War.

By order of the Secretary of War:

R. C. DRUM, Adjutant-General.

In an order issued March 6, Colonel Gibson, of the 3d Artillery, says:

Endeared to him by long and intimate association from the bright youth of eighteen in San Francisco, through his early manhood and mature years, to the sudden end of his days in Washington, the death of this distinguished officer is keenly felt and deeply mourned by the colonel of the regiment. Inheriting from his Scotch Covenanter ancestry the admirable traits of that race and faith, blended with the influence upon his character of his California education and associations, and gifted, like his reverend and distinguished father, with a brightness of intellect, amiability of disposition, kindness of heart, and geniality of humor, Colonel Scott's success in life and in his profession was assured from his first entrance into the Service. He soon attracted the notice of his superiors in the Army, and eminent soldiers like Buchanan, Halleck, Schofield and Sherman availed themselves of the aid and counsel of his remarkable abilities; and he was finally selected by the War Department in 1877, to compile the War Records of the Rebellion, and whilst so industriously employed, died at his post of duty.

These, with the Army Regulations *twice* submitted to his revision, his literary labors as Secretary of the Joint Committee of Congress to reorganize the Army, and his excellent contribution to the military literature of the day, in his "Analytical Digest of the Military Laws of the United States," are evidences of his great talents, admirable culture and sound judgment. In the field, too, he ever bore himself gallantly, and at Gaines' Mills on the Peninsula, where he rendered gallant services on the staff of the gallant soldier, Robert C. Buchanan, he was borne from the field severely wounded; and of him it may not untruthfully be said, as Winfield Scott said of the ever faithful Canby: "He took the shortest line on the field of battle and on a sheet of paper of any officer in the Service." Among the brilliant names that grace the rolls of the 3d Artillery from Macomb to Sherman—each the head of the Army, from Braxton Bragg, who, alone and unsupported, "saved the day" at Buena Vista, to George H. Thomas, who won a crowning victory at Nashville, no name appears more worthy of honor than that of Robert N. Scott.

These tributes to this able and accomplished officer leave nothing to be added to complete the record. Serving on the same staff with him during the war, in intimate association with him and his family during the twenty and odd years which have passed since then, the Editor of the ARMY AND NAVY JOURNAL can bear his personal testimony to the truthfulness of every word here spoken. There are many beyond the circle of official life who will mourn for Scott. His genial, kindly spirit made friends for him everywhere, and his loyalty to duty, his earnest zeal and unflagging industry in every work he undertook, have been known and recognized by many whose chief interest and concern with Army life was through their knowledge and respect for him. By numerous ties of relationship Colonel Scott was united to the Service in which his life was spent. His wife is the daughter of Gen. Silas Casey, and the sister of the naval officer who bears that honored name; another brother is Thos. Lincoln Casey, Corps of Engineers of the Army, whose wife is a daughter of Prof. Weir, so long associated with the Army. Through a sister of his wife's, who married Lewis C. Hunt, Colonel Scott was connected with the historic Army family of that name, and among the family mourners at his funeral was that distinguished representative of the artillery service the venerable General Henry J. Hunt. Besides his wife Colonel Scott leaves three daughters. The pall-bearers at his funeral, held at his residence in Washington, March 8, were Adjt.-Gen. Drum, Col. H. G. Gibson, 3d Art.; Gen. S. V. Benét, Chief of Ordnance; Capt. Willis Lyman, 5th Inf.; Com.-Gen. MacFeely, Asst. Adjt.-Gen. Kelton, Surg. Huntington and Col. John M. Wilson.

The remains were interred at Oakhill Cemetery with military honors, a company of the 3d Artillery furnishing the escort.

Colonel Scott's death was the unexpected result of a disease which did not promise a fatal termination. On Sunday he took a cold, which on Wednesday developed into pneumonia, and on Thursday night took an unlooked-for turn. The patient seemed to have no vigor of constitution with which to resist the attack.

—

MEDICAL DIRECTOR JOSEPH WILSON, U. S. N., retired, who died at Philadelphia March 1, aged 72, entered the Navy in 1843, and served in California during the Mexican War, was present at the hoisting of the flag at Monterey in July, 1846, and marched with a regiment of mounted rifles from that point to Los Angeles. He was also present at the surrender of the last remnant of the Mexican force at San Fernando Mission, was attached to the storeship *Supply* at the Japan Expedition, 1852-5, and to the Philadelphia Navy-yard until 1857; served on the Pacific and North Atlantic Squadrons up to the outbreak of the War, was at the bombardment and capture of Fort Fisher. He served on the Board of Naval Surgeons after the War, was Surgeon of the South Atlantic Fleet in 1869, and, in the Centennial year, served as President of the Board of Naval Examiners. He attained the grade of Medical Director April 26, 1872, and was retired from active service Jan. 6, 1878, and settled in Philadelphia. The funeral took place March 5, and was largely attended by old friends of the family. The remains were interred at Cedar Hill Cemetery.

G. HARRIS HEAP, our Consul-General at Constantinople, who died March 6, had been ailing for some time, but his death was unexpected. The funeral took place March 8th, great honor being paid by the civil and military functionaries at Constantinople, and the remains were interred in the English cemetery at Scutari. Mr. Heap belonged to an old Pennsylvania family. His great-grandfather, George Heap, was sent by the British Government, in colonial times, as surveyor to Pennsylvania. One of the earliest maps of Philadelphia by him is preserved in the Pennsylvania Library in that city. His father was for many years a surveyor in the U. S. Navy, and subsequently Consul at Tunis. His mother was a sister of Commodore David Porter. His first wife was a sister of Admiral Porter. Major David P. Heap, Corps of Engineers, U. S. A., and a daughter—wife of Lieut. W. O. Sharrer, U. S. N.,—are his children. He accompanied General Fremont on his pioneer trip across the Rocky Mountains, on which he wrote a work. Mr. Heap was a fine linguist and a very accomplished gentleman.

THE funeral of the late Commo. W. T. Truxtun, U. S. N., at Norfolk, Va., was an imposing affair. The military portion of the procession which followed the remains to the grave was large, and the civil portion larger. Thousands of people lined the streets through which the procession passed, and when it reached the gates of the cemetery so great was the crush that many were unable to gain admittance. The entire line was commanded by Lieut. R. M. G. Brown, U. S. N., with the following aides: Lieuts, Hugo Osterhaus, F. H. Tyler, A. W. Grant and Asst. Engr. R. T. Hall. The casket was handled by eight sailors from the *Franklin*, and the following were the pall-bearers: Capt. George C. Remey, Chief Engr. S. D. Hibbert, Pay Director Rufus Parks, Medical Director D. Bloodgood, Commander C. S. Cotton, Lieut.-Commander E. S. Houston, U. S. Navy; Capt. C. D. Boutelle, of the Coast Survey; Gen. R. L. Page, Capt. R. B. Pegram, Capt. C. F. M. Spottswood, Col. Henry Ward and Marshall Parks, Esq., citizens.

MRS. WOOD, widow of Chief Engineer W. W. W. Wood, U. S. Navy, died in New York City, March 5. The remains were taken to Washington, D. C., for interment. This unexpected death will cause a feeling of deep grief among a circle of friends co-extensive with the Navy, who will miss the genial amiability which was such a marked characteristic of the deceased. Engineer-in-Chief Wood, it may be remembered, was drowned in 1882 on the Lower Potomac, and since then Mrs. Wood has made Washington her residence until she went to New York for treatment of the disease which ended her life. She leaves two sons, one of whom is 1st Lieut. Thos. N. Wood, U. S. M. C., and four daughters, the wives, respectively, of Lieuts. Arnold, Heald, Stone, and Reich, U. S. N. Lieut. Wood married a niece of Gen. Geo. Thom, U. S. A.

MOTHER ANGELA, who died suddenly, Mar. 4, at St. Mary's Academy, South Bend, Ind., was a niece of Thomas Ewing, Secretary of State, under President Harrison, a cousin of the wife of Gen. Sherman, and also a cousin of James G. Blaine. During her Washington life, Mother Angela, then Miss Elvia Gillespie, was a much courted belle. When 26 years old she joined the order of the sisters of the Holy Cross. In 1870 she became the mother superior of the order

for the United States. During the war she devoted most of her time to establishing hospitals.

BY the death of Mrs. Senator Beck, Washington society loses a most estimable member, and an excellent wife and mother goes to her rest. Much sympathy is felt and expressed in naval circles for her daughter, Mrs. Goodloe, the wife of Major G. C. Goodloe, U. S. M. C. Mrs. Goodloe is reported as quite prostrated at her loss, for between the two ladies there existed not only the natural affection of mother and daughter, but a strong friendship as well. The remains were taken by Major Goodloe to Lexington, Ky., for interment.

MISS MAY LORING, daughter of Chief Engineer C. H. Loring, U. S. N., died in Washington, March 6, after a short illness. She was taken with measles, pneumonia following, and the disease resulted fatally. She had many acquaintances in Brooklyn and New York, made during her father's tour of duty at the Brooklyn Navy-yard.

THE sudden death of young Nicoll Ludlow, son of Commander Nicoll Ludlow, U. S. N., was a sad shock to all who knew either father or son. A wide circle of friends extend to the afflicted family the deepest sympathy. Comdr. Ludlow has been residing for some time past at Oakdale, L. I.

MR. JOSHUA S. FLETCHER, a prominent citizen of Philadelphia, died at his residence in that city, March 7th, in the 74th year of his age. He leaves a widow and seven children, one of whom is Lieut. Colonel J. S. Fletcher, Jr., 2d U. S. Inf., of Fort Omaha, Neb.

MRS. CLARA H. LAYTON, mother of Lieut.-Colonel C. Rodney Layton, U. S. Army, retired, died at Georgetown, Del., Feb. 28th. The remains were interred in Elmwood Cemetery, New Brunswick, N. J., by the side of her father, the late Dr. N. Benedict.

P. R. LOVEITT, who died at Laconia, N. H., March 3, aged 91, dates his military history back to 1814 when he was stationed at Fort Constitution. He remembered when the British fleet lay off Portsmouth Harbor threatening the destruction of the town.

MRS. SHERMAN, wife of Major Hoyt Sherman, brother of General Sherman, U. S. A., died at Des Moines, Iowa, March 2, after a lingering illness. She was an estimable woman, greatly beloved by all who enjoyed her acquaintance.

DR. J. T. N. MADDOX, who died recently at Breathedsville, Md., was the father of the late Assistant Surgeon T. J. C. Maddox, U. S. A., who was killed Dec. 19, 1885, in New Mexico, during an engagement with hostile Apaches.

JUDGE H. CLAY DALLAM, Chief Judge of the Baltimore Appeal Tax Court, and a prominent citizen of Baltimore, died March 7th at his residence in that city. His daughter is the wife of Lieut. John Bigelow, Jr., 10th U. S. Cavalry.

MRS. JANE WASHINGTON THORNTON BECK, wife of Senator Beck, of Kentucky, died in Washington, March 6. She was born in Auburn, Vt., Oct. 9, 1825, and was the grandniece and nearest living descendant of George Washington.

THE REV. HENRY WARD BEECHER, whose name and fame are so well known at home and abroad, died March 8th, at his home in Brooklyn.

MISS CORNELIA L. FORD, sister of Capt. Geo. E. Ford, U. S. Army, retired, died in Philadelphia, Feb. 13.

MRS. HILL, wife of Capt. Geo. D. Hill, U. S. Army, retired, died recently at Seattle, W. T., of cancer.

NEW PUBLICATIONS.

The United States Hydrographic Office has recently published in pamphlet form the "Coast Pilot of Alaska, Part 1, Supplement No. 1;" "Directory of North Pacific Ocean, Supplement No. 1;" "Directory for Behring Sea and the Coast of Alaska, Supplement No. 1;" "General Examination of the Pacific Ocean, Supplement No 1.;" "General Examination of the Mediterranean, Supplement;" "Sailing Directory of the Indian Ocean, Supplement No. 1;" "Sailing Directory for the Indian Archipelago, China and Japan, Supplement No. 1;" "Atlantic Coast Pilot, Division A (Eastport to Boston), Supplement No. 1;" "The Rio de la Plata, Supplement No. 1," and the "Northwest and West Coast of Spain and Coast of Portugal, Supplement No. 1." Though each of these is a very small pamphlet, the information contained is brought up to a late date, and will be very acceptable to maritime interests. The United States Hydrographic Office has also published a valuable "Great Circle Sailing Chart of the South Atlantic Ocean;" a chart of "St. Eustatius, St. Christopher Nevis and Montserrat" in the "Leeward Islands of the West Indies;" "Porto Rico and St. Thomas," the "North Coast of Columbia and Venezuela," "Port of Santiago de Cuba," "Port Elena," and "Port au Prince."

Messrs. A. C. McClurg and Co., Chicago, have in press for early February publication "A Manual for Infantry Officers of the National Guard." The design of the work is to give from the latest authorities the uniforms, arms, equipments and positions, for officers of every grade, on all occasions of drill and ceremony. It is compiled by Col. J. G. Gilchrist, 3d Iowa National Guard, and revised by Bvt. Capt. E. C. Knower, 1st Lieut. 3d Art., U. S. A.

Wm. H. Corbusier, M. D., U. S. A., has republished in pamphlet form the series of articles contributed by him to the *American Antiquarian* on the Apache-Yumas and Apache-Mojaves, branches of the Katchan family of Indians. He tells us that they do not endure physical pain any better, if as well, as the whites, even small surgical operations, such as extracting a tooth, almost always eliciting a groan or a yell.

The April number of the *Century* will contain Lt W. S. Hughes's able article on "Modern Aggressive Torpedoes," describing the remarkable developments of the torpedo warfare, torpedo boats, Lieut. Zalinski's famous dynamite gun, etc., etc. The paper contains 18 illustrations.

We are indebted to Adjt.-Gen. Samuel Dalton, of Massachusetts, for a neatly bound copy of his report for 1886, which contains some valuable data.

THE immense small-arms manufactory at Steyr has had to increase its ordinary staff of 900 to 4,000 workmen, who are now working night and day upon a sudden requisition of the Vienna War Office for the accelerated supply of the new Mannlicher repeating rifle. The whole order is to be ready for delivery by April, as according to the opinion of the military authorities it will require at least two months' drill to accustom the troops to the proper usage of the weapon.

THE STATE TROOPS.

CIVIL ORGANIZATIONS IN THE GUARD.

To the Editor of the Army and Navy Journal:

THE decision of Judge Advocate General Ivins as to the legal status of civil organizations in the National Guard is without doubt sound in law; but I doubt whether it will have any serious effect upon the practice of the various companies. Whatever his power, it is to be doubted whether an officer will be disposed in such a matter to put himself in opposition to the members of his company, to whom he looks for recruiting service, and whose wishes as to the associations they are to form must and should be consulted.

It will be found impracticable to discard the conditions of membership required by the by-laws of a large number of companies of the National Guard. So long as the right of a commanding officer of a company to use his judgment when he sees fit, irrespective of the vote of a company, either for or against a candidate, is recognized beyond dispute, I fail to see anything prejudicial to good order or military discipline in the custom of voting for a candidate. What is the object of voting for a candidate for admission to a company? It is merely a safeguard against the admittance of any person whose membership would prove detrimental to the interests of a company, and such a man would not make a good soldier. If by vote a worthless character is kept out of the National Guard, do not both the State and the Guard profit by it? The fact must be remembered that citizens at large are not clamoring for admittance to the National Guard; on the contrary, with the exception of the 7th Regiment, recruits are extremely hard to secure, and prizes are continually offered as inducements for men to bring in recruits. If the men of a command did not bestir themselves and get recruits, there would be scarcely a regiment in the Guard that would not be a skeleton. Now, under this condition, it is but natural that a number of young men of good standing should not desire to have among them any objectionable character; hence the system of voting.

It is very rare indeed that any candidate is blackballed, for the reason that a recruit is in most cases a friend of several of the company and known to them, and it is perfectly safe to state that the very few men who have been "black-balled" from the National Guard are better out than in it. How would the free recruiting system work in a regiment like the 7th N. Y.? Imagine one of our Italian street sweepers—a useful citizen—endowed with military ardor, joining the 7th; what effect would such an innovation have? The State would perhaps gain under this system a few possibly fair soldiers and lose 999 excellent ones. There is the temperance company of the 12th for example, one of the youngest and best in the regiment, with also the largest membership. Its gallant Capt. Barnard, and likewise every man under him are true, "pure water" disciples every time. The company owes its existence to "temperance," and the company by-laws state that no man using intoxicating liquors shall be enlisted in the company. Would it be fair for the enterprise and zeal displayed by this company, in gathering together such an excellent body of young men, to demand the admittance to this company of some recruit who would be totally contrary in his habits. We think not, and there is no such recruit who would wish to join. We have also the gallant 69th Regiment, which is distinctive an Hibernian regiment as the 11th is German. We are not aware that there is anything in their laws to compel a man to be Irish or German, but it would hardly be supposed that a large number of English recruits, "regular Johnny Bulls," are desirous of joining the 69th, or that many Frenchmen are clamoring to be admitted to the 11th.

OBSERVER.

We are obliged to our correspondent for this demonstration of the fact that the practice of electing recruits by a company vote is not only without sanction of law, as General Ivins has shown, but that there is absolutely no excuse, on the ground of necessity, for this departure from sound principles of military administration. He tells us that the recruiting is done by the men of the company themselves; hence they have the power to discourage the enlistment of undesirable men. He tells us further, that but few men are black-balled; what necessity, then, is there for interfering with the prerogatives of the captain by asserting a claim to do so which is not well founded in either law or military custom? Does our correspondent undertake to say that the officers of the Seventh Regiment would open the doors wide to undesirable recruits if they were not restrained by the superior judgment and knowledge of human nature of the men in the ranks?—that Captain Barnard would seek recruits for his pure water company in the rum-holes of the First Ward if he were not restrained by the temperance zeal of the men of his company? If it is not this, what is it that he is undertaking to show?—EDITOR JOURNAL.

PENSIONS FOR THE GUARD.

DR. BUSH has introduced a bill at Albany to pension the members of the National Guard in the same manner as the United States Regulars are pensioned. He goes further, and asks that if a militiaman be sunstruck on duty he be given a pension. The bill applies to all National Guardsmen who may be wounded or disabled while subduing a riot, or while parading, drilling or in encampment. If he is killed his pension is to go to his widow or heirs.

FIRST BATTERY, N. G., S. N. Y.

A CORRESPONDENT informs us that matters in the 1st Battery, N. G., S. N. Y., Capt. L. Wendel commanding, are booming; drills are going on regularly every Friday night and are very well attended, as are also the course of instructions given to officers and non-commissioned officers every Tuesday night, last Tuesday being devoted to horses, showing how to mount, saddle, harness and break in horses, four horses being used for that purpose. Two more names have been added to the roll, making a total of 100. The preparations for the twenty-first annual reception, ball and review on March 28, are actively progressing, and the indications are that it will surpass anything of the kind ever attempted by the Artillery. The invitations, which will be sent out by next week, are a piece of artistic work seldom seen, and the entertainment will be made more interesting by the presentation of about 18 gold medals for punctual attendance and excellence in drill.

Seventh New York.—Col. Emmons Clark.

THE third battalion drill of the season took place on Monday evening, March 7. The battalions are made up of two companies each, and on this occasion D reported with 35½ and G with 37½ files, which were divided into six companies of 12 front, leaving just two men to spare, who were employed as guards. Formation was very prompt. At the beginning of the drill Col. Emmons Clark took command, but he was suffering very severely from a cold. After a number of movements the strain on his voice became so severe that he relinquished command to Major W. A. Kipp, taking himself position as lieutenant-colonel during the remainder of the drill. This rather added interest to the affair, because the Major has not had command at battalion drill before, and it caused the men to prick up their ears and the spectators to open their eyes wider than usual. It is a well known peculiarity of the 7th that those holding commands of various degrees command too much, and juniors are so seldom seen in command that whenever one gets an opportunity to show his capacity he always becomes the centre figure of the group. Well, it is due to the Major to say that he did quite well, the lack of vocal power on this occasion of the Colonel being amply made up by his subordinate's stentorian commands. Nor did the latter exhibit much regard for the pedestrian qualities of his chief, and he spun the battalion around the hall at a lively double time several times, but the manner in which the Colonel went through the ordeal showed that his legs and feet were in excellent order. The drill comprised about the first half of the school of the battalion, minus the firings and some movements of minor importance. Nearly all the companies were commanded by lieutenants, some of them very recently appointed, and they showed much familiarity with their work so far as it went, but one could not escape the impression that they all knew what was coming before the commands were given. The men did very well in all their movements and their step in column of fours and the distances were much better than at the Governor's review. Of course they were not hampered for want of space on this occasion. In several instances some non-commissioned officers did not appear to be as prompt and precise as should be, and as is generally the case here. They should brush up before next drill. To make an interesting resumé of a drill a reasonable number of mistakes is necessary. These were lacking here. The manner of directing the movements, their rotation, and the premeditation in their execution precluded much danger of going astray. The beauty of the movements was their precision, while on the other hand their manner of execution gave no opportunity to the officers for rapid perception and instantaneous exercise of judgment, the cultivation of which is one of the principal objects of drill.

The several advances in line were extremely well executed the step being unusually even, the companies, in spite of their small fronts, when marching in column, kept perfect distances, and only when executing the final wheel into line were the distances in some cases faulty. In breaking to the front by companies and by fours distances were well calculated, and neither length of step nor cadence had to be altered, but the breaks were invariably made from the right, and the left, did get no chance to exercise itself. Double column of fours was formed on the march and from the halt, the double column changed direction in quick and double time and formed line to the front and by two movements, all of which deserve much praise. The right of companies rear into column was fair, and this fact probably induced the instructor to try the movement by the left, and much to the surprise and satisfaction of all the usual shipwreck was averted. This was the only movement by the left we remember during the drill. The evolutions governing the passage of obstacles were also satisfactorily performed, and the battalion executed the oblique marches in line and in column in the well known style peculiar to the 7th. A long march in column of companies in double time, severely tested the wind of the battalion, but the step and distances did not suffer, nor was there anything to find fault with during several passages front into line in double and quick time. In fact, the whole drill was of the smoothest possible character, but the execution of the men rather gave the impression of a routine matter than of a spirited exercise, in which every faculty and nerve has to be strained to make it satisfactory. We have not given the whole number of movements nor the rotation in which they were executed, but enough has been said to show what sort of a drill it was. While probably the precision of the evolutions cannot be equalled by any other organization in the Guard, there are several which can beat it in variety, rapidity and practicality. The old custom of executing movements only from the right and halting after every movement, is fast dying out in the Guard, and the best and most progressive organizations in their drills now sacrifice mere precision to principle, with the result of benefiting the organization, though probably not entertaining the audience so much as is the case under the old custom. Some more variety, less repetition and the abandonment of the custom of executing everything from the right in its battalion drills is what the 7th Regt. itself, as well as such of its friends as are able to judge, desire.

The regiment parade in full uniform, for review by Brig. Gen. Fitzgerald, and for the annual presentation of the Cross of Honor for long and faithful service on Monday, March 21. The following now in active service have qualified for the Cross of Honor during the past year, and will receive the same at the presentation referred to: Cross of Honor in Silver (15 years' service)—Capts. Daniel Appleton and Andrew Mills; Lieuts. Frank Pawling, John W. McDougall, Walter G. Schuyler, Horace C. Du Val and Bradish J. Smith; Corpl. Warren R. Bostwick and Pvt. John A. Hunt.

Cross of Honor in Bronze (10 years' service)—Capt. James T. Harper; Sergts. Edwin C. Ray, Jr., N. Malon Beckwith, Geo. H. Gould and Wm. P. Atkinson; Corpl. John F. Thiis and Pvts. Jos. R. Dederer, Cyrus F. Loutrel, Henry W. Comegys, Wm. R. Ward and Benj. F. McKinley. The following qualified, during 1886, for the Cross of Honor in gold (20 years' service): Capt. Geo. B. Rhoads, Lieut. Geo. A. Jones, Sergts. Thos. Clark, Jr., and Geo. W. Munson; and for the Cross of Honor in gold, with seven in brilliants (25 years' service): Lieut. Col. Geo. Moore Smith, Capt. Wm. C. Casey, Corpl. H. A. Bradstreet, Pvts. Whitman S. Lent and Geo. W. Lewis. The services of the two latter are specially commended.

Battalion drills are ordered as follows: C and K, March 23; D and G, March 28; B and I, March 31; E and F, April 5; A and H, April 8. Each battalion will be divided into six commands, and sergeants will therefore be prepared to act as officers, and corporals as company guides.

Commission of 2d Lieut. Horace C. Du Val is announced.

Twelfth New York.—Col. J. H. Jones.

IT is now considered nearly certain that the 12th Regiment will take possession of its grand new armory, 62d St. and 9th Ave., early in April. Very little now remains to be done; and the work, which consists principally of painting, varnishing and hanging several massive doors, it is promised, will all be completed in three weeks at the latest. Colonel Jones then intends to issue an order assembling the regiment in the old armory, have all private regimental and company property removed, and march the command over to its imposing castle, and take possess on of it in an informal way. The grand celebration of the event is to be inaugurated later, April 21 being the eventful date. The regiment will by that time have become acquainted with the ins and outs of its subterranean passages, winding staircases, tall tower, broad exits, commodious galleries, etc. The regiment will have reason to be proud of its new home, for it is indeed a very fine one, both as to comfort and to usefulness—and as a structure is one of the best. The games of the Athletic Association—which were to have taken place Feb. 19—will be held in the new armory about April 25 or May 2, due no-

tice of which will be given. The handsome programmes, in pamphlet form, to be issued to spectators, will be the finest that ever appeared at an athletic meeting, either in or out of the National Guard.

The following account of the battalion drill of the 12th on Tuesday evening, March 1, was omitted last week for want of space. As usual, the battalion consisted of 4 commands of 12 files. It was a good drill, and the mistakes were few and far between. The manual which commenced it was good and snappy. Then followed the orthodox companies right formed fours right, companies column right and the battalion was established in column of fours with too close distances in some instances, but when the battalion had circled around the hall a few times, the defect corrected itself to some extent and the battalion formed on left close column of companies in good style and deployed on first company. Having been wheeled into column of companies, the battalion then executed several changes of direction, halted and executed right of companies rear into column, as well as can be done with company fronts of 12 files. The next command was left into line wheel, when several of the pivot guides did not carry arms. The error was not noticed, or at least, not corrected. Then left of companies rear into column was executed in fair enough style, so as to induce the instructor not to venture a repetition, and the battalion executed right into line wheel, and the right guides evidently knew their business better than their brethren on the left, a few minutes ago. They promptly executed the carry. Companies right formed fours right was then ordered, and when column of fours had been formed by the command companies column right, and line re-formed by the command fours left, in fair manner, the battalion was ployed by the command close column on first company right in front, and deployed on fourth company. The officers here showed that they knew their business. This being satisfactory to the instructor he commanded centre forward, fours left and right, and after marching around the hall twice deployed by two movements. In these manœuvres the battalion did very well, making a solid, fine appearance in the changes of direction, and coming into line rapidly and precisely, but they spoiled their good effect by failing to come to support when the movement was completed.

A repetition was ordered, with better result. The next was a break to march from the right to left by fours and a formation of line from a column which had partly changed direction. They were well done. After some more close ployments in companies and divisions and deployments, a few double-column movements were well executed, and then after some more marching in fours the firings were taken up. In firing by company the third company waited until the first had completed firing, which, according to par. 388, is wrong. In the left oblique firings the rear rank was slow, irregular and slovenly on general principles. In the first company the left guide remained in the front rank. With exception of these defects the firings were fair, and after a number of double-column movements on the march and from a halt, and with deployments to the front and by two movements, the drill came to a close. Major John J. Riker handled the battalion rapidly and in a manner which seemed to indicate that he was used to this sort of thing, and no novice.

Thirteenth N. Y.—Colonel Edward Fackner.

WHEN assembly is sounded at 8 o'clock, and a battalion is turned over at 8.20, it is decidedly slow work. This was what Adjutant Henry C. Clark, of the 13th, did when he formed the right wing (Cos. B, D, G, H, and I), on Wednesday, March 2, as a battalion of five companies of twelve files front. When the adjutant, whose actions indicate a promising officer, has been there a little longer, such trouble will doubtless not occur again. Col. Fackner had command and began with the manual, which could have been better on general principles all through. During a march in column of fours the manual was better. Left front into line from column of fours was next, a formation of line by two movements of a column of fours which had partially changed direction, the same movement faced to the rear, and the whole repeated by the opposite flank, which followed, were all done well. The command then formed into column to the rear by the right flank, marched in company column, changed direction, executed oblique marches, and double column of fours, and did all these manœuvres well, but when the command fours right left fours on right into line was given the commander of the third company broke down, let his company get away from his control, and got it so hopelessly entangled with the fourth that the instructor had to come to the rescue. A careful explanation of the manœuvre was then given, a repetition ordered, and the thing passed off well. What particular principle of tactics was violated during the tangle cannot be told. It was one of those blunders which nobody can explain, but which, nevertheless, brings everybody into a position which causes him to ask himself the question how in the world he ever got there. Double column of fours was then formed on the march and line formed by the command right and left front into line, and this was followed by left of companies rear into column. The battalion then marched and changed direction in column of companies, which were decidedly ragged in third and fourth companies, for which with such small fronts there was no excuse, and then the companies formed line on the left. This was followed by a double column formation and deployment, a march in column of fours and an advance in line, a double column on the march, change of direction by the right flank and line by the movements, right into line wheel, left companies on right into line. They were executed all right, except that the performance of the third company (H), from the lieutenant down, went through all in a slouchy manner. Companies were then ordered to break from the right to march to the left, column of fours was formed by companies right forward fours right, which formed on left into line, another command fours left, file closers on the right flank, and a wind up of the movement by the command on right into line. Then came companies break from the left to march to the right, companies left forward fours left, on right into line, fours right, file closers on the left flank, and the command on left into line. This, like the previous movement from the right, brought the battalion again into proper position right in front, and wound up a drill which, considering that it lasted only about an hour, presented a large variety of movements. This could not have been done if there had been many halts, or if the commands had not been given rapidly. The 13th seems to be leaving the old rut, in which every movement is executed right in front and a halt made on every possible occasion. File closers were often changed from one flank to another, and although there were several mistakes the drill was snappy and quick and concluded with a good manual. The clearness and distinctness of the colonel's commands was proven by their prompt execution.

The turnout of the left wing (A, C, E, F, and K) on Friday, March 4, was very meagre, so that only four commands of 12 files could be formed. As at the previous drill the formation again took 20 minutes after the assembly had sounded. This is certainly too much waste of time. Looking at the drill as a whole it was somewhat better than the previous one. The manœuvres were numerous and the number of errors comparatively small. The manual standing and during the opening march in column of fours was good. After the command battalion left front into line and some unimportant movements by company and in fours were made, and afterwards the battalion was brought into line by two movements from a column of fours which had partly changed direction, first to the right and afterwards to the left, both faced to the front and to the rear. These were executed in commendable style. Then came right and afterwards left of companies, rear into column, wheels and obliques in company front, and companies on right into line, double column of fours, line by two movements, companies left forward fours left, wheel into company fronts, and at the end a continuing the march right into line wheel. These were gone through without interruptions or serious flaws, but the last mentioned proved too much for the company commanders because in spite of the special caution of the battalion commander to continue marching, they halted and the movement came to a stop. To make the best of the matter Col. Fackner accepted the situation and broke the battalion into column of companies to the front, wheeled them into company fronts and repeated his former command with tolerable success. A number of the movements enumerated were then repeated, and nothing needs special mention until the command double column fours left and right, on the march, was given. This was spoiled by the commandant of the fourth company, who, instead of giving the command fours right, kept on advancing with the 3d company, which brought the smooth flow of the drill again to a standstill. When the tangle was straightened the movement was repeated on the march, and it would have been first class but for the commander of the fourth company who should have complied with what is laid down in par. 506, pages 222 and 223. He did, however, not halt in rear of the flank of the preceding division and did not take his position as junior captain in the division. He was corrected and tacitly acknowledged the situation. After this took place the following, on which we have no comment to make, except that they were fair: Change direction by the right flank, then formed line by two movements. Right into line wheel. Left companies on right into line, then, companies break from the right to march to the left, companies right forward fours right, on right into line, companies break from the left to march to the right, left forward fours left, on left into line. This brought to a close a drill which for rapidity of execution and prompt, intelligent obedience of commands deserves special notice. The battalion was manœuvred on the march wherever practicable, was frequently inverted, mistakes were promptly noticed and corrected, and, with exception of the slim attendance, might be classed as a good one.

Forty-seventh New York.—Col. E. F. Gaylor.

THIS regiment will assemble at the armory in fatigue uniform, for instruction in aiming and sighting drill, and in gallery practice, as follows, viz.: Cos. F and B, Mondays, March 7 and 14, April 4 and 18; E and I, Tuesdays, March 8 and 15, April 5 and 19; A and G, Thursdays, March 10 and 17, April 7 and 21; D and K, Fridays, March 11 and 18, April 8 and 22. Assembly on each occasion at 8 o'clock P. M. These drills shall be continued at least thirty minutes each. The attention of company commandants is called to instructions given in General Orders No. 5, c. s., General Headquarters.

The commissioned officers of this command will report at the armory in fatigue uniform, on Wednesday, March 9, 1887, at 8 o'clock P. M., and each succeeding Wednesday at the same hour until further orders, for theoretical instruction.

2d Lieut. Edward J. Clarry has resigned.

MILITARY ENCAMPMENT AT CHICAGO.

A DESPATCH from Chicago states that General Chetlain, of that city, has incorporated an International Drill Co., and arranged with the Secretary of War for a great military encampment at Chicago to celebrate the semi-centennial of that city and, with the Secretary of State, to open a correspondence with foreign countries to secure the co-operation of foreign military organizations. General Chetlain is quoted as saying: "We expect to have a representation from nearly every country in the world, and are quite sure of a response from Austria, Russia, France, Turkey, Scandinavia, Belgium, Germany, Prussia and England. An effort will be made to treat with the countries of South America and it is reasonable to suppose that favorable replies will be received." General Chetlain is a little ahead of his facts. We learn that the Secretary of War has not yet reached a decision in this matter. He awaits the written statement of the committee having charge of the proposed International Drill. The Secretary of State is also waiting. No communications have been sent to foreign countries. Secretary Endicott is willing to help the venture in every way he can without violation of law.

MILITIA ITEMS.

In Orders 20, 69th N. Y., Col. Cavanagh directs that drills by wing in the school of the battalion take place: Right wing, Cos. A, B, D, E, and G, March 8, 15, and 22; left wing, Cos. C, F, H, I, and K, March 10, 17, and 24. Assembly, on each occasion, in State uniform and fatigue cap and equipments, at 8 o'clock P. M.

It has been discovered that Surgeon-General Fox and Gen. Horne were the staff officers whom Gov. Lounsbury cautioned about drinking punch. What the Governor of Connecticut said to his staff is destined to become as renowned as the remark the Governor of North Carolina made to the Governor of South Carolina.

Brig.-Gen. Louis Fitzgerald has ordered a session for theoretical instruction of his field officers, at the 7th Regt. Armory to-night, Saturday, March 12. The Brigade Staff is under orders for a drill at Dickels on Wednesday, March 16.

The committee on the selection of a proper arm for the N. G., S. N. Y., consisting of the Generals of the four Brigades, Gen. Chas. F. Robbins, General Inspector of Rifle Practice; Gen. Josiah M. Varian, Chief of Ordnance; Col. Emmons Clark, 7th Regt., and Inspector of Rifle Practice Charles A. Hess, have prepared a bill, to be introduced into the New York Legislature, asking for $5,000 for experiments for selecting a suitable arm for the National Guard.

Commissions have been received for 1st Lieut. Harold Christensen, Co. A; 2d Lieuts. Louis L. Coudert, Co. K; Jarvis W. Mason, Co. B; Walter L. Miller, Co. D, 11th N. Y.; G. C. Heilner, Co. D, 8th N. Y., and John J. Scanlon, Co. F, 69th N. Y.

On Saturday evening, March 5, G. P. Camman was elected 1st lieutenant Co. I, and Lieut. Houghwout captain of Co. D, 8th N. Y.

The commission of Lieut. Horace C. DuVal, Co. I, 7th N. Y., has been received.

On Wednesday, March 9, Paul V. Harris was elected 1st lieutenant of Co. B, 71st Regt.

Col. Albert P. Stewart orders battalion drills in the 11th N. Y. March 17, 24 and 31, and details Lieut.-Col. W. P. Walton, Major F. A. Jones and Adjt. P. H. Williams a Board for the examination of candidates for the position of Sergeant-Major. The Board met on Thursday, March 10. A regimental inspection of books is ordered March 14.

An election of a 2d Lieutenant for Company I, 71st N. Y., has been ordered for Tuesday, March 15.

The 12th N. Y. is under orders for battalion drill, March 17, 23 and 25.

The 4th Battery, Troy, N. Y., on recommendation of the Inspector-General, has been disbanded, and was mustered out by Col. Thomas H. McGrath, of the Inspector-General's Department. Col. Joseph G. Story, Ordnance Department, has just returned from winding up the affairs of the concern and settling the property question.

The 9th Regiment, N. Y., is ordered to assemble at their armory for battalion drills March 16, 23 and 30. On March 16 the marksman's badges will be presented to those entitled to receive them. Application has been made to the Adjutant-General for the regiment to go into camp at Peekskill or to some of the forts in the harbor this summer.

The 1st Hussars, of New York, gave a dinner of about 100 covers to their honorary members and other friends, at Delmonico's, on Tuesday, March 1. Among the prominent speakers were Gens. Schofield, Butterfield, Burnett, Fitzgerald, Major McLean, of the Old Guard; Com. Smith, of the New York Stock Exchange; Lieut. Carpenter, of the City Troop, of Philadelphia. Among the many invited guests present were represented the City Troop, of Philadelphia; the Boston Lances, the London Artillery. All the military speakers laid great stress upon the cavalry arm, and the bright future that the Hussars had before them. The honorary members are as follows: Gen. Wm. T. Sherman, U. S. A.; Lieut.-Gen. Philip Sheridan, U. S. A.; Maj. Gen. John M. Schofield, U. S. A.; Maj.-Gen. D. Butterfield, Maj.-Gen. T. W. Crawford, Bvt. Brig.-Gen. H. L. Burnett.

Capt. W. H. Murphy, 12th N. Y., has devised and prepared a book for keeping record of trials in companies. The book is well arranged, gives an easy, comprehensive view of the record of every man and is worthy of commendation in every respect. It should be adopted by the State.

The long service medals of the 12th N. Y., bronze for 10 years, silver for 15 years, and gold for 20 years, will be presented at the celebration of the opening of the armory April 21 next.

Lieut.-Col. Wm. P. Walton, 11th N. Y., has been obliged to resign, owing to unforeseen circumstances. His resignation was tendered March 9. Colonel Walton is one of the most deserving officers in the National Guard, of which he has been a member since 1861. During the war he served as 2d Lieutenant in Co. D, 12th N. Y. Vols. He re-entered the Guard Dec. 8, 1873, as Captain, Co. G, 1st Battalion, and became Captain of Co. F, 9th N. Y., Aug. 7, 1875, which he raised to the highest position in point of efficiency and numbers in that regiment. He was elected Lieutenant-Colonel 11th N. Y., Sept. 9, 1885.

The forming of the 2d Brigade Ambulance Corps is successfully progressing, and, in this connection, Major Geo. R. Fowler, Surgeon, has issued a pocket manual, with the approval of the Surgeon-General. The book is entitled "Syllabus of a Course of Lectures on First Aid to the Injured, arranged for the use of the Medical Officers of the 2d Brigade, N. G., S. N. Y."

NEW JERSEY.

COPIES of Adjt.-Gen. Stryker's report were distributed to the Legislature March 2. It states that from the report of the Inspector-General of the last annual muster and inspection the strength of the National Guard is shown to be 294 commissioned officers and 3,441 men, a total of 3,735. This is an increase over the strength reported last year of 10 officers and 188 enlisted men. A new battalion, consisting of two companies, has been organized and mustered into the service and designated the 3d Battalion. The 9th Regiment has been disbanded and the field officers retired. The company officers and the enlisted men were temporarily detached and afterward formed into a regiment called the 2d Regiment. No companies have been disbanded during the year. The force now consists of 52 companies of infantry and two Gatling gun companies organized into seven regiments and three battalions and comprised in two brigades and one division.

Asst. Adjt.-Gen. Dickinson furnishes a statement showing the distribution of the reserve militia of the State by counties, estimated approximately from the figures furnished by the last State census, as follows:

Atlantic	5,332	Middlesex	12,970
Bergen	8,400	Monmouth	13,480
Burlington	12,666	Morris	10,629
Camden	17,562	Ocean	3,411
Cape May	2,450	Passaic	18,312
Cumberland	9,119	Salem	5,603
Essex	46,799	Somerset	5,874
Gloucester	6,270	Sussex	4,863
Hudson	55,117	Union	13,728
Hunterdon	7,853	Warren	8,231
Mercer	16,218		
Total			284,887

PENNSYLVANIA NATIONAL GUARD.

PROPER UNIFORM FOR MEDICAL OFFICERS.

THE Philadelphia *Press* says: "A question has been held in doubt for years as to the proper uniform to be worn by the officers of the medical staff in the several regiments. It was first brought into notice during the late rebellion. The commissions of the surgeons and assistant surgeons of the Pennsylvania volunteer regiments were then made out in their capacity as officers of the respective commands with a corresponding regimental rank as major and 1st lieutenant. This gave them a proper right to assume the insigna of rank won by the officers of the general staff. This matter has since been brought to the attention of the Adjutant General by Gen. Snowden, of the 1st Brigade, who asked these questions: Shall the shoulder straps of regimental medical officers be of white cloth or of dark blue cloth? What shall be the color of the fringes of the uniform? What is the proper sword?

"To these queries a sort of non-committal answer has been made over the stamp of Adjt. Gen. Hastings in these words:

"'In reply to your questions I will state—First, General Order No. 1 does not apply to medical officers, except for overcoats. The lining of their capes should be dark blue. Second, the lining of officers' capes shall be, for the general staff, dark blue; for infantry, white; for artillery, scarlet; for cavalry, yellow. Adjutants and quartermasters should wear the cavalry sabre and scabbard as now worn.'"

MASSACHUSETTS MILITIA.

THE board of officers appointed to codify the Massachusetts militia law hoped to be ready to present a bill to the military committee by March 10 next. This bill will provide for an increase of 12 companies to the militia and an increase of the board of examiners by the addition of all battalion commanders.

Lieut. Hayward, a commissioned officer, and, of course, an active member of the Honorable Artillery Company, of London, Eng., of which the commander is an honorary member of the Ancient and Honorable Artillery Company of Boston, is on a brief visit to Boston, and, as a compliment to him, Capt. Thomas F. Temple, as commander of the Ancients, has tendered him a banquet at Young's Hotel, March 7.

The armory of the Brockton, Mass., company of the 1st Infantry, recently burned, will be at once repaired. Many of the overcoats were damaged by smoke, but it is thought that they can be reclaimed. Dress coats and pantaloons were also badly damaged. All the knapsacks were used up, as were a few helmets. The entire State property has been ordered to the State arsenal.

In G. O. 4, of Feb. 23, Adjt.-Gen. Dalton promulgates some useful regulations in regard to discharges, uniform, mileage, etc., manual for inspection of arms, etc. He also says: "The Book of Decisions published by the War Department is authority for the militia."

MAINE.

THE committee on military affairs has voted to make the usual appropriation of $16,000 for the Maine militia; also an appropriation of $9,000 to purchase new uniforms and make repairs. Adjt.-Gen. Gallagher made a statement that the law provided that non-commissioned officers and privates be uniformed every five years by the State. Under this law the militia was entitled to be uniformed two years ago. He proposed to uniform one regiment, which would cost $8,320, as the uniforming could not be done for less than $20 per man. The balance of the $9,000 he would use to repair the best of the old uniforms for the other regiments.

MINNESOTA.

IT is expected that Co. A, Capt. Amory, and Co. D, Capt. Bean, of the 1st Regiment, will attend the National Drill at Washington in May, and it is possible other companies will be present.

CALIFORNIA NATIONAL GUARD.

THE San Francisco *Call*, referring to the *Report's* remarks concerning the postponement of the parade of Feb. 22, which we quoted last week, says: "An evening contemporary, which never loses an opportunity to sneer at the National Guard, is having its fling just now at Gen. Dimond and the 2d Brigade, because the parade at the Presidio was postponed on account of the weather. It is easy to be glibly indifferent to the health of National Guardsmen when one is not responsible for it. But our contemporary will find that Regular Army officers, responsible for the lives and health of the men and animals, and for the condition of the property which Government entrusts to them, are not less sensitive, but rather more so, than Gen. Dimond, to such

weather as may affect those trusts. At the Presidio, for instance, the cavalry and light artillery are forbidden to drill on the plateau after a storm until the ground shall have dried so thoroughly as to remove all danger of the slipping and falling of horses and the cutting in of the wheels; and this drying, as every one knows who knows that ground, requires at least a week after such a storm as that of last Sunday. In case of an ordinary fog on a Wednesday morning the dress parade is promptly postponed, and for the unavoidable guard mount the officers and men are ordered to wear their comfortable overcoats. No such exposure to bad weather as our contemporary urges for the National Guard is tolerated in the Army for mere parades. When it comes to actual duty the case is wholly different."

Sergt. Dennis Geary, an honorary member of Co. F of the 3d, and a former 1st sergeant in the Regular Army, has compiled a system of cadet tactics for use in public and private schools, with a view of making the military drill a part of the study, in order that the information imparted may, hereafter, be utilized in the ranks of the National Guard, or, if occasion requires, in the service of the country.

MICHIGAN.

THE State Military Board, have adopted and prescribed the following rule (Rule 90 amended), which is published for the information of the State troops in G. O. No. 7:

"RULE 90. The commissioned officers of each regiment and battalion not already provided therewith shall adopt a code of by-laws for the management of the civil affairs of such organization, and shall provide therein for the time and manner of holding its elections for field officers, and prescribe the term for which they shall be elected, which shall be not less than one nor more than three years. A first election shall be held under said by-laws at the time of their adoption or within thirty days thereafter, and a copy of said by-laws shall be filed with the Adjutant-General. A majority of such commissioned officers shall constitute a quorum."

MISSOURI.

THE State has now virtually no militia organization. The bill for the relief of the troops, defeated a few weeks ago and reconsidered, came up for final passage March 9, and was killed by a vote of 68 to 65. At the time of its first defeat the officers of the militia resigned, but the Governor held the resignations in hope the measure would be reconsidered. The result is a blow to the State. The two regiments in St. Louis have resigned in a body. There are three other regiments in the State, and all will disband, as this was the understanding with the Governor should the bill fail to pass. The State has never appropriated a cent for the support of the militia, and the amount asked was $50,000.

THE DAKOTA GUARD.

THE Dakota *Herald* says, with much hopefulness and spirit: "If war shall come, our strength, our reliance, is our national guards. They are the adopted defenders of the State and will become, for the greater reason, the defenders of the Nation, because the liberty of the State is interlocked with and dependent upon the national liberty and honor. We cannot believe that Dakota will fail to answer at the grand roll call, but rather will we trust that she will show those older brothers that we are no longer to be considered contingents like the slaves of Athens at Marathon or Myrmidons like the uncouth attendants of Achilles in the Troad. Every regiment, every company should be manned and drilled to the full requirement, and the Legislature should not deal with parsimony, when it comes to pass upon the question whether the place of Dakota, in the van, where she belongs and dares to be, shall be vacant, in that martial review which will become memorable and the fear as well as respect of the world."

In view of anticipated disturbances with Indians and half-breeds at St. John, Rolette County, Governor Church sent a trustworthy officer to the seat of the trouble and directed the militia to be held ready for service. Adjutant-General Tyner has gone himself to Devil's Lake, and is in telegraphic communication with the Governor. The militia are by no means averse to a little active service.

ANSWERS TO CORRESPONDENTS.

A. R.—You stand 34 on Commissary Sergeant list.

Uncle Sam.—You stand No. 2 on Commissary Sergeant list.

E. H. L.—Write to the Secretaries of War and Navy at Washington, D. C., for pamphlets giving the information you desire.

A. S. R.—Write to the Adjutant-General of the Army, at Washington, and he may furnish you a copy of the Report of Board of Visitors to West Point.

E. G. G.—If you can furnish positive proof that death was the direct result of disease contracted in the line of duty, then, undoubtedly, a pension will be granted.

Cadet.—According to the Army Register for 1887 there are 2,164 officers on the active list of the Army. Of these 1,017 are graduates of West Point, 970 are civil appointments, and 177 from the Army.

M. H. T.—The Signal Corps is a special one and a man desiring to enter it should have a good education, some knowledge of telegraphy, etc. Write to the Chief Signal Officer, U. S. A., Washington, D. C.

H. R. I.—Extra duty pay is paid for the number of days that actual extra duty work has been done. If drills and other military exercises withdrew you one or more days from extra duty, you have no claim to be paid for those days.

Cavalryman.—You do not state if the second enlistment was when under age. If of proper age then of course the man would be held to service. If under age, then discharge might be secured by proper representations to the Secretary of War.

R. J. V. asks: 1. Which is the best target and hunting rifle made? ANS.—The Remington, Sharps and Ballard are all good.

2. Which is the best shot-gun made? ANS.—The Spencer repeater.

Correspondent.—The decision that "a column of fours, twos or files may be marched a short distance to the rear or to a flank," etc., etc., given in our "Answers to Correspondents," in issue of March 5, occurs in the "Memoranda of Decisions on Points of Tactics," issued by the War Department Nov. 9, 1885, on page 23. The date of the decision is not given.

Edwards asks the best authority on guard or sentinel duty? ANS.—The best are Upton's Tactics and the Regulations of the U. S. Army. Regan's Manual is an excellent book, but it differs in many points from the Regulations and has not been adopted as authority. Col. Phisterer, N. G., S. N. Y., has made an excellent little volume, which elaborates on the Regulations, but does not deviate from them. We can furnish you the latter.

W. G. R. asks: Is it military for an officer to drill a squad of men undergoing extra drill as punishment, not to assume a military position himself. Should he not stand up and not sit down? ANS.—To stand up would doubtless be more military, but we have often seen the drill-masters of men undergoing drill as punishment sit down occasionally where they can see the squad and near enough for the words of command to be heard.

3d Ohio.—Your questions as to uniform seem to be fully answered in G. O. 18, issued by the Adjutant-General of Ohio, Nov. 14, 1886. That order quotes the Regular Army regulations as to "uniform," and announces that they are "approved and adopted for the Government of the Ohio National Guard." Of course, if the service uniform has not been supplied to some of the regiments they must continue their old State uniform until the new issue is made.

A. B. C. asks: 1. The piece is loaded and at a carry, command being given, "company, etc., ready." Is this done in two or three motions, viz.: 1st. First motion of about; 2d. The piece falls in left hand, etc.; 3d. Cock the piece, or in two motions? ANS.—In two motions. See Par. 84, Infantry Tactics. Any other method of execution is untactical unless you are armed with a piece which does not admit of this manner of loading. The Remington does not belong to the latter category. You are no more justified in loading to divide the first part into two motions than you would be in executing the charge bayonet in two motions.

Non-Com., 8th Regt.—The First Troop, Philadelphia City Cavalry, was organized Nov. 17, 1774, and has, since then, a continuous existence as a company of cavalry, the officers being commissioned and the rank and file enlisted under the laws of the State of Pennsylvania. It served as a *troop* during the War of the Revolution, the Whiskey Insurrection of 1794, the War of 1812 and in the Southern Rebellion under calls of the President, and it has always been recognized as a part of the armed and uniformed militia of Pennsylvania, drilling and exercising as a company of cavalry, subject to and serving under all calls for 112 years.

L. F. B.—Until another version of Upton's Tactics is adopted as authority, the original must govern, and the language of the latter in all the paragraphs, 224, 226, and 445, is so positive that even without reference to paragraphs three and six only one construction can be put upon it and that is that when the fours wheel to the right into line or execute the right about and halt, the dress be to the left and vice versa, and that when the commander does not wish to halt but continues the march he can announce the guide on either flank he desires. In other words, when in these movements you desire to halt dress towards the marching flank, if you desire to continue marching do as you please about the guide.

Bayard asks: A battalion in column of platoons or companies at a halt, the colonel gives the command "Forward, column left, march." I say the first platoon wheels to the left on a fixed pivot, the other platoons move up to the wheeling point and wheel to the left on a movable pivot. Par. 285, Infantry Tactics, gives the commands but no explanation of how the movement is executed. Am I right? ANS.—You are wrong. To determine the question look at Par. 284, which gives as a general rule that "in changing direction it is essential that the rear of the column should never be checked; each chief, therefore, faces his sub-division while wheeling, and sees that the guide takes the full step of 28 or 33 inches, and that the pivot takes steps of 9 or 11 inches, according to the time." This means a movable pivot. The movement in Par. 285 is simply a change of direction, and all the subdivisions, therefore, wheel on a movable pivot. A wheel of the first platoon on a fixed pivot would result in a "check of the rear end of the column," as well as in defective coverlags of the guide.

A QUESTION OF COURT-MARTIAL PRACTICE.

"Bill of Rights" presents an argument against the practice of asking a prisoner on trial before a Court-martial whether he wishes to testify on his own behalf, and asks the questions which are answered here and which sufficiently set forth his position:

1. Can any "person" (*i. e.*, witness or prisoner) be "compelled to testify in his own behalf?" ANS.—A prisoner cannot be so compelled. Such testifying is his right, but not his duty. Witnesses as such are never called to testify in their own behalf. Any legal, legitimate, pertinent question a military witness may be compelled to answer, (not so a citizen witness by a G. C.-M.) Such compulsion is enforced by subsequent trial and punishment for disobedience of orders and neglect of duty.

2. If so "compelled" by a Court-martial, under assurance of protection, upon what does such protection rest after the individual court is dissolved? ANS.—A witness who is compelled to give testimony is protected in so doing not by any assurance of protection from the court, but by the law. See Revised Statutes, section 860, which provides that no pleading of a person nor any evidence obtained from a party or witness by means of a judicial proceeding . . . shall be given in evidence or in any manner used against him . . . in any court of the U. S. in any criminal proceeding, or for the enforcement by any penalty or forfeiture.

3. Is not the entry, "the prisoner stated he had no further testimony to offer," ample in the premises? ANS.—The entry on the record, "the prisoner had no other testimony to offer," is legally sufficient: but, *ex majori cautela*, it is better that all uncertainty shall be removed on the question of his knowledge to his right to testify for himself, by an entry in the record that the Judge-Advocate questioned him on this point.

4. Ought the Judge-Advocate to ask the *ad hominem* question: "Do you want to be sworn in your own behalf?" ANS.—The Judge-Advocate need not ask, *totidem verbis*, "Do you want to be sworn in your own behalf?" He may ask: "Are you acquainted with the fact that it is your legal right to be sworn and testify?" Any form of question, the answer to which shall show the prisoner to be aware of such right and is not acting in ignorance of it, will suffice.

5. Must the proceedings show that this particular question was asked? ANS.—The record should show in some way, especially in the cases of enlisted men, who are more likely than those of better education to be unacquainted with their right, that the prisoner waived the privilege in question and did not lose its advantages through ignorance. The Judge-Advocate is the counsel for the prisoner within certain limits, and should take care that the latter conducts his defence with a comprehension of his legal rights, and it is best that the record shall show that he has done so.

6. Should not the objection to the question be sustained upon the principles of equity? ANS.—While the question as put by "Bill of Rights:" "Do you want to be sworn in your own behalf?" is possibly less theoretically perfect than "Are you aware that you have a right to testify for yourself, if so disposed?" or words to that effect, yet the difference in their meaning is considered unsubstantial, and either might, it is thought, be asked a prisoner without justifying an objection. The Court and the reviewing authority should both be sure that the person on trial knows what he has a right to do in his defence. Any entry in the record which demonstrates this certainty is enough. No prejudicial distinction is thought to exist between a prisoner's declining point blank to testify and omitting to do so after being informed that he may do so.

7. Would not the prisoner be justified in simply replying, if so asked: "I have *already* stated that I have no further testimony to offer," and thereupon standing mute? ANS.—A direct question from the Judge-Advocate to the prisoner touching his knowledge of his right to testify, is by no means necessary. It will be sufficient if the J.-A. at the proper moment informs the prisoner that he possesses and may exercise such a right if he will. The prisoner may then, of course, reply as suggested by "Bill of Rights:" I have already stated that I have no "further testimony to offer," or he may, if he prefers, stand mute; which in itself would be neither nor more less than a refusal to testify. Upon such refusal, no matter in what mode conveyed to the court, no comment can be made by the Judge-Advocate, and no injurious inferences should be drawn by the Court.

AN explosion of melinite, the new explosive, occurred March 13 in the arsenal at Belfort. Many men were killed or injured.

FRANCO-GERMAN FRONTIER.

THE Franco-German frontier at present is defined by a line of 225 kilometres, or about 141 miles, extending from the limits of the Grand Duchy of Luxembourg, about Longuyon, to the radius of Belfort, on the borders of Switzerland. The first line of the French defence is marked out, the main forts of Belfort, Epinal, Toul, and Verdun covering a distance of 250 kilometres, or 155 miles. The ground between Switzerland and the places named is further barred by a chain of smaller forts, whose long-range guns can sweep all the intervening open country and the approaches from Germany. The second line of defence is about 46 miles to the rear, and is formed by a series of entrenched camps at Besançon, Dijon, and Langres on the right flank, and those at Rheims and Laon on the left, with Vitry-le-Français to form the main fortified position in the centre. The fort and citadel at Vitry-le-Français is of very old construction, but it forms a most important strategetical position, as several great roads and railway lines from all quarters of France converge to this point. Finally, the third line of defence is supposed to extend from Lille, Paris, and Lyons, the capital being considered as the key or central point of the fortified radia towards Germany.

(From the English Mechanic.)

THE NEW GERMAN RIFLE.

THE new rifle, which bears the title of "M." (*i. e.*, Mauser), "71, 84," in token that the old model 71 has been adhered to in principle, with some modifications of it made in 1884, is described as being 1.3 metre long without, or 1.8 metre with the bayonet, and weighs 4.6 kilogrammes with empty magazine, or 5 kilogrammes when the magazine contains its full store of cartridges. These are cased with brass, each being 78 millimetres long, and weighing 43 grammes. The powder charge consists of 5 grammes of new rifle powder—"M. 71." The weapon of which the barrel is of rifled steel, colored brown outside to protect it against rust, can be sighted for a distance of from 200 to 1,000 metres. It has a calibre of 11 millimetres. The rifle can be used either as a single shooter or repeater, and is fired in the usual way. It if also announced that velocipedes—both bicycles and tricycles—will soon be introduced into the German Army, chiefly for the use of orderlies in fortresses, and in the region of detached forts.

THE NEW RUSSIAN EXPLOSIVE.

A RECENT despatch from St. Petersburg reports that the new explosive invented by a Russian has been successfully experimented with. It is a secret preparation, called "silotvaar," and is claimed to have a penetrative power ten times greater than that of gunpowder, when used for cartridges. No smoke or heat is emitted, it is said, and the discharge is not accompanied by any report. It is also asserted that this explosive may be used in a motor for the generation of power, and the inventor even claims superiority over steam and gas engines.

RUSSIAN CAVALRY.

ENGLISH officers who have recently been in Russia, says *Broad Arrow*, have not been impressed favorably with the improvements in the Imperial cavalry. About five years ago, General Vannoffski, Minister of War, was strongly smitten by the Mounted Infantry mania, and advised the Czar to transform most of his best Uhlan and Hussar regiments into *bona fide* Dragoons, according to their original qualifications, viz., to fight equally on horseback or on foot. The result, as predicted by many of the best Russian cavalry officers and one or two of our own *sabreurs*, has been a comparative fiasco, and after four years' drilling under the new organization the transformed regiments are found to be bad as cavalry and not good as infantry. The Czar has seen too late the error of the change, and the *arme blanche* will again be restored to its prominent position in the Russian Army.

FOREIGN ITEMS.

THE Prince Royal of Greece draws his pay as a sub-lieutenant monthly, like all the other officers. Recently he found himself "docked" 5 shillings, in common with the others, to pay for his coming-of-age banquet.

THE Frankfort *Zeitung* says that the proprietors of the principal German steel works have joined the railmakers' combination, and that foreign works are also giving their adhesion to the arrangement, which is likely to come into force soon. The Elberfeld *Zeitung* says that extraordinary activity is displayed at the Krupp works in Essen, and that new buildings are required to enable the works to complete the orders for guns for the German Government within the specified time.

PRINCE BISMARCK gained on Wednesday of this week his greatest Parliamentary victory. The second reading of the "Septennate" was passed by an overwhelming majority. The peace effective force from April 1, 1887, to March 31, 1894, is fixed at 468,409 men, exclusive of one year volunteers. The infantry is fixed at 534 battalions, the cavalry at 465 squadrons, the field artillery at 364 batteries, the foot artillery at 31 battalions, the pioneers at 19 battalions, and the trainmen at 18 battalions.

THE foreign officers who will be invited as a matter of international courtesy to witness the manœuvres of the French Army this year, will be directed to witness the manœuvres of the 9th Army Corps at Tours, which will commence towards the end of August and last until the third week in September. The troops quartered in Paris will not take part in the annual manœuvres. Coast attack and defence operations, ashore and afloat, at Nantes, Marseilles, and other places, will be simultaneously carried out about the same period.

THE British Admiralty are considering a scheme for the establishment of a floating dock, to be attached, as it were, to a squadron that may be stationed where no docking accommodation exists. The building of a torpedo-carrying vessel, on the floating dock system, capable of carrying four 125-ft. torpedo-boats and all the necessary plant, and to

keep them in repair, is suggested. She could sink sufficiently to take them in, and then rise and, with twin screws, continue her voyage. Her armament might consist of a very long-ranged gun and machine guns. Were an enemy sighted her torpedo-boats could be at once floated, and the dock herself submerged, so as to show as small a target as possible to the enemy.

MESSRS. D. M. FERRY AND CO., of Detroit, Mich., are one of the largest establishments of the United States engaged in the sale of garden and flower seeds, and they have established an enviable reputation for the excellent quality and great variety of their goods, as well as for promptness and fair dealing in the transaction of business. It is well to have them in mind when ordering for post gardens.

"HAVING tested the virtue of PHENOL SODIQUE in our own family, we can unhesitatingly recommend its use. It *relieves pain* almost instantly, and rapidly *heals the wound*. It is an article which should be kept on hand where accidents are liable to occur."—*Jeffersonian*, West Chester, Pa.

Smoke the best—"Tansill's Punch" 5c. Cigar.
Like all things of real value, the supply of "Tansill's Punch" 5c. Cigar is limited, which accounts for the fact that they are sold through one agent in each town.
Talk is cheap; it's quality that sells "Tansill's Punch" 5c. Cigar.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

HOW TO SECURE A GOOD ROOF.

ROOFS

READ why we were obliged to stamp every sheet of our Guaranteed Brands, every box of which we are impo.ting under a positive guarantee.

OWING to the many cases in which our brands had been estimated upon, and inferior brands substituted, we were induced to bring out the sheets stamped, not only with the NAME OF THE BRAND, but also the THICKNESS.

OUR action in STAMPING and GUARANTEEING Roofing Plates exhausts our own means of insuring the use of first class materials when required. It now therefore rests with the Architect and Builder to protect the Owner and Roofer by seeing that the sheets on the roof are stamped.

FIRST-CLASS Roofing Plates if properly laid upon the roof should last thirty to forty years; while the cost of same would be but little more than that of the inferior tin, which has caused so much trouble and expense to all concerned.

SHEETS that are GUARANTEED and STAMPED are the only protection to the Roofer, Owner, Architect, against dishonest competition, and the use of inferior material.

It will cost NOTHING however to obtain FULL FACTS and SAMPLES, which may be had by addressing

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
For prices and other information please address

THE GATLING GUN COMPANY, HARTFORD, CONN., U. S. A.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 34. WHOLE NUMBER 1230. | NEW YORK, SATURDAY, MARCH 19, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE choice of a successor to the late Colonel Scott, in charge of the War Rebellion Records, is believed to rest between Lt. Col. Henry M. Lazelle, 23d Inf., and Maj. Robt. H. Hall, 22d Inf., either of whom, it is generally acknowledged, possesses the necessary qualifications for the place. It is presumed that Secretary Endicott will make the selection within the next few days.

PARAGRAPH 1345 of the Regulations inculcates that exercise so much in vogue in foreign armies, "practice marching with the full kit," but a correspondent seems to think the regulation a dead letter so far as our Service is concerned. It may not be generally observed, but we note from a recent order issued from the Headquarters Department of the Platte that it is not altogether obsolete.

THE forthcoming tests and trials of some of the new steel guns assembled at the Washington Ordnance Yard, will be watched for with special interest on account of the controversy which is now agitating the "gun shops" on both sides of the Atlantic as to what is to be *the* gun metal of the future. The battery supplied to the *Atlanta* will also be tested and reported upon during the forthcoming trial of that vessel.

A THOROUGH revision of the Navy signal book is now being carried out by the Navy Department, and it is expected that when the work is completed it will show great improvements over any previous work of the kind in this country. The present system of signalling by numbers from yard-arms and main topgallant masts will especially receive some very extensive modifications in the direction of simplicity and completeness.

NOW THAT the hospital stewards of the Army have received an increase of pay, the ordnance sergeants, post quartermaster sergeants, and commissary sergeants seem likely to have their claims to increased pay pressed to recognition. It is too early yet to discuss the matter, except so far as to say that in our opinion great consideration as to standing and compensation should be given the general and regimental non-commissioned staff of our Army. As a rule they are all superior men, experts in their respective positions, and the easy running of the machinery of garrisoned posts is largely due to their efforts to carry out the orders and wishes of their superiors in an energetic and efficient manner. We shall have more to say on this subject when the season is propitious.

NOTICING Chief Constructor HICHBORN'S report the London *Army and Navy Gazette* says: "There is certainly every reason for the United States Government to congratulate themselves on the energy and industry of that gentleman. The drawings and other information it contains cannot fail to be of utility to the designers of the new warships for the United States Navy. But so far as the outcry is concerned which was made on this side about the supposed sale of secret plans, etc., we find nothing of such a startling nature in the work as was needed to give rise to anything of the kind. It is more than probable that everything in the shape of drawings or specifications contained in the book would be given to Captain CHADWICK, the United States Attaché, by the Admiralty, if he asked for them. Such is the custom, and with such a friendly Power as the United States, there really does not seem to be any reason for departing from it."

LORD WOLSELEY presided on March 1 at a lecture on the Nile Expedition by Colonel DUNCAN, M. P., in which the Gladstonian Government was subjected to the severest criticism for its course in regard to the rescue of GORDON. The lecturer said: "Only one month of absence of vacillation in Downing Street, and a noble life would have been saved—only a month, and the heroic efforts made by officers and men might have been crowned by success." Mr. GLADSTONE was told by Lord WOLSELEY "over and over again that if he did not act GORDON must perish," and when at last he found himself on his way to Egypt, "having plenty of time to think," he concluded that so much time had been wasted in England he could not carry out his original plan of a general advance of the whole force from Korti by water, and he then decided that he must divide it, sending one part by the river and another by the desert; the latter to march on camels as fast as possible to relieve Khartoum in case GORDON informed Lord WOLSELEY that he was in the last extremity. But for the death of Sir HERBERT STEWART and Colonel BURNABY, GORDON would be alive at this present moment. It came to be at the end not a question of weeks or months, but of hours. The steamers which went up the Nile to Khartoum—and if General STEWART had lived they would have gone earlier—were just two days too late.

THE usual sentiment of gratitude to Congress for its liberal appropriations for building new vessels is somewhat lessened by the contemplation of the results of its blundering in the matter of furnishing the small amount required to put the *Chicago* and *Boston* into commission. "Water, water all around and not a drop to drink." Twenty millions for new vessels and not a dollar voted to set afloat the two vessels for whose completion officers have been waiting for an assignment to the active exercises of the duties of their profession! Fortunately the Secretary has found the means to complete the vessels. Incidentally the assignees of JOHN ROACH have good reason to complain of the rank injustice they suffer at the hands of Congress. They cannot get rid of these ships and go on with the work of reorganizing their yard because Congress withholds the money which has been agreed upon as due to them. As the frogs said to their tormentor so they may say to the wrangling Congressmen—this may be fun to you but it is death to us. We trust our readers of the Army will not be moved by envious feelings toward their sister service when they contemplate the liberal appropriations for the materiel of the Navy, the results of which we described last week. In recognition of the claims of the personnel the Navy fares no better than the Army, and both services will have to gird up their loins for a tussle with the new Congress which entered upon its term of office last week, but which does not meet in session until next December, unless sooner called together by Executive proclamation.

WE observe that "Veteran" writes to the New York *Tribune* that he has been unable to find the battleflags of the war for which he has searched the Ordnance Museum at Washington in vain. If "Veteran" will call upon Chief Engr. H. L. SNYDER, U. S. Navy, who has charge of the State, War and Navy Department building, we will guarantee that he will be admitted to a sight of the flags in reference to the existence of which his suspicions are aroused. In an upper room of the building will be found a large number of the flags borne by different organizations of the Army during the War of the Rebellion and an interesting collection of captured Confederate flags. Each one is accompanied by a paper giving its history, and they are numbered in consecutive series so that any given flag can be found by reference to a proper index. The intention is, as soon as a proper place can be found for their display, to unroll them and hang them up where the curious will have an opportunity to see them without trouble. The necessary room cannot be obtained until the building is completed, which will not be until another year. The destruction of the old War and Navy buildings and the gathering together of the archives and relics accumulated there in an unfinished building has, of necessity, created some temporary confusion, and it is not always easy to locate some of the relics which are known to be carefully preserved. For instance, an official who was rummaging around in a lumber room of the Winder building at Washington, the other day, discovered the shackles worn by the LINCOLN conspirators and the hangman's caps which shut out their last view of earth.

AN examination of the two bills submitted with the report of the Conference Committee on Fortification reveals some curious facts. Mr. HASKELL was supposed to be exercising some baleful influence upon the committee, and perhaps did so, yet his name does not appear in either of the bills, and the trial of his gun does not seem to be provided for. On the other hand, NORMAN WIARD'S influence is clearly seen in the bill favored by Mr. RANDALL, not only in the section providing for the trial of the "great gun-burster's" extraordinary plan for the "conversion" of Parrott guns, but also in some of the other features of the bill. It is simply extraordinary that a man like WIARD, with such a record as he has made for himself, should be tolerated before any committee of intelligent men. He seems in this case to have worked his plans very quietly, and to have escaped anything like a cross-examination before the committee. But as the section providing for the trial of his scheme seemed to leave it discretionary with the Board to adopt it or not after the trial of one or more guns, it was perhaps unwise on the part of the Senate conferees not to agree to this section as the best means of getting rid of Mr. WIARD and his disturbing influence upon legislation for the future. Even at the expense of "converting" all the old Parrotts from a condition of moderate efficiency into a condition of absolute worthlessness this might be a cheap riddance. Yet, after all, the fatal objections to Mr. RANDALL'S bill were the limitations and restrictions imposed in the provisions for steel forgings, and Mr. REED was about right in saying that it forced any contractor to invest too much money in a plant with too slender a guarantee of a contract to cover the outlay. It is possible that had the advocates for the exclusive use of steel forgings been a little less intolerant towards those who only asked, indeed, for a second place—who asked, not for the adoption, but only a fair trial of their plans—there would have been greater harmony in the counsels of the committee, and Army ordnance matters would have been placed upon even a more substantial footing than those of the Navy. The failure of the bill is a calamity, but perhaps we can derive a lesson from it.

PERSONAL ITEMS.

MAJOR GEORGE E. HEAD, 3d U. S. Infantry, leaves Fort Missoula, Mont., in a few days on a visit East.

DR. ALLEN DUKE and Lieut.-Col. O'Briene, of the Royal Engineers, sailed for England on Saturday last.

CAPTAIN CHAS. M. PYNE, U. S. Army, retired, lately of Elizabeth, N. J., has gone to Washington to reside.

CAPTAIN J. G. BOURKE, 3d U. S. Cavalry, and family, are recent guests at the Hygeia Hotel, Old Point Comfort.

GENERAL J. C. DUANE, Chief of Engineers, U. S. A., was in Petersburg, Va., a few days ago on a short tour of inspection.

COLONEL W. F. RAYNOLDS, U. S. A., retired, of Detroit, celebrated his sixty-seventh birthday on Wednesday, March 16.

GENERAL STEWART VAN VLIET, U. S. A., has returned to Washington, in good health and spirits, from his trip to Florida.

CAPTAIN F. A. KENDALL, U. S. A., retired, of Cleveland, visited Philadelphia a few days ago, registering at the Continental.

LIEUTENANT J. H. BEACOM, 3d U. S. Infantry, of Fort Shaw, Mont., leaves there next week for a few months for the benefit of his health.

LIEUTENANT G. N. WHISTLER, 5th U. S. Artillery, on leave from Fort Wadsworth, Staten Island, has been visiting his father at St. Augustine, Fla.

LIEUTENANT E. W. HUBBARD, 1st U. S. Artillery, has devised a new method of copying letters without a press, of which report speaks highly.

LIEUTENANT-COLONEL JOSHUA S. FLETCHER, 2d U. S. Inf., is in Philadelphia to remain there some time, having been called East by the recent death of his father.

MR. HENRY T. COATES delivered on Wednesday, March 16, before the United Service Club of Philadelphia, an interesting lecture on "The Battlefields of the War."

CAPTAIN FREDERICK FUGER, 4th U. S. Artillery, who is now at Fort Adams, R. I., settling up his public matters there, will join at Fort Preble, Me., early in April.

LIEUTENANT E. H. CATLIN, 2d U. S. Artillery, bade adieu to friends in Washington, D. C., this week, and went to Northfield, Vt., for duty at the University there.

MAJOR J. E. BLAINE, Paymaster, U. S. A., who has been in poor health for some time past, has been obliged to relinquish duty at Helena and avail himself of a sick leave.

LIEUTENANT GEO. R. CECIL, 13th Infantry, who has succeeded Lieutenant Fornance as regimental adjutant, changes base, in consequence, from Fort Bayard to Fort Wingate, N. M.

LIEUTENANT J. P. WISSER, 1st U. S. Art., has been the recipient of many congratulations upon his excellent paper on Minor Tactics read before the Military Service Institution last week.

LIEUTENANT DANIEL CORNMAN, 21st U. S. Inf., who has just relinquished the adjutancy of his regiment at Fort Sidney, will take a two months' leave before joining for company duty.

MR. JAY STONE, the Chief of the Correspondence Division of the War Department, visited old friends in St. Paul last week while en route to Fort Cœur d'Alene to attend the Court of Inquiry there.

MAJOR JOHN B. PARKE, 16th U. S. Inf., lately at Fort Ringgold, Tex., has gone to Fort Concho to take command, being succeeded in command of Ringgold by Major John A. Wilcox, 8th U. S. Cav.

MAJOR W. R. LIVERMORE, Corps of Engineers, U. S. A., stationed at Kansas City, is likely to come East soon in connection with his taking over the duties of Colonel G. H. Elliot, who goes abroad on leave.

LIEUTENANT C. B. SATTERLEE, 3d U. S. Art., a well qualified officer, has succeeded Lieut. Sedgwick Pratt as regimental quartermaster, the latter taking the former's place in Chester's battery at Washington Barracks.

LIEUTENANT F. VON SCHRADER, 12th U. S. Inf., is mentioned as likely to be selected by Col. Townsend as regimental quartermaster in succession to Lieut. W. W. Wotherspoon, whose term is out under the new regulation.

CAPTAIN RICHARD VANCE, 19th Inf., under recent orders moves his company from Fort Clark to Fort Ringgold; Capt. E. H. Liscum, 19th Inf., from Ringgold to Clark, and Capt. J. H. Bradford, 19th Inf., from Fort Brown to Fort Clark, Tex.

MAJOR GENERAL JOHN NEWTON, U. S. A., contributes to the New York *Times* of March 13 some interesting and valuable "Reminiscences of Gettysburg," based upon personal experiences and observations during that memorable battle.

THE Empress Eugenie, who is in Naples, finds her chief amusement in rowing in the bay, whatever the weather happens to be. Her Scotch blood seems to have grown stronger than her Spanish blood since her residence in England and her intercourse with the Queen.

LIEUTENANT M. M. MACOMB, 4th U. S. Art., was expected to rejoin at Fort Preble, Me., from Fort Monroe, on Friday of this week. Lieut. W. N. P. Darrow, who has been doing temporary duty at Fort Preble, since Lieut. Macomb went to Fort Monroe will then return to Fort Adams.

THE San Francisco *News-Letter*, referring to the recent marriage in Chicago of Capt. A. E. Wood, 4th Cav., to Miss Mansfield, says: "The lady but recently left California for the East. She was very much admired in 'Frisco society, is a bright and pretty brunette, and the possessor of a very sweet and well cultivated voice, which always made her a welcome guest in musical circles here."

GENERAL A. V. KAUTZ, U. S. A., leaves Fort Niobrara, Neb., this week on a month's leave, part of which will be spent in Cincinnati.

MRS. STANLEY, wife of Gen. D. S. Stanley, U. S. A., is visiting the family of Surgeon J. P. Wright, U. S. Army, at Fort Leavenworth, Kas.

MAJOR GENERAL J. M. SCHOFIELD, U. S. A., much to the pleasure of his many friends in Chicago, paid a brief visit to that city this week.

DR. WM. A. HAMMOND, U. S. A., will open the April "Popular Science Monthly" with an article entitled "Brain Forcing in Childhood."

COLONEL E. B. WILLISTON, U. S. A., visited New York City on Monday on his way to Washington to report to Lieut.-Gen. Sheridan, under special orders.

MAJOR W. F. TUCKER, U. S. A., and Mrs. Tucker went to Youngstown, O., early in the week to attend the marriage of Mr. John A. Logan to Miss Edith H. Andrews.

LIEUTENANT J. W. DUNCAN, 21st Infantry, an officer of fourteen years' service, has been appointed by Gen. Morrow to the regimental adjutancy under the new regulation.

GENERAL A. W. GREELY, U. S. A., delivered an interesting lecture on Saturday evening last at the National Museum, Washington, on the "Animals of the Arctic Region."

LIEUTENANT W. T. SWINBURNE, of the Naval Academy, was in Washington this week undergoing examination preliminary to promotion to the grade of lieutenant commander.

DENNIS KELLY, formerly ordnance sergeant, U. S. Army, convicted of manslaughter at Fort Popham, Me., and sentenced to 18 months' imprisonment, has been granted a pardon by President Cleveland "on satisfactory evidence that the ends of justice have been sufficiently answered."

GENERAL GEO. CROOK, U. S. A., says an Omaha despatch of March 11, has just returned from Boston and is enthusiastic over his visit caused by an invitation from some of the principal citizens, including the Governor and Mayor, for Gen. Crook to visit them and give them his views on the Indian question.

THE statue to Major-Gen. Geo. G. Meade, U. S. A., to be erected at Fairmont Park, Philadelphia, has been successfully cast. It will take three months to complete the pedestal, and if the statue is to be dedicated on July 4 next, the anniversary of the victory at Gettysburg, there is no time to spare. The site has not yet been decided upn.

CAPTAIN OTHO E. MICHAELIS, Ordnance Corps, U. S. Army, rejoined at the Watervliet Arsenal, West Troy, N. Y., from a pleasant trip to Philadelphia, where his lecture on "The Army of Kukuanaland," gave much satisfaction. He has an article entitled "A Word on Base Ball-istics" in the March number of the Journal of the Franklin Institute.

THE remains of Gen. W. K. Loring were taken on Monday, from New York to St. Augustine, where they were accorded a public funeral, Florida holding the deceased in honor as one of her most distinguished sons. The Mayor of St. Augustine and Gen. Anson Thomas, formerly of Gen. Loring's staff, conducted the funeral programme. The body lay in state until March 18, when it was borne to its resting place in the new cemetery with military ceremony.

MARCH, says the New York *Times*, is a famous month of birthdays for living potentates. The 14th is that of King Humbert of Italy, and his father, King Victor Emmanuel, was also born on the 14th. It also happens to be the birthday of the Empress of Brazil. March 10 was the Czar's natal anniversary, and a few days earlier occurred that of the King of Wurtemberg. Pope Leo XIII. was born on March 2, and March 18 President Cleveland reaches the age of 50. But the great March celebration this year is that of March 22, when Emperor William completes his 90th year.

THREE of the nineteen French Corps commanders are past our retiring age, viz.: Gen. Dumont, 3d, 64; Gen. Forgemol, 11th, 65; Gen. Colomb, 15th, 65; thirteen others are over 60, viz.: Lewal, 2d, 63, Thomassin, 4th, 60; Blot, 5th, 62; Février, 6th, 63; Wolff, 7th, 63; Logerot, 8th, 62; Carré de Bellmarre, 9th, 62; Haurion, 10th, 63; Japy, 12th, 61; Bréart, 13th, 61; Bressonet, Engineers, 17th, 62; Cornat, Cavalry, 18th, 63. The youngest two Generals, Davout, 14th, and Berge, Artillery, 16th, are 56 and 58 respectively. The Governor of Paris, Gen. Saussier, who it is expected will be Commander-in-Chief in case of war, is 59.

COLONEL S. R. HONEY, says the Newport *News*, a candidate for the lieutenant-governorship, is a man of brilliant parts and manly character and of a remarkable career. Col. Honey carved out his fortune with his sword, as many brave men have done before him. A stranger in a strange land, the civil war was his opportunity, and he had the courage to grasp it. Enlisting in the ranks of a Regular regiment at the age of 19, he had won his epaulet among the West Pointers before he attained his majority. He rose to a captaincy in the Regular Army, but a soldier in time of peace did not suit his active nature, and he went into the law, where he has won his way with equal dash and capacity.

GENERAL PHIL SHERIDAN, says the *Tribune*, has been in New York for two or three days, with his round figure tightly encased in a dark gray overcoat and his bronzed and ruddy face covered by a day's growth of irongray whiskers. He was accompanied by Mrs. Sheridan. The General explained that his visit here was one of recreation. "I get tired out in Washington," he said, "tired of the monotony of things and full of malaria, so I thought I would take a run over here just to break the continuity of things." If the gossipers are correct, the *Tribune* continues, the General broke some things besides the continuity when he was here a week or ten days ago, and did it on something not much better than a pair of deuces, for the holding of which he has a face like a sphinx. The *World* says: "Gen. Sheridan has been visiting Nonquitt, near New Bedford, on the Massachusetts coast, with a view to the establishment there of a summer residence."

CAPTAIN E. B. RHEEM, 21st U. S. Inf., on sick leave at York, Pa., will remain East during the coming summer.

MAJOR E. C. WOODRUFF, 12th U. S. Inf., commandant of Fort Ontario, N. Y., visited friends in New York this week.

CAPTAIN H. H. KUHN, U. S. A., retired, has been re-elected City Solicitor of Jamestown, Pa., this being his ninth successive term in that office.

SECRETARY OF WAR ENDICOTT, says the Philadelphia *Times*, "although somewhat exclusive, is approachable and courteous to all, and his present parlors in the Pendleton House are frequented by the nicest people. The entertainments are not on so lavish a scale as are those at the house of Secretary Whitney, but the aristocratic old silver and china services make them very attractive."

MISS MARY SIMPSON, daughter of Chaplain George W. Simpson, U. S. A., will be married on Tuesday next, March 22, at Fort Bridger, Wyo., to Lieut. F. L. Palmer, 21st U. S. Inf. In noticing this last week the types made us refer to the marriage as a past instead of a prospective event. The marriage was originally fixed for April 12, but was hastened, as the father of the bride has recently been ordered from Fort Bridger to Texas.

MAYOR HEWITT has filled the vacancy in the New York Health Department caused by the removal of Gen. Shaler by the appointment of Mr. James C. Bayles, editor of the *Iron Age*, who served through the war in the 16th N. Y. Artillery. Gen. Shaler has filed a protest against his removal, and will dispute its legality on the ground that he was removed on charges of having committed an offence in an office (Armory Commission) not connected with that from which he was removed.

GENERAL SAWTELLE, A. Q. M. General, has in his possession a very interesting sketch by Whistler, made when the latter was a cadet at West Point. Gen. Sawtelle was in a class higher than that to which young Whistler belonged at West Point, but the two were frequently thrown into each other's company. It was while reading "Pickwick" together that Whistler one evening drew the pictures of Mrs. Wardle and the fat boy for his friend, declaring as he finished the sketch, "That's the way they must have looked." I asked Gen. Sawtelle what kind of a youngster Whistler was in those days. "Very lazy," said he, "very inattentive in his studies, but very gentlemanly in his ways and fastidious in his tastes."

AN article having appeared recently stating that the removal of Gen. W. T. Sherman from St. Louis to New York was made to aid him in his plan to capture the Presidency, Gen. Martin Beem, of Chicago, wrote him on the subject, and received a reply in which Gen. Sherman said: "One thing you may put down as certain, that the newspapers by their guesses and hints will fail to draw me out, as they have failed to obtain the letters which passed between Blaine and me in 1884. John Sherman is infinitely better qualified for the office than I am, but I doubt whether ever he will again allow the use of his name, for the office is a thankless one, with little honor and profit. I am, of course, proud of the love and affection of the old Union soldiers, and with that secure I am content."

CAPTAIN JOHN H. COSTER, U. S. Army, retired, is, as many know, the able Secretary of the American Jockey Club, and the New York *Tribune* thus refers to him: Every club must of necessity have members useful as well as members ornamental and members qualified to be both. In this latter class Capt. Coster belongs by virtue of years and inheritance. The Captain declares that he never owned a race-horse in his life and, therefore, cannot be said to be on the turf, ought not to be "written up" with any noted turfmen, and—well, would rather wait till he is under the turf, where all men are equal. The bluff old soldier is modest enough to have been an exceedingly brave fighter in the civil war, in which he shouldered arms from 1861 until his country no longer had need of him. He carries a memorial of these stirring times in his chin, which was punctured by a rebel minie ball.

THE Pennsylvania Commandery, in an obituary notice of the late P. A. Engineer F. M. Ashton, U. S. N., say: "His hosts of friends in and out of the Service—and they were numbered by the hundreds—will long remember his devotion to them, his uniform courtesy, his sincerity, and beyond all his loyalty to them. Among his brother officers he was 'a good shipmate' in all that the name might imply; and few outside the Naval service can appreciate, or understand, or enjoy what sterling qualities may be enumerated under this simple title. His filial affection alone surpassed his loyalty to his friends, and the shock of his death, though sudden to them, falls most heavily in the family circle where the light of a dutiful and loving son has gone out forever."

THE N. Y. *Sun* reports that Gens. Grant and McClellan had agreed to join forces to carry through the Nicaragua Canal scheme. The arrangements of the scheme took time, but, at last, after numerous conferences, papers were prepared that were satisfactory to all parties, and Gens. Grant and McClellan met in a New York office to sign them. It should be mentioned incidentally that with Gen. Grant at the head of the enterprise the firm of Grant and Ward would naturally have been its financial agents. The papers embodying the agreements received a final scrutiny, and some discussion ensued. Then Gen. McClellan, who held the documents, passed them to Gen. Grant. The latter had taken a pen in his hand to affix his signature when a messenger entered hurriedly and handed a despatch to him. It announced the failure of the Marine Bank. The General rose calmly, and handing the message to McClellan, remarked: "In that case I think I had better not sign, for if the Marine Bank has failed that means Grant and Ward." Grant and Ward had already failed, but the General had not heard of it. McClellan looked at the despatch for a moment and then replied: "No; in that case I don't believe either of us had better sign, for I don't believe either you or I want to be found in the assets of Grant and Ward." The remark was made with no knowledge of its deep significance, but it was the end of Gen. Grant's connection with the Nicaragua Cana.

GOVERNOR HOALDY, of Ohio, has taken up his residence in New York City.

CAPTAIN J. L. CLEM, U. S. A., and family, of Ogden, Utah, are in California on a short visit.

LIEUTENANT J. N. GLASS, 6th U. S. Cavalry, is visiting friends at 1016 Race street, Philadelphia.

ASSISTANT SURGEON J. V. R. HOFF, U. S. A., has lately been visiting at 283 State street, Albany, N. Y.

ADJUTANT-GENERAL DRUM has been kept at home nearly all of this week on account of the serious illness of Mrs. Drum.

MAJOR-GENERAL A. H. TERRY, U. S. A., and Miss Terry, are on a trip to Texas and Mexico and will return to Chicago in April.

LIEUTENANT JOHN A. LOCKWOOD, U. S. Army, has been visiting Mrs. J. E. Thompson, formerly of Minnesota, in Dresden, Saxony.

COLONEL J. D. BINGHAM, of the Q. M. D., has finished his visit to relatives by marriage in Pensacola, and will return to his station in Chicago.

THE engagement of Lieutenant Wm. M. Swaine, 22d Infantry, to Miss Kathleen Lacey, daughter of Captain T. E. Lacey, 10th Infantry, is announced.

CAPTAIN THOS. H. BRADLEY, 21st U. S. Infantry, and family, for some time past in Washington, left this week for St. Paul, whence, after a short stay, they will go to Fort Bridger, Wyo.

MRS. ANNIE J. STONE, widow of General Charles P. Stone, has received from the Mutual Benefit Life Association, New York City, the sum of $10,000 due on a paid-up policy of her late husband.

CAPTAIN RICHARD L. HOXIE, Corps of Engineers, whose permanent station is at Montgomery, Ala., has gone to Florida, to superintend work at Pensacola bar, and is now living near the Navy-yard in Warrington.

GENERAL E. F. BEALE is said to be one of the largest landowners in this country, having 250,000 acres in one ranch near Los Angeles, California. He has, also, a farm of several hundred acres just outside of Washington.

THE usual number of candidates are in the field for the vacant chaplaincy caused by the retirement of Chaplain Rayner. A Rev. Mr. Morrison, of Baltimore, is strongly supported for the place by Baltimore and Kentucky politicians.

THE friends of Colonel Scott will be glad to learn that his life was insured for some ten thousand dollars, including the benefit from the Army Mutual Aid Association. The house in which the family resides in De Salles Street, Washington, belongs to Mrs. Scott.

GENERAL J. J. FINLEY has been appointed by Gov. Perry United States Senator from Florida, to succeed Charles W. Jones, whose term expires on March 4. Gen. Finley is a lawyer by profession, served with distinction in the Confederate Army, has been a member of the Supreme Court of Florida and was three times a candidate for Congress.

LIEUTENANT L. V. CAZIARC, 2d U. S. Art., now with Hamilton's Light Battery at Little Rock Barracks, has been selected to succeed Lieut. Crosby P. Miller as Adjutant of the Artillery School and post of Fort Monroe. Lieut. Caziarc is a valuable officer, with an excellent war record, and with a large experience, gained in days gone by, of the duties of an Assistant Adjutant-General.

CAPTAIN ARTHUR MORRIS, 4th U. S. Art., who left Fort Adams, R. I., recently for Florida, for the benefit of his health, was taken seriously ill at the Everett House, New York, last week, with pneumonia, and for a time grave doubts were felt as to his recovery. His wife and other relatives were with him and every possible care was exerted in his behalf and soon he was pronounced out of danger.

WILLIAM DE ROHAN, of New York, who distinguished himself under Garibaldi in 1859 60 in the wars for Italian independence, has been lying completely paralyzed and helpless for nearly two years at Havre, and earnest appeals are made for his relief. He is temporarily at No. 78 Rue Saint Quentin, Havre, but letters had better be addressed to him there care Mr. Dufais, U. S. Consul.

GENERAL E. S. BRAGG, we regret to learn, is confined to his home in Fond du Lac by blindness, his eyesight failing him while he was out driving. The specialist treating him thinks that with careful treatment and the entire suspension of work of all kinds for two or three weeks the sight will be fully restored. Years ago when Gen. Bragg was Chief of the Fond du Lac Fire Department he was struck in the eye by a stream of water, and since that time has been troubled to some extent by that organ, but not so much as to cause serious apprehension.

Of a lecture delivered March 11 at the State Agricultural College of Manhattan, Kansas, by Capt. Geo. F. Price, of the 5th U. S. Cavalry, at the invitation of Lieut. Nicholson, the *Industrialist* of that place says: "It was a masterly account of the life and military achievements of Gen. Geo. H. Thomas. The direct, earnest style of address, and the terse but finished sentences fitted the admirable theme, and held the attention of the audience throughout the hour, so that when the Captain closed with an appeal to young men to still maintain the honor of the old flag for which his hero fought, a continuous round of applause made the Chapel ring again with appreciative patriotism."

COLONEL CHAS. J. SPRAGUE, of the Pay Department, U. S. A., who will be retired for age April 12, relinquishes his duties at San Francisco to Paymaster Asa B. Carey, and then goes to his home to await the day of retirement. Colonel Sprague was at West Point for a few months in 1838, and again from September, 1839, to February, 1840, but did not graduate; was appointed 1st Lieutenant, 9th Infantry, in 1847; received the brevet of Captain for his gallantry at Contreras and Cherubusco, was promoted Captain in October, 1847, and disbanded in 1848. He was appointed an additional Paymaster in 1861, which he vacated in November, 1867, having accepted a Paymastership, with the rank of Major, in the regular establishment. He now closes a long and honorable career on the active list.

THE French newspapers are hauling M. de Lesseps over the coals for the sentiments he uttered while under the influence of royal dinners at Berlin.

EX-SENATOR VAN WYCK, of Nebraska, offers his Washington residence for sale at $65,000, thus indicating an abandonment of his idea of succeeding Senator Manderson.

COLONEL TOM OCHILTREE is said to be an applicant for the position of Chief of the Revenue Marine Service. Now he will have a chance to tell his stories where they will be appreciated.

GEN. WM. T. SHERMAN, who has been elected an honorary member of the Friendly Sons of St. Patrick, is the third man thus honored, the other two being Geo. Washington and Henry Ward Beecher.

ON THE evening of Wednesday, March 7, the officers and ladies of the Fort Monroe garrison gave a german in the hop room to Lieutenant and Mrs. Crosby P. Miller, who leave in a few days for Newport. Lieutenant Miller has been adjutant of the post for the past three years.

THE following officers of the Army are registered at the War Department this week: 1st Lieut. E. H. Catlin, 2d Arty.; Capt. D. A. Lyle, Ord. Dept.; Capt. F. A. Kendall, retired; 1st Lieut. Edward S. Farrow, 21st Inf.; 1st Lieut. Curtis McD. Townsend, Eng.; Capt. J. P. Story, 4th Arty.; Col. D. L. Magruder, Surgeon; Capt. W. H. Bixby, Eng.

MR. A. M. PALMER of the Madison Square Theatre will give a performance of "Jim, the Penman," in Washington on the 18th of April in behalf of the Actors' Fund of America, and in response to an invitation signed by Grover Cleveland, W. C. Whitney, William F. Endicott, P. H. Sheridan, D. B. Harmony, W. S. Schley, S. C. Kellogg, S. E. Blunt and others.

P. A. ENGINEER RALPH ASHTON, U. S. N., joined the *Ossipee* at Norfolk, Va., early in the week.

ASSISTANT SURGEON E. W. AUZAL, U. S. N., has returned to San Francisco from a trip to New Orleans.

NAVAL CONSTRUCTOR GEO. W. MUCH, U. S. N., who will be retired for age June next, is then to locate at San Rafael, Cal.

COMMODORE L. C. SARTORI, U. S. N., retired, of Philadelphia, is visiting in San Francisco, with headquarters at the Occidental.

ASSISTANT SURGEON JOSEPH SHAFER and Commander Frank Wildes have been admitted to membership in the Navy Mutual Aid Association.

ENSIGN F. A. HUNTOON, U. S. N., lately relieved of the unexpired portion of his sentence by G. C. M. has been ordered to the *Ossipee* at Norfolk, Va. This vessel will, on the completion of her repairs, join the North Atlantic Station.

P. A. ENGINEER B. C. BAMPTON, U. S. N., retired, has been in the employ of the Pacific Mail for many years, and is regarded by the company as one of their ablest practical men. Mr. Bampton lives in good style at Brooklyn, N. Y., at 75 Clermont Avenue.

ASST. ENGR. W. J. BAXTER, U. S. N., in Scotland on special duty, continues in good health, and is regarded by those around him as a very promising officer. His address is care of Messrs. Napier, Glasgow, Scotland. Mr. Baxter graduated number one of his class.

EX-ENGINEER-IN-CHIEF SHOCK is an occasional visitor to the Bureau where he presided so successfully for so many years, and notwithstanding his years, and the long and arduous duties of the past, his health continues good and his step as elastic as ever. Mr. Shock was retired for age in June, 1882.

WITH the completion of the *Chicago*, at Chester, the duties of Chief Engr. Dungan, U. S. N., at that point will come to an end, but it is not probable that he will be assigned to duty afloat for some time to come. Mrs. Dungan is still residing at the Colonnade, Philadelphia, but his office is in Roach's yard at Chester.

A HOST of friends throughout the Service will be pained to learn that the condition of Med Insp. Somerset Robinson is regarded as very grave, for while the official notice of his illness at the Navy Department did not indicate the nature of his complaint, enough is known from other sources to cause serious fears as to his being able to pull through.

SURGEON J. B. PARKER, U. S. N., has been assigned to duty on the *Ossipee*, and will report without delay. Dr. Parker has a wide circle of well-wishers at the Capital, as a result of his extended tour of duty as assistant to the Surgeon General. He has been residing in Philadelphia for some time past at 402 South 41st street. His recent visit to Washington was partly in reference to sea orders.

CAPTAIN L. A. BEARDSLEE, U. S. N., it is said, has entered upon the study of the question of armor and gun steel with his well known energy and ability, and judging by the captain's past exertions in a similar direction it is a fair assumption that if time is given, his deductions will prove of even greater value than those contained in his well known report on iron and its naval uses a few years ago.

IN compliance with the request of the governing authorities of the Worcester Free Institute, Mass., the Secretary of the Navy assigned Asst. Engr. Wm F. Durand, U. S. N., to duty at that institution, and his classes there will begin a course of study under him at once. Mr. Durand is a graduate of the Naval Academy, being a member of the class of Cadet Engineers of 1880, having graduated number two of his class. The Worcester Institute is fortunate in securing his services.

LIEUTENANT D. L. WILSON, U. S. N., after nearly a full tour of duty in the Hydrographic Office, Navy Department, has been detached from that duty and granted three months' leave of absence. It is understood, however, that in order to secure a desirable station, Lieut. Wilson will probably be ordered to sea before the expiration of his leave of absence. Lieut. Wilson is a brother of Col. John M. Wilson, U. S. A., the present efficient Superintendent of Public Buildings and Grounds, Washington.

THE oldest officer whose name is borne in the Navy Register of 1887, is Medical Director Thos. L. Smith, who, retiring Aug. 13, 1862, at sixty-two years of age, is now well on to 87 years old.

ASSISTANT ENGINEER CHAS. G. TALCOTT, U. S. Navy, who returned home on the *Ossipee* last month from a three years' cruise in Asiatic waters, is visiting his mother at her suburban home, back of Georgetown Heights, D. C.

THE following officers registered at the Navy Department this week: Commander James O'Kane, Lieut. W. H. Emory, Commander J. J. Read, P. A. Engineer W. A. Windsor, Asst. Paymaster James H. Chapman, Lieut.-Commander Leonard Chenery, Lieut. Wm. T. Swinburne, Lieut.-Commander Jas. G. Greer, Ensign H. M. Dombaugh, Asst. Engineer Charles H. Talcott, Paymaster George H. Griffing, Lieut.-Commander R. B. Bradford and Lieut. S. L. Graham.

THE efficiency and promptness of the administration of the Navy Mutual Aid Association has again been demonstrated. Capt. Edward P. Lull, member No. 6, and one of the founders of the association, died March 5, at Pensacola, and was buried on the 7th. On the 8th, the Secretary and Treasurer issued a draft for $3,649.30 in payment of the benefit, and on the 12th it was placed in the hands of Mrs. Emma G. Lull, widow of the deceased. Captain Lull was a member of several other beneficiary associations, but it will take them from forty to sixty days to make settlement.

ENSIGN SIMON COOK, U. S. N., reported a short time since that on account of the nature of the duty to which he had been assigned in the Coast and Geodetic Survey, his eyes were giving him a great deal of trouble, and his detachment from Coast Survey duty, together with the three months' leave of absence granted, is in compliance with his request. Ensign Cook made a full cruise in the South Pacific on the *Iroquois*, and since his detachment from that vessel in May, 1885, has, with a short exception, been on duty in the Coast and Geodetic Survey.

FLEET STEELE, the son of Naval Constructor Steele, was arraigned before Justice Naeher, of Brooklyn, on Friday, to answer for the death of Charles Jiminez, one of the choir of the Church of the Redeemer, Court street, Brooklyn. He was held without bail to answer before the Grand Jury. Steele and his friends say that Jiminez assaulted Steele, and with an open knife in his hand threatened to fix him before he, Steele, struck him. The barkeeper, Preston, fearing that Jiminez would execute his threat, gave a club to Steele, who struck Jiminez with it.

RECENT DEATHS.

GENERAL GEORGE M. LOVE, Captain U. S. Army, retired, a gallant officer whose acquaintance we made in the Shenandoah Valley in the autumn of 1864, died March 15, at Buffalo, of pneumonia after a short illness. He joined the 21st New York Vols. in May, 1861, as First Sergeant of Co. "D," soon rose to Sergeant-Major, and in August of that year was promoted 1st Lieutenant of the 44th New York, made Captain in January, 1862, Major of the 116th New York in September, 1862, and Colonel July 16, 1863. He was mustered out in June, 1865, appointed 2d Lieutenant 11th U. S. Infantry in 1867, transferred to the 16th Infantry in 1869, promoted 1st Lieutenant in 1875, and retired March 15, 1883, for disability incurred in the line of duty. He received the brevets of 1st Lieutenant, Captain, Major and Lieutenant-Colonel in the Regular Army for gallantry at Plains Store, Port Hudson, Cedar Creek, etc., as also the brevet of Brigadier-General of Volunteers. In addition he received a bronze medal of honor from the Secretary of War. New York has reason to be proud of the record of its dead soldier.

—

LIEUTENANT JOSEPH S. POWELL, Signal Corps, U. S. A., whose serious illness, and untoward circumstances, we referred to last week, died at Washington, D. C., on Monday, March 14, of softening of the brain. Death thus brings to an end a career which at one time gave promise of brilliant results, but which of late had been somewhat clouded. Lieut. Powell was born in the District of Columbia, joined the Signal Service as a private, April 1, 1873, rose to sergeant, and on Nov. 1, 1879, was appointed a 2d Lieutenant in the Corps. He had many friends who will deeply regret his untimely death. He leaves a widow, but no children. The funeral took place on Wednesday, the remains being interred temporarily at Glenwood. The Chief Signal Officer has issued an order, referring to the industry and skill of the late Lieut. Powell, and directing, as a mark of respect and esteem, that the officers of the corps wear the usual badge of mourning for thirty days.

The body-bearers were six sergeants of the Signal Corps in uniform, and the following were the pall-bearers: Lieutenants William D. Wright, Frank Greene, Benjamin M. Purssell, John P. Finley, Frederick B. Day and James Mitchell, all of the Signal Corps. Among those present were General Greely, Chief Signal Officer; Pay Director J. S. Cunningham, U. S. N.; Lieutenants Craig, 4th Artillery, and Townsend, 5th Infantry; Colonel Francis B. Jones, all the Signal Corps officers on duty at Washington, and about a hundred of the enlisted men of the Corps.

—

A DESPATCH from the San Carlos Reservation, Arizona, conveys the sad news of the death there

March —, of 2d Lieutenant Seward Mott, 10th U. S. Cavalry, a promising young officer, under the following circumstances: Lieut. Mott had been assisting Capt. Pierce, Agent at the reservation, in the division of lands. A young Apache chief, whose father was confined in the guard house, quarrelled with Lieut. Mott over a division of land, and stabbed him several times, the wounds proving fatal. The murderer escaped, and is now with three renegades who went out to escape punishment for drunkenness, and are being pursued by scouts. Lieutenant Mott was born in New York, appointed to the Military Academy, and was graduated in 1886. Lieut. H. S. Whipple, 10th Cavalry, was sent out with a detachment of cavalry in pursuit of the Indians.

—

MRS. SILVA, wife of Major V. M. C. Silva, formerly of the 21st U. S. Infantry, died at Ogden, Utah, March 3. Of Mrs. Silva, the Salt Lake City *Tribune* says: Five days before Mrs. Silva expired, during the last of her conscious moments, the weary sufferer, placing her arms about her grief-stricken husband said to him with a smile, "You are so good and kind to me!" From that moment she lost consciousness, her eyes closed as in a quiet slumber and she never spoke nor moved again; falling into a state of coma which continued until Thursday evening when she passed away peacefully without a struggle. Today, dressed in the wedding clothes she wore 16 years ago, she lies in her coffin speeding back to the very house and home she left at that time a happy bride. The remains have been brought East for interment in Greenwood Cemetery, Brooklyn.

JOHN B. LUCE, of Arkansas, a brother of Rear Admiral Luce, died in Washington last week of general debility and exhaustion, supposed to have resulted from his long struggle in advocacy of the celebrated Choctaw claim. He had been heavily interested in this claim since 1852, and consumed all his private fortune in its prosecution. Some months ago the Supreme Court rendered a judgment in favor of the claimants, but the last Congress refused to appropriate the amount—more than two million dollars—and it is believed that this last reverse hastened the death of Mr. Luce. Admiral Luce was with his brother in his last moments. The neglect of Congress in this matter was without excuse, and the result is most melancholy.

A MEMORIAL of Gen. Robert B. Potter, who died at Newport, R. I., Feb. 19, has been issued to the members of the Society of the Burnside Expedition and of the 9th Army Corps. The memorial recites Gen. Potter's services to his country during the war, a simple recital being considered by President Hartranft as "more eloquent than the most labored eulogium." The memorial concludes by saying: "The 9th Army Corps has no more soldierly name or record on its roster, and the companions of the high and undaunted spirit must always mourn that the consequences of his achievements and the price of his fame, so glorious to his country, were years of physical disabilities and suffering, and a lingering death."

GEORGE HARVEY BROWN, youngest son of the late Lieutenant Colonel Harvey Brown, 1st U. S. Infantry, died March 10, at Westchester, Pa., of diphtheritic croup. It is a remarkable coincidence that the child died on the fourth anniversary of the death of his distinguished father, who died at Westchester, March 10, 1883.

MRS. CATHARINE COMBS, who died, near Leonardtown, Md., aged 82, leaves three daughters, one of whom is the widow of Surgeon H. F. McSherry, U. S. N.

MRS. ANNA GREBLE VOLKMAR, mother of Colonel William J. Volkmar, died March 2, after a long and painful illness.

MRS. TOWLE, mother of Col. Geo. F. Towle, U. S. Army, of Gen. Terry's staff, died at Chicago, March 12.

MILITARY HISTORY AT ARTILLERY SCHOOL.

To the Editor of the Army and Navy Journal:

ON page 40 of the book on Military Art and Science which has recently been "approved and authorized as a text book," at the U. S. Artillery School, the announcement is made under the general heading of "History of the U. S. Army," that in the year 1869 certain officers "were transferred to the Artillery, to the detriment of the officers of that corps." In other words, the student officers at the school are to be informed that, as an historic fact, such men as Getty, Ayres, Upton, Scott and Ingalls were transferred to the Artillery to the detriment of the officers of that arm of Service. Besides, seeing that the author is dealing with history, would it not be better for him to say that those transfers took place in the year 1870.

It is to be hoped that Military Art and Science is taught at the Artillery School with more accuracy than military history seems to be. A.

DECISIONS IN THE COURT OF CLAIMS.

THE Court of Claims has disallowed the mileage claim of Rear Admiral Peirce Crosby, thereby sustaining the action of the accounting officers of the Treasury. The claim was for mileage under the Temple decision, and was denied by the accounting officers on the ground that the travel performed was not in accordance with orders. Admiral Crosby received orders to proceed without delay from Washington to Rio, but instead of starting at once, taking steamer from Baltimore direct to the objective point, he delayed starting for some days, and then took a more circuitous route, going via Europe to point of destination.

A decision of much interest to paymasters' clerks was rendered by the Court of Claims on Monday last. The court held that a paymaster's clerk is an officer in the Navy, and is entitled to the benefits of the longevity pay, Acts of 1882 and 1883. The accounting officers will probably not be willing to abide by this decision, so that the question will eventually reach the U. S. Supreme Court, when the real status of this class of public servants will be finally settled.

THE QUESTION OF THE ARTILLERY.

To the Editor of the Army and Navy Journal:

AS AN effort either to define the present condition of the artillery, or to indicate a remedy for its alleged deficiencies, the paper of Prof. Michie does not seem to meet the situation and needs as they actually exist.

The artillery as a corps, in the first place, is no less efficient now than before the war, so far as its own efforts can make it efficient. During the war it served entirely as light artillery and, should occasion arise, there seems to be no reason to doubt that whatever duties might be devolved upon it would be, as before, discharged as history records.

The artillery is now a body of men not only well drilled in the school of infantry, as at present established, disciplined and efficient, so far as its means can make it so, but as artillery proper in addition to its attainments as infantry it has a thorough familiarity with the armament yet kept in its hands.

It is still waiting with exemplary patience for the forts which it is the business of the engineers to build and for the guns which it is the business of the ordnance to construct.

When the artillery get possession of modern material it will, no doubt, realize a new standard of efficiency as thoroughly as it has the old, but to find fault with it for the absence of what does not belong to it to do nor to furnish is to utterly miss the mark.

There are two remedies proposed, both of which seem to be altogether too homeopathic to admit of any practical benefit—increased regimental supervision and a Chief of the Corps. It is not perceived how either at present could accomplish the desired end.

If the regimental commander, for instance, were to visit Fort Barrancas he would find a garrison thoroughly acquainted with its duties and familiar with the armament of that post, consisting, perhaps, of two 8-in. siege mortars, two 4½ in. siege rifles and two 8-in. siege howitzers. The care taken to keep them in good condition and to exhaust their capabilities in the way of manœuvre and practice might be appreciated by the regimental commander, but could hardly be improved. If even at this very time a "Chief" should arrive it is difficult to see how the situation would be changed for the better.

Clearly the remedy for any existing deficiency does not lie in additional interference with the work of the post commander. It must be sought much nearer our political centre of gravity and is entirely a question not of men but of supply.

In fact the artillery is in exactly the position of the Corps of Engineers and the Ordnance Corps, no better and no worse. The former have failed and continue to fail to secure the appropriations they need to build the works they have planned, the latter are no more successful, and it does not appear that the existence of a Chief much helps the matter.

If the statement of what is required had been confined to the incorporation into one body, of the men who make, the men who arm and the men who use our forts it would, at least, have started on a common-sense basis which appeals at once to the intelligence of the most ordinary legislator.

But this business of incorporation, where one part is all head to begin with and the other part largely tail, has its peculiar difficulties, and the artillery, before it commits itself to the process, would do well to secure a good start.

Looking at the question from an abstract point of view, when a cat swallows a canary it is hard to see where the benefit to the bird comes in.

Before the artillery makes up its mind to go into bankruptcy, even on the most complimentary invitation, let it take an account of stock, and if it finds the goods rather antiquated in pattern let it comfort itself with the reflection that we only do a commission business and are not accountable for the quality of our wares.

In the matter of promotion there is much to be said, especially from the point of view of a Lieutenant of twenty years' standing, but it is to be feared that incorporation would be of little avail, and it is certain that its slowness is no fault of our own that regimental supervision or a Corps Chief could mend.

Even making the Artillery a Scientific Corps by itself would be of no use unless it is the peculiar property of a Scientific Corps to be all Colonels.

As for duties to be done they are generally to be found pretty near home and of a size that will occupy much of the attention of a willing man, as the records of our own young officers show.

In the mental, moral, and physical improvement of the men under his charge, as well as of himself, there is still room for a most essential work on the part of all officers who are troubled with aspirations for better things as well in the matter of character as of cannon.

FORT WADSWORTH, N. Y. H.

THE THIRD ARTILLERY.

HDQRS. THIRD U. S. ARTILLERY,
WASHINGTON, D. C., March 13, 1887.

To the Editor of the Army and Navy Journal:

IN view of the widespread publicity which has been given to an article in the *Evening Star* (Washington), of the 9th instant, purporting to give the contents of an official letter from the Adjutant-General's office, received by me at the very moment the article appeared in print on the streets of Washington, as well as other incorrect statements of other papers, I deem it my duty as Colonel of the 3d Artillery to pronounce the statement that I "was severely reprimanded by the Secretary of War," as utterly false, and the allegation that there was a "bad appearance of the troops on the occasion of the funeral of the late Colonel Scott," and "unsoldierly conduct of the officers," if not a lie made out of whole cloth an unwarranted and malicious assault upon a Regiment, which, on the occasion, made "the finest parade of any troops that ever appeared in Washington."

In answer to the article which appeared in the New York *Times* of the 10th instant, based upon false information—given, I learn, by an officer of the Army, in an evidently malicious and slanderous spirit—I have to say that there was no drunkenness in the ranks, nor any means or opportunity for its occurrence; nor any irregularities such as this officer, through the correspondent of the New York *Times*, alleges, except the want of promptness, for which only one officer was at fault.

For that which actually occurred and which, however vexatious, distressing or blameable, should have been hid from sight beneath the pall of the dead officer, the Colonel of the Regiment was in no wise responsible, as he was assigned to another duty, and proper explanations of the whole matter in all that was officially taken notice of, will be made by the officers concerned. I here solely refer to and answer the newspaper articles, in justice to my Regiment and to myself, an officer of forty years' service, unjustly and improperly assailed.

H. G. GIBSON, Colonel 3d Artillery.

The following letter from the Lieutenant-General of the Army to the Colonel of the Regiment, is published by Colonel Gibson [in Orders No. 20, March 16], for the information of the Regiment, as a matter of congratulation, and as its vindication to the Army and the public:

H. Q. A. OF THE UNITED STATES,
WASHINGTON, D. C., March 16, 1887.

DEAR GENERAL: Your note of late date is received. The funeral of Colonel Scott occurred while I was absent from the city, and criticisms upon your troops, to which you allude, first reached me through the newspapers. They occasioned me great surprise, for upon all the previous parades of your regiment in the city that had come under my notice I had been impressed with the fine appearance and soldierly bearing of the officers and men.

Upon my return I made an investigation of the circumstances, and learned nothing to the discredit of your troops beyond the inadvertance, which caused a delay of about ten minutes in their reporting for escort duty, and for this I understand you—not then being in command of the battalion—were in no way responsible.

It gives me pleasere to express my satisfaction with the present condition of the Third Artillery, and I have every reason to believe that the high standard of military bearing and efficiency that they have now reached will be maintained in the future. Yours, very truly,

P. H. SHERIDAN, Lieutenant-General.

(Correspondence of the Army and Navy Journal.)

AFFAIRS AT PENSACOLA.

AN early spring has made this station unusually agreeable and a round of receptions, card, dinner and dancing parties has added much to the usual loveliness of the vernal season. At Barrancas the spirit of improvement continues to be most manifest and the hands of the gardener, the carpenter and painter are making the fort look as it never looked before. Everything unsightly is being removed, and when all is done Lieut.-Col. Langdon and 1st Lieut. Crawford, commanding officer and quartermaster, respectively, will find much enjoyment in the pleasing results of their labors. The narcissus, jonquil, and daffodil families have exhibited their charms and passed away, and we are now enjoying the first roses, the jessamine, and several varieties of the exquisite white spiraea or bridal wreath. Next week the Pride of India blossoms will make redolent the air and then straw hats will resume.

At Pickens, Lieut. Parker and his swarthy Indian colony have made the desert to bloom, and it is surely one-and-twenty years since the old fort presented such a creditable appearance. The Apaches have laid out and planted seeds in the sandy flats, and the long slopes, formerly brown with dead grass and weeds, are now a velvety green, adding a very pretty feature to the bay view. The flag staff, long fallen, is to be replaced, which will rejoice the bar pilots who crave just such a landmark.

The Navy-yard is as quiet as a New England village. The general has marshalled his new force and is trying to find out what there is and is not in the various storehouses—a six months' task, as in one department at least there has been no inventory made for a dozen of years.

The new Marine Barracks are approaching completion, and one building is expected to be in use by St. Patrick's Day. The marines take note of holidays and on Washington's Birthday held a celebration in the shape of a public review and competitive drill which was the event of the season. The parade ground was decorated with flags, guidons, tents, canopies, evergreens, etc., and nearly 500 people were in attendance. Three weeks before, Capt. Cochrane, the commanding officer, published an order offering three prizes, one gold, one silver, and a consolation pipe for "the cleanest, best set up, and best drilled man in the command," and, to give all equal chance, organized them into two sections for special training. He took charge of one, and 1st Lieut. T. G. Fillette of the other, and the beneficial effect of this proceeding was most apparent. Lieut.-Col. L. L. Langdon, Capt. F. C. Grugan, and 1st Lt. M. Crawford, Jr., 2d U. S. Art., were invited to act as judges, and all the Army and Navy colony, the officers and non-commissioned officers of the Escamba Rifles, a great many ladies and gentlemen of Pensacola, and Mlle. Rhea and company, were invited to witness the drill.

The exercises began at 3 P. M. with a review tendered Col. Langdon by Capt. Cochrane, and then the competing sections were marched out. 1st Sergt. Henry McLaren and Sergt. Hiram Hitchcrd, U. S. M. C., tossed for precedence, and Lieut. Fillette's section won first inning. The entire manual of arms, including the reverse, rest on, stacking, loading, firing, inspection, etc., was then given by this section amid the utmost silence and attention.

When the other section took the ground, of course, the interest increased, and with it the efforts of the men to excel. At the completion of the drill the sections were dismissed and the judges unanimously decided in favor of Capt. Cochrane's, although giving much praise to the other. A box of 100 cigars offered by Lieut. Fillette and several special prizes, including a handsome iced cake and bouquet of flowers by Mrs. Lull, wife of the commandant, a large sponge cake by Mrs. Lieut. Comdr. W. C. Gibson, U. S. N., and a freezer full of ice cream with the compliments of Mrs. Paymaster Drury, were then presented by Col. Langdon to the winning section, which, as the day was warm and close, was in good condition to appreciate refreshment. The men exerted themselves so much that the individual competition was deferred until another time, and the guests were then entertained by Capt. Cochrane, assisted by Lieut. and Mrs. Fillette, with a luncheon and music. At retreat all retired delighted with the exercises of the day.

The April number of the *Century* will contain an editorial on "Lincoln and Lowell," which alludes to some of the tributes paid to Mr. Lincoln by the leading American writers, but especially to Mr. Lowell's remarkable record on this point.

THE ARMY.

G. O. 15, H. Q. A., Feb. 23, 1887.

Publishes letter of the Second Comptroller of the Treasury, in explanation of that portion of his decision of Feb. 5, 1886, published in G. O. 16, of 1886, relating to the transmission of and payment for official telegrams sent over lines connected with United States military telegraphs. The Comptroller says:

"Relative to payment of charges for transmission of official telegrams, sent and received by officers of the Government, which pass partly over military telegraph lines and partly over connecting lines of private companies, for which there is no charge except that of the private line, and which does not therefore require the taking and stating of an account between the United States and the telegraph companies for the purpose of apportioning the charges between the private and military lines, I know no reason why the quartermaster assigned to the duty of settling telegraph accounts should not pay the charges of the private company in such cases. My decision of February 5, 1886, was intended to apply to the transmission of messages over a military line operated in connection with lines of independent companies in cases where it becomes necessary that charges for such service shall be apportioned between the two. Hence it is obvious that in cases where the service is rendered *free of charge* by the Government or military line the decision does not apply, the reason for same not existing."

In view of the foregoing, and the fact that telegrams on military business are sent over United States military lines without charge, and as it is not necessary in any case to apportion charges between such lines and those of private telegraph companies, officers of the Quartermaster's Department charged with the adjustment and settlement of telegraph accounts will pay the charges of private companies in such cases, provided the telegrams do not pass over lines of telegraph constructed and operated along the bonded portions of the Pacific railroads. Pars. 693, 695 and 696, published in G. O. 65, of 1886, are amended accordingly.

G. O. 20, H. Q. A., March 8, 1887.

By direction of the Secretary of War, the following opinions of the Attorney General are published for the information of the Army:

The Attorney General was asked whether:

"In cases of arrest in the Indian territories, where civil proceedings only result, and when it is deemed expedient to transport the prisoners arrested to the seat of the district court at Wichita, Kansas, would it not be proper to hold the goods authorized by law to be seized, making to the district attorney the report required by Section 3086, R. S.—custom officers—and hold these goods in custody abiding the action of the civil authorities?"

After discussing the subject at length, he says:

"From these considerations it is concluded that the special provision of section 3086, by which the property seized is left in the custody of the collector or principal officer of the customs for violation of the revenue service, is not to be considered as embraced in the proceedings contemplated in section 2125, so as to permit the military forces employed in making seizures to retain the custody of the property to abide adjudication, but that on, or as soon as is reasonably practicable after report is made to the United States district attorney, the property should be placed in the custody of the proper civil officer."

Another question asked was:

"Are the lands leased to the whites in Cherokee strip lands of the United States referred to in section 5388, R. S., or otherwise?" The answer is that: "When the United States became the trustee, the purpose of the trust was, and still is, the sale of the lands according to the terms of the treaty. This is not such a purpose or reservation for the use of the United States as is contemplated by section 5388 referred to in your first inquiry."

In reply to an inquiry: "What does the word 'foreigner' embrace in section 3134, R. S.?" The answer is that it "embraces those who are born out of the United States, who are not naturalized, and who owe allegiance to any other government than that of the United States—an alien. It is used in its ordinary signification." "Section 2134 was originally enacted, both in the Revised Statutes and in the act of 1834, when others beside foreigners are intended to be embraced, the language 'any person other than an Indian' is used. In the case of Cherokee Nation v. Georgia (5 Peters 1), it is ruled, 'an Indian tribe or nation within the United States is not a foreign state within the meaning of section 2 of the 3d article of the Constitution.' They may more correctly perhaps be denominated domestic dependent nations. From this it would seem to follow that a citizen of the United States is not described as a foreigner, as to the Indian tribes resident in the United States, in the legislation of the National Government."

G. O. 21, H. Q. A., March 10, 1887.

Publishes the promotions, appointments, and transfers in the Army of the United States, made by the President, by and with the advice and consent of the Senate, since the publication of G. O. 64, of August 25, 1886, together with retirements and casualties.

[All of these have appeared from time to time in the JOURNAL as made.—ED. JOURNAL.]

G. O. 23, H. Q. A., March 15, 1887.

Publishes extracts of the act of Congress approved March 3, 1887, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1888, and for other purposes.

(The details of this act have already been given in the JOURNAL.)

G. O. 24, H. Q. A., March 15, 1887.

On receipt of this order, the practice of firing a morning and evening gun at military posts will be discontinued until further orders, except at the U. S. Military Academy, West Point, New York; at Fort Monroe, Virginia; and at Fort Leavenworth, Kansas, in consequence of the supply of powder remaining at the close of the war of the rebellion which has been used for this purpose having become exhausted, and the Ordnance Department being without funds for the purchase of the powder required.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR., WAR DEPARTMENT, A. G. O., March 15, 1887.

Announces that the Union National Bank of Duluth, Minn., has been designated a depository of public moneys.

CIRCULAR 2, H. Q. A., March 12, 1887.

The following decisions, rulings, etc., have been made during the month of February, 1887, and are published to the Army for the information of all concerned:

CLAIM FOR REIMBURSEMENT, UNDER THE ACT OF MARCH 3, 1885, FOR THE LOSS BY FIRE OF MESS FURNITURE.

Mess furniture of a company purchased from the company fund, under the provisions of paragraph 1552 of the Regulations, is considered company property, and remuneration for the loss of such does not come within the provision of the act of March 3, 1885, determining claims for the loss of personal property of individual officers and soldiers.—(Decision Sec. War, letter Feb. 3, 1887.)

DETAIL OF NON-COMMISSIONED OFFICERS ON EXTRA DUTY.

Non-commissioned officers may be detailed on extra duty as school-teachers when absolutely necessary, but the absolute necessity must be shown, including the fact that there is no private at the post competent to perform the duty, before the authority of the Secretary of War for the detail will be given.—(Decision Sec. War, Feb. 5, 1887.)

Details of non-commissioned officers on extra duty as clerks in the Quartermaster's and Subsistence Departments will in no case be approved unless it be clearly shown that such details are "absolutely necessary," and that there are no privates at the post who can perform clerical duty. The fact that they cannot do it as well as non-commissioned officers is not sufficient reason for the detail of the latter.—(Decision Sec. War, Feb. 5, 1887.)

TRANSPORTATION OVER ROUTES THROUGH CANADA.

If tickets over Canadian routes can be purchased for individual soldiers on furlough, etc., at lower rates than by other lines, they may be furnished over such routes; such travel to be by any passenger route accessible to the general public, limited to unarmed individual soldiers, and not to include organized forces under command.—(Decision Sec. War, letter Feb. 9, 1887.)

FUEL FOR SALE TO OFFICERS.

In view of the provisions of paragraph 1862 of the Regulations (as amended by G. O. 9, of 1882, from this office) the cheapest fuel should be purchased and supplied by the Quartermaster's Department.—(Decision Sec. War, letter Feb. 10, 1887.)

PURCHASE OF ARMY SUPPLIES FROM INDIANS.

The purchase of supplies from Indians can only be made under contract, on their submitting the lowest bids, or, in case of emergency, in open market, in the manner authorized by law.—(Decision Sec. War, letter Feb. 12, 1887.)

TAX ON SALES AT POST CANTEENS.

A tax cannot properly be collected from a post canteen, whose object is only to act as a co-operative or mutual purchasing and distributing agency among the members of the canteen, and in which no profit is made by individuals, the cost of the articles, with the expenses of procuring, keeping, and distributing them, being paid by the members, who, under the form of a sale, receive the same. But this only relates to cases where the United States has jurisdiction over a military reservation; in all other cases the question of taxation is one to be decided by the State and local authorities, and not by the War Department. The Supreme Court has decided that it can grant no relief from enforcement of tax laws so long as they do not trench on Federal authority or violate any right recognized or secured by the United States Constitution, and the United States is powerless to grant any relief from taxation by a State so long as such taxation does not affect any constitutional means employed by the United States to execute its powers.—(Decision Sec. War, letter Feb. 15, 1887.)

CAMPAIGN HAT CORDS AND TASSELS.

The gratuitous issue of one cord and tassel with each campaign hat drawn by enlisted men of the Army is authorized until the stock of those now on hand at posts or at the general depots of the Quartermaster's Department shall have become exhausted.—(Decision Sec. War, Feb. 25, 1887.)

SUBSISTENCE OF GENERAL SERVICE CLERKS IN POST HOSPITALS.

A reasonable charge, not exceeding fifty cents per day, will be made for the subsistence of a General Service clerk who is admitted to a post hospital, to be paid by the man to the hospital fund, as provided in paragraph 2311 of the Regulations.—(Decision Sec. War, letter Feb. 26, 1887.)

DETAIL OF POST BAKERS ON DAILY DUTY.

Enlisted men detailed as post bakers should be reported on daily duty.—(Decision Lieut. Gen., letter Feb. 9, 1887.)

LIGHT BATTERY OFFICERS NOT TO ENTER RIFLE COMPETITIONS.

Officers attached to light batteries will not be considered eligible for detachment from their batteries for rifle practice, nor to enter the department rifle competitions.—(Decision Lieut. Gen., Feb. 16, 1887.)

TARGET PRACTICE.

While men detailed as hospital attendants must be given the instruction prescribed in paragraph 179, Blunt's "Rifle and Carbine Firing," they will not be included in computing the figure of merit.

For instruction in pistol practice the figure targets, as well as those prescribed in Appendix A, Blunt's "Rifle and Carbine Firing," may be used in the discretion of the troop commander, and department commanders will select the period for such instruction and direct the amount.—(Decisions Lieut. Gen., Feb. 17, 1887.)

TRANSPORTATION FOR GENERAL SERVICE CLERKS AND MESSENGERS TO AND FROM THEIR PLACES OF BUSINESS.

Under the provisions of the act approved July 29, 1886, for the enlistment and pay of General Service clerks and General Service messengers in the Army, no other or further allowance than that which is therein provided can be made to such clerks and messengers by way of reimbursement for personal expenses incurred or paid in travelling between division, department, or district headquarters where employed and their places of residence, respectively, and no expense can properly be incurred by the War Department in furnishing transportation for that purpose. Their status, in this respect, is not different from that of other civilian employees at department, division, or district headquarters, and Section 2 of the act above referred to expressly prohibits the payment of any other compensation, pay, or allowance than that specified in the act, and no provision is made therein for reimbursement of such travelling expenses or for transportation of such employees at the expense of the Government.—(Decision Second Comp., letter Feb. 9, 1887.)

RATION CERTIFICATES REQUIRED BY PARAGRAPH 2167 OF THE REGULATIONS.

When an individual soldier under orders for travel is furnished commutation of rations or rations in kind to a certain date, and that fact is noted on his order, the use of Form 67½ is unnecessary; a certified copy of the order and notation thereon being all that is needed for file with the proper abstract.—(General decision.)

MUSIC POUCHES.

The value of a music pouch forms part of the money allowance of each musician, the same as clothing. The allowance is one during the enlistment of five years; it should therefore be considered the personal property of the musician upon his discharge from the Army.—General decision, letter Feb. 8, 1887.)

HOISTING A FLAG TO AND LOWERING IT FROM HALF-STAFF.

The flag should be hoisted to the top of the staff and then lowered to half-staff at the instant of the firing of the reveille gun; it should be hoisted to the top and immediately lowered at the firing of the retreat gun; or in case of a funeral salute at retreat it should be hoisted and then lowered immediately after the last gun of the salute.—(General decision, letter Feb. 19, 1887.)

TRANSPORTATION REQUESTS.

Officers of the Quartermaster's Department are advised that on the form of transportation requests the space reserved for "remarks" is intended for any extraordinary notice, as, for example, when special rates shall govern, or when limited or unlimited tickets shall issue in cases where two or more classes of tickets are on sale differing in cost or in the time during which they can be used. The interests of the service enjoin all officers charged with the duty of providing transportation for the Army to inform themselves upon points such as these, and to avail themselves of all opportunities of securing acceptable transportation at the lowest prices prevailing. Disbursing quartermasters will report to the Quartermaster General all cases of neglect and errors on the part of officers issuing transportation requests which may result in a waste of public money. See A. R, 1992.—(General decision.)

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 2, DEPT. OF THE PLATTE, March 10, 1887.

The following is designated as the Practice Season for Target Year of 1887:

Forts Bridger and Douglas—June July, August.
Forts Du Chesne and Laramie—June 15 to September 15.
Fort McKinney—June, July, August.
Fort Niobrara—May 15 to August 15.
Fort Omaha—May 1 to October 31.
Fort Robinson—May, June, July.
Fort D. A. Russell—July, August, September,
Fort Sidney—May 15 to August 15.
Fort Washakie—July, August, September.
Camp Pilot Butte—May, June, July.

By command of Brig. Gen. Crook:
SAM'L BRECK, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

Judge Advocate General's Department.

Capt. Wm. E. Birkhimer, A. J.-A., will proceed on public business to Portland, Oregon (S. O. 39, March 3, D. Columbia.)

Quartermasters and Subsistence Departments.

Capt. William S. Patten, A. Q. M., Vancouver Barracks Quartermaster's Depot, will proceed on public business to Portland, Ore., and return. (S. O. 38, March 2, D. C.)

Major G. B. Dandy, Chief Q. M., will proceed to Fort D. A. Russell, Wyo., on public business (S. O. 23, March 5, D. Platte).

The journey performed by Capt. Chas. A. Woodruff, C. S., from Vancouver Bks. to Portland, Ore., and return, Feb. 15, is confirmed (S. O. 37, March 1, D. Columbia.)

Capt. Charles A. Woodruff, C. S., will proceed on public business to Portland, Ore. (S. O. 28, March 2, D. C.)

Pay Department.

The station of Major Wm. M. Maynadier, Paymr., is changed from Santa Fe to Albuquerque, N. M. (S. O., March 11, H. Q. A.)

Leave of absence, for one month, on surgeon's certificate, is granted Major John E. Blaine, Paymr., Helena, M. T. (S. O. 18, March 7, D. Dakota.)

Major George W. Candee, Paymr., will proceed to Rock Island Arsenal, and pay the troops stationed there (S. O. 29, March 11, Div. Mo.)

Major Asa B. Carey, Paymr., will report to the Comdg. Gen., Div. of the Pacific and Dept. of California, for duty as Chief Paymr., Dept. of California, to relieve Major Charles J. Sprague, Paymr., who will then proceed to his home and await retirement (S. O., March 15, H. Q. A.)

Maj. De Witt C. Poole, Paymr., Vancouver Bks., will proceed on public business to Portland, Ore. (S. O. 36 and 39, Feb. 28 and March 3, D. Columbia.)

Major James P. Canby is relieved from the temporary duty imposed by par. 1, S. O. 30, c. s., D. C. (S. O. 38, March 2, D. C.)

Medical Department.

Capt. W. W. Gray, asst. surg., is granted a further extension of leave for two months (S. O., March 17, H. Q. A.)

1st Lieut. Jefferson D. Poindexter, asst. surg., recently appointed, will proceed from Design, Va., to West Point, N. Y., and report in person to the Supt. U. S. Military Academy for temporary duty, relieving Captain R. W. Johnson, asst. surg., who upon being thus relieved will return to his proper station, Fort Adams, R I. (S. O., March 17, H. Q. A.)

Leave for one month, with permission to apply for an extension of one month, is granted A. A. Surg. Charles Anderson (S. O. 27, March 8, D. Ariz.)

The leave on surgeon's certificate granted Capt. W. Fitzhugh Carter, asst. surg., is extended four months on surgeon's certificate (S. O., March 11, H. Q. A.)

The C. O., Fort Ringgold, will send Hospl. Steward Wm. Muench, on public business, to report to the Medical Director (S. O. 30, March 7, D. Texas).

Capt. Julius H. Patzki, asst. surg., Mount Vernon Barracks, having been summoned to appear before a civil court in Mobile, Ala., as a witness in a case pending before it, is authorized to obey said summons (S. O. 53, March 14, Div. Atlantic.)

Engineers and Ordnance Departments.

Lieut.-Col. John W. Barlow, C. E., will proceed to the Mussel Shoals of the Tennessee River on duty connected with works under his charge (S. O. 43, C. E., March 12.)

1st Lieut. Geo. McC. Derby, C. E., will proceed to Highlands, N. J., on duty connected with works under his charge (S. O. 43, C. E., March 12.)

Capt. Wm. H. Bixby, C. E., will proceed to Georgetown, Conway and Reeves' Ferry, S. C.; Beaufort, N. C., and Columbia, S. C., on duty connected with works under his charge (S. O. 44, C. E., March 14.)

Major Oswald H. Ernst, C. E., will proceed to Aransas Pass on duty connected with works under his charge (S. O. 45, C. E., March 15.)

Leave for one month from March 30 is granted Major Milton B. Adams, C. E. (S. O. 45, C. E., March 15.)

Lieut.-Col. Cyrus B. Comstock, C. E., will proceed to his station at Willet's Point, N. Y. (S. O. 42, C. E., March 11.)

Major Milton B. Adams, C. E., will proceed to Breakwater at Rouse's Point and Whitehall Harbor, N. Y., on duty connected with works under his charge (S. O. 41, C. E., March 10.)

Captain Daniel W. Lockwood, C. E., will proceed to the harbor at Michigan City, Ind., on duty connected with works under his charge (S. O. 46, March 16, C. E.)

Par. 5, S. O. 40, directing Lieut. Col. George L. Gillespie, C. E., to temporarily relieve Lieut. Col. Geo. H. Elliot, C. E., of the duties under his charge, is revoked, and Major Wm. R. Livermore, C. E., will

temporarily relieve Col. Elliot, C. E., of the duties under his charge (S. O., March 11, H. Q. A.)

1st Lieut. George A. Zinn, C. E., is relieved from temporary duty with Co. E, Battalion of Engineers, West Point, N. Y., and will proceed to Galveston, Tex., and report to Major Oswald H. Ernst for duty under his immediate orders (S. O., March 16, H. Q. A.)

Capt. John G. Butler, O. D., will proceed to the Colt's Patent Fire-arms Manufacturing Company's Works, Connecticut, to inspect Army revolvers and Gatling guns, being manufactured for the O. D. (S. O., March 15, H. Q. A.)

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A despatch says: "The Indian troubles in Rolette county, on the Canada line, just east of the Turtle Mountains and northwest of Devil's Lake, arise from the attempt to enforce local taxation against the half breeds, some of whom are doubtless refugees from Canada who sympathized with Riel, or formed a part of his forces. Be this as it may, the militia should be the first resort to prevent trouble, and failing then the Regular Army."

Division of the Atlantic.—Maj.-Gen. Schofield.

The latest report of Indian prisoners at Fort Marion, Fla., shows that their number on Feb. 1 last was 447. Three children have been born since then and four Indians have died, leaving 446 in confinement—82 men, 206 women and 158 children. One woman died from old age, a woman and a child from tuberculosis and a child from meningitis. The Indians generally have behaved well. About fifty children are under instruction by the brothers of St. Joseph's Academy and have made good progress. Some kindly disposed ladies have been instructing the men during the past month with considerable success, in the elements of the English language.

The site selected for Mr. John Chamberlin's new hotel at Fortress Monroe is near the light-house, northeast from the Hygeia Hotel and fronting the ocean entrance between Cape Charles and Cape Henry.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch this week from Gen. Miles reports that four Tonto Indian men and one boy left the San Carlos Agency March 2 and began depredations, stealing horses, killing a man and burning a house. Lieut. Whipple, 10th Cav., is in pursuit. The murder of Lieut. Mott, 10th Cav., is also reported and troops are in pursuit of the Indian who killed him. The pursuing party are instructed to "capture or destroy" the refugees.

A despatch of March 12 from Nogales says: Just as an order had been prepared for more rations for the troops stationed here, a telegram was received from Gen. Miles ordering them to return to Fort Huachuca. Capt. Lawton left this morning for Fort Huachuca, and the troops will leave to-morrow morning. An earnest effort is being made by the American citizens to have Gen. Miles send troops here to remain permanently. The Mexicans have a garrison on their side of the line. The people on the American side feel that troops should be stationed on the American side.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

WEST POINT, N. Y., March 17, 1887.

THERE is little to chronicle from the Academy this week. A sort of social stagnation has come over the place. The good people go to church twice or thrice a week, and those not good don't.

On Tuesday evening a large number of ladies and officers assembled in the Library to hear Lieut. Wisser read his paper on Minor Tactics. The reader told many plain truths, and made a number of suggestions which, if they could be carried out, would add much to the knowledge and efficiency of our officers.

Mr. Tekirian, a Christianized Turk from Armenia, will begin to-morrow to exhibit in Schofield Hall a lot of fine Turkish rugs. Ottar of Roses, silks and other Turkish goods. He comes well recommended by Professor Dwight of Vassar.

Orders were issued on Monday for the annual drill season, to begin on the 15th, but so far nothing has been done, for the weather is too cold to drill out of doors.

Lieuts. Brown, O. J., and Kirby have returned from short leaves.

Major S. R. Potter, Royal Engineers, New South Wales, spent several days here this week.

The specimens in the Chemical Department are being packed for removal. This is made necessary by the rebuilding of the Academic Building. It will be quite a labor, for there are over 40,000 pieces to be handled.

U. S. ARTILLERY SCHOOL.

FORT MONROE, VA., March 15, 1887.

OUR theatre building has recently undergone considerable improvement; the walls and ceiling have been handsomely and appropriately frescoed, the stage has been extended and a gallery erected. Two performances were given by the officers last week; one on Thursday evening, to which all the enlisted men, their wives, families and sweethearts were admitted without charge, the other on Friday evening, at which a charge of 50 cents was made to purchase new scenery. There was a packed attendance on each occasion. These entertainments are a source of the greatest enjoyment to young and old. They are the cause of keeping at home numbers of enlisted men who may resort to the beerhouse to pass away their idle time, and also tend to induce them to get up performances of their own, for which some are already rehearsing.

These performances also afford the greatest enjoyment to crowds of citizens, always to be found at this healthy resort. Therefore, to the promoters of these amusements, all offer their unstinted thanks. Maj. Babbitt, one of our oldest and ablest performers, can successfully assume any character; the charming Mrs. Nye was always greeted with plaudits of welcome from all parts of the house; Mrs. Fisher's stage movements and manner were marked by grace and dignity; and the winning, witching, but sometimes wayward, Miss Montague caused roars of laughter. Lieut. Wood acted so inimitably the part of the incorrigible inebriate that many believed his talent for justification and evasion was derived from being under the influence. Lieut. Foote, as a leading character, acted his part throughout with unexpected cleverness, and the flirtation of Lieut. Brooks with the pretty Polly Eccles was a pleasant feature of the play. The following is the programme:

Fort Monroe Theatre. Caste.—Comedy in three acts.—Characters—Hon. Geo. D'Alroy, Major Babbitt; Capt. Hawtree, Lieut. Foote; Eccles, Lieut. Wood; Samuel Gerridge, Lieut. Brooks; Marquise de St. Maur, Mrs. Fisher; Polly Eccles, Miss Montague; Esther Eccles, Mrs. Nye. Maj. Babbitt manager. Doors open at 7.30. Curtain rises at 8.

For want of hotel accommodation as many as a hundred a day frequently leave here for other places. To meet this public necessity, John Chamberlain is about to erect a mammoth hotel here and make it one of the most attractive in any watering resort, either South or North. Of the thousand visitors now enjoying our sunny clime, numbers inspect the fort all day long and seem to take a pride in our impregnable position, but unhappily the military engineer would think otherwise. The machine guns are objects of great attraction, and so are the Yorktown trophies, counting among them, as is now almost positively ascertained, the second earliest gun ever manufactured. Perched in different attitudes on those ancient war memorials, may be seen at almost all hours of the day, groups of ladies and gentlemen to be photographed, all eager to carry off some historical and military memento.

Battalion drill in the evening, and ending with dress parade, under the command of that brilliant soldier, Col. Pennington, has a great attraction for strangers, and considering the fine appearance of both officers and men and their disciplinary movements, it presents a handsome military spectacle, especially to the many unaccustomed to witness the movements of well drilled troops.

Lieut. C. P. Miller, our adjutant here for three years, leaves in a few days for his new home and position, Fort Adams, R. I., to the regret of all. Himself and Mrs. Miller were such general favorites here that their departure creates a void that it will take some time to fill. This bright and sunny evening he occupies his old place in one of the lawn tennis courts, in front of his old antagonist, Lieut. Osgood.

The new engine house, which will be ornamental as well as useful, is nearly finished.

For many pay days back, as many of the boys have not got on the spree as they did on the one just passed; but their offences being insignificant, they were soon restored to duty (three courts-martial having simultaneously sat) and are now wiser and better soldiers. B. B.

(Correspondence of the Army and Navy Journal.)

FORT DU CHESNE, UTAH.

MAJ. A. S. BURT, 8th Infantry, lately in Omaha from Fort Du Chesne, on his way to Fort Robinson, is reported by the *Bee* as saying: "The officers of the Bonteen court had a rough time coming and going, being obliged to camp out one night each way. The camping out was done at Brock's ranch between Price, Utah, and Fort Du Chesne. Some of the older officers, who were not used to such hardships, were rather dismayed, but 'took their medicine' with the best possible grace. The building of the barracks at Du Chesne is going on very rapidly under Gen. Hatch's supervision. When everything is complete it will be one of the prettiest posts in the department. The Utah Midland—a branch of the Colorado Central—will likely be built west from Salt Lake City to Du Chesne. Ex-Gov. Murray of Utah has been elected vice-president of the road, and is actively pushing the matter. Gen. Hatch is having a conference with Colorow, one of the Ute chiefs, to secure the right of way from the Indians. Colorow is one of the warriors mixed up in the massacre of the Meeker family some years ago."

General Hatch's "finest house" designed for the Adjutant's Office, was consumed by fire on Feb. 28. The building was occupied as temporary quarters by Capt. Jocelyn, Lts. Truitt and Wittich, who were lucky to escape with their clothes.

The parade ground will soon be irrigated, trees planted, gardens cultivated, and if Gen. Hatch has his own way we expect soon to listen to the strains of the 9th Cavalry Band.

Lieut. Truitt expects to go on leave for a few months.

(Correspondence of the Army and Navy Journal.)

FORT BLISS, TEX.

COL. BLUNT, with headquarters and two companies of his regiment, left Fort Concho on Feb. 16 and arrived here on the 21st. In the language of an old soldier, "it was one of the most satisfactory and successful moves I ever saw made." The Colonel was in his saddle every morning, promptly, at 7, and led the troops with his efficient quartermaster, Lieut. Lassiter, who, apparently, enjoyed his responsibilities. We travelled through a barren country in the most apprehensive season of the year, and had neither accident, sickness, desertion, nor a "break in the train." Our households, upon the way, partook of the spirit of the occasion. We exchanged visits, strolled about, and enjoyed a condition of eating and sleeping that would make kings enviable. Mrs. Blunt's tents were made comfortable and attractive by her two excellent servants. Her pet canary sang as sweetly under its canvas roof as if domiciled at home.

The last camp made was at Colorado City, where the train was boarded, which reached Bliss early the next morning. We were cordially and hospitably received by Dr. and Mrs. Coudray, who kept "open house" during that day. Fort Bliss is an improvement on old "dry as dust" Concho. The houses are palaces here in comparison—three stories, including basements, with bath rooms, kitchen sinks, and water pipes.

El Paso is a mile distant from us; it reminds one of New Orleans and the tourist towns of Europe. Londoners, New Yorkers, Californians, and people with other tongues than ours (thank goodness) "jostle each other" in its streets. It has a Mexican Art and Curiosity Store, a Chinese ditto, hotels, opera houses, French restaurants, and horse-car lines which run into Mexico to Paso del Norte, famous for its old Cathedral, which has a *colegio* attached, and its military barracks. One of our small boys was very much frightened the other day at witnessing a soldier disciplined. The culprit was brought before an officer who, on hearing his offence, seized his sword and beat the poor wretch till both were ready to cry "hold." Strange republicanism!

"Living is high" in El Paso, though we are told that vegetables and fruit are cheap and abundant in their season. The Mexican huckster comes to the kitchen door several times a day with tiny cabbages, turnips, beets, carrots, fresh eggs, and the prettily prepared little dish called "tomollow," which is an extremely pungent appetizer. The gods of the kitchen are the Chinamen at $40 per month. To offset expensive annoyances and the mosquitoes and heat, which will come after a while, we have, after a long sojourn in the wilderness, the blessed sound and sight of busy human life. A Pullman flies through the post every few hours, and may be stopped, by a wave of the hand, to take us where we wish to go. E. J. P.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

MARCH 11, 1887.

THE bluebirds are around, and the weather is delightful, but dryer than a "chronic's" tongue the morning after pay day. Maj. Gen. Terry, division commander—*primus inter pares*—is here with Miss Terry and Col. and Mrs. J. G. C. Lee. The Terrys are the guests of Gen. Stanley, and the Lees of Capt. Simpson. This morning we had a grand review and inspection of the troops. Gen. Terry seemed well pleased with everything, although I noticed when he came opposite me he gazed, more in sorrow than in anger, however, at my uniform coat which is sadly out of repair, and of an uncertain color, but must last until the end of the fiscal year. Then dawn new hopes. Gen. Terry is to visit other posts in Texas, and goes, I believe, to Mexico. Col. Otis, 8th Cavalry, gave a card party last night, supplemented by some good music by the regimental band.

Gen. Stanley gives a reception to-night in honor of Gen. Terry, and you may be sure it will be a handsome affair.

Maj. Arthur, paymaster, has purchased for $6,000 the residence opposite Department Headquarters, owned by Paymaster Dodge, now in New York.

Lieut. Gaston, 8th Cavalry, has returned from a trip to Del Rio and Clark with recruits. JOEY BAGSTOCK.

(Correspondence of the Army and Navy Journal.)

FORT WASHAKIE, WYO.

THE promenade concert and ball given at Landin Hall by the Fort Washakie Band, Feb. 22, under the charge of Lieut. M. D. Parker, 9th Cavalry, was a successful occasion. The band has only been organized about a year, and Lieutenant Parker is deserving of great credit for the manner in which he has brought the members up to a high state of efficiency. The band numbers seventeen, and is to be congratulated on their leader. OLD SOLDIER.

(Correspondence of the Army and Navy Journal.)

FORT LEWIS, COLORADO.

March 7, 1887.

In the notice of a recent entertainment here by the school children should have been mentioned Edward Crocker, the Commissary Sergeant's son, and George Darry, the Ordnance Sergeant's son, who did excellently.

The "Big Four" Minstrels are getting ready for an entertainment which will undoubtedly be a success.

Our new Adjutant, Lieut. W. H. Kell, is well liked by all, and goes about his duty in that cool and easy way characteristic of him.

Our parade ground is almost dry and soon the band will discourse sweet music under the leadership of the efficient Mr. Emil Richardt.

Our weekly concert was omitted last week, owing to the illness of the band leader. ENIGMA.

FORT LEAVENWORTH, KAS.

THE Kansas City *Times* of March 10 says:

A large number of applications have been received from officers throughout the west and east to become members of the Army Mutual Benefit Fire Association organized here. Many of the letters warmly approve of the methods taken by this association to insure Army officers from loss by fire and indications are that it will rapidly increase in membership. The association deserves to be encouraged.

Gen. McCook has issued an order directing drills to be resumed March 10, beginning with the soldier for infantry, and the school of the soldier dismounted for the cavalry and artillery. Major George B. Sanford, 1st Cav., will have charge of the instruction of the cavalry battalion. The light battery commander will have charge of the instruction of the light battery. Major H. S. Hawkins, 10th Inf., will have charge of the instruction of the infantry battalion. If at the termination of the school of the soldier any men are not well instructed in the elementary parts of this school special daily drills will be had for such men, until they shall be brought to the proper standard, the time for such drills to be fixed by captains, and not to interfere with other drills or duties required of such men.

An order having been issued by Gen. McCook to kill all dogs running at large, the patrol have been strictly comply-

ing with the order. The first dog to receive the fatal bullet was Gen. McCook's. Gen. Miles's stag bound was laid low and also a little spaniel, the property of Col. J. P. Martin.

FORT CLARK, TEXAS.

THE Brackett *News* of March 12 says:

A number of important changes are being made this week. Co. E goes to Ringgold. This takes away Capt. Vance, Lieut. Guard and Lieut. French. Major Wilcox is also ordered to Ringgold to take command. These gentlemen are among the most cultured and highly accomplished officers at this post. They will be greatly missed in social and military circles.

Capt. Bradford, of the 19th, with his company comes from Brown to Clark.

Last Sabbath was a day of special religious interest at this post, Chaplain Merrill holding a communion service at the post hall. The Chaplain's remarks, at the beginning of the service, in regard to the departure of Co. E and their gallant officers, were touching and highly complimentary.

FORT DAVIS, TEX.

THE Presidio County *News* of March 11 says:

Dr. L. A. Buffington returned from Pena, Col., Monday.

The post has had the rare treat of a visit this week from Gen. B. H. Grierson, U. S. A., who is highly esteemed in and about Fort Davis, as well at everywhere he is known.

The Good Templar Lodge is booming.

A note from Capt. Gerald Russell, 3d Cav., Fort Elliott, represents the health of himself and Mrs. Russell, and of the garrison and community as good. The many friends of Capt. and Mrs. Russell will be glad to hear from them, and that they are well and enjoying life at Fort Elliott.

FORT SIDNEY, NEB.

THE *Excelsior* of March 12 says:

Mrs. Major Boyle is visiting Mrs. Gen. Crook....Mrs. Lieut. Cornman has returned from her eastern trip....Lieut. P. A. Bettens, Jr., of the 9th Cav., Fort Robinson, accompanied by his bride, is visiting Mr. and Mrs. W. E. Annin for a few days....The Fort Sidney Social Club has been organized with 1st Sergt. I. B. Henry as president....Lieut. Duncan has returned from Washington, where he has been attending to the business affairs of his father, Gen. Duncan, lately deceased.

FORT OMAHA, NEB.

THE *Excelsior* of March 12 says:

Major Edmond Butler is commanding both post and regiment in absence of Col. Wheaton and Lieut.-Col. Fletcher. ....Gen. Wheaton, Capts. Clark and Haines, and Lieut. Rowell have gone to Fort Cœur d'Alene, Idaho, as witnesses before a Court of Inquiry....Col. J. S. Fletcher left hurriedly, March 6, in obedience to a telegram announcing the death of his father at Philadelphia. The Colonel's family followed him, and they will all remain East for a few months.

COURT-MARTIAL CASES.

In the case of an Ordnance soldier tried at Jefferson Barracks for being drunk on duty, and neglecting certain important duties, Lieutenant General Sheridan says: The specifications to the first charge are defective, in that they do not specify the particular duty on which the prisoner was found drunk. It also does not appear in the evidence that the greenhouse where the prisoner was working was a Government greenhouse, or that he was there engaged on any proper military duty; and, furthermore, the testimony, in the opinion of the reviewing authority, is not of such a character as to conclusively establish the prisoner's guilt. The proceedings, finding, and sentence are therefore disapproved.

In the case of a soldier tried at Fort Yates for selling clothing, the reviewing authority, General T. H. Ruger, U. S. A., says: The case was submitted by the prosecution without further evidence than appears from the plea of the accused which excepts the words "sell or through neglect," and without which no criminality could attach in this case, under the 17th Article of War. The accused having thus pleaded not guilty to the gravamen of the specification, it is evident the court should have proceeded to the trial of the case the same as if a plea of not guilty had been entered to the charge. In accepting the plea of the accused and possessing no further evidence, the court had no warrant for its finding of guilty of the words "through neglect." The proceedings and findings are therefore disapproved, and the sentence set aside (G. C. M. O. 4, D. Dakota, 1887).

In the case of Corporal R. Harmer, Co. B, 17th Infantry, recently tried at Fort Bridger, and sentenced to reduction and reprimand, the reviewing authority, General Crook, says: "It appears in evidence that the accused discovered a member of his company stealing Government cartridges, and so reported to his company commander, who saw fit not to take any action in the matter. The accused, however, believing the matter should be represented to those in higher authority, wrote first a letter to his regimental commander, this not being forwarded, he then wrote direct to his Department Commander. It is believed by the Department Commander that the writing of this letter by the accused, upon which he was brought to trial, arose from a desire to perform his whole duty. With this view, the sentence is remitted" (G. C. M. O. 5, D. Platte, 1887).

In the case of Private Thornton Brant, Troop E, 3d Cav., tried at Jefferson Barracks, Mo., for desertion, the reviewing authority, Lieut.-Gen. Sheridan, says: "The finding to the second charge and its specification is disapproved. The second charge was laid under the 60th Article of War, the ninth section of which prohibits the stealing, embezzling, knowingly and wilfully misappropriating and applying to his own use or benefit, or wrongfully and knowingly selling or disposing of property of the United States furnished or intended for the military service thereof. The offence was knowingly and wilfully misappropriating and disposing of certain Government property issued to the soldier for use in the military service. The finding was not guilty of the charge and specification as laid, but guilty of 'losing through neglect,' and guilty of violation of the 17th Article of War. These are separate and distinct offences, made punishable by separate articles of war. The offence of which he was convicted was not the offence alleged against him nor included in it, and the finding was therefore unauthorized." (G. C. M. O. 20, H. Q. A., 1887.)

A STORY is told of a close contest over a jack pot in Chicago. The players had started their game on Saturday, and on looking at their watches discovered that it was nearly 5 o'clock of Sunday morning. One of the players suggested, by way of penance, that whoever won the jack pot should take it to church that day and put it into the contribution box. The winner was somewhat of a humorist. He put the cash into an envelope, marked it "J. Pott," and laid it on the contribution plate. On Monday morning, a week later, happening to pick up a paper he was astonished to find in it a report of a sermon delivered by the pastor of the church in which a feeling allusion was made to the fact that on a previous Sunday a kind stranger had made a generous donation to the church. "I sincerely hope and trust," was the clergyman's language, "that if Mr. J. Pott is still in the city and intends to remain here he will make this his permanent religious home."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Aspinwall March 7.

All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

The *Galena* will await the arrival of the *Mohican* at Panama. As soon as the latter vessel can tranfer to the Atlantic side the statue and other curios from Easter Island, it is probable that she will return to her station as temporary flagship of the South Pacific Squadron, Commodore Kimberly.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York. Left Navy-yard on Monday, March 14, and anchord at Tomkinsville, and will be inspected Tuesday, March 22.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at St. Thomas, W. I., Feb. 24. Letters will reach the vessel if sent not later than March 18 to Port au Prince, and not later than March 28 to Santiago de Cuba.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, Feb. 5, all well, and was to sail, March 1, for St. Helena. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Maldonado, Uruguay, Jan. 1.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Athens, Greece, Feb. 11.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Madeira, Feb. 22, and would sail for Gibraltar March 1.

Pacific Station—Captain H. L. Howison (in temporary command).

Rear Admiral L. A. Kimberley is ordered to command, and leaves per steamer of April 1.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Arrived at Mazatlan, Mexico, March 8.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Acapulco, Mexico Feb. 26. All well, but suffering from the heat. After a brief stop at the various important points on that part of the Mexican coast affected by American interests, the *Adams* will once more pay a flying visit to Panama on her way farther south.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Talcahuano, Chile, Feb. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. At Valparaiso, Chili, Jan. 8.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Is en route for Panama from Valparaiso, and will probably arrive about the 25th of Feb. present month.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. It has not been decided when she will be ordered to sail for the Pacific Coast.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Valparaiso, Chili, Jan. 12. Will proceed to Panama, and wait the arrival of Admiral Kimberley.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Arrived at Singapore Jan. 28. Expected at Yokohama about April 1.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, Japan, Feb. 10.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Feb. 10.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, China, Feb. 10.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. At Yokohama, Japan, Feb. 10.

OSSIPEE, 3d rate, 8 guns, ——————

At Norfolk, Va. Will be refitted for service. A new detail of officers is now being made.

PALOS,† 4th rate, 6 howitzers, Commander T. Nelson. At Tientsin, China, Feb. 10. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent as follows: After March 1, per U. S., and including Brazil Co.'s steamer, leaving New York about March 24. Care U. S. Consul, at St. Thomas, W. I. After March 24, address Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Trinidad Feb. 21. After target practice in gulf of Paria will probably go to St. Kitts.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street, P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will probably go to St. Kitts.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will go to St. Kitts.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At New York Navy-yard, having her machinery overhauled.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York, undergoing slight repairs, and when ready she will proceed on a cruise to the Spanish main, surveying the Lake and Port of Maracaibo, Venezuela, with their approaches.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Diego, Cal., Feb. 10.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*. *Catskill*. *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about March 30. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission some time in March. It is not known at present where she will be ordered.

VARIOUS NAVAL ITEMS.

THE United States Fish Commission steamer *Albatross* left the Washington Navy-yard, March 16, for a trip down the Chesapeake Bay, with Professor Baird on board.

REAR ADMIRAL SIR GEORGE NARES, K. C. B., has been nominated a member of a committee formed to inquire into and report on the desirability of electrical communication between light vessels and the shore, with the special object of facilitating the saving of life at sea.

THE keel of the new steel cruiser *Charleston*, which is to be built at San Francisco, will be laid early in April, and the Carnagie-Phipps Steel Company at Pittsburgh is working gangs of men night and day making the steel plates, the first of which are expected at San Francisco sometime this week. The iron to be used in the ship is being rolled at San Francisco. A new ship-slip has been constructed for the vessel.

IT is said at the Mexican Legation that the death of Capt. Eads will not interfere with the status of the concession made to him by the Mexican Government for a ship railway across the Peninsula of Tehuantepec. The concession included both Capt. Eads and his associates in the enterprise, and remains in force for a period of 99 years. It is doubtful whether the enterprise will go any further, now that the projector is dead.

LORD GEORGE HAMILTON, First Lord of the Admiralty, stated in the House of Commons, March 11, that no charge or allegation had been made by any Admiralty official against the American Legation in London or directed against any American newspaper in connection with the recent scandal concerning the sale to foreigners of confidential information by an employee at the Chatham Navy-yard. He declined to state which foreign Power had received the information sold by Terry. He declared that the press statements with reference to the affair were unwarranted.

THE first attempts at rehabilitating our moribund Navy seem to be attended with more than usual numbers of mishaps, for in addition to the to-be-expected mechanical difficulties which are sure to arise in all new paths, the four ships first built have had in turn, adverse foreign and domestic criticism, political animosity and opposition, financial embarrassments on the part of the contractor, and now at last, when the practical success of these ships is almost an assured thing, Congress, through misconception of their status, fails in an appropriation for their completion and equipment for service.

IT has been decided to keep the *Ossipee* in commission, and a new detail of officers is now being made out for her. She will probably be ordered to the North Atlantic Squadron.

MR. W. K. VANDERBILT'S steam yacht *Alva*, which arrived at Santiago de Cuba on March 1, made the run from Port Royal Cuba, in fifteen hours. The beautiful lines of the vessel and her rig drew forth endless praise. On the day of her arrival there, a boat's crew of the *Alva* rescued from drowning a boat's crew from a Spanish gunboat now in the harbor, although two Spanish gunboats were at anchor near by. The "American activity," as it was termed, was greatly admired.

AN 8-inch rifled gun, intended for the *Boston*, has been sent to Annapolis for trial. Another gun of the same calibre, two 12-inch rifles and several 6-in. guns—all to form part of the armament of the *Boston*—are now in process of manufacture at the Washington Yard. It is hoped that most of them can be finished with the funds at the disposal of the Bureau of Ordnance. It is not probable that anything can be done towards arming the *Chicago* in the absence of additional appropriations.

COMMODORE GHERARDI, of New York Navy-yard, has been notified that Secretary Whitney has accepted the resignation of Redfield Chandler, a son of Rear Admiral Chandler, who was employed as index clerk at the Yard. Albert M. Kingsland a clerk in the Construction Dept. of the Navy-yard; John Van Wart, Chief Clerk in the Ord. Dept.; J. C. Teer, Chief Clerk in the Navigation Dept., and Chief Clerk Foote, of the Construction Dept., have been asked to resign on April 1. They are all old employees. There is complaint among Naval officers that politics are more controlling than ever in the Brooklyn Yard.

THE reorganization of the Naval Department has led to several important recent changes at the British Admiralty. Formerly the chief constructor not only designed the hulls of vessels but was responsible for the putting on board the machinery, armament, and number of the crew. This has been felt to be a blunder, and henceforth each Lord of the Admiralty will control that portion of the equipment of a man of war with which he is best acquainted. The constructor will design the hulls, being more or less guided by the requirements of the sea lords of the board, to each of whom has been assigned a specified department of control.

THE arrangement recently made between the British Admiralty and the White Star Line in connection with the mail carrying contract, whereby the Government secures the employment of its steamers at "peace prices" in the emergency of war, is simply reverting to an old practice, introduced in connection with the Cunard Line 50 years ago. The White Star owners engage to construct new vessels, specially adapted for armed cruisers, the owners thereof to receive an annual subvention for carrying the mails. Negotiations are said to be pending with the Cunard Line looking to a similar arrangement.

A CORRESPONDENT at Nassau, Bahama Islands, informs us that Mr. Boulanger, an engineer on the Panama Canal, arrived at Nassau to recruit laborers for the canal. 200 answered the call, but the government frightened them, by warning them not to go to such a deadly quarter. A steamer came for them last month, 50 went on board, got paid in advance, $30 each; 30 swam away with the money. The steamer was anchored at the bar; nothing was done. Mr. Boulanger tried litigation, The Government Police Magistrate laughed at the sport, so the captain had, without the men or money or satisfaction, to steam away.

SECRETARY WHITNEY thinks it may be expedient to build one of the double bottomed armored vessels of about 6,000 tons at the Brooklyn yard. He has accordingly instructed Chief Constructor Wilson to ascertain without delay what preparatory orders may be necessary for laying the keel blocking, clearing out the ship house where the Colossus was built, and the other expenses to get the yard ready to build the armored ship. Congress made an appropriation of $150,000 for the purchase of the necessary tools. A detailed statement will also be called for as to what tools will have to be purchased to complete the shipbuilding outfit and proceed with the work.

MR. CHARLES G. LUNDBORG has begun suit against the United States, in the Court of Claims, for $25,000. Mr. Lundborg alleges that, although his designs and specifications were ruled out from competition on account of their alleged novelty and indirect violation of the terms of the advertisement calling for plans for a 5,000 ton cruiser, he has reason to believe that suggestions from said designs and specifications are being used in parts of vessels now being constructed under the direction of the Navy Department. He also asserts that he has made amicable demand for the return of the plans and specifications and for payment therefor, but without avail.

THE commission of naval officers to select sites for the docks appropriated for by Congress during the recent session will soon be designated. It is the intention of the Navy Department to locate one of the docks at New York and the other at Norfolk, and the commission, after due deliberation, will doubtless make a recommendation to that effect. Commodore Harmony thinks that the best interests of the Service demand that both of the docks be located at Norfolk. At New York there are many great private docks which could be utilized in time of war. At Norfolk there is but the one Government dock. Norfolk is considered to be especially adapted for the repairing of ships in time of war. It is more easily defended than any other seaport town, and besides affords every facility for the procuring of material and labor. The political pressure brought to bear upon the Department will prevent the placing of both docks at Norfolk.

THE engines and boilers of the U. S. S. *Chicago* have been undergoing a dock trial at Chester for a week or ten days, and everything seems to be working to the entire satisfaction of the Naval Board. To show the quality of the workmanship of the contractors and the efficiency of the engine, we learn that the latter will move with only the vacuum—in other words, that when the engine was stopped to key up, etc., it was found necessary to stop the Blake independent air and circulating pump, so as to break the vacuum, as the engine would not stop so long as the vacuum was formed. This is quite an interesting point, and goes to show how perfectly balanced the engine, and how smooth she must run to be able to do this; in other words, that the immersion of the screw in the water, the friction of the shaft in its bearings and the working of all parts of the engine are not enough to stop the engine when the steam is shut off and the vacuum on.—*Marine Journal.*

NAVY GAZETTE.

Ordered.

MARCH —.—Lieutenant-Commander John C. Morong, to the receiving ship New Hampshire, April 1.

Lieutenant Chas. A. Stone has reported his arrival home, having been detached from the Mohican on Jan. 18 last and has been ordered to duty in the Bureau of Ordnance.

MARCH 10.—P. A. Surgeon J. W. Steele, to Naval Hospital, Philadelphia, Pa.

MARCH 11.—Lieutenant-Commander W. A. Morgan, Ensign Fitz Aubert Huntoon, and Surgeon Jos. B. Parker, to the Ossipee.

Lieutenant John A. Rodgers and Ensign Philip V. Lansdale, to special duty as inspectors of steel, under direction of Commander Evans.

Ensign A. B. Clements, to the Naval Observatory.

MARCH 14.—Commander Nicoll Ludlow, as Assistant Inspector 12th Lighthouse District on the 19th inst., and as Inspector of the District on April 15 next.

MARCH 16.—Lieutenant Gustavus C. Hanus, to the Ossipee.

Chaplain Donald McLaren, to the Navy-yard New York, April 30 next.

MARCH 17.—Commander Richard P. Leary, to command the Iroquois, per steamer April 1.

Surgeon C. A. Siegfried, to special duty attending naval officers in Baltimore.

Detached.

MARCH 10.—Lieutenant-Commander Thos. Nelson, from the command of the Palos on the reporting of his relief and ordered home and report arrival.

MARCH 11.—Lieutenant L. C. Logan, from the War College and ordered to the Ossipee.

Lieutenant C. F. Emmerich and Ens. Thos. Snowden, from the Hydrographic Office and ordered to the Ossipee.

Ensign C. M. Knepper, from the Naval Ordnance Proving Ground and ordered to the Ossipee.

MARCH 14.—Commander John W. Philip, from duty as Inspector of the 12th Lighthouse District April 15, and placed on waiting orders.

Lieutenant E. W. Sturdy, from the Nautical Almanac Office 31st inst., and ordered to instruction in Ordnance at the Washington Navy-yard.

MARCH 16.—Chaplain J. R. Matthews, from the Navy-yard, New York, April 30 next, and placed on waiting orders.

MARCH 17.—Commander W. B. Hoff, from Bureau of Navigation and ordered to command the Ossipee.

Commander John C. Watson, from command of the Iroquois on the reporting of his relief and ordered to return home.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending March 16, 1887:

E. P. Lull, captain, March 5, 1887, at Navy-yard, Pensacola, Fla.

John Doherty, landsman, March 6, 1887, at Naval Hospital, Pensacola, Fla.

MARINE CORPS.

MARCH 16—2d Lieut. F. E. Sutton, granted sick leave of absence for one month upon the recommendation of a board of medical survey.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., March 16, 1887.

THIS week has been an unusually quiet one at the Naval Academy, even for the Lenten season.

The cadets were released from drill at an earlier hour than usual on Saturday morning last and were soon busied in moving to their new rooms. Cartloads of clothing and furniture were moving about the yard until late in the afternoon, and the strong wind scattered loosely packed clothing about the grounds. At four in the afternoon all were settled.

A very enjoyable "stag" hop was given in the gymnasium on Saturday evening.

The steamer *Phlox*, commanded by Mate Perry, has begun her weekly trips to Baltimore. A number of officers and their families took advantage of the trip last Thursday and spent the day in Baltimore.

The usual spring drill on the steamer *Wyoming* began on Saturday last, a week later than usual. This drill will continue daily for the next two weeks and it is thought that the ship will then be ready for the weekly cruises in the bay. The work is carried on under the supervision of Comdr. Harrington, commanding; Lieut. Leutze, 1st lieutenant, and Lieuts. Colahan, Bartlett, and McCrea. An order from the Commandant of Cadets states that in case of rainy weather the battalion shall have infantry drill in the armory.

The recommendations of the Academic Board in the cases of cadets found deficient at the recent semi-annual examinations, and not so badly as to warrant their immediate dismissal, have been published for the notice of the cadets. A large number are to be re-examined in May, while some are only warned and granted another term in which to improve their standing. The monthly examinations for March begin next week. Each class has an examination in the same subject that they did last month.

The cadets are practicing nightly for an athletic tournament to be given after Lent under the charge of Mr. Strohm, instructor in gymnastics. It is reported that the next entertainment given by the officers private theatricals society will be early in April.

Work on the interior of the Naval Institute building, formerly occupied by the Department of Ordnance and Gunnery, is being rapidly carried on, and will undoubtedly be completed soon.

Comdr. Sampson has called a court-martial to try the case of Cadet Potter of the third class, charged with having "hazed" Cadet Edie of the fourth class. Comdr. Schouler is the President of the court; Ensign Gibbons will conduct the defense.

Cadet Robinson of the second class was granted leave last week on account of sickness of his father. He returned to the Academy on Monday.

The armory is lighted every evening while cadets receive extra lessons in fencing from Swordmaster Corbesier, assisted by Messrs. Heintz and Retz. Classes receive instruction with the small sword, the broadsword, bayonet and single stick.

Chaplain Rawson has discontinued the Wednesday evening services in the chapel.

THE NAVAL WAR COLLEGE.

REAR ADMIRAL LUCE, U. S. N., calls attention to the fact that while Congress has provided the Army with four schools of application for advanced courses of instruction—the new cavalry school at Fort Riley, the artillery school at Fort Monroe, the infantry school at Fort Leavenworth, and the Willet's Point School of Engineers—it turned its cold shoulder to the Navy in the matter of appropriations for its single school at Newport. Of the bill appropriating $200,000 for the cavalry school the Admiral says: "It is true that the bill was fully discussed during the first session last summer, but the prompt action of the House in taking it up and passing it is deserving of all commendation. Excepting the opposition of W. S. Holman, of Indiana, there was a total absence of the obstructive tactics that mark the discussions of naval affairs. No one opposed the cavalry school on the ground that it ought to be at West Point, and no one suggested that it ought to be in one of our harbors or on board ship. And yet such propositions would have been just as sensible as some of those made last session to place the War College at Annapolis or away from the seaboard. The college has proved such a success that its place in our system of naval training is no longer an open question. Admiral Porter gives emphatic commendation to the course pursued there, and recommends its further development by the employment of suitable vessels for practical exercises. The importance of the work to be done by the college can hardly be overestimated. Additional courses of lectures are now in preparation for the coming year upon other subjects bearing directly upon the art of war and embodying those results of recent investigation which are inaccessible to the service in general. As opportunity offers, applications from officers for permission to attend the college course will be granted, and it is hoped that in time its scope may be gradually enlarged, in the direction of practical training with modern ships and modern guns, as far as the resources of the service will permit." It is found that Congress made the full appropriation called for by the Naval War College, but the sum asked for to be used in repairs and extension of buildings was summarily stricken out.

PURCHASING FOREIGN PLANS FOR VESSELS.

IN a statement furnished to the press Secretary Whitney says: "I decided to purchase the working drawings of the *Naniwa-Kan* and her machinery. While the matter was being negotiated, the Armstrongs made a still later design, which is called No. 27, which they offered in competition to the Spanish Government, from which they guaranteed either nineteen or nineteen and a half knots speed, the vessel being somewhat larger than the *Naniwa-Kan*. This design was not rejected by the Spanish Government, although in the competition it did not win. The Thompsons, having agreed to guarantee twenty knots speed upon a boat of larger displacement, were given the contract and are now building the boat for the Spanish Government. The boat which the Thompsons proposed to the Spanish Government was out of the question for us, because it was too large in tonnage and too expensive to come within the limits fixed by the statutes, and I should not have bought the plans of that boat even at the same price. They were offered to us at the price of $50,000, which offer I rejected, preferring the designs of the Armstrongs and Mr. White.

"I finally closed the contract for the plans of the two boats—the *Naniwa-Kan*—and what is known as No. 27, for $35,000—less than it would have cost to make them with our own men, I think. It was for the purpose of laying before our people the very latest improvements in the way of a fast cruiser of the concern supposed to be the best in the world among private shipbuilders of this class of boats. The machinery of the *Naniwa-Kan* was the design of the Hawthornes, and that of No. 27 the design of Messrs. Humphreys and Tennant, concerns recognized as ranking with the highest in England in the way of marine machinery.

"Many of the arrangements of the ships have been changed, conforming them to our types, but the machinery will be duplicated in two of those that are now under contract. The effect has been, in my judgment, to call the attention of our own people to the fact that we have not kept up to the proper standard in the way of producing power for machinery.

"In the case of the *Boston* and *Atlanta*, the guarantee of the contractor was that with 664 tons of machinery, he will produce 3,500 horse power. The guarantee of the contractor who is reproducing the *Naniwa-Kan's* machinery is that with 710 tons he will produce 7,000 horse power, and in the case of Cruiser No. 3, also foreign machinery, the guarantee is that with 900 tons, 9,000 horse power shall be produced. It will be seen that the effectiveness of the machinery in producing horse power is nearly twice that required by the contract upon the *Boston* and *Atlanta*. In these latter cases, one ton of machinery is guaranteed to produce a little over five horse power, and in the cases of Cruisers Nos. 2 and 3, a ton is guaranteed to produce nearly ten horse power per ton. All this, it will be seen, is stimulating to our own people and in the end they will probably succeed in doing as well, or better, than these results show."

REVENUE MARINE.

2d Assistant Engineer James J. Brereton has been ordered to the *Seward* at Shieldsborough, Miss. 2d Asst. Engineer N. E. Cutchin has been detached from the *Seward* and ordered to the *Bear* at San Francisco.

"THERE'S one funny thing," said the U. S. recruiting officer. "Since I have been here on recruiting duty I have noticed that certain men always want to enlist when they get drunk. There's one chap who comes here about once in six weeks and insists on being sworn in. He is always drunk, and he generally yells out something about wanting to mop up the Rocky Mountain region with redskins. I always tell him to come in again next week, and sometimes I pin a piece of paper on him and tell him he is enrolled, but I never see him until he starts on the warpath again."—*Chicago Herald.*

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, -	$21.00
Old Reserve Whiskey, - - - -	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey, - - -	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.
PUBLISHED EVERY SATURDAY.
NEW YORK, SATURDAY, MARCH 19, 1887.
Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

Cable address: ARMYNAVY. 240 Broadway, New York.

NEW ARMY POSTS.

THE liberal appropriations made by Congress at the last session for enlargement and improvements of military posts will furnish plenty of work for officers of the Quartermaster Department and others who have to do with such matters. Over a half million dollars has been made available for the purpose. Of this sum $200,000 goes for the construction of quarters, barracks, stables, etc., at the Fort Riley Cavalry and Artillery School; $30,000 to complete the quarters and barracks at Fort D. A. Russell; $55,000 for completion of quarters and barracks at Fort Robinson; $100,000 to commence work of constructing building, quarters, etc., at Denver, Col., and $200,000 "for the construction of buildings at and the enlargement of such military posts as in the judgment of the Secretary of War may be necessary."

The preliminary steps toward carrying out the authorized improvements are now being taken. The Lieut.-General, accompanied by the Inspector-General and Col. M. V. Sheridan, left Washington on Wednesday night for the West on business in connection with the improvements of the more important posts. They will first go, via Chicago, to Fort Russell, Wyoming, where they will arrange for the final completion of the quarters and barracks, and will thence proceed to Denver, Col., to select a site for the 10 company military post provided for. The law requires that the selection shall be made by the Lieut.-General. He made an informal inspection of several sites tendered by the city of Denver last autumn, but several others have since been tendered and it is his intention to look them all over before arriving at a decision. The amount appropriated for the construction of new buildings at this post will, it is believed, be nearly sufficient to put the entire ten companies under cover, and if there is no delay in acquiring a title to the site work can be commenced in a few months and the post established there within the next year. After leaving Denver the Lieut.-General and his party will proceed to Fort Riley. Here they meet Maj. Edward B. Williston, 3d Art., who was ordered this week to take charge of the erection of the light battery quarters at this post, and who will join them in the selection of sites for the new quarters. The party are due there on the 24th inst.

The appropriation of $200,000 for the Cavalry and Artillery School at Fort Riley, the Lieut.-General believes, will be sufficient to complete and put the school in condition to proceed with the object for which it was authorized. It is understood that Maj. Williston will have charge of the light battery branch of the post when completed.

ADJUTANT-GENERAL'S DEPARTMENT.

THE Adjutant-General of the Army, it is understood, will have a number of changes in stations of Assistant Adjutant-General to recommend to the Secretary of War upon his return to Washington, March 19th. It is not known just what names are contained on the slate, but it is presumed that General DRUM will carry out his idea, as expressed in a communication to Congress in connection with the bill for the reorganization of his corps, of assigning one Lieutenant-Colonel to the headquarters of each of the departments. If this plan is to prevail it will be in order for Lieutenant-Colonels GREENE and WOOD, who are now stationed in Washington, to take station at department headquarters, relieving two of the six majors, who, according to the terms upon which the new law was based, are "available for assignment to duty in the office of the Adjutant General, and at such division and department headquarters as the imperative demands of the service may require." Lieutenant-Colonel GREENE, if relieved from duty in the Adjutant-General's office, will, it is supposed, be assigned to the Department of Missouri (Fort Leavenworth), relieving Major JAMES P. MARTIN, who is next on the list for a tour of duty in Washington. To assign Lieutenant-Colonel WOOD to a department will necessitate the relief of another major, and as Major WARD is shortly to be relieved from duty in Washington, several other changes will have to be made before the rearrangement is effected. Owing to the low state of the mileage and transportation's fund it is probable that none of the contemplated changes will take effect before July 1st, although they will likely be announced before that time.

The present stations of the Assistant Adjutants-General are as follows: Col. Kelton, A. G. O.; Col. Williams, Division Missouri; Col. Whipple, Division Atlantic; Colonel McKeever, Division Pacific; Lieut.-Col. Ruggles, Department Texas; Lieut.-Col. Vincent, Department Dakota; Lieut.-Col. Greene, A. G. O.; Lieut.-Col. Breck, Department Platte; Lieut.-Col. Wood, A. G. O.; Maj. Martin, Department Missouri; Maj. Corbin, Assistant to Adjutant-General Division of Missouri; Maj. Barber, Department Arizona; Maj. Sheridan, Headquarters Army; Maj. Ward, A. G. O.; Maj. Volkmar, Department Colorado; Maj. Schwan, A. G. O.

FIVE pay accounts of the late Lieutenant POWELL, of the Signal Corps, for the month of February have been received at the Pay Department. Four of these are, of course, fraudulent, but the Department finds itself in a quandary as to which one of the five shall be paid. They were presented by separate parties, each of whom insists that they hold the proper voucher. The accounting officers of the Treasury will probably be called upon to settle the embarrassing question. It is said that Lieut. SHAW, the much-paid Army officer, who is shortly to be dropped from the rolls as a deserter, received money from various brokers on sixteen sets of pay accounts, in addition to the seven fraudulent receipts honored by the Pay Department. Lieutenant JAMES H. G. WILCOX, 7th Cavalry, has been reported to the War Department for absence from his station (Fort Keogh) without leave and for duplicating his pay accounts. Only one of the accounts was paid by the Pay Department, but another for the same month was received by the Paymaster, Lieutenant-Colonel JOHNSON, a few moments after the first had been paid. This fact was announced to General RUGER, the department commander, who reported that WILCOX could not be found; but he has since been arrested at St. Louis, and will be sent to Fort Snelling for trial.

BEFORE putting the act authorizing the organization of a Hospital Stewards' Corps into effect, Surgeon-General MOORE has determined to get opinions and suggestions of all the medical officers of the Army as to the best method of organization. In order to accomplish this he has in course of preparation a circular letter, which he will shortly send out, requesting replies to a number of questions propounded. These relate to the manner in which enlistments to the new corps should be made, whether directly to the corps from civil life or from one or two-year recruits who have gone through the disciplinary process, and as to whether the cooks and nurses should not have some special training before being enlisted for hospital duty. After all the replies to the circular have been received, General MOORE says he will probably convene a board to consider the suggestions that may be received and to compile a set of regulations for the management of, and appointments and promotions in, the new corps.

THE following additional changes among regimental quartermasters and adjutants have been announced this week: 1st Cavalry: Lieut. Miller, R. Q. M., relieved March 31st; Lieut. J. G. Galbraith appointed April 1st. 2d Infantry: Lieut. Clark, R. Q. M., relieved and Lieut. A. R. Egbert appointed, March 8th; Lieut. Rowell, Adjt., relieved and Lieut. J. Kinzie appointed March 8th. 12th Infantry: Lieut. Wotherspoon, R. Q. M., relieved and Lieut. Fred. Von Schrader appointed April 1st. 13th Infantry: Lieut. Fornance, Adjt., relieved and Lieut. Geo. R. Cecil appointed; date not fixed.

LIEUT. R. M. G. BROWN of the Navy offers his brother officers some excellent advice, in a letter which appears elsewhere, on the subject of unity of action in support of measures for the benefit of the service. Congress is showing an excellent disposition towards the naval branch of the military service and it will be their own fault if they do not secure what they may in reason ask. It only needs that they unite in preparing their requests and not confuse the minds of our legislators with conflicting schemes.

A RECENTLY discharged non-commissioned officer of long service and experience says in a recent letter to the Baltimore *Sun*:

The stain which tarnishes so much of the Army's brilliant merit is the old fogy, senseless, and unfair method of paying the troops. Of all departments of the Army the Pay Department has remained the most stationary, inflexible, and unimproved. The Navy and Marine Corps are not afflicted with such a monstrous burlesque and perversion of business capacity as is apparent in the methods of the Army Pay Corps. In the Marines there is but one paymaster, who pays monthly, and is regular and prompt in his disbursements, whether the troops are on the Pacific coast or in the ports of the lakes, gulf or Atlantic. The strength of the corps is 2,400 men, and detached at nearly a score of stations. Let some measure (he concludes) be taken to insure this simple act of justice to the nation's soldiers—a prompt and regular payment of their wages when due. Many officers who have the true interests and welfare of their men at heart, from company commander to those in high authority, have repeatedly urged this.

Slowly but surely since the war has improvement taken place in matters connected with the interior economy of the Army, and it is reasonable to suppose that before long the present system of payment of troops will be abolished and a new system introduced which shall be more in accord with modern requirements. Nothing short of weekly payments will satisfy the JOURNAL.

THE correspondent of the New York *Sun* has obtained from Secretary ENDICOTT at Boston, a statement of the difficulty with the Surgeon-General's Office, which accords with what we reported last week. The report says:

Mr. Endicott said he has not offered his resignation as a member of President Cleveland's Cabinet. There has been no misunderstanding between the Secretary and the President. There has been no occasion for a misunderstanding, and their relations to-day are as harmonious and pleasant as they ever were. What has really happened is merely that a number of inefficient and unfaithful officials in the Surgeon General's Department have been removed in the interest of the public service.

The Secretary recommended Dr. Baxter for promotion to the office of Surgeon-General both because he believed that Dr. Baxter was competent to discharge its duties, and because Dr. Baxter was the next officer in order of seniority. Dr. Baxter did not receive the appointment on account of the bitter opposition which proceeded from those members of the medical staff of the Army who had entered the Service regularly. It was not due to the fact that Dr. Baxter was a Republican; many of his opponents were Republicans. The Secretary personally never knew what Dr. Baxter's politics were. The Secretary's conduct toward Surgeon-General Moore has been considerate and courteous. Upon his first interview with the new Surgeon-General, the Secretary informed him that the good of the department demanded that certain changes should be made among the subordinates of his office. No objection was then expressed by Surgeon-General Moore, and the Secretary knew only from the newspapers that he had subsequently complained of those changes.

If any communication upon that subject has ever been addressed by the Surgeon-General to the President, the President has not informed the Secretary of it. If Dr. Greenleaf is a "personal adherent" of Dr. Baxter, that fact was unknown to the Secretary. Dr. Greenleaf was appointed because of his eminent fitness for the position, a fitness which was ascertained after a long and careful personal examination of his record on the part of the Secretary.

IN the recent Zimmerman habeas corpus case at San Francisco, to which we referred last week, Judge Ward McAllister claimed that, by the 103d Article of War, the military statute of limitations protected a deserter from punishment after two years. He admitted that a Court-martial has the power to bring a deserter to trial after any number of years, but contended that if at the trial the Court-martial disregard the plea of the statute of limitations, when offered, the Court-martial would be guilty of a wilful and deliberate violation of the law. Colonel Burnham, Deputy Judge-Advocate-General, U. S. A., contended on behalf of the military authorities that the civil courts had no jurisdiction whatever in the matter, and that as Zimmerman was held for trial before a military court, the Court-martial was supreme within its jurisdiction. The prisoner was remanded, as stated last week, to the custody of the military authorities, but the judge intimated in strong language that if the Court-martial proceeds and follows the order of the Secretary of War to disregard the statute of limitations, it would do so in plain violation of the law of the land, which has fixed a bar for the prosecution of every crime save murder. The court also expressed a wish that the case should be taken to the U. S. Supreme Court.

THE 26th of February was the thirty-fifth anniversary of the loss of the English troop ship *Birkenhead*, with 454 souls. As the ship went down the British soldiers and sailors on board, doomed to their fate, stood on her deck orderly and composedly as on parade, and with three cheers for their Queen and country a compact and gallant band went to a glorious death. When the King of Prussia heard the story he thought rightly that no better lesson of the true value of discipline could well be inculcated on a soldier. The account was translated into German, and by order of the King the glorious story was read on parade at the head of every regiment in the Prussian Army. The *United Service Gazette* improves the occasion of this anniversary to say: "We feel a conscious but melancholy pride in reading of the wreck of the *Birkenhead*. Our troops may not be fairly treated. They are supplied with guns that burst, cartridges that jam, bayonets that double up, and swords that fly like match-wood; but the sterling 'stuff' is behind these worthless weapons, and our men have engraven on their hearts, 'England expects every man will do his duty.'"

IN addition to the medical lectures delivered at Governor's Island, N. Y., we are informed that lectures to officers and enlisted men on medical subjects of a practical nature have been delivered by the following medical officers at their respective forts, viz.: Surgeon Gardiner, Fort McHenry; Assistant Surgeon Arthur, Fort Niagara; Assistant Surgeon Havard, Fort Wadsworth; Assistant Surgeon Davis, Fort Porter.

THE 3d Hussars of the English Army seem to have been having a field day in the crowded streets of Manchester. An officer of that regiment, Lieutenant Francis Forester, was fined twenty-one shillings and costs in the police court of that borough for running away with a cab and driving furiously through the streets with four of his friends inside, including the Honorable Reginald Fitz William, a fifth on the box with Forester, and the legitimate driver of the vehicle clinging frantically to the axle. Incidental to and explanatory of this charge against the gallant hussar was that of drunkenness. Another officer of the same regiment, Lieutenant Byron, was compelled to make "a humble apology" for an "unintentional assault upon a policeman."

THE *Admiralty Gazette* says: "While we are theorising and experimenting on torpedoes, the Italians, grasping the fact of the necessity for increased speed and explosive charge, have torpedoes capable of developing a speed of 27 knots at 400 yards and 20 knots at 800 yards, and carry a charge of 220 lbs. of gun cotton. This is a higher speed than that attained by any 'Whitehead,' this pattern being slightly longer but of the same diameter as our 16-inch Woolwich torpedoes. Italy's new Navy is developing its power in a remarkable manner, and we are afraid our best talent is hampered too much by official routine to enable the country to profit by what it undoubtedly possesses—true genius."

THE marching capabilities of the different European armies are stated as follows: The length of each step of a Russian soldier, according to regulations, is 71 centimetres; the German, 80; the French, Austrian, Italian, Belgian, Swedish, and Swiss, 75; an average of about 23½ inches. The Italian soldier does 120 steps in a minute; the French from 112 to 116; the German, 115; the Austrian, 118, and the Belgian, 110. An Italian regiment marches at the rate of 90 metres in the minute; a German regiment, 89; an English, 88, and a French, 86.

THE Bureau of Indian Schools has recently been informed by an Indian agent in one of the Territories, that a short time previous several Indian boys who had been attending the school at Carlisle, Pa., had returned to the reservation, and were anxious to find employment in the line of their education, but the agent had none to offer them. Their knowledge of mathematics could not be utilized as bookkeepers, for there were no books for them to keep Their knowledge of the mechanical arts was useless to them, for, excepting the agent and his assistants, every other person within a radius of 500 miles was an ignorant, improvident Indian, supported by the bounty of the Government. Finally, the agent offered the young men $1 a day and their board to fell trees in the forest. They said the work would ruin their hands and, besides, they added, the nature of the employment was degrading. In his desperation the agent wrote the bureau, asking what course he should pursue in the matter. The experience of this agent illustrates the difficulties in the way of improving the condition of the Indians, and explains the difference of opinion among Army officers as to the wisdom of the educational schemes thus far undertaken. They are good, so far as they go, but they should go further in order to justify themselves. Happiness is in adaptation to one's environment, and if we are to give the Indian youth a new education we must give them a new environment. It is very questionable how much is gained by educating any one out of sympathy with the circumstances that must control his life. To give Indian youth a civilizing education and then return them to the conditions of barbarism is as great a mistake as it would be to return the children rescued from the New York slums to their squalid homes after they had grown to maturity in the families of their adoption.

COMMENTING on the sad death of Lieut. Mott, the N. Y. *Times* says: "It is rather strange that with more than 2,000 commissioned officers in the active Army, of whom hundreds have had years of experience in dealing with Indians, besides being possessed of those general advantages supposed to come with maturer years, a fresh graduate having, according to the last register, a lineal rank of No. 116 out of the 118 cavalry 2d lieutenants, should be seized upon for imporiant duties at this agency. Since knowledge of Indian methods hardly comes by instinct, and since an outbreak of Arizona Apaches habitually entails a massacre of settlers, besides enormous toil and expense for the troops, it would seem desirable in general to get the benefit of the longest experience and the most exceptional taet available in every officer assigned to deal with them, even in a subordinate capacity. When Geronimo broke away from his reservation the last time on his horrible course of butchery, he escaped from the charge of a 2d lieutenant of cavalry. Young Mott's ability to perform the ordinary functions required of him as assistant to Capt. Pierce at San Carlos did not save him from being the victim of a sudden quarrel with one of these Indians."

IN an article on "Repeating Rifles," the London *Daily News*, after dealing with fire tactics, and showing the vital importance of having a known number of shots always available for the critical moment of a battle, says: "It follows almost as a necessity, then, that a fixed magazine should not be adopted, or, at any rate, that it should be supplemented by an attachable chamber, so that the officer in command of a battalion or company might know exactly how many shots per man he had to depend upon at a given moment. A theoretically perfect repeater would be one capable of discharging three or four shots at any time without reloading between each round, and an additional six or eight shots from an attachable magazine. There is some hope that a weapon of this kind may be adopted for British Infantry."

THE Naval Academy examinations for the admission of candidates begin on May 16. It is expected that 100 applicants will compete for admission. The President has two appointments for this year, and will announce his selections shortly. He has stated that all of his appointments will be given to the sons of Army or Navy officers, and to a member of Congress who asked for one of them in behalf of a protégé, the President recently said that he would make no exception to the determination he reached early in the administration. The Military Academy examinations for admission begin June 16. There have been already designated 107 candidates, leaving 40 yet to be named. The President has made 16 appointments to the Naval Academy since his inauguration. Eight of these have either resigned or been dismissed or dropped.

A PARLIAMENTARY paper was issued March 4 showing the numbers, description, name of designer, place of manufacture and position at the time of the rifled iron and steel guns that have burst or been temporarily disabled through defective construction or from other causes in the land and naval services of England from 1875-76 to 1885 86. During that period 19 muzzle-loaders, manufactured at the Royal Gun Factories, including four 9-pounders, five 64-pounders, two 2.5 in., four 9 in., and one 10 in., 11 in., 12 in., and 16 in. respectively, and 72 breech-loaders, manufactured seven at the Royal Gun Factories and five at Elswick, including one 9-pounder, two 12-pounders, three 30 pounders, three 40-pounders, one 7 in., one 6 in., and one 12 in. respectively, have come to grief. Seventeen out of the total of 31 were injured on board ship, the rest ashore; seven of the smaller pieces in India.

OF Mr. Wm. P. Hunt's letter to the N. Y. *Herald*, the *Army and Navy Gazette* says: "We happen to know that six 12-in. rifles have failed within a year on two of the best ships in the British Navy, and on the strength of this libel, wants to have the guns built of 'cast-iron.' Of course, seeing that he is the president, or as we should say, chairman of the Board of Directors of an Iron Company, it is not surprising that he thinks 'there's nothing like leather;' but he should not make out British guns to be worse than they are, for all that."

La France Militaire has undertaken the shameless task of defending the violation of a parole of honor by a soldier when given to an enemy, a painful instance of such breach of faith having occurred during the Franco-Prussian war. It argues that "a soldier, no matter what his grade, can alienate his liberty and accept a moral obligation not to fight without ceasing to be a faithful servant of his country." It would soon be found by any Army acting upon this principle that these captured soldiers would cease to be servants of their country—faithful or otherwise—for giving quarter would become an obsolete institution, so far as they were concerned.

A SOLDIER of Co. E, 14th Infantry, has been dishonorably discharged and sent to prison for two years for having, in addition to sundry other offences, used mineral oil in kindling a fire in a stove in a washroom at Vancouver Barracks, notwithstanding positive orders against such a practice. The unanimous verdict is "served him right." Fires at a military post are no joke and are liable to entail much suffering and much personal as well as public loss. If some of the servant girls throughout the country could be subjected to similar discipline it would be to the advantage of the Insurance Companies, though it might reduce the fees of the coroners.

THE Duke of Cambridge, Commander-in-Chief of the British Army, in a recent report as to the National Rifle Association of Great Britain, said: "From changes in the conditions of shooting, it was not possible to compare accurately the merit of shooting in 1886 with the previous year, but there was no doubt that it compared favorably with that of 1885. The entries last year, 40,568, showed an increase of 1,475 over 1885, in spite of the unfavorable weather." One of the members present, in moving the adoption of the report, renewed an application he has often made for a screw wind-gauge of the American pattern being allowed for M. B. L. rifles. He advised the council to permit the use of telescope sights as of prospective military value, and urged that competitors with the revolver should be allowed to use their own weapons and ammunition.

EMPEROR WILLIAM, of Germany, will celebrate his ninetieth birthday on Tuesday next, March 22 when there will be a gathering at Berlin such as modern Europe has probably never witnessed. Austria will be represented by the heir to the throne; Russia, by Vladimir, brother of the Czar, and Michael, his uncle; England, Belgium, Sweden, Denmark and Italy send their Crown Princes. Roumania and all the German States will be represented by their sovereigns in person, and there will be imposing delegations from all the other countries. It is rumored, and by many believed, that the aged Kaiser will formally abdicate in favor of his son and heir on his birthday.

THE eighteenth annual reunion of the Society of the Army of the Cumberland will be held in Washington, D. C., May 11 and 12, at which the principal feature will be the unveiling of the statue of Garfield in the circle at the junction of Maryland avenue and First street.

THE Sedgwick memorial to mark the spot at Spotsylvania where General John Sedgwick was killed, will be dedicated by the survivors of the Fifth Army Corps, May 12.

LATE ARMY ORDERS.

Lieut. S. T. Norvell, 10th Cav., is granted four months' leave from May 1, and Lt. D. F. Anglum, 12th Inf., four months' leave from April 1. The leave of Capt. Mott Hooton, 22d Inf., is extended seven days. Col. J. M. Wilson, C. E., will proceed to New York City. Lieut. L. H. Strother, 1st Inf., is relieved from college duty at Blacksburg, Va., and will join his regiment. (S. O., H. Q. A., March 18.)

DECISIONS BY THE SECOND COMPTROLLER.

THE Second Comptroller in his decision upon the claim of Patrick D. Stack, late, private, Co. A, 8th Inf., for extra duty pay, says:

It has been repeatedly held by the accounting officers that a non-commissioned officer or soldier, after discharge, can lawfully assign his pay. Section 1291 of the Revised Statutes impliedly confers such authority and has always been so construed. It was so held by this office in Settlement No. 48,291, confirmed Feb. 3, 1886, case of L. F. Demorest, sergeant, Co. C, 5th U. S. Cavalry, where a settlement in favor of Lieut. Edwin P. Andrus, upon an assigned pay account, was made. Paragraph 1664 of the Army Regulations, cited by the Commissary-General, does not in any wise conflict this rule. That paragraph merely prohibits payment of a claim or account presented through agents or collectors, except on a regular power of attorney, which instrument must accompany the account, and does not prohibit payment to the assignee of a soldier's pay where an assignment has been made after the discharge of the soldier."

"It is well settled that where a party, by mistake, signs his name in the wrong place to an instrument, but it appears that he intended thereby to execute the instrument, it will be deemed to be duly executed."

The Second Comptroller has reaffirmed his decision upon the settlement of the accounts of Capt. Edstein, 21st Inf., and Lieut. Reynolds, 14th Inf., as acting commissaries of subsistence. The re-examination of the case was made upon the request of the Secretary of War. He says that boards of survey cannot decide anything with reference to the liability of the officer; they are organized simply for the purpose of causing an investigation to be made into the circumstances attending the loss and evidence to be taken and reported which can be presented to the accounting officer as a voucher, but it remains for these officers to decide whether the facts so reported are sufficient in law to authorize a credit for the funds or property lost or destroyed.

In the matter of the claim of 2d Lieut. Geo. Barnett, U. S. M. C., for mileage, the Comptroller says:

"Oct. 8, 1884, the claimant was attached to the U. S. S. *Pinta* at Sitka, Alaska, and was ordered by his commanding officer, Lieut.-Comdr. H. E. Nichols, to proceed to Mare Island, Cal., by the next steamer leaving the port, assuming charge of Thomas C. Gallagher, a private of marines who had been condemned by a board of medical survey for mental derangement and physical debility, and on his arrival at Mare Island report to Commodore J. H. Russell, U. S. N., commandant, and transfer the patient as he may direct, on completion of this duty return immediately."

Asst. Paymr. E. B. Webster furnished transportation amounting to $142 upon the return of the claimant, to Sitka, Dec 15, 1884. The Comptroller concludes:

"I think it must be assumed that the officer in issuing the order had the right to determine whether it was for the public interest to furnish the claimant with transportation, in lieu of mileage, and having exercised that right and ordered the transportation for the entire distance at the expense of the United States; and the appropriation for the support of the Marine Corps having been charged with the expenditures in the settlement of the paymasters' accounts and the claim should be disallowed."

The Comptroller has allowed the claim of Francis E. Patterson, 1st Art., for $75 extra duty pay for service in the Mexican War.

WORK TO BE RESUMED ON THE CRUISERS.

SECRETARY WHITNEY, March 15, addressed the following communication to Chief Constructor Wilson:

Referring to the Department's letter of March 10, which directed the suspension of work under the Bureau of Construction and Repair, in completing the hulls of the *Chicago*, *Boston*, and *Atlanta*, such suspension being caused by the fact that the special appropriation for that purpose was virtually exhausted, I have to inform you that the Department is advised by the Attorney-General that the available balance of the general appropriations under the respective heads of Bureau of Construction and Repair and Bureau of Steam Engineering can be lawfully applied and used in completing the hulls and machinery of said vessels, provided the total expenditure shall not exceed the total estimated cost of said hulls and machinery, as reported by the Naval Advisory Board under date of Dec. 20, 1882. In view of the opinion above referred to, you are authorized and directed to cause the immediate resumption of the work on these vessels which was suspended under the Department's instructions, subject, however, to the limitation that the total expenditure under the Bureau of Construction and Repair shall not exceed the estimates of the Advisory Board relating to hulls. You are further authorized to furnish Paymaster George H. Griffin with such further instructions as may be necessary to enable him to make the necessary disbursements in the premises.

Immediately upon receiving the above communication Chief Constructor Wilson sent the following telegram to Naval Constructor Steele, at Chester, Pa.:

By direction of the Department you will proceed with the work on the *Chicago*. Paymaster Griffin will be notified as to what appropriations he will draw on for necessary funds.

The Chief Constructor feels confident that he will be able to complete the cruisers within the estimates.

Work is progressing on the *Chicago*, which is behind the others. The engines are practically finished, and but little construction work remains. She will be removed from Chester to New York next week. The *Boston* is already there, and is being fitted with ice machines, electric lights and steam separators. She will be ready for a trial trip within a few weeks. The *Atlanta* was docked at New York on Tuesday, and will soon be ready for another trial trip.

(From the Washington Post.)

MAJOR POLK'S VALUABLE ADJUTANT.

"WHEN Major Polk [brother of the President of that name] arrived at his headquarters in Mexico he knew nothing whatever of military matters," said General Viele recently. "He was ordered to take command of a regiment of which I was adjutant. Before doing so he got a friend to write out all the orders he would have to give. When he appeared upon the scene he called out to the orderly to send the adjutant to him. 'Here are my orders,' said Polk, handing them over to me. 'Have them published?' They were published accordingly.

"The next day Major Polk was ordered to form a squadron. He said to me, 'My spur is off; I wish to put it on. Give the order to put the squadron in motion.' I did so. 'Continue to give orders, sir!' shouted the Major. The next day he began to read up on military tactics. He read the first page and took a drink. Then he read the second page and took another drink. Finally he threw down the book and exclaimed:

"'Adjutant Viele, I don't know a d—d thing about it. My brother is President of the United States. You stick by me and tell me what to do and I'll see that you get quick promotion!'

"It is needless to add that I stuck to the brother of the President."

(Vienna Despatch to the London Times.)

AUSTRIA'S NEW RIFLES.

THE great arms factory at Steyr has raised the number of its workmen from 900 to 4,000, and they are working day and night at the manufacture of the Mannlicher repeating rifle. A first distribution of these is to be made in April, and it is stated that it will require about two months to exercise the troops in the use of them. As a set-off to this news, I may state that a very rapid transformation of Russian Berdan rifles into repeaters is being made by means of an ingenious little apparatus which I have seen, and which can be adapted to the Berdan, Winchester, Gras and some other rifles, but not to the Martini-Henry or to the Austrian Werndl. I need not give the inventor's name, but a description of his contrivance has been sent to the British Government by Major-Gen. Keith-Fraser, our ever active and vigilant military attaché. The apparatus can be fixed on the rifle in less than 10 minutes. It has a magazine for three cartridges, and can be fitted with a metal case holding five others, so that, counting the first charge in the breech, nine shots could be fired consecutively. The cost of the apparatus is about 5s. It can be locked when not wanted, and an intelligent soldier would learn the use of it in a couple of hours. The Russian Government has got hold of this invention, or of one like it, for I learn from Odessa that rifles with a similar apparatus are now being generally used at drill in Russian Poland. When on drill the soldier removes the machine and carries it in a case at his belt.

BLACKING HIS FEET.

"THE queerest thing I ever saw took place one day at Malta. A lot of sailors belonging to one of the Royal Navy vessels in harbor had got leave for a day ashore, and were returning towards evening. One of them, who had evidently got more grog on board than he could conveniently carry, did not get into the boat with the others, but lingered on the steps of the landing place, surveying his ship in the distance with an air of drunken gravity highly edifying. He had no boots on, having evidently pawned them to eke out the day's spree, and he was wondering how he should get on board without the deficiency being noticed. At last a bright idea struck him, and, calling to a couple of the youthful shoeblacks who hang about, set them to work to polish his bare feet, so that he might thus evade the watchful eye of whoever should receive him on board. There he stood, balancing himself between these two little shoeblacks, with a look on his face of intense satisfaction at his own sagacity, and encouraging them to brush away as hard as they could. 'Tha'sh the way, my lads,' he was saying, 'polish 'em up, make 'em bright,' and finally he stepped into the boat with many chuckles. Whether he got on board all right," added the captain, "I never knew, but he deserved to."—*Times of India.*

WHY AUSTRIA WOULD WHIP RUSSIA.

A RUSSIAN staff officer recently had a conversation with a correspondent of the London *Standard*, and said that in the event of a war between Russia and Austria the latter country would surely whip.

The Russian Army lacks any organizing genius, and the transport system is scandalously defective. During the Turko-Russian war a battery of artillery took five months in going from St. Petersburg to Plevna. One battery disappeared entirely. Good harness or saddles or horses are sold by the Russian officers, and they are perhaps promoted by the thieves above them. Gourko is, perhaps, the coming general, but the vast host that appear on the war books are "fraudulent, undrilled or unequipped." The officer said that if a body of honest and intelligent men were to begin to reform the Russian Army they would first have to hang about 500 departmental administrators. Russia's forbearance with Bulgaria is attributed to this cause.

THE Rev. P. M. Dononus, of Charleston, lately made a lieutenant in the French Army by Gen. Boulanger for discovering a destructive explosive for use in torpedo warfare, has decided to call his new invention "carbonated glycerine." He says it has ten times the destructive power possessed by nitro-glycerine, and can be handled with much more safety.

EXPERIENCE has demonstrated that a bullet to be effective at 1,000 yards must weigh over 500 grains, and it is a curious fact that in the days of Robin Hood the crossbow bolt weighed 530 grains, that weight having been found the best for long distance shooting.

A GERMAN professor, who has the arduous but undoubtedly agreeable task of instructing a class of young girls at a private school, was one day discoursing upon the beauties of the German word "aufwiedersehen," saying that the English had no word corresponding to it in sentiment and feeling. "Oh, yes we have, Professor," spoke out cheerfully one of the pupils, with a sparkle of mischief in her eyes. "Ach, what is the word?" he asked. "See you later," was the information. "See you later," repeated the professor, with an air of having received a philological truth. "Yes; that is a good phrase. It is idiomatic. It is very expressive." Several days later the professor was invited to a dinner of distinguished guests. As he was parting with the host, who was a man of much dignity and ceremony, he almost electrified the company by exclaiming, in a tone of deep feeling, "See you later! See you later!" The lesson of his mischievous pupil was evidently well learned.—*Boston Journal.*

INFANTRY ARMAMENT.

To the Editor of the Army and Navy Journal:

IN the preparation for war, now carried to the greatest possible extent in Continental Europe, we see those nations who feel the crisis to be most imminently upon them, systematically and as rapidly as possible placing magazine guns in the hands of their soldiers.

In this country, the birthplace and home of small arm improvement, our authorities, in keeping with the lethargic indifference with which the art of war in all its branches is treated, reject the magazine idea, and content themselves with tinkering on the minor details of the Springfield breechloader. England alone of European nations is neglecting the introduction of magazine arms; but unlike us she is constantly increasing the power and efficiency of her single shot breechloader. A new model of this arm, called the Enfield-Martini, a vastly superior gun to that made fifteen or even five years ago, is now being placed in the hands of her troops.* The following table shows its comparison with the Springfield:

	Diameter of bore in inches.....	Charge of powder in grains.....	Weight of bullet grains.....	Velocity in feet at— Muzzle....	500 yards..	1,000 yards.	1,500 yards.	2,000 yards.	Heighth of trajectory in feet at— 500 yards..	1,000 yards.	1,500 yards.	2,000 yards.
Springfield.....	.5	70	500	1307	856	675	523	404	8.574	46.88	142.3	343.
Enfield-Martini.	.402	85	384	1570	940	719	553	404	6.704	39.02	122.0	298.7

Either of these guns are accurate enough at any range when shot at a target at a known distance; but as in war the desideratum is to hit men at always uncertain, and often unknown, distances, that gun is preferable whose bullet travels nearest the surface of the earth; or, in other words, has the flattest trajectory. It will be seen by an examination of the above figures, that, as compared with the Springfield, the Enfield-Martini has by far the greatest advantage. Both are single shot breechloading rifles, and, with the exception of the Werndl, used in Austria, the only ones used in any army in the world that are not bolt action guns. The most warlike nations, and those of the latest war experience, all have bolt action guns. We may be right, but we have no experience wherewith to justify our eccentricities.

The ammunition question was urged against the change from muzzle to breech-loader with much more animation and with vastly more reason than it ever can or will be against that to the magazine gun, for it was much more radical and far reaching. The magazine gun can always be used as a single-shot breech-loader, and the rounds capable of being "wasted by rapidity of fire," that is the stock in trade of the Rip Van Winkles who oppose the magazine system, never exceeds five to eight, the number usua'ly held in the magazine. If the ammunition supply question is a true issue it is upon us now, and it would be as sensible to insist upon a return to muzzle-loaders for that reason, as to rule out a magazine gun; for between five and eight of the fifty or sixty rounds a soldier carries into battle is the extreme number a soldier could fire too rapidly. There is probably no officer who would admit that he could not prevent his men from reloading their magazines, even if he would admit he could not prevent them from using their guns without authority as magazine arms.

In the supreme moment of conflict, those with any battle experience know that these few rounds, capable of great rapidity of use, would certainly decide the day against a foe who had them not; and any American officer who dares to hint his inability to so control his men as to prevent the reservation, for such a crisis, of his magazine rounds, lowers his capacity to the degree of showing himself unworthy of his calling. Single-loading will do for many purposes, and on such occasions the magazine arm would be so used; but the soldier of the period must have a weapon capable of increasing his weight of fire when necessary, and he can be taught when and how to use this great power without wasting it.

The conservatism that clings to officers in the matter of change of armament is no new thing. It took hundreds of years to enable gunpowder weapons to supersede the pike, the cross bow, and long bow, and the percussion cap was for a long time scouted by the veterans who were used to the flint lock. The writer remembers that a petition was circulated in the Army of the Potomac in 1861, upon which "Mexican War Veterans" figured extensively, asking that smooth bore muskets with buck and ball cartridges be issued to all but the flank companies of regiments of infantry, for the reason that it was impossible to educate or train soldiers to the efficient use of so delicate and intricate an arm as the "rifled musket," throwing but one bullet!

This conservatism has been encouraged and fed by the arms-makers of the Army. Their perfunctory deliberation had evolved in sixty years the old Springfield muzzle-loader. Despite their rejection of Hall's invention of the principle of interchangability of parts for some thirty years, they had by the adoption of the invention of Blanchard and other outside tool inventors, become able to grind out, in excellent form and finish, with monotonous comfort and luxurious ease to themselves, a very serviceable arm.

When the great uprising of 1861 occurred and the American mind was concentrated upon war and its implements, improvements in arms overwhelmed these perfunctory Government manufacturers, and the inventor was looked upon by them as an iconoclast of the most barbarous type. "Austrian rifles" and "Belgian" and "Enfield muskets" were purchased by the manufacturing and supply bureau, and placed in the hands of the volunteers. Many of these guns were more dangerous at the breech than at the muzzle; but they were useful, if for no other purpose, to show that the Springfield was "the best arm of the period;" until about the close of the war none of the improved rapid-firing arms were allowed to reach the fighting men at the front.

After the war the official inventors and manufacturers brought forward nothing new of their own, and contented themselves with eulogizing the Springfield and condemning all other guns, until the Army, finding the rest of the world possessing breech-loaders, shook up its conservatism sufficiently to demand that it should have such an arm. The bureau of invention and supply, in its desperation perpetrated a larceny upon a score of inventors and produced the hybrid arm christened the Springfield breech-loader. This child of its adoption has been taken to its breast, and nurtured with an affection rarely equalled by genuine paternity, and strangely inconsistent with the neglect and contempt ever shown the true parents of its foundling. It has been good enough for the fighting men ever since, in Ordnance estimation, and every effort has been made, with great success, to keep the before-mentioned conservatism enlisted in its favor. Other breech-loaders were recommended by most able boards, after most exhaustive trials, but the arms to be tried must be made at the Springfield Armory, instead of by their proprietors and inventors; thus manipulated the Remington and Ward-Burton types of entirely different systems, were by a judicious fostering of the before mentioned disinclination to change, forced to the wall.

The present Chief of Ordnance, more far-sighted and less hide bound than most of his officers, to his credit be it said, seeing the necessity of satisfying the wants and ideas of the Army, instead of the whims and prejudices of his corps, recognizing the inevitable advent of the magazine arm, has done his share to find a satisfactory system. Twice have small numbers of arms of that description been placed in the hands of troops to be reported upon, and as often have the "reports" been adverse. This has been in spite of the known fact that both the Lee and the Hotchkiss are vastly more simple in construction, more naturally manipulated, more easy to keep clean, and consist respectively of ten and 11 per centum less individual pieces or parts than the Springfield which is only a single shooter, and the additional fact for the Hotchkiss, that its barrel, retaining the weight of the Springfield, was four inches shorter, vastly decreasing its liability to be dented or sprung, without sensibly decreasing its ballistic power, and its ability to be completely dismounted without the aid of a screw driver or any other tool. Both these guns were capable of being fired as single loaders with much greater rapidity than the Springfield and with equal accuracy.

The writer has witnessed both the above named trials in departments widely separated. As far as his observation went little interest in the gun was observed among the officers, and he doubts whether 25 per centum of those to whose organizations the issues were made, could mount or dismount the guns, or explain the principles of their mechanism or operation.

In many cases the Captain had his poker, and his Lieutenant his polka to attend to; while the post commander encumbered by the barnacles of a life-long inactivity, or oppressed with the idea that he had arrived at a station in life when he could not be expected to take up with or notice any thing connected with "This d——d target practice craze," left the Sergeant, ignorant equally of the mechanism, manipulation or capacity of the new arms, to assist the company in proclaiming the well worn "chestnut," "The old Springfield is the best arm for service in the world." The writer never hears that remark without recalling the historical "Sam," who never ate any meat simply because from infancy up, he had ever heard mother and all the rest say: "Sam never could eat meat."

The late trials were not properly conducted or sufficiently extended.

It is recommended that the Hotchkiss and Lee be again issued, to entire organizations (not the same ones as before had them); that all other arms be taken from the companies, that they be required to use them daily, and make weekly reports, as was done when the Springfield was being perfected, of all discovered defects or accidents; that these reports be transmitted to the inventors or proprietors, and that they be permitted to provide and supply their remedies; that this be kept up for, at least, one year. Our word for it, a different "report" will be obtained. The Department Commanders should be held responsible that due attention is paid to the business in hand by having the organizations frequently looked after by fearless and intelligent inspectors. *

* As to this we believe our correspondent is mistaken. The English have ordered a supply of two American guns for trial and will, it is expected, adopt one of them. They are the Lee Remington and the Lee Burton.—ED.

(From the Philadelphia Press.)

INTERESTING OLD LETTERS.

ON Saturday the Hon. R. E. Monaghan, of this borough, presented to the West Chester State Normal School a valuable collection of historical letters which were at one time the property of the late Gen. Persifer Frazer Smith, U. S. Army. They passed from the General to his nephew, the late Hon. P. Frazer Smith, and from him to his daughter, Mrs. R. E. Monaghan. Among the most notable of the collection is a letter from Gen. Winfield Scott, and is as follows:

AUGUSTA, Ga., May 27, 1836.

DEAR GENERAL: I am bound for Chattahoochee to take upon myself the war against the Creeks. Would to God that you and your efficient corps were here to assist me in putting down this new enemy.

Your obedient servant, W. SCOTT.

Another is from Gen. (then Lieut.) G. T. Beauregard, and is dated Tacubaya, Aug. 25, 1847, in which he announces to Gen. Smith that he sends his report of the operations at Fort Raymond on the 19th and 20th of the same month. There is another, which is from Gen. G. B. McClellan, then a Lieutenant of Engineers, in which he says: "I am quite tired of civilization and am anxious to go with you to Oregon. I take the liberty of asking if you would have any objection to take me."

There is also one from President Buchanan, in which he says, June 26, 1851: "I have a favor to ask of you which I know you will grant if this be in your power. Lieut. Pleasanton, of the 2d Dragoons, is now stationed at Santa Fe. His mother, a woman whom I esteem as warmly as any other friend on earth, has recently died, and has left a disconsolate family of two daughters who, in their affliction, are naturally anxious to see their brother. I think this presents a case in which Lieut. Pleasanton ought to be indulged, not with a furlough, but with service somewhere in this quarter of the Union, which would enable him to see his aged and respected father and his sisters. I feel a deep interest in the whole family, and shall esteem it a great personal favor should you accomplish the object."

The next letter of interest is one from Jefferson Davis when he was Secretary of War, and in it he expresses himself as a great Union man. With reference to the disturbances at that time in Kansas he says:

The position of the insurgents, as shown by your letter and its inclosures, is that of open rebellion against the laws and constitutional authorities, with such manifestations of a purpose to spread devastation over the land as no longer justifies further hesitation or indulgence. To you, as to every soldier whose habitual feeling is to protect the citizens of his own country, and only to use his arms against a public enemy, it cannot be otherwise than deeply painful to be brought into conflict with any portion of his fellow-countrymen. But patriotism and humanity alike require that rebellion should be promptly crushed, and the perpetrators of the crimes which now disturb the peace and security of the good people of the Territory of Kansas should be effectually checked. You will energetically employ all the means within your reach to restore the supremacy of law, always endeavoring to carry out your present purpose to prevent the unnecessary effusion of blood.

POINTING AND AIMING DRILL.

THERE has been issued from Headquarters at Omaha, for the information of the Departments, extracts from Farrow's Encyclopædia showing the great importance of pointing and aiming, and as practiced in foreign armies. While this information is plainly and clearly laid down in Col. Blunt's book of Instructions in Rifle and Carbine Firing, yet it impresses itself so much more strongly upon us when we find the great attention paid to it in foreign armies.

Germany.—The course of instruction is ten to eleven months. No extended interruption is allowed. Great importance is attached to the ability of each officer to correct errors in firing by using the rifle himself, and demonstrating the man, and not the piece, was in error. Pointing and aiming in barracks, in all its varieties, is carefully taught, and develops a taste for gallery practice, and amuses the men as well as increasing their proficiency. Ranges are generally three to four miles away, to which detachments are marched, the officers being on the range seven hours a day.

France.—The same amount of attention is paid to early instruction, and in addition the pulling of the trigger, but the soldier is well acquainted with the necessary force to discharge his piece. Greater attention is paid to estimating distances than in other armies, and they consider it a necessary complement to accuracy of fire.

Austria.—The same attention is given to early training, and in the field marching, and firing over difficult grounds and from behind trees and low shelters, etc.

The above is only a synopsis of the valuable information given in the circular, impressing, as it does, so much value upon the handling of the rifle in barracks, aiming, etc. This is demonstrated by our militia, who give so much attention to gallery practice, and the few days on the range bringing such good results.

Col. Blunt, inspector of rifle practice, is to be credited with the writing of these articles.

DISHONORABLE DISCHARGE.

To the Editor of the Army and Navy Journal

REGARDING your position of March 5, regarding dishonorable discharge, I would say that this power has been a great boon to the Service, as methods of punishment are now organized. Prima facie, I should say that officers connected with the troops are better judges of it as an abuse than are the bureau officers who only consider the expense in the dollars, and have no hourly proof of the loss and the clogging to the Service due to guard-house bummer.

In time of peace nothing is better for it than getting rid of the discontented soldier. Can you recollect a soldier made contented by disciplining? If he elects to show his discontent by persistent misconduct, and to accept Leavenworth rather than desertion to thus get out of the Army, he knows that he sacrifices two or three years of his life. It is cheapest and best to accept his terms. Very, very few do this with such object.

Many bad cases with little forethought come into service just to tide over an immediate necessity. These may be indifferent as to where they fetch up ultimately, but as garrison soldiers disciplining them is very costly and always a failure. One of them can kill the best laid working plans of a garrison for at least one day, with our present reduced force.

Could they be corrected in a military prison as the original conception of Leavenworth was, we could probably culture and bring up again their perverted manhood.

For the young who may not have heard it, with your permission I will here state Gen. McDowell's plan of the military prison, as he explained it to me. As to guards and walls it was to be much as the penitentiary system. The culprit was not to be permitted to do any useful labor or work. He was to bathe at least twice daily. When not engaged in gymnastics he was to carry cannon balls from one side of the parade to the other, piling them and breaking pile every minute of the working day. To relieve the monotony he was to be gymnasticised twice daily. He was to be cooked and washed for outside.

It was contended that in six months at the farthest this would get all the whiskey out of a guardhouse bird, would build up his physique, brighten his mind to the appreciation of the life of a free soldier, save several years of good service to the Army, turn him out at the end of his enlistment a highly improved citizen, or fit him to re-enlist as a reliable soldier.

No officer of the "Old Army," I think, wishes a return to the fogy system of garrison convicts, bossing the sergeant of police, cutting and sawing wood in the back-yards, the delights of the servant maids, the recipients and retailers of the domestic gossip from kitchen to kitchen. When we used to try to rid ourselves of such the reply from Headquarters was "Discipline; discipline him!" This was the heighth of sarcasm and caused many an old captain to break the Third Commandment. "Yes, the Gen-

eral knows that all legal means have been already used, and he would be the first to Court-martial me for using an illegal means of disciplining." So the nuisance had to be tolerated, and abject viciousness and worthlessness fed and cared for, as if it was a virtue.

Loss is inevitable in the Service, but I believe that the company officer is as economical of the means given him as are bureau officers, and there is little danger of his wishing to get rid of a man till this has proved himself to be a dead loss daily to the Service.

The check on the Department Commander would appear to be ample. If the repeated cases do not satisfy him of the man's worthlessness, he will strike them out, and not send them before the court.

JOHN HAMILTON.

CHANGES IN TACTICS REQUIRED.

THE regular meeting of the Canteen at Martinelli's, Fifth Avenue, New York, was held March 12, Capt. Haskell, the vice-president, in the chair. After the reading of the minutes, the following new members were unanimously elected: Maj.-Gen. Josiah Porter, Brig.-Gens. Emil Schaefer, J. D. Bryant, W. G. Ward; Cols. E. T. Gaylor, Geo. D. Scott, Thomas C. Miles, Thos. McGrath, J. P. Story, Chas. T. Hatch, Geo. S. Schermerhorn and F. C. McLewee; Majors Geo. Keating, H. Chauncy, Jr.; E. C. Stanton, Morris B. Farr, Chas. W. Hassler; Capts. Chas. T. Smith, Thos. Griffin; Capts. Alex. T. Mason, Howland Pell, J. F. Boylan, L. F. D'Oremieulx, H. E. Hargous; Lieuts. Jas. E. Ware, Dan. E. Nesbitt, Delancy Cunningham; J. Morgan Wing; C. E. Lydecker.

The following officers were unanimously elected for the ensuing year: President, Gen. E. L. Molineux, U. S. V.; Vice-President, Lieut. G. N. Whistler, 5th U. S. Art.; Recording Secretary, Lieut. E. R. Hills, 5th U. S. Art.; Corresponding Secretary, Capt. W. H. Murphy, 12th N. Y.; Treasurer, Lieut. Granger Adams, 5th U. S. Art.; Council: Commo. E. A. K. Benham, U. S. N.; Maj. James Jackson, 1st U. S. Cav.; Capt. Dan. Appleton, 7th N. Y.; Capt. J. Armory Haskell, 12th N. Y.; Capt. C. S. Burns, 12th N. Y.; Capt. H. C. Aspinwall, 12th N. Y.

Lieut. W. R. Hamilton, 5th U. S. Art., then read a paper on "The Application of Upton's Infantry Tactics to Modern Warfare."

After describing the conditions of the modern attack, Lieut. Hamilton said:

Let us look at the present Upton method of meeting it. His battle-lines are formed in double rank, reserves at proper distances in rear. Advancing to within 3,000 yards of the enemy, certain regiments or companies are thrown out as skirmishers, and for the purpose of illustration we will take a single battalion. The Nos. ones of the front rank are advanced as the first line of skirmishers, and are at intervals sufficiently great to cover the front of the battalion, and half the interval between it and the battalions on its flanks. The first lieutenant and third sergeant of each odd company, accompany this line. After advancing a certain distance a second line, consisting of the Nos. twos, is sent forward as a supporting line. Then a third line of the Nos. threes if necessary and so on. It is thus possible to deploy eight successive lines, but in that case there is no battalion reserve left. These lines support each other by running forward to the first line, or by falling back one on the other. If checked by the enemy, the first line waits till it is reinforced by one or more lines in its rear, when it again advances. Now the first great objection to this system is, that the line or lines or portions of them, are not sufficiently under the command of their officers to insure steadiness and control at the time it is most needed. When a cadet at West Point I have often seen the battalion march across the parade ground in line, and though the color and general guides were in front, and the ground there is as level as a floor and there was nothing to disturb or distract the attention, yet it was one of the hardest movements to execute nicely.

Now take a line of men not in closed order, but at intervals of two, three or five yards—a line covering the front of a battalion of four companies, say 135 yards, without general guides in front—and march them across a level plain, and you will see that if one breaks the entire line is thrown into more or less confusion and disorder. But if you go to the battlefield, where the ground is rough and cut up, where the bullets are falling like hail around you, and a man falls on your left, and another springs into the air with a death yell on your right, and the noise of battle is so great that you cannot hear your officer's voice 20 yards away, and attempt to march that line across a plain 2,000 yards in width, what is the result? Why, simply it cannot be done. Before going over half the distance some parts of the line are in advance of others, and out of control of its officers, and suddenly finding itself in that condition, it becomes disorganized and looks for support, and the second line is hurried up to it and then the third, etc., and as there is no method provided for reinforcing a part of a line only, it follows that the first line is strengthened in places where there is no need of strength, and its loss is therefore proportionately greater than it should be, while the main attack is weakened by the premature use of supports and the entire line is disorganized and thrown into confusion.

If while this is going on the enemy should make a flank attack, the only methods in Upton by which it can be met, is by withdrawing or refusing the advanced line of skirmishers, or one of the supporting lines, or else throwing out from the battle line, flank companies as skirmishers. The first method is equivalent to defeat, since it is giving ground to defend yourself; the second method it is practically impossible, since a second or intermediate line could not march by the flank quick enough to meet this new attack, and to attempt to wheel it around would take even more time, besides creating the greatest confusion. The third method is objectionable since, in the first place, the companies remaining in the battle line are much weakened by the skirmishers thrown out, and, secondly, if you attempt it you deprive your fighting lines of the moral and actual support they depend on, and seeing themselves weakened by the withdrawal of their reserves, and threatened by a flank and rear attack, they lose heart and fall back, and at the time necessarily in much confusion.

Another objection is the moment a line of skirmishers passes out of the battalion, it passes beyond the control of the battalion and company commanders. It is a well known military axiom, that the root of power in battle is in keeping in tact and under control the largest possible portion of your force for the longest possible time: but the skirmish lines thrown to the front are not under the command of their own company officers, since it is the 1st Lieutenant of the odd companies that goes with the first line, the 1st Lieutenant of the even companies with the second line, etc. At the same time the battalion in reserve becomes much disorganized in consequence of the rear rank men taking the places of the front rank men, and the necessary change of sergeants and guides. Again when the supporting lines join the advance it is because they are needed and they must do so quickly. The result is that the fours are no longer complete, but in disorder, since the numbers ones are as apt to be alongside the numbers threes of their own or the next set, as they are to be in their proper places. The lines fall back on the battalion or the battalion advances to the lines a consequent disorganization ensues, and in its train confusion and demoralization.

The object of the supporting lines, is to meet any sudden or expected attack of the enemy, and there is no method whereby a flank attack can be met, without depriving the main or fighting line of part or all of its support.

I will mention one other objection. It is that only the fighting line can take part in the firing and therefore before it has crossed half over the second period, so many men must be put into action that the reserve becomes much weakened. Such in brief are some of the principal defects of Upton's system, applied to-day. They are, indeed, serious, and in these days of magazine guns demand more attention than ever before. Gen. Upton was fully alive to these defects and was engaged in remedying them at the time of his death. Can they be remedied? The best thing to do, would be to do away with the system altogether, reorganize our military forces, arm them with the latest and best guns and then adapt a system of tactics to such an arm and organization. A system that would teach men only a few movements as to the shortest way to move to the front or rear, or to either flank, to deploy and to mass, that would give us less fancy movements for the mass and more "individualism;" for the men. If to-morrow you were called upon to defend our northern frontier against a sudden attack of modern troops armed with England's best guns and drilled on her half battalion system; or again, if France should determine to seize and hold the Panama Isthmus, and you were hurried forward to meet her company column system, could you make any changes at all in the little time you would have for preparation, that would enable you to meet either half-way? I think you could. Although Upton's tactics are developed for regimental formations of 10 companies, he distinctly uses the word *battalion* throughout all the book, and defines a battalion to consist of two or more companies up to ten. We may assume, therefore, as Upton did himself, that a battalion of manœuvre consist of four companies. I do not see that Upton's tactics would have to be changed as to commands and general rules, if we made our regiment consist of twelve instead of ten companies; in other words, we would have three battalions of four companies each. We have it at present in our cavalry and artillery organizations.

The reading of Lieut. Hamilton's paper was followed by a long discussion, in which Col. Jones, 12th; Major Jackson, 1st U. S. Cav.; Lieut.-Col. Dowd, 12th Inf.; Capt. Van Reed, 5th Art.; Lieut. Patterson, 1st Art.; Capts. Aspinwall, Haskell and Murphy, 12th N. Y., and Lieut. Hamilton, 5th U. S. Art., took part. Supper was then served, and after the coffee the discussion was continued, followed by song and story from numerous members of the Canteen. The next meeting will be held on Saturday evening, April 9, 1887.

IN UNION IS STRENGTH.

To the Editor of the Army and Navy Journal:

CONGRESS has adjourned without having done anything for the personnel of the Navy. I have always maintained that the reason why nothing is done, is due to the fact that no set of officers will agree to support the same measure. Heretofore, if one class or corps attempted to obtain any legislation bettering their condition, it would immediately be opposed by others, simply because of antipathy, and this when the proposed legislation would be an evident benefit to the Service. A very little opposition will prevent legislation. It would appear to me that the time has arrived when the dog in the manger and cut-throat policy should be dropped. The same energy and means heretofore employed by the different corps of the Navy to obtain or prevent legislation if used wisely and unitedly would enable us to obtain all the legislation needed.

I think the whole Service may be said to favor an equalization of pay, and the pay of the Marine Corps would be satisfactory to nine-tenths of the Service. In fact, the only opponents to that pay, are those who have not carefully examined it.

The whole Service is interested in some scheme providing that officers having less than three years to serve, should not be sent to sea in command of stations. The constant changing of Commanders-in-Chief is a manifest injury to the Service. There are many other questions upon which all officers practically agree, and if we cultivated a little more the spirit of concession as well as of aggression, there are but few points but what an agreement could be reached.

I would recommend a general committee of the whole Service, each Corps being represented according to its numerical strength, to which all questions should be submitted, and a settled policy as to legislation be established and urged by the whole Service.

If this committee were properly supported, and *never opposed* by anyone, we would soon obtain much-needed legislation. The committee should be composed of men of broad and conservative views, and while they should be selected from the Service by the different Corps, they should be enabled to meet annually for general discussion, and the formation of a policy to be pursued during the ensuing year. The Service could well afford the necessary expense to carry out this scheme. We have spent much more in injuring ourselves.

Let us stop quarrelling with each other, and go to work in an intelligent manner to build up the Service, that we may be an honor to our flag, to the department which represents us, and to the people to whom we are indebted for our maintenance.

I remain, my dear sir, respectfully,

R. M. G. BROWN, Lieut.

NORFOLK, VIRGINIA, March 12, 1887.

REGIMENTAL STAFF OFFICERS.

To the Editor of the Army and Navy Journal:

IT appears to a "man up the tree" that in all the long and apparently concerted howl about regimental adjutants and quartermasters the opposition has not been heard, and it speaks well for the soldierly qualities of the incumbents that none have replied. Let me say a word for them. It used to be claimed by the Adjt.-General's and Q. M. Departments that officers should be selected for those departments who had shown peculiar fitness, and the old registers show that Regimental Q. Ms. and Adjutants who had shown special aptitude in those duties were selected and promoted to kindred duties higher up. For instance, Hancock, Macfeely, Holabird, Tompkins, Kelton, Vincent, Ruggles, Taylor, (J. McL.); Hodges, Haines, Chandler, Pelouze, Hawkins, Jones, Sawtelle, Weeks, Dana, Lord, Barber, and a host of others, dead and living, served their practiceship as regimental staff officers and were promoted for special fitness to the departments

This is "post mortem" to a large extent it is true, but it is also true that regimental commanders should not be restricted in their selection of specially fit regimental staff officers. Query.—Have the old men of the Army no rights that the youngsters are bound to respect?

A. M.

THE STATE TROOPS.

THE VETERANS OF THE SEVENTH N. Y.

THE Board of Officers of the 7th N. Y. have recently issued a report on the subject of the status of the Seventh Regiment Veteran Association, presented by a committee consisting of Lieut. Col. Geo. Moore Smith, Capts. Abrams, Appleton, Rhoads and Conover, and Lieuts. D. A. Nesbitt and Chas. E. Lydecker. It reviews the history of the controversy with the Veteran Association, commencing with the passage of the following resolutions in 1884 and 1885:

Resolved, That the Board of Officers of the 7th Regiment, N. G. S. N. Y., disapproves of the use of military titles by those who do not hold or who have not held lawful commissions of the grade or rank indicated by such titles; and disapproves of the wearing of military uniforms by those who are not in the military service of the United States or the several States, or who are not veterans of the late war; and disapproves of the use of the name and numerical designation of this regiment by any other uniformed corps.

Resolved, That the Board of Officers of the 7th Regiment, N. G. S. N. Y., respectfully requests the Veteran Association and its uniformed battalion to discontinue the use of military titles and military uniforms and the insignia of military rank.

In August, 1886, the commandants of the Active and the Veteran organization agreed upon the following settlement:

1. The officers and members of the Veteran Association (except those authorized by act of Congress) will not hereafter wear the insignia of military rank now in use by the National Guard and the U. S. Army.

2. The military titles now in use by the field and company officers in the National Guard and the U. S. Army will not hereafter be used by the officers of the Veteran Association (except as far as required by the enactment establishing a Benevolent Fund in the Veteran Association), and such other titles as may be selected by the association shall be hereafter used by its officers.

3. The objections to the use of such uniforms or parts of uniforms as the Veteran Association may prefer are withdrawn, provided such uniform is not similar to that worn by the National Guard, S. N. Y.

The Committee of the Veterans accepted the last article, which represented the concession granted by the Actives, and rejected the first two which embodied the concessions expected from them. This they did on the assumption that they fell within the class of Independent Military Organizations recognized by Sec. 75 of the Military Code. The question as to the validity of this claim was submitted to J. A. General H. C. King, who decided emphatically against it, as a matter of law, in an elaborate opinion dated May 17, 1884. Thereupon the Veterans persuaded the Legislature to pass an act making them a military organization. This act Gov. Cleveland vetoed. Another vigorous effort was made in 1885 to secure the enactment by the Legislature of a law to make the Veteran Association of this regiment a military organization, but without success.

The opinion of the new Judge-Advocate-General, Wm. M. Ivins, being asked, this time by the Lieutenant-Colonel of the 7th, he gave an opinion, equally conclusive with that of Gen. King, against the claims of the Veterans, his conclusions being summed up as follows:

1. That under M. C., 75, the Veterans of the 7th Regiment are not "an independent military organization," and cannot legally be recognized as such. 2. That such organization is not liable to be called on to do military service in case of riot or in other cases when independent military organizations may be called upon to do such service by the Commander-in-Chief. 3. That under M. C., 59, the members of said organization have not the right to wear "any uniform or designation of grade similar to those in use in the National Guard issued under the provisions of the M. C." 4. That said organization has not the power to confer legal military rank or authority on its members.

Gen. King, in his opinion, called attention to the provisions of the code forbidding the parading of non-military organizations with fire-arms, or the wearing of a uniform similar to that worn by the National Guard, and making it a misdemeanor to wear any designation of grade similar to that worn by the Guard.

In their report the committee of the 7th say:

The Veteran Association of the 13th Regiment, N. G., S. N. Y., of Brooklyn, which is distinguished for the high character and standing of its members, adopted a new Constitution Jan. 10, 1887, in which military titles and other military characteristics are discarded, and in which many improvements are introduced which will certainly insure entire harmony in the future between the Association and the regiment. This committee expresses the hope and belief that the time is not distant when the Veteran Association of the 7th Regiment will also divest itself of all *military* characteristics, and thereby forever establish peaceful and harmonious relations between present and former members of the regiment.

THE NEW YORK CAMP.

WITH the advance of the season, the interest manifested by the National Guard with regard to the coming New York Encampment increases. The many inquiries about the matter show that the popularity of the camp is still undiminished. No formal order has as yet been issued from Albany, but the details are fully determined upon and will be officially published at an early date. Present financial conditions admit of only one-half of the Guard being encamped in one season, and, under these circumstances, the following organizations are entitled to a tour this year: The 7th, 9th, 12th, 13th, 22d, 23d, 47th and 71st Regiments, and 14 separate companies. The intention is to give all of them a chance this year, but whether the separate companies will be organized as a provisional regiment or assigned to duty with other regiments has not yet been settled. Either plan will prove satisfactory. This detail includes the best and largest organizations in the State, in marked contrast to last year's detail, and a very successful encampment may be predicted with safety, especially if the principles on which the affair was then conducted will again govern. The highly satisfactory results then obtained with the smallest and least advanced organizations are the best proof of the correctness of the system under which they were managed, and for this reason it is hoped that Adjutant-General Porter will again assume charge of the whole as permanent post commander and keep up last year's strict routine of duty and regulations with regard to unmilitary practices and customs. The tolerance of the latter during several previous seasons put the camp in a false light before the non-military pubic, and the only remedy is the presence of a strong permanent

controlling authority and the application of the same rules to every organization. In this statement we only echo the wishes of every rational and true friend of the National Guard. The tour, one week, is so short, and the expense of the affair so enormous, that every minute devoted to aught but military work is not only a waste of valuable time, but also an injustice to a State which so liberally puts the sinews of war at the disposal of its troops. Let, therefore, the system which has so far proved the only correct one, not be abandoned until a better one has been devised.

With regard to the camp site much valuable work has been accomplished under the direction of Gen. J. M. Varian, Chief of Ordnance. A gain of 300 feet in the width of the parade ground has been made by cutting away the point of rocks at the foot of the bluff at the north of the parade, and the filling in of the ravine on the opposite side. This will obviate the necessity of selecting a different place for locating the tents, and the camp will be pitched as before. This is the most suitable arrangement. Considerable headway has been made in the draining system, which will be completed by the time the camp is. The main sewer will empty in the centre of the Hudson River. The old building for the sinks has been demolished and a new permanent one, for the same purpose, will be erected about the place where formerly the guard tents used to be. It is to be on a brick foundation, with 48 porcelain seats, and will be inside the line of sentries, thus cutting off a very convenient method of surreptitiously leaving the camp. The cesspools at the head of the company streets, which caused so much annoyance and so much need of disinfecting, will be filled up. In their places there will be urinals of the most approved modern pattern and connected with the general sewerage system. A bathhouse will be provided at the dam, of a most substantial nature on a brick foundation with 20 shower baths. The sink accommodations of the officers will be thoroughly modified and in the place of the present makeshift arrangement a substantial building, containing porcelain seats, wash-basins, running water and all other modern conveniences will be substituted. The sink for the General Headquarters will be removed from its present site, near the back entrance of the camp, and transferred to the spot where the hospital tents are located, and thus an eyesore and disagreeable nuisance removed. The grounds are being graded and put in perfect order, and when the proper time arrives New York will present to its soldiery a camp ground which, for natural beauty, healthfulness, cleanliness and comfort and care of those who are to occupy it, has no equal in this world. The excellence of the Subsistence Department is so well known that it is not necessary to refer to it here.

THE NATIONAL MILITIA BILL.

GENERAL BENÉT, Chief of Ordnance, has submitted a number of recommendations to the Secretary of War in regard to the increased allotment of arms and equipments to the militia forces under the new law increasing the appropriation for this purpose from $200,000 to $400,000. One of his suggestions relates to the organization of the District of Columbia militia. He proposes that the senior member of the District Commissioners be designated by the President as a Brigadier General to have entire command of the several companies, which are to be organized upon a basis similar to State Militia; said Commissioner, to bear the same relation to the troops as the Governor of the State to the State Militia. A set of regulations concerning the manner of distribution of arms, etc., accompanies Gen. Benét's recommendations. The new appropriation does not become available until July 1st, according to a recent decision of the 1st Comptroller, so that the Department will have plenty of time to prepare its plans for the apportionment.

A MISTAKE CORRECTED.

THE Brooklyn *Eagle* is responsible for a most unjustifiable slander upon General Brownell, formerly commander of the Fourth New York Brigade, in assuming to identify him with some fellow who was arrested by the police for making a disturbance on the Brooklyn bridge. General Brownell is a dignified and quiet gentleman, and it is difficult to see how any one who knew anything of his character could suppose that he could be guilty of such conduct as that described in the *Eagle*. The *Eagle* in a subsequent issue corrected its mistake and said: "Brooklyn contains no more honored citizen that General Brownell. His leadership in military matters have given him prominence before the public; his ability as a tactician has made his name known from one end of the country to the other; as a disciplinarian he is one of the strictest, and he would be the last man to object to a subordinate carrying out the orders of his superiors."

LADIES WILL HAVE THE MILITIA CALLED OUT.

THE Brooklyn woman suffragists have sent this letter to Gov. Hill:

SIR: At a meeting of the Woman Suffrage Committee it was unanimously resolved, as follows:

"That we request the Governor of New York to recommend that a law be enacted during this session of the Legislature, to protect the women in this State in exercising their right to vote on next election day. During the last election day, we were intimidated, threatened with imprisonment and bodily harm. If the Legislature fails to make a law for our protection we are resolved to demand you to call out the State militia to protect us at the polls, thereby preventing riot and bloodshed." Respectfully,

EMMA BECKWITH, President.

This desire to have our bold militia boys in arms is another illustration of the feminine partiality for uniforms, "J'aime le militaire."

Thirteenth N. Y.—Colonel Edward Fackner.

CAPT. W. L. WATSON, of Co. G, 13th Regt., conceived the idea of having the men forming the field and staff officers during 1878, when Mr. Beecher first became Chaplain, stand guard over the coffin during Thursday night, March 10. At that time David E. Austen was Colonel, Gen. Christensen was Lieutenant-Colonel, Gen. Horatio C. King was Major, and Major J. F. Ackerman was Inspector of Rifle Practice. Col. Austen suggested the sending of a telegram to Gov. Hill asking that the order of arrest be so modified as to permit Major Ackerman to join with his fellow-officers in this last mark of respect to the dead. The telegram was sent and this answer was received:

Col. David E. Austen:

Your telegram to Gov. Hill should have been sent to me. Major Ackerman may apply for permission to Col. Fackner, and if he consents in writing there is no objection here.

JOSIAH PORTER, Adjutant-General.

Col. Austen should know something of military usage, by which the National Guard is governed. What would he think of a similar request sent direct to the President on behalf of an officer of the Regular Army under like circumstances?

The Court appointed for the trial of Privates Marlbro Walker, George A. Wilson, and James F. Knudson, of Co. H, 13th Regt., on charges preferred by Captain Charles P. Kretschmar, commenced work March 11 at Brigade Headquarters. All the members of the Court were on hand. The counsel for the accused is 1st Lieut. W. H. A. Cochran, Co. K, 13th. The charges are the same against all the men, and are in substance as follows—that they signed a paper and voted for the resignation of their captain, and also that they removed the lock from the company room.

MILITIA ITEMS.

The 47th New York will celebrate its 25th anniversary at the armory on Tuesday evening, March 29, by a full dress reception. General Jesse C. Smith will present the long service medals on the occasion. Under the careful, common sense management of Colonel Gaylor the regiment has made considerable advance in the direction of perfection, especially since the beginning of the present season, and a superior exhibition may therefore be expected.

$1,395 have been contributed at last accounts to the Gettysburg Battlefield Monument of the 9th N. Y. Cornelius Vanderbilt, Julius Wadsworth, J. Fahnestock, James Scott, N. L. Hermance, Thos. W. Thorn, and John Hendrickson each contributed $100 and 42 others from $5 to $25 each.

The bill providing for the taking of sites for armories under the law of eminent domain now before the New York Legislature has been approved by the city authorities.

Instruction in the school of the battery mounted was given to the men of the 2d Battery at the Armory on Thursday evening of last week. A series of mounted drills will take place at Durland's Riding Academy this month. Two names were added to the roll on Thursday evening, after which the Glee Club gave an entertainment which terminated with a duet by Captain Ferdinand P. Earle and Professor Melvin. An adjournment was then taken to Griffith's restaurant where a merry time was had. Another took place last Tuesday evening and the non-commissioned officers will meet on Thursday nights hereafter. The recruits will be instructed on Wednesday evenings.

The Easter Athletic games of Company K, 13th N. Y., for the benefit of the Seaside Home for children is a very worthy effort in aid of charity. The games will be held at the armory, Flatbush avenue, Brooklyn, April 13, under the auspices of a distinguished committee, among whom are Mayor Whitney, Gen. J. B. Woodward, Gen. R. C. Ward, and Gen. S. L. Woodford. Besides the various athletic events on the programme, the Games Committee have secured the services of some of the foremost athletes and gymnasts for the occasion, who will give various fancy and skillful exhibitions during the evening. There will be dancing immediately after the games.

The officers of Co. G, 23d Regiment N. Y. (Brooklyn's crack regiment), have offered $100 to the member of the company who brings in not less than five recruits by July 1, 1887.

Col. Fincke, commanding 23d Regt., announces that the regimental chaplain will deliver his annual sermon Sunday, March 27, at St. Luke's Church, Brooklyn, at 5 P. M. The regiment will, therefore, assemble at the armory in full uniform, with overcoats and fatigue cap, at 4.15 P. M., March 27.

PENNSYLVANIA NATIONAL GUARD.

A BILL is now before the Pennsylvania Legislature to permit cities to appropriate $500 per annum to each company of militia within the corporate limits. The amount required to comply with the bill in Philadelphia will be $17,500.

New York City, with a military force of 5,000 men, appropriates each year $112,750, Brooklyn gives her troops $60,250, Boston, with 1,350 soldiers, $27,000. Cincinnati, 600 men, $6,000, and the county gives $100,000 additional. Baltimore and Milwaukee have respectively 800 and 400 men, but make no appropriation. Milwaukee's troops receive $3,000 from the State. In St. Louis all the troops have disbanded, owing to the failure of the authorities to make provision for them. Philadelphia, the second city in the Union, has 2,500 soldiers and allows fuel and gas amounting to $3,000 per annum, a little over one dollar per man.

The 1st Regiment, N. G. P., will hold their spring athletic games at their armory, Philadelphia, Pa., April 16. The following are the events: 220 yards dash, open, handicap; tug of war, open, lim., four men, 650 lbs.; one mile run, open, handicap; 440 yards dash, open to 1st Brigade N. G. P.; running high jump, open, handicap; one mile walk, open, handicap; ½ mile run, handicap; hurdle race, open, to 1st Regiment, six hurdles, one lap; special contest of broad sword v. bayonet. First prize in broad sword and bayonet. Tug of War, gold medal for each man in winning Team. All other events, first prize, gold medal; second prize, silver medal.

VERMONT NATIONAL GUARD.

THE fifth annual school of officers in session at Brattleboro for two days, closed March 10. The school has been the largest attended and most successful of any ever held, nearly every commissioned officer of the National Guard being present. Gen. W. L. Greenleaf, brigade commander, presided. Col. Julius J. Estey was instructor in infantry tactics; Lieut. Col. C. C. Kinsman, instructor in guard duty and ceremonies; Major George H. Bond, instructor in skirmish drill and ceremonies; Capt. Levi K. Fuller, instructor in artillery tactics. Gen. Greenleaf read a paper at the opening session, stating the object of the school and the results which should be attained from the course of instruction followed. The first day was mainly devoted to the exemplification of the manual of arms and the field movements incident to company formations and guard mount. In the evening the Estey Guard, under the command of Capt. F. W. Childs, gave an exhibition drill at the rink. A paper was read by Gen. Greenleaf on the future of the National Guard of the country. A banquet complimentary to the Governor and visiting officers was given by Col. Estey at the Brooks House. The school closed with a course of instruction in skirmish drill and manual of arms. Surg. J. C. Rutherford, of the 1st Regt., read a paper on hygiene in camp life and the care of the sick and wounded.

At the banquet speeches were made by Gov. Ormsbee, Adjt. Gen. Peck, Col. Mansur, Gen. Greenleaf, Rev. F. J. Parry, Dr. Holton, Lieut. Gov. Fuller and Col. Hooker.

NEW JERSEY.

In G. O. 4 of March 11, Col. Dickinson directs the 4th Regiment to parade in State service uniform (helmets and white gloves) March 22, for the purpose of an official visit by the general commanding the brigade. Col. Dickinson evidently means business, for he says in his order "every enlisted man not present on this occasion will be tried by regimental court-martial."

MISSOURI.

A St. Louis despatch says: A few companies may possibly survive the withdrawal of the State's maintenance from its militia, but it is a great blow to perfect and thorough military organization. There is only one element who appeared to be satisfied: the socialists who have demanded from the first day of their organization in St. Louis and elsewhere that the forces organized for the defence of law and order be disbanded.

CALIFORNIA NATIONAL GUARD.

COL. JOHN T. CUTTING, 2d Artillery, has returned from a long absence and resumed command of his regiment.

An article on the surrender of Fort Donelson, which is to appear in the *Southern Bivouac* for April, throws some light on the dissensions which prevailed among the Confederate generals at that post.

ANSWERS TO CORRESPONDENTS.

F. J. C.—See JOURNAL of last week (March 12) for full information as to warships to be built, repaired, etc.

H. H.—Members of General Courts-martial should sit in full uniform; the accused in full uniform without side arms.

Union Soldier.—Neither the Secretary of War nor the Lieutenant-General favor the transfer of enlisted men from the line of the Army to the Signal Corps.

P. B.—If you will call at the JOURNAL office any week day between 4 and 5 P.M., you will be given full information on subject of enlistment in the Army, prospects of promotion, etc.

C. H. asks: A man having served three years in the Navy enlists in the Army within thirty days, is he entitled to re-enlistment pay, after having served two years in the Army? ANS.—No. Had the first service been in the Marine Corps the case would be different.

Marine.—The salute in sentry box in rainy weather would be the coming from place rest to order arms. Soldiers are not *entitled* to furloughs. They are given as privileges, contingent upon good behavior, and service. It is customary to give a soldier on re-enlisting a furlough of from two to four months if he applies for it.

Continental.—The oldest biography of General Israel Putnam is that written by one of his aides, General Daniel Humphreys (New York, 1790), another is Sparks' American Biography, Vol. 11. The most recent is that of Increase N. Tarbox, published by Lockwood, Brooks and Co., Boston. This last we should recommend. It corrects some popular traditions of Bunker Hill, of which it makes Putnam the hero.

Subscriber asks: 1. What is the substance of the Presidential Succession bill passed in 1886? ANS.—It provides that in the event of the death or disability of the Vice-President as well as the President, the succession shall fall to members of the Cabinet in order, commencing with the Secretary of State.

2. Can you give addresses of Generals John C. Fremont and Montgomery Blair? ANS.—J. C. Fremont, Washington, D. C.; Montgomery Blair died several years ago.

Wisconsin.—Kilburn Knox, of Pennsylvania, was appointed 1st lieutenant 13th U. S. Infantry May 14, 1861; promoted captain May 14, 1864; transferred to 22d U. S. Inf. Sept. 21, 1866, and resigned April 1, 1869. He was brevetted major July 22, 1864, for gallantry at Atlanta, and lieutenant colonel March 13, 1865, for faithful and meritorious service. We know of no paper published in New York City devoted entirely to the interests of the National Guard of the State. The sphere of the ARMY AND NAVY JOURNAL includes not only this but the National Guard throughout the entire United States.

J. H. asks: At guard mount the band has made its first wheel to the left passing in review. Does the adjutant give the command column left, march, or does he not? Please answer to decide a bet. Some hold that no command is given by the adjutant, but I am under the impression that par. 261, Upton's Tactics, must be considered as ruling, nothing being laid down in Tactics for guard mount which will cover the case. ANS.—There is something laid down about this in Tactics for guard mounting, and that is the remark on page 367 that the guard "marches . . according to the principles of review." These principles are laid down on page 355, and direct that the column changes direction without command from the colonel at the points indicated. Par. 251 refers to platoon drill.

Pennsylvania asks: In guard mounting, at the command "(1) officers and non-com. officers to the front and centre, (2) march," do the non-com. officers pass between the left of the guard and the sergeant major, or pass beyond him? ANS.—Between the guard and the sergeant major.

2. When the sergeant major takes his position three yards to the left of front rank, does he pass one yard to the rear of the line, face about and dress up to the line (the same as 1st sergeants taking their posts), or does he face about on the line? ANS.—Tactics don't specify about this. The best way is to march to the rear before facing about, and this is the method generally used.

3. On dress parade, when the ranks are opened and the officers brought to the front, do the field officers march direct to the front twelve yards and turn respectively to the left and right until they get opposite the centre of their wings, or pass along the front of line officers until opposite the centre of their wings and then face to the right and left and move to the front their proper distance? ANS.—According to par. 383 the distance of the field officers at open order is nine yards and not twelve yards in front of the front rank. As to their method of marching to the front we have given our views in "Answers to Correspondents" to G. M. S. in issue of Feb. 19, page 600, to which you are referred.

Military Order of the Loyal Legion.

At a meeting of the Massachusetts Commandery, held at Boston March 2, the following were elected: Mr. Alfred Brooks Fry; General H. Rogers, U. S. V., and W. B. Sears, Jr. Major J. G. Turnbull, U. S. A., has been transferred from this commandery to that of the District of Columbia.

The total membership of the Order Feb. 1, 1887, was 4,160 distributed as follows: Pennsylvania, 562; New York, 557; Maine, 71; Massachusetts, 607; California, 512; Wisconsin, 146; Illinois, 261; District of Columbia, 367; Ohio, 441; Michigan, 126; Minnesota, 125; Oregon, 40; Missouri, 119; Nebraska, 85; Kansas, 105; Iowa, 36.

THE 111-TON GUN.

THE third series of firing experimental charges was carried out on Wednesday at the butts of the Royal Arsenal at Woolwich, under the direction of Col. Maitland, R. A., Superintendent of Gun Factories. The heaviest charge as yet fired was endured by the gun and its fittings without the slightest injury, and gave admirable results, both in velocity of projectile and lowness of gas pressure within the chamber of the gun. The first round fired was with 850 lbs. of German prismatic powder of the like nature as the powder fired on previous occasions, but from a different maker. The velocity attained by the shot was 2,142 ft. per second, the gas pressure 19½ tons on the square inch of the chamber, which is 8 ft. 3 in. long. The second round was with prismatic powder specially made at Waltham Abbey for this gun. The weight of the charge was 960 lbs., the velocity of the projectile was 2,104 ft. per second, and the gas pressure only 15.7 tons—a very remarkable result, showing that the mode of reducing the speed of combustion under the new system is now thoroughly well understood at the Government works. The third round was with 850 lbs. of the same powder at the first round, the results being: velocity of shot (1,800 lbs. weight) 2,149 ft. and gas pressure 19.9 tons. The extraordinary high velocities attained by the projectiles and the confining of the gases generated within such low pressures—which might probably be safely raised to 30 tons without exerting undue strain on the gun—are exceedingly satisfactory features in the practice so far carried out.—*Admiralty Gazette.*

DISCIPLINE IN THE FRENCH ARMY.

IN an article on discipline in the French Army, the *St. James's Gazette* says: "The supreme punishment of the French soldier for a serious breach of discipline is death even in time of peace. If he strikes an officer, for instance, he is liable to be shot. In time of war the death penalty is carried out for much lighter offences; for the French law only recognizes this form of corporal punishment in the case of a soldier. But as regards military life in barracks, three kinds of disciplinary procedure are employed as a check upon common offences. The lightest is called the *consigne*. The man placed *à la consigne* is merely kept in quarters while his companions are enjoying their freedom. The next penalty is that of the *salle de police*, where the culprit is locked up from five or six o'clock in the evening until the *réveil* the next morning. The same discipline may be repeated one or more nights. Lastly there is the prison, where the unruly soldier is kept day and night.

HOTCHKISS'S ORDNANCE COMPANY.

HOW MUCH more liberally American inventors are treated abroad than at home is shown by the experience of Messrs. Hotchkiss and Co., the head of which house, Mr. B. B. Hotchkiss, died in February, 1885. From a prospectus issued for the purpose of organizing this establishment into a limited liability company it appears that their earnings for the past three years have been as follows: 1884, $499,616; 1885, $816,465; 1886, $926,392. Nearly a million dollars in the last year. The concern is henceforth to be known as the Hotchkiss Ordnance Co., Limited. Its share capital is $4,000,000, divided into 45,000 ordinary shares of $50 each and 35,000 seven per cent. cumulative preference shares of $50 each. In addition to this there are $1,500,000 in 5 per cent. mortgage debentures of $500 each, secured by a first charge upon the undertaking, redeemable at the price of $550, by annual cumulative drawings, commencing Jan. 1, 1888, the redemption being thus effected in fifteen years. The first payment of interest will be made on July 1, on the amounts as paid up. Of the above, $300,000 in debentures, 1,500 preference shares, and 1,500 ordinary shares have been allotted at par as fully paid-up to the Managing Directors, who agree to take them in part payment of the purchase money. 5,500 ordinary shares have been subscribed for and allotted to the vendor at par.

The business has been taken over from the vendor as a going concern, as from Jan. 1, 1887, from which date the company is entitled to all the profits. The orders now in hand indicate an increase of business over that of the last two years, and further extensive contracts are being negotiated. The Managing Directors—Messrs. Favarger, Koerner, and De Latouche—who so successfully conducted the business with Mr. Hotchkiss until his death, and since then alone, have entered into a contract to remain with the company, and to give their exclusive services to its management for a period of fifteen years, terminable after five or ten years. Should the period be so determined, the Managing Directors are still precluded from engaging in any similar business for the residue of years up to fifteen years. After a dividend of 15 per cent. has been paid to the ordinary shareholders, the said Managing Directors will become entitled to one-tenth of surplus net profits.

The works of the company are at St. Denis, near Paris, where a factory employing from 700 to 800 hands is in full operation. Orders received from the British Government are executed by Armstrong and Co., and those for Germany by the Gruson-Werk, and negotiations of a like nature with other Governments are now in progress, rendering the business an international one, and modifying the effect of any edict prohibiting the export of war material in time of war.

The business is a monument to the genius, industry and capacity for organization of that typical American, the late B. B. Hotchkiss.

FOREIGN ITEMS.

OVER 5,000 deserters and fraudulent enlisters were reported in the British Army in 1886.

AS SOON as the guns can be provided it is intended to increase the armaments of the Spithead forts by the addition of the new English 45-ton breech-loaders.

ACCORDING to the *Moniteur de l'Armée* (Paris), the Austrian Uhlans are about to be armed with a new weapon of special construction, called the Hungarian lance.

IT has been decided that, with a view to encourage officers of the English militia to go through the Hythe, course of musketry, all those who pass or have passed shall be indicated in the *Army List* by a capital H.

GENERAL BOULANGER has decreed that in future no officer in the army shall be allowed to have in his service any foreigner of either sex. The decree is due to the fact that the governess of Gen. Davoust's children has been discovered to be the wife of a Prussian officer quartered at Neuf Brisach.

DURING the quarterly target practice a premature discharge of one of H. M. S. *Ajax's* turret guns occurred. The shot struck the shore in the neighborhood of Innellan, Firth of Clyde, damaging the houses and grounds of Messrs. Patton and Henderson, and injuring a plumber and a servant girl.

A LADY, who had only arrived at Cannes the night before the earthquake, gave orders to be called at 6 A. M., and when she was precipitated on to the floor at that time she thought that it was some new invention by which people were aroused without the bother of the chambermaid coming into the room.

A SCORE of corporals from the Joinville Training School went through their evolutions before Gen. Boulanger mounted on velocipedes, the bicyclists representing the light, the tricyclists the heavy cavalry. The Minister has decided to have a certain proportion of the men in the infantry regiments trained to the use of the velocipede, for the transmission of orders and the interchange of communications between the different divisions of an army, leaving all the horses of the force available for the work in which their services are indispensable.

SOME military critics who, having seen German troops at drill with the magazine rifle, have come to the conclusion that the details of its manipulation are difficult to learn, and that even old soldiers find it an exceedingly awkward weapon to handle. The breech-action is said to get out of order, and in fact to "jam," when small particles of grit, sand, or fouling clog the mechanism. After the magazine has been emptied it takes nearly a quarter of a minute to refill, and the method of loading is by no means perfect, especially when the fingers of men are benumbed with cold.

THE German "Official Gazette" publishes the Army bill. The arrangements to put it into action on April 1 are completed. New battalions will be formed as fourth battalions in existing regiments. Four new railway companies will also be formed—two Prussian, one Saxon and one Wurtemberg. They will constitute the third battalion of the Berlin Railway Regiment. The new pioneers form the fifth company in the pioneer battalion of the guards. The act, when in full working order, practically increases the army by 170,000 men. It is reported that the deficit will be met by a loan, Bismarck's comprehensive scheme to reform taxation being reserved for the autumn session.

IT is proposed to mount 12-in., 45-ton guns in every alternate port on both the upper and lower tiers of the Spithead forts, and the total number of guns that will be necessary to arm the forts in this manner is 38.

A MELINITE shell which exploded at the Belfort (France) Arsenal a few days ago, killing six men and injured eleven others, was lying on the ground unplugged, and the melinite in the shell ignited without apparent cause.

THE Bavarian Rifle Factory at Hamburg is reported to be working in feverish haste. Every week it turns out the repeating rifles for one regiment on the war effective. In eight weeks the whole of the Bavarian Army Corps will be equipped with the new weapon.

GEN. PONTUS, the Belgian Minister of War, in presenting plans for the erection of new forts at Liege and Namur, said the forces at his disposal were amply sufficient. For the field the army comprised 65,000 men, and the garrisons of 25,000 men at Antwerp, 12,000 at Liege and Namur and 28,000 distributed elsewhere.

THE valuable prizes offered by the Russian Government for the best type of swift, light draught, armor clad, specially adapted for service in the Black Sea, have been awarded to Captain Ratnik, of the Russian Navy, and Messrs. Leontieff, shipbuilders, of Odessa. No English firm appears to have competed.

MESSRS. NAPIER AND SONS, of Glasgow, have just shipped the largest set of triple-expansion engines yet constructed for a man-of-war. They are of 12,000 collective horse-power, and are intended for the Russian ironclad *Sinope*, now building at Sebastapol. They have also completed three sets of 2,000 horse-power for gunboats building at Nicolaieff.

HERR SCHOEFFER, Professor of Political Economy, Vienna, has published a pamphlet to show what a war with France would cost Germany—16 millards of marks, or shillings. In case of a defeat or check of the Imperial troops it would be necessary to raise a loan which would, at 4 per cent., involve the annual payment of 640,000,000 marks. Were confidence in the paying power of Germany shaken, the yearly interest would range from 800,000,000 marks to one milliard.

THE activity with which war preparations are being pushed forward throughout Austria bears a significance which none but the most indifferent can afford to disregard. The garrisons of Vienna and of the chief fortresses throughout the Empire last week commenced practice in shooting with their new Mannlicher repeating rifles, with which the troops in Vienna are now completely provided. Officers of the army throughout Austria and Hungary, both those on active service and those in the Reserve, have received orders to complete their equipment, so as, if required, to be ready to march at 24 hours' notice. Cavalry continues without interruption to pour into Galicia from various garrisons.

IN answer to the charge of John Bright that wounded Arabs were bayoneted at Abu-Klea by British soldiers, the war correspondent of the *Daily News* says: "The Arabs neither gave nor accepted quarter, and often feigned death in order to have a chance of thrusting their keen knives into one of our men. I went out while the square was reforming with some 'Heavies' to search for the body of an officer whom I knew well. While thus engaged nearly every one of us had several narrow escapes of being stabbed by Arabs who let us pass their apparently lifeless forms, and then sprang up suddenly, spear or sword in hand. Directly one of our men saw a dusky form began to move, he knew perfectly well that it was a question which should strike first, and naturally he fired a snap shot or used his bayonet in self-defence."

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

SEEDS at SPECIAL RATES to MILITARY POSTS. D. M. FERRY & CO., Detroit, Mich.

THE British War Office has made arrangements for the transportation from Canada to London during the coming season of 3,000 horses for artillery trains.

ALTHOUGH the "Cercle National Militaire," the club at Paris, founded upon the inspiration of General Boulanger, on similar lines to the associations of naval and military officers in London, already counts 6,810 members, who have subscribed some 150,000 fr. between them, the enterprise has to contend against a fast failing exchequer. A round subsidy from the Government has also appeared insufficient to release the club from financial troubles, caused by ignorant management, and all the hotel, restaurant, and café tactics of the Boulevards appear to have failed to entice the proper patronage to keep alive an institution of the kind first contemplated by the energetic head of the French Army.

12,000 WERE discharged from the English Army last year.

THE *Progrès Militaire* (Paris) states that the Russian railway troops are henceforth to consist of a separate and independent brigade. The brigade will be under the command of Major-General Prince Toumanov, late colonel commanding the 1st battalion of Caucasian Sappers.

MUCH time and money have been expended in the endeavor to produce flour retaining the life-giving and nutritive elements of wheat, nearly free as practicable from starch, and entirely without bran. Such preparations—called Gluten Flour—are advertised in the JOURNAL this week by Farwell and Rhines, of Watertown, N. Y., as of special value as food for Diabetics and Dyspeptics, and sufferers from Nervous Debility.

A PROMPT AND PLEASING WAY OF EASING Asthmatic Wheezing. Use HALE'S HONEY OF HORSHOUND AND TAR. PIKE'S TOOTHACHE DROPS Cure in one Minute.

PROBABLY more capital is now employed in the manufacture of "Tansill's Punch" 5c. Cigar than in any other such goods the world ever produced.

We recommend "Tansill's Punch" 5c. Cigar.

Down in a coal mine, underneath the ground, "Tansill's Punch" 5c. Cigar is just as fine as on the highest mountain peak.

CITIZEN SOLDIERS and Marines, cheerfully bear testimony to the value of BENSON'S CAPCINE PLASTERS as a local stimulant and counterirritant of greatest possible merit. For

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL, 20 Nassau St., New York.

Proposals for Lamp Chimneys.

DEPOT QUARTERMASTER'S OFFICE, HOUSTON ST., CORNER GREENE, NEW YORK CITY, March 16, 1887.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., April 18, 1887, at which time and place they will be opened in presence of bidders, for furnishing and delivering at this depot, free of charge for cartage and packages, 100,000 best annealed flint glass lamp chimneys, polished ends, of size and pattern to be seen at this depot.

Proposals must give price "in bond" and "duty paid," be accompanied by samples, delivery to be made July 1, 1887, or soon thereafter.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked "Proposals for Lamp Chimneys," and addressed to the undersigned.

HENRY C. HODGES, Lieut.-Colonel and Deputy Q. M. General, Depot Quartermaster.

AN EXTRAORDINARY RAZOR. HAS BEEN INVENTED BY THE QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied: sent by mail 10c. extra or C. O. D.

"HOME EXERCISER" *for Brain-Workers and Sedentary People.* Gentlemen, Ladies, and Youths, the Athlete or Invalid. A complete gymnasium. Takes up but 6 inches square floor-room; something new, scientific, durable, comprehensive, cheap. Send for circular. "HOME SCHOOLS FOR PHYSICAL CULTURE," 16 East 14th St. and 713 5th Ave., N. Y. City. Prof. D. L. DOWD. Wm. Blaikie, author of "How to Get Strong," says of it: "I never saw any other I liked half as well."

PROPOSALS FOR RATIONS, FUEL, AND MILITARY SUPPLIES.

HEADQUARTERS U. S. MARINE CORPS, QUARTERMASTER'S OFFICE, WASHINGTON, D. C., March 8, 1887.

SEALED PROPOSALS, in duplicate, will be received at this office until 12 o'clock M. of the 31 day of May next for furnishing RATIONS, and until 12 o'clock M. of the 4th May, for furnishing FUEL, to the United States Marines, at one or more of the following stations, from the 1st July, 1887, to the 30th June, 1888, viz.: Portsmouth, N. H.; Charlestown, Mass.; Brooklyn, N. Y.; Philadelphia and League Island, Pa.; Annapolis, Md.; Washington, D. C.; Norfolk, Va.; Pensacola, Fla., and Mare Island, Cal.

Specifications and blank proposals can be obtained upon application at any of the stations named above, or at the office of the Quartermaster, Washington, D.C., and Assistant Quartermasters, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal.

Sealed proposals will also be received at this office until 12 o'clock M. of the 5th day of May next for furnishing SUPPLIES, consisting of Cloths, Kerseys, Flannels, Blankets, Hats, Helmets, Military Stores, Brooms, Brushes, Axes, etc., to be delivered at the office of the Assistant Quartermaster, Philadelphia, Pa., free of expense to the United States.

Schedules, with specifications of the supplies required, can be obtained, and the standard samples seen, at the offices of the Quartermaster, Washington, D. C., Assistant Quartermasters' offices, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal., and at the Marine Barracks, Brooklyn, N. Y., and Boston, Mass.

Blank forms of proposals and all information can be had by applying at any of the places named above.

This office reserves the right to reject any and all bids and to waive defects; and bids from manufacturers in, or regular dealers of, supplies only will be considered.

Proposals may be made for one or more articles, deliverable at one or more stations, and will be considered separately for each article and place of delivery. They should be indorsed "Proposals for Rations, Fuel, or Military Supplies," as the case may be, and addressed to Major H. B. Lowry, Quartermaster U. S. Marine Corps, Washington, D. C.

A FEW OPINIONS OF THE OFFICERS' AND COMPANY MESS CHESTS.

THE SHURLY MFG. CO., CHICAGO, ILL.

GENTLEMEN,—I have examined your Company Mess Chest, and consider it one of the very best things of the kind I have ever used. It is strong, compact, easily handled, and the ware it contains of excellent material, particularly adapted for service in the field. Yours truly,

CHAS. G. BARTLETT, Lt. Col. First Infantry

THE SHURLY MFG. CO., CHICAGO, ILL. SIRS,—Having examined carefully your patent Mess Chest and field furniture, I take great pleasure in testifying to its excellence. The plates and dishes present the clean, wholesome appearance of delf ware, while at the same time it has all the durability of granite. Its arrangement in the chest is neat, and taken as a whole, it is the most desirable company outfit that I ever saw. Very respectfully your obedient servant,

WILLIAM QUINTON, Capt. 7th U. S. Infantry

The following is from Lieut. Hugh T, Reed, U. S. Army, author of "Military Science and Tactics," "Abridged Upton's Tactics," etc:

DEAR SIRS: Your Army Mess Chests are very complete. Bachelor officers and companions can save money by using them in garrison as well as in the field. They are also well adapted for the militia in camp.

LIEUT. HUGH T. REED, U. S. A.

THE SHURLY MFG., CO. CHICAGO,, ILL.

GENTLEMEN,—I have examined the cut of your Company Mess Chest, and I believe it will prove to be very popular indeed. It promises to be the best thing of its kind I have ever seen, and I believe it will at once find its way into general use in the army, where something of its kind has been so long needed.

Yours respectfully, F. K. UPHAM, Capt. 1st Calvary.

THE SHURLY MFG. CO., CHICAGO, ILL.

GENTLEMEN,—Having carefully examined your Officers' Mess Chest, as also your Company Mess Chest, designed especially for field use, I take pleasure in recommending them to the officers of the National Guard as particularly adapted to their use, as stated by officers in the U. S. Army who have used them. The chests are light, compact, durable, and complete, The quality of ware and the arrangement of the chest is such that when laid aside from last encampment and brought out again will be found ready for the next, thus especially fitting them for use of the National Guards.

Very respectfully, C, S, BENTLEY, Brig, Gen, Com'dg 2d Brigade Iowa N, G,

I have examined the Chest referred to and cheerfully concur in the above opinions of its merits,

INO. F SMITH, Col,, and Brevet Maj. Gen, U. S. A. (Retired)

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
For prices and other information please address

CEASE FIRING!

Or, Lance Corporal Mulcahey's Lament.

An' have ye's heard the news, avick!
That's published to the Army?
If not, just listhen thin to me,
An' sure it is no blarney.

The morning and the avening gun
No longer nade be polished.
For at Rethrate and Reveille
The firing is abolished.

An' why is this, ye'd loike to know?
Begorra, thin, ask loudher.
The ammunition's given out,
An' sure there is no powdher,

'Tis said the Ordnance is to blame,
An' that it's there the fuss is;
But thats to hindher Uncle Sam
From using the surpluses?

It's hard enough to get up now,
In silence, its exartion.
Lance Corporal Mulcahey says
It's just cause for desartion.

In time of war 'twas very well
To pass the worrud, "sais firing!"
But in this piping time of pace,
There's none of us expiring.

An' if the Army's running down,
As some claim by the figers,
Before they banish fife and dhrum,
Sure, musther out the nagers.

An' pay us twice in sixty days,
An' give us *all* our ration,
As only would half dacent be
For this pecunious nation.

For, sure, it's growing worse an' worse,
It's not for this ye's hire us,
An' kape us four nights out of bed,
An'—whin we're dead—retire us.

An', musha, if we lave behind,
A colleen to be pinsioned,
To prove it's ours is hard, indade,
For marriage don't be mintioned.

JAMES W. DIXON.

A "STATION LIST of officers of the Medical Department," dated March 1, 1887, comes to hand this week, and being somewhat of a rarity, is highly acceptable.

AN officer of the Pay Department writes: "I am glad the JOURNAL is taking up the subject of more frequent payments to the Army. I believe in it, and so do the great majority."

THE Army and Navy General Hospital at Hot Springs, Ark., is filling up with officers and enlisted men, whose physical condition requires the special treatment there to be had. The institution is proving a boon to the Service.

WE are glad to notice the assembling of Boards of Officers at several points "to make a preliminary examination into the claims and qualifications of non commissioned officers, candidates for promotion," and wish the aspirants success.

NOW that Senator COCKRELL has entered vigorously upon the work of inquiring into the method of conducting business in the different departments of the Government, we again call attention to the great need of having an assistants to the Secretaries of War and Navy. It is well known to everybody who has dealings with those two departments, that the Secretaries named have not the time to give proper consideration to many important matters that are brought to their attention daily. At no time will the need of an assistant secretary of the Navy be more urgently felt than during the coming year, when the head of the Department will have his, already multifarious, duties doubled by the work connected with the rehabilitation of the Navy. Mr. COCKRELL will do well to inquire into this and in his summing up of the results of his investigation consider the fact that the Secretary of State and the Postmaster General have three assistants each; the Secretaries of the Treasury and the Interior and the Attorney General two each.

ONE of the busiest, as well as one of the most anxious men in Washington, is Captain SICARD of the Naval Ordnance Bureau: busy with the duties of the important bureau under his charge; anxious because in the face of so much criticism of the ordnance methods sanctioned by his authority the failure, even though but a partial one, of a gun turned out by the Washington ordnance yard, would be held up as a condemnation of the system adopted While affecting entire confidence in the result, it is known that much solicitude is felt as to the success of the guns lately sent to the proving ground at Annapolis. Of course it is earnestly hoped that our guns will come through all reasonable trials with safety and credit, but no one will be surprised if with English metal, English proportions, and English methods, English experience should be duplicated. It is not to be presumed that merely assembling the different parts of a gun on American soil is going to confer that American superiority which is claimed, and often justly, for everything produced under the ægis of the American eagle. The wisest position, then, for the well-wishers of our navy to take, in respect to ordnance, is that our guns are at least as good as those of other nations, while they wait patiently for proof of their superiority, which, it is submitted, has not been demonstrated.

THAT even Congressional engrossing clerks are not infallible will be made painfully manifest to the official in the Treasury Department charged with the duty of construing the various portions of the naval appropriation bill, recently enacted into law. What will be the outcome of the following paragraph remains to be seen: "Contingent, marine corps . . furniture for Government horses and repair of same." The word intended is, of course, houses. This funny error of a word in so important a matter as a law of Congress, is, however, more than paralleled in so solemn visaged a volume as the "U. S. Navy Regulations" for 1876, which reproduces the experience of the "breeches bible." On page 110, paragraph 14, will be found the following as among the duties of the first lieutenant. . . . "In all officers' messes, the aids, or executive officer . . . shall, as the officer charged with the police of the ship, have the power to interfere at any time to prevent disorder or unrestrained breeches of decorum." It is said that during the compilation of this "blue book," the above error was noted, and marked more than once, but the printer, having no doubt his own ideas as to naval uniform, and realizing the importance to an officer of having his "breeches" restrained, succeeded, in eluding the proof-reader, and *breeches* it has remained ever since. Verily the printer is mighty and shall prevail.

A HITCH has occurred between the Secretary of War and the Lieutenant General of the Army over the appointment, as regimental adjutants and quartermasters, of lieutenants of artillery who are serving a tour with light batteries. When the order was first issued, limiting the term of service of the regimental staff to four years, some of the artillery commanders made inquiry of the Department as to whether or not lieutenants serving a tour of light battery service were eligible for appointment to the staff positions. The Lieutenant General directed the colonels to go ahead and make their nominations, and he would then announce his decision. Several light battery lieutenants were nominated and, after some delay, their appointments were approved by the Lieutenant General. Since the Secretary of War's return to Washington he has revoked all of these appointments, leaving several of the artillery regiments temporarily without staff officers. Here the matter stands, and will so remain until the Lieutenant General returns to Washington, when some brisk correspondence between the Secretary, Lieutenant General and some of the artillery commanders may be looked for. It is expected that the four year rule will be applied to four officers of the Pay Department, who have been at their present stations several months beyond the allotted time, as soon as the new mileage fund becomes available.

THE officers of our Army are subjected to unusual inconveniences in the matter of fire insurance, as they are controlled by conditions which do not apply to ordinary householders for whose benefit insurance companies are organized. An officer who insures his furniture may be compelled at any moment to vitiate that insurance by removing his household effects to another building at the same post, if not to another station, or to store them in charge of the quartermaster's department while seeking a new residence. The officers at Fort Leavenworth have endeavored to meet these difficulties by organizing the "Army Co-operative Fire Insurance Association." This is in charge of an executive committee consisting of Lieut. A. K. Arnold, 1st Cavalry, as President; Capt. A. MacArthur, Jr., 13th Infantry, Vice President; Lieut. R. G. Hill, 20th Infantry, Secretary and Treasurer, and Capt. C. A. Woodruff, 2d Artillery, and Lieut. F. G. Townsend, 6th Infantry, members. It offers insurances in sums of $400, $800, $1,200, $1,600, and $2,000 at the rate of 37½ cents per hundred. The policies cover the property, so long as it is so situated as to be presumably under the protection of the troops of the United States. Whenever it goes beyond this protection the pro rata proportion of the assessment will be returned. The current expenses are provided for by an entrance fee of $1.50, the members being assessed per capita; in case the expenses should exceed this computation assessments of loss are to be made by a board of three officers selected by the loser. The charge of 37½ cents per hundred is the maximum amount and where this fails to provide a sum sufficient to meet a loss, the pro rata deduction is made in the amount paid on such loss. The number of members belonging to this association on March 1 was 33, the association having been organized on Feb. 7. The expenses thus far, which include extraordinary outlays for organization, have not exceeded the aggregate of the admission fees of $1.50 per capita. It is believed that the expense account can in future be kept with an assessment of 40 cents per capita. From reports received from over 600 officers, stating their losses since entering the Service, some of them covering a period of 30 years, it is found that the average per capita lost per year has been $1.33, ranging from a maximum of $5 to a minimum of a few cents. The association does not propose to take risks in cities where insurance is more readily obtainable. We commend the organization to the attention of officers.

PERSONAL ITEMS.

COLONEL R. I. DODGE, 11th U. S. Infantry, is visiting at Jacksonville, Fla.

CAPTAIN J. F. SIMPSON, 3d U. S. Cavalry, on leave from Texas, is in San Francisco.

COLONEL J. M. WILSON, Corps of Engineers, U. S. A., paid a visit to New York City this week.

PROFESSOR S. E. TILLMAN, U. S. A., of West Point, is soon to be married to Miss Williams, of Flushing, L. I.

CAPTAIN W. S. EDGERLY, 7th U. S. Cavalry, is East, from Fort Meade, Dakota, on a few weeks' leave.

LIEUTENANT T. J. CLAY, 10th U. S. Infantry, of General Miles's staff, is visiting relatives at Lexington, Ky.

LIEUTENANT JOHN MCCLELLAN, 5th U. S. Artillery, rejoined at Fort Monroe, on Tuesday, from a short leave.

CAPTAIN J. E. WILSON, 2d U. S. Artillery, left Fort Barrancas, Fla., last week, for the North on a month's leave.

COLONEL M. P. MILLER, U. S. A., of Major General Schofield's staff, paid a short visit this week to friends in Maine.

CAPTAIN S. T. NORVELL, 10th U. S. Cavalry, of Fort McDowell, Ariz., will come East in May to spend the summer.

LIEUTENANT W. R. ABERCROMBIE, 2d U. S. Infantry, of Fort Omaha, is a new patient at the hospital at Hot Springs, Ark.

CAPTAIN M. E. O'BRIEN, 2d U. S. Cavalry, has rejoined at Fort Spokane, Wash. Ty., from a trip to Vancouver Barracks.

MAJOR A. C. E. WELBY, of the 2d Dragoons (Scots Greys), British Army, is in New York, with quarters at the Hotel Brunswick.

CAPTAIN R. I. ESKRIDGE, 23d U. S. Infantry, is visiting his mother, near Fort Leavenworth, Kas., who has been quite ill recently.

CAPTAIN E. C. WOODRUFF, 12th U. S. Infantry, rejoined at Fort Ontario, N. Y., early in the week, from a short visit to New York.

LIEUTENANT L. V. CAZIARC, 2d U. S. Artillery, bade good bye to friends at Little Rock this week, and started for Fort Monroe, Va.

LIEUTENANT J. S. PARKER, JR., U. S. Infantry, was to leave Fort Sidney, Neb., this week, for the East, to be absent about two months.

CAPTAIN L. R. STILLE and Lieutenant R. R. Stevens, 23d U. S. Infantry, of Fort Brady, were visitors at Fort Mackinac, Mich., this week.

WE regret to learn that Major J. W. Scully, Quartermaster, U. S. A., of New Orleans, has been suffering greatly from inflammatory rheumatism.

LIEUTENANT C. B. GATEWOOD, A. D. C. to General Miles, lately visiting East, was expected to join headquarters at Los Angeles, Cal., this week.

COLONEL R. S. LA MOTTE, 13th U. S. Infantry, has joined at Fort Wingate, N. M., from leave and taken command of the post and of his regiment.

COLONEL G. P. ANDREWS, U. S. Army, retired, who is residing at Santa Rosa, Cal., celebrated his 66th birthday on Tuesday of this week, March 22.

MAJOR GENERAL SCHOFIELD, U. S. A., and his aide, Lieutenant Sawyer, returned to New York early in the week from a pleasant trip to Chicago.

CAPTAIN J. L. POWELL, U. S. A., and Mrs. Powell, of Fort Supply, are visiting old friends in Washington and Baltimore and are expected in New York.

REV. CHAS. M. PYNE, Captain, U. S. Army, retired, has entered upon his duties as assistant to the rector of St. John's Episcopal Church, Washington, D. C.

LIEUTENANT G. A. ZINN, Corps of Engineers, U. S. A., bade good-bye to friends at West Point this week preparatory to starting for Galveston, Texas.

CAPTAIN R. W. JOHNSON, Assistant Surgeon, U. S. Army, for a few weeks on temporary duty at West Point, was expected to rejoin at Fort Adams, R. I., the latter part of this week.

LIEUTENANT L. H. STROTHER, 1st U. S. Infantry, after a short stay at the Mechanical College at Blacksburg, Va., goes, at his own request, from there to join his company at Angel Island, Cal.

COLONEL EDWARD HATCH, 9th Cav., has been ordered to Omaha to confer with Gen. Crook, and will be succeeded in command of Fort DuChesne by Maj. J. F. Randlett, of his regiment, lately of Fort McKinney.

LIEUTENANT J. H. G. WILCOX, 7th U S. Cavalry, whose arrest at St. Louis we reported last week, was expected at Fort Snelling this week to be tried for absence without leave and duplication of pay accounts. The *Pioneer Press* has heard that "an inordinate fondness for gambling and other forms of dissipation is the cause of his downfall."

A FORT D. A. RUSSELL correspondent writes: Lt. E. S. Howe and Mrs. Howe returned from the East March 14....Capt. L. M. O'Brien left March 14 on a short visit East....Lieut. W. A. Mann, adjutant, 17th Inf., leaves March 15 on a two months' sick leave, and will visit Hot Springs before returning....Lieut. D. H. Brush is acting regimental and post adjutant during Lieut. Mann's absence.

THE Vancouver *Independent* of March 9 says:

Lieut. Frank B. Andrus, 14th Inf., has returned to Boise Bks. from leave....Major J. P. Canby, Chief Paymaster, returned to Portland March 1, and Major D. W. C. Poole returned to Vancouver Bks.....Capt. M. E. O'Brien, 2d Cav., has returned to Fort Spokane.....The wife of Capt. James Kennington, 14th Inf., with her son and daughter, have left Vancouver Bks. for the East, where she will remain during the illness of her husband.....At Vancouver Bks. on Friday evening, Col. Thos. M. Anderson will deliver the next lecture of the garrison course. His subject will be "What the world owes us, or our true glory."

CAPTAIN O. W. POLLOCK, 23d U. S. Infantry, left Buffalo, N. Y., early in the week on a short leave of absence.

GENERAL GEORGE CROOK, U. S. A., since his return to Omaha from Boston, has paid a visit to posts in Wyoming.

CAPTAIN F. K. WARD, 1st U. S. Cav., recently promoted, will join at Fort Assiniboine, Montana, early in April.

LIEUTENANT S. F. MASSEY, 5th U. S. Art., of Fort Douglas, Utah, is expected to visit friends in the East early in April.

MISS KATE FIELD, at the request of Gen. McCook and other officers, lectured on "Mormonism" last week at Fort Leavenworth.

CAPTAIN F. G. SMITH and Lieut. H. R. Anderson, 4th U. S. Artillery, left Fort Adams, R. I., on Sunday, to be absent for the week.

CAPTAIN C. E. DUTTON, U. S. A., gave an interesting lecture March 19, on "Earthquakes," at the National Museum, Washington, D. C.

GENERAL THOMAS WILSON, U. S. A., of Fort Leavenworth, who recently sprained his ankles, is able to be about again but has to go on crutches.

LIEUTENANT-COLONEL EDWARD COLLINS, 7th Inf., has joined, on promotion, at Fort Laramie, Wyo., and received a hearty welcome from his new regiment.

MAJOR E. C. BAINBRIDGE, 3d U. S. Artillery, after a pleasant tour of duty at Washington Barracks, D. C., will change base to Newport Barracks, Ky., early in April.

COLONEL J. P. MARTIN, U. S. A., and Mrs. Martin, arrived at Lexington, Ky., last week on a visit and it was expected Col. Martin would make a trip to Washington this week.

LIEUTENANT W. E. ALMY, 5th U. S. Cavalry, temporarily at Jefferson Barracks, Mo., goes, under recent orders from Fort Reno, to join Babcock's troop at Fort Leavenworth, Kas.

CAPTAIN S. M. MILLS, 5th U. S. Artillery, who has been at Washington since November last adjusting his accounts with the Signal Bureau, will rejoin his battery at Fort Monroe, Va., next week.

COLONEL L. L. LIVINGSTON, U. S. A., promoted from the 4th to the 3d Artillery by the death of Colonel Scott, expects to leave Boston Harbor, Mass., for Fort McHenry, Md., early in April.

MISS FANNY MAY COCHNOWER, a niece of the wife of General H. B. Carrington, U. S. A., was married March 5, at the residence of the General at Hyde Park, Mass., to Mr. Seth H. Hickcox, of Los Angeles, Cal.

GOVERNOR THAYER, of Nebraska, has made "Buffalo Bill" an aide-de-camp on his staff with the rank of Colonel. Myriads of American boys, small and large, will rejoice to hear of the honor done to Colonel Cody.

COLONEL E. B. WILLISTON, U. S. A., visited in Chicago early in the week and from there went on to Fort Riley, Kas., where he was to meet Lieut.-Gen. Sheridan on Thursday. Col. Williston has many friends in the West who will be glad to see him back among them once more.

CAPTAIN G. M. RANDALL, 23d U. S. Infantry, temporarily commanding at Fort Wayne, Mich., during the absence of Col. H. M. Black at Fort Cœur d'Alene, starts early next week on a two months' leave, relinquishing the command of the post to Capt. J. T. Haskell, 23d Inf.

CAPTAIN IRA PAINE made a remarkable score and beat the record with an Army revolver at Boston on Friday. He shot ten rounds of ten shots each on the standard American target at 50 yards and made a total of 841 out of a possible 1,000. The score of his fifth round was 90, which is the best ever made.

RICHARD B. IRWIN, formerly Lieut.-Colonel and A. A. G., Dept. of the Gulf, in the letter published in the JOURNAL of Feb. 26 last, invited correspondence with reference to the history of the 19th Army Corps. We have received several letters for Col. Irwin sent to our care, but as he did not accompany his published letter with his address we are unable to forward them.

SPEAKING of the funeral of the late General Loring at St. Augustine on March 18, the Florida *Times-Union* says: "A select detachment of the East Florida Seminary Cadets, 60 strong, under command of Capt. C. A. Curtis, U. S. Army, formed the firing party at the grave. Throughout the formation, procession, and firing, the corps was highly praised for their soldierly appearance and fine military manœuvres."

MRS. MCKEE, daughter of Gen. W. McKee Dunn, U. S. A., was with her children and a party of friends at Nice, on Feb. 23, and writes to her husband a most graphic account of the earthquake. Mrs. McKee, with a coolness which does her credit, remained in her bed, and, after the final tremor, went to sleep again, as also did her boys. She says: "I have made fun of people all day, as I felt that it was all over this morning, and that we are as safe here as any place. Before I go to bed I shall put my valuables together and have my heavy clothing conveniently near, and shall leave the rest to the Lord. My going to sleep again this morning reminds me of father's equanimity."

MAJOR GENERAL O. O. HOWARD, U. S. A., delivered a lecture on Gettysburg at San Francisco, March 8, before a large audience. In the course of his lecture he denied that he and General Hancock had any altercation whatever in regard to the question as to which was the ranking officer. "We both worked cordially together," said Gen. Howard, "on that occasion. In fact as Hancock rode up to me unattended and without troops, and as he told me he represented Gen. Meade, I at the time supposed he was acting as a staff officer." The lecturer paid a warm tribute to Gen. Warren for his part in the battle and justified the action of Gen. Sickles in pushing out so far to the front because it gave time to Warren to put troops in where they were most needed

LIEUTENANT R. J. C. IRVINE, Adjutant 11th U. S. Infantry, lately visiting at Augusta, Ga., expects to rejoin at Fort Sully, Dakota, by March 31st.

LIEUTENANT EUGENE CUSHMAN, 16th U. S. Infantry, who reported to Col. Hough, U. S. A., Superintendent of Recruiting Service, in New York, last week, arrived early in the week at Columbus Bks., O., and goes from there to San Antonio.

THE bronze monument to the memory of General Gordon, designed by Mr. Boehm for the King of the Belgians, will soon be placed in Westminster Abbey. It represents the hero recumbent on a sarcophagus, with his military cloak flung around him.

MRS. HELEN DARRAGH, of Philadelphia, is putting the finishing touches to a life-size portrait in oils of the late Gen. Grant which is to be presented to the Military Academy by Mr. George W. Childs. The new picture is to occupy a conspicuous place in the new Grant Hall at the Academy.

DR. STANHOPE P. BRECKINRIDGE, who died recently at Chattanooga, was a native of Kentucky, and a member of the celebrated Breckinridge family which has furnished that State with so many eminent men. He was a son of Dr. Wm. Breckinridge, a noted divine, and nephew of the famous Dr. Robert Breckinridge.

CAPTAIN BABCOCK, 5th Cavalry, says the Kansas City *Times*, is to be congratulated on having Lieut. W. E. Almy, 5th Cav., transferred to his troop. The lieutenant was a member of the second class graduating in 1885, and is much attached to Fort Leavenworth. Mrs. Almy will be quite an acquisition to the brilliant social circle of the post.

THE case of A. H. Nickerson, formerly Major and Assistant Adjutant-General, U. S. A., now in Canada has been recalled this week by the fact that on Tuesday Mrs. Nickerson was granted a divorce with the custody of her children, and permission to resume her maiden name. The grounds for the divorce were adultery and cruelty.

CHAPLAIN J. D. PARKER, U. S. A., of Fort Riley, Kas., delivered a lecture last week on "Our Prairie World," in the Y. M. C. A. Hall at Junction City. The hall was filled with an attentive audience and the lecture was not only entertaining but very instructive, and showed the reverend gentleman to be well acquainted with "Our Prairie World" from a practical standpoint.

LIEUTENANT F. L. PALMER, 21st U. S. Infantry, was married at Fort Bridger, Wyo., March 22, to Miss Mary Simpson, daughter of Chaplain G. W. Simpson, U. S. Army. The officers and ladies of the post and other friends attended in force, and the wedding had those pleasant features which usually attend such occasions at military posts. The married couple go to Fort Sidney, Neb., where Lt. Palmer's company is stationed.

ON April 1st next it will be five years since Lord Wolseley took over the office of adjutant general to the British forces, and five years are usually the limit of staff employment. In his case, however, an exception is to be made, as he has twice vacated his appointment to proceed on service—in 1882 and again in 1885. The time he was absent in Egypt and on the Nile is not to be reckoned, and he is to continue in the undisturbed enjoyment of the emoluments of the office for some time to come.

MR. JOHN A. LOGAN, son of the late General Logan, was married at Youngstown, O., March 22, to Miss Edith Andrews. A large number of relatives and friends were present at the ceremony, including Major W. F. Tucker, U. S. A., and Mrs. Tucker, who is a sister of the groom. The array of presents was large and costly. Mr. Andrews presented the bride with $50,000, and Wallace C. Andrews, of New York, an uncle, gave her another $50,000 The groom gave her a pearl necklace, with pearl and diamond pendants.

PRESIDENT CLEVELAND is 50 years old; Queen Victoria, 67; Milan, King of Servia, 32; Louis, King of Portugal, 48; Humbert, King of Italy, 42; the Emperor of Germany, 90; Abdul Hamid, the Sultan, 44; George, King of the Greeks, 41; Charles, King of Roumania, 47; Pedro II., Emperor of Brazil, 61; Leopold, King of the Belgians, 51; Charles III., Prince of Monaco, 68; the King of Spain is a few months old; Alexander III., Emperor of Russia, 41; William III., King of the Netherlands, 69; Francis Joseph, Emperor of Austria, 56.

GENERAL BOULANGER, says the *Athenæum*, has been called "a Bonaparte without a victory." There is, at least, one difference between Gen. Boulanger and Napoleon which has some interest to the bookish world. The memory of Napoleon was once toasted by Thomas Campbell, on the ground that "he shot a publisher," but Gen. Boulanger has married a publisher's daughter. As some doubt has been thrown upon the recent statement that the General is half English, it may be stated that his English mother is still alive, and lives very quietly in the immediate neighborhood of Paris.

THE Urbana, (O.,) Daily *Citizen*, of March 19, devotes two columns to the memory of the late Major Duncan McArthur Vance, 13th U. S. Inf., and of his widow says: "After a short year of wedded joy, followed by the anxiety of the close and devoted watch kept upon her husband's failing health, she is left to mourn his sudden death. Her grief is not only assuaged by the number who now mingle their tears with hers, but by the comforting confidence that her husband had died in the hope of a resurrection through a Redeemer whom he was not ashamed to confess before men."

MRS. A. C. WILDRICK'S novel, "A Zealot in Tulle," published by D. Appleton and Co., of New York, is spoken highly of by the critics. The book reviewer of the New York *Times* says: "Because of its originality, singular power, vividness of description and keen analysis of character, it is indeed a remarkable novel. That landscape-painting which Miss Murfree delights in and which renders her novels so striking, Mrs. Wildrick (whoever may be Mrs. Wildrick) possesses. The author of 'A Zealot in Tulle' has a palette on which the brightest colors are to be found, only Mrs. Wildrick uses her brush within limits and does not sacrifice her characters to their surroundings."

MAJOR F. VAN VLIET, 10th U. S. Cavalry, will spend the summer abroad.

GENERAL ROBERT MURRAY, U. S. Army, retired, has taken up his residence at Clifton Heights, Pa.

THE Mexican War claim of Joseph H. Bailey, captain and assistant surgeon, for $37.50, was allowed this week.

LIEUTENANT F. B. ANDRUS, 5th U. S. Cav., lately visiting at Douglas, Mich., has had his sick leave extended four months.

GENERAL A. W. GREELY, Chief Signal Officer, U. S. A., was in New York this week with headquarters at the Sturtevant House.

LIEUTENANT CHAS. M. O'CONNOR, 8th U. S. Cavalry, selected by Colonel Elmer Otis to succeed Lieutenant J. B. Hickey as regimental adjutant, is an able and experienced officer, who was graduated from West Point in 1873.

THE following officers are registered at the War Department this week: 1st Lieut. John Bigelow, Jr., 10th Cav.; Maj. E. B. Williston, 3d Arty.; Capt. S. A. Day, 5th Arty.; Capt. J. L. Powell, Med. Dept.; Maj. W. E. Creary, Pay Dept.

THE appointment of First Lieutenant Robert London as regimental quartermaster of the 5th Cavalry, vice Hall, promoted captain, opens the way for 2nd Lieut. Augustus C. Macomb's promotion to a 1st Lieutenancy from March 11.

JOHN A. CHURCH, E. M. Ph. D., sailed for San Francisco March 15th, en route to Tien Tsin, China, where he reports to the Viceroy, Li Hung Chang, as engineer in charge of the mines of the Chinese Empire. Mr. Church is a brother of the proprietors of the ARMY AND NAVY JOURNAL.

GENERAL BENÉT, Chief of Ordnance, has gone to Atlantic City for a ten days' rest, 'preparatory to resuming work in connection with the revision of the Army regulations, and probably as Acting Secretary of War, as it is understood that Secretary Endicott will be absent again shortly.

ACCORDING to the "Allgemeine-Schweizerische Militar-Zeitung (Basel), Col. Miguel Lopez, the supposed betrayer of the Emperor Maximilian, died a few days since. He was an uncle of Marshal Bazaine's wife, and a Knight of the Legion of Honor. For the sum of 10,000 pesos he is said to have opened the gate of La Cruz and led the besiegers into the room of the Emperor.

THE proceedings of the Court Martial in the case of Major Fred. W. Benteen, 9th Cavalry, have been returned to the court for correction. The fact that the papers have come to Washington is proof positive that the sentence is dismissal and, in view of the officer's excellent record, there would seem to be good reasons for believing the current reports in regard to the recommendation for mercy.

A LOYAL officer of the Army, says a recent Washington despatch, was nearly tempted to draw his sword at the White House the other night. Just as Gen. Sheridan stepped through the south doorway into the Red Parlor a voice somewhere in the line of entering guests was heard to say: "There's another of those —— Yankee officers." Only the fact that the President's outstretched hand was less than ten feet away prevented the offender being called to account.

THE construction of the military telegraph line on the eastern coast of Florida from a point near Point Jupiter to Sanford, for which the sum of $17,000 was appropriated at the last session of Congress, will be under the superintendence of 2nd Lieut. B. M. Purssell, who was ordered this week to assume charge of the work. Gen. Greely made an official visit to New York this week to inspect the telegraph wires and other material to be used for the purpose. A station for the taking of meteorological observation and the display of storm signals will be established at Point Jupiter in connection with the military telegraph line. Lieut. Purssell expects to have the new station and line in full operation by the 1st of September next.

COMMANDER NICOLL LUDLOW, U. S. N., registered at the Glenham Hotel, New York, on Tuesday.

ENGINEER-IN-CHIEF LORING has returned to Washington from his sad errand to Boston and resumed charge of his office.

EX-ENGINEER-IN-CHIEF SHOCK is travelling through the interior of Florida to escape the March winds and April showers of the northern climate.

LIEUTENANT EMORY, U. S. N., entertained Secretary Whitney and Mayor Hewitt, of New York, at dinner on board the *Thetis*, on Sunday last.

P. A. ENGINEER W. A. MINTZER, U. S. N., has designed for the Staten Island Rapid Transit R. R. Co., two steel ferry boats to be built in Baltimore.

CHIEF ENGINEER ROBERT POTTS, U. S. N., is busily engaged at the ship-building works of Cramp and Sons. Mr. Potts has still some months of shore duty to put in before arriving at the head of the list of "available for sea."

PENN SU and Min Chou Ho, Corean students, who are being educated at Washington, accompanied by Rear-Admiral Ammen, U. S. N., retired, visited the Naval Academy March 16, and were shown through the different departments by Lieut. Gheen.

REAR ADMIRAL J. H. RUSSELL, U. S. N., retired, is living very quietly in Washington, and puts in an occasional appearance at the Navy Department. The Admiral occupies a house pleasantly situated at 1703 De Sales street, not far from Connecticut avenue.

HENRY B. RUMSEY, formerly Lieutenant-Commander U. S. Navy, who resigned in 1871, was one of the victims at the recent disastrous hotel fire at Buffalo. He could easily have escaped had he not stopped to save a young child and it is sad to think that his gallant sacrifice did not succeed in saving the child's life after all. Mr. Rumsey has a son now in the Navy, Naval Cadet Harry E. Rumsey, who graduated last June and is now on the *Quinnebaug* in European waters.

NAVAL CONSTRUCTOR W. H. VARNEY, U. S. N., lately at Norfolk, Va., has returned to Philadelphia.

NAVAL CONSTRUCTOR PHILIP HICHBORN, U. S. N., registered at the Astor House, New York, on Monday.

COMMANDER R. D. EVANS, U. S. N., visited New York this week making his headquarters at the Gilsey House.

ASSISTANT ENGINEER F. J. SCHELL, U. S. N., on duty at the Naval Academy, is soon to be married to Miss Miller, of Richmond, Va.

COMMANDER C. S. COTTON, U. S. N., of Norfolk, Va., has been called to Detroit by the death of Mrs. Cotton's father, Adjt.-Gen. John Robertson, of Michigan.

PASSED ASSISTANT ENGINEER W. S. MOORE, U. S. N., who returned home on the *Ossipee*, is once more in Washington, looking none the worse for a full cruise on the China Station.

THE bureau chiefs of the Navy Department say that no small proportion of their time is taken up in the preparation of data for officers who contemplate writing articles on naval topics for the popular monthlies.

LIEUTENANT L. C. LOGAN, U. S. N., who has joined the *Ossipee* as executive officer, was given a dinner at Newport, R. I., before leaving, where his many friends testified their esteem for him and regret for his departure.

COMMANDER JOHN F. MCGLENSEY, U. S. N., who recently returned from a three years' cruise in Chinese and Japanese waters, has taken quarters for himself and family at the Franklin, No. 1332 I street, Washington, D. C.

PASSED ASSISTANT PAYMASTER EUSTACE B. ROGERS, U. S. N., who is on duty at the Naval Hospital, Yokohama, Japan, where he has been for a little more than two years, is quite contented to remain there for a full term of three years.

THE following officers registered at the Navy Department this week: Comdr. Chas. L. Huntington, Lieut. Comdr. Thomas Perry, Asst. Naval Constructor Lewis Nixon, Surgeon Harry P. Harvey, P. A. Engineer W. S. Moore, Lieut. F. H. Tyler, Pay Inspector Thos. T. Casewell.

THE fine house being erected on the corner of 31st and Q Streets, Washington, by Professor Edgar Frisby of the Naval Observatory, is rapidly approaching completion, and forms a striking landmark on Georgetown Heights. Until his new residence is ready for occupancy, the professor is living at 3006 P Street.

ON the 21st March, Judge Merrick, of the District of Columbia bench, granted a divorce between Mary A. Davis and Daniel W. Davis, giving her the custody of the children. The defendant in this suit was formerly a Lieutenant in the United States Navy, but, under date of October 12, 1883, was dismissed from the service by sentence of a General Court Martial. To those who knew Mrs. Davis under brighter auspices, it will be agreeable news to learn that an absolute divorce was granted as above stated.

LIEUTENANT-COMMANDER JACOB E. NOEL, U. S. N., whose return from the *Adams* was chronicled some time ago, is reported to the Navy Department as missing. Since his return from Panama, Lieutenant-Commander Noel has been living at Rosemont, Montgomery county, Pa., and it is but recently that he has disappeared. It is feared that some serious harm has come to him. Lieutenant York Noel, a brother of the Lieutenant-Commander, is at present serving on board the Receiving Ship *Vermont*, New York Navy Yard.

THE Secretary of the Navy has selected Mr. Richard M. Hunt as the architect of the new Naval Observatory. Mr. Hunt has no superior as an architect, and if he does not make a design that will do credit to the country it will not be because he cannot. He commenced his early studies on the Louvre in Paris, and among his recent works are the *Tribune* building in New York, the house belonging to Secretary Whitney on Fifth Avenue, and the house of Mr. Marquand, one of the finest as well as most costly in New York, the hanging for the library alone costing $100,000.

THE Philadelphia *Press* reports that the Baron De Lorme, a Frenchman with a speculative turn of mind, who will be recalled as having some connection with an alleged scheme for building a railroad in China, has recently turned his attention to ship-building and is posing as a bidder for the Roach shipyard at Chester. He sailed for France last Thursday in the *Adriatic*, but before embarking he is said to have assured his friends that he would speedily return with the funds necessary for the purchase. The price fixed upon was $600,000, so the Baron said, but Mr. Weed, the assignee of John Roach and Son, stated that he had never talked figures with the Frenchman.

THE autograph signature of the Secretary of the Navy is in greater demand than those of any of the Administration family excepting Mrs. Cleveland. His daily mail is full of requests for his autograph, and sometimes that of Mrs. Whitney is also desired. The Secretary is very obliging in this respect, but, being called upon to sign his name frequently to official documents, has resorted to an expedient to save trouble. The signatures to letters which a second thought kept in the office are torn off and sent to people who merely send a return envelope for an autograph. A rubber stamp and a private secretary furnish the signatures for autograph books and fancy cards.—*Baltimore Sun.*

THERE was a happy reunion of four engineer officers of the Navy at Wormley's, Washington, D. C., on Thursday evening last. Twenty-five years ago these four officers—Chief Engineers Henry L. Snyder and Wm. H. Harris of the Navy; E. D. Levitt, General Manager, and T. G. Coggin, Superintendent of the stamp mills of the Calumet and Hecla Copper Mines of Michigan—were young engineer officers serving together, and fast friends they were too, on board the U. S. S. Saginaw. When this quartette, three of them accompanied by their wives, sat down to the elegant banquet, arranged with great care for the event, it was the first time they had all met within a quarter of a century.

RECENT DEATHS.

THE sad news of the accidental drowning of Pay Clerk Albert T. Cowie, on Feb. 24 at Port de Spain, Island of Trinidad, was received on Monday last at the Navy Department, and also by Col. Cowie, the father of the unfortunate young man. Young Cowie was clerk to his brother, Assistant Paymaster Thos. J. Cowie, U. S. N., of the training ship *Saratoga*, Comdr. C. H. Davis, commanding. One other brother is still in the naval service, P. A. Engr. Geo. Cowie, Jr., at present attached to the Coast Survey steamer *Blake*, Key West, Fla. Still another member of this family was Ensign James W. Cowie, U. S. N., who was lost on board the ill-fated *Oneida*, in Yokohama Bay, Japan, Jan. 24, 1870. Much sympathy is felt for Col. Cowie, who is well known in Washington, over this recent affliction.

CAPTAIN FRANK REYNOLDS, U. S. Army, retired, an efficient medical officer, during and since the war, died at Oakland, Cal., March 4. He was born in Ireland, and joined the 88th New York Volunteers in September, 1861, as surgeon, serving in that capacity until August, 1863, when mustered out. He was then appointed assistant surgeon of U. S. Volunteers, resigned in September, 1864, reappointed surgeon of U. S. Veteran Infantry in March, 1865, mustered out March, 1866, appointed assistant surgeon U. S. Army November 16, 1865, and retired June 28, 1878, on account of disability incurred in the line of duty. He received the brevet of lieutenant colonel of volunteers for faithful and meritorious services.

JOHN ROBERTSON, Adjutant-General of Michigan, died at Detroit, March 19, aged 73. He was born in Scotland, and while yet a boy showed a penchant for a military life. Being disappointed in getting a position he came to America, where he made his way to the nearest recruiting station and enlisted in the Regular Army, and he served seven years. When his term of service was out his regiment was stationed in Detroit, and there he engaged in the commission business. In 1861, at the opening of the War of the Rebellion, Gov. Blair commissioned him Adjutant-General of the State, a position he held under every Administration since. During the war he was indefatigable in aiding the raising and equipping of troops, and in his constant solicitude for their welfare while in the field, often visiting them to ascertain their condition and wants. For years after the close of the war he was engaged in collecting and compiling all available statistics that in any way illustrated the achievements of the troops and that would perpetuate the State's history in connection with the great Rebellion. He leaves five daughters and one son, one daughter being the wife of Commander Charles S. Cotton, U. S. N.

GEORGE GARRETT SICKLES, the father of Major-General D. E. Sickles, U. S. A., died at his home in New Rochelle, March 17, in the 87th year of his age. Mr. Sickles was born in New York, Sept. 29, 1800, and in 1830 was admitted to the bar. From 1840 to 1860 he enjoyed a large legal practice. With the firing on Sumter Mr. Sickles became a warm supporter of the Union cause, and he assisted his son, Gen. Sickles, in raising the Excelsior Brigade. Mr. Sickles's first wife was Miss Susan Marsh, who died in 1876, and on Dec. 21, 1881, Mr. Sickles, then past 81 years of age, again married, Mr. Sickles was the owner of a great amount of real estate. He was one of the founders of Kane Lodge F. and A. M., a member of the American Institute from its organization, and of the Tammany Society, and a director of the Nassau Bank, of New York. The funeral took place on Sunday and was largely attended.

MRS. WASHBURNE, wife of the Hon. E. B. Washburne, who died at Chicago, March 18, was the daughter of Col. Henry Gratiot, one of the oldest and most distinguished pioneers of the Fevre River lead mines, who died at Baltimore, Md., in 1836, and the niece of Gen. Charles Gratiot, Chief Engineer of the U. S. A., and also niece of Pierre Chouteau, Jr., of St. Louis, long manager of the American Fur Company. Mrs. Washburne was also allied to the principal French families of St. Louis. Mrs. Washburne was with her husband in his 16 years of distinguished service in Congress and for eight years while he was Minister to France.

PIERRE SOLIDOR MILON, one of the First Napoleon's soldiers, died at Philadelphia, March 16. He was born in Nice, Nov. 16, 1787. An old yellow certificate, written in French, to which is attached a faded red band and an enamelled Maltese cross, contains a record of his services and promotions in the French Army. In 1819 Milon came to this country and became quite intimate with General Winfield Scott. In 1859 he settled in Philadelphia and married for the second time. It is said that the deceased was one of four men out of a regiment numbering 3,000 who survived the march to Moscow during the Russian campaign.

MAJOR PARDY, who died last week in England, aged 92, was one of the very few survivors of the commissioned officers of the Peninsular war. As a Lieutenant he helped to build the famous rope bridge at Alcantara over the mined spans of Trajan's structure by which Lord Hill crossed the Tagus and joined Wellington.

MRS. CALDWELL, wife of Mr. C. H. Caldwell, of Philadelphia, and daughter of Capt. John McGowan, of the Revenue Marine Service, died at the residence of her sister at Elizabeth, N. J., March 21. The funeral took place on Thursday.

CAPTAIN JOHN CARLIN, Department Commander of the G. A. R., of West Virginia, and a veteran of the Rebellion and Mexican War, died at Wheeling,

March 18. He was Chief of Artillery under General Siegel.

MR. M. M. LA TANE, Chief Clerk at the Headquarters of the Army, died at Washington, March 21. He was an efficient and worthy gentleman and well liked by Lieut.-Gen. Sheridan and his staff.

MRS. FANNY PALMER TURNER, widow of Rear Admiral Turner, U. S. N., died suddenly on Sunday last, March 20, at the residence of her son-in-law, H. W. Biddle, of Paoli, Pa.

MR. EDWARD POMEROY, a brother of the wife of Chaplain W. F. Morrison, U. S. N., died this week.

CHAIRMAN HOUSE MILITARY COMMITTEE.

MARCH 16, 1887.

To the Editor of the Army and Navy Journal:

THE question of the chairmanship of the Military Committee of Congress is one that seriously affects the interests of all officers and soldiers. As the late chairman of the House Military Committee, General Bragg, of Wisconsin, has retired from Congress, the succession naturally belongs to Gen. Jos. Wheeler, of Alabama.

Gen. Wheeler is a graduate of the Military Academy, of the class of 1859, and is as firm and staunch a friend of the Army as there is in the United States, notwithstanding the fact of his service in the Confederate Army. It is possible that the fact of such service may make the Speaker of the new Congress unwilling to risk adverse criticism by giving Gen. Wheeler the chairmanship to which he is entitled by parliamentary usage. It therefore seems to me that the best way to secure the place for him is for the Army to urge his appointment, through the press, on the ground that if the Army, as a body, wishes Gen. Wheeler to have the chief control of Army matters in the House of Representatives, no one else has any valid reason for objecting to his record.

I trust, therefore, that this letter will be the means of bringing out the sentiment of the Army on this matter. M.

PAYING THE ARMY.

To the Editor of the Army and Navy Journal

IN the JOURNAL of March 19 you quote, and, by implication, approve editorially, a criticism of the method of payment in the Army which appeared in the Baltimore *Sun*. With no desire to adhere to old ways because of their age, I should like your permission to state a few facts.

1. The payment of the men in cash instead of by check is a positive advantage to the men. The reference to the Marine Corps is not felicitous, as it is when ashore, stationed near large cities, where, if paid by check, the face value of the check could be readily obtained.

Much of the Army is at remote points where checks could not be cashed at their face value, if at all. Within a very few years I have seen Army vouchers cashed at a small frontier town for 33⅓ discount. Honest payment to the men in the Army means giving them cash, and that means the constant or occasional presence of responsible men with the cash at Army posts.

2. The machinery of payment, like all other Army machinery, ought to be adapted to a time of war; it is too obvious to be argued that the Government will not keep up a Pay Corps adequate to the making of *weekly* payments in either peace or war, and that the payment by line officers in time of war would not be so desirable as the payment by a Pay Corps.

3. If it can be shown to be desirable, there is no sufficient reason why the Pay Corps, as at present organized, should not make payments to troops every month. The expense of payment, that is, the travelling expenses of the Paymaster and his clerk, would be increased, but if any considerable advantage to the Service would thereby accrue, such increase of expense should not avail to prevent it. On this, the only vital point, that of the advantage to the Service, there is very far from unanimity among the officers best fitted by experience to form an opinion—namely, company commanders. I have taken much pains to elicit the opinions of company commanders, and have enjoyed some special opportunities for doing it. One of the best of the company commanders whom I have ever met, one who has an excellent company, and exhibits an intelligent and minute interest in his men, said: "There are some men who are worthless when they have money, the oftener they might get the money the more they would be worthless." Other officers said that the men who wished to save their money have an excellent opportunity in the system of deposits with the Paymaster, and those who did not would waste the less as certainly as the greater amount.

On the whole, the weight both of numbers and of experience among the officers consulted by me was against frequent payments. Though I thereby condemn, to some extent, my own opinion, I am still of opinion that more frequent—that is monthly—payments should be made—at least to the extent of a fair trial of the method—in the hope that the more frequent reception of money and its reception in smaller amounts might educate the men in its use and so benefit them, individually, as well as the Service.

I have said that the only vital point was the advantage to the Service. In this I did not overlook the hoped-for advantage to the men as an education in the care and use of money, but wished to emphasize the fact that frequent payment to an army, all of whose regularly recurring wants are provided for without expense to the men, and in which marriage is prohibited and so domestic expenses avoided, cannot be supported by the arguments applicable to civil life, where the men paid must supply all of their wants and probably those of wife and children. It is to be hoped that officers and enlisted men of standing and experience will contribute facts and opinions respecting this matter.

It may be in order to say, referring to the criticism of the Pay Corps, as well as of the mode of payment, that probably that corps is as well fitted as any in the Army to discharge its simple but highly important functions. The Congress has taken care, in secs. 1184 and 1185, Revised Statutes, to make provision for its prompt enlargement and reduction in case of war, and very many of its present members know by experience how to adapt themselves and their duties to the administration of large affairs, and to the contingencies of campaigning and field service. B.

A MILITARY SCHOOL WRECKED.

A DESPATCH from Baltimore, March 23, says: "Two years ago Major Burgess, a man of big schemes, started the Maryland Naval and Military Academy at Oxford. He pushed the institution vigorously. He got the big officials of the State, including Governor Lloyd and Congressman Gibson, on the Board of Visitors. He secured a vessel for cruising, got naval officers for Professors, and imported some good Professors. He made inducements to Congressmen, and the result was that nearly 300 boys from every State in the Union entered the institution. But Major Burgess did not pay his bills. He saw a crash coming, and he sold out to a Capt. A. Armes, of Washington. Within the past two weeks there have been revolts in the school and most of the cadets and Professors have left. Some of them cannot get away, because they have not got the money to pay their fares home. A board was appointed this week by the Governor to investigate the school. Their report says that the institution is hopelessly wrecked, and that there is no doubt that the students have been swindled. The condition of the school is described as about as bad as it can be. Prof. Lynes says that Burgess cleared $40,000 by the scheme."

A NIGHT SIGHT FOR ORDNANCE.

SIR W. ARMSTRONG AND CO. have recently brought out a night sight which is illustrated in *Engineering* for March 11, which says of it: "An alignment is obtained which is easily discernible by the eye under all degrees of dusk or darkness, is capable of even more accurate adjustment than the usual day sight, and is so arranged that even on the darkest night in which fire is possible, the observer's eye is in no way fatigued or blinded by the illuminated points. The sight is made in several forms according to the purpose for which it is applied. When used with the director for discharging guns from a central position or for the sighting positions in turrets or barbettes, light is transmitted by reflection from an electric lamp through two small spherical lenses where it concentrates in two minute and easily adjusted points of light. For the torpedo director used for discharging torpedoes and for direct use with larger guns, two lamps are employed, while for smaller guns such as Hotchkiss and other 3-pounders and 6-pounders, two separate sights, each with its lamp, take the place of the ordinary day sight. As most warships are now fitted with the electric light the application of these sights is arranged in connection with the light circuit. A short length of wire with a terminal in a convenient position close to the gun or director enables the sights to be illuminated as desired. The purposes for which these sights are applicable are for directing instruments for discharging guns and torpedoes either on board ship or in forts and coast batteries; for ordnance generally afloat and ashore, and for position finders and observation mines. The engraving shows night sight applied to a naval director for discharging guns."

THE ENGLISH NAVY.

THE First Lord of the Admiralty, Lord George Hamilton, estimates the capital value of the English fleet on March 31, 1887, as $196,415,000, divided as follows:

Net total capital cost of armored ships necessary to maintain the fleet at normal strength	£26,227,000
Corvettes, torpedo cruisers, gun vessels, troopships, and other vessels	6,644,000
Torpedo boats, steam launches, etc	1,500,000
Small vessels, tugs, etc	246,000
Receiving, training, and guard ships	307,000
Ships laid up as obsolete or for sale	4,359,000
Grand total	£39,283,000

The total number of men is set down at 62,500, and the total estimates for the Service for the ensuing year is £12,476,800, or a net decrease of £793 300. The annual depreciation is estimated at £1,803,000 against which the estimates for 1887-8 provide only £1,665,000. But besides this £997,000 is to be expended on account of the special programme undertaken to place the fleet in a normal condition of strength, leaving a balance to be met in future years of £217,000. Out of thirty-seven ships, building or incomplete, at the commencement of 1887-8, it is hoped twenty-six will be complete by the end of the year, leaving only nine out of the programme of 1885 and two other ships not belonging to this programme to be finished in subsequent years. The new programme of work includes the following:

20-knot steel bottomed cruisers, at Chatham	2
19¾-knot copper bottomed protected cruisers, 2 by contract and 1 at Portsmouth	3
Composite sloop (Buzzard)	1
Composite gunboats (improved Rattlers)	6
Grasshopper class	1
	13

The two 20-knot protected cruisers to be built at Chatham will be notable vessels. Their dimensions are: Length, 265 ft.; breadth, 41 ft.; displacement, 2,800 tons; speed on measured mile, with 400 tons of coal and fully equipped, 20 knots; Ocean speed, 17 to 18 knots; and radius of action at 10-knot speed, 8,000 knots. The vessels will have a protective steel deck extending from stem to stern, and sheltering the boilers, magazines, steering gear, etc. Vertical (inverted-cylinder) triple-expansion engines are to be fitted in the steel-bottomed ships, special arrangements of armored coamings being build for the protection of that portion of the cylinders. Above the protective steel deck the space will be minutely subdivided coal bunkers, coffer dams, etc., being built as is usual in vessels of the protected class. A double bottom on the cellular principle, adapted for water ballast, will be fitted. The armament will include six 6-in. B. L. R. guns on centre-pivot mountings, nine 6-pounder rapid-firing guns, machine guns, six torpedo tubes (all under cover). The bow will be strengthened for ramming in the usual manner. In all respects the vessels will be made suitable for independent sea service and for being driven at high speed in rough water. They will have only fore and aft steadying sails, being dependent upon their steam-power and twin-screws for propulsion. The bottoms of the three 19¾-knot cruisers will be wood-sheathed and coppered, so as to make the vessels capable of remaining afloat for long periods without serious fouling and consequent loss of speed. They will be fitted with horizontal engines, placed entirely below the protective deck. In armament, protection, and all other qualities, the conditions are the same in these as in steel bottomed vessels.

THE 111-TON GUN TRIALS.

THE final proof experiment with the first of the 111-ton guns for the *Benbow* took place at the Woolwich Arsenal Butts on Wednesday, March 9. When it was announced that 1,000lb. of gunpowder would be discharged, with a projectile weighing 1,800lb., serious doubts were expressed as to the possibility of the gun surviving the ordeal. The loading of the gun, which will be performed on board ship by hydraulic, was a difficult and tedious process, but at length the shot was driven forward of the powder chamber, and eight octagonal cartrides were packed in behind it, each weighing 125 lb., or an aggregate of exactly 1,000 lb. The powder was of a slow-burning description known as "S. B. L.," and the grains of segments were prisms of about one inch diameter. Most of the rounds in preceding experiments have been fired with Westphalian brown powder and the velocities have varied with the weight of charge from 1,699 ft.. per second, with a pressure of 9.65 tons to 2,078, with 18.7 tons pressure. The gun, it may be said, is guaranteed to bear a strain of 25 tons and more upon the square inch, a test which in the days of the old and "brutal" powders has often been realized, but is not likely to be ever again applied. The spectators, warned by the alarm bell, got under cover, or repaired to a safe distance to see the gun fired, the electric spark was transmitted from the instrument room, and, with a tremendous sound, the gun recoiled at an easy rate up the railed incline on which it stood. The projectile had achieved a velocity of 2,128 ft. per second, with the remarkably low pressure of 16.1 tons, and the gun was apparently none the worse for the shock, but a second round was deemed necessary to show that it was uninjured. The only adverse consequences were a few broken windows.—*Admiralty Gazette.*

ROBBERY OF AN ARMY PAYMASTER.

MAJOR D. N. BASH, Paymaster U. S. A., who lately changed stations from San Antonio to Cheyenne has had an unlucky experience at the outset of his duties at his new post. While en route to Fort McKinney last week to pay the troops on the February muster he stopped at Antelope Springs to eat his dinner, leaving his valise containing the money ($7,500) in the coach, which stood a few steps from the building, and in plain view.

As he sat at the table, a stranger who had arrived that morning, and was present when the stage came, ran to the vehicle, and seizing the valise jumped on a horse standing near and was off. The paymaster's party ran out firing several shots at the flying robber without effect. Mounting the stage horses they followed the fugitive, who turned in his saddle and fired several shots, which were returned by his pursuers with interest. The robber's horse, however, was far superior to those on which the paymaster's party was mounted, and he was soon lost to sight. Following his trail the valise was found, from which the robber had removed the money, also a pair of pants, minus one leg, evidently utilized by the fugitive as a sack in which to carry his cash. The thief is known to be a cowboy named Charles Parker, who has been until recently on a ranche on the Cheyenne River. Major Bash offers a reward of $1,000 for the capture of the robber, or the return of the money.

IN a letter from Lieutenant R. R. INGERSOLL, U. S. Navy, which we take pleasure in quoting, he says, with reference to letters from Naval officers recently referred to here:

It is very distasteful to engage in any discussion in which the policy and work of responsible officers are involved, especially as those who are free to criticize are not always in possession of all the facts controlling such policy; but the letters quoted seemed to merit some reply in view of the fact that ordnance officers are sometimes placed so that they cannot speak for themselves.

Our Ordnance officers are known, to those who have the honor of their acquaintance, as able, faithful and true men, who have no pecuniary interest whatever, beyond the pay they receive from their Government. They have, however, professional reputations and honor at stake, and I, for one, was not willing to see their motives impugned and the results of their hard work condemned by officers who dared not make in public such accusations as were quoted in the letters in question, over their signatures, without letting it be known that their accusers are almost alone in their opinions. It is a matter of fact that nearly all of the officers of the Service are of the opinion that the ordnance work that has been done has been well done, and that, too, under exceptional difficulties.

No one will claim that the ordnance officers should be saved entirely from criticism—impersonal criticism—and all that their friends claim for them is fair and gentlemanly treatment, but that they should not be submitted to the kind of criticism as has been sometimes indulged in by irresponsible parties.

It is difficult to see just how the interest which any officers have in any foreign armor producing firms can affect the gun question which was the subject under discussion. These officers, if such there be, are not connected with the Bureau of Ordnance and have no voice whatever in the selection of the material to be used either for guns or armor. Moreover, how can they or the firms they represent possibly be benefited, when it is a matter of law that all the material used shall be of domestic manufacture?

LATE ARMY ORDERS.

The conditions imposed by paragaph 73, A. R., 1881, being complied with, leave for one month is granted 2d Lieut. Daniel B. Devore, 23d Inf., Fort Wayne, Mich. (S. O. 62, Div. A, March 25.)

THE KRUPP 118-TON GUN.

"J. M. I.," Captain James M. Ingalls, 1st U. S. Artillery, furnishes the *Herald* with the following range table of the 40 cm. guns constructed by Krupp for the Italian Government:

Range, Yards.	Angle of Projection.	Angle of Fall.	Time of Flight.	Striking Velocity in Ft. per Second.	Total Striking Energy in Foot Tons.	Striking Energy per Inch of Shot's Circumference in Foot Tons
1,000	0° 53′	0° 54′	1.7	1720	41,652	841
1,500.....	1 20	1 24	2.6	1679	39,704	802
2 000. .	1 49	1 56	3.5	1640	37,844	765
2,500	2 19	2 30	4.4	1601	36,065	729
3,000	2 49	3 06	5.4	1563	34,404	695
3,500.....	3 20	3 44	6.3	1527	32,806	663
4,000.....	3 53	4 25	7.3	1491	31,287	632
4,500.....	4 27	5 08	8.4	1456	29,841	603
5,000.. ...	5 02	5 54	9.4	1422	28,472	575
5,500.....	5 39	6 43	10.5	1389	27,172	549
6,000.....	6 17	7 35	11.6	1357	25,940	524
6.500.....	6 56	8 30	12.8	1326	24,767	501
7.000	7 37	9 29	13.9	1296	23,664	478
7,500.....	8 20	10 32	15.2	1268	22,651	458
8,000.	9 04	11 38	16.4	1242	21,720	439
8,500.....	9 50	12 48	17.7	1217	20,862	422
9,000.....	10 39	14 01	19.0	1194	20,068	406
9.500	11 29	15 18	20.4	1172	19,345	391
10 000.....	12 22	16 41	21.8	1152	18,688	378

Captain Ingalls gives the following data relating to the construction of the range table: Diameter of bore, 40 centimetres = 15.7483 inches; weight of projectile, 920 kilograms = 2028.23 pounds; muzzle velocity, 550 millimetres = 1804.5 foot seconds. He says: "The range table was computed by means of the formulas and tables in use at the U. S. Artillery School, and the results agree with those deduced from the experimental firing at Meppen. In making the calculations the coefficient of reduction (C) was taken at 0.9192. It will be seen that the total or "smashing" energy of the projectile at 10,000 yards (5.6 miles) is 18,688 foot tons, or 2,000 foot tons, more than the muzzle energy of our new 12 inch breech loading rifle. The maximum elevation that can be given to the gun is 18 degrees, and the corresponding range is 12,715 yards, or about 7¼ miles, and the striking velocity 1082 f. s. At 3,000 yards the projectile can penetrate 30 inches of wrought iron."

PAYMASTER'S CLERKS OFFICERS.

IN the case of Geo. E. Hendee v. the United States, the Court of Claims decides as a conclusion of law, that the claimant is entitled to credit for the time he served as paymaster's clerk, and to judgment for $8,178.01. The question raised was whether or not a paymaster's clerk is an officer of the Navy within the meaning of the Act of March 3, 1883, giving officers of the Navy credit for the actual time served as officers or enlisted men. The Court quotes and interprets the cases of Germaine (99 U. S., 508,) and Reed (100 U. S., 13,) showing the distinction made between the strict construction of a penal statute in favor of the accused and the more liberal construction of a statute intended to confer benefits, such as that under consideration. It says:

"These opinions strongly imply that there may be persons in the employment of the Government who from the tenure of service, nature of employment and duties may be known and styled as officers for some purposes and in some connection, though not technically so by appointment under the provisions of the Constitution.

"We find in the Navy a class of officers called 'petty officers,' recognized as such by the statutes (Rev. Stats., 1410), but without any statute provision as to how they shall be appointed. By the regulations they are appointed by or with the approval of the commander of the vessel on which they are employed. We hardly think any one would doubt that such officers are entitled to the benefits of the acts we are now considering.

"The same section of the Revised Statutes (§1410) which defines who are petty officers, also most clearly classes clerks as *officers not holding commissions or warrants*, and not entitled to them, but still officers of the Navy. It provides that "all officers not holding commissions or warrants, or who are not entitled to them, except . . . and except secretaries and clerks, shall be deemed petty officers." . . .

"If we consider the appointment, nature of service and duties, we find that paymasters' clerks are regularly appointed by and with the approval of superior officers (Navy Regulations of 1876, sec. 3, par. 9, p. 95), that they receive annual salaries fixed by statute (R. S., sec. 1056), take an oath, have continuing and permanent duties until discharged by the same power that appoints them, and otherwise come within the idea implied by the term officers as described by Mr. Justice Miller in the Germaine Case.

"In the Navy Regulations, of which we take judicial notice, those of 1865, clerks were expressly enumerated under the title of "*Line and staff officers with their relative rank*," and in rank were classed with midshipmen (Art. 2, pars. 5, 22). In the more recent regulations of 1876 they seem to have no classification. But in several orders and official papers of the Secretary of the Navy they are referred to and treated as officers. In two orders set out in the findings they are expressly so designated, and by letter from the Secretary to the Fourth Auditor under date of February 9, 1882 (Finding III.) they are held subject to the provisions of Revised Statutes, section 4808, which are as follows:

"'Sec. 4808. The Secretary of the Navy shall deduct from the pay due each *officer*, seaman, and marine in the Navy, at the rate of twenty cents per month for each person, to be applied to the fund for Navy hospitals.'

"If they are subject to this tax it is because they are held to be officers of the Navy; and if they are so held for the purpose of taxation for the support of Navy hospitals, they ought to be so held for the purpose of receiving benefits under the longevity statute which confers such benefits upon 'all officers of the Navy.'"

The case of *In re* Bogart, tried in the Circuit Court, District of California, Judge Sawyer is quoted. In his conclusion Judge Sawyer said of a paymaster's clerk:

> He was *an officer* of the same class as the paymaster himself, the surgeon, engineer, etc., viz.: a staff officer; and he ranked with midshipmen, who are line officers. (3 Sawyer C. C. R., 407.)

The Court of Claims says in conclusion: "In our opinion the benefits allowed by the act of 1883 to officers of the Navy apply not only to those who are strictly and technically such by appointment as provided by the Constitution, but to all who are called, recognized, or treated as such by the statutes, the regulations, or the practice of the Navy Department, and that paymaster's clerks are among the latter class."

NEW PUBLICATIONS.

Just as the Ocean Yacht race for $20,000 is directing general attention to Captain S. Samuels, who sails the *Dauntless*, appears the Captain's autobiography, "From the Forecastle to the Cabin," an illustrated volume published by Harper Bros. It proves that the skill of Capt. Samuels as a raconteur equals his capacity as a sailor, and that, all will agree, is sufficient proof of its interest. There is not a dull line in it, and it is certainly a collection of most remarkable experiences, most entertainingly described. There is a completeness about some of the Captain's stories which would, if they were fiction, raise the question whether they were not somewhat overdrawn for the true artistic effect which requires that they should be kept within the probabilities. For example, he tells of a Swedish sailor who joined him in rescuing an imprisoned beauty from the harem of the Pasha of the Turkish Army, their sympathies having been appealed to by a note dropped at their feet from her window overlooking the street. Of course a marriage must follow and the captive fell to the lot of the Swede. Samuels had one wife already, fortunately for his peace of mind, for the Swede discovered in the beauty one whom he had mourned for years. A flaxen haired girl of his early love removed from Sweden to Moscow with her family; there her marvellous beauty attracted universal attention, but she yielded to none. Finally her father became a grain exporter at Alexandria and his daughter accompanied him in the frequent journeys into the interior of Egypt which his business required. During one of these excursions their caravan was assaulted by Arabs. The men were slaughtered and robbed, and the women were disposed of among the chiefs. The daughter fell to one who sold her into the harem, whence she was rescued by her boy lover. The most skilled narrator could not tell this story better than does Captain Samuels; indeed, his autobiography as a whole, tends to show, as did that of General Grant, that the straightforward narration of actual experiences makes a style of its own which the expert in literature cannot improve upon. Sinbad the Sailor and Robinson Crusoe gain nothing in interest by comparison with this work. A man who was thrice swept overboard in a storm and each time rescued unhurt; who has as many lives as a cat and has put each one in jeopardy in some marvellous experience; who has a thorough appreciation of the humors as well as the horrors of the sea, could not well fail to make an interesting story if he told simply and clearly what he has experienced, as Captain Samuels has done. Like all old salts he mourns the decadence in his profession, and has some sharp words "for the benefit of our Washington law-makers who look with indifference upon the loss of our navy and the brave men who played such a prominent part on the seas in 1776-1812, 1861-'65." Captain S. says, in concluding his volume: "But for these heroes, whose nursery was our mercantile marine, this nation of freemen and free government would not now be in existence. Through this indifference our naval power has sunk below that of the smallest nation on the globe."

"The loudest clamors for free ships are from those who never raised their arms in battle for our country. No sailor who loves his country and flag will encourage an enemy who took such mean advantage in our struggle for life as to allow freebooters to leave his harbors and prey upon our defenceless shipping. The destruction of our commerce through her treachery has given England supremacy on the seas. Fie upon the coward who says we can't build ships equal to hers, and asks for permission to buy her ships."

We have two more volumes of that excellent series now in course of publication by Messrs. Geo. P. Putnam's Sons entitled "The Story of the Nations." The first is "The Story of the Normans," told chiefly in relation to their conquest of England, by Sarah Orne Jewett; the second is "The Story of Persia," by S. G. W. Benjamin, lately United States Minister to Persia. Mr. Benjamin has peculiar qualifications for his work, not only because of his residence in Persia as the official representative of the United States, but because of a previous familiarity with the Orient which led to his appointment as Minister to Persia. This acquaintance has resulted in a higher and, as Mr. Benjamin thinks, a more just estimate of the character of Orientals than many European writers have conceded to them. Some portions of Persian history have never received full justice from Christian historians and it is to these that Mr. Benjamin devotes attention as well as to the legendary period of Persian history preceding the commencement of the Greek annals. "No nation," says Mr. Benjamin "has more attractive legends than Persia, and to judge from them we cannot avoid the conclusion that no nation now existing has such a continuous vitality as the old land of Cyrus and Xerxes." The volume by Miss Jewett has less originality, being simply a restatement in an interesting narrative of the well-known facts of Norman history from the days of "Rolf the Ganger" first duke of the Normans, 911 927, to the death of William the Conqueror, 1087, from which time Norman influence is to be traced in the history of England and of France and of the Low Countries.

W. H. Morrison, Washington, has published an abridgment of Military Law by Lieut.-Col. W. Winthrop, Deputy J. A. General, U. S. A., Professor of Law, U. S. Military Academy. It is a work prepared for the use of the cadets of the First Class of the Military Academy as the text book in place of the work of Lieut. Ives. As such, it was adopted by a unanimous vote of the Academic Board, was approved by the Secretary of War, and is now being studied by the First Class in the law course of the Academy. As the author of the Annotated Digest of Opinions of the Judge-Advocate General and the recently published work on Military Law, Col. Winthrop had a previous experience which fitted him in an eminent degree to undertake this work. It presents first the "military law proper," next the "law of war," and finally considers the civil functions and relations of the military. In an appendix are given the Articles of War and various forms. It is a very handy volume, neatly bound in red leather, and furnishes a vade mecum for the Army officer as well as for the cadets of the Academy.

Messrs. Houghton, Mifflin and Co., of Boston and New York, publish the thirty-first edition of that admirable story "The Fair God, or the Last of the 'Tzins;" a tale of the conquest of Mexico, by Lew Wallace, whose reputation as one of the volunteer soldiers of the war is well known to the Army. Those should now read it who never read before and those who read before now read the more. It is unquestionably one of the best stories of this kind that has ever issued from the American press, and though quite different from the current studies of character to which American fictitious literature tends it is in its way not less interesting and characteristic.

"On the Susquehanna" is the title of the fifth of the series of novels by ex-Surgeon General Wm. A. Hammond, which are published by D. Appleton and Co. It is a marvel how he can find time in the midst of the exactions of his profession to devote so much attention to literature. It is equally marvellous that a man whose life has been devoted to the contemplation of the hard facts of medical experience should, in his declining years, develop such a faculty for invention.

In 1886 there were published 3,984 new books and of new editions 1,226—a total of 5,210, as follows: Theology, including sermons, 752; educational, 572; juvenile works and tales, 445; novels, 969; law and kindred subjects, 33; political and social economy, trade and commerce, 246; art, science and illustrated works, 178; voyages and travels, 221; history and biography, 350; poetry and the drama, 93; year books and serials, 294; medicine and surgery, 171; belles-lettres essays, and monographs, 479, and miscellaneous, 407.

THE ARMY.

G. O. 25, H. Q. A., March 21, 1887.

Publishes the following acts of Congress:

Authorizing Frank W. Hunt to erect and maintain a ferry across the Missouri River at the military reservation of Fort Buford, Dakota Territory.

For the construction of a military telegraph line from Sanford to Point Jupiter, Fla., and the establishment of a signal station:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the sum of $17,000 be, and the same is hereby, appropriated, out of any money in the Treasury unappropriated, for the construction of a military telegraph line on the eastern coast of the State of Florida from a point at or near Point Jupiter, Florida, to Sanford, Florida, or to the nearest point of railroad communication, and for the establishment of a station for the taking of meteorological observations and the display of storm-signals at Point Jupiter; the said line and station to be constructed, maintained, and operated under the direction and control of the Secretary of War, in connection with the establishment of signal and display stations for the observation and report of storms for the benefit of commerce and agriculture.

Approved, February 17, 1887.

Granting the right of way to the Prescott and Arizona Central Railway Company across the Whipple Barracks Military Reservation, in Arizona.

Authorizing the city of Newport, R. I., to use the site of Fort Greene as a public park.

Authorizing the Fremont, Elkhorn and Missouri Valley Railroad to build its road across the Fort Meade Military Reservation.

Authorizing the construction of a gravelled road to the Richmond National Cemetery, near Richmond, Virginia.

Providing for grading and paving the approaches to the national cemetery near Danville, Virginia.

Providing for the settlement of accounts with the Mobile and Ohio Railroad Company.

Providing for the payment of per diem laborers to Government employ on "Memorial" or "Decoration Day" and the Fourth day of July of each year as on other days.

G. O. 26, H. Q. A., March 22, 1887.

Publishes the following acts of Congress:

Authorizing the Secretary of War to accept certain lands, and so forth, near Chicago, Illinois.

To effect a rearrangement of grades of office in the Adjutant General's Department of the Army.

To correct the record of Captain Edmond G. Fechét.

To authorize the sale of the United States Barracks property in the city of Newport, Kentucky, and the purchase of a new site and the erection of buildings thereon.

Authorizing the Secretary of War to grant a permit to John F. Chamberlain to erect a hotel upon the lands of the United States at Fortress Monroe, Virginia.

For the repair and preservation of the road, heretofore constructed by the Government, leading from Vicksburg to the national cemetery adjacent thereto.

For the relief of William J. Mulvey.

Authorizing the Secretary of War to deliver to the Somerville Grand Army of the Republic, of Somerville, Mass., four condemned gun-carriages, to be used for monumental purposes.

To authorize the Secretary of War to credit the Territory of Dakota with certain sums for ordnance and ordnance stores issued to said Territory, and for other purposes.

G. O. 2, DEPT. OF DAKOTA, March 3, 1887.

Publishes, for general information, descriptions of the boundaries of military and Indian reservations, with itineraries of routes in the department; also tables indicating the geographical position of posts, and the dimensions, area and geographical position of the department, compiled by 1st Lieutenant John Biddle, Corps of Engineers, Chief Engineer Officer.

(This is a valuable document, exhibiting careful compilation.—ED. JOURNAL.)

G. O. 3, DEPT. OF DAKOTA, March 14, 1887.

Fixes the number of extra duty men in the quartermaster's department, at several posts in the department, and directs that labor, other than that covered by the duly authorized allotment, or as specially authorized by the department commander, must be performed by fatigue parties—the details therefor to be for less than ten days.

G. O. 7, DEPT. OF THE COLUMBIA, Feb. 28, 1887.

Publishes detailed instructions as to the use of reloading tools and headless shell extractors.

G. O. 8, DEPT. OF THE COLUMBIA, March 3, 1887.

The target practice season at posts for 1887 is as follows:

Boise Barracks, I. T.—May, June and July.
Fort Canby, W. T.—April, May and June.
Fort Cœur d'Alene, I. T.—June, July and August.
Fort Klamath, Oregon—June, July and September.
Fort Spokane, W. T.—May, June and October.
Fort Townsend, W. T.—May, June and October.
Vancouver Barracks, W. T.—April 20 to July 19.
Fort Walla Walla, W. T.—April, May and June.

G. O. 9, DEPT. OF THE COLUMBIA, March 4, 1887.

The last clause of Par. 2, G. O. 2, c. s., is revoked, the Lieut. Gen. having decided that it is in violation of Par. 487, A. R., as amended by G. O. 42, of 1885, from the A. G. O.

(The clause in question *directs* that figure targets be used, preferable at pistol practice, and the practice conducted individually and by squad, platoon and troop at all gaits.)

CIR. 3, DEPT. OF THE COLUMBIA, March 8, 1887.

Publishes for the information and strict observance of post commanders, letter from Lieut. Col. H. M. Lazelle, A. I. G., suggesting that officers appointed to inspect property reported unserviceable be required to state particularly, after each article or class of articles, the nature, extent and cause of damage, and that the method pursued by some of disposing, by a sweeping, general remark, of all the property submitted in the inventory, be discontinued.

G. O. 8, DEPT. OF ARIZONA, March 14, 1887.

The Department Commander regrets to announce the death of 2d Lieutenant Seward Mott, 10th Cavalry, at San Carlos, Arizona, on the 11th instant, from wounds inflicted by a Tonto Indian belonging to San Carlos reservation.

The death of this young officer of distinguished name and lineage is especially painful, by reason of his having so recently entered the service with bright prospects and a laudable ambition which promised a career of active usefulness in his chosen profession, and is another instance of a valuable life sacrificed in the honest effort to elevate a race from barbarism to the comforts and blessings of civilization.

By command of Brig. Gen. Miles:
M. BARBER, Asst. Adjt.-Gen.

G. O. 1, CORPS OF ENGINEERS, March 1, 1887.

In accordance with the requirements of Par. 6, "Instructions in Rifle and Carbine firing for the U. S. Army," and of G. O. 27, H. Q. A., series of 1885, the practice season for the post of Willet's Point, N. Y., for the current target year, will be the months of May, June and July.

CIR. 3, DEPT. OF THE MISSOURI, March 12, 1887.

By direction of the division commander, service in the field, unless under very exceptional circumstances, will not be accepted hereafter as an excuse for omitting to have the prescribed target practice. Troops going into the field during the practice season for more than a few days at a time must take with them targets and frames or the material for making frames, and must pursue, when it is at all practicable, the prescribed course of target firing.

Post, troop and company commanders will be held to the most rigid accountability concerning these instructions.

By order of Brig.-Gen. Willcox:
J. P. MARTIN, Asst. Adjt.-General.

G. O. 3, DEPT. OF THE MISSOURI, March 14, 1887.

The use of Winthrop's "Abridgement of Military Law," as the text book on that subject at the U. S. Military Academy having been approved by the Secretary of War, it is, so far as may be practicable, adopted as a standard book of reference at these Headquarters; and its use recommended throughout the Department, both for its intrinsic excellence and uniformity of practice and rulings in court-martial cases.

By order of Brig.-Gen. Willcox:
E. F. WILLCOX, Aide-de-Camp,

G. O. 4, DEPT. OF CALIFORNIA, March 14, 1887.

Hereafter, Judge-Advocates of General Courts-Martial convened in this Department will return the original charges and enclosures, on the completion of the cases, to these Headquarters for file.

By command of Maj.-Gen. Howard:
CHAUNCEY MCKEEVER, Asst. Adjt.-General.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig. Gen. David S. Stanley, accompanied by Lieut. David J. Rumbough, A. D. C., will proceed to Fort Clark on public business (S. O. 33, March 12, D. Texas).

Brig. Gen. George Crook, accompanied by 2d Lieut. Lyman W. V. Kennon, A. D. C., will proceed to Forts Robinson, Neb., Laramie and D. A. Russell, Wyo., on public business (S. O. 28, March 16, D. Platte).

Adjutant and Inspector Generals.

Lieut. Col. E. M. Heyl, Inspr. Gen., will proceed to Fort Concho, and thence to Fort Bliss, on public business (S. O. 33, March 12, D. Texas).

Quartermasters and Subsistence Departments.

Col. Alexander J. Perry, A. Q. M. Gen., Chief Q. M. Dept., will proceed to Monterey, Cal., on duty in connection with the Q. M. Dept. (S. O. 16, March 8, D. Cal.)

During the absence of the Chief Quartermaster, Major Almon F. Rockwell, Q. M., will assume charge of the office and perform the duties (S. O. 20, March 11, D. Dakota).

The C. O., Fort Sisseton, D. T., will grant a furlough for twenty days to P. Q. M. Sergt. George Eppert (S. O. 19, March 9, D. Dakota).

Major G. B. Dandy, Chief Quartermaster, will proceed to Lusk, Wyo., on public business (S. O. 26, March 14, D. Platte).

Major John P. Hawkins, Chief C. S., will proceed to Pierce, Neb., on public business (S. O. 27, March 15, D. Platte).

Medical Department.

Leave for twenty days is granted Major P. J. A. Cleary, surgeon (S. O. 29, March 15, D. Ariz.)

A. A. Surg. S. T. Weirick is relieved from temporary duty at Fort Huachuca, and will proceed to Fort McDowell, for temporary duty, relieving Asst. Surg. C. F. Mason (S. O. 29, March 15, D. Ariz.)

Engineers and Ordnance Departments.

Leave for twenty days, with permission to go beyond sea, is granted Capt. Carl F. Palfrey, C. E. (S. O., March 21, H. Q. A.)

Col. John M. Wilson, C. E., will proceed to New York City on public business (S. O., March 18, H. Q. A.)

The Board of Officers of the Corps of Engineers, constituted by Par. 1, S. O. 141, Sept. 25, 1886, will reconvene at Philadelphia, Pa., March 23, 1887, or as soon thereafter as practicable, to continue the consideration of the questions before it (S. O. 47, March 18, C. E.)

Signal Corps.

Brig. Gen. Adolphus W. Greely, Chief Sig. Officer, will proceed to New York City to inspect telegraph wire and material to be used in constructing telegraph line on the coast of Florida (S. O., March 22, H. Q. A.)

2d Lieut. Benjamin M. Purssell will proceed to Jacksonville, and thence to Titusville, where he will take station. He will afterwards proceed from Titusville to Jupiter Inlet, and return, on business connected with the construction of a telegraph line between those places (S. O., March 22, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

The following promotions are announced: 1st Lieut. Frederick K. Ward, Troop A, to be Captain Troop F, Feb. 11, 1887, vice Parnell, retired; 2d Lieut. J. F. Reynolds Landis, Troop D, to be 1st Lieutenant Troop A, Feb. 11, 1887, vice Ward, promoted. Capt. Ward will proceed to Fort Assiniboine, M. T., and join the troop to which he has been promoted (S. O. 21, March 12, D. Dak.)

1st Sergt. G. H. Guard will appear before a Board at Fort Shaw, M. T., for examination for promotion to 2d Lieutenant (S. O. 20, March 11, D. Dak.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell Ariz.

A furlough for two months is granted Sergt. McClellan Rankin, Troop H (S. O. 29, March 15, D. Ariz.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

The leave on Surgeon's certificate granted 1st Lieut. Edwin P. Andrus is extended four months on Surgeon's certificate (S. O., March 22, H. Q. A.)

The following transfer and assignment in the 5th Cav. are ordered, to take effect March 11, 1887: 1st Lieut. Augustus C. Macomb (whose promotion carries him to Troop L), is transferred to Troop F, and will join that troop for duty. 1st Lieut. Eben Swift, relieved as Regimental Adjutant, is assigned to Troop L (S. O., March 24, H. Q. A.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The leave for seven days granted Capt. Winfield S. Edgerly, Fort Meade, D. T., is extended twenty-three days (S. O. 19, March 9, D. Dak.)

Sergt. M. M. McNamee, Troop G, will appear before a Board at Fort Meade, D. T., for examination for promotion to 2d Lieutenant (S. O. 20, March 11, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

1st Lieut. Charles M. O'Connor, at Fort Brown, having been selected for appointment as Adjutant, will repair to San Antonio and report in person to his regimental commander (S. O. 34, March 16, D. Tex.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

The following promotion is announced: 1st Lieut. John Conline, Troop A, to be Captain Troop C, Feb. 11, 1887, vice Valois, retired. Capt. Conline will proceed to Fort Robinson, Neb., and join his troop, but before doing so is authorized to avail himself of the leave granted him in S. O. 26, Div. Missouri (S. O. 26, March 14, D. Platte.)

Major James F. Randlett is relieved from duty at Fort McKinney, Wyo., and will proceed to Fort Du Chesne, Utah, and report for duty. On the arrival of Major Randlett at Fort Du Chesne, Col. Edward Hatch (after giving Major Randlett full information and instructions about carrying on the work, etc., now under way), is relieved from duty at that post and will proceed to Omaha, Neb. (S. O. 27, March 15, D. Platte.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

Leave for two months on Surgeon's certificate is granted 2d Lieut. Powhatan H. Clarke (S. O. 11, March 8, Div. P.)

Leave for four months on Surgeon's certificate, with permission to go beyond sea and to apply for an extension of two months, is granted Major Frederick Van Vliet (S. O., March 21, H. Q. A.)

In Orders 16, of March 17, Gen. Grierson announces the death of Lieut. Seward Mott, at San Carlos, March 11, by the hand of an Indian assassin, and says: He was shot in the most cowardly manner while unarmed and in the performance of his duty. Although he had been but a short time with the regiment, being the junior officer in it, he had, by his industry, ambition, and conscientious discharge of duty, as well as by his rare social qualities, endeared himself to all whom he met. The sincere sympathy of all is extended to his family and friends in their sad bereavement by the untimely end of this young and promising life. [See also Gen. Miles's order in regard to Lieut. Mott, in another column.]

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

Leave for one month on Surgeon's certificate is granted Lieut.-Col. Alexander Piper (S. O. 14, March 2, D. Cal.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

William Schauer, formerly of Bat. E, an inmate of the Soldiers' Home, committed suicide there March 20.

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

The following changes in stations are ordered: Lieut.-Col. La Rhett L. Livingston from Fort Warren, Mass., to Fort McHenry, Md.; Major Richard Lodor from Fort McHenry to Washington Barracks, D. C., and Major Edmund C. Bainbridge from Washington Barracks to Newport Barracks, Ky. (S. O. 58, March 21, Div. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; E and K, Ft. Schuyler, N. Y.; M, Ft. Wood, N. Y. H.
* Light battery.

Leave for sixteen days is granted 1st Lieut. Solon F. Massey, Fort Douglas, Utah (S. O. 28, March 16, D. Platte.)

Capt. Samuel M. Mills is relieved from duty in Washington, to take effect April 1, and will join at Fort Monroe, Va. (S. O., March 19, H. Q. A.)

The leave granted Major Marcus P. Miller, Inspector of Rifle Practice, is extended three days (S. O. 61, March 24, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

Major Edward Moale is assigned to duty at the Presidio of San Francisco, Cal. (S. O. 18, March 14, D. Cal.)

1st Lieut. Lewis H. Strother is, at his own request, relieved from duty at the Virginia Agricultural and Mechanical College, Blacksburg, and will join his regiment (S. O., March 18, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

2d Lieut. T. H. Wilson will proceed to the Bellevue Rifle Range on public business (S. O. 27, March 15, D. Platte.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Leave for fifteen days is granted 2d Lieut. Haydn S. Cole, Fort Custer, M. T., to take effect about April 20 (S. O. 19, March 9, D. Dak.)

Q. M. Sergt. G. A. Detchmendy will appear before a Board at Fort Shaw, M. T., for examination for promotion to 2d Lieutenant (S. O. 20, March 11, D. Dak.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

Sergt. James Baylies, Co. A, and Corpl. Charles Gloster, Co. K, will appear before a Board at Fort Keogh, M. T., for examination for promotion to 2d Lieutenant (S. O. 20, March 11, D. Dak.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Lieut.-Col. Edward Collins will proceed to Fort Laramie, Wyo., and report for duty (S. O. 27, March 15, D. Platte.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

Leave for twenty days is granted Capt. A. H. Bowman (S. O. 29, March 15, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

Leave for two months, to take effect on or about March 29, is granted 1st Lieut. Thomas J. Clay, with permission to apply for an extension of one month and fifteen days (S. O. 12, March 10, Div. P.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

Leave for twelve days is granted Capt. Ogden B. Read, Fort Yates, D. T. (S. O. 21, March 12, D. Dak.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Major H. C. Cook, having reported, in compliance with S. O. 52, H. Q. A., is assigned to station at Fort Bayard, N. M. (S. O. 30, March 16, D. Ariz.)

The following assignments and transfers in the 13th Inf. are made: 1st Lieut. C. S. Hall (promoted from Co. A to Co. D), is transferred from Co. D to Co. A, and 1st Lieut. J. H. H. Peshine from Co. A to Co. B; 1st Lieut. James Fornance (recently relieved as Regimental Adjutant), is assigned to Co. D (S. O., March 24, H. Q. A.)

The survivors of the old 1st Battalion, 13th U. S. Infantry, will hold their third annual reunion in Dubuque, Ia., April 19, 20, and 21, in connection with the State Encampment of the G. A. R. and the meeting of the ex-Prisoners of War Association of the Northwest.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T. A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

The leave for one month granted 1st Lieut. George T. T. Patterson is extended one month (S. O. 12, March 10, DIV. P.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

1st Lieut. John Newton will be relieved from special duty at Fort McIntosh, March 31, and will join his company at Fort Concho (S. O. 33, March 12, D. Tex.)

1st Lieut. Eugene Cushman will proceed to Columbus Barracks, O., and report to conduct to Texas recruits for the 16th Inf., ordered to that regiment. On the completion of this duty he will rejoin his company (S. O. 44, March 16, Rec. Ser.)

Sergt. Louis V. De Birny, Co. D, Corpl. Charles Bougere, Co. E, and Corpl. Earl C. Carnahan, Co. G, will report for examination for promotion to 2d Lieutenant (S. O. 34, March 16, D. Tex.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Leave for two months upon Surgeon's certificate is granted Capt. George M. Downey (S. O. 31, March 16, Div. M.)

Leave for two months is granted 1st Lieut. John S. Parke, Jr., Fort Sidney, Neb. (S. O. 31, March 16, Div. M.)

1st Lieut. Joseph W. Duncan, Adjt., is detailed on Gen. Rec. Service at Fort Sidney, Neb., in place of 1st Lieut. Daniel Cornman, relieved (S. O. 28, March 16, D. Platte.)

The ration of bread for issue to the troops at Fort Sidney, Neb., is increased to twenty two ounces for April and May, 1887 (S. O. 27, March 15, D. Platte.)

In Orders 7, of March 15, Gen. Morrow relieves 1st Lieut. Daniel Cornman from duty as Regimental Adjutant, and says: In relieving him from the position which he has filled for upwards of four years with credit to himself and to the perfect satisfaction of his commanding officer and the regiment at large, the regimental commander embraces the opportunity to express for Lieut. Cornman his warm per-

sonal attachment, and his high appreciation of the honorable and soldierly manner in which he has performed all his duties. To satisfy the demands of discipline and at the same time preserve the cordial good feelings of brother officers is not always an easy task. In saying that Lieut. Cornman has done this, the regimental commander pays him a high compliment, a compliment he finds all the more pleasure in paying because it is well merited. 1st Lieut. Joseph W. Duncan is appointed Regimental Adjutant. Lieut. Cornman is assigned to Co. F, vice Lieut. Duncan.

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

The Q. M. Dept. will furnish Sergt. George H. Booker, Co. I, on furlough from Fort Lyon, Colo., transportation from New York City to West Las Animas, Colo. (S. O. 59, March 22, Div. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, March 19, 1887.

CASUALTIES.

Captain Frank Reynolds (retired), died March 4, 1887, at Oakland, California.

O., March 21, H. Q. A.)

A Board of Officers is constituted to meet at Fort Hamilton, N. Y. H., April 4, to make a preliminary examination into the claims and qualifications of Sergt. James F. Nulty, Co. B, and Corpl. William C. Neary, Co. E, Battalion of Engineers, and Corpl. G. A. Jakel, Bat. M, 5th Art., candidates for promotion. Detail: Col. John Hamilton, Major Abram C. Wildrick, and Capt. John R. Brinckle, 5th Art.; Capt. Rudolph G. Ebert, Asst. Surg., and 1st Lieut. Paul Roemer, 5th Art. (S. O. 60, March 23, Div. A.)

A Board of Officers is constituted to meet at Washington Barracks, D. C., April 4, to make a preliminary examination into the claims and qualifications of 1st Sergt. Thomas J. Watkins and Sergt. William D. Stanfield, Light Bat. C, and Sergt. Homer Guerry, Bat. H, 3d Art., candidates for promotion. Detail: Col. H. G. Gibson and Major Richard Lodor, 3d Art.; Capt. Timothy E. Wilcox, Asst. Surg.; Capt. James Chester and 1st Lieut. Ramsay D. Potts, 3d Art. (S. O. 60, March 26, Div. A.)

Inspection of Money Account.—The following-named officers are designated to make the inspection of the money accounts of post disbursing officers: At Angel Island, Cal., Colonel William R. Shafter, 1st Infantry; at Alcatraz Island, Cal., Major John I. Rodgers, 1st Artillery; at Benicia Barracks, Cal., Lieutenant-Colonel Charles G. Bartlett, 1st Infantry; at Fort Bidwell, Cal., Major David S. Gordon, 2d Cavalry; at Fort McDermit, Nev., Captain Robert G. Armstrong, 1st Infantry; at Fort Gaston, Cal., Captain William E. Dougherty, 1st Infantry; at the Presidio of San Francisco, Cal., Major Frank T. Bennett, 2d Cavalry; at Fort Mason, Cal., Captain John A. Darling, 1st Artillery (S. O., 15, Mch. 4, D. Cal).

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

The Pensacola *Advance* says: "Geronimo, Mangus, and Natchez are engaged in the work of grubbing out Ti-Ti and making gardens at Pickens. The rumor is current that the Indians at Pickens are to be restored to their families and given the island reservation, where they will be guarded to prevent escape."

"Buck Eye" in a letter to the Cincinnati *Commercial Gazette* says: "The question of the removal of the Newport Barracks from their present location to a point above flood marks is of more importance to the people of Cincinnati than is generally understood, and in the selection of the new site the interests of this city should be well cared for. The barracks are not for the exclusive protection and benefit of the people of Newport, but the greater and more important city of Cincinnati should share equally with her south side suburb in the benefits to follow. There should be some action taken in this matter, and the commission to examine and decide upon the site for the new barracks should be provided with all the information necessary, that a selection may be made which will fully protect Cincinnati and her diversified interests. Will the Chamber of Commerce take an interest in the matter?"

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

The Santa Fe will have its road completed within sixteen miles of Fort Elliott, Tex., by July 15.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch of March 20th from Tucson says the Indian who killed Lieutenant Seward Mott, 10th U. S. Cavalry, and wounded Frank Porter, has been captured.

(Correspondence of the Army and Navy Journal.)

WASHINGTON BARRACKS, D. C.

RECREATION HALL, on the evening of March 17, was the scene of the second annual ball of the Shamrock Social Society, which all agree in saying was the most delightful entertainment ever given at the barracks. The 3d Artillery orchestra, under the leadership of Prof. Schuenfeldt, furnished the music. The members of the society appeared to advantage in their bright uniforms, and the toilets of the ladies were exquisite. Among the number present were the following-named officers and gentlemen: Gen. H. G. Gibson and ladies, Col. Edmd. Bainbridge and ladies, Captain Smith and lady, Major Frank Hess and ladies, 1st Lieut. and Adjt. Lemly, 1st Lieut. and R. Q. M. Satterlee, 1st Lieut. Constantine Chase and ladies, Captain Eaton and lady, 1st Lieut. John D. C. Hoskins and Miss Jennie Hoskins, and Lieut. John D. Barrette.

A beautifully engraved French clock and mantel set of exquisite design was presented to 1st Lieut. John D. C. Hoskins, 3d Artillery, by the enlisted men of this post, on his being relieved from the adjutancy of the regiment. The committee selected to make the presentation was Sergeant-Major Semler, 1st Sergeants Hays, Rhummitz, Jennings, Guba, Watkins, and Sergeants Murphy and Bryant. Sergt.-Major Semler, being spokesman, said: "We present you this clock and mantel set as a token of our esteem and high regard and our kind feelings toward you as an officer and a gentleman. We are at a loss for words to express the gratitude that each and every one owes to you, and it is our wish and hope that you will yet live to use it as a major-general. We tender you our best wishes for your future welfare and happiness." Lieutenant Hoskins responded briefly and feelingly.

The second of the series of medical lectures was delivered on Thursday evening, March 10, by Capt. Timothy E. Wilcox, Assistant Surgeon, U. S. A., subject, "Hemorrhages."

The band serenaded Mrs. General Gibson on Wednesday morning, March 16, at 5 o'clock, it being the twenty-fourth anniversary of her marriage.

The officers and ladies of the post gave their usual weekly hop March 18. AULD LANG SYNE.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

MARCH 17, 1887.

THIS is the day of days, and oh! how my heart warms to the "ould dart," even though I wear Uncle Sam's blue and have sworn to love, honor, and obey the Stars and Stripes. Having no "potcen" in stock I am obliged to fall back upon the local beverages, and an envious comrade sarcastically remarks that I will fall on my back before the day is spent. Gen. Terry and Col. Lee, accompanied by Gen. Stanley and Lieut. Rumbough, A. D. C., left on Sunday for Fort Clark, thence to El Paso. They will return about March 31. Major J. A. Wilcox, 8th Cav., called at Headquarters on Monday on his way from Clark to Ringgold. Major Parke, 16th Inf., was here last week on his way to Concho. Insp.-Gen. Heyl left last night for Concho and Bliss. The usual weekly hop was held on Monday, and to-night Captain and Mrs. Simpson give a reception and dance which promises to be "the affair" of the season. Colonel and Mrs. Clendenin are here for a few days on their way from Florida to Davis. The weather is delightful, although a trifle warm. Major Arthur, the genial William, moves into his recently purchased residence, April 1. The San Antonio Club, the club *par excellence*, tendered Gen. Terry a reception on his return from Bliss, but the General was obliged to decline, as he intends to pass through San Antonio without stopping. I note Forsyth is up for the next Brigadier-Generalship. On a special Brackett on my bureau I had a prognostication card, but have now taken it down. I note, too, with all the delight of a collector of chestnuts, your allusion to the "reward of Merritt," and could go you one better if the chips were convenient. JOEY BAGSTOCK.

FORT SIDNEY, NEB.

THE *Excelsior* of March 19 says:

Mrs. Dr Ewen has returned from an extended Eastern trip.... Major C. I. Wilson, Paymaster, has visited the post, to the general delight.... The annual ball of the Fort Sidney Social Club took place Monday evening, and was in many respects the event of a gay season.

(Correspondence of the Army and Navy Journal.)

MASQUERADE BALL AT MADISON BKS.

"IT was a great big go," as the metropolitan scribes nowadays announce a success. It delighted the invited guests, paralyzed with astonishment the hayseed villagers, and relieved from a terrific suspense those who had undertaken quite a large contract. Yes, to soar into poetic realms,

"There was a sound of revelry by night,
Madison Hall was a blaze of light,
And soft eyes looked love to eyes that spake."

Come off, suggests some one at my elbow. All right, a good soldier always obeys the last order. But it really was a grand affair. It was pronounced such by the officers of the post and their families, who, by their presence upon the "reviewing stand," imparted an added zest and grace to the occasion. It was on St. Patrick's Day in the Evening, and, owing to the unavoidable detention of the Paymaster, it was likewise on pay day, so that the lapses incidental to either of these occasions might have been anticipated by the timid; but to the great credit of the post be it said, in the words of one of the maskers, "Divil a bad break was there at all, at all."

It's no use to look for anything coherent from a correspondent who has been dancing at the rate of twenty knots an hour, from tattoo to reveille. Memories of Knights and Ladyes Fayre, Courtiers and Buffalo Bills, Washingtons and Dutchmen, Scouts and Sailors, Negroes and Chinese, all claiming recognition, serve, however, to remind your correspondent that he is not writing for the Pordunk Clarion, and that the multitude who participated in the First Annual Masquerade Ball of the Madison Barracks Social Club must content themselves with the knowledge that they never had such a gay time before—barring only their first wrestle with the measles—and for the absence of individual recognition get some one to translate the moss-covered maxim about "Sic Transit Gloria." SAM BOW.

FORT CLARK, TEXAS.

THE Brackett *News* of March 18 says:

Gen. B. H. Grierson left Monday for Santa Fe.... Dr. L. A. Buffington left last week for Nevill's Springs. Mrs. Buffington remains at Fort Davis.....A complimentary hop was given Tuesday evening in honor of Lieut. and Mrs. A. C. Ducat, previous to their departure for Fort Sill. They carry with them the best wishes of their old associates of the 3d Cavalry....Nineteen members were initiated into membership in the Good Templar Lodge on Monday.....The post was favored on Wednesday with a visit from Maj.-General Alfred H. Terry, accompanied by his daughter, Miss Terry, and Col. Jas. G. C. Lee, of the Q. M. D. They were met by Troop M, 3d Cavalry, and Lieuts. Dugan and Burnum, who escorted them into the post. A salute of 13 guns was fired and the day of their arrival was occupied by a review and inspection of troops and post. The evening was given to pleasant social intercourse. The General and party left Thursday to go to El Paso, thence to Forts McIntosh and Brown. They expect, also, to visit Saltillo, Mexico, and spend some little time there.

FORT OMAHA, NEB.

THE *Excelsior* of March 19 says:

Lieut. Kennon, aide to Gen. Crook, has returned from his Eastern trip....Gen. Crook and his aide, Lieut. Kennon, have gone to Forts Robinson, Laramie, and D. A. Russell.... Mrs. Doctor Brown gave a dinner party on Wednesday, at which Mrs. Crook, Mrs. Reed, Mrs. Capt. Boyle of Fort Sidney, and Major and Mrs. McClintock, Col. and Mrs. Henry were present....Mrs. Gen. O. O. Howard, who has been visiting her son, Chancey O. Howard, for several days, left Thursday for San Francisco.

FORT NIOBRARA, NEB.

THE *Excelsior* of March 19 says:

Mrs. Geo. Kautz joined her husband in Omaha to go with him to Washington....Chaplain Lewis is a most excellent minister and is universally liked by his parishioners....A riding-school has been opened near the post, and the 9th Cavalry troopers are being exercised daily....Mrs. Robert Armstrong and children leave to-morrow for their old home in Omaha, to which place Robert, the popular quartermaster agent for the Government here, has been transferred.

COURT-MARTIAL CASES.

Before a G. C. M. at Fort Elliott, Texas, was tried Sergt. Chas. Connor, Co. F, 24th Infantry, for allowing himself and guard to be disarmed by train robbers while en route from Fort Elliott to Fort Leavenworth while in charge of a military prisoner. Sentence "to make good to the U. S. $26, being the money value of two Colts pistols, the property of the U. S., for which Lieut. A. A. Augur, 24th Inf., is responsible, by such monthly stoppage of his current pay not to exceed one-half of his pay per month, as will reimburse the Government for the loss, and in addition to be reduced to the ranks as a private soldier, and then to be dishonorably discharged the service of the U. S. with loss of all pay and allowances now due or to become due, and to be confined in such military prison as the proper authority may designate for two years." In his remarks on the case, Brig.-Gen. Willcox says: "So much of the sentence as relates to stoppage of pay is disapproved, being inconsistent with the findings on the second charge and specification. The remainder of the sentence is approved and will be duly executed. The Leavenworth Military Prison is designated as the place of confinement. The prisoner being now in the hands of civil authority awaiting trial on a charge of murder, the confinement awarded in the sentence will take effect when he again comes under military control."

Before the same court was tried Sergt. William Rose, Co. F, 24th Inf., on the following charge: "Did, while first sergeant, permit a meeting of enlisted men to be held in the company barracks and did participate in such meeting, said meeting being held for the purpose of denouncing the conduct of a sergeant of the company and others in the Military Service; knowing that a meeting was to be held in his company for a purpose forbidden by the Regulations, did fail to report the fact to the proper authority; and did in violation of Army Regulations cause to have sent and published in various newspapers resolutions condemning the action of a sergeant and party in allowing himself and party through cowardice to be disarmed by highwaymen and permitting the said highwaymen to rob the train on which his party were passengers at Fort Elliott, Texas, Dec. 20, 1886." He was found guilty and sentenced to be reduced to the ranks, and to forfeit to the U. S. $10 per month of his monthly pay for six months and to be confined at hard labor under charge of the guard at the post where his company may be serving for six months. (G. C. M. O., Dept. Mo., 1887.)

ARMY HOSPITAL CORPS.

A LETTER has been addressed by Surgeon-General Moore to officers of the Medical Department inviting suggestions in regard to the organization of the new Hospital Corps. The following are submitted for consideration as points worthy of particular notice:

I. Detail of Acting Hospital Stewards.—a. The method of selecting these men from among the privates. *b.* Should any examination be required before detail, and if so its nature and the manner of conducting it.

II. The Enlistment of Privates.—a. The number of privates of the Hospital Corps to be allowed to hospitals, and how the allotment shall be made. *b.* Whether it is necessary or desirable that privates of the Hospital Corps should have previous service as soldiers. *c.* If enlisted in the Hospital

Corps from civil life, what, if any, preliminary training should be required before assignment to a hospital, and how can such training be effected.

III. Regulations for the Government of the Hospital Corps.—*a.* What general regulations should be adopted for the discipline and government of the corps both in garrison and field service; it is not expected that these points will be exhaustively treated, but simply covered by an outline of what is thought necessary. *b.* Suggestions as to uniform for hospital stewards, acting hospital stewards and privates of the Hospital Corps. *c.* Should any strictly military duty be required of members of the Hospital Corps, and, if so, what?

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Aspinwall March 7.

All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

The *Galena* will await the arrival of the *Mohican* at Panama.

RICHMOND, 3d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. At New York. Anchord at Tompkinsville.

Was inspected, March 24, by the Statutory Board, consisting of Rear Admiral James E Jouett, Capt. C. S. Norton, Naval Constr. Philip Hichborn, Commander Henry C. Taylor and Ensign Richard T. Mulligan, secretary. The inspection, which was thorough, occupied two days. It is understood that the *Richmond* will sail direct for St Thomas, thence to Martinique, Curacoa, Matanzas, Key West, and finally Hampton Roads, where the North Atlantic squadron will rendezvous about May 20. It is surmised that the squadron will visit this city about Decoration Day, in order to participate in the ceremonies.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at St. Thomas, W. I., Feb. 24. Letters will reach the vessel if sent not later than March 28 to Santiago de Cuba.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, March 16. All well. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo, Uruguay, Feb. 16.

A correspondent writes from on board the *Tallapoosa*, at Moldonado, Uruguay, Jan. 1, 1887, as follows: On Christmas day matters here were enlivened somewhat by a game of base ball on the Island of Goritti, in the Bay of Moldonado, between a nine from the *Lancaster* and *Tallapoosa*. The latter nine being challenged one week before the match. The game began at 3 o'clock in the afternoon, and lasted 1 hour and 45 minutes. The score was *Tallapoosa*, 17 runs; *Lancaster*, 9 runs. The grounds were in fair condition, but the players rather tired at the finish. We have plenty of drill, and landing parties are also very numerous.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Athens, Greece, Feb. 11.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Maderia, Feb. 22, and would sail for Gibraltar March 1.

Pacific Station—Captain H. L. Howison (in temporary command).

Rear Admiral L. A. Kimberley is ordered to command, and leaves per steamer of April 1.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Arrived at Acapulco March 18.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Acapulco, Mexico, Feb. 26.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Talcahuano, Chile, Feb. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Arrived at Talcahuano, Chili, Jan. 29. Commander Richard P. Leary was ordered to command this vessel per steamer of April 1.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Reported by cable to have arrived at Callao, Peru, March 22. She was refused communication with the shore, and left for Panama.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S Newell. At Sitka, where she will winter. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. Commissioned at Navy-yard, New York, Jan. 15, 1887. Will be ordered to sail for the Pacific Coast. Sailed March 24 for Norfolk, Va., from which place she will finally leave for her station in Alaskan waters. She also carries a number of men for the *Ossipee* now fitting out at Norfolk.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Left Valparaiso Jan. 18, and arrived at Talcahuano Jan. 20. After a short stay intends to sail northward.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Sailed from Batavia for Yokohama Feb. 22.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell, At Yokohama, Japan, Feb. 21.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Feb. 21. Expecting then to leave for Kiobe and Nagasaki, and return to Yokohama early in March.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, China, Feb. 21. Expecting to sail for Canton shortly.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Sailed from Yokohama for Kiobe and Nagasaki Feb. 19. Expecting to return to Yokohama March 15.

PALOS,† 4th rate, 6 howitzers, Commander T. Nelson. At Tientsin, China, Feb. 21. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent after March 24, to Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Trinidad Feb. 21. After target practice in gulf of Paria will probably go to St. Kitts.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will probably go to St. Kitts.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will go to St. Kitts.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Sailed from New York March 24, for Norfolk, Va., with a draft of men for the *Ossipee*.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York, undergoing slight repairs.

The steam steering gear of the *Dolphin* has been reported to the Navy Department, by Commander Wilde, as absolutely worthless, and positively dangerous in its present condition. The Department is now considering the feasibility of substituting an entirely new steering apparatus.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. At Norfolk, Va. Will be refitted for service. A new detail of officers is now being made. Her repairs will hardly be finished until the middle of May.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. At San Diego, Cal., Feb. 10. Mail address, San Diego, Cal.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander Frederick Rodgers. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Captain Augustus P. Cooke. Receiving ship. At New York. Captain Cooke will be detached from command March 31.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed in about 90 days. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about May 1. It is not known at present where she will be ordered.

Chicago—Will be finished at New York. The engines are practically completed, and but little construction work remains to be done. (Report of March 19.)

Boston—At New York. Is being fitted with ice machines, electric lights and steam separators. She will be ready for a trial trip in about 60 days. (Report of March 19.)

VARIOUS NAVAL ITEMS.

THE *Eber*, a new vessel to replace the gunboat *Albatross*, has been launched at Kiel.

THE torpedo flotilla is to be concentrated at Toulon in the beginning of April, the torpedo boats from the Northern ports having already started for the Mediterraneau.

ONE of the mysteries of the sea is the disappearance of the Japanese man-of-war, the Unebi-Kan. She and her crew of 200 men have totally disappeared without leaving a trace.

THE Constellation has been ordered to Norfolk, where she will be placed in dry dock. Her bottom is to be cleaned and painted preparatory to the summer practice cruise of the naval cadets.

IT is believed at the Navy Department that the new steel cruiser Chicago can be finished complete for sea (excepting the battery) for $46,000 less than the estimates of the advisory board, the Atlanta for $18,000 less and the Boston $15,000 less. These figures include also the extra patent appliances put on board, such as ice machines and "separators" to keep the boilers from foaming. This is as near correct as belief without careful calculation can make it.

THE French Evolutionary Squadron are continuing their experiments with torpedoes. Future speed trials of English men of war are to be for 24 hours with all weights aboard, in addition to the present trials with reduced weights. According to the "Temps" (Paris), the sea going torpedo boats *Deronlède* and *Balny* recently attempted a night surprise. Thanks, however, to the Bullivant nets, the *Colbert*, which was in most danger, escaped, and the value of the attack was estimated at 1, the maximum being 5.

A DISPATCH dated Tangier, March 18, says: The United States steamship Quinnebaugh has arrived here, and has exchanged salutes with the city forts in celebration of the installation of the new American consul, Mr. Lewis. Mr. Lewis will thoroughly investigate the charges as to abuses of the protege system of protection from penalties for the violation of the local law, and will officially notify the Sultan of the abandonment by the United States of the claim of right to protect natives."

THE first of the fifty French torpedo boats since 1886 in course of construction was successfully launched at Toulon on Jan. 21. It is numbered 99, and has a length of 35, a breadth of 3.35, and depth 2.5 metres. With full coal bunkers, full equipment, and four fish torpedoes it has a displacement of 54 tons. Two torpedoes are in the launching tubes, which are fixed 40 centimetres higher than in the boats of older types. These new torpedo boats are said to attain, during a period of three hours, a speed of 20 knots an hour in a calm sea.

THE *Umbria*, one of the three Cunard steamers which the British Admiralty have taken up to act as armed cruisers in case of war, is now being fitted with platforms on her turtle back fore and aft, so that, while continuing in the regular course of her trade, she can be at once fitted with guns should an emergency arrive. This action of the government has been very generally commended, as for a very moderate sum per annum as fee they are assured of the services of the fastest steamers in the British mercantile marine, should necessity require them.—*Liverpool Mercury.*

THE *America*, ex-National-Line, and now an Italian armed cruiser, left Liverpool, England, March 3, for Spezzia, to be converted into a full-fledged war vessel. She is well rid of. The *America* is in charge of Comdr. Morin, of the Italian Royal Navy, and took from Liverpool a quantity of war material, including guns, gun-carriages, batteries, etc. A great deal of interest has been manifested in the fitting of the vessel by the Italian residents of Liverpool. On the day of departure a number of prominent Italians accompanied the vessel down the river in a tugboat, and exhibited a great amount of enthusiasm as the vessel left the Mersey.—*Nautical Gazette.*

THE United States Fish Commission steamer *Albatross*, Lieutenant Comdr. Z. L. Tanner, arrived at Norfolk, Va., March 21, from a cruise in Chesapeake Bay, with Professor Baird on board. The *Albatross* will leave soon for a hydrographic cruise in the Bahama group, surveying the various channels among these islands. After completing that work, which is to correct the British Admiralty sailing charts, the ship will go to the Gulf of Mexico. The hydrographic surveys will be under the direction of the Navy Department, as were those made in the seasons of 1883-'84 in the West Indies and Caribbean Sea, which resulted in a perfect profile map of the bottom of the Caribbean, from the Windward Islands to the Central American coast and from the Greater Antilles to the Spanish main.

A LONDON despatch of March 23 says: "England has been held up to us as a model by the advocates of a great American Navy. In the House of Commons debate it was shown that much of the money spent by Great Britain in this direction has been worse than wasted. It is now officially admitted that the whole of the belted cruiser class draw too much water to render their armor belting of much use. The *Ajax*, which cost £552,000 only a few years ago, is now declared on the highest authority to be unfit for sea. When to these gross failures in construction are added the mismanagement which squanders tens of thousands in the improper allotment of contracts and a kind of careless supervision which comes very near to corruption, one has a picture of the way things are done at the British Admiralty, which might be studied with advantage by the American Congress."

CAPT. E. O. MATTHEWS, commanding the U. S. S. *Brooklyn*, reports to the Navy Department from Singapore, Feb. 1, that the *Brooklyn* left Bombay, India, Dec. 25 and reached Colombo, Ceylon, Dec. 31. The *Brooklyn* left Colombo on Jan. 5, arriving at the British naval station, Trincomalee, on the 8th. Capt. Matthews reports this station to have great natural advantages, being easily defensible and accessible from either side of the Indian Peninsula. The *Brooklyn* was coaled from the Naval storehouse, but the Captain reports that the coal was the poorest he had ever had on board. The *Brooklyn* was to sail on Feb. 2 for Sarawak, in Borneo. Capt. Matthews sends an interesting report of the products and trade of the Island of Ceylon, where the ship stopped at Colombo. The tea introduction has been doing well. The cocoanut oil trade is the mainstay; the cinnamon product is kept down by an English firm that controls the trade, to keep the price up; the introduction of coffee growing is considered a failure after 60 years of trial; rubber tree planting has not done well; Plumbago and a fine iron ore can be found almost anywhere, and the ravines leading down from Mount Adams, supply large quantities of sapphires, rubies, cat's-eyes and Alexandrite, which are found by washing and blasting out the fissures. The great pearl fisheries of the Gulf of Manaar are under government control.

SECRETARY WHITNEY has under consideration a recommendation that several of the Naval vessels now on foreign stations be ordered home.

REAR Admiral John Lee Davis, Commodore W. P. McCann and Captain F. M. Ramsay are appointed members of the Board to locate dry docks authorized by Congress.

SUPPLIES at the Naval Academy will be purchased hereafter by the Baltimore Navy pay officer. The requisitions will be made by the General Storekeeper at the Academy and the vouchers will be examined by a board of Academic officers. Heretofore one of the officers at the Academy has made the requisitions and purchases and finally examined the vouchers.

THE Panama Railroad Company is to transport, free of cost, the Easter Island idol recently secured by the Navy Department for the Smithsonian. This shows that there is partiality in the matter of idols as well as other things; the Treasury Department has just stopped at the Custom House a huge Chinese Joss, on the theory that the claim to free admission as a statue to be used by religious worship is not well founded.

THE system of making purchases of supplies for vessels on foreign stations is about to undergo important modifications. Paymr. General Fulton has prepared a general order prescribing a new method of purchasing. Proposals will be requested from the most reputable merchants in the port where the vessel is at anchor, when supplies are needed and at a fixed time will be opened by a board composed of the ship's officers, the chairman of which shall be the commanding officer. This will relieve the paymasters of much of the responsibility heretofore imposed upon them.

CIVIL ENGINEER A. G. MENOCAL has about completed his plans for rebuilding the shops in the Washington Ordnance Yard, and by the time the weather changes to a type a trifle more in keeping with the almanac, preparations for the necessary labor will be finished. Mr. Menocal's interest in the Maritime Canal question has undergone no diminution, but rather grows on the opposition and apathy manifested by the people of the Great Republic. In the meantime, however, the "wily Frenchman," de Lesseps, is digging and blasting, and dredging his way across the Isthmus of Panama.

THE Boston *Herald* says that one of the most important matters to come before the Military Committee of the Massachusetts Legislature is the question as to the completion of the Naval records of the men who entered the Navy from Massachusetts during the rebellion. The sum of $25,000 would complete and bind in substantial form these records, so necessary to establish just claims or to defeat improper cases. This sum will be asked, and it will be shown that the Commonwealth of Massachusetts furnished almost one half of the entire number of the Naval officers, from Master's Mate to Admiral, nearly one-third of the men and more than one-half of the able seamen.

NAVY GAZETTE.

Ordered.

MARCH 19.—Ensign H. C. Wakenshaw, to the receiving ship New Hampshire, April 5 next.

MARCH 21.—Passed Assistant Engineer William A. Windsor, to the New York Navy-yard, April 1.

Passed Assistant Engineer Richard Inch, to the Washington Navy Yard, 23d inst.

MARCH 22.—Ensign A. C. Almy, to ordnance instruction at the Washington Navy-yard.

MARCH 23.—Passed Assistant Paymaster C. W. Littlefield, to duty at the Naval Station, New London, 31st inst.

Detached.

MARCH 18. — Lieutenant-Commander Albert S. Snow, from duty on the Coast Survey and placed on waiting orders.

Lieutenant H. O. Rittenhouse, from the Naval Academy on the 26th inst., and ordered to duty in the Pacific Squadron.

Lieutenant G. A. Merriam, from the Hydrographic Office, 26th inst., and ordered to duty in the Pacific Squadron.

MARCH 21.—Captain Wm. A. Kirkland, from the Navy yard, New York, April 1, and placed on waiting orders.

Captain A. P. Cooke, from the command of the Vermont, 31st inst.; and ordered to the New York Navy-yard April 1.

Assistant Surgeon F. J. B. Cordeiro, from Boston Navy-yard, and placed on waiting orders.

Passed Assistant Engineer George H. Kearny, from the New York Navy yard, April 1 next, and to hold himself in readiness for sea service.

Passed Assistant Engineer Robert R. Leitch, from the Washington Navy-yard, 23d inst., and placed on waiting orders.

MARCH 23.—Lieutenant Duncan Kennedy has reported his return home from the Lancaster, having been detached on January 13 last, and has been placed on waiting orders.

Ensign F. Brainard, from the Richmond, and ordered to the Ossipee.

Assistant Paymaster J. H. Chapman, from the Naval Station, New London, Conn., 31st inst., ordered to settle accounts, then wait orders.

MAR. 24.—Commander W. M. Folger, from Bureau of Ordnance, to command of the Quinnebaug, Mar. 30.

Lieutenant-Commander S. W. Very, from duty as inspector of steel at Pittsburg, and placed on waiting orders.

Lieutenant E. J. Dorn from Washington Navy-yard and ordered as assistant inspector of steel for new cruises at San Francisco.

Leave.

Leave for one year is granted Assistant Paymaster J. H. Chapman.

Appointments.

The President has appointed James R. Waggener to be Surgeon.

Leeds C. Kerr to be Passed Assistant Paymaster.

B. C. Gowing to be Chief Engineer.

Carroll Mercer to be 1st Lieutenant, U. S. Marine Corps.

Changes on the Asiatic Station.

Under date of February 21, Lieutenant J. H. Bull was transferred from the Yokohama to the Marion, and Naval Cadet George R. Evans detached from the Omaha and ordered home for examination for promotion.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending March 23, 1887:

William Anderson, oiler, attached to U. S. S. Lancaster, died Jan. 27, 1887, on that vessel.

Albert Taylor Cowie, paymaster's clery, attached to U. S. S. Saratoga, drowned Feb. 24, 1887.

James Oakes, Jr., apothecary, attached to U. S. S. Saratoga, drowned Feb. 24, 1887.

William Foster, seaman, attached to U. S. S. Saratoga, drowned Feb. 24, 1687.

Hugo H. Hesse, seaman, attached to U. S. S. Saratoga, drowned Feb. 24, 1887.

James Carleton, beneficiary, died March 18, 1887, at Naval Hospital, Philadelphia, Pa.

Henry Gould, coal heaver, attached to U. S. S. Monocacy, died Jan. 31, 1887, at Hong Kong.

John Cannon, second class apprentice, attached to U. S. S. Essex, died Feb. 19, 1887, at Yokohama, Japan.

FROM THE SOUTH ATLANTIC STATION.

OUR latest advices by mail from this station are dated February 16:

The *Lancaster* was then at anchor at Maldonado, and the *Tallapoosa* was at Montevideo having a new rudder fitted. The health of officers and men was reported good. Except the death of William Anderson (oiler), by the fall of the main-top gallant mast, there have been no deaths during the summer.

The English men-of-war *Stork*, *Frolic* and *Ruby*, the Argentine man-of-war *Chabuc*, and two Uruguayan gunboats have visited Maldonado, but made very short stops. The *Lancaster* had remained quietly at anchor there since December 10. Both officers and men were anxiously looking for orders home at an early date.

We venture to hope that, after the remarkable series of disappointments which has attended that ship's second cruise, she may be ordered home so as to go out of commission in June. By the end of that month, 11 of her officers and 170 of her men will be serving over time, and she is now more than 100 men short of her complement.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., March 23, 1887.

ONLY a few things have occurred to break the monotony of academy life during this week. The cadets are beginning to look ahead to the hops and other entertainments coming after Lent, and several of the yearly signs show that the academic year is drawing to a close. The attention of the graduating class is called to various things of interest for them, and the attention of other classes to orders for the summer cruise. The cadets are anxious for definite information in regard to the subject of leave. Hitherto, the leave for cadets of the first, second and third classes has always been during the month of September. This year the plan is to be changed, and cadets will, in all probability, be granted leave in sections or divisions.

Various rumors and reports concerning the method of division have aroused a good deal of excitement among the cadets, but it is not likely that the matter is definitely settled as yet. Another change will be in the plans for the practice cruise, and will be that of cruising along the coast, and putting into port on Fridays, Saturdays and Sundays. This scheme, although not officially announced, seems to be the one in view, and it is strongly approved by the cadet corps. The detail of officers for the practice cruise is: Captain, Comdr. Huntington; 1st lieutenant, Lieut. Leutze; navigator, Lieut. Mitchell; senior watch officer, Lieut. Colvocoresses; junior watch officer, Ensign Blish. Other officers have not, as yet, been announced. Only one ship will be taken, the U. S. S. *Constellation*. The cruise will begin the middle of June, and the ship will not return to the Academy until the academic year begins in October. Cadets leaving the ship, when granted leave, will be put ashore at seaports along the coast. The first, third and members of the new fourth class to be admitted in May, will go on this cruise, while the new second class will remain to take the engineering course in the yard.

This week the examinations for March are held for all classes; they will not interrupt the usual routine.

On Wednesday last the usual release from drill was granted to the cadets, and a large number were engaged in playing base ball and foot ball on the grounds.

On Saturday the base ball team for this year did its practicing. The team for this season is said to be an unusually good one, and, the members having been selected, they will practice, when the weather permits. Several challenges from clubs in neighboring cities have been received and accepted, and the season promises to be a lively one for those interested in base ball.

The drills this week have been broken up by the bad weather. As set down in the programme, the drill was to have been general quarters on the *Wyoming*. On Monday the drill was changed to the *Santee*, she being covered over and protected from the weather. The seamanship drill on Saturday last was replaced by infantry drills in the armory.

The steamer *Standish* and the practice ship *Constellation* will be taken to Norfolk for repairs.

Now that the whole of Saturday morning is devoted to drills, the usual study hours on Friday evening are given up to practical work in the different departments.

The First Class will complete the course in the Steam Department; the Second Class begin practical work in Navigation, instructed by Lieut.-Comdr. Walker, Lieut. Swinbourne and Ensign Muir. This is a preparation for the work on this year's cruise. The Third Class have practical work in the Chemical Laboratory, instructed by Prof. Sanger.

Superintendent Sampson will give a reception at the house during the week.

Miss Snowden, of New York, who has been visiting for some weeks with Mrs. Lieut. Doyle, in Annapolis, returned to her home last week.

COURT-MARTIAL OF A MARINE OFFICER.

G. C. M. O. No. 3, Navy Dept., Washington, Feb. 23.

Before a General Court-martial, which convened Oct. 19, 1886, on board the U. S. F. S. *Hartford*, at Callao, Peru, and of which court Comdr. J. Crittenden Watson, U. S. N., was president, Capt. Wm. R. Brown, U. S. Marine Corps, was tried and found guilty of Charge I—Scandalous conduct tending to the destruction of good morals. Charge II—Conduct to the prejudice of good order and discipline.

The specifications allege that he attended at the Café Universel, Callao, Peru, a meeting of a so-called society, whereat Gunner John G. Foster, U. S. N., and Pay Clerk Hiram T. Doyle, U. S. N., on the supposed authority of the society, were asked certain highly indecent and immoral questions at their initiation previous to their admission as members of the said society, and that in reply to a statement by Gunner Foster he did willfully and knowingly write and utter a falsehood with the intent to deceive his commanding officer, Capt. James H. Gillis, U. S. N.; all this to the gr at scandal and disgrace of the Naval Service. The specification to the second charges that he sent to Capt. J. H. Gillis, U. S. N., a letter containing the following words, to wit: "And most respectfully submit that it is my belief that personal vindictiveness and studied desire to injure me may be found as the most reasonable explanation in the premises"—in violation of section 108, Orders, Regulations and Instructions for the administration of law and justice in the U. S. Navy, which reads as follows: Officers making either complaints or explanations are to confine themselves simply and exclusively to the facts of the case, and are neither to expre s an opinion nor to impugn the motives of the opposite party.

EXECUTIVE MANSION, Feb. 19, 1887.

The sentence in the foregoing case of Capt. Wm. R. Brown, U. S. Marine Corps, is confirmed; but in view of the recommendation of all the members of the court, concurred in by the Secretary of the Navy, that clemency be exercised in this case, the sentence is mitigated to suspension from rank and duty for one year, on half pay, and to retain his present number in his grade during that time. The sentence in the case of Capt. Brown takes effect from Oct. 23, 1886, the date of its approval by the officer who convened the court.

GROVER CLEVELAND.

Capt. Wm. R. Brown, U. S. Marine Corps, is accordingly suspended from rank and duty for one year, on half pay, from Oct. 23, 1886, and he will retain his present number in his grade during that time.

WM. C. WHITNEY, Secretary of the Navy.

REVENUE MARINE.

1st Lieut Keene has been relieved from command of the *Dix* and ordered to special duty in New Orleans.

Chief Engineer W. C. Wheeler has been assigned to special duty at Jersey City.

Lieut. D. C. Kennedy detached from the *Walcott* and ordered to the *Bear*.

THE FATAL NAVAL ACCIDENT.

A PRIVATE letter gives the particulars of the fatal accident at Trinidad to a boatload from the U. S. S. *Saratoga*. The party left the ship at 7 o'clock in the morning in a boat containing as passengers Ensign Wilson, Al Cowie, Pay Clerk Bishop, of the *Jamestown*, and Carpenter Burroughs. All went well on the passage down. On the return, with a fresh breeze and a lumpy sea running, at 2.30, while under short sail, the boat was capsized and filled with water. She floated on her side and Mr. Wilson succeeded in getting eight out of the thirteen men on top of the boat with himself.

Mr. Bishop, who is a splendid man physically and an expert swimmer, took Cowie in tow, and got two oars and a grating for him and a cushion for himself, and started for shore two and a half miles distant. Burroughs got two oars and also started for shore, as did one of the apprentices, without any support. Chase, the ship writer, also started without any support, and was giving up when Burroughs gave him one of his oars. The three men, the apothecary, the armorer, and the coxswain of one of the vessel's boats, sank almost immediately right alongside the boat, none of them being able to swim, and, according to the statements of survivors, seemingly losing their heads and giving up. Those on the boat were eventually, after about four hours, picked up as was Mr. Burroughs. The apprentice swam all the way to the beach safely. Chase reached shore safely after being in the water six long hours.

Bishop assisted Cowie until within about half a mile off shore, when a boat came along under sail. The people in the boat saw Cowie but not Bishop, and, in attempting to run close enough to pick Cowie up, struck Bishop square in the head with the fore-foot of the boat, partly stunning him. He passed completely under the boat, and, coming up, had consciousness enough to catch hold of a rope trailing overboard, which had been thrown to Cowie, and was hauled on board. He came to almost immediately, and commenced to assist the boatmen in getting the boat around to rescue Cowie. All the time, Bishop said, Cowie was calling to him, "Jamey, Jamey; come quick," and making other such exclamations.

The boat was hard to handle, and by the time they had succeeded in getting to where Cowie was last seen, he had disappeared; why, no one can know. Bishop was with him for two and a half hours, cheering him up, telling him to keep his mouth closed, that they were all right and would soon be on shore, etc., and says that up to the time the boat came along he does not believe Cowie had any idea but that he would reach shore all right.

NEW TORPEDOES.

THE British Commons do not take very kindly to the suggestion that they should pay $550,000 for the Brennan torpedo, especially as it has been perfected at the cost of the public treasury. The *Army and Navy Gazette* says of another torpedo: "The trial of the improved Lay torpedo, which took place off Brightlingsea recently, cannot be called a success. The torpedo was stopped and started several times, but no run of any account was made, the excuse being that the water was too shallow. There was considerable talk about a 150 lb. charge of *roburite*, and the wonderful results which had taken place a few days previous at a private trial; but this is not likely to have much weight with the experts who were present. The germ of many of the controllable torpedoes, now being experimented with, is to be found in Col. Lay's invention; but the improvements which it was stated had been made in the machine under trial recently, must be more perceptible before his torpedo can compete on equal terms with some of the later specimens we have seen. The reason assigned for the failure was that the water on the course of the torpedo being too shallow, the screw had become fouled with weeds, and that short circuiting had taken place."

MAXIM MACHINE GUNS.

THE recent trial at Enfield of the Maxim machine-guns of .45 calibre delivered to the Ordnance Department has exceeded the government requirements. For while these latter were limited to a gun not exceeding 100 pounds in weight capable of firing 1,000 rounds in four minutes, the guns taken over by the War Office accomplished, one weighing 50 pounds, 1,000 rounds within the four minutes; another, of the same weight, 1,000 rounds in 3 minutes 25 seconds, and a third, which weighed only 42 pounds, discharged 1,000 rounds in 1 minute 30 seconds, and continued firing till it had expended 2,115 rounds in 3 minutes and 44 seconds. These guns were all exposed to the sand and rust tests, which in no way affected their efficiency. In rapidity of fire or in facility of directing it other guns may be made possibly to approach this performance, but in its supreme excellence of absolute immunity from jamming or miss-fires the Maxim principle stands pre-eminent over all other systems.—*Pall Mall Gazette*.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, -	$21.00
Old Reserve Whiskey, - - - -	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey, - - -	12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

BIDDING FOR STEEL FOR THE NAVY.

THE office of the Secretary of the Navy at noon on March 22, was the scene of an important transaction. Bids were there and then opened for furnishing the Navy with steel forgings for guns and for armor plate for the new armored vessels and monitors. The presentation of these bids marked an era in the history of American Naval construction. For the first time our Government has given substantial encouragement to the American steel manufacturer and it is gratifying to find that the manufacturers, notwithstanding the great financial risk involved, have shown themselves willing and ready to undertake the enormous task of producing armor and gun steel in competition with all the world. The amount involved is nearly $5,000,000, calling for nearly 7,924 tons of steel.

There was quite a gathering at the opening of the bids by the Secretary of the Navy, who stood at the end of a long table and called out the names of the bidders and the amount of the bids, as they were handed to him by the Judge-Advocate General. The names and amount of bids, as called off, were recorded by one of the private secretaries on a large tabulated sheet conveniently arranged for the purpose, and roughly jotted down by the steel representatives, Naval officers and members of the press, who occupied the comfortable chairs and sofas around the large room. Among those present were Messrs. James Wharton, President; Robert Sayre, General Manager, and John Fitz, Treasurer, of the Bethlehem Iron Works; Messrs. Davenport and Clark, of the Midvale Steel Co.; Messrs. Morgan and Starkhouse, of the Cambria Iron Works; Captain Sicard, Chief Constructor Wilson, Commander Goodrich, Lieutenants Jaques and Couden.

The bids received are as follows:

	Gun steel, total price, calculated No. of tons—1321.030.....	Armor-plate, Total estimated No. of tons—6702.6.....	Armor. Time of commencing deliveries.	Armor. Rate of delivery, tons per month.
Cambria Iron Wks., Cambria Co., Pa..	$851,513,90	.. ..	.....	.....
Midvale Steel Co., Phila., Pa.....	1,397,240,00	.....	.....	.....
Bethlehem Iron Co., Bethlehem, Pa. ..	902,230,79	$3,610,707.50	Oct. 1, '89.	300
Cleveland Rolling Mills, Cupahogo, Co., O.....	.....	4,021,560.00	Oct. 1, '89..	300

The Bethlehem Iron Co., it will be observed, are the lowest bidders for the armor plate and the Cambria Iron Works for the gun forgings. Their bids in detail per ton are as follows:

Bethlehem Iron Co. for armor plates:

Side armor for *Puritan*.....tons..	734.7	$510
Side armor for *Amphitrite* and class.....tons..	1066.8	510
Turrets and pilot-houses for 4 monitors....tons..	835.8	575
Smoke-pipes and ventilators, 4 monitors...tons..	265.3	575
Armor for breastworks, 2 armored vessels.tons..	680.0	575
Armor for turrets, conning towers and ammunition tubes for 2 armored vessels.....tons..	485.0	575
Part of side armor for 2 armored vessels...tons..	364.0	500
" " " " " ..	468.0	525
" " " " " ..	272.0	600
" " " " " ..	196.0	600
Rolled plates, profective deck armor and gun-shields.....tons..	1135.0	490
Turret and side armor bolts and steel accessories.....tons..	181.0	650
Small armor bolts, steel.....tons..	6.0	650
Tubing and washers, wrought iron.....tons..	12.0	180
Total number of tons.....	6702.6	

Cambria Iron Works for gun forgings:

Tubes and jackets for 6-inch B. L. R.....tons..	146.418	$800
Tubes and jackets for 8-inch B. L. R.....tons..	31.804	700
Tubes and jackets for 10-inch B. L. R.....tons..	426.888	610
Tubes and jackets for 12-inch B. L. R.....tons..	59.470	750
Hoops for 6-inch and 8-inch B. L. R.....tons..	140.474	800
Hoops for 10-inch B. L. R.....tons..	330.024	650
Hoops for 12-inch B. L. R.....tons..	49.796	750
Trunnion-bands .....tons..	15.292	800
Plugs and mushrooms for all calibres.....tons..	20.864	650

The contract, according to the terms of the advertisement, must be awarded within fifteen days from the date of opening the bids.

The following letter was presented by the Bethlehem Iron Co. explanatory of their facilities for carrying on the work:

OFFICE OF THE BETHLEHEM IRON CO.,
BETHLEHEM, PA., March 22, 1887.

Hon. Wm. C. Whitney, Secretary of the Navy, Washington, D. C.:

DEAR SIR: Referring to the circular issued by the Navy Department under date of Aug. 26, 1885, I find this provision: "Nor will any bid be accepted unless accompanied by evidence satisfactory to the Department that the bidder is in possession of, or has made actual provision for, a plant adequate for its fulfilment." This seems to require the following summary statement to be made:

1. The Bethlehem Iron Company has been most diligently engaged for more than a year in constructing a complete plant of forging machinery and tools adapted to the fabrication of all the parts of the largest guns used in any part of the world, and of the shafts that may be required for vessels of any size that the United States Government may require, and in erecting the necessary buildings in which to do this work. The establishment when completed will be in every respect fully able to compete with any establishment in Europe.

2. It has contracted with one of the largest and most successful concerns in Europe engaged in making steel armor plates for the necessary aid, superintendence, use of patents and guarantee of its work, and has arranged for a hammer of the largest class if that be deemed necessary to the successful prosecution and completion of the work required for the Government.

3. The Company has, up to this time, expended in cash on the forging plant alone between $300,000 and $400,000, and is under contract obligations to the extent of $500,000 additional for machinery and tools, to be delivered within the current year. The amount required to complete the plant for both guns and armor plate will be in all about $1,500,000, and for this the financial arrangements are completed.

4. The Company has now in operation seven blast furnaces. It owns or controls large deposits of ore peculiarly suitable for such iron as is needed for steel forgings, so that it is certain of obtaining the best and most uniform quality of metal, without being subject to the difficulty and uncertainty of purchasing in the market suitable material.

5. In addition to what is being done in the way of special preparation for this heavy class of work the Bethlehem Iron Company now has in use in connection with its present work, a large machine shop thoroughly equipped with the largest and most effective tools in this country, a foundry, smith shop and other necessary appendages, and is now turning out about 4,500 tons of steel per week.

6. The Bethlehem Iron Company has, what is quite as essential as any other item to insure satisfactory results, a large corps of trained, skilled experts, mechanics and workmen, commanded by a chief of well known and acknowledged ability, accustomed to accomplish what he undertakes. It has also made adequate arrangements for procuring all the assistance of men trained to the special work now called for by the Department.

Very respectfully,
ROBT. H. SAYRE, General Manager.

The contract to be entered into by the accepted bidders provides that a suitable "plant" with all

necessary appliances and appurtenances to fulfil the contract shall be provided within two and one-half years. Inspectors to be appointed by the Secretary of the Navy shall have free access at all times to said plant during its preparation, and shall be furnished with full information respecting the character and progress of the work. The advertisement of August 21, 1886, the circular with drawings of Feb. 12, 1887, the addenda thereto of March 11, 1887, are to form part of the contract. Changes may be made by mutual consent and the change in the compensation resulting therefrom fixed by a board of naval officers.

Reasonable consideration in the event of unavoidable delay shall be extended to the contractors at the discretion of the Secretary, who shall also determine any question which may arise under the clause concerning premiums. He may also declare the contract forfeited, if he shall finally conclude that the contractors are unable to go on with it, and recover on the bond damages for default. The United States is to be protected against patent claims. The transfer of the contract shall cause its annulment and "no member of or delegate to Congress, officer of the Navy, or any person holding any office or appointment under the Navy Department shall be admitted to any share or part of this contract" this stipulation to be waived, so far as Congressmen are concerned, in the case of an incorporated company. A reserve of ten per cent. shall be made on payments until the aggregate reaches $100,000. Finally the Secretary is made the sole judge as to the meaning of anything in the Circular, Addenda or contract, and sole arbiter as to discrepancies between them. If this is satisfactory to the contractors it certainly should be to the Navy Department. The Bethlehem Iron Co. is, as the Secretary says, "one of the very largest and best of our steel works." They have control of large deposits of ore, including a valuable mine of Bessemer ore in the Island of Cuba, the proprietorship of which they divide with another company. We have been for some time aware that they were putting themselves into a position to take a hand in the contracts with the Navy Department but were not aware of the extent to which their preparations had gone, as shown by their letter above quoted. Secretary Whitney in his statement furnished to the press, says:

> There are only two bidders to produce the armor, but one bid is as good as fifty. It is from as good a company as there is in the United States and the prices named are very low. It is of very little consequence now that the Fortifications bill failed in the last Congress. The first thing needed for fortifications and the Navy is a plant to make armor and gun steel. It takes two and a half years to erect it; it costs a couple of million. The result of this bidding secures it. It occurred to me last July that instead of contracting out our new armored ships in the usual way—the contractor to buy the armor—(in which case it would all have been purchased abroad—I would put together the armor for all of them and all the gun steel required for their armament and see if that would not induce a responsible party to undertake the work in this country. It has resulted all right and the best of all is that the prices are not above what a contractor would have had to pay for the same armor bought abroad and laid down here duties paid under our laws.

This is all true and we most cordially congratulate Mr. WHITNEY on the success of his efforts for setting in motion the wheels of this new and most important industry.

BOULANGER AND THE FRENCH ARMY.

THE completion on the 7th of January, 1887, of General BOULANGER'S first year of service as French Minister of War was made the occasion of a review of his administration by the Deutsche Heeres Zeitung, a representative of those German soldiers who are watching with such keen interest the progress of France in military science under this ambitious and aggressive soldier. Our contemporary shows that the most radical measures have been so impulsively introduced that the French Army will for a time be thrown into confusion. Unless, however, a new Minister of War should arise to set aside General BOULANGER'S programme these changes will gradually be incorporated, and then the French Army will be more efficient than ever and more dangerous to its enemies. This view of the case would further indicate that the German military programme was to force conclusions with France while her army was partially paralyzed by the work of reorganization, in case the Reichstag refused its consent to the Septennate.

Many of BOULANGER'S reforms in organization and in professional details have been readily accomplished, but the difficulties confronting others have been insurmountable. His chief object has been to concentrate the largest possible force near the German frontier to be ready for prompt action in the event of mobilization. After the Fall manœuvres troops, especially cavalry and chasseurs, were transferred from the interior to the eastern provinces of France, and all the available strength of the colonies was drawn to strengthen this force. The most important measure was rejected; this was to create forty regiments of chasseurs and make the total effective French Army 545,000 men, an increase of 74,000. The War Minister has sought to create an independent colonial army, so that a mobilization of the European Army might not be subject to delay, and finally he actually proposed mobilizing an army corps to demonstrate the efficiency of his methods. A preliminary calculation revealed the fact that such a mobilization would cost about seven millions of francs, and as the attitude of Germany gave no occasion for it, the project was abandoned simply because there was no money to expend on experiments.

The Army inspection was introduced and two or three corps were thus subordinated to one chief inspection. The War Department was reorganized and the seven special directors of bureaus were replaced by two general directors; this might have been explained on the ground of economy, but its sole object was to enhance the power of the minister. One of the most important regulations provides for the organization of 42 fortress battalions out of the fourth battalion of the infantry regiments which are detailed to garrison the forts and other defensive works. The fortress staff hitherto unknown in France was organized and governors and commandants were detailed, so that in the event of a mobilization, the War Department would find itself much better prepared from the start. Recruiting by districts for separate corps has been substituted for general recruiting. This is attended with inconvenience, because of the difference in the recruiting possibilities of different sections; it will be easy to find recruits for the 1st Army Corps in the vicinity of Calais, but exceedingly difficult for the 2d Corps to recruit in Oise, Somme, Aisne, and Seine.

A year ago, March 1, 1886, the Comités d'Armes, composed of the senior officers who took cognizance of questions of promotion, organization, and professional science, were dissolved, and their duties assumed by the Minister, with the exception of the scientific details, which were transferred to the "Commissaires Consullaires," composed of younger officers. The gendarmerie and revenue patrols were organized for service in the event of war, the former furnishing 34 battalion commanders, 17 captains, 358 lieutenants, and about 15,000 men. The Minister has also introduced a number of minor changes, such as adopting a new cartridge-box in place of the old pattern, establishing carrier pigeon stations in frontier forts, detached posts, and in the interior of France, reorganizing the balloon detachment, and introducing bicycles and tricycles for courier service. He has advocated the adoption of the recently invented mellinite shells and Brisant projectiles, and elaborate experiments have been made by his direction with portable railroad bridges. The railroad troops have been reorganized, strengthened, and assigned for practice; optical signals have been introduced and special details of independent chasseurs have been drilled in mountain service to serve as supports to neighboring forts.

There is, indeed, scarcely a single department which has not experienced the effect of change. Though overruled in the matter of the adoption of a repeating arm, so that Germany has stolen a march upon him in this particular, BOULANGER has made strenuous efforts to raise the standard of marksmanship by establishing military schools for its practice. His untiring energy has had the greatest influence; in spite of the introduction of politics and the opposition to royalists, or possibly, in consequence of it, he has succeeded in reviving the aggressive spirit of the French Army which has lain dormant since the adoption of the regulations of 1875. He has introduced new regulations for the training of cadets and reformed the higher military colleges by higher qualifications for instructors and more rigid examinations not only in scientific studies, but also in practical exercises, such as in riding, etc. Strict attention is given to the riding of officers of the General Staff, and officers intended for staff duty are detailed to practical military schools, on the Eastern frontier, to perfect themselves in equestrianism. A number of regulations which had become obsolete have been put in force again, such as that enjoining officers to the strictest observance of professional secrets, forbidding officers to participate in public races, etc.

On the other hand some vexatious customs have been abolished, such as the prohibition upon the wearing of beards and the exactions concerning salutes. Salutes with caps on are still required when entering assemblies when the President and other high officials are present; but the cap may be removed, and before entering other assemblies it may be left in the reception room. One of the most beneficial reforms is that establishing the "cercle militaire" in Paris and military clubs in all garrison in order to make officers fraternize and increase the *esprit du corps*. The status of non-commissioned officers has been materially improved by daily leaves until 1 A. M.; abolition of taps, and requiring men to salute them in passing. Barracks have received military names, and among other reforms the enlistment of new recruits is to be occasion for extraordinary festivities. The Secretary has given his personal attention to the introduction of these reforms, traversing the country from post to post to observe their effect, and ordering periodical inspections by corps commanders and other general officers.

Whatever may be thought of General BOULANGER or his reforms, it must be admitted that he has accomplished more in restoring the efficiency of the French service than any of his predecessors since the Franco-Prussian war of 1870–71, and that he enjoys a popularity not only in the army, but throughout France, such as none of them has approached. This is the result of energetic administration and tact in presenting his reforms in the most favorable light. He is certainly an able administrator and he has had a most remarkable career. When but 38 years of age he reached the rank of Colonel and commanded a Regiment of Infantry, an achievement of which few foreigners can boast. He understood how to make himself conspicuous and carefully avoided the dangerous military "reef" of oblivion. In the lower grades he strove to attract attention to himself by changing stations, sometimes by shrewd withdrawals from notice, and again by notorious and even eccentric enterprises; and, in the higher grades, he took advantage of every opportunity and even made opportunities to bring himself into notice. This is exemplified by his course in the conflict with the civil authorities at Tunis, where, as Commandant of the Army of Occupation, he dealt with the questions at issue so skilfully as to pave the way to the French Cabinet. Having reached this goal of his ambition his first act was one which in itself would have been suicidal for a Minister of War, but which won for him such a following not only in the army but throughout France, that he gained a prestige unknown to his predecessors.

Regardless of consistency he immediately declared himself the opponent of monarchy and became a spirited champion of republican principles. His first move was directed against all officers more or less prominent as royalists. Officers were transferred from his staff and from posts all over the country for no other object than to prevent royalist officers from living together and to injure their professional standing. With this in view he transferred Colonel GRITH, formerly adjutant of the Duke D'AUMALE, from the garrison in the vicinity of the Castle belonging to the Count of PARIS, to Clermont. Then followed the transfer of the entire 9th Cavalry brigade (three Regiments of Dragoons and two Regiments of Hussars) from Tours, and because General SCHMITZ, commanding the 9th Army Corps to which the 9th Cavalry Brigade belonged, did not promptly acquiesce in this change, he was immediately relieved of his command. Many others were removed but some evoked such opposition that they were reinstated. In view of the tendency to monarchical ideas from intimate association with the inhabitants of towns and provinces, BOULANGER endeavored to have a law enacted by which one-fourth of the entire army should be compelled to change

garrisons every year so that no detachment of troops should occupy a post for more than four years. He advanced every possible argument to justify this measure, but the opposition was so strong that he was compelled to yield and thus barely saved himself from losing his long sought position as Minister of War. Whatever his future fate he has left an impress upon the French army which will not be effaced.

MAGAZINE OR REPEATING ARMS.

"MAGAZINE or Repeating Rifles," was the subject of a lecture delivered before the Royal United Service Institution, Feb. 25, by Captain WALTER H. JAMES, late R. E., who seven years ago, in the same place, said "the future undoubtedly lies with repeating rifles." Now, as the lecturer showed, Germany, which leads in the van of progress, has the Magazine Mauser in the hands of five Army Corps, and will probably have it in the hands of all her troops before the summer. France has had a weapon of a similar but more complicated pattern, the Kropatschek, in the hands of her navy for some years, and it is expected that the Lobel-Gras repeater will be adapted for the army. This last carries eight cartridges under the barrel, and the new arms will have a reduced bore of 0.307 in. Austria has definitely adopted the Mannlicher, which is an obvious plagiarism upon the old style Lee. England has the Lee Remington under trial, and will probably adopt it. Of it, Captain JAMES said: "This arm appears very superior to the Mauser; like that rifle and the French Kropatschek its calibre is 0.433 in. In Italy, it has been determined to alter the Vetterli bolt-gun system known as the Vitali. A magazine is fixed under the shoe, in front of the trigger guard, into which four cartridges packed in a card-board box are pushed from above. This is avowedly only a temporary expedient, pending the introduction of an improved weapon; the alteration costs a very small sum. Like the Mannlicher this rifle cannot be used as a single-loader. Switzerland has for some years past had the Vetterli magazine rifle, with a rather complicated action, somewhat on the Winchester principle; the magazine under the barrel holds eleven rim-fire cartridges; the arm is very heavy, weighing 10 lb. 8 oz. Russia has introduced the Evans rifle into her navy, which carries the very large number of thirty-five cartridges in a magazine in the butt, but is not likely to be adopted in the army. Pending the introduction of a new arm, it is stated that a form of attachable magazine has been devised for the Berdans, which can be fixed to that rifle in less than ten minutes. Sweden has for some time had the Jarman magazine rifle, having a tube under the barrel holding eight cartridges. Portugal has recently adopted the Guèdes rifle, distinguished from all the others mentioned by a small bore, 0.323 in., and high initial velocity. The magazine and breech action are the same as in the Kropatschek."

The lecturer favored smaller calibres. He suggested a bore 0.32 in., with a bullet of 336 grains, and a powder charge of 90 to 100 grains as a desirable combination. Also a lead bullet covered with a thin shell of harder metal—copper or steel—as preferable to lead alone. As the result of experiments by Lieut.-Colonel BODE in Germany and by Major RUBIN and Professor HEBLER in Switzerland, it is claimed that this projectile does not lead the grooves, as is likely to be the case with a long soft projectile driven at a high speed; nor does it wear the rifling, as would a bullet of hardened metal, the thin steel or copper coating being pressed into the lead of the bullet. Steel is considered preferable, and a Hebler rifle has fired 1,500 rounds with steel-coated bullets without the least sign of wearing the rifling. The steel envelope polishes out the bore every time, and removes fouling, so that no lubricator is required.

In the discussion following the reading of the paper, Major General BRAY said of the two rifles which have been chosen for trial in England: "The Remington-Lee is a most splendid weapon, and it has the magazine underneath. It contains ten cartridges, has a beautiful barrel, and is a most perfect weapon, and has, moreover, the additional advantage that the captain of the company is able to control the magazine fire, which is a most important point." The Burton-Lee has the enormous disadvantage of putting the magazine on the side of the rifle though the closed bolt action he thought a great advantage. Mr. FREDK. LOWE explained that the former prejudice against bolt guns was due to an injury received from one of the primitive models twenty years ago, by a member of the House of Peers serving on a Small Arms Committee, and an accident five or six years later to a well-known shot at Wimbledon. The special feature of the Lee removable magazine, Colonel LONSDALE HALE, R. E., especially commended as affording the only means of controlling the fire of the soldier. Admiral HENRY BOYS thought that the navy required a repeating rifle even more than the army. It is an absolute necessity to the navy in these days of torpedo-boats, when only a few seconds are allowed for action.

ON June 10, 1801, Secretary of War HENRY DEARBORN directed that "a gun not exceeding a six-pounder should be fired daily at reveille beating, immediately after break of day, after which no officer or soldier should remain in bed." On July 23, 1867, General GRANT, then commanding the Army, directed that at "every military post supplied with the proper ordnance and ammunition, a morning and evening gun will, in time of peace, be fired daily at reveille and retreat. Six-pounder guns, and inferior blank cartridges or powder when on hand, will be used for this purpose." This time honored custom, however, received a knockdown blow last week in General Orders 24, of March 15, which directs a discontinuance of "the practice of firing a morning and evening gun until further orders, except at West Point and Forts Monroe and Leavenworth, in consequence of the supply of powder remaining at the close of the War of the Rebellion which has been used for this purpose having become exhausted, and the Ordnance Department being without funds for the purchase of the powder required." The last order has formed the basis for an amount of facetiousness among our contemporaries of the daily press, calculated to dim the laurels of MARK TWAIN or any other professional humorist. We trust, for many reasons, that the temporary suspension of this dignified and at many points, extremely useful, custom, will be short, and that soon the Ordnance Department will find itself "in possession of funds available for the purpose." Still, the bugle and drum are yet with us, and in the opinion of many garrison inmates, make sufficient noise for all practical purposes.

UNDER head of General "Court martial Cases" we publish this week the result of the trial of Sergeant CONNOR, Co. F, 24th Inf., for allowing himself and escort to be disarmed by train robbers while en route from Fort Elliott, Texas, and of Sergeant ROSE, same company and regiment, for permitting a meeting in the company barracks to denounce Sergeant CONNOR'S act, etc., in violation of par. 5, Army Regulations, 1881.

WE have received several suggestions with reference to the issue of circulars by claim agents inviting officers of the Army to confidential intercourse with reference to cashing their advance pay accounts. Their authors may perhaps be unaware of the fact that they are inviting their correspondents to direct violations of the orders of the War Department to which severe penalties are attached. But officers certainly understand this and the remedy is in their own hands.

THE English are much troubled by the question as to how they are to provide remounts for their cavalry. In Parliament recently Lord Ribblesdale pointed out, as Doctor Fleming had done before him, that when war was apprehended a few years ago, and officers were sent in every direction to buy troop-horses, they could only get seventeen hundred together in seventeen weeks. At this rate it would have taken them rather more than three years to collect enough horses for two properly-equipped army corps. Recent experiments in the importation of Canadian animals have not been very encouraging.

GENERAL H. L. ABBOT, Corps of Engineers, U. S. Army, delivered before the New York Academy of Sciences on Monday evening an interesting lecture on "Seacoast Defences." The lecture was illustrated with many appropriate views and sketches. General Abbot after giving an admirable *resumé* of the principal European fortifications and other means of defence, as well as of our own, in comparison, he said: "Many people think we are in little danger of war. They should remember that we are but a century old, and in that time we have had four wars. Lately we have had two bad scares. We should remember that there is no police court of nations to visit justice upon the wicked. By our present policy we are giving bonds to Judge Lynch to keep the peace. This seems to be an era of quacks. Men who know nothing of water invent torpedoes, and others ignorant of gunnery devise new cannon. All these things are hurried on to Washington, and do much to confuse the Government and hinder the real progress that is so badly needed."

IT is proposed to ask authority from the New York Legislature to make the Superintendent of New York police, Colonel; the Inspectors in order of seniority, respectively, Lieutenant-Colonel, Major, and Adjutant. The Captains are to retain their present rank, the Sergeants to be called Lieutenants, the roundsmen corporals, and the patrolmen privates. A roundsman now wears the corporal's chevrons, and his duties correspond to those of a corporal in the Army. Should the change be made shoulder straps will take the place of shields on uniforms. The shields will be worn merely to show authority when in citizen's clothes. Why not call them Doctors, Judges, or something else indicative of a profession they do not belong to?

A REPORT was in circulation among naval officers this week to the effect that about 3,000 tons of steel, turned out by manufacturers for the Charleston, Baltimore and gunboats Nos. 1 and 2, had been rejected. Commander Evans says that while a quantity of the steel has been rejected, the amount does not reach 3,000 tons. Steel has been accepted from every one of the firms furnishing it. The papers of the Evans board, however, show that steel has only been accepted from the Pennsylvania Steel Company of Steelton. Six hundred and fifty tons of metal has been accepted from that company, or about 75 per cent. of all that has been offered by it.

THERE seems to be something in the climate of the Nile region which developes stupidity. Last summer, General Parr, one of the commanders of the British army of occupation, decided that he had use for the map room in the citadel at Cairo. He therefore instructed Major Mantell of the British Army to clear out the room, and told him to improve the opportunity to "destroy all useless documents and papers." Thereupon he proceeded to destroy nearly all of the large collection of maps in the possession of the Egyptian Government relating to the geography of the Egyptian Soudan. These collections had been accumulating ever since Mehemet Ali conquered Khartoum. They included maps, plans, and military archives relating to the immense regions extending up the Nile Valley to the great lakes and from the Red Sea to El Obeid and El Fasher.

THE Secretary of War has decided to postpone action in the promotion case of Second Lieutenant John F. McBlain, 9th Cavalry, whose nomination was left over from last session, until the Senate convenes again. The vacant first lieutenancy of his regiment will, therefore, remain unfilled until that time, unless another vacancy should occur in the meantime, when it would, probably, be found necessary to again overslaugh McBlain.

ADVANCE proofs of a paper read before the American Society of Civil Engineers on March 2, by Mr. William Metcalf, M. Am. Soc. C. E., on "Steel; some of its properties: its use in Structures and in Heavy Guns," has been sent to members and others. It is intended to have a discussion on the subjects presented by this paper at the meeting of the Society, at 127 E. 23d st., N. Y., on Wednesday evening, April 6.

BIDS were opened in the office of the Chief of Ordnance, March 25, for supplying 115,000 metallic rifle blank cartridges, 50 in. calibre; 70,000 rifle bullets, and 70,000 Berdan primers, to be delivered at Harrisburg, Pa., for the use of militia troops.

THE number of visitors to the State, War and Navy Departments shows a notable falling off as compared with a short time since, the reason being that as the season advances fewer strangers from the North and West are making Washington their objective point.

WE are glad to learn that Mrs Drum, wife of General R. C. Drum, U. S. A., is much better and pronounced entirely out of danger.

NAVY LINE PROMOTIONS BY RETIREMENTS, 1887-1898.

NAVAL APPROPRIATIONS 1880-8.

MR. W. G. SHOCK, Finance Clerk of the Bureau of Steam Engineering, has just completed a valuable compilation from the digests of appropriation, showing the appropriations made for the Naval Establishment for the years 1880 to 1888, inclusive, the following summary of which he has kindly furnished us for publication. The detailed statement has been turned over to the Secretary's Office, where it will serve as a very useful table of reference to those who have to do with naval expenditures. The compilation can be relied upon as being strictly accurate, as Mr. Shock is regarded as one of the most painstaking, as well as hard working, clerks in the Navy Department:

Appropriations made for the U. S. Naval Establishment, 1880 to 1888 (Inc.).

(Compiled from the Digests of Appropriations.)

Pay of the Navy	$63.227,935.29
Pay, miscellaneous	3,245,583.10

ANSWERS TO CORRESPONDENTS.

Many.—Apply to the Commissioner-General, Land Office, Washington, D. C.

C.—The *Volunteer Service Gazette*, a weekly paper published in London, might answer your purpose.

Ibex.—There are but two general officers who are not graduates of the Military Academy, Maj.-General Terry and Brig.-General Miles.

Candidate.—You will find full instructions as to how Post Quartermaster Sergeants are selected in G. O. 2, A. G. O., of Jan. 3, 1885. If you have not access to the order we can send you a copy.

Lancaster.—If you possess a fair education, and are otherwise eligible, you might be taken into the Signal Corps. Write to the Chief Signal Officer, U. S. A., Washington, D. C., and state your case.

Candidate.—See General Orders No. 2, A. G. O., of Jan. 23, 1885, for full particulars as to appointments, etc., of Post Quartermaster Sergeants. If you have not access to the order we will send you a copy.

Old Soldier.—Prepare an affidavit, setting forth, clearly, your volunteer service during the war, that you received an honorable discharge, lost it, have made a diligent search to find it, but without avail, etc. Then send the affidavit to the Adjutant-General, U. S. Army, Washington, D. C., and await results.

H. H. H. S. asks: 1. Does the bill establishing a "Hospital Corps" carry any money appropriation with it, or, in other words, will the members thereof receive the pay allowed in it on next pay day? ANS.—Yes.

2. Has any General Order, A. G. O., been published yet in regard to the number of cooks and nurses allowed each post under the new law? ANS.—No. See JOURNAL of March 12, page 657.

J. P. K.—The Tactics say that "at the command parade is dismissed *all* the officers return their swords and face towards the centre, the officers then step off at the same time with the adjutant, close upon the centre and successively face to the front, the field officers on the flanks," etc., etc. No about face is laid down for any officer. The field officers as well as the company officers are plainly directed to face towards the centre. If, after facing in this direction, the field officers should turn about they would certainly find themselves in false positions. The easiest, most convenient, common sense way for them is to face towards the centre and join the flank of the line of the company officers by an oblique movement. The whole thing is extremely trivial and if, as you say, at the Washington drill they give such hair splitting questions as this their weight in their decisions then the less we have of the drills the better. Tactics are for the teaching of practical military movements and not for the discussions of questions which could hardly arise outside of a dancing school.

SHE—"Where are you going, Charley?" He—"Going to the theatre." She—"Ah, I understand. The ballet. But why don't you go to the dog show instead? I think you will like it ever so much better. The dogs, you know, have four—twice as many as the ballet dancers."—*Boston Transcript.*

RETURN RELATING TO BURST ENGLISH GUNS.

We are indebted to a correspondent for a copy of the following return showing the Number, Description, Name of Designer, Place of Manufacture, and Position at the Time, of the Rifled Iron and Steel Guns that have Burst, or been temporarily Disabled, through Defective Construction, or from other Causes, in the Land and Naval Services (of Great Britain), from 1875-6 to 1885-6, ordered by the House of Commons to be printed, February 21, 1887. In Parliament Mr. E. Stanhope said the number of guns in possession of the Army and Navy during the years specified is 9,822. The total ratio borne by the thirty-one guns that have failed is therefore about 0.3 per cent. of the whole. It is to be remembered, however, that they have not yet been subjected to the test of battle.

Date.	Description. No.	Nature.	Weight.	Mark	Name of Designer.	Place of Manufacture.	Position at the Time.	Remarks.
Breech-loading:								
May 4, 1886.	16	12-inch.....	43 tons...	II	Royal Gun Factories..	Royal Gun Factories.	"Collingwood."	A. Tube broken and 3 B. Coil, tearing away portion of last-named.

ROYAL GUN FACTORIES, WOOLWICH, January 29, 1887.

E. MAITLAND, Colonel, Superintendent.
H. J. ALDERSON, Major-General, Director of Artillery and Stores.

THE STATE TROOPS.

VETERANS IN THE MILITIA.

THE *World* gives a list of the New York Militia officers who saw service during the War of Secession. It includes the Brigade General, Commander Louis Fitzgerald, Colonel Emmons Clark, Captains Wm. H. Palmer, Don Alonzo Pollard, James C. Abrams, Henry S. Steele, and 1st Lieut. Walter S. Wilson, of the 7th; Colonel Geo. D. Scott, Lieut.-Col. Francis A. Schilling, Adjutant James O. Johnston, and Captain Edward Barker, of the 8th; Colonel Wm. Seward, Jr., Lieut.-Col. Thomas B. Rand, Surgeon Stephen W. Roof, Captains George T. Lorrigan, Noah L. Cocheu, Wm. R. Clough, and Alfred Chamberlain, and 2d Lieuts. Thos. S. Croft and W. Romeyn Vermilye, of the 9th; Colonel Albert P. Stewart, Lieut.-Col. Wm. P. Walton, Captains Frederick Klonz, Francis Albrecht, and Charles F. Surbrug, of the 11th; Captains Charles Burns and Wm. H. Murphy, of the 12th (which also has two ex-regular officers at its head—Colonel James H. Jones and Lieut.-Col. Heman Dowd); Colonel John I. Camp, Lieut.-Col. Wm. J. Harding, Captains Wm. V. King and Geo. F. Potter, Lieuts. Jos. P. Jardine, James R. Byrd, and Adolph E. Dick, of the 22d; Col. James Cavanagh, Lieut.-Col. Wm. De Lacey, Captains Michael Brennan, John Kerr, and Hugh Colman, Lieuts. John E. O'Brien, John Murphy, and John O'Connell, of the 69th; Surgeon Edward T. Marsh, Captains W. C. Clark, L. Frank Barry, Augustus T. Francis, and Lieut. James A. Wright, of the 71st. Lieut.-Col. Appleton, of this last regiment, was an officer of U. S. Cavalry from 1865 to 18 3.

DISTRIBUTION OF CROSS OF HONOR TO 7TH Y.

THREE years ago when the "Cross of Honor" was adopted as a badge of faithful service in the most famous American military organization, many people thought that it would not fulfill its purpose. When the first distribution took place, gentlemen from Maine to California, from the Lakes to the Gulf in civil life and in the Army, Navy and National Guard responded to the call, and all were equally proud of the decoration. The eagerness with which the cross was sought and the satisfaction and pride of its wearers in exhibiting it, was the best proof that its adoption was the proper thing. All men who have been, or are serving in its ranks, are proud of having received their first lessons in military training in the 7th New York.

Of course two years ago the great bulk of those who had achieved fame in the military profession during scores of years of the existence of the regiment presented themselves as candidates for the much-prized honor. As years pass on the older element is not represented at the presentations, and only those of the present generation, who in the ordinary course of time become entitled, come forward at the call to receive the decoration. Therefore the number of those who step to the front now is comparatively small, but they are all anxious to receive the medal, and the youngsters are impatient for the time to arrive for them to become entitled to it. Since the adoption of the medal the 7th has acquired the distinction of being one of the few regiments, if not the only regiment in the country with full ranks and men to spare.

The ceremony of the occasion was a success. The regiment as well as its friends turned out in full force. The military of the 1st and 2d Brigades were well represented. Brig.-Gen. Louis Fitzgerald made the presentation of the medals. At first there was a dress parade of which it can only be said that it could not have been executed in more precise manner. The band, however, instead of marching straight to the centre of the battalion and then turning to the right and marching back in the same track might have beat down the entire length of the line. A little good music on such occasions is very acceptable, and the echo is much diminished when the band is at the Fourth avenue side of the armory which, on this occasion, was entirely ignored. The drummers did better than on the last occasion. When referring to drummers we do not presume to criticize their use of their instruments and the handling of the drumsticks. Both were perfect, but drummers should remain steady like soldiers, as well as the rest of the battalion. During the greater part of the performance they stood well enough, but towards the end of the performance the strain seemed to become too great and their feet became apart and their attitudes rather like those of minstrel performers than those of soldiers. We only regret that the redoubtable drum-major, John Smith, and the celebrated Cappa were not in positions to see them. It is difficult to make drummers and buglers perfect soldiers, we know, but it is well to look after them occasionally.

After the dress parade there was a review before General Fitzgerald, in which the companies, with 32 files front, passed in as fine shape as has ever been accomplished in this armory.

Then the cross of honor was presented by Gen. Fitzgerald to the following: Silver (15 years' service)—Capts. Daniel Appleton and Andrew Mills; Lieuts. Frank Parling, John W. McDougall, Walter G. Schuyler, Horace C. Du Val and Bradish J. Smith; Corpl. Warren R. Bostwick and Pvt. John A. Hunt. Bronze (10 years' service)—Capt. James T. Harper; Sergts. Edwin C. Ray, Jr., N. Malon Beckwith, Geo. H. Gould and Wm. P. Atkinson; Corpl. John F. Theis and Pvts. Jos R. Dederer, Cyrus F. Loutrel, Henry W. Comegys, Wm. R. Ward and Benj. F. McKinley. The following qualified, during 1886, for the Cross of Honor in gold (20 years' service): Capt. Geo. B. Rhoads, Lieut. Geo. A. Jones, Sergts. Thos. Clark, Jr., and Geo. W. Munson; and for the Cross of Honor in gold, with "7" in brilliants (25 years' service): Lieut. Col. Geo. Moore Smith, Capt. Wm. C. Casey, Corpl. H. A. Bradstreet, Pvts. Whitman S. Lent and Geo. W. Lewis. Maj. W. H. Kipp, the former commander of Co. D, was also presented, on behalf of that company, with a very handsome cross for 30 years' service.

When the presentation ceremonies were over the regiments performed some of the battalion movements customary on occasions like this, but as we have described them so frequently, it is not necessary to mention them in detail beyond the fact that they proved immensely entertaining to the lady portion of the audience. The whole affair was eminently well done and impressive.

On March 6, Cos. C and K had a battalion drill equalized as usual in 6 companies of 12 files front. The formation was very prompt. Maj. Kipp, who was in command, forgot to order front before closing ranks, and about one-half of the regiment stood fast and considerable confusion was the result. There was considerable lack of the 7th Regiment dash and swing in the step of Co. C, owing to the listlessness of men who evidently have no interest in their work. This marred the fronts into line, and the officers by their lack of snap and decision in giving command, were largely responsible for the defect. This was the case to such an extent in the 10th company that it caused many men in the ranks to smile in derision; especially if the sonorous voice of the battalion commander was considered in contrast, and this also tended to make the drill poorer than is usual with such a generally apt rank and file. The left of companies, rear into column, was also badly executed, the guides in only one instance being allowed to cover. But with all these drawbacks the drill as a whole was creditable to the rank and file. The attempt to wheel the battalion to the left was not successful, the men shoving and crushing each other in such a way as to lose all control of themselves. Laughter also seemed quite prevalent. Some degree of animation on the part of the officers would give the rank and file more incentive to do well.

NEARING A SOLUTION.

THE Brooklyn *Eagle* of March 18 has some comments upon affairs in the 13th Regiment, of that city, which are so much in the line of what has been said here from the first that we reproduce them in full:

"Another step has been taken in the determination of the troubles which have agitated the 13th Regiment since September last. The second of the courts-martial ordered by the Commander-in-Chief, at the instance of Col. Edward Fackner, has rendered its decision, and the findings and sentence of the court are sustained by the military authorities of the State to the extent of decreeing that Lieutenant Benedict, the officer last tried, shall be deprived of his commission by the summary process of cashiering. This decision is tantamount to a dishonorable discharge from the service; but the reviewing authority finds certain extenuating circumstances, in the shape of unproved charges and specifications not sustained in law, which leads him to set aside the extreme sentence of the court and relieve the convicted officer of the penalty of being forever incapacitated from holding a military commission. The case of Lieutenant Benedict was in some respects a peculiar one. By his own testimony, as presented in bar to the proceedings of the court, it appears that he had some time previously resigned his commission. His discharge was withheld at his own request and he continued to do duty as an officer of the 13th Regiment and the National Guard. Two charges were preferred against him, one of conduct to the prejudice of good order and military discipline, the other of unmilitary and unofficerlike conduct, upon both of which he was found guilty by the court. The former was held not to have been sustained, the finding in the latter was upheld and the milder form of punishment approved by the Commander-in-Chief. The opinion of the Judge-Advocate General, promulgated by the Adjutant-General in official form as the conclusion of the Governor, bears evidence of serious and deliberate consideration. It further discloses a determination on the part of the responsible heads of the uniformed militia of the State to enforce discipline in the National Guard without regard to individuals and with regard solely to the vital interests of the service at large. To the unprejudiced observer it has all along been evident that there was really no occasion for the rebellious outbreak which has tarnished the reputation of the Thirteenth as a duty-doing organization of citizen soldiery and left an enduring blot upon the fair fame of the "Mother of Regiments" in Brooklyn. For the individuals who have laid themselves liable, by their own acts, to the infliction of punitive justice at the hands of the military authorities of the State there will be but scant public sympathy. Members of a militia organization who cannot curb their personal prejudices to the extent of complying with their sworn obligations to support their legally constituted superiors are better out of the National Guard than in it. The fate of a single person is not likely to affect the future of the 13th Regiment. It is a significant indication of the stability of that historic organization that recruits are steadily rallying to its standards under the present management, and that the wholesale withdrawals from the ranks—which were predicted a few months back—have not taken place, the discharges which have been granted since September last having been confined exclusively to 'deadwood' or members of the regiment who had outlived their usefulness."

SEVENTEENTH SEPARATE N. Y. COMPANY.

DR. JOHN MILLER delivered the first of a series of lectures on physiology and anatomy to the ambulance detail of the 17th Separate Company, N. G. N. Y., in Flushing, L. I., last Tuesday evening. Dr. Miller is a brother of Capt Thos. Miller, the popular and efficient commander of this well-known organization. Apropos of this subject it may be stated that 2d Lieut. Joseph Fitch, of the company, who is also a member of the State Assembly, introduced a bill in that body last week asking for an appropriation for an extension of the armory and for an iron railing to surround the building. This measure if considered favorably, will add materially to the area of the drill hall and will much enhance the general appearance of "Fort Christensen."

MILITARY ATHLETES.

AN athletic exhibition, under the joint auspices of Co. K, of Wallingford, of the 2d Regiment, and Co. B, of the 22d New York Regiment, was given in the regimental armory of the 2d Regiment, New Haven, Conn., March 19. The Wallingford company escorted the New York visitors, Co. B, Columbia College athletes, and many members of several New York athletic clubs to the armory. The winners were: 50-yard run, J. F. McGuire, of Yale; One-mile walk, E. D. Lange, of Co. B; Putting the shot (handicap), J. F. Hunt, of Yale; mile run (handicap), William Harman, of Yale; Quarter-mile run, A. F. Copeland, of the Manhattan Club; Co. K defeated Co. B in a tug-of-war, and Columbia defeated Yale in a similar contest. The Sarsfield Guards gave an exhibition drill.

NATIONAL MILITARY DRILL.

The Washington National *Tribune* says: "The National Military Drill which is to be held here in May will be a grand affair, provided that discipline can be maintained. The famous military companies of the South will be very generally represented and will indulge in fancy manuals and movements. An effort is also being made to have a nocturnal allegorical procession, copied after those of the Mardi Gras at New Orleans. Indeed, they are endeavoring to buy or to hire the dresses and decorations used in the Crescent City. President Cleveland will probably find it convenient to visit his fishing retreat in the Adirondacks about that time. It was announced that Jeff Davis would come with a Mississippi company, but there was such a storm of protest that he has abandoned the idea, if he ever seriously entertained it."

Co. B, 3d Infantry, Missouri National Guard, Capt. Wm. Kelley, whose headquarters are at Kansas City, will attend the coming national encampment and prize drill at Washington, D. C. Capt. Kelley was in New York this week, having previously been to Washington on business connected with the visit of his company to that city.

THE POUGHKEEPSIE COMPANIES.

FOR the past two months regular weekly drills have been held by the 15th N. Y. Separate Co., Capt. B. Myers, commanding, and the 19th N. Y. Separate Co., Brevet Major Wm. Haubennestel commanding. The 15th are picking up considerable energy and recruiting has been quite active, there now being 65 names on the active roll. Much useless timber has been eliminated, and the good work should continue, as this command deserves to rank as one of the first in the State. 2d Lieut. Charles Brittain, it is rumored will shortly resign, owing to business engagements which will keep him out of the State a great deal. We hope Capt. Myers and his command will be fortunate enough to secure as energetic an officer as his successor. The command shows a marked improvement in discipline and drill. The 19th Co., as usual, comes to the front with full ranks, the muster roll showing 103 active officers and men. The school of the soldier and company, skirmish and bayonet drill, guard mounting and battalion formations receive due and careful attention. On the evening of March 16 this command, 42 files front, had a splendid company drill, which wound up by instruction in the school of the battalion, with Sergts. Hoffman, Slater and Barrett in command, and the manœuvres were well executed. Both commands have received their full complement of new State equipments, and are highly pleased with them.

Arrangements for a grand parade on Memorial Day are now in progress under the auspices of Hamilton Post No. 20, G. A. R. Captain W. L. DeLacey (supernumerary), commander of the post, was the recipient of a handsome gold-mounted sword, scabbard and belt a few evenings since by his comrades. It was a testimonial well merited. Corporal Tanner, of Brooklyn, will deliver the memorial address.

E. J. C.

Twenty-third New York.—Col. Chas. L. Fincke.

ON March 19 the 23d Regiment was reviewed by Mayor Whitney, and the marksmen who qualified at Creedmoor were presented by Capt. W. H. Greenland, I. R. P., with the regulation medals. There were also a number of other prizes awarded. There were 308 marksmen. The Oliver gold medal was presented to Lieut. John S. Shepherd, of Co. D, for having the highest aggregate score in team matches of the season at Creedmoor. The regimental grand gold medal was awarded to the same officer for making the highest score in regular class practice. The State prize of $50 was awarded to Co. I, Captain Fred. Holmes, for the highest percentage of marksmen in the 2d Brigade. Out of 65 enlisted men in his company 58 qualified at the butts. This money was turned over to the captain some time ago and he converted it into two handsome pictures. The regimental rifle team, consisting of twelve members, were presented with the gold badge which they earned at the autumn meeting of the National Rifle Association. The Regimental Veteran Association presented three medals for recruiting. General A. C. Barnes made the presentation speech. The recipients were Arthur Eldridge, of Co. C, gold medal; Edgar J. Haynes, Jr., of Co. H, silver medal; and Frederick B. Bailey, of Co. F, the bronze medal. After the regiment had been dismissed there was a dance.

The Twenty-third was reviewed by Mayor Whitney of Brooklyn on the evening of March 19th. Over 1,000 ladies were present, as were also nearly all the prominent military men of the two cities. Tickets of admission had been scarce for a week, and the huge building was uncomfortably crowded. For the review the companies were equalized to sixteen files front each. The companies were marched to their quarters, and the details dismissed at equalization were added, after which Adjutant Burd formed for dress parade, and turned the regiment over to the colonel, who exercised them in the manual. The medals won at Creedmoor were then distributed to 23 sharpshooters, and to 285 marksmen with scores ranging from 41 to 25. The following are the sharpshooters with their scores:

			Score.
Captain Ezra De Forest	An. qualif.,	12 Co. C	47
Private G. S. Scott, Jr.	"	2 " A	47
Corporal E. V. Howard	"	2 " I	47
First Sergeant W. A. Stokes	"	3 " I	46
Private L. J. Elliott	"	8 " C	46
Captain F. L. Holmes	"	5 " I	46
First Lieutenant J. S. Shepherd	"	8 " D	46
Second Lieutenant G. F. Hamlin	"	8 " 1	45
Sergeant Major A. D. Beeken	"	7 N. C. S.	45
Sergeant F. A. Wells	"	9 Co. B	45
Corporal F. I. Perry	"	3 " I	45
Captain W. L. Candee	"	12 " B	45
Second Lieutenant W. P. Pickett	"	6 " B	44
Private W. C. Pirie	"	2 " I	44
Corporal H. D. Hamilton	"	8 " I	44
Commissary R. Oliver	"	3 Staff	44
Private George Joiner	"	4 Co. D	43
Private W. F. Townsend	"	2 " I	42
Sergeant J. N. Wheeler	"	2 " I	42
Sergeant W. A. Robinson	"	6 " A	42
Corporal H. Graff	"	4 " B	42
I. R. P. W. H. Greenfield	"	7 Staff	42
Private George Bell	"	2 Co. F	42

After this the Oliver Aggregate Medal for highest record the Veteran Association medals for recruiting, the State prize for the greatest percentage of marksmen in the Second Brigade was presented to company I, and the regiment was dismissed. A promenade concert then followed, and dancing, which was continued until midnight.

Colonel Fincke ordered the following drill for instruction in aiming and sighting: Companies C and D, Mondays, April 4, 11, 18 and 25. Companies E and F, Tuesdays, April 5, 12, 19 and 26. Companies A and B, Wednesdays, April 6, 13, 20 and 27. Companies I and K, Thursdays, April 7, 14, 21 and 28. Companies G and H, Fridays, April 8, 15, 22 and 29.

A valuable mantel clock has been presented to Company F of the Twenty-third regiment by members of the Veteran Association. It will be given as a prize to a member of the company who brings in the highest number of recruits during the year—not less than five.

Forty-seventh New] York.—Col. E. F. Gaylor.

THE twenty-fifth anniversary of the muster of Co, F, 47th N. Y., into the State service, was celebrated in the armory of the regiment on the evening of March 21. The company was reviewed by Capt. Kenyon, accompanied by Col. Tuttle and Capts. Morie and Richardson. At the close Capt. Denike, on behalf of the company, presented Capt. Kenyon with a smoker's set of enameled silver with engraved inscription. Col. Edward F. Gaylor then presented Capt. Denike and the two Lieutenants with similar sets from the company, and Veteran John Gillies gave, for the company room, a large picture of Andersonville prison. The affair terminated with dancing. The non-com. officers of Co. F have offered a handsome gold watch for the largest number of recruits between the present date and June 30, not less than seven. The Brooklyn *Eagle* says: "Co. D, 47th Regt., has been trying to elect a captain for over a year, but something inevitably interferes to prevent the election and Friday night, when the members collected in response to an order for election, the sergeant was absent whose duty it was to swear to his return of the morning and the meeting broke up in disgust. There will probably be no captain to this company this year."

MILITIA ITEMS.

The 11th N. Y. Regiment proposes to have a "field day" at Fort Hamilton, N. Y. H., in June. At the battalion drill of the regiment on March 17 the marksman badges were presented to the winners.

The 1st Battery, N. Y., Captain L. Wendel, have received their carbines and ammunition—a necessary want.

A movement is now on foot in the 7th Regiment to organize a "Regimental Club." The committee of officers, consisting of Captains Appleton and Cooper and Adjt. Rand, met with the committee, consisting of one enlisted man from each company, on Wednesday evening, March 16, and the plan of the club was formulated. A circular will be issued and sent to every active, exempt and veteran member of the regiment. The plan now proposed is to lease the two first floors of the apartment house now being erected at the corner of Sixty-sixth Street and Park Avenue for a term of years. There will be smoking rooms, billiard rooms, "Dutch" rooms, a cafe and all the conveniences of a modern club house. The membership will be open to all active, exempt or veteran members over 21 years of age. The club is an idea of the rank and file.

Co. I, 7th N. Y., is actively engaged in preparing for the presentation of "William Tell" on April 14 next. The proceeds are to be given to a charitable cause.

The Veteran Corps of the 71st Regiment, N. Y., will give a reception in the assembly rooms of the Metropolitan Opera House on April 21 next. Co. B will establish a headquarters and club room in East 125th Street. The following companies of the 71st Regiments will hold receptions at the armory: Co. G, March 28; Co. D, March 31; Co. C, April 23.

The 22d Regiment, Colonel Camp, has been ordered to assemble for battalion drill as follows: Cos. C, E, F, G and H, Wednesdays, March 23 and 30; Cos. A, B, D, I and K, Fridays, March 25 and April 1. General Robbins has been invited to present the marksmen's badges to the winners on the evening of the promenade concert and review, April 11.

Eighty-three marksmen's badges were presented Wednesday evening, March 16, to last season's winners in the 14th Regiment, by Maj. George L. Fox, Brigade I. R. P., on behalf of the State. Capt. Cardona, acting regimental I. R. P., assisted in distributing the decorations. Of the 83 badges the field and staff received 4, the non-commissioned staff 3, Co. A 14, B 4, C 2, D 4, E 7, F 6, G 8, H 4, I 21 and K 6.

Co. E, of the 23d Regiment, has in its room on exhibition the pay roll of Capt. Shezobiaz Betts' Company in Col. J. Douglass' Regiment of Militia, State of Connecticut, who joined the American Army in the State of New York September, 1776." One column gives the number of miles marched during the month, the highest one being 295, the amount of pay, etc. The Captain and Lieutenant received £22 each per month, while the privates received between £4 and £5 per month.

Col. Geo. D. Scott, 8th N. Y., orders battalion drills as follows: Cos. F, G, H and I, April 8 and 22; B, C, D and E, April 11; F, G, H and I, April 19; B, C, D and E, April 27: regimental drill and parade, April 29.

The Veterans of the 9th N. Y. at a meeting held in their room at the armory March 9, passed resolutions complimentary to the late Gen. Chas. P. Stone, their first brigade commander during the civil war, as "a true, faithful, conscientious and upright soldier" and a citizen of unsullied reputation.

A. J. Crozier has been elected lieutenant in Co. A, 11th N. Y. The resignation of Lieut.-Col. W. P. Walton, of that regiment, has not yet been found and we hope that the colonel may find it convenient to withdraw it.

Oliver H. Decumbus, one of the janitors of the 7th N. Y. and an employee at the rifle range there, has invented and patented a new sight protection for rifles, which is certainly a most ingenious contrivance of its kind.

The members of Co. B, 12th Regiment, on Thursday attended the funeral of one of their members, Richard Plant, who died on Tuesday, March 22, aged 33 years. Mr. Plant joined some ten years ago, and although latterly suffering from consumption, he never failed to be present for duty upon all important occasions.

(Correspondence of the Army and Navy Journal.)

ILLINOIS NATIONAL GUARD.

ON Monday evening, March 14, Special Orders No. 31, A. G. O., dated March 14, 1887, were read to the 1st Regiment of Cavalry, I. N. G., on dress parade, by Acting Adjutant, Lieut. C. S. Cleaver, which transferred the four troops of the organization to the 2d Infantry, and will be known hereafter as Cos. I, K, L and M, of Col. Wheeler's command.

It is believed that the Adjt.-General had contemplated this change over nine months ago, partly on account of the discordant feeling in the cavalry, and partly from the fact that under the present military code of Illinois, cavalry cannot be made an efficient arm of the Service. There is no provision made for furnishing horses except for, perhaps, two days' drill at the annual camp, and the animals that have been furnished on such occasions were entirely unused to the saddle. More than this, however, which went towards causing the change, was the amount of bitter personal feeling stirred up by the investigation of Lieut.-Col. Jacobs's accounts as treasurer of the regiment.

It was thought by those instrumental in bringing on the inquiry that he would be found guilty of irregularities and forced to give up the command of the regiment, when Maj. Maxwell would assume control and affairs would run on as smoothly as the "River of Peace."

As it is, Lieut.-Col. Jacobs and staff have resigned their commissions, the four troops are now the 3d Battalion, 2d Infantry, and H. B. Maxwell holds a commission as major, unassigned.

The orders provide that all officers and men not desiring to remain in the Guard as infantry may be mustered out honorably, but there is no consolation in this for the larger portion of the organization, who had looked forward to being mounted some day not far in the future.

They did want to remain in the Service as cavalry but have decidedly no enthusiasm towards infantry, if one might judge by the general feeling of indignation in company rooms Monday evening after parade. Reporters were excluded, and one who had secured admittance to one of the company meetings was literally thrown out. It is said that the proverbial "monkey and parrot" occurrence was a calm and orderly event compared with what then transpired. One company (K) will probably disband entirely, and very few of the others will go to the Second. It is understood that what is left of the cavalry, or at least that portion which joins the Second Infantry, will remain in the armory they have occupied for some time, as there is not room in the armory of the Second to accommodate the new battalion.

It has often been the wonder of some that no steps were ever taken by the Armory Association or Citizens' League to inaugurate some system for mounting the regiment, which would be, at least, self-supporting. It is quite practical if the right men had ever taken up the idea, and would have kept the regiment not only a separate organization, but the most effective body of men the State could call out. "Of all sad words of tongue or pen"—has been sung to many a tale of disappointment, but the words come home with particularly crushing force to the officers and men of the late 1st Regiment of Cavalry, I. N. G.

The resignations of Capt. Quinn and Lieut. Kent, of the 1st Infantry, have been accepted.

MASSACHUSETTS MILITIA.

THE committee of militia officers appointed for that purpose have submitted to the Legislature a codification of the Massachusetts militia law with suggestion for changes. Chief of these are propositions for an increase of the force; allowing for office expenses of headquarters; allowing the loan of camp equipage to the G. A. Republic and refusing it to schools; making a permanent detail for the color sergeant, general guides, etc.; adding an overcoat to the uniform; limiting the authority of the sheriff, mayor, or selectmen in ordering out troops in case of riot to those within their jurisdiction.

Sec. 63 provides that "an officer may be discharged by order of the commander-in-chief, upon either an address of both houses of the Legislature, for cause, shown after a full and impartial hearing before the commander-in-chief or judge advocate-general, upon the request of the permanent commander of any brigade, regiment, corps of cadets, battalion or company, the report of a court of inquiry or the sentence of a court-martial." This section, if passed, will do away in a great measure with courts of inquiry and courts-martial. The old law allowed an enlisted man to make an application for his own discharge; in the new law, sec. 68, this permission is dropped.

Sec. 106 states that the militia "shall parade for drill one day in each year, at such time and place as the commander-in-chief may designate." The old law required these drills to be held in the months of May, June, September or October.

Sec. 128 provides for the pay and allowances of officers and men travelling on duty, and further provides that "Colonels and battalion commanders may visit the companies in their command six times each year: lieutenant-colonels and majors, such companies as they are ordered to visit by regimental or battalion commanders, six times each year: inspectors of rifle practice may visit the companies in their respective organizations six times each year."

Sec. 162 is changed to read: "And the word 'company' shall include battery, signal, and ambulance corps." The last two organizations named are an addition to the old law.

A manual of guard duty has been issued to each man of the militia. It also contains instructions regarding the rank of officers and how they are to be distinguished, accompanied with numerous drawings.

The new armory of Battery A, Massachusetts Militia, on West Newton St., Boston, was dedicated on Tuesday evening, March 15, in the presence of a distinguished company of military guests. The armory is a brick structure, one story in height, running through from street to street. The armory was built by the trustees of St. Mark's Episcopal Church, which stood on its site, and is leased by the city for five years.

MILITARY DEPARTMENT MICHIGAN.

G. O. No. 10, A. G. O., Lansing, March 21.

It has become the solemn and painful duty of the Commander-in-chief to make official announcement of the death of Brig. Gen. John Robertson, who quietly passed away, in the fullness of years and good works, at Detroit on March 19, at 8.30 o'clock. In profound sorrow we bow in reverence to the will of the Supreme Being.

Gen. Robertson's invaluable services and devotion to the State and the Union since 1861, and especially during the Civil War, his faithful and systematic management of his department, his genial good nature and companionable manners will ever be remembered by the people and soldiery of Michigan. To his care, fidelity and ability, Michigan is indebted in a large measure, not only for the present high status of its military forces, but also for the reputation she achieved during the late war, in which he endeared himself to the soldiers from this State.

Gen. Robertson was born in Portsoy, Banffshire, Scotland, Jan. 2, 1814, coming to this country in 1833. His education had been shaped for a professional life, but his love for military service being predominant he at once entered the Regular Army of the United States, serving therein six years. He settled in Detroit in 1840, and has been identified with the State troops for about 35 years. He received his first commission from Gov. Bingham, as a lieutenant in the Detroit Light Guard, in November, 1855. In the spring of 1861, civil war being inevitable, Gov. Austin Blair selected him for his adjutant general, his commission dating March 15, in which position he has been continued for 26 consecutive years. As an appropriate and deserved tribute to his memory, the officers of the Michigan State Troops will wear the prescribed badge of mourning, and drape their colors, when on parade, for 30 days. The Governor with his staff, in uniform, will attend the funeral, which will take place in Detroit on Tuesday, March 22, at 3 o'clock P. M. By order of

CYRUS G. LUCE, Gov'r and Comdr.-in-chief.
W. C. HUMPHREY, Asst. Adjt. General.

NORTH CAROLINA.

THE State expects to be represented at the National Drill at Washington in May by the Governor's Guard, Greensboro Rifles, Edgecombe Guards, Wilmington Light Infantry, Sampson Light Infantry, Maxton Rifles, Monroe Light Infantry, Hornets' Nest Riflemen and Reidsville Light Infantry. They will go as one regiment, under the command of Col. W. C. Jones, of the 2d North Carolina Regiment.

CALIFORNIA NATIONAL GUARD.

THE present interest seems to be the prospect of a general encampment of the 2d Brigade this summer, which General Dimond favors.

(From the Pall Mall Gazette.)

ROBURITE THE NEW EXPLOSIVE.

THE discovery of a new explosive by the German chemist, Dr. Root, at Berlin, is announced in the Paris *Figaro*, which gives the following details: The roburite, as the new explosive has been called, has been in use for several years in the coal mines near Dortmund with the most satisfactory results. The only reason why it has not been adopted for general use in the mines is that it is too expensive, and that it is spoiled by any moisture. The roburite has just been introduced into the German Army, and the military authorities hope to avoid the latter inconvenience by a new system of packing, invented by an artillery Lieutenant at Spandau. With regard to its price, reductions will be made with the increase in the manufacture of the explosive. The fact that roburite explodes neither from friction nor from sudden shock will greatly facilitate its transport. The effects produced by an explosion of roburite are said to be marvellous, and, though the statement that one discharge of it will remove mountains is exaggerated, the ravages caused by it are stated by eye-witnesses to be terrible.

THE HOPE GUN.

THE London *Daily Chronicle* gives an interesting description of a new gun which Col. Hope is having constructed, and which will soon be ready for trial. The gun is 10 ft. long; the calibre will be at first 2 in., taking a 6 lb. shell, and will be increased to 2½ in., which will permit the use of a 12 lb. shell. The chamber will be at first 45¼ in. long, but subsequently 53 in.; and the actual bore, at first 50 in. in length, will be 42½ in. The diameter of the powder chamber will be 3 1-10 in. at the breech and 2 4-10 in. at the base of the shot. This will have an ogival head, like a Palliser shell, but it will bear on the bore for only about one-third of its length, and the tail will taper off nearly to a point, or rather to the screw fuse. The shell, which will be of forged steel, will have ribs on it to take the rifling, which will be only about a quarter turn in the length of the bore. By a process that is as yet a secret, the metal of the gun is denser around the bore than at the exterior, and this is expected to have a great effect on the endurance of the weapon. The cartridge case will be of a special metal, well screwed into a steel base. Throughout its length will run a tube pierced with a number of holes. In this tube will be several ounces of rapid-burning rifle-grain powder, which will convey the ignition as nearly as possible simultaneously to the gun charge. The charge of the inner or firing tube will have sufficient energy of its own to slightly move the projectile, and thus the gun charge will, in the equal expansion of its gases, not meet with a dead weight of shot at the moment when its forces are the greatest, and the expansion will, by following the shot, take the line of least resistance, so that the danger of bursting the piece

will be reduced to a minimum. It is calculated that the muzzle velocity to be developed will be 4,500 ft. per second, as against 1,355 ft. of the 18-pounder Armstrong gun, 1,595 ft. of the 13 pounder 8 cwt. gun, 1,398 ft. of the 9 pounder of 6 cwt., 1,700 ft. of the breech-loading 12-pounder of 6 cwt., 1,320 ft. of the 25 pounder siege gun, and 1,285 ft. of the 64-pounder. This velocity would give an exceedingly low trajectory and great accuracy at a long range, with a penetrative force far in excess of that of the guns now in the services. It is probable that the pattern gun will be ready for proof about Easter; and it will when proven be passed over for trial to the care of the officers of the Ordnance Department of the Royal Navy.

FOREIGN ITEMS.

ENGLISH officers are criticized for smoking short wooden pipes when out route marching in the fashionable suburbs of London, the men following their example.

AN English officer, Colonel Roden, who went to Corsica recently to take possession of an estate bequeathed to him there, was murdered by his jealous Italian neighbor.

The third and last of the 110-ton guns ordered of Sir William Armstrong and Co. has arrived at Woolwich. The first having completed its proof trials, will now be taken to Shoeburyness to be tested for range and accuracy, and to adjust the sighting.

PRINCE CHUN, the Emperor of China's father, has arranged to visit Shanghai and Foochow in the summer, in order to inspect the defences and arsenals, and decide upon the locality for the Southern Department of the Board of Administration. The visit is expected to lead to important results in the administration of the affairs of the Empire.

THE restoration by General Boulanger of epaulettes in the French Army has added greatly to his popularity, it is said. Epaulettes were abolished in 1884.

Broad Arrow reports that practical joking is increasing in the English Army, from which, for many years, it had almost disappeared. Three officers are on trial in Dublin for indulging in this pastime.

A RECENT Nihilist plot to assassinate the Czar has led to a large number of arrests, including many students, a naval officer and a police officer, the last of whom revealed the whole plot, after an unsuccessful attempt at assassination. A number of the accused were tried one day and hung the next.

THE "Mouiteur de l'Armée" (Paris) hears from Cracow that the Russian officers who attended the foreign manœuvres last year have submitted a plan for the reorganization of the Russian Army. The present regimental organization, according to these proposals, is to be abolished. The infantry will consist only of battalions, each of four companies of the line, two companies of rifles, and a company of sappers.

GENERAL GENE achieved the unusual feat the other day of giving the Abyssinian warriors who had cooped him up in Massowah, one thousand muskets in exchange for a few Italian prisoners whom King John was very glad to trade for munitions of war. The Italian Government was so impressed with General Gene's performance, that it ordered him home at once, before he had a chance to present the enemy with the rest of his arsenal. Throughout the Congo basin the sale of any firearms, except flint locks, to the natives is prohibited under heavy penalties. These flint locks are made specially for the African trade, and they are usually more dangerous to the person who fires them than to any one else.

THE annual return of the volunteer corps of Great Britain for the year 1886 shows that the number on the authorized establishment is 253,935, of whom 220,829 are given as efficients. The infantry armed with the rifle constitute 196,128 of the force, the artillery 45,560, engineers 10,524, submarine miners 630, light horse 425, mounted riflemen 61, and medical staff corps 607. The proficients who have qualified for the special grant of 50 shillings number 37,386.

GEN. BOULANGER has decided that all the men of the territorial army who belong to the districts lately devastated by the earthquakes, and who were liable to duty in the course of March, shall be exempted from service on application at the proper quarter. Not only is this a kind and humane measure, says a Paris despatch, but it shows that the Minister of War does not apprehend any alarming complications within a measurable space of time.

BY the end of 1888, the French will have 9,000 and the Russians 12,000 tons of chrome steel projectiles. Two years later the English will have at the present rate of manufacture five or six thousand rounds manufactured by Firth and Sons. *Engineering* says: "One very serious consideration, however, should present itself to any English steelmaker who proposes to purchase from abroad the secret processes of any foreign manufacturers. We have recently heard of a large batch of steel projectiles condemned by a foreign government, and of other chrome steel shells that have gone to pieces while in store from their own internal strains."

A GERMAN chemist has invented a new kind of anæsthetic bullet, which he urges will, if brought into general use, greatly diminish the horrors of war. The bullet is of a brittle substance, breaking directly when it comes in contact with the object at which it is aimed. It contains a powerful anæsthetic, producing instantaneously complete insensibility lasting for 12 hours, which, except that the action of the

ROYAL

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

BABY'S SKIN & SCALP CLEANSED PURIFIED AND BEAUTIFIED BY CUTICURA.

FOR CLEANSING, PURIFYING AND beautifying the skin of children and infants and curing torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp and blood, with loss of hair, from infancy to old age, the CUTICURA REMEDIES are infallible.

CUTICURA, the great SKIN CURE, and CUTICURA SOAP, an exquisite Skin Beautifier, prepared from it, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, invariably succeed when all other remedies and the best physicians fail.

CUTICURA REMEDIES are absolutely pure, and the only infallible skin beautifiers and blood purifiers, free from poisonous ingredients.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG & CHEMICAL CO., Boston Mass.
Send for "How to Cure Skin Diseases."

BABY'S Skin and Scalp preserved and beautified by Cuticura Medicated Soap.

heart continues, is not to be distinguished from death. While in this condition, the German chemist points out, the bodies may be packed in ambulance wagons and carried off as prisoners.

MARK TWAIN AND PROF. LOISETTE.

IN regard to Prof. Loisette's system of Memory that he is now teaching personally and by correspondence, at 237 Fifth Avenue, New York City, Mark Twain says: "Prof. Loisette did not *create* a memory for me, no, nothing of the kind. And *yet he did for me what amounted to the same thing*, for he proved to me that I already *had* a memory, a thing to which I was not aware of till then. I had before been able, like most people, to store up and lose things in the dark cellar of my memory; but he showed me how to light up the cellar. It is the difference—to change the figure—between having money where you can't collect it, and having it in your pocket. The information cost me but little, yet I value it at a prodigious figure."—*N. Y. World.*

BENT AND CO.'s water crackers are the oldest and best brand made. They are sent to all parts of the world, and their continued success through a long series of years and uniform excellence has caused a general recognition of their claim to be the best cracker made.—*Providence Daily Journal.*

PEOPLE ARE KILLED BY COUGHS that HALE'S HONEY OF HOREHOUND AND TAR would cure.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

"If I Rest I Rust," is a German proverb. "If I trust I bust," is the American version. The latter proverb does not refer to PHENOL SODIQUE, the great healing remedy, in which if you put your trust, you will find it has not been misplaced.

"The most beneficial results follow the use of PHENOL SODIQUE as an external application for that annoying eruption of the skin known as VEGETABLE POISON, caused by contact with the poison ivy."—*Presbyterian Journal.*

CAUTION!—Smokers and dealers are cautioned against buying vile imitations of the genuine "Tansill's Punch" Cigar offered by "snide" houses.
A 10c. Cigar in quality, but only a 5c. Cigar in price: "Tansill's Punch."
The smoker's delight: "Tansill's Punch," America's finest 5c. Cigar.

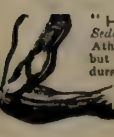
Proposals for Lamp Chimneys.

DEPOT QUARTERMASTER'S OFFICE, HOUSTON ST., CORNER GREENE, NEW YORK CITY, March 16, 1887.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., April 18, 1887, at which time and place they will be opened in presence of bidders, for furnishing and delivering at this depot, free of charge for cartage and packages, 100,000 best annealed flint glass lamp chimneys, polished ends, of size and pattern to be seen at this depot.

Proposals must give price "in bond" and "duty paid," be accompanied by samples, delivery to be made July 1, 1887, or soon thereafter.



The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked "Proposals for Lamp Chimneys," and addressed to the undersigned.

HENRY C. HODGES,
Lieut.-Colonel and Deputy Q. M. General,
Depot Quartermaster.

SEALED PROPOSALS for Improving Newtown Creek, by dredging, will be received at this office until twelve (12) o'clock, M., on Wednesday, April 6, 1887.

Proposals must be made in triplicate. Specifications, blank forms and instructions to bidders may be had on application at this office.

WALTER McFARLAND,
Lieut. Col. of Engineers.

Improving the Channel between Staten Island and New Jersey.

ENGINEER OFFICE, U. S. ARMY, Room 31, Army Building, Cor. Houston and Greene Streets, NEW YORK, FEBRUARY 23, 1887.

SEALED PROPOSALS for Improving the Channel between Staten Island and New Jersey, by dredging, will be received at this office until twelve (12) o'clock M. on Wednesday, March 30, 1887.

Proposals must be made in triplicate. Specifications, blank forms and instructions to bidders may be had on application at this office.

WALTER McFARLAND,
Lieut. Col. of Engineers.

PROPOSALS FOR RATIONS, FUEL, AND MILITARY SUPPLIES.

HEADQUARTERS U. S. MARINE CORPS, QUARTERMASTER'S OFFICE, WASHINGTON, D. C., March 8, 1887.

SEALED PROPOSALS, in duplicate, will be received at this office until 12 o'clock M. of the 3d day of May next for furnishing RATIONS, and until 12 o'clock M. of the 4th May, for furnishing FUEL, to the United States Marines, at one or more of the following stations, from the 1st July, 1887, to the 30th June 1888, viz.: Portsmouth, N. H.; Charlestown Mass.; Brooklyn, N. Y.; Philadelphia and League Island, Pa.; Annapolis, Md.; Washington, D. C.; Nortolk, Va.; Pensacola, Fla., and Mare Island, al.

Specifications and blank proposals can be obtained upon application at any of the stations named above, or at the office of the Quartermaster, Washington, D.C., and Assistant Quartermasters, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal.

Sealed proposals will also be received at this office until 12 o'clock M. of the 5th day of May next for furnishing SUPPLIES, consisting of Cloths, Kerseys, Flannels, Blankets, Hats, Helmets, Military Stores, Brooms, Brushes, Axes, etc., to be delivered at the office of the Assistant Quartermaster, Philadelphia, Pa., free of expense to the United States.

Schedules, with specifications of the supplies required, can be obtained, and the standard samples seen, at the offices of the Quartermaster, Washington, D. C., Assistant Quartermasters' offices, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal., and at the Marine Barracks, Brooklyn, N. Y., and Boston, Mass.

Blank forms of proposals and all information can be had by applying at any of the places named above.

This office reserves the right to reject any and all bids and to waive defects; and bids from manufacturers in, or regular dealers of, supplies only will be considered.

Proposals may be made for one or more articles, deliverable at one or more stations, and will be considered separately for each article and place of delivery. They should be indorsed "Proposals for Rations, Fuel, or Military Supplies," as the case may be, and addressed to Major H. B. Lowry, Quartermaster U. S. Marine Corps, Washington, D. C.

DEPOT QUARTERMASTER'S OFFICE, HOUSTON ST., CORNER GREENE, NEW YORK CITY, March 8, 1887.

SEALED PROPOSALS, in triplicate, are invited and will be received at this office until 11 A. M., April 16, 1887, at which time they will be opened in the presence of the bidders, for the erection at Willet's Point, New York Harbor, of a double set of officers' quarters, with cistern, plumbing, tank, &c., for each set, and for a 24-bed hospital and a dead house, with the plumbing, &c., complete: all in accordance with plans and specifications, which can be seen at this office, and at the Post Quartermaster's Office at Willet's Point. Bids, which must be on the blank forms of this department, may be made for either building complete or for both, and must state the time required for the completion of each.

The Government reserves the right to reject any or all bids.

Envelopes containing proposals should be addressed to the undersigned and indorsed: "Proposal for Erection of Officers' Quarters," or for the hospital, or both, as the case may be.

Senate, Washington, D. C.; General O. O. Howard, U. S. Army.

Proposals for Stoves, &c.

JEFFERSONVILLE DEPOT, Q. M. DEPT., JEFFERSONVILLE, IND., February 26, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock A. M. (Central Standard time,) on Monday, the 28th day of March, 1887, at which time and place they will be opened in the presence of attending bidders, for furnishing this Depot with Stoves for burning wood and hard or soft coal, and parts of Ranges of Army pattern.

The Government reserves the right to reject any or all proposals, and to accept the whole or any portion of the articles bid for.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished on application to this office.

Envelopes containing proposals should be plainly marked "Proposals for Stoves, &c., at Jefferson Depot, Indiana," and addressed to the undersigned. RUFUS SAXTON,
Asst. Quartermaster General, U. S. Army.

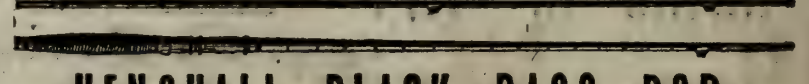
HOW TO SECURE A GOOD ROOF.

READ why we were obliged to stamp every sheet of our Guaranteed Brands, every box of which we are importing under a positive guarantee.

OWING to the many cases in which our brands had been estimated upon, and inferior brands substituted, we were induced to bring out the sheets stamped, not only with the NAME OF THE BRAND, but also the THICKNESS.

OUR action in STAMPING and GUARANTEEING Roofing Plates exhausts our own means of insuring the use of first class materials when required. It now therefore rests with the Architect and Builder to protect the Owner and Roofer by seeing that the sheets on the roof are stamped.

FIRST-CLASS Roofing Plates if properly laid upon the roof should last thirty to forty years; while the cost of same would be but little more than that of the inferior tin, which has caused so much trouble and expense to all concerned.



SHEETS that are GUARANTEED and STAMPED are the only protection to the Roofer, Owner, Architect, against dishonest competition, and the use of inferior material.

It will cost NOTHING however to obtain FULL FACTS and SAMPLES, which may be had by addressing

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
For prices and other information please address

ARMY NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 36. WHOLE NUMBER 1232. | NEW YORK, SATURDAY, APRIL 2, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE excellence of Deputy Judge Advocate General WINTHROP'S "Abridgment of Military Law" has prompted General WILLCOX, commanding Department of the Missouri, to adopt it as a standard book of reference at his headquarters, and to recommend its use in his command, "both for its intrinsic excellence and uniformity of practice and rulings in Court-martial cases."

GENERAL TERRY'S recent order that troops going into the field during the rifle practice season, to remain some time, must take material and pursue, whenever practicable, the prescribed course of target firing, lashes a Western correspondent into frenzy and tempts him to exclaim: "The camel's back is indeed broken, for even on the tented field, BLUNT haunts us with his deadly Manual."

MAJOR-GENERAL SCHOFIELD, U. S. A., commanding the Division of the Atlantic, has issued a Circular Order designed to inaugurate a more uniform system of heavy artillery practice at the several forts in his command, a practice which we fear may have been somewhat overslaughed of late years by the requirements of the all-absorbing rifle practice. General SCHOFIELD judiciously remarks that while the armament of the various fortifications of the Atlantic is of but little practical value for war purposes, it is our duty to act upon the presumption that this will not always be the case, and to prepare the troops for a more effective armament when it shall be provided. Speed the day.

THE state of the transportation fund of the Army is such as to preclude all possibility of any changes in stations of regiments during the remainder of the current fiscal year, and as the appropriation for the coming year is considerably less than usual the outlook for changes after the 1st of July cannot be regarded as very encouraging. Had there been any money available for the purpose it is thought that the 12th Infantry would have been one of the regiments moved this spring. The Lieutenant-General, it is said, desired that a regiment from the West should be brought in to relieve the 12th. The Quartermaster-General reported a month ago that there would be no funds available for the movement of troops this spring.

THE Secretary of the Navy has at last turned his attention to the subject of improving the plant at the Washington Navy-yard for ordnance work. He starts out by appointing a commandant of the yard, whose office has been vacant since the retirement of Rear-Admiral QUEEN. Captain RUSH R. WALLACE receives this detail. In a few days the foreman of the ordnance shops will be appointed and the plans for the new buildings approved and work will be commenced in earnest. The delay in appointing a commandant was due to a desire on Mr. WHITNEY'S part to select an officer of high rank for the office, and it took him some time to decide that there was no available material among the few Rear-Admirals and Commodores. Captain WALLACE was finally selected on account of his acknowledged fitness for the position.

LIEUTENANT-GENERAL SHERIDAN accompanied by Inspector-General BAIRD and Colonel SHERIDAN, A. D. C., arrived at Cheyenne, March 20 and went at once to Fort D. A. Russell, where he remained during the day and then left for Denver. There, March 21, in company with a committee of citizens, he visited the localities proposed as the site for the new post. He appears, from the local accounts, to have been uncommunicative as to his ideas concerning its location. The Denverians were highly pleased with the General's visit and showed him very marked attention. He arrived, March 25, at Fort Riley, where he found Colonel E. B. WILLISTON, U. S. A.; Captain PRINCE in command of the cavalry and Captain MCLAUGHLIN in charge of the infantry were also ready to receive the Lieutenant-General with due honors.

A CORRESPONDENT suggests a modification of par. 674, Army Regulations, so that "each company commander (for his company files) and such other officers and offices to whom General Orders of the War Department are now distributed shall, at the close of each year, be furnished a set of these orders, inexpensively bound in boards, paper or cloth." The present regulation does not, we observe, provide for binding, and the amendment suggested would therefore insure, at trifling cost, a complete and clean set of these important orders with each company. The files, under the existing arrangement, too often present a ragged, sewn together appearance, and even with great care are frequently incomplete. The binding could be done in an inexpensive yet stout manner at the Government printing office under the allotment for printing, and prove of great convenience and benefit to the Service.

THE radical reforms made by Q. M. General HOLABIRD in the matter of soldiers' clothing during the first two years of his administration has apparently so well satisfied the Army at large that there is little left to be done in the way of additions to, or changes in, the clothing allowance. To be sure, complaints are occasionally heard about certain articles, but these complaints are few and upon matters of no general consequence. The Army shoe is the subject of some dissatisfaction, but this is ascribed to the fact that there are many to select and but few patterns to select from. The reduced appropriation for the manufacture of shoes at the military prison will make it necessary for the Department, during the coming fiscal year, to depend upon the private manufacturer for a large portion of its shoes, so that those who do not like the prison shoe can choose another. Among the few changes in the clothing line contemplated in the near future is the issue of collars to soldiers. It is not intended to add them to the supply table, but an arrangement will be made by which the soldier, instead of paying the post-trader about thirty cents a piece for every collar purchased, can procure them from the Government for less than one-third that price. The appropriation for the clothing fund for the coming year is $100,000 less than the appropriation for the same purpose last year—another good reason why the clothing branch of the Q. M. General's Office will continue to pursue the even tenor of its way for the next year.

ONE explanation of the irregularities into which officers are betrayed in the matter of pay accounts is the temptation offered by money lenders, who send circulars to the Army inviting "confidential communications" and the establishment of "confidential relations," with reference to the loaning of money. But it is obvious that these gentlemen have no idea of suggesting to an officer that he should duplicate his pay account, for they are quite aware of the worthlessness of the security of this sort of "second" and "third of exchange." To remove temptation from the way of officers, the Pay Department should take some measure for destroying the value of a pay account as collateral security. It will be observed that this duplication business is confined to the Army. In the Navy each officer is required to draw his pay from some particular paymaster. Why cannot a similar plan be adopted for the Army? Could not each officer be assigned for payment to a given paymaster, who, if he did not pay his account, could at least certify that the payment for a given month had not been made, this certificate being attached to a pay account when presented elsewhere. It is true that the number of officers who yield to the temptation to duplicate their pay accounts is a small percentage of the whole, and it may be doubted whether others should be subjected to inconvenience on their account. At the same time, the scandal of these dishonest transactions so affects the Army as a whole that it may be worth while to submit to some inconvenience to make it impossible.

WE have alluded to the terrible incident at Belfort on the 10th ult., the explosion of a shell filled with the new explosive, melinite. *L'Avenir Militaire*, of March 18, states that the shop in which the explosion took place contained a squad of 25 workmen, soldiers of the 9th Battalion of fortress artillery. Of this number eight escaped uninjured, eight were more or less seriously wounded and nine instantly killed. The causes of the accident are utterly unknown, the military inquest having been unable to determine them. What at least is certain is that the compound had not been cooking in a caldron over a fire; there was simply an isolated unplugged shell on the floor, filled with melinite; no one was near to touch it, and it was considerably distant from the kettles used. The charge of the shell ignited without any conceivable cause, and the shell, recoiling upon itself, entered the ground and burst with an indescribable noise, throwing its fragments in every direction, and disseminating its suffocating vapors. The Germans in their trials of helphonite and roburite demonstrated the tremendous effect of the shells thus filled upon targets of iron or cement, but discovered also the extreme uncertainty of successful discharges and the great danger incurred by the artillerists. It is well known that the accident at Belfort is by no means the first in the French practice with melinite, though perhaps the first in which the petard has gone off itself without the engineer's blundering. French officers in the United States recently have indeed quietly admitted the frequency of accidents with the new compound, but have ascribed them to the uncertainty of fuses and the difficulty of ignition at the exactly right moment. We question whether the best results yet obtained in Europe are to be compared in any degree with the very uniform success on this side the water of Lieutenant ZALINSKI'S experiments with dynamite. This very clever artillerist has substituted for the modes of ignition abroad a system of exploding the shell charge by an electric battery, which is sure to operate, but to operate only at the right time. We have previously alluded to this distinctive feature of Lieutenant ZALINSKI'S shell, and shall have more to say about it hereafter.

PERSONAL ITEMS.

Major Kress, Ordnance Department, U. S. A., has returned to St. Louis from a short vist to Omaha.

Captain F. Fuger, 4th U. S. Art., now at Fort Adams, R. I., will join at Fort Preble, Me., next week.

Colonel R. N. Batchelder, U. S. A., visited New York City early in the week, quartering at the Hoffman House.

Lieutenant W. N. P. Darrow, 4th U. S. Art., rejoined at Fort Adams, R. I., on Wednesday from a week's leave.

General N. H. Davis, U. S. A., retired, was at Honolulu last mouth and witnessed the obsequies of Princess Lihe-Lihe.

Lieutenant A. C. Macomb, 5th U. S. Cav., under his recent promotion, goes from Fort Reno, I. T., to Fort Riley, Kansas.

Lieutenant C. C. Tear, 25th U. S. Infantry, of Fort Snelling, Minn., has been on a pleasant visit to Fort Pembina, D. T.

Mr. Henry M. Stanley arrived at the mouth of the Congo, March 18, and the expedition is expected to reach Matude, March 21.

Lieutenant E. L. Fletcher, 13th U. S. Inf., of Fort Stanton, N. M., will spend the spring and a portion of summer on leave.

Assistant Surgeon H. O. Perley, U. S. A., lately visiting at Detroit, Mich., has joined at Fort Maginnis, Montana, for temporary duty.

General S. V. Benét, U. S. A., and Mrs. Benét were expected to return to Washington from Atlantic City the latter part of this week.

Major H. C. Cook, 13th U. S. Infantry, has joined on promotion at Fort Bayard, N. M., and been warmly welcomed by his new regiment.

Major Morse K. Taylor, Surgeon, U. S. A., will shortly relinquish duty at Fort Sill, I. T., in consequence of retirement for age, May 14 next.

Lieutenant Eugene Cushman, 16th U. S. Inf., reached San Antonio from the North early in the week, and reported for duty with his company.

Captain S. M. Mills, 5th U. S. Artillery, has returned to Fort Monroe, Va., from detached service at Washington and resumed command of his battery.

Major E. C. Bainbridge, 3d U. S. Artillery, arrived at Newport Barracks, Ky., this week and relieved Major J. L. Tiernon in command of the post.

Captain M. C. Wilkinson, 3d U. S. Infantry, lately recuperating at Elmira, N. Y., has gone to Hot Springs, Ark., for treatment at the hospital there.

Lieutenant G. N. Whistler, 5th U. S. Artillery, who has been visiting his father at St. Augustine, Fla., will rejoin at Fort Wadsworth, Staten Island, in a few days.

Lieutenant S. C. Mills, 12th U. S. Infantry, now visiting in the North will return to Fort Marion, Fla., towards the end of April and resume charge of the Indians there.

Major F. T. Bennett, 2d U. S. Cavalry, is commanding the Presidio of San Francisco during the absence of Colonel Piper, 1st Artillery, who has gone on a month's leave.

Major Edward Moale, 1st U. S. Infantry, exchanges on promotion the not unpleasant post of Fort Shaw, Montana, for that very pleasant post, the Presidio of San Francisco.

Lieutenant H. C. Carbaugh, 5th U. S. Artillery, and Mrs. Carbaugh, who have been in the West for several weeks past, are expected to rejoin at Fort Columbus, N. Y. H., next week.

Major General Terry and Colonel J. G. C. Lee visited Fort Bliss, Tex., March 19, and were hospitably received by the commandant, Colonel M. M. Blunt, 16th U. S. Infantry, and his officers.

Lieutenant-Colonel L. L. Livingston, 3d U. S. Artillery, was expected to join at Fort McHenry, Md., this week and take over the command of the post from Major Richard Lodor, who goes to Washington Barracks.

On Wednesday next, April 6, Gen. W. W. H. Davis will read before the United Service Club of Philadelphia a paper on the "Surprise and Capture, Jan. 1, 1848, of Gen. Valencia, Second in Command of the Mexican Army."

Next week, says the San Francisco *News-Letter*, we may hope to obtain a glimpse of a real live Queen in the person of Her Majesty of the Sandwich Islands, who purposes making a stay of some duration before proceeding East.

Lieutenant W. W. Wotherspoon, 12th U. S. Infantry, rejoined at Madison Barracks, N. Y., early in the week, and is busily engaged in preparing to transfer to his successor, Lieut. Von Schrader, the duties of regimental and post quartermaster.

The Sedgwick Memorial Association of Pennsylvania expect to have completed on May 1 the monument to the late Major-General John Sedgwick, who was killed on the Alsop farm, about two miles west of Spottsylvania Court House, on the morning of May 9, 1864.

The selection of Major E. B. Williston, 3d Artillery, to command the five batteries of artillery to be stationed at Fort Riley, was a good one. He is preeminently the best qualified field officer of artillery to have command there. Under his instruction the school will in a short time become one of great importance to the Army.—*Kansas City Times.*

Mr. J. H. Lester, of Henry County, Georgia, was born at Nassau, N. C., 1769 and is, therefore, well on to 117 years of age. He fought in the War of 1812 and also under Gen. Floyd in the wars against the Creeks and Seminoles, and had three sons in the Confederate service in the late war, all of whom were killed. He shows great age, but seems possessed of all of his mental faculties.

Captain J. L. Clem, U. S. A., and family, are recent guests at the Occidental Hote', San Francisco.

Captain R. A. Williams, 8th U. S. Cav,, will go abroad in June next, and remain for several months.

Lieutenant E. F. Willcox, A.-D.-C., and Mrs. Willcox, of Fort Leavenworth, are visiting in St. Paul.

General S. K. Dawson, U. S. A., registered at the Metropolitan Hotel, New York City, early in the week.

Mr. Archibald Forbes has signed a contract with Major Pond to deliver fifty lectures in the United States next autumn.

Lieutenant R. M. Rogers, 2d U. S. Art., expected to leave Fort Leavenworth, Kan., this week to be absent about a mouth.

Miss Crofton, daughter of Col. R. E. A. Crofton, U. S. A., of Fort Buford, is on a long visit to relatives at Wilmington, Del.

Colonel A. M. Randol, U. S. A., we regret to note, is still in poor health, and has received a further extension of sick leave.

Captain Arthur Morris, 4th U. S. Art., is still at the Everett House, New York City, and, we are glad to learn, is improving rapidly.

Lieutenant D. B. Devore, 23d U. S. Infantry, left Detroit, Mich., early in the week for his home in Ohio, to attend to some private business.

Surgeon W. H. Gardner, U. S. A., spent the week in Washington, D. C., called there from Fort McHenry, Md., by the illness of his mother.

Lieutenant W. P. Burnham, 6th U. S. Inf., will succeed Lieut. B. W. Atkinson, same regiment, at the school at Fort Leavenworth in August next.

Lieutenant John Bigelow, U. S. A., brings to a close in the April number of "Outing" his series of interesting articles on the Indian campaign in Arizona.

Colonel W. R. Shafter, U. S. A., of Angel Island, Cal., has returned there from Santa Cruz, where he went to select a summer camp for the 1st Regiment, N. G. C.

General H. M. Black, U. S. A., who has been presiding over the Court of Inquiry at Fort Cœur d'Alene, Idaho, expects to return to Fort Wayne, Mich., towards the end of April.

Lieutenant E. V. Smith, 3d U. S. Inf., of Fort Missoula, arrives East soon, preparatory to his marriage soon after Easter to Miss Young, daughter of Capt. D. J. Young, U. S. A., of Watervliet Arsenal, West Troy, N. Y.

Lieutenant-Colonel C. E. Compton, commanding 5th Cav., has selected Lieut. Francis Michler as regimental adjutant, in succession to Lieut. Eben Swift, who has held the position since 1878. Lieut. Michler was graduated from West Point in 1870.

Captain Smith S. Leach, Corps of Engineers, has again been ordered to St. Louis as secretary and disbursing officer of the Mississippi River Commission in place of Capt. Thomas Turtle, who goes to Washington for duty in the office of the Chief of Engineers.

The Light-house Board has completed arrangements for increasing and improving the illumination of the Bartholdi Statue of Liberty on Bedlow's Island, under the supervision of Lieut. John Millis, Engineer Corps. Improvements are also contemplated at the base of the statue.

Lieutenant Philip Reade, U. S. A., Gen. Terry's inspector of rifle practice, delivered a lecture last week at Milwaukee on rifle practice before the officers of the National Guard. He gave many practical illustrations as to how the system is conducted in the Regular Army, and in the course of his remarks said: "The highest use to which the rifle can be put is to hit; the lowest is display."

A Yankee enterprise, says the New York *Tribune*, that is pushing its way into Europe is the laying of asphalt pavements. Capt. F. V. Greene, formerly of the U. S. Army, who is connected with the company which laid most of the asphalt pavements in Washington, stated that the head of their company, A. L. Barber, who has been abroad for nearly a year, is engaged in laying pavements in Paris and Berlin.

Lieutenant W. R. Hamilton, 5th Artillery, read a paper Thursday, 24th ult., at Fort Hamilton on the subject of "Application and Use of Upton's Tactics in Attack and Defence." Col. Fiacke and staff, of the 23d, N. G. S. N. Y., were present, and the paper was enthusiastically received. Capt. Fessenden presided with ability and dignity. The band, under Prof. Wiegand, lent spirit and the delights of music to the occasion.

From the fair and deft hand of Miss Nannie H. Stanley, daughter of Gen. D. S. Stanley, U. S. A., says the San Antonio *Times*, comes a painting, on exhibition at Bell and Bros., that would adorn any salon. It represents the interior of the home of Madame Candellaria, who was in the Alamo at the time of its capture. Miss Stanley paints from nature, and transfers to canvas the exact reality. If her fame rested on this picture alone, it would be established, but she is industrious and ambitious, and a brilliant career for her in the world of art is assured.

Surgeon D. L. Huntington, U. S. A., says the Washington *Star*, leaves for San Diego Barracks amid the sincere regret of a large circle of friends. "In addition to his editorial and executive qualities Dr. Huntington enjoys the highest reputation among the members of his profession for exceptional skill, both as a physician and surgeon, and has been constantly called in consultation by other physicians. Serving through the war on the staffs of Gen. Grant and other leading commanders, Dr. Huntington is well known throughout the Army. An honored member of the Cosmos Club, in which he has constantly held high official position, his departure will by none be more sincerely regretted than by its members. The people of San Diego are to be congratulated upon the acquisition of himself and family among their residents.'

General Geo. D. Ruggles, U. S. A., has returned to San Antonio from a trip to Fort McIntosh.

Colonel H. C. Merriam, 7th U. S. Infantry, was expected to arrive in New York this week on his way to Europe.

Adjutant S. L. Woodward, 10th U. S. Cavalry, left Santa Fe early in the week for Fort Grant, Ariz., to return during April.

Lieut. C. P. Miller, 4th U. S. Artillery, visited friends in New York this week on his way from Fort Monroe to Fort Adams.

A company has been organized with a capital of $500,000 for building a railroad in San Domingo. Gen. Horatio C. King is President.

Captain R. H. Pratt, U. S. A., of the Carlisle Indian Training School, visited New York this week, quartering at the Murray Hill Hotel.

Major W. McK. Dunn, U. S. A., of Little Rock Barracks, has again gone to Hot Springs, Ark., for treatment at the General Hospital there.

Lieutenant W. J. Nicholson, 7th U. S. Cavalry, and Mrs. Nicholson have returned to Manhattan, Kas., from a visit to relatives at Leavenworth City.

Lieut. C. M. O'Connor, 8th U. S. Cavalry, has arrived at San Antonio to enter upon the duties of regimental adjutant in succession to Lieut. Hickey.

As the widow of ex-President Tyler is now in Washington, both of the ladies who alone had the honor of marrying a President of the United States during his term of office—Mrs. Cleveland being the other—are now in that city.

Cards are out for the marriage, April 13, at Watervliet Arsenal, Troy, N. Y., of Cora L. Young to Lieut. Erneste V. Smith, 3d Infantry. The bride to be is a daughter of Capt. Young, ordnance storekeeper. Lieut. Smith graduated last June.

Lieutenant A. M. Palmer, 24th U. S. Infantry, has gone to Fort Supply from Fort Sill, having been selected by Col. Bliss to succeed Lieut. F. H. Mills as regimental quartermaster. Lieut. Palmer rose from the ranks and previous to being commissioned had a long experience in the Quartermaster's Dept.

The San Francisco *Report* suggests that, now the prospects for peace are so good, Gen. Boulanger might wear his chapeau a little farther forward upon his intellectual forehead. If the portraits of the illustrious Frenchman be correct, says the *Report*, his hat has an aggressive cock to it calculated to exasperate a more even-tempered gentleman than Bismarck.

All will rejoice to hear of the convalescence of Mrs. Drum, the wife of Adjt.-Gen. Drum, U. S. A., who for several weeks past has been so dangerously ill as to cause great doubts of her recovery. The General is once more at his post, and the accumulated business is being rapidly disposed of. It is expected that Gen. and Mrs. Drum will make an extended trip during the coming summer.

The Selma (Ala.) *Times* says that Col. John G. Harvey, now in his eighty-first year, has been editor of the Greensboro (Ala.) *Beacon* for a period not less, it thinks, than 50 years. He is a graduate of West Point, and "we doubt," adds the *Times*, "if he can recall any line that he has written during so many long years of editorial service that he did not fully believe when he wrote it. He has been always a model gentleman."

General S. W. Crawford, U. S. A., says a New York correspondent of the Philadelphia *Press*, spends most of his time here. He has finished his book on the war and it is now running through the press. It is to be called "The Story of Sumter," but it is not all devoted to Sumter, but deals with later phases of the war and has much to say about the Reserves and other Pennsylvania troops, which will be of interest to veterans of the Keystone State.

General Boulanger, Minister of War of France, gave a dinner at the Ministry, on the 14th ult., to the diplomatists and military Attachés of other nations in Paris. One of the Attachés *La France Militaire* names "*lieutenant de vaisseau, B. H. de Buckingham, des Etats Unis.*" The *menu* was made up of courses named in honor of the guests, our own dish being characteristically the most indigestible of all—"*chaud-froid de homard a l'Americaine.*"

The venerable Simon Cameron, Secretary of War under Mr. Lincoln, is reported as saying: "In the moves and counter-moves in the game of war and peace then going on Francis P. Blair, Sr., was a prominent figure. The tender of the command of our forces was made to Gen. Lee through him. Mr. Blair came to me expressing the opinion that Gen. Lee could be held to our cause by the offer of the chief command of our forces. I authorized Mr. Blair to make the offer. I supposed, from what Mr. Blair had said, that Gen. Lee would certainly accept. I labored under this impression up to the time that his resignation was received. Whether Gen. Lee ever seriously considered the matter I do not personally know. From what Senator Blair said to me I never had any doubt at the time but that he did."

The New York *Sun* says: "Our late distinguished Minister to Turkey, Mr. S. S. Cox, it will be remembered, was made the recipient of one of the Sultan's decorations after his resignation as Minister had been tendered. This was the order of the Mejidie, an order specially designed to reward distinguished services in a diplomatic or representative capacity. Had the member from New York been well enough to take part in the debates of the closing sessions of the last Congress he would probably have been called upon to account for his acceptance of this decoration. A perfect arsenal of weapons of light pleasantry had been prepared with which to assail him. Some of his old speeches in Congress, before he forsook the straight and narrow path of legislation for the broad and pleasant ways of diplomacy, had been dug up, wherein it appeared that Representative Cox, the occasion being an application of a naval officer named Metcalf [Capt. H. Metcalfe, O. D., U. S. Army, Ed.] for permission to accept an honorary decoration tendered him by some foreign power, ridiculed with all his powers of sarcasm the tendency of American officers abroad to hanker after these un-American honors."

LIEUTENANT H. E. ROBINSON, 4th U. S. Infantry, and Mrs. Robinson are recent guests at the Ryan, St. Paul.

LIEUT. H. L. RIPLEY, U. S. A., chief engineer on the staff of Gen. Willcox, is at Fort Riley, Kas., to remain for some time.

GENERAL BENÉT, Chief of Ordnance, returned to Washington from a short pleasure trip to Atlantic City, on Thursday last, and has resumed his duties as Chief of Ordnance and as a member of the Board of Army Regulations.

LIEUT. W. B. MCCALLUM, 5th U. S. Artillery, much to the regret of his many friends at Governor's Island, will shortly leave there for Fort Hamilton, he having been appointed regimental adjutant in succession to Lieut. E. R. Hills.

THE following Army officers registered at the Navy Department this week: Prof. G. L. Andrews, U. S. M. A.; Chaplain Chas. M. Pyne, retired; Prof. W. M. Postlethwaite, U. S. M. A.; Colonel Richard I. Dodge, 11th Inf.; 1st Lieut. Alvarado M. Fuller, 2d Cav., and 1st Lieut. Edward S. Farrow, 21st Inf.

THE fact has just come to light that soon after her marriage Mrs. Cleveland was tendered by the Sultan of Turkey the order of the Caliphate. The Sultan made the offer in a graceful way; but Mrs. Cleveland, through the President and the State Department, declined the proffered honor. "Caliphate" means "Commander of the Faithful," and the Order is frequently bestowed on the wives of distinguished men. Its insignia is a sash.

THE following officers registered at the Navy Department this week: Paymaster Geo. H. Griffing, Comdr. William Bainbridge Hoff and Pay Director W. W. Williams.

COMDR. W. M. FOLGER, U. S. N.; Col. T. A. Dodge, U. S. A., and family, and Mr. and Mrs. Poultney Bigelow were among the passengers who sailed for Europe on Wednesday on the steamship *Saale*.

COMDR. C. S. COTTON, U. S. N., returned to Norfolk, Va., this week from Detroit, where he was called by the death of his father-in law, Adjt. Gen. John Robertson.

SWORD MASTER ANTOINE J. CORBESIER, of the Naval Academy, acted as umpire in a sword contest in New York on Monday evening, in which Regis Senac was defeated by Louis Tronchet of Paris.

NAVAL officers recently from the Alaska coast say that the reports of the richness of Senator Jones's mines in that Territory have not been overestimated. There is said to be ore enough in sight to last a lifetime.

THE orders of Lieut. E. J. Dorn, U. S. N., as assistant inspector of steel at San Francisco, was rather a surprise, as at one time, at least, he and Mrs. Dorn had hoped to complete a tour of duty in Washington. Lieut. Dorn left for his new post of duty the present week.

LIEUTENANT-COMMANDER S. W. VERY was detached from duty as inspector of steel for the new cruisers, at Pittsburgh, at his own request. We learn that Mr. Very, who is one of the brightest men in his profession, did not get along very well with the steel men, for some reason.

A VERY pleasant musicale was lately given at the residence of Mrs. Mannix, wife of Captain D. Pratt Mannix, U. S. M. C., in command of the guard of the U. S. S. *Brooklyn*. Mrs. Mannix hopes to receive a cablegram from her husband at any time announcing the safe arrival of his ship on the China Station. Mrs. Mannix is a charming hostess, and has always the right word at the right time to the right person.

COMMANDER F. E. CHADWICK, Naval Attache of the American Legation at London, arrived in Washington on Wednesday. He stated that he brought no suggestions or plans for the construction of the 6,000 ton cruisers, nor is his visit in any way connected with the acceptance of plans for the vessels. He desired to visit the United States, having been abroad two years, and requested a short leave with permission to come home. This was granted him and accounts for his presence on this side of the Atlantic.

THE continued severe, if not dangerous, illness of Chief Engineer Nicoll, of the *Vermont*, New York Navy-yard, has rendered his detachment necessary. His relief is Chief Engr. C. J. MacConnell, who has been waiting orders for several months in Brooklyn. Mr. MacConnell's last cruise was as senior assistant on the *Swatara* with Chief Engr. Robt. L. Harris. Mr. Nicoll has been granted a sick leave, and it is understood that Dr. Nicoll, of New York, a brother of the afflicted officer, has charged himself with his care and treatment.

THE Thursday Night Club of Key West gave a reception, March 17, to the distinguished visitors to Florida and Cuba, Senators Sherman, Palmer, Manderson, Aldrich, and Gen. A. G. McCook and the ladies and other gentlemen of the party. The committee to receive were Messrs. S. S. Harvey, Capt. Fengar, Lt. Comdr. Winn, U. S. N., P.-M. Browne, and Horatio Crain. The ladies assisting in the reception, Mesdames Winn, Fengar, Harvey, and Williams, gracefully did their part. Senator Sherman led the quadrille, and the Senatorial party, as the midnight hour tolled, were as gleeful as boys.

THE lately received accounts of the sad accident on the training-ship *Saratoga*, whereby Pay Clerk A. T. Cowie lost his life, recalls to our older readers the loss of the *Oneida* on which his brother lost his life. She was run into by the P. and O. steamer *Bombay*, Capt. Eyre, and sunk in Yokohama Bay, Jan. 24, 1870, while en route home after a three years' cruise on the China Station, and the following officers were drowned: Comdr. E. P. Williams, Lt.-Comdr. W. F. Stewart, Lt.-Comdr. A. W. Muldaur, Master Walter Sargent, Master John R. Phelan, Ensigns James W. Cowie, Chas. E. Brown, Wm. E. Uhler, George K. Brower, Chas. A. Copp, James C. Hull, Geo. K. Adams; Asst. Surg. Edward Frothingham, Paymr. Thos. L. Tullock, 1st Asst. Engrs. N. B. Littig and Haviland Barstow; 2d Asst. Engrs. C. W. C. Senter and John Fornance, and Carpenter J. D. Primer.

CAPTAIN G. C. WILTSE, U. S. N., left Minneapolis for New York City early in the week.

LIEUTENANT F. H. TYLER, U. S. N., returned to Norfolk, Va., this week, from a short leave.

LIEUTENANTS A. F. WALLIS and C. M. Johnson, of the British Navy, arrived in New York this week from England.

REAR-ADMIRAL M. SMITH, U. S. N., registered at the Continental Hotel, Philadelphia, early in the week, on a visit from South Oyster Bay, N. Y.

THE infant daughter of Secretary and Mrs. Whitney—Dorothy Payne—is to be christened on Easter Monday at St. John's Church, and a "cradle party" is to follow at the Secretary's residence.

ENSIGN W. L. CAPPS is still addressed at the University of Glasgow, Scotland, where his assignment to special duty has not yet expired. His friends in Norfolk, Va., are naturally proud of the record Capps has made so early in life.—*Landmark.*

LIEUTENANT EDMUND B. UNDERWOOD, U. S. Navy, of the Hydrographic Office, intermits his study of charts and currents long enough to contribute to the "Magazine of American History," an interesting paper entitled, "A Hero of the Far North."

A REUNION was held at the Zeitska Institute, San Francisco, last week of pupils who had attended the institution with Mrs. Hinman (nee Coleman), wife of Paymr. Frank H. Hinman, U.S.N., who is visiting that city previous to her departure for Europe, where she contemplates remaining a couple of years.

IN the list of cottage owners at Newport, R. I., who will occupy their cottages during the coming season, we find the following: Major G. F. Barstow, U. S. A.; Gen. G. W. Cullum, U. S. A.; Capt. C. C. Churchill, U. S. A., Medical Director D. Kindleberger, U. S. N., and Capt. T. O. Selfridge, U. S. N.

AN accident nearly occurred at the Norfolk Navy-yard March 23. Some ladies and gentlemen from Old Point were sight-seeing, and, as usual with visitors, went on board the flagship *Trenton*. One of the party, a lady from Pittsburgh, went too near the edge of one of the hatchways and fell through the opening, a distance of several feet, when she was fortunately caught by a painter at work in the ship, and prevented from falling clear through to the lower deck. She was quite seriously hurt and was kept on the ship about two hours, attended by Surg. Geo. A. Bright, of the Yard, and was afterwards sent to the steamer *Luray* in the Yard ambulance.

THE N. Y. *Tribune* says: "Washington is the refuge of cranks. One of their number has just sent to the Naval Bureau of Ordnance what he terms a model for a gun. It is simply a bass key finished and ornamented in the style of the old fashioned guns in use 300 years or so ago, and is mounted on a regulation gun carriage of the present day. The 'inventor' suggests in a letter accompanying the 'model' that a large number of his cannons be at once manufactured and placed on all ships of war. He also desires that his gun be known as the 'Uncle Billy,' after Secretary Whitney. The gentlemen of the Ordnance Bureau have not determined yet whether the whole thing is a joke or not."

THE N. Y. *Tribune* says that on Saturday last "a *Tribune* reporter called at his home at 57th street and 5th avenue and met Mr. Whitney in the hall before the butler had time to go in with the caller's card. 'There is a report, Mr. Whitney, that you have resigned the Secretaryship of the Navy, or intend to do so. Do you care to say anything on the subject?' was the query of the reporter. Mr. Whitney half-smiled and then gazed intently through his eye glasses. 'There is no truth in the story,' he said. 'You may contradict it emphatically.' 'Not the slightest foundation for the report? It comes from good Democratic circles,' was suggested. 'No, there is no basis for it,' responded the Secretary. 'I have not resigned and have no intention of doing so.'"

THE youngest officers of their respective grades and ranks, as per Navy Register of Feb. 1, 1887, with the dates of their births are as follows: Rear Admiral Chandler, Aug. 3, 1829; Commodore Greer, Feb. 28, 1833; Captain Remey, Aug. 10, 1841; Commander Goodrich, Jan. 7, 1847; Lieut.-Commander Mackenzie, May 5, 1848; Lieutenant Peters, Sept. 22, 1854; Lieutenant, j. g., Witzel, Jan. 16, 1858; Ensign Hoggatt, Sept. 11, 1865; Medical Director Kindleberger, Sept. 2, 1834; Medical Inspector Schofield, April 28, 1839; Surgeon Harvey, Jan. 12, 1851; Passed Asst. Surgeon Baker, Sept. 2, 1860; Assistant Surgeon Shafer, March 3, 1862; Pay Director Denniston, June 13, 1840; Pay Inspector Guild, June 6, 1843; Paymaster Colhoun, May 2, 1846; Passed Asst. Paymaster Ray, Dec. 21, 1856; Assistant Paymaster Simpson, July 4, 1860; Chief Engineer Nicoll, Oct. 20, 1842; Passed Asst. Engineer Cathcart, Aug. 12, 1855; Assistant Engineer Herbert, March 16, 1864. Thus it appears that Ensign Hoggatt is the youngest officer in the line holding a commission, as he is also the youngest in the whole Navy by nearly six months. The ages of the *oldest* officers in the several branches are not to be lightly discussed.

RECENT DEATHS.

THE Washington Commandery of the Loyal Legion, March 2, 1887, in its notice of Commodore Johnson, U. S. N., said:

Commodore Johnson showed early those qualities which afterwards distinguished him as one of the most versatile and capable officers of the service. One of his classmates, referring to their midshipmen days during the period of the Mexican war, says: "He was thought the most mature, mentally of the midshipmen on board the *Ohio*." While still attached to the *Ohio*, after her return from the Mexican coast, young Johnson had the opportunity, so dear to the heart of every true seaman, to risk his life to save that of another. This daring act was reported to the Navy Department in a highly complimentary despatch by Captain Stringham, Comdr. of the *Ohio*.

Commodore Johnson's career as a naval officer was a busy and exciting one. It was his fortune to be subject to almost every variety of experience that can happen to a seaman in either peace or war. Shipwrecked in the *Sacramento*; engaged in the scientific work of the Coast Survey; running the engines of the *Hassler* on account of a drunken engineer; under fire at Vera Cruz and at Forts Jackon and St. Philip; teaching the apprentices of the training squadron; revising the Navy Regulations and Signal Book or administering the affairs of a Navy-yard, Commodore Johnson always showed that readiness of wit, that perfect comprehension of the necessities of the case, and that thorough knowledge of his profession, which always marked him as one of its leading officers.

While insisting always on the strict performance of all duties by his subordinates, his manner was invariably kind and genial, and it was a maxim that service with Johnson in any capacity was always desirable. Those virtues which ennoble mankind shone so conspicuously in his character as to make all who knew him feel impelled by his example to attain to a higher and a better life. Such men grace humanity and are of inestimable value to the professions which they adorn. This life was devoted with a singular affection and unusual success to the Navy. Its glories and traditions were thoroughly enwoven in his fibres, and with the feeling that attends the knowledge of a thorough adaptability to a congenial work. Commodore Johnson pursued his eminently successful career to its close.

Commodore Johnson was a brother of that eminent artist, Mr. Eastman Johnson.

H. B. RUMSEY entered the Navy from Indiana in 1859, and having passed through all the grades to that of lieutenant-commander resigned from the naval service in 1871. During the civil war he served with distinction on the gunboat *Clifton* in Admiral Farragut's fleet, and took part in the several attacks on the Vicksburg batteries which the *Clifton* made. After a short service in the ironclad *Roanoke* he was ordered to the *New Ironsides*, and while attached to that vessel took part in both attacks on Fort Fisher, and was present at its surrender. His record as an officer during the war was fully in keeping with his noble act of self-sacrifice which cost him his life. The night of March —, a fire broke out in the Richmond Hotel, Buffalo, where Mr. Rumsey happened to be staying. According to all accounts, he could easily have escaped with his life, but hearing the cries of a child, without a moment's hesitation he turned back, and picking her up, carefully covered her head as well as he could with his scanty clothing, in order to protect her from the flames, and succeeded in escaping from the burning building, with his helpless little burden; but this noble act of heroism proved unavailing, as the child and himself were so seriously burned that both died in a few hours of each other. Mr. Rumsey married, in 1866, a daughter of the Hon. Mr. Edgerton, of Fort Wayne, Indiana, who, with a son and daughter, are left to mourn their irreparable loss. Words can but inadequately express the sympathy which all must feel for those thus suddenly deprived of a devoted husband and father, but those who remain may be comforted, if indeed comfort can be given, by reflecting upon those words taken from the Book of all Books—"Greater love than this no man hath, that a man lay down his life for his friend."

MR. W. R. TRAVERS, the New York broker, who died at Hamilton, Bermuda, March 19, and who was buried in New York, March 30, was a gentleman known to many officers. He entered the Military Academy class of 1836, of which General William T. Sherman was a member. Gen. Sherman, in recalling his old classmate, says: "He was a bright, studious, manly young fellow, standing well up in his class, and would certainly have graduated with distinction. But an important impediment in his speech, which he struggled heroically but vainly to overcome, convinced him that he would never be suited for military life; and as he was too honorable to enjoy the nation's bounty of a liberal education, for which he could not render the implied return he resigned after two years' trial." Mr. Travers, leaves a fortune estimated at four or five millions, but with a reputation for a large hearted liberality and the most scrupulous integrity in business matters.

GENERAL ROSWELL S. RIPLEY, who was stricken with apoplexy at the New York Hotel, New York City, March 28, and died there March 29, was a gallant veteran of the Mexican War. He entered West Point from New York in 1839, was graduated in 1843, and promoted to the 3d Artillery, and in 1846 to the 2d Artillery. He received the brevets of Captain and Major for gallantry at Cerro Gordo and Chapultepec, and was A. D. C. to General Pillow from August, 1847, to July 20, 1848. In 1849 he published a history of the "War with Mexico," which has always been held as an authority. In March, 1853, he resigned, settled at Charleston, S. C., and when the war broke out entered the Confederate service, rising to the grade of Brigadier-General. After the war he resided for a long time in England. His wife and daughters are in Charleston.

THE Michigan Commandery, Loyal Legion, in an obituary notice of the late Adjt.-Gen. John Robertson, of Michigan, say: "To no man can greater credit be given for laying the foundation of the record of the citizen soldiery of Michigan, which has not been surpassed by that of any of her sister States, and to the untiring efforts of Gen. Robertson, must in a large degree be attributed the present efficient status of the Michigan State Troops. Since the close of the Rebellion, his heart has been always turned to the interests of the old soldiers, and with unswerving patience and untiring industry he has attended to the collection of every possible detail of their history, and has given to Michigan a roll and record of her soldiery more complete than that of any other State."

MR. JAMES C. DULIN, a clerk in the Navy Department, died last Saturday night from the effects of a fall he received in the wash-room of the Department, March 23. He was recorder of the Naval Examining and Retiring Boards since 1869, and had been in the employ of the Navy Department for nearly 24 years. He stood very high in the regard of Naval officers, and it is said that he was looked upon as one of the best clerks ever appointed in the Navy Department. Mr. Dulin's knowledge of Court-martial procedure was extensive and exceedingly accurate. His funeral, which took place from his late residence, 1,256 Eighth street, Washington, on Wednesday, March 30, was attended by numbers of Naval officers.

THE Portsmouth (N. H.) *Gazette*, referring to the recent death of Mrs. Towle, mother of Col. G. F. Towle, U. S. A., says: "She lived constantly in an atmosphere of peace. Impatience, anger and faultfinding were wholly foreign to her disposition. Unselfish in her actions, thoughtful and considerate for others, self-sacrificing, seeking occasion to relieve the necessities of the poor, she followed in her life the principles of the divine Son of God, and left to those who knew her the legacy of a beautiful exam-

ple. Such a life, replete each day with faithful ministrations, and crowned with God's loving kindness and tender mercy, had its fitting close in her so peaceful death when the fullness of her years had come."

General Henry Heath, who died on Wednesday, March 23, at 142 Macon street, Brooklyn, aged 52 years, served with the 13th Regiment during the war, and was a Brigadier-General on the late John A. Dix's staff. He commenced life as a merchant, was afterwards a lawyer, and represented the Eleventh district, Kings county, two years in the Assembly. He leaves a widow and one son.

It has been ascertained that General Samuel M. Quincy, who died last week at Keene, N. H., and who was buried March 27, in Boston, took his own life. Gen. Quincy, it is said, was a victim of the opium habit, and in a fit of despondency blew out his brains.

General John H. Hobart, who entered West Point July 1, 1829, but resigned before graduation to study law, died at Norristown, Pa., March 29. He was for many years connected with the local militia, hence his title.

Mrs. Nancy Louisa Fowler, widow of Maj. Reginald H. Fowler, Paymaster, U. S. A., died at Bethlehem, Pa., March 25, of congestion of the brain. Major Fowler died at Whipple Barracks, Arizona, August 8, 1880.

Miss Alice Russell Blake, who died at Cannes, France, March 21, aged 17, was the daughter of Henry J. Blake, formerly Lieutenant, U. S. N., who resigned in 1866, and has since died.

Mr. M. H. Norton, who died at San Antonio, February 24 last, was the brother of the wives of Lieutenants E. O. C. Ord and C. G. Starr, U. S. A.

Mr. Alanson Brainard, father of Lieutenant D. L. Brainard, 2d U. S. Cavalry, died at Marathon, N. Y., March 12, aged sixty-six.

Mrs. Sarah West, mother in-law of Rear Admiral English, U. S. N., died at Culpeper, Va., March 22, aged eighty-two.

PROMOTION FROM THE RANKS.

The New York *Times* of March 27 publishes a long article upon officers risen from the ranks, which it estimates to number 447, as follows: One Brigadier-General and two majors, A. G. O. Dept.; two lieutenant-colonels, Insp.-Gen. Dept.; one lieutenant-colonel and one major, J. A. G. Dept.; two lieutenant-colonels, four majors and eight captains, Q. M. Dept.; one captain, Subsistence Dept., two majors and seven captains, Med. Dept.; six majors, Pay Dept.; one captain of Ordnance; one brigadier-general and 16 second lieutenants, Signal Corps. Also the colonels of the 14th and 22d Infantry; the lieutenant-colonels of the 2d, 4th, 5th and 6th Cavalry, the 1st, 16th, 20th and 24th Infantry, and 382 other officers, as follows:

1st Cavalry	1 Major.	7 Captains.		
2d "	2 "	5 "		4 Lieuts.
3d "	2 "	4 "		
4th "		4 "		
5th "	1 "	5 "		
6th "		6 "		
7th "	2 "	5 "		
8th "	1 "	3 "	1 "	
9th "		8 "	5 "	
10th "	1 "	9 "	4 "	
1st Artillery		4 "	1 "	
2d "		3 "	4 "	
3d "		6 "	2 "	
4th "		4 "	2 "	
5th "	1 "	4 "	2 "	
1st Infantry	1 "	5 "	4 "	
2d "		5 "	10 "	
3d "		3 "	3 "	
4th "		6 "	5 "	
5th "		5 "	3 "	
6th "		7 "	4 "	
7th "		7 "	3 "

The names are given of 63 officers who have been promoted from the ranks since the date of the Act of June 18, 1878, providing for the promotion of meritorious non-commissioned officers.

WASHINGTON ORDNANCE YARD.

The military organization of the Washington Yard, of which Capt. Wallace has been chosen commandant, will be confined to a commandant, an inspector of ordnance, Commander McCormick, and a civil engineer, Mr. Menocal. The latter officer has been permanently assigned to duty there. Comdr. McCormick was inspector of ordnance before the reorganization of the Yard. It is not known that any change in this office is contemplated. Secretary Whitney has been in consultation of late with Naval ordnance officers with regard to the plant required to equip the Washington Navy-yard as an ordnance foundry. It is probable that the plans and changes will be decided upon finally in a few days. The report of the board of Naval officers on the subject did not meet with the entire approval of the Secretary, but it will doubtless form the basis of the scheme of reconstruction of the Yard. Considerable reduction will be made in the expenditure proposed, mainly in the direction of utilizing many of the buildings now standing, instead of tearing them down and building new ones. As soon as the plans are decided upon work will be commenced on the machinery and plant. Very few of the large tools, such as lathes and steam-hammers, necessary for the finishing of heavy ordnance, can be purchased in this country, so that it will be necessary for the new foundry to make most of its tools. It is believed that two years will be necessary for the completion of a plant large enough to turn out the heavy calibres of steel ordnance, but meanwhile the foundry will be able to handle material for guns not exceeding 6 inches in calibre. Every effort will be made to have the plant completed in time to undertake the assembling of the heavier pieces when the deliveries of steel begin under the new proposals.

TARGET PRACTICE IN THE ARMY.

To the Editor of the Army and Navy Journal:

I have read with much interest the pertinent remarks of Lieut. T. J. Clay, 10th Inf., in submitting his report as Inspector of Rifle Practice for the Department of Arizona. His suggestions are in the right direction, but I would go still further, and condemn the present system of reports and of determining the figure of merit of the different organizations of the Army. If paragraphs 183 to 188 and 216 and 217 governing known distance practice, and paragraphs 328 to 339 governing skirmish practice—Blunt's Rifle and Carbine Firing—were carried out strictly in accordance with their true meaning, the figure of merit could be approximately determined; but the interpretations placed upon these paragraphs by company commanders, differ so widely that the advantages thus given to some companies are very great. For this and other reasons that I might mention the present system of arriving at the figure of merit is very faulty and does not show the real efficiency of the Army in marksmanship. On paper we have an Army of sharpshooters, but in reality such is not the case. The Army team consisting of twelve of the best marksmen in the Army, made an average of but 38 per cent. of hits in the two days' competitive skirmish firing in the recent contest at Fort Leavenworth, while many company commanders report a per cent. of 50, and some even to 90 in company skirmish firing for 1886.

It is the opinion of the official inspector of rifle practice for the Department of the Platte, that 100 per cent. may be obtained by the ambitious captain, and so it may be on paper. I have a fair record as a skirmisher myself, and I cannot make over 50 per cent. under the rules governing the company skirmish firing. In known distance practice paragraphs 187, 216 and 217, have been so interpreted in some companies that they have had unlimited practice, and poor scores have been allowed to count as additional practice, and not recorded as a part of the company record. It is as well known as anything can be that is not positively known, that numbers of marksman's badges are now worn by men who who never obtained them strictly in accordance with regulations.

Speaking of this reminds me of an incident that occurred at Fort Niobrara last year. A soldier whose term of enlistment had just expired in the 24th Infantry, re-enlisted in the 9th Cavalry, and was assigned to a troop at Ft. N. He had his certificate as a marksman from the Department of Missouri, and wore the buttons. When he went to target practice with his troop, it was discovered that he could seldom hit the target at 200 yards. The captain asked him how he had obtained his buttons, and he replied: "We shot by proxy in de twenty-foot, sah." Now I believe there are men wearing the sharpshooters crosses to-day who are no better entitled to them than was this soldier of the 24th to his buttons. The question therefore is, does the reported figure of merit for 1886 give a true estimate of the real efficiency of the Army in marksmanship? My opinion is, that it does not, and I believe this to be the opinion of a majority of the officers in the Army. I have been in a position to know that the practice for 1886 was not at all satisfactory to many company commanders; and that some were inclined to take every advantage that was possible for them to get, by misinterpretation of different paragraphs of the rifle and carbine firing, in order to get a high figure of merit. As a remedy for this state of affairs, I would suggest that the figure of merit of the different organizations of the Army be determined by a competition conducted by the post commander, and a board of officers appointed by him, during the last ten days of the target season at every post in the Army, similar to the department and division competitions. No fair-minded man could object to this mode of establishing the figure of merit; and from the reports thus obtained, the Government could judge approximately of the real capabilities of the Army with the rifle.

I fully agree with Lieut. Clay in regard to the positions in firing, for I know from personal experience, that, although the back position can be used to advantage in skirmish firing on the target range, it will never be used by a skirmisher under fire, because in this position it is impossible to take advantage of any cover that might present itself.

Nor will a skirmisher ever expose himself in the off-hand, kneeling or sitting position when he can fire lying down. Consequently the prone position will nearly always be used by skirmishers in action, and, therefore, all men should be required to practice this position in company skirmish firing, and no other lying down position allowed in Department, Division and Army competitions.

All men should be required to qualify as marksmen in the off-hand (without body rest), kneeling, and prone positions. But in qualifying as sharpshooter, the body rest, sitting and back positions, should, in my opinion, be allowed, as a sharpshooter in actual service is generally firing at long range, and can with safety take any position in which he can do the best work.

In Department, Division and Army skirmish competitions, no two men of the same regiment should be allowed to run at the same time, as it is possible, under such circumstances, for them to enter into an agreement to concentrate their fire on one target and thus defeat another man who had really made the best individual score, as many believe was the case in regard to a certain score made in the Dept. of the Columbia skirmish competition last year.

Lewis Merriam, 1st Lieut. 4th Inf.

Fort Spokane, W. T., Feb. 16, 1887.

2d Lieutenant Augustus C. Macomb, 5th Cav., has been promoted to be 1st Lieutenant from March 11 last

Lieutenant Wm. Crozier, Ordnance Department, who has been ailing for some time past, will spend a few months abroad, with a view to recuperation.

THE STEEL CONTRACT EXPLAINED.

The Pittsburgh *Despatch* has a special telegram from Washington explaining how the Bethlehem Iron Works came to bid for the steel contract, as follows:

It must have been observed that the Bethlehem concern bid just what would be the cost of doing the work abroad laid down in this country, duty paid. It had never turned out any steel, and informed the Department that it was already hard at work putting in a plant which would cost $1,500,000, on which it had expended nearly $500,000; also, that it had engaged the services of a full corps of experts from abroad, who would be under the direction of an accomplished and experienced foreign superintendent.

But how did the Bethlehem Iron Works know it was to get the Government work? How could it know beforehand that this expenditure would not be thrown away, and the Government job go to those firms, like the Midvale, which had a record for the production of steel? The truth is the work, ostensibly done by an American firm in Pennsylvania, is really gobbled by a French firm, Schneider and Co., near Paris, which backs the Bethlehem company as a silent partner, which really transfers its own plant, or a portion of it, to America and brings its own force of brains and skill and muscle to the Government job. Over a year ago the representative of the French establishment came to this country and began prospecting for this work. At that time it was not exactly clear whether forgings and armor plates would be manufactured by American firms on American soil of American material, or would be purchased abroad.

The first bill left a loophole for the Secretary of the Navy to use certain discretion in the matter, a provision which was thought necessary in order to prevent a combination of Americans from putting up the cost. The French contractors haunted the lobbies of the Forty-eighth Congress and returned to the charge at the beginning of the Forty-ninth, during which, between Congress and the Navy Department, they thoroughly mastered the subject from our point of view. They saw the temper of the people and realized that this Government was about to embark in earnest upon the building of a new and modern Navy, the manufacture of heavy guns, and the construction of coast defences. They say that while the whole tenor and temper of Congressional debate and action were to give American producers and manufacturers the preference if not the monopoly in every branch of this great undertaking, not a single move was being made in the grand steel producing centre of Pittsburgh and not a step was being taken by the South Boston, Midvale, Bethlehem, or any other American establishment in the way of preparation, yet millions of dollars were to be expended and a rich harvest running through a series of a dozen years, and a practical monopoly of this class of Government business invited idle capital.

While the American manufacturers of steel were sitting down waiting for an appropriation and contracts before putting in plants with the idea of making the Government pay for such plants or guarantee the interest on their investment, this French firm went immediately to work. An officer of the Ordnance Bureau of the Navy saw at once what the shrewd Frenchman saw, and an officer of the Department was actually made the instrument by which the Bethlehem and French firms were brought together. Whether Secretary Whitney knew of this is not positive. He seems to have known just what he was about. A matter of this sort which was in the knowledge of the Ordnance Bureau where specifications were being made out could scarcely have been kept from the Secretary. There is nothing irregular about it in any particular and no blame can attach to the officer who was made the go-between, since he had nothing to do with either the letting of the contracts and is in no manner associated with the prosecution of the work. The exultant self-congratulations of the Secretary of the Navy upon the reception of the French-Bethlehem bid, however, seems rather funny in view of all these facts. He knew exactly the ground on which he stood. A good deal more surprised must have been the firms of gun steel makers to see themselves underbid 50 per cent. by a concern that never made a pound of steel.

The elaborate note of the Bethlehem firm accompanying the bid, showing the progress of their $1,500,000 plant, and unfolding just enough of their scheme to whet curiosity, explains in the light of this knowledge just how it came to be written. The firm was in the same temper as the Navy Department, and the note must have been suggested by the officers who were in the secret of the French-American combination. That the arrangement is for the benefit of the Government is unquestionable. But how about American labor? The transfer to American soil of several hundred skilled French artisans to work on a French plant for the production of steel for American ships and guns can scarcely be the protection contemplated by the national Congress. It is the precise result to be expected and has been anticipated in this correspondence. When foreign skilled labor sees a better opening on American soil than is found at home it will come here, just as foreign capital comes, seeking a better market. Our steel ships will be French ships and our steel guns will be French guns, although all this work be done in Pennsylvania.

There seems to be confusion in the minds of most persons as to the exact condition of the question of adopting a magazine gun for the British Army. As we understand it the Ordnance authorities decided upon the Enfield-Martini, and went ahead and manufactured quite a number of them. They proved so inferior, however, that this decision was set aside and a commission appointed to select other guns for trial. They chose two American arms; one the improved Lee, known as the Remington-Lee; the other a further modification of the Lee, known as the Lee-Burton. A supply of these guns has been ordered for trial, and they are now in the hands of troops. As soon as they have been reported upon, the decision will be made. One gun submitted to English authorities is the invention of Herr Franz Fortelka, a former lieutenant in the Austrian Army, who, during the first campaign in Bosnia, received a shot in his right eye which destroyed the optic nerve and indirectly so affected the left eye that Fortelka, now only twenty-eight years of age, has been for the last nine years totally blind. In spite of this, however, he has made several valuable inventions.

It was at the Liverpool docks. A party of American tourists were about to take the steamer for home. As they stalked along the gangway to the tender's deck one of the three paused in the centre, and stretching out his encumbered hands dramatically addressed the surrounding scenery. "If there is," he hoarsely exclaimed, "one blarsted Britisher on this confounded island that I haven't given a shilling to, let him come forward and get it. It's his last chance!" Then he stalked on board with an air of great relief.

Captain Charles McKibbin, 15th U. S. Infantry, has been obliged on account of sickness to temporarily relinquish his duties as recruiting officer at Harrisburg, Pa.

PICATINNY POWDER DEPOT.

FROM a description of Picatinny Powder Depot, in the N. Y. *Sun*, it appears that it lies 700 feet above the tide in an almost level valley, four miles east of the upper end of Lake Hopatcong, and the same distance north of the pretty little hillside city of Dover, N. J. It lies at the foot of Green Pond Mountain, a rugged and precipitous wall of red conglomerate twelve miles in length and from 400 to 500 feet above the general level of the valley. On the opposite side of the valley are the Copperas Mountains and Hickory Hill, two great knobs of granite which make the place almost impregnable from that direction. Lying at the foot of Picatinny Peak is Middle Forge Pond, a beautiful sheet of water about a mile in length and a quarter of a mile in width, which receives its supply from Green Pond and sends it trickling across the Government land in a shallow brook.

In summer the valley is one of the most beautiful spots in New Jersey. The lake teems with big pickerel, and is almost completely covered with lily pads and blossoms. At the foot of the sheet of water stand the gray ruins of one of the old iron furnaces in whose stone walls some of the iron used in the Revolution was melted. Marking the southern boundary of the powder depot lands—1,900 acres in all—from mountain to mountain is a massive granite wall built of handsome gray stone quarried by the Government employees from the side of Copperas Mountain.

The entrance to the grounds on a new road built by the Government is guarded by a massive set of iron gates, unique and appropriate in design. The four posts supporting the gates are huge cannon with their breeches set in solid granite blocks and their muzzles surmounted with cannon balls. The gates are of gracefully wrought iron, and each on its panel bears the insignia of the Ordnance Department—crossed cannon and cannon balls. At the intersection of the Government road and the public road, well within the grounds, is the guardhouse, a handsome structure of pressed brick, with granite trimmings and granite battlements. The interior is arranged for the accommodation of a powerful steam fire engine as well as for the men composing the guard that will be stationed at the depot when the magazines are completed and filled with powder. Nearly opposite the guard house is laid the foundation of a building, which will be completed this summer and will be used as an office. A quarter of a mile further up the public road is a group of red brick stables, and opposite the stables is the tool house, a plain and substantial brick structure. Across the road from the tool house is a pretty white cottage in which Mr. S. P. Tompkins, the foreman of the laborers, resides with his family.

Situated at intervals of nearly half a mile on the level plain above the public road are three enormous powder magazines. The foundation of a fourth is now awaiting its superstructure, and before it is completed a fifth will be begun. Originally it was proposed to build ten magazines on the tract, and plans were made accordingly, but it has recently been decided to limit the number to five, at wider distances apart. Each magazine costs about $45,000, and nearly $350,000 has been expended on the depot thus far.

Each magazine is one story in height, and its floor dimensions are 50x200 feet. The foundation and central piers, built of the dark gray granite taken from the mountain side, and the brick walls, 24 inches in thickness, are hollow throughout, and are provided with ventilators inside and out, which are opened on auspicious occasions to admit a free circulation of air through the walls and through the interior of the magazine. The building is covered with a low gable roof of corrugated iron laid on substantial wrought-iron trusses, forming a low attic. The interior of the building is floored with yellow pine resting upon beams of wrought-iron, which carry an arched sub-floor of hollow brick. The side walls are ceiled with pine, and a row of iron columns through the centre of the building is jacketed with the same material. The ceiling of the room is constructed of hollow bricks arranged, like the subfloor, in flat arches between the wrought beams. The magazine has two doors and eight windows, each of which is closed, first by heavy inside shutters of pine and again by outside double shutters of wrought iron. The doors are similarly closed and everywhere precaution is taken to exclude dampness. The ventilator shutters, which open from the outside of the building, are lined with half an inch of soft rubber, which effectully excludes air and moisture.

When the temperature is lower out doors than in the magazine, the doors are thrown open and the ventilators loosened for a couple of hours during the middle of the day. At such times a watchman with a big revolver in his belt prowls incessantly around the building. At other times he and his comrades similarly armed are intrusted with the policing of the grounds.

Each magazine will have a maximum storage capacity of 20,000 barrels of powder, but the ordinary storage will not exceed 10,000 barrels to each magazine. The barrels contain each 100 pounds of coarse-grained powder for heavy ordnance. When the five magazines are completed they will probably contain 2,500 tons of powder, valued at $1,250,000. At present but one of the magazines is in use, and that contains 600 barrels of powder.

The magazines are protected from lightning by wire cables completely enveloping the roof and sides of the building, connected with every shutter and door, and finally terminating in iron plates sunk in wells 30 feet under ground. Each magazine has five one inch cables running over the roof to the ground on each side of the building. At the ridge pole they have terminals four feet in height, and at the side of the building they are connected with a similar cable, which encircles it. One of the magazines is additionally protected by the Hubbell system. In this plan six lofty poles bearing a cable make a continuous circuit around the building. Each pole is tipped with a copper rod, which extends 30 feet above the roof of the magazine, and each pole has a vertical conductor terminating in moist earth. The magazines are placed so far apart that should one of them explode the others would be in no danger.

The Morris County Railroad, a new line running from Charlotteburg to Hopatcong Junction, crosses the Government land, and spurs will be constructed to each magazine, so that powder may be handled expeditiously. A brick warehouse and station are finished at the point where the railroad crosses the public road, and a spur running to magazine No. 2 is nearly completed. In handling the powder more care is taken than is customary or economical in a powder mill. When a car load of the sensitive stuff is backed up to the door of the magazine, a heavy canvas covering is thrown over the stone platform in front of the door. The men who are to store the powder then put on rubber shoes, and each barrel is carefully carried to its place in a handbarrow. The barrels are never rolled or allowed to come in contact with stone or iron, although there are no nails used in their construction, and scarcely any possibility of a spark being struck. In the magazine the barrels are arranged in rows, two abreast and four or five barrels high. Each tier rests on light skids of pine wood, and between the rows are wide aisles which are kept scrupulously swept.

Major Joseph P. Farley, of the Ordnance Corps, U. S. A., is the present commander at the Picatinny Powder Depot, and considerable of the work has been done under his guidance and direction.

TENURE OF PERSONAL AND REGIMENTAL STAFF.

To the Editor of the Army and Navy Journal:

IN none of the discussions that I have read of the order limiting regimental staff service to four years has the most vital objection to such limitation that presents itself to me been mentioned. That objection is the needless and injurious centralization of authority thereby exemplified and increased. In the true theory of commissions and appointments to special service, not the advantage of the officer commissioned or appointed is the first or most essential thing, but the advantage of the Service and—in case of staff officers—of the command or regiment concerned.

There is a vast difference between men equally honest, competent and faithful—the personal equation of the individual comes in as a most important matter, especially in the case of commanding officers and their personal staff—and in this discussion aides-de-camp and regimental staff are very properly placed on the same footing, as their tenure is for the same period and limited by the same authority, and many of their duties are similar.

If, then, a general commanding an army, division or department, or a field officer commanding a regiment, has staff officers of the classes named who meet the requirements of their positions and whose conduct, character, and individuality are acceptable to their chief, it clearly is a very insufficient reason for removing them that *somebody else would like the places*. That is the plain English of the circumlocution used in the matter. When this removal is effected from the War Department—where the chief right and rational interest that can be felt in the various territorial commands and regiments is that the duties be efficiently discharged, to the end that the Army be efficient—it is certainly a needless exercise of the central authority, and a needless, and so injurious, limitation of the authority and initiative of subordinate commanders.

An argument most commonly used in favor of the recently promulgated regulation, is, that regimental commanders would now be obliged to do their own thinking, and not leave it to staff officers. Without pausing to inquire whether or not there is any justice in that insinuation, it is easy to see that the argument, if sound, proves too much.

If the burden of this jeremiad were—as it is not—to show the ill effects of the assumption of control by staff officers something would need be said in favor of frequent changes in the highest places. But this paper has to do only with the evils of unnecessary centralization, of which the order in question is a symptom and an index.

The constant and increasing limitation of the authority of subordinate commanders in the Army growing out of this increasing centralization, is a grave injury. It cultivates timidity, destroys both mental initiative, and that most important of habits for a commander—the habit of taking responsibility. A forcible illustration of its evil effects was presented near the close of the Rebellion, when a subordinate commander refused to receive and care for a great host of starving, dying Union prisoners who had been brought to our lines by the rebels, because, forsooth, he had received no orders! And yet he had the rank of a brigadier general and a territorial command.

The system will make excellent sergeants of the interior or post guard, but will not make good commanders even of a picket line. Perhaps—though that is doubtful—a Napoleon I. can get efficient service from an army thus instructed—but Napoleons are not abundant, and it is memorable that the only one in history was ruined in his last battle because a subordinate waited for orders, and refused to take the responsibility of acting on a state of facts which he knew that he must understand better than his chief did.

OLD ARMY.

THE ADMIRAL'S HORN.

THE Baltimore *Sun* recently published some verses by a young lady accompanying a tin trumpet which she presented to a distinguished Admiral of the United States Navy, who had failed at a Montgomery county fox hunt to produce any music in a vigorous attempt to blow a hunting-horn. The verses satirized the Admiral's failure, and now two young ladies, one from Howard county, Maryland, and the other from Fairfax Court House, Virginia, have come to his defence. One has the following:

ANSWER TO THE ADMIRAL'S HORN.

Oh, rarest creature, scarcely formed of clay,
Who will not blow his own horn when he may,
Who knows too well that fame will blow his horn
And laughs the blasts of smaller men to scorn.
Foxes may laugh when admirals silent ride
And blatant huntsmen stream a noisy tide,
Since toemen not unworthy of his steel
Have rued the fate which brought him on their heel.
Have not the stars which blazon thy blue sea
Sent earthward comrades to emblazon thee?
And every breeze which stirs thy mizzenmast
Proclaimed thy victories in the days now past?
So let the hunter wind his strong halloo,
And thou contented be 'mid such ado,
Tin trumpets do for smaller fish to play,
But fortune's golden horn for Admiral J——.

"D."

THE ARMY.

CIR., WAR DEPARTMENT, A. G. O., March 26, 1887.

The following decision of the Second Comptroller of the Treasury is published for the information and guidance of all concerned:

Receipts for small sums for occasional service paid to corporations, such as railroads, telegraph, turnpike, transfer, express, steamboat, hotel, newspaper, and ice companies, may be signed by the local agent in charge of the business of the company at the place where the service is rendered, or where it begins or terminates, and the certificate of the officer making payment that the person to whom payment was thus made was then the local agent of the company in charge of its business at the place designated will be sufficient evidence of the agent's authority to receive and receipt for the money paid.

By order of the Secretary of War:

R. C. DRUM, Adjt.-Gen.

CIR., DIV. OF THE ATLANTIC, March 23, 1887.

In order that the annual artillery target practice prescribed in Art. 38, Army Regulations, may be uniformly conducted throughout this Division, all officers who desire to do so are requested to submit recommendations having in view such a programme as will insure the most thorough instruction in this important subject.

Aside from the firing, which will be direct, curved and vertical, the system should embrace range and position finding, and practice at stationary and moving targets.

While the armament of the various fortifications of the Division is of but little practical value for war purposes, it is our duty to act upon the presumption that this will not always be the case, and to prepare the troops for a more effective armament when it shall be provided. For this purpose every artillery post will be furnished, as far as practicable, with the various sea-coast, siege and field pieces, and with Coehorn 8, 10 and 13-inch mortars, together with the necessary implements, equipments and ammunition for their service.

In forwarding the suggestions herein requested, post commanders will report what facilities are needed for the thorough and complete instruction of their commands, and to what extent target practice at their posts, with the various guns and mortars, is practicable.

Attention is especially directed to paragraph 464, Regulations of 1881, which will be carefully observed by the commanders of all posts to which it is applicable.

By command of Major Gen. Schofield:

WILLIAM D. WHIPPLE, Asst. Adjt.-Gen.

G. O. 9, DEPT. OF ARIZONA, March 23, 1887.

Announces the following months for practice in this Department:

Fort Wingate, N. M.—May, June and August.
Fort Stanton, N. M.—May, June and October.
Forts Bowie, Grant and Verde, A. T., June, July and August.
Forts Apache and Huachuca, A. T., and Bayard, N. M., July, August and October.
Fort Union, N. M.—July, August and November.
Forts Lowell, McDowell and Thomas, A. T.—August, September and November.

The first month of practice at each post will be devoted to instructing the trooper, mounted and on foot, in the use of the pistol, unloaded and with blank cartridges. During the other two months practice with ball cartridges will be held three times each week. Three-fourths of the practice to be mounted firing. Scores of five shots per man will be fired each day of practice until the annual allowance of pistol ammunition is expended.

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

Leave for seven days is granted Lieut. Col. J. P. Martin, Asst. Adjt. Gen. (S. O. 32, March 14, Dept. Missouri.)

Quartermasters and Subsistence Departments.

The C. O., Fort Bowie, A. T., will grant a furlough for six months to Post Q. M. Sergt. Samuel A. Trask (S. O. 32, March 21, D. Ariz.)

Pay Department.

Major Joseph W. Wham, Paymr., will proceed to West Point, N. Y., on public business, and on the completion thereof will return to his proper station (S. O., March 31, H. Q. A.)

Medical Department.

S. O. 27 is so amended to grant A. A. Surg. Charles Anderson leave for one month on surgeon's certificate, with permission to apply for an extension of one month (S. O. 32, March 21, D. Ariz.)

The leave for seven days granted Major Wm. H. Gardner, surgeon, Fort McHenry, Md., is extended seven days (S. O. 65, March 29, Div. Atlantic.)

A. A. Surg. A. L. Buffington will proceed to Fort Hancock and report for temporary duty (S. O. 38, March 23, D. Texas.)

The leave granted 1st Lieut. Guy L. Edie, asst. surg., is extended three months (S. O., March 23, H. Q. A.)

Capt. Harry O. Perley, asst. surg., will proceed to Fort Maginnis, M. T., and report for temporary duty (S. O. 23, March 18, D. Dakota).

The furlough granted Hospl. Steward J. R. Fowler is extended two months (S. O. 31, March 18, D. Ariz.)

Engineers and Ordnance Departments.

The following changes in duties and stations of officers of the Corps of Engineers are ordered: Major Wm. R. King will relieve Lieut. Col. C. B. Comstock, of the command of the post and engineer school of application at Willet's Point, New York, and of the charge of the fort at that place, and of the experiments with torpedoes. Lieut. Col. Comstock is relieved from all his duties as supervising engineer, and, upon being relieved by Major King of his duties at Willet's Point, as herein directed, will proceed to and take station in New York City (S. O., March 31, H. Q. A.)

Leave for fifteen days, beginning April 1, is granted Capt. William L. Marshall, C. E. (S. O. 50, March 29, C. E.)

Lieut. Col. Peter C. Hains, C. E., is assigned to the charge of the construction of the "bridge across the Eastern Branch of the Potomac River at the foot of Pennsylvania Avenue east" (S. O. 48, March 26, C. F.)

The leave granted 1st Lieut. Lansing H. Beach, C. E., is extended fifteen days (S. O., March 26, H. Q. A.)

Capt. Smith S. Leach, C. E., will proceed to St. Louis, and relieve Capt. Thomas Turtle, C. E., of his duties as secretary and disbursing officer of the Mississippi River Commission, and upon completion of the duty return to Memphis. Capt. Turtle will re-

port in person to the Chief of Engineers for duty in his office (S. O., March 25, H. Q. A.)

2d Lieut. Charles L. Potter, C. E., will proceed from Fort Leavenworth to Willet's Point, N. Y., and report for duty with the Battalion of Engineers (S. O., March 25, H. Q. A.)

Leave for fourteen days is granted Capt. J. E. Greer, O. D., Chief Ord. Officer (S. O. 34, March 17, Dept. Mo.)

Capt. John G. Butler, O. D., will proceed to the Colt's Patent Firearms Manufacturing Company's Works, Conn., for the purpose of inspecting Gatling guns being manufactured for the O. D. (S. O., March 28, H. Q. A.)

1st Lieut. W. Crozier, O.D., is granted a further extension of leave to Nov. 1, on account of sickness, with permission to go beyond the sea (S. O., March 31, H. Q. A.)

Signal Corps.

Sergt. Paul Daniels, S. C., will relieve Sergt. Hiram J. Penrod, in charge of Signal Agency, in New York City. Sergts. Penrod and George A. Warren will proceed to Washington and report in person to the Chief Signal Officer for duty at this office (S. O. 21, Sig. Office, 1887).

THE LINE.

Changes of Stations of Troops and Field Officers

Ordered, as reported to the Adjutant-General's Office during the week ending March 26, 1887:

FIELD OFFICERS.

Lieut.-Col. L. L. Livingston, 3d Art., to Fort McHenry, Md.

Lieut.-Col. Edward Collins, 7th Inf., to Fort Laramie, Wyo.

Major Richard Lodor, 3d Art., to Washington Barracks, D. C.

Major E. C. Bainbridge, 3d Art., to Newport Barracks, Ky.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

HDQRS. 1ST CAV., FORT CUSTER, March 17.

Orders No. 18.

G. O. 14, c. s., from the Headquarters of the Army, promulgating par. 155½, A. R., 1881, imposes upon the Regimental Commander the unpleasant duty of relieving 1st Lieut. William H. Miller from duty as Regimental Quartermaster. This officer has held this position nearly nine years, during which time he has most faithfully, zealously, and efficiently served the Government and contributed largely and promptly towards the comfort and interest of the officers and their families, not only of his own regiment, but those of other organizations that have been stationed at this post, where he has discharged the additional duties of A. A. Q. M. Lieut. Miller possesses rare qualifications for the position of Quartermaster, and at all times and under all circumstances he has exhibited an interest and personal industry unexcelled by any other officer in the Service. The economy used by him in utilizing the small appropriations allotted this post alone entitles him to the most favorable commendation that can be bestowed upon him. The new buildings, including barracks, stables, and additions to quarters at Fort Custer, constructed on such limited means as he had at his disposal, are monuments of his ability and skill as a quartermaster. Lieut. Miller will be relieved from duty as Regimental Quartermaster, to take effect on April 1.

With the approval of the Secretary of War, 1st Lieut. Jacob G. Galbraith, 1st Cav., is hereby appointed Regimental Quartermaster, to take effect on April 1, vice Lieut. William H. Miller, relieved.

By order of Colonel Dudley:

R. P. PAGE WAINWRIGHT, 1st Lieut. and Adjt., 1st Cav.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Major Thomas McGregor will inspect subsistence stores at Fort Walla Walla, for which 1st Lieut. Daniel C. Pearson, A. C. S., is accountable (S. O. 42, March 8, D. Columbia.)

Leave for thirty days is granted Capt. James N. Wheelan, Fort Walla Walla (S. O. 43, March 9, D. Columbia.)

The C. O. Fort Walla Walla will grant a furlough for two months to Sergt. Alexander Huntington, Troop B (S. O. 46, March 15, D. Columbia.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex., G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

1st Lieut. Francis Michler, Fort Supply, I. T., having been appointed Regtl. Adjt., will proceed to Fort Riley and report for duty (S. O. 32, March 14, Dept. M.)

Capt. W. P. Hall (recently promoted), will proceed to Fort Reno, I. T., and report for duty with his troop, C (S. O. 33, March 16, Dept. M.)

1st Lieut. Eben Swift, now at Fort Riley, will proceed to Camp Martin, I. T., and report for duty with his troop, L (S. O. 35, March 18, Dept. M.)

Capt. Charles H. Rockwell will be relieved from duty at the Military Academy, West Point, N. Y., June 30, when he will join his troop (S. O., March 26, H. Q. A.)

The Q. M. Dept. will furnish transportation to Yankton, and return, to 1st Lieut. George B. Davis, subpœnaed to appear as a witness before the U. S. District Court there (S. O., March 29, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The leave for seven days granted Capt. Winfield S. Edgerly, Fort Meade, and extended twenty-three days, is further extended one month (S. O. 33, March 24, Div. M.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

2d Lieut. De Rosey C. Cabell is relieved from duty as member of the G. C.-M. at San Antonio and detailed J.-A. of the court (S. O. 35, March 18, D. Tex.)

Capt. Richard A. Williams is detailed member of the G. C.-M. at San Antonio (S. O. 35, March 18, D. Tex.)

1st Lieut. Samuel W. Fountain will be relieved from duty at Jefferson Barracks in time to enable him to join his troop by June 1 (S. O., March 26, H. Q. A.)

Leave for four months, to take effect about June 1, with permission to go beyond sea and to apply for an extension of four months, is granted Capt. Richard A. Williams (S. O., March 26, H. Q. A.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

The leave granted Capt. John Conline is extended two months (S. O., March 23, H. Q. A.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

1st Lieut. L. P. Hunt is appointed recruiting officer at Fort Grant, relieving 2d Lieut. P. H. Clarke (S. O. 32, March 21, D. Ariz.)

Leave for twenty-five days is granted 1st Lieut. M. M. Maxon, R. Q. M. (S. O. 32, March 21, D. Ariz.)

The Supt. of the Recruiting Service will cause twenty-five colored cavalry recruits to be prepared and forwarded to such points in the Dept. of Arizona as the Comdg. General of the Department may direct for assignment to the 10th Cav. (S. O., March 31, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.

* Light battery.

Capt. Edmund K. Russell will inspect C., C. and G. E., and O. and O. stores at Fort Canby, W. T., for which Capt. Chandler P. Eakin is accountable (S. O. 42, March 8, D. Columbia.)

The extension of leave on Surgeon's certificate granted Major Alanson M. Randol is further extended three months on account of sickness (S. O., March 26, H. Q. A.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

Leave for one month, to take effect about March 28, is granted 1st Lieut. R. M. Rogers (S. O. 37, March 22, Dept. M.)

Leave for one month on Surgeon's certificate is granted Capt. William McK. Dunn, Jr., Little Rock Barracks (S. O. 67, March 31, Div. A.)

At the request of Senator Manderson of Nebraska, Secretary Endicott has given permission for Light Bat. F, 2d Art., to attend the Nebraska State Fair, to be held at Lincoln in September next.

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.

* Light battery.

At his own request, so much of S. O. 60, as directs Sergt. William D. Stanfield, Light Bat. C, to appear before a Board of Officers for examination for promotion, is revoked (S. O. 64, March 28, Div. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.

* Light battery.

2d Lieut. Williston Fish is relieved from duty as member of the G. C.-M. at Fort Snelling, and appointed J.-A. of said court (S. O. 24, March 21, D. Dak.)

The leave for one month on Surgeon's certificate granted Capt. Arthur Morris, Fort Adams, R. I., is extended one month on account of sickness (S. O. 65, March 29, Div. A.)

The C. O. Fort Snelling, Minn., will grant a furlough for one month to Sergt. Hunter Miller, Light Bat. F (S. O. 24, March 21, D. Dak.)

The C. O. Fort Adams, R. I., will issue a furlough for six months, with permission to go beyond sea, to Sergt. J. W. Huff, Bat. L (S. O. 67, March 31, Div. A.)

In G. O. 6, Artillery School, March 27, Col. Tidball relieves 1st Lieut. C. P. Miller from duty as Adjutant of Fort Monroe and Secretary of the Staff of the Artillery School, and avails himself of the opportunity "to express his thanks to Lieut. Miller for the zeal, fidelity, and efficiency with which he has performed his duties."

In Orders Nos. 9 and 10, of March 29 and 31, Col. Best announces the appointment of 1st Lieut. William Ennis as Regimental Adjutant, vice A. B. Dyer, assigned to Batty. D, and of 1st Lieut. C. P. Miller as Regimental Quartermaster, vice Capt. F. Fuger, whose promotion carries him to Fort Preble, Me. Colonel Best, in relieving Captain Fuger and Lieut. Dyer from staff duty, expressed his high appreciation of their ability and fidelity to duty, and thanks them for their valuable assistance during the years they have served on his staff.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. George Bell, Jr., Fort Missoula, M. T. (S. O. 25, March 22, D. Dak.)

Leave for three months on Surgeon's certificate is granted Capt. John P. Thompson (S. O., March 24, H. Q. A.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Cœur d'Alene, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Col. William P. Carlin will inspect O. and O. stores and subsistence stores at Fort Cœur d'Alene, for which Capt. William H. Bisbee and 1st Lieut. Henry E. Robinson are accountable (S. O. 45, March 12, D. Columbia.)

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. Leonard A. Lovering, Fort Cœur d'Alene (S. O. 44, March 11, D. Columbia.)

The C. O. Fort Spokane will grant a furlough for two months to 1st Sergt. Bryan Geraghty, Co. B (S. O. 41, March 7, D. Columbia.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

Pvt. Daniel Maloney, Co. C, has been promoted sergeant, and in Co. A, Corpl. Charles E. Bell, sergeant, and Trumpeter John J. Wickham, corporal.

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Col. H. C. Merriam is granted four months' leave from March 27, 1887, with permission to go beyond the sea (S. O., March 31, H. Q. A.)

1st Sergt. Robert Vonder Goltz, Co. C, will report to the Board at Fort McKinney for examination for appointment as Post Q. M. Sergeant (S. O. 29, March 19, D. Platte.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

2d Lieut. G. B. Duncan will report to Capt. F. E. Pierce, 1st Inf., in charge of police control of White Mountain Indian Reservation, at San Carlos, A. T., for special duty (S. O. 31, March 18, D. Ariz.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

Capt. Leon A. Matile will proceed to David's Island, N. Y. H., to conduct recruits under orders for the Dept. of Dakota (S. O. 48, March 22, Rec. Ser.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., A, B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.

Leave for one month, to commence on or about April 24, is granted 1st Lieut. William W. Wotherspoon, Madison Barracks, N. Y. (S. O. 66, March 30, Div. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T. A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Capt. Gilbert S. Carpenter will inspect hospital property at Fort Klamath, for which Asst. Surg. James C. Merrill is accountable (S. O. 42, March 8, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

In Orders 10, of March 7, Col. Crofton relieves 1st Lieut. D. H. Clark from duty as Quartermaster, March 31. In relieving him from duty as Regimental Quartermaster, the commanding officer desires to express to Lieut. Clark his full appreciation of and entire satisfaction with the manner in which he has invariably performed the duties pertaining to his office. In Orders 11, 1st Lieut. Thomas F. Davis is appointed Regimental Quartermaster, and Lieut. Clark is assigned to Co. A.

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

2d Lieut. J. T. Anderson is relieved as J.-A. of the G. C.-M. at San Antonio (S. O. 35, March 18, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

1st Lieut. James Brennan is relieved on Rec. Service at Camp Medicine Butte, Wyo. (S. O. 29, March 19, D. Platte.)

Leave for one month on Surgeon's certificate is granted 1st Lieut. Robert W. Dowdy, Fort D. A. Russell, Wyo. (S. O. 30, March 24, D. Platte.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Kas.

Sergt. Thomas H. McGuire, Co. B, a candidate for promotion to the grade of 2d Lieutenant, will report for examination to the president of the Board of Officers at Fort Leavenworth (S. O. 35, March 18, Dept. M.)

In Orders 20, of March 24, Col. Yard relieves 1st Lieut. George S. Hoyt from duty as Quartermaster of the regiment, to date March 31, and appoints 1st Lieut. Michael Leahy in his stead. The Regimental Commander desires to record his appreciation of the efficiency and faithfulness uniformly evinced by Lieut. Hoyt in the performance of his duties, and regrets the severance of those personal and confidential relations incident to his position on the Regimental Staff. 1st Lieut. George S. Hoyt is assigned to Co. D.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

In Orders 18, of March 21, Col. Smith relieves 1st Lieut. Charles B. Hall, Adjt., and 1st Lieut. Simon C. Vedder, Quartermaster, to take effect March 31. In thus severing his close official relations of long standing with these experienced officers of the Regimental Staff, the Colonel records his very high appreciation of their ability, efficiency, and faithful services. 1st Lieut. Christian C. Hewitt is appointed Adjutant and 1st Lieut. William P. Evans, Quartermaster. Lieut. Hall is assigned to Co. K and Lieut. Vedder to Co. C.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

2d Lieut. Harry D. Humphrey (recently appointed), will join his company (I, Camp Poplar River, Mont.) (S. O., March 28, H. Q. A.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

1st Lieut. A. M. Palmer, Fort Sill, will proceed to

Fort Supply, I. T., and report with a view to appointment as R. Q. M. (S. O. 32, March 14, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

2d Lieut. C. C. Tear is relieved as J.-A. of the G. C.-M. at Fort Snelling (S. O. 24, March 21, D. Dak.)

In Orders 11, of March 15, Col. Andrews relieves 1st Lieut. Charles L. Hogdes as R. Q. M. and assigns him to Co. C, to date April 1. Col. Andrews, while thus involuntarily severing this relationship with Lieut. Hodges, expresses his appreciation of the faithful and efficient service rendered by him and assures him that the regret experienced by his commanding officer is shared by the whole regiment. 1st Lieut. Carroll A. Devol, with the approval of the Secretary of War, is appointed R. Q. M., to date April 1.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, March 26, 1887.

PROMOTION.

2d Lieutenant Augustus C. Macomb, 5th Cavalry, to be 1st Lieutenant, March 11, 1887, vice London, appointed Regimental Quartermaster.

CASUALTY.

1st Lieutenant Charles F. Mason, Assistant Surgeon, resigned March 25, 1887.

Courts-martial.

The following courts have been ordered:

At Fort Pembina, D. T., March 24. Detail: Capt. Cyrus M. DeLany, 1st Lieuts. Edward S. Chapin and George A. Cornish, 2d Lieuts. Andrew S. Rowan and Leon S. Roudiez, 15th Inf., and 2d Lieut. Charles C. Tear, 25th Inf., J.-A. (S. O. 22, March 16, D. Dak.)

At Fort Davis, Tex., March 22. Detail: Capt. William H. Clapp, 16th Inf.; Capt. Daniel M. Appel, Asst. Surg.; 2d Lieuts. Thomas B. Dugan, John W. Heard, Malvern H. Barnum, and William H. Hay, 3d Cav.; 2d Lieut. Stephen M. Hackney, 16th Inf., and 1st Lieut. William C. McFarland, 16th Inf., J.-A. (S. O. 36, March 18, D. Tex.)

At Fort Elliott, Tex., April 4. Detail: Major C. H. Carlton, Capts. Gerald Russell and G. A. Drew, 3d Cav.; Capt. H. F. Leggett, 24th Inf.; Capt. R. C. Newton, Med. Dept.; 1st Lieuts. M. C. Wessells and B. W. Leavell and 2d Lieut. J. E. Brett, 24th Inf.; 2d Lieut. Arthur Thayer, 3d Cav., and 2d Lieut. C. L. Collins, 24th Inf., J.-A. (S. O. 38, March 25, Dept. M.)

At Fort Adams, R. I., April 4. Detail: Major Dallas Bache, Surg.; Capts. John Egan, Frank G. Smith, Edward Field, and John W. Roder, 1st Lieuts. William Ennis, Harry R. Anderson, and Clarence Deems, 2d Lieuts. Charles L. Cothell, John E. McMahon, and Walter N. P. Darrow, 4th Art., and 1st Lieut. C. A. L. Totten, 4th Art., J.-A. (S. O. 65, March 29, Div. A.)

Army Boards.

A Board of Officers, to consist of Lieut.-Col. A. K. Arnold and Major G. B. Sanford, 1st Cav.; Major A. A. Woodhull, Med. Dept.; Major H. S. Hawkins, 10th Inf., and Capt. J. B. Babcock, 5th Cav., will meet at Fort Leavenworth, Kas., April 1, to examine for promotion such non-commissioned officers to the grade of 2d Lieutenant as may be ordered before it (S. O. 35, March 18, Dept. M.)

A Board of Officers will meet at Fort McKinney, Wyo., to report upon qualifications of enlisted men for appointment as Post Q. M. Sergeants. Detail: Capts. Daniel W. Benham and James M. J. Sanno, 7th Inf., and 1st Lieut. Charles W. Taylor, R. Q. M., 9th Cav. (S. O. 29, March 19, D. Platte.)

A Board of Officers will convene at the San Antonio Depot, March 26, to inspect the conversion of a wagon shed into blacksmith and carpenter's shops. Detail: Major Isaac Arnold, Ord. Dept., and Capts. C. H. Noble, 16th Inf., and E. E. Wood, 8th Cav. (S. O. 38, March 23, D. Tex.)

A Board of Officers of the Corps of Engineers, to consist of Col. William P. Craighill, Lieut.-Col. William E. Merrill, and Major James C. Post, will assemble at Charlestown, W. Va., to consider the plans and location of the proposed bridge across the Great Kanawha River (S. O. 49, March 28, C. E.)

DEPARTMENT NEWS.

Dept. of the Platte—Brig. Gen. George Crook.

An Omaha Rifle Club of eighteen well known citizens of Omaha has been organized—Judge Leake, President, with Col. Guy V. Henry as Captain. Their range will be at Bellevue, and it will now be in order for the civilians to beat the soldiers of the 2d Infantry. The latter will have to look out for their laurels.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A Washington "special" says: "Despite the failure of Senator McMillan's amendment, providing for an appropriation of $75 000 to begin the work of enlarging the quarters at Fort Snelling, looking to making that a twelve-company post, the work seems likely to begin at an early date. The division of the fund given for repairs and enlargement of quarters will not be decided upon until April 1, when Gen. Sheridan returns, but Gen. Holabird is certain that Snelling will get $50,000.

Dept. of Texas.— Brig. Gen. D. S. Stanley.

The El Paso *Times* is jubilant over the recent visit of Major-General Terry to that city, and Fort Bliss has delightful visions of a 12 or 16 company post. "This," says the *Times*, "means an expenditure of $800 to $1,000 per day in El Paso by officers and troops. Such a condition of things would add materially to the prosperity of the city. Our citizens should make every effort and offer every possible inducement for the location of a large post at the Pass City."

A despatch from Rio Grande City says: "Corp. Boyer and another soldier were approached by four Mexicans on the Government Reservation at Fort Ringgold on the evening of March 26. One Mexican opened fire, shooting Boyer just over the heart. He fired again to make sure of his man, but missed. The other soldier hastily retreated at the first shot. Three Mexicans were arrested on suspicion, and the surviving soldier declares himself able to identify the assassins."

FORT LEAVENWORTH, KAS.

THE Kansas City *Times* says:

The Army Co-operative Fire Association opened its books for business, March 2, with a membership of thirty-three officers. It now has fifty members. A number of letters have been received commending the methods employed in the constitution and by-laws. The running expenses will be at the rate of about 30 cents per annum on each member. The books of the association are always open to the inspection of members. A thorough, inexpensive, and simple system of bookkeeping and blanks have been adopted.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

MARCH 30, 1887.

AN elementary treatise on "Determinants," by Prof. Wm. G. Peck, has been substituted as a text book in the place of the pamphlet on that subject now in use in the Department of Mathematics.

This year's March will long be memorable for its cold and stormy weather, which has seriously interfered with the customary infantry drills. Since the 15th there has been but one pleasant day. Artillery drills begin April 1, when we hope to be better treated.

The order relieving Capt. Rockwell and ordering him to his regiment caused much surprise and regret among us all. The changes this year will be more numerous than for a number of years.

The first cadet entertainment on the programme after Easter will be a hop on the evening of Saturday, April 16, which will undoubtedly be well attended.

Cadet Chadeayne, of the 2d class, was thrown from his horse one day last week and received a bad shaking up, although no bones were broken.

Passengers for West Point on the Hudson River Road, who wish to come on the late trains, should inquire in the city if the ferry boat will bring them across the river. Last week several officers were compelled to remain over night in Garrison's, for the boat did not run later than half-past five. Since then the owners have been gracious enough to run for the train leaving New York at 5 P. M.

Prof. Michie's son returned last Saturday from a 10 weeks' trip to Cuba on a sailing vessel.

Lieut. Marion B. Saffold, 13th Infantry, was a visitor to the post last Sunday.

In the letter published March 12 appeared the following:

"A paragraph in the last report of the Board of Visitors conveys the idea that Fort Putnam was built and used during the Revolution. This is an error, for the fort was not constructed until several years after the close of that struggle."

A correspondent has written that this item is somewhat misleading, except to those familiar with West Point history. The site of the present Fort Putnam was used during the Revolution, and was occupied by a redoubt called Putnam Redoubt. It was built by Col. Rufus Putnam, and not, as many believe, by Gen. Israel Putnam. Some years after the war ended the redoubt was changed to the present fort. The following extracts from orders in the possession of Col. Boynton, never published, will serve to make matters clear:

"HEADQUARTERS, WEST POINT, N. Y., April 11, 1778.

I. The redoubt on the hill, built by Colonel R. Putnam's regiment, is to be called and known by the name of *Putnam Redoubt;* the redoubt on the left *Wyllis's Redoubt;* that in rear of Wyllis's, *Webb's Battery;* the redoubt on the east side *Meigs's Battery*, and that at the entrance near the barracks *Sherburne's Redoubt.*"

The latter is now known as Trophy Point; the barracks mentioned refers to the Long Barracks, or Bomb Barracks, which was burned Dec. 26, 1825.

"HEADQUARTERS, FORT ARNOLD, May 4, 1778.

III. The general directs that the fort now erecting at this place be henceforth called and known by the name of *Fort Arnold.*"

"HEADQUARTERS, WEST POINT, N. Y., Oct. 29, 1780.

I. Whenever there is occasion to make mention of the fort at West Point, either in writing or verbal reports, or in conversation, it is to be expressed by the name of *Fort Clinton*, and never by the name of *Arnold*, the traitor."

In the Coast Survey map attached to the report of the Board of Visitors are two errors. Immediately in rear of Mr. Kinsley's house the map notes "Fort Arnold," as the above orders prove. Fort Arnold and Fort Clinton are the same, while on the map they are about one mile apart. No mention is made of "Meigs's Battery" on the map. It should be on the site given to Fort Arnold.

The following candidates for admission to West Point were announced this week:

William Tutherly, Claremont, N. H.
Wells W. Wood, Independence, Iowa.
George H. McManus, (Alt.) Hudson, Iowa.
Thos. Whittaker Rosborough, Texarkana, Texas.
Charles James Eubank, Carmi, Ill.
Felix Albert Kelso, Magnolia, Ark.
Chas. Coleman, (Alt.) Bedford, Ky.

(Correspondence of the Army and Navy Journal.)

DEPARTMENT OF THE PLATTE.

IT was a field day for the troops at Fort Omaha, March 25, when they had a drill and review in the presence of Miss Kate Field.

Mrs. Gen. Crook is entertaining Miss Kate Field, Capt. and Mrs. Chas. King. The captain will have in the May "Lippincott," a fascinating Army story called the Deserter. He must have an immense mental fountain to draw upon, to make such a story interesting.

Gen. Hatch has done an immense amount of work at Du Chesne; besides building quarters, opening a huge ditch for water way, sodding a 15-acre parade ground and planting 1,000 shade trees. On leaving that post he leaves his record of energy and enthusiasm, characteristic of him in all he undertakes. He is a fine soldier, prompt to obey all orders, and a star should be his in the near future.

All the post range officers are hard at work getting their ranges in order, and the mention of Dakota brings blood to the eye of the Platte man. Dakota may beat us but we will make her work hard to do so.

(Correspondence of the Army and Navy Journal.)

MADISON BARRACKS, N. Y.

THE once quiet life at Madison Barracks is now a thing of the past. We have been doing our best this passing winter. Hops, concerts, theatricals and dinners have been the order of the day, and our spring opens with two weddings; and, as the season advances, our hotels will fill up with visitors from New York City and Washington, who are welcomed by their numerous friends at this post. In fact, the season would not seem complete without them.

The theatricals last Friday evening were a success. Norton's serio-comic two-act drama entitled "A Husband to Order" was given at the Officers' Amateur Theatricals, with the following cast: Baron De Beaupre (a returned emigrant nobleman), Lieut. B. A. Poore; Pierre Marceau (an officer in the Imperial Army), Dr. Comegys; Anatole Latour (a young lawyer), Lieut. Abbott; Phillipeau (a wealthy farmer, cousin to Pierre Marceau), Lieut. Von Schrader; Servant, Mr. John Baker; Josephine (the Baron's niece), Miss Townsend; Elise (the Baron's ward), Mrs. Evans; Madame Phillipeau, Mrs. Von Schrader. 1st Act—1806; 2d Act—1809.

The young gentleman whose histrionics were dwarfed in the Servant's part is sojourning here with his brother, Lt. D. J. Baker, Jr., 12th Inf. Of course there was music by the 12th Inf. Orchestra, under the baton of Prof. F. Henri Greissinger, who is just now being lavishly, yet justly, praised for its performances.

That "in spring the young man's fancy lightly turns to thoughts of love" is certainly borne out by the conduct of two of the 12th's young sergeants, Edw. Healy, of Co. G, and John A. McArthur, of Co. D, who have just gone and done it. Sergt. McArthur, who is the tallest man in the regiment, and whose enlistment expires this week, was married in the Presbyterian Church on the evening of March 27, his company commander, Capt. A. B. MacGowan, and Mrs. MacGowan being there to give him a good send off.

(Correspondence of the Army and Navy Journal.)

SAN ANTONIO, TEXAS.

MARCH 20, 1887.

THE great event of the week was the reception given on Thursday evening by Captain and Mrs. Simpson in honor of Miss Lillian Lee, daughter of Col. J. G. C. Lee. My pen, usually facile, seems incompetent to give an adequate description of the occasion. All our Army people and many of the *elite* of San Antonio were present. The supper was simply immense, and I am by no means an indifferent judge. Mrs. Simpson is a splendid manager, and knows how to supervise cooking, and as a hostess is superb. Many bridal couples were present, among them Lieut. Brooks, 8th Cav., and Mrs. Brooks. Taking the occasion for all in all we shall not I am afraid look upon its like again. Capt. Ballance and Lieuts. Smith and Chandler have returned from an official trip, and we expect General Terry, Miss Terry, and Col. Lee to return through here in a few days on their way back to Chicago. Lieut. O'Connor has succeeded Lieut. Hickey as adjutant of the 8th Horse, and comes here from Fort Brown. Paymaster Bash, I note, has had bad luck since he left here for Cheyenne. My budget is small this time, but I start for the North in a few days and hope soon to give you in person in New York a collection of military gossip that will make many hundred ears tingle.

JOEY BAGSTOCK.

(Correspondence of the Army and Navy Journal.)

FORT BLISS, TEX.

MARCH 24, 1887.

WE have had two inspections, a reception and the name of our new Regimental Adjutant announced within the past ten days—doing very well for little Bliss. Gen. Terry, Miss Terry and Colonel Lee registered at the "Grand Central," El Paso, on the 18th, and came immediately to the post, in our old rickety ambulance. There was a review, by the two companies and band; and afterwards a reception at Col. and Mrs. Blunt's, whose home here is handsome in all its appointments and admirably adapted to social gatherings. I do not mean this as a *hint*. Leader Fuesel's selections for this occasion were from Mozart and Petee, and were rendered most delightfully. Col. Blunt's champagne was the best of its kind, but I noticed that General Terry preferred the "Native El Paso," while Miss Terry praised its color as well as its taste. After having visited Paso del Norte and El Paso, and stripping both places of some of their beautiful curiosities, the travellers left for Chicago, and all was "quiet" till the second inspection, by Colonel Heyl, who was the guest of headquarters.

"Bring in another inspector!"

E. J. P.

(Correspondence of the Army and Navy Journal.)

VANCOUVER BARRACKS, W. T.

MARCH 17, 1887.

THE comedy of "Our Boys" was given at Vancouver Barracks on March 16, with the following caste: Sir Geoffrey Champneys, Capt. A. H. Russell; Talbot Champneys, Mr. John Gibbon; Perkeyn Middlewich, Lieut. F. Taylor; Chas. Middlewich, Lieut. F. A. Kimball; Kempster, Mr. J. H. Lazelle; Violet Melrose, Miss Kelly; Mary Melrose, Miss Pettis; Clarissa Champneys, Mrs. C. H. Warrens; Belinda, Mrs. McCoy. It was a highly successful performance and was received with enthusiastic and continued rounds of applause by a delighted and crowded house.

X.

COURT-MARTIAL CASES.

IN dissolving a recent Court-martial at Vancouver Barracks, Gen. Gibbon says: "The department commander is gratified to be able to say that it is by far the best court whose proceedings he has been called upon to review since assuming the command of this Department. The proceedings are clearly, correctly and completely recorded, all legal requirements strictly observed, and in but one single instance has it been necessary to criticise its action. It is a pleasure to review such proceedings, which are creditable alike to the president, the judge advocate, and the whole court, and the department commander is gratified to note evidences of a growing disposition to regard Court-martial duty as the highest and most responsible duty officers can be called upon to perform in the military service." The detail was Surgeon W. E. Waters, president: Capts. McCrea, Davis, Wheelan, Tobey, Quinn, Western, Huggins, Warrens, E. K. Russell and A. H. Russell, and 1st Lieuts. Allison and Langfitt, members, and 1st Lieut. A. Todd, 1st Artillery, Judge Advocate.

In the case of a soldier tried at Fort D. A. Russell for "leaving his post, being regularly relieved," Gen. Crook says: "It appears in evidence that it is the custom at the post of Fort D. A. Russell, Wyo., for the sergeant of the guard, at first call for reveille, to relieve the sentinels on post, by signalling, and by calling 'you are relieved' to the nearest one, and he, to others more distant from the guardhouse. Under the operation of this practice, the accused left his post and came to the guardhouse. Owing to this singular lack of discipline, in the performance of guard duty, on the part of those in charge of guards, it was not to be expected that the accused would remain on post until 'regularly relieved.' In view of this fact, and upon the recommendation of all the members of the court to the clemency of the reviewing authority, the sentence is remitted," (G. C. M. O. 13, Dept. Platte, 1887.)

PROMOTION FROM THE RANKS.

To the Editor of the Army and Navy Journal:

NOW THAT several non-commissioned officers are up for promotion, it may not be out of place to discuss so much of paragraph 27, of the Regulations, as says: "To insure the selection of proper candidates for promotion from the grade of non-commissioned officer company commanders will report such as . . . seem to merit advancement and who have served not less than two years in the Army." While I am fully satisfied that the majority of appointments from the ranks of late years have been entirely satisfactory, even in the cases of some who have barely reached the limit as to service prescribed by par. 27, yet I feel constrained to say that in my opinion the limitations and, perhaps, the requirements are a little too easy. One requisite, we think, should be that the candidate shall at least have served one term of enlistment, and perhaps, although not committed to this, he should be certainly of no lower grade than sergeant. Sergeants have ample opportunity, if they choose, to acquire habits of command and the knowledge of how to deal properly with the men under them. Corporals may have this experience too, but in a much less degree. The period of two years, it seems to me, is too short for any enlisted man, be he ever so competent, to acquire *all* that is necessary to make him a thoroughly qualified commissioned officer. The inducement is so liberal that many young men of education and family have been led to undergo the ordeal of two years' service in the ranks, but it is an open question whether this is precisely what is desired or originally intended. When I hear of an officer who has risen from the ranks I have in mind a man of good habits and fair education, but above all with a thorough knowledge of the service, acquainted with the ways and necessities of the soldiers in the ranks down to the smallest minutiæ, and with a large experience in everything pertain-

ing to the interior economy of a company. Two years, it seems to me, is a short period to acquire all this.

BORAX.

THE QUESTION OF THE ARTILLERY.

To the Editor of the Army and Navy Journal:

THE ideas of your correspondent from Fort Wadsworth, in your issue of March 19, are typical alike of the condition of the artillery, and of the cause thereof.

He would have no "Chief" to disturb the lethargic omnipotence of the post commander. The "colonel" should, apothetically reposing under the soothing influence of the "*Regimental* Band," ruminate upon the "Quarterly Reports of Artillery Instruction," declare so and so to be a sergeant or a corporal, because, never having seen him, or perchance, heard of him before, he "reposes special trust and confidence in his patriotism, valor, fidelity and ability," direct the "executive officer of the post," or may be the officer of the day, to "keep the machine running," and retire, to repeat on the following day the same perfunctory routine.

He would, like Wilkins Micawber, have all artillerists wait for something to be done by somebody else, and finally approach their dissolution as innocent of an exertion to be or to do, as that estimable person, Mrs. Dombey herself.

He would perpetuate the oscitant inertness that has for the last quarter of a century driven many of our best officers both young and old to leave us, permitted our proper functions to be usurped by others, and our opinions as to the kind and amount of armament by the means of which we will be held responsible, in the day of trial, that the enemy is successfully resisted, scornfully unsolicited.

Before progress against habile supineness can be made, the artillery must have a head in the War Department, through which its condition, wants, opinions and operations can be transmitted to the supreme authority, without having been filtered for the benefit of others, of sense, substance and vitality; through which the views, wants and decisions of those in authority can be promptly sent and enforced throughout the organization; a medium the War Department can hold personally responsible, as he may hold others, that the right person is in the right place.

The legislation that would give us this should also provide us an organization capable of easy and efficient expansion; furnish a flow of promotion commensurate with the importance of the arm in the Army; inaugurate a criterion for it by examination, with dismissal for incompetency; specify what artillery duty shall be, and what voice the artillery shall have, through its officers, in modelling, adopting, manufacturing and placing the armament of the country, as well as the kind and amount of shelter necessary to encase or shield it; establish a department of artillery at West Point for teaching to cadets the rudimentary elements of theoretical and practical artillery construction and gunnery, and control through proper boards the course of instruction at Fort Monroe and field artillery schools of practice.

The want of an official representative to make known and assert the rights and needs of our arm has lately resulted in the mortifying anomaly of instituting a school of practice where we are to be commanded and taught our duties by an officer of another branch of the Service! To an ordinary intellect this would indicate that one or the other of these arms was not of sufficient importance to be retained, or else that the artillery did not contain within itself an officer capable of the command.

We submit that the artillery can never *be made* a scientific corps; it must make itself so by its own exertions. The present hydra-headed organization, the autocratic post authority so much revered by some, and promotions by seniority alone, are all antagonistic to such a development.

The creation of a corps of artillery properly organized, while it would be death to regimental and post autonomy, so far as distribution, drill and instruction go, would assimilate and give unity of direction to effort and progress and place professional and scientific knowledge within reach of all. Corresponding reputation would soon follow. If as thus organized it was still insisted upon that we should "do a commission business only," the strength of our firm would be sufficiently enhanced to enable it not only to repudiate unserviceable wares, but exclude them from the market, and thereby either bankrupt our brethren of the manufacturing bureau, (financially they are pretty unsound now) or force a production of better goods.

We would not have to be "all colonels" to do all this, and we give our word to your Wadsworth correspondent, that the "mental, moral and physical improvement of our men and ourselves" would not under such an organization necessarily suffer. *

DECISION BY THE COURT OF CLAIMS.

IN the case of Peirce Crosby v. the United States, the Court of Claims (Schofield, J.,) reviews the facts, showing that the plaintiff joined his command in the South Atlantic by the Liverpool route, 10,066 miles long, and asked mileage for that distance instead of for the 6,050 miles allowed, computing by the nearest usually travelled route. The Court say:

Steamers, in which he might have embarked, by the direct and most usually travelled route, sailed from Baltimore April 6, 18, 19 and May 3, and from New York April 11. In this case it is stated on behalf of the claimant, as a justification for taking a circuitous route, that he was not required by his orders to leave the United States until the 1st day of May, and that after the 19th day of April no shorter route was available. That is all true, but the orders authorized him to depart at any time within the month. This latitude was given him, apparently, in order that he might accommodate his departure to the sailing of steamers over the direct route and not to attend to personal affairs. He had been on waiting orders for more than fifteen months, during which time it might well have been supposed he had arranged his private business. If there had been any great necessity for remaining in the country longer than the 19th, he might have asked the Secretary to enlarge his orders for two days and taken the steamer on May 3. The Secretary, no doubt, would have granted his request, for even then he would have reached his post of duty nine days earlier than he did by the Liverpool route.

The demurrer to the plaintiff's petition is sustained.

THE Second Comptroller allowed the following Mexican War Claims this week: Josiah Simpson, Captain and Assistant Surgeon, $150,

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Aspinwall March 7. Will await the arrival of the *Mohican* at Panama.

All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Left New York, March 29, on a cruise to the West Indies.

The Prospective cruise of the *Richmond* is as follows:

Port.	*Arrive.*	*Leave.*
New York, N. Y.	———	March 28.
St. Thomas, W. I.	April 5	April 9.
Martinique, W. I.	April 13	April 17.
Curacoa, W. I.	April 20	April 25.
Matanzas, Cuba	May 5	May 9.
Key West, Fla.	May 10	May 13.
Hampton Roads, Va.	May 20	———

Ship will travel about 4,864 miles in making this cruise.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at San Domingo March 13, and at Port au Prince March 17.

Comdr. F. M. Green, in a letter dated San Domingo, March 13, reports arrival at that port from St. Thomas on the 5th inst. He says the following ports have been visited: Christiansted, Santa Cruiz; San Juan, Porto Rico, and Samana, San Domingo. At San Domingo he was informed that coming from St. Thomas the ship would be placed in quarantine for three days, the alleged reason being that the St. Thomas authorities have not made proper regulations in view of the possible arrival of ships with cholera on board. As there was no sickness at St. Thomas and none on board the *Yantic*, it was thought proper to go to sea at once, without submitting to quarantine. The *Yantic* was to have sailed March 14 for Port au Prince by way of Zacmel and Aux Cayes.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, March 16. All well. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo, Uruguay, Feb. 16.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. At Athens, Greece, Feb. 11.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Tangier March 18. Comdr. W. M. Folger was ordered to command.

Pacific Station—Captain H. L. Howison (in temporary command).

Rear Admiral L. A. Kimberley is ordered to command, and leaves per steamer of April 1.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Arrived at Acapulco March 18.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Acapulco, Mexico, Feb. 26.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Talcahuano, Chile, Feb. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. Arrived at Talcahuano, Chili, Jan. 29. Commander Richard P. Leary was ordered to command this vessel per steamer of April 1.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Reported by cable to have arrived at Callao, Peru, March 22. She was refused communication with the shore, and left for Panama.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S Newell. At Sitka, where she will winter. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. At Norfolk, Va., from which place she will finally leave for her station in Alaskan waters.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Taboquilla, in Panama Bay, March 28. After a short stay intends to sail northward.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Sailed from Batavia for Yokohama Feb. 22.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, Japan, Feb. 21.

MARION,† 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Feb. 21. Expecting then to leave for Kiobe and Nagasaki, and return to Yokohama early in March.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, China, Feb. 21. Expecting to sail for Canton shortly.

OMAHA,† 2d rate, 12 guns, Captain Thos. O. Selfridge, commanding. Sailed from Yokohama for Kiobe and Nagasaki Feb. 19. Expecting to return to Yokohama March 15.

PALOS,† 4th rate, 6 howitzers, Commander T. Nelson. At Tientsin, China, Feb. 21. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent after March 24, to Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Trinidad Feb. 21. After target practice in gulf of Paria will probably go to St. Kitts.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will probably go to St. Kitts.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Trinidad Feb. 21. After target practice in Gulf of Paria will go to St. Kitts.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Sailed from New York March 24, for Norfolk, Va.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York, undergoing slight repairs.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. At Norfolk, Va. Will be refitted for service. Her repairs will hardly be finished until the middle of May.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. At San Diego, Cal., Feb. 10. Mail address, San Diego, Cal.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about the middle of June. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about May 1. It is not known at present where she will be ordered.

Chicago—Will be finished at New York. The engines are practically completed, and but little construction work remains to be done. (Report of March 19.)

Boston—At New York. Is being fitted with ice machines, electric lights and steam separators. She will be ready for a trial trip in about 60 days. (Report of March 19.)

VARIOUS NAVAL ITEMS.

LORD GEORGE HAMILTON, First Lord of the Admiralty, announced in the House of Commons recently that new rules would be issued in all the English dockyards for the better protection of confidential information from acquisition by foreign powers.

THE Bureau of Medicine and Surgery is issuing to all ships and Naval stations anti-septic cases containing all the improved appliances for the treatment of wounds and amputating purposes. All the material used is submerged in preparations to free it from poisonous atoms.

THE Life Boat Board is now resting on its oars. It will not convene until Capt. Ramsay has completed his work in connection with the location of the new dry docks. If it is then warm enough the life boats submitted will be practically tested in the water. The board will not conclude its labors before summer sets in.

THE latest addition to Canada's fleet of cruisers for the protection of the fisheries is named the *Triumph* and registers 105 tons. She will be commanded by Capt. Lorway, late of the cruiser *Howlette*. Being in doubt as to their authority to send out armed cruisers under the existing laws, the Canadian Government has, it is understood, issued imperative orders to their cruisers not to show fight except in self-defence.

A STEAMSHIP, of more beam and tonnage than anything afloat except the *Great Eastern*, is building for the International Navigation Company, which owns the Inman and Red Star lines, by the Lands of Birkenhead, England. She will be 500 feet long, 62 feet beam, and 43 deep, and will have engines of 17,000 horse-power. She will register 8,300 tons, or about 150 more than the *City of Rome*. She is 46 feet shorter, but 10 feet wider. The object of the great beam is to get more room for the saloon.

AS A result of the inquiries of the Naval Bureau of Intelligence it appears that the facilities of the existing railroads to transport torpedo-boats are limited to the ability to transport boats of an extreme length of 110 feet, while the Erie Canal will permit the passage from the Atlantic Ocean to the lakes of torpedo-boats 100 feet in length. The bureau has collected a mass of information that will be submitted to the Board on the changes required to enable the Brooklyn Yard to construct a 6,000 ton vessel, relative to the latest discoveries in Naval construction, and in addition there will be placed before it the results of Naval Constructor Hichborn's close inquiries into the plant and appliances used in the largest European dockyards.

A BOARD of Naval Officers, composed of Naval Constructors Pook and Hoover and Assistant Naval Constructor Nixon, was organized at the Navy Department, and received its instructions to visit the large private shipyards and note all improved processes of building vessels. The Board immediately started on a tour of the yards. It will visit the Harlan and Hollingsworth works and Pusey and Jones shops at Wilmington; the Delaware Shipbuilding Company, at Chester; Cramp's works and Bement and Sons' tool works, at Philadelphia, and the Baldwin Locomotive Works. On its return the Board will prepare a report embodying recommendations regarding the plant required at the Brooklyn Navy-yard to build a large armored vessel]

A DETAILED hydrographic survey of a portion of Baltimore harbor will be commenced April 1 by Assts. W. I. Vinal and E. L. Tauey, of the Coast Survey.

SECRETARY WHITNEY has directed the Surgeon-General to prepare plans for the new Naval hospital building on Widow's Island, for which an appropriation of $50,000 was made during the last session of Congress.

THE commission appointed last Friday to select sites for the new Naval dry docks, handed in its report on Thursday. The board and the secretary selected, without hesitation, the New York and Norfolk Navy-yards.

THE board of medical officers for the examination of applicants for appointment as Assistant Surgeons in the Navy, are in session at Philadelphia. There are four physicians undergoing examination for admission to the Medical Corps.

AS THE Secretary of the Navy has not yet approved the copy of the Navy Register, revised by the board consisting of Capt. Walker, Col. Remey and Chief Clerk Hogg, it is thought very probable that there will be no further edition until the time arrives for the regular semi-annual register, especially as the appropriation for printing is running low.

ACCIDENTS to French ships of war have been neither few nor far between of late. The *Fulminant* was damaged at Brest, while two torpedo-boats were seriously injured at Figueira, in Spain, one being irretrievably lost. The cruiser *Iphigenie* at Toulon, a training-ship for midshipmen, which had but lately returned from the Antilles, took fire and burned until she sunk.

THE Bureau of Naval Intelligence has about completed an extensive compilation of data bearing upon the transportation facilities of the United States for large ordnance, torpedo-boats and other warlike material. This information is to be held as confidential, and for use of the Department alone. Now that this work has been brought up to the present time, the future additions to this important data can be made with much greater care and exactness.

AS A result of the recent Court of Inquiry at the Portsmouth (N. H.) Navy-yard with reference to the loss of certain clothing from the Marine Barracks, a Court-martial has been ordered for the trial of Sergt. E. H. Belden, of the Marine Corps, on charges of theft. The Court will assemble at Portsmouth Wednesday, and will be composed of Capt. Chas. C. Carpenter, Comdr. Frank Wildes, Lieut. Comdrs. G. E. Wingate and E. T. Strong, Lieut. F. H. Delano, Capt. Geo. C. Reid and 2d Lieut. H. K. White, of the Marine Corps, with Lieut. Adolph Marix as Judge-Advocate.

A NAVAL review is to be a great feature of Queen Victoria's approaching jubilee. The Channel reserve and training squadrons, reinforced by all the available home vessels, besides 80 torpedo and 20 gun boats, will form a most imposing fleet at Spithead, the rendezvous, where the royal inspection will take place, and subsequently the Queen will accompany them down the Channel. Vessels will be detached from the main body for sham fights and manœuvres so arranged that the fleet will touch at ports in England, Scotland and Ireland in order to enable residents in all parts of Great Britain to witness the naval demonstration.

Le Genie Civil, of Jan. 15, describes a new disappearing turret to be shortly tried at Chalons. The writer, Claude Manceau, concludes that the Bucharest experiments showed that no turret could resist constant artillery fire for a very long period, consequently, that it is most desirable to put it under cover, if possible, whenever it is not actually firing. This is what has been shown in the design. The cylindrical form has been adopted: the roof is made in one piece. There is little to fear from vertical fire, and the edge of the plate is fitted to the vertical wall which, it is thought, favors the throwing off of the projectiles and dispenses with vertical armor-bolts.

LIEUTENANT-COMMANDER R. B. BRADFORD, Electric Light Inspector for the Navy, is now busily engaged on the plant for the *Chicago*. It is being placed on board the vessel, and will embrace the many improvements suggested by the use of electricity for lighting purposes on board sea-going vessels. The *Trenton*, now undergoing repairs at Norfolk, is to be provided with new wires. Her electric plant, while it proved the adaptability of the light for use on shipboard, was found to be deficient in minor details. The faults will be remedied before she goes to sea again. The plans and specifications for the electric plants for the monitors are now being prepared and proposals to furnish them will soon be advertised for.

A DESPATCH received at the Navy Department March 26 from Naval Constructor Steele at Chester, Pa., stated that the *Chicago*, the largest of the Roach cruisers, will be ready to go to the New York Navy-yard about April 5. Chief Constructor Wilson and Chief Engr. Loring will go to Chester next Monday to inspect the condition of the vessel. Three or four months will be required after the *Chicago* reaches the New York Navy-yard to fit her out with masts, rigging, furniture, etc., and when that is done she will be sent out on a trial trip. A later despatch reports that there will be a delay of six weeks at Chester, as the Department has concluded to finish all of the work on machinery and extras, and make alterations in the furnaces, boilers and hoisting gear before she leaves.

NAVY GAZETTE.

Ordered.

MARCH 25.—Lieutenant Duncan Kennedy, to duty at the Naval War College.

Chief Engineer Chas. J. MacConnell, to the receiving ship Vermont.

MARCH 26.—Lieutenant John C. Fremont, Jr., to the Hydrographic Office.

Ensign Maurice L. Read, to duty on the Coast Survey.

Ensign Harry M. Dombaugh, to the Fortune.

Surgeon N. McP. Ferebee, to the receiving ship Franklin.

MARCH 28.—Captain Rush R. Wallace, to command the Washington Navy-yard.

MARCH 29.—Captain Wm. A. Kirkland, to command the receiving Vermont April 1.

MARCH 31.—Passed Assistant Surgeon H. B. Fitts, to the Vermont.

Detached.

MARCH 25.—Chief Engineer W. L. Nicoll, from the Vermont and granted sick leave.

MARCH 26.—Lieutenant O. E. Lasber, from the Navy-yard, Norfolk, Va., and ordered to the Fortune.

Surgeon Paul Fitzsimons, from the Franklin and ordered to the receiving ship Minnesota.

Surgeon H. N. Beaumont, from the Minnesota and granted sick leave.

MARCH 31.—Passed Assistant Surgeon A. C. Heffenger, from the Atlanta to special duty on construction of Widows' Island hospital.

Assistant Surgeon E. C. Tracy, from Vermont to Atlanta.

Paymaster J. R. Carmody, from Bureau of Provisions and Clothing and granted six months' leave.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending March 30, 1887:

Bernard Johnson, ordinary seaman, attached to U. S. R. S. Independence, found drowned March 18, 1887, at Vallejo, Cal.

Otto Nelson, painter, attached to U. S. S. Adams, died March 14, 1887, at Acapulco, Mexico.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., March 30, 1887.

A VERY pleasant reception was given at Comdr. Sampson's on Saturday evening. The usual stag hop was held on the same evening. The next of the entertainments given by the Private Theatricals Club will be held during the second week of April, probably the 15th.

A change was made in the Academy routine on Monday. An order from the Superintendent changed the evening roll call and supper until 6.30, study call a half hour later. This was the programme until November, when it was changed for the winter.

The first of the spring gunnery cruises was made on Saturday last under charge of Lieut. Ingersoll, and Ensigns Glennon, Haesler and Eyre. None of the shots struck the target, although very good shots were made by Cadets Russell, Washington, and Vansant. These cruises will alternate with seamanship cruises during the rest of the spring. The regular drill this week will be the completion of the work of fitting and rigging the *Wyoming*, but thus far bad weather has intertered with the work.

Next week the *Standish* will get under way daily and a portion of the first class will receive practice instruction in gunnery. The other drills will be by divisions, among them will be a drill in Steam Tactics under the charge of Lieut. Leutze. In case the weather is unsuitable, alternative drills have been provided. The examinations for March are concluded and a large number are unsatisfactory in one or more studies; only one series of examinations now remain before the final examinations for the year.

The officers forming the Court-martial trying the case of Cadet Potter for the hazing of Cadet Edie, have finished their examinations and have submitted their decision. The papers have been sent to the Secretary of the Navy for his approval. Mr. Decker, of Chicago, was visiting his son, Cadet Lieut. Decker, last week.

Mrs. Edie and Miss Edie, of Washington, spent Saturday and Sunday with Comdr. and Mrs. Sampson.

—

The following candidates for appointment to the Naval Academy have been recently granted permission to attend the examination in May: Robt. Robinson and W. L. Lancaster, Alabama; Samuel F. Clayton, Georgia; A. Althouse and Edward Frickle, Illinois; Manuel H. Gebour, Indiana; Wm. W. Beck, Maryland; John K. Robison, Michigan; Peter B. McCord, Missouri; Wm. L. Murray, New Nork; H. D. Courtarphen and Thos. L. Jenkins, North Carolina; D. Williams and Chas. Allen, Ohio; R. M. Turner, Oregon; Robt. M. Keage and W. N. M. Keloy, Pennsylvania; C. K. Murphy and Claude P. Lewis, Tennessee; Vandyke Todd and W. J. Reese, Jr., Texas.

REVENUE MARINE.

THE revenue steamer *Grant*, Capt. Davis commanding, had been on a cruise to the Sound and had stopped off Sandy Hook Life Saving Station to land a surf boat when the Captain was informed by the keeper that a telegram had been received of the wreck of the steamer *Scotia* some miles East of Fire Island L. H. Capt. Davis, with his usual promptitude, at once proceeded to the scene of the disaster, arriving there on the night of March 25, at 10.20 P. M., and anchored off the wreck and waited for daylight, when with the assistance of the crews of Blue Point and Lone Hill Life Saving Stations and a boat from the steamer *Merritt* and the launch of the *Grant*, in charge of Lieut. W. D. Roath, at once went to work rescuing the almost helpless passengers. Great skill and caution had to be used in handling the boats full of people, as a long swell from the sound sent a heavy roller in on the vessel.

The commanding officer gave directions to have these poor people cared for, and bountifully supplied their wants, furnishing them with hot coffee and biscuit and a good dinner later in the day. They were almost famished, having had nothing to eat for the past couple of days but what they could pick up. At 11.15 the *Grant* having secured all that was left, steamed for New York, stopping at quarantine, and at 6.30 landing them safely at Castle Garden. Captain Davis and the officers and crew of the *Grant* are worthy of all commendation for the prompt, efficient manner in which they performed their part of the duty allotted them.

2d Asst. Engr. F. W. Waterman has been assigned to the steamer *Crawford*, at Key West. 2d Asst. Engr. C. F. Dyse has been ordered to assume charge of the steamer-launch *Discovery*, at Savannah. 2d Lieut. W. A. Failing has been placed in charge of the launch *Hawley*, at Mobile.

THE OCEAN YACHT RACE.

THE ocean yacht race between the American schooners *Dauntless* and *Coronet*, from Owl's Head, New York, to Roche's Point, Queenstown Harbor, resulted in a victory for the *Coronet*. The yachts left New York on March 12 and soon lost sight of each other, their courses varying, and unusually stormy weather was experienced by both. The *Coronet* arrived at Roche's Point March 27, her actual time being 14 days 19 hours 3 minutes 14 seconds. The distance sailed was 2,934 nautical miles. Her longest day's run was 291.5 miles, and her shortest 39 miles. The *Dauntless* arrived at the finish on March 28, her time being 16 days 1 hour 43 minutes 13 seconds, nearly a day behind. The distance sailed by the *Dauntless* was 3,022 nautical miles. In spite of her defeat the *Dauntless* made one of the most memorable runs on record. During the twenty-four hours ending at noon on March 25, 328 miles were accomplished, which is claimed to be the fastest run ever made by a sailing yacht on the Atlantic. This report of highest speed is questioned. The speediest run of the *Henrietta* during the ocean race of 1866 was 280 miles, that of the *Fleetwing* 270, and that of the *Vesta* 277. In the contest of 1870, between the *Dauntless* and the *Cambria*, the greatest distance sailed in one day was 225 miles, and that was made by the *Dauntless*.

Both yachts found the use of oil of great service in calming the waves. The race was the result of a challenge issued by the owner of the *Coronet*, and was open to all keel schooners of American build, without any allowance. Each yacht put up a stake of $10,000. The *Coronet* is a new yacht, being built in 1885, and can be said to possess all the improvements of naval architecture. The *Dauntless* was built some 20 years ago.

The race is a good example of smart seamanship, and shows the high class of construction our yacht builders are capable of.

RULINGS CONCERNING NAVY PAY.

IN THE JOURNAL of Feb. 5, we gave a resumé of the points involved in the recent decisions of the U. S. Supreme Court in the cases of Symonds, Philbrick and Rockwell, but there was then some uncertainty as to the probable effect of the decisions. The accounting officers of the Treasury have since taken up claims for settlement under the decisions and have reached conclusions about as follows:

Under the Symonds case, in which the right of an officer to sea duty pay while attached to a training-ship is the main question involved, claims have been allowed to all officers serving on the *New Hampshire* and *Minnesota* from Aug. 1, 1882, to Dec. 31, 1886. In regard to future payments to officers serving on these vessels the Comptroller has addressed the following letter to Paymr. Hobbs:

"In the Navy Register of 1887 the *New Hampshire* is entered as a receiving-ship and the *Minnesota* as a receiving-ship for boys. The right of an officer to sea pay while serving on a receiving-ship is now before the courts for a judicial determination, and it would seem to be the safer course for the paymaster to pay the officers as on shore duty until the question as to their right has been finally decided by the courts."

The vessels referred to were, up to Dec. 31, 1886, classified as training-ships; since that date they have been put in the Navy Register as receiving-ships. As the decision in the Symonds case only related to officers serving on training-ships, the Comptroller has not been disposed to stretch the point so as to take in receiving-ships, although it is regarded as almost a certainty that the courts will decide that officers attached to either class of vessels are entitled to sea duty pay.

In the Philbrick case two questions are involved, viz.: 1. The legality of an order of Secretary Welles, issued in 1866, granting officers 33⅓ per cent. (or in some cases 20 per cent.) additional pay as commutation for fuel, lights and quarters, and 2. Whether, if the legality of such an order was originally doubtful, it had not been too long acquiesced in by the accounting officers to permit them now to deduct the amounts received under it in settling claims of officers arising out of recent legislation.

The court held that the order was originally legal and that the deductions made from officers's accounts were, therefore, illegal. Under this decision Comptroller Maynard has allowed the claims of all officers who suffered a reduction in their accounts since he assumed charge of the office, but refused to allow the amounts deducted by Comptroller Upton. Officers who suffered at the hands of Upton have, therefore, been compelled to go to the Court of Claims to recover their dues. A number of cases have recently been filed there.

The Comptroller has given the most liberal construction to the decision in the Rockwell longevity pay case, having already settled a number of claims under it which, it was feared, would have to take their chances separately in the courts. The claims of Paymrs. Woodhull and Wright, Surg. Van Reypen and Lieut. Farenholt were allowed under this decision a few days ago.

WHEN it was reported last winter that two Army ladies had presented themselves uninvited at a musicale given by Miss West, the daughter of the English Minister at Washington, we questioned the accuracy of the statement. We see it now stated that on being asked by Mrs. Sheridan the names of the ladies, Miss West declined to reveal them. Finally Mrs. Sheridan addressed a letter to Miss West, begging the ladies' names, and saying that as the wife of the General of the Army, and the social head of Army society in Washington, she thought she was entitled to the information. Miss West reluctantly gave the names, and Mrs. Sheridan took the Army Register and hunted the officers' roster to identify the offenders. Her search was in vain, and she sent the Register to Miss West, with a note vindicating the wives of Army officers from any such charges of impertinence and ill-breeding as the story told by the mistress of the legation implied. But what is to be thought of the foreign courtesy which permitted the circulation of such a slander—the refutation of which was at hand in every Army Register?

A FRESH attempt was made upon the Czar's life at the Gatschina Palace March 29. A wholesale merchant of St. Petersburg, reputed to be worth millions, has been shot with a revolver and killed by a man to whom he refused to give 80,000 roubles toward the Nihilist fund. The murderer has been arrested. Other Russian capitalists are fearful of suffering a similar fate. They are receiving letters threatening them with immediate death if they do not comply with demands to furnish money for "the common cause."

LIEUTENANT A. G. WINTERHALTER, U. S. Navy, sailed on Thursday from New York in the steamer *Lessing* for Paris, where he goes as a delegate from the Naval Observatory to the International Astronomical Convention, which meets in Paris April 16.

REAR ADMIRAL L. A. KIMBERLY, Lieut.-Comdr. H. E. Nichols and Lieut. G. A. Merriam, U. S. N., were guests at the Astor House on Thursday.

BLACK STARR & FROST

SUCCESSORS TO

BALL, BLACK & CO.

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

BLACK, STARR & FROST have models of the West Point Class Rings for many years, and can supply duplicates (in case of loss) at short notice.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, APRIL 2, 1887.

Office, No. 240 Broadway New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: ARMYNAVY. 240 Broadway, New York.

SOME PRACTICAL SUGGESTIONS.

WE have heretofore referred to the general excellence of the prize essay by Surgeon A. A. WOODHULL, U. S. A., on "The Enlisted Soldier." There are suggestions in it which deserve more than a passing attention, which are practical, and in the direction of reform, and which will commend themselves to all who desire to see the Army brought up to the highest standard of efficiency. Referring especially to these, concerning which more or less has been said in the ARMY AND NAVY JOURNAL during the past few years, we find that under the head of "Methods of Enlistment," Surgeon WOODHULL says:

> By establishing the rendezvous in respectable parts of the town, confining them, however, to the sections inhabited by the working classes, and directing attention to them by posted advertisements in all parts of the city, not only a better class of recruits would be acquired, but when enlisted they would be removed from the demoralizing surroundings to which they now are exposed.

This is sensible and entirely feasible. The treatment of recruits receives much attention and none will dispute the statement that sergeants at depots "should be well-instructed, intelligent, and patient men, with pride in their profession and doing their work with firmness, tact, and kindness; should have served at least one enlistment and be discharged with an excellent character, and certain special inducements should be held out to them for the performance of duty which, while it involves no hardships in the physical sense, lacks very many of the attractions that ordinary service yields." Among these, in the opinion of an experienced and intelligent non-commissioned officer consulted by the doctor, would be separate messing and a distinct club room or place of resort for non-commissioned officers. An amusement hall for every depot, and for every large and isolated post, rationally constructed and adequately equipped, is recommended. Upon the subject of food and its preparation the essayist thinks soldiers "should be made to understand that cooking is a part of their education, and that they will be given credit for it in the estimate of efficiency." He does not, however, think that the establishment of garrison messes, a subject which has of late been given careful attention and trial at David's Island, Columbus Barracks, and West Point, will prove, ultimately, to be the public interest. "Wholesome food," he says, "well cooked, with sufficient variety to be attractive, is all that is necessary. We do not want an army of epicures any more than an army of scholars." The fact that such a system would cause the severance of the company officers from the care of the men as to their food and a gradual loss of their sense of responsibility in that important particular, seems to be the principal objection. Concerning the "treatment of the soldier," some pointed suggestions are made. We concur with the statement that "at all times there is a gulf between the officer and the enlisted man which can never be crossed without peril to one or the other." "The medium line of careful observance of set forms is the only safe one. But such duties are reciprocal. Courtesy must be shown by the officer and the official politeness of the soldier be properly acknowledged. Without being infirm the officer should be considerate, the more as the soldier may be humiliated by accident but without redress." This needs no comment, for the proposition is self-evident. We are glad to note that the author speaks in plain terms of the duties of post commanders, upon which we have, during the past few months, laid much stress. He says: "Garrison life should be the serious, constant, and relentless pursuit of military affairs, of preparation for the field. For both officers and men, employment is the destroyer of *ennui*, and *ennui* is the bane of military life. Busy men have no time to quarrel, to grumble or for scandal, and busy men are sober men."

Coming to the "Pay of the Army," a subject to which the ARMY AND NAVY JOURNAL has of late devoted some attention, Dr. WOODHULL gives it as his opinion that "the mode of payment is atrocious. It is," says he, "convenient for the Government but it is ruinous to discipline, to habits of economy, and to the temper of the men." He then suggests a system concerning, which, however, it is not our purpose to speak at present. Right here, however, we desire to quote from a letter received by us a few days ago from an officer of the Army of rank and experience. This correspondent says: "It is quite too evident that too many line officers have no large-hearted, manly sympathy with their men as men. . . . The best feeling exists among troops who are most in active service and in the field where opportunity is offered to see what fine, manly qualities, courage, intelligence, patience under hardship and deprivation are exhibited by men, some of whom have many vices." "Service in garrisons," he says, "tends to give to line officers the point of view of a bureau man or clerk—the men are so many figures on paper, the only individuals being those who commit breaches of discipline."

In conclusion he suggests as a part remedy for this evil and many others, the establishment of large summer camps of manœuvre and instruction. Returning to Dr. WOODHULL'S essay we note other valuable suggestions to which it is impracticable to refer to at present. Last, but not least, he touches upon the retired act and the Soldiers' Home. "To many," says he, "the Home with its indolent ease, is a purgatory. The retired list after thirty years is a well merited boon, but the limit should be lowered to twenty-five years, certainly for service below that of the non-commissioned staff. Not one man in ten thousand can carry a musket more than twenty-five years. And a corps of watchmen in garrison and over the public civil buildings might well be opened to the retired enlisted soldier."

IT was General GRANT'S theory that the best way to cure the evil of obnoxious laws was to enforce them. The Treasury clerks who have harassed the Army with their interpretations of the restrictions upon public expenditures appear to have followed out General GRANT'S theory and the cure has been wrought at last. Not long since a wharf under the charge of a prominent officer of the Engineer Corps took fire. A tug was called upon to extinguish the flames with its steam pump. Its bill for this service was forwarded with the proper vouchers and a full explanation of the circumstances. It

passed along all right until it reached one of those sage gentlemen who imagine that all wisdom and all experience are included within the folds of the Treasury ledger. There it was halted, and a stoppage entered because the service had not been advertised for in advance! Fortunately the Comptroller to whose department the expenditure belonged, was a gentleman capable of appreciating the humor of this decision and it was overruled. Not only this, but what more particularly concerns our readers—the sensible rule was established for future guidance that the officer directly responsible for the expenditure, and not the Treasury clerk who revises it, should thereafter be made the judge of the question whether the exigency of the case is such as to justify an expenditure without advertising. This is as it should be.

THE QUESTION OF ARMOR.

Le Genie Civil, of January 15, contained a description of a new disappearing turret shortly to be tried at Chalons, in connection with which it is well to note the significant fact that it is to be covered with compound armor and not with the steel which its interested or mistaken advocates would have us believe is the accepted material for French defensive construction. The London *Engineer*, which reproduces the description of the French periodical, says:

As to metal, it is thought that the experiments of Cotroceni did not conclusively establish the relative resisting powers of steel faced and wrought iron shields. On the whole, however, it has been decided to adopt steel faced plates in the design before us—the machinery for effecting the union of the face and foundation plates being of such power that a high degree of perfection in the weld may be expected.

Incidentally, the adoption of steel faced armor for the new turret is worthy of remark. We have lately been maintaining that this class of armor could not be said to have been beaten by steel, and that if through fracture is to be avoided, steel faced iron armor or plates compounded of hard and soft steel will, in the long run, be found the best. Here is a case in point: the plates of a turret of this kind constitute the structure itself, and through fracture would be ruinous. It appears that under these conditions the French authorities, who surely have the greatest experience with steel, do not employ even the softest steel, nor do they, as we might suppose, continue to use wrought iron—although the Schumann turret iron armor really behaved very well at Bucharest; but they go out of their way to adopt steel faced plates. This, of course, is only experimental, but still the selection for trial shows their present opinion. We do not argue that the French are disappointed in their steel. It has performed great things. No wrought iron—we are not speaking of compound plates—could have behaved as well as the steel plate at Spezia in 1884. But we maintain that any adoption of steel must be accompanied by the acceptance of through fracture and reliance on numerous bolts to hold the shield together.

This is unquestionably a perfectly fair statement of the case and fully sustains the position we have all along maintained, which is that the contest as it stands is in favor of compound and not of steel armor. As the *Engineer* shows in an earlier number (Nov. 26, 1886, p. 425) the conditions of most competitive trials have been such as to favor steel, as occasionally a steel plate may be found which displays exceptional qualities. "Steel accommodates itself to the picking out of champion plates better than to the regular supply of armor, and this would favor its reputation rather than its actual value on service." "The advocates of steel faced armor claim the victory in every competition with plates of 12 in. thick and under; that is, plates of such dimensions as have been thoroughly mastered in manufacture, and fall within the scope of certainty of supply."

But, says our contemporary, "the imperfect rolling and other causes of bad union of the layers of the steel faced iron plates are, we believe, simpler matters to deal with than the strange capriciousness of steel." The uncertainty of this material is shown by the record of French trials of steel plates which appeared in the JOURNAL of March 12. This record is made up from French official reports and it is no answer to it to say that it is furnished to us by interested parties. The initials signed to the communication we published was our proclamation of that fact. We have found in the course of a long experience that information concerning warlike material of any sort is most likely to reach us promptly through interested sources. In what way this diminishes the significance of facts we fail to see. Those who assert that the trials of Creusot plates described in the letter appearing in the JOURNAL of March 12, were of ancient date, are presuming too much upon the ignorance of their readers. By turning to pages 653 and 654 of our issue of that date, it will be seen that they cover the French contracts down to a year ago—that is, the plates furnished under the contracts of July 10, 1880; Dec. 8, 1884; July 6, 1885; March 1 and March 8, 1886. If there are any later or any other facts available, we should be glad to get them and to publish them, come from what source they may. The list of French vessels bearing steel and compound armor, which we reprinted Feb. 26 (p. 616), was taken from the *Engineer* and its correctness is not disputed, so far as we are aware. It included the following in the order of their launching: 1880, *Requin*, *L'Indomptable*, *Terrible*, *Caiman*, *Duguesclin*, *Vauban;* 1882, *Furieux*, *Formidable*, *Admiral Baudin;* 1883, *Achéron*, *Cocyte*, *Phlégéthon*, *Styx;* 1884, *Fusee*, *Grenade*, *Flamme*, *Mitraille*, *Hoche;* 1885, *Marceau*, *Magenta*, *Neptune*.

It will be observed that the armor ordered for the later vessels (1885,) shows the same relative proportion of more than two-thirds compound and less than one-third steel. Our statement of the compound and steel armor taken by France was obtained from *Engineering*, one of the earnest champions of steel armor. Its issue of Dec. 31 contained this statement of the armor furnished by French manufacturers:

Makers.....	1880	1882.		1883	1884.		1885.		1886.		Totals.

* Schneider and Co.; † Morrel Bros.; ‡ St. Chamond; ‖ Challeton-Commentery.

Engineering lays stress upon the fact that no compound armor has been exported from France, while SCHNEIDER and Co., have sent abroad nearly 9,000 tons, but it omits to explain that compound armor is controlled by English patents, and that foreign orders go to England, which sent abroad to Germany and Russia, 11,000 tons against the 9,000 tons of steel armor quoted above. The record thus far, so far as we have been able to obtain it, is as follows:

England.....Compound	45,000 tons.		
France..... "	14,957 "	Steel 10,353 tons.	
Other countries... "	11,000 "	" 8,956 "	
Grand total...Compound	70,957 tons.	Steel 19,309 tons.	

We give the figures of steel armor furnished to France as we find them in the *Engineer*, though it gives no authority for them, and they are 2,500 tons in excess of those shown by the specific statement of French vessels to which armor has been applied, which appeared in the *Engineer*.

No paper in this country has begun to set forth so fully as has the ARMY AND NAVY JOURNAL the facts showing the virtues of steel armor plates. At the time of the trial at Spezia, in 1882, we devoted several columns to a description of the results which were so favorable to Baron SCHNEIDER, giving thirty-seven illustrations of the targets made. From time to time since then, as our space would allow, we have reported the results of other trials, and if we have given more space of late to the subject of compound armor it has been because it seemed to us that the facts concerning it were in danger of being overlooked. There is a fair contest for supremacy between the two styles of armor and our purpose is to report it as fully as we can without bias or prejudice.

We are not ignorant of the fact that the advocates of steel armor insist that the objections to it will be overcome, and that with improved manufacture it will establish itself as the armor of the future. Nor have we undertaken to show the contrary, our purpose being simply to set forth the case as it stands up to date, leaving future trials to convey their own lesson. Now that Messrs. SCHNEIDER and Co. have established a branch of their works in Pennsylvania and undertake a contract with our Government, through the Bethlehem Iron Works, we shall have an opportunity to put their product to the proof. We await also with interest the forthcoming trial of compound plates made with Chrome steel or Wolfram steel to see how far they will justify the confident prediction of "L. W," that they "will destroy the illusions of the last defenders of the forged steel plates; and the powers which, like Italy, have had the imprudence of armoring their ships with soft steel will some day regret bitterly their hasty decision, so little justified."

IT was our intention to publish in connection with other letters which have appeared here, one received some time ago from an officer of the Ordnance Department of the Army with permission to make such use of it as we thought proper. This correspondent says:

I have been on the books of the ARMY AND NAVY JOURNAL as a subscriber almost from its birth, and in all this time have never known it to be otherwise than fair in its treatment of important questions under discussion. The contrast in this respect has often, indeed, been conspicuous between the JOURNAL and its contemporaries in England, to the great disadvantage of the latter, which are frequently personal and even abusive and libellous in their criticisms of "men and measures." It will, therefore, strike most of your readers as a little remarkable that a paper as conservative and independent as the JOURNAL should be found fault with because of its fair *resumé* of the recent discussion at Annapolis of Mr. Dorsey's paper. No doubt it would have suited your critics better had you emulated the amiable qualities of another paper, which, having no opinion of its own to offer, submitted to the dictation—from some partisan—of the flippant and undignified article which appeared in its columns upon this subject.

I have observed that the JOURNAL has persistently urged for large appropriations for steel ordnance, knowing that it would be for "specification steel," but it has urged alone for a fair hearing and a fair trial, if need be, of other than the prevailing fashion of built up guns of tempered steel, and for this it must be hauled over the coals by the intolerants. In an age like this to commit the Government irrevocably to one system, to shut the door against investigation, and to forbid even the *trial* of anything different, is a policy which no paper with brains at its head, and the true interests of the country for its policy, could advocate.

The discussion of Mr. Dorsey's paper has resulted in the issue of a very valuable number of the "proceedings." And I am free to admit that, while, as you say, the preponderance of *numbers* was on Mr. Dorsey's side, yet in my opinion, the advocates of the present practice—with one exception—presented the most finished and the best prepared arguments—arguments which would carry most weight, perhaps, before a popular audience. The exception noted was coarse and discourteous in tone, in places illogical and widely irrelevant, and is a fair example of that mixture of conceit and prejudice alluded to by one of your naval correspondents. Is it not this spirit of intolerance which has gone far in checking true progress in the mechanical branches of the twin professions, and which is largely responsible for the failure this year of appropriation for fortification guns?

Disinterested readers cannot fail to note the fact that the actual position assumed here with reference to the subjects spoken of by our correspondent has been that of an independent and unbiased critic of methods and results which if accepted without question might in the end lead to disappointment, if not disaster. We shall be as prompt as any to recognize accomplishment, but do not propose to give credit in advance, or to assume that there is a divinity which doth hedge an ordnance officer, forbidding inquiry as to his methods and action. There is no occasion for concealment or mystery in matters which vitally concern the entire Service, and matters of gun construction ought not to be and—so far as we can prevent it shall not be—made the exclusive property of a select class of officers. It is as much for the interest of ordnance officers as for the good of the Service in general that what they do, or are proposing to do, should be made the subject of inquiry and comment. The problems they have to consider are too important to permit the personal equation to obtrude itself. Questions of armament should be submitted as little as possible to men who have a bias of any sort which forbids their acting with open-mindedness as judges; and the trial should be in open court, where all interested can form judgment as to the fairness of the proceedings. Our criticism has been one of methods and not of men. We have found no occasion to reflect in the slightest particular upon the personal or official integrity of a single individual under the control of the Ordnance Bureaus, and it would be an unjust reflection upon our ordnance officers to assume that they object to criticism or prefer to listen to those whose ambition is to sit on the front steps of the departments that they may have the privilege of sneezing when those inside take snuff. An officer may, and often does, carry out, honestly, erroneous ideas, mistaken methods, the final outcome being misfortune and disaster, in spite of the honesty and efficiency of the supervising official and not by reason thereof. One thing we have objected to is the

assumption by officers not trained in ordnance construction of a full and thorough knowledge of the intricate and scientific profession of gun-making after a few weeks or months of superficial study, and in this the entire Naval Service will sympathize with us—with the possible exception of the few who may wish to confess judgment upon our strictures by complaining that they are personal.

THE outlook for the promotion of meritorious non-commissioned officers, who are now facing departmental boards, is decidedly gloomy; and for the civilian, who aspires to serve his country in the uniform of an officer, there is no outlook at all, and will not be for the next two or three years unless the laws are changed. There are only 28 vacant 2d lieutenancies at present existing—15 infantry, 5 artillery and 8 cavalry; 4 more are assured, 3 through retirement on account of disability to fill vacancies now existing, and 1 by the retirement of General WILLCOX. The class to graduate in June consists of 65 members. Thirty-three vacancies, to occur through other ways than regular retirements, will thus be necessary to accommodate the entire class, a number which no one expects to see, and the probabilities are that 15 or 20 at least of the graduates will have to be commissioned as additional 2d lieutenants. The non-commissioned officers, who may successfully pass the examinations they are now undergoing will be eligible for appointment until December, 1888, unless the age limit is reached before that time, but with the large surplus of graduates this year, and the large class to be provided for in 1888, it is difficult to see where the vacancies for them are to come from. The papers from the San Francisco Board for the examination of candidates came in the early part or this week. Of the three, who were before the board, only one —1st Sergeant CHARLES E. TAYMAN, 1st Infantry— was recommended for appointment. Returns from other boards are expected within the next few weeks.

GENERAL SHERIDAN and party returned to Washington on Thursday and report that the new buildings at Fort Riley are to be located south and east of the garrison. The decision as to Denver will be announced as soon as the title to the property selected is secured.

A VERY interesting biography of "John Cleves Symmes, the Theorist," appears in the March and April numbers of the "Southern Bivouac." It is by a member of his family, Elmore Symmes. Symmes it appears married for a second wife a French lady, one of five sisters, Pelletier, four of whom married in the Army. Archange married Major John Whipple, a captain in the 1st Infantry, in 1805; Felice married Peter Tallman, of the regiment of artillery; Marrianne married first Captain Benj. Lockwood, of the 1st Infantry, and afterwards Captain Symmes, 1st Infantry; Marguerite married Dr. Davis, surgeon, U. S. A. Her son John Cleves Symmes is now a captain, U. S. Army, retired. He married abroad, and has been for many years a resident at Wiesbaden. He graduated at the head of his class from the Military Academy in 1847. He has a natural genius for invention, and made from time to time one cannon and fifteen breech-loading guns of different designs. In 1858 he took a prize of $500 "for championship in the United States on account of the best breech-loading small arms." Fort Leavenworth was completed under his direction, and soon after he was retired in 186. "for disability resulting from disease contracted from exposure in the line of duty." His wife is a Polish lady, neé Marie Leopowitz, described by General Sherman, in a letter to the family, as "a little lady of singular beauty, cleverness and grace." There are two other sons of Captain Symmes, the theorist, Dr. Harrison Symmes, of Oswego, Kansas, and Americus Symmes, who resides on a farm near St. Louis, and who, now 76 years old, is an enthusiastic believer in his father's theories.

THE author of a recent work on the "Artillery of the Future," who is reported to be an artillery officer of high rank in the German Army, says: "When we reflect on the use which is now made of cavalry divisions, the need of horse artillery is more pressing and imperious than ever, and at the present time is absolutely indispensable." He remarks that it is impossible to replace horse artillery by mounted batteries, especially as the guns employed in the latter are of greater and heavier calibre, and cannot be got over the ground at anything approaching to the requisite speed. Thus it is of the utmost importance that every cavalry division should have its proper complement of horse artillery.

THE death of the celebrated James B. Eads removes from the workers of the world a man from whom Navy officers of whatever rank or position received uniform courtesy and the greatest consideration. During the early years of the War of the Rebellion Captain Eads was in almost daily contact with many now among the older officers of the Engineer Corps, and his urbanity and sociability will be long remembered by those who were fortunate enough to enjoy his friendship. By the death of this eminent engineer, as it is more than probable, the problem of isthmian transit is resolved into the two projects represented by the Panama route and the Nicaragua Maritime Canal proposition. It is not likely that any serious attempt will be made to carry out Eads's ideas of a ship railway from ocean to ocean, and unless more haste is made than seems possible De Lesseps will have his canal completed before the rival project fires a single charge of dynamite. The expectation now is that the canal company will in the end be obliged to turn its property over to the French Government and leave it to carry the undertaking to completion. Indeed, it is believed by many that this has been M. De Lesseps's intention from the first and that the project has been really a scheme to secure French control on the Isthmus, to which our indifference as to what our neighbors may be doing to circumscribe our boundaries has invited the enterprising De Lesseps and his compatriots. It may be well to suggest, however, that the Suez Canal, which was originally a French project, is now under English control, which also extends over Egypt itself and the outlying Island of Cyprus. It is probable that, in the end, we shall show ourselves as unwilling to submit our passage across the Isthmus to the control of a foreign power, as England was to allow France to plant herself across her highway to India.

A CORRESPONDENT of the Washington *Star* says in answer to a statement which appeared in that paper: "No volunteer surgeons were ever 'incorporated into the staff by act of Congress,' with one exception, every one of them 'entered the Service regularly,' *i. e.*, by passing the examination required by law of all candidates, and coming in at the foot of the list, with the rank of 1st Lieutenant. The one exception was Dr. Baxter. Upon the reorganization of the staff he was selected by President Johnson and commissioned with the rank of Lieut.-Colonel, and was thus made to outrank every Surgeon in the Army, including some distinguished officers whose entry into the Service antedated his birth. Many, no doubt, felt outraged by being thus superseded. Whether the selection was wise or otherwise is a question entirely foreign to the purpose of this note. The volunteer medical officers, with the above single exception, having entered exactly upon an equality with the other 'element,' there was no occasion for division, nor in fact did any such division ever exist. Like the silly slanders which, shortly after the appointment of General Moore, was spread abroad by many papers, of which the *Star* was *not* one, that he was 'an active Democrat and had been selected solely for political reasons,' the imputation of such pitiable jealousy is pure fiction."

IN his article on "Modern Aggressive Torpedoes" in the "Scribners' Monthly" for April, Lieut. W. S. Hughes, U. S. Navy, estimates that during the last ten years a hundred million of dollars has been expended by European nations in the effort to secure a *reliable* self-moving torpedo. Our Government has been very economical in this direction, but the amount expended here by private individuals, firms and corporations is large. Lieut. Hughes describes the Controllable Auto-Mobile Torpedo, the Sims-Edison, the Whitehead, the Hall and the Howell Torpedoes. Next follows a description of torpedo boats, the *Falke*, the *Stiletto*, the *Alarm*, and various torpedo boats built by Messrs. Thornycroft and Yarrow, Ericsson's gun and projectile, the submarine Peacemaker, and Zalinski's 8-inch pneumatic dynamite torpedo gun. Illustrations are given of all these, and the article is one devoted to description rather than to expressions of opinion, except that in its concluding paragraph the author cautions his readers against being misled by the popular fallacy that our great seaport cities and the coast-line of our country can be protected by torpedoes alone. "Such vessels," he says, "valuable adjuncts as they are to any system of coast defence, must be regarded as only supplemental to modern ships, guns, forts and floating batteries."

NO ONE has yet been selected to succeed Colonel Scott in charge of the War of the Rebellion Records. The Secretary of War says he has not made a choice yet simply because, in the rush of other matters, he has not found time to devote to the hunting up the officer best qualified for the place. Lieutenant Edward S. Farrow, 21st Infantry, is the latest addition to the list of candidates. His trip to Washington this week is said to be on this mission. It is also said that he contemplates resigning from the Service in the event of his failure to secure this detail.

THE "Index to General Orders Amendatory of the U. S. Army Regulations," compiled by Lieut. William Baird, 6th U. S. Cavalry, whose agent for the sale of the book is James J. Chapman, of Washington, D. C., is an extremely convenient help to the Army in general, but especially to those whose position and duties require them to be posted on regulations or tactics. The amendments to the present code have now become so numerous that only an expert can deal with them properly, so that Lieutenant Baird's book comes in handily just at present, and until the revision by the Board at Washington has been made. The index to the general orders is thorough, as well as that to the circulars, rulings and decisions of the War Department to January 1, 1887. The work is of convenient size, and no officer or military clerk should be without a copy.

IT is fortunate that the construction of the new naval observatory is in such competent hands. The problem to be considered is an architectural one in the broadest sense; that is to seek for artistic effect while making this completely subordinate to the important uses an observatory is to serve. This Mr. Hunt thoroughly understands, and his large experience will enable him to solve the difficult problem if any one can. Mr. Hunt last week visited the observatory grounds in company with Capt. Walker and Prof. Hall, and made a careful inspection of the locality. The most eligible site is occupied by a dwelling, which it may be thought desirable to preserve for use by the officers located at the observatory.

MR. HERBERT WELSH, Secretary of the Indians' Rights Association, who has been advocating that the Indian prisoners at Fort Marion, Fla., be placed upon a reservation where they may be more completely trained in civilized habits, go to farming, and acquire permanent homes, specifies a military officer for the trust, "not because an equally good civil agent could not be found, but because we have no reason to believe he will be found. A man of the type of Capt. R. H. Pratt, the late Capt. Emmet Crawford, Capt. John G. Bourke, Capt. J. M. Lee, and Capt. Jas. M. Bell, is what is needed. A military officer can afford to speak the truth, to do what is wise and right without sacrificing his position."

THE presence recently at El Paso, Texas, of Major-General Terry and of his brother-in-law, Inspector-General R. P. Hughes, U. S. A., of San Francisco, reawakens hope in the breast of the sanguine El Paso *Times*, and prompts it to remark: "Their prolonged conference makes it clear that something is in the wind. Perhaps a 16 company post at El Paso."

THE case of Ernest von Dieselski, an alleged deserter in confinement at Washington Barracks, was, on March 29, for a second time, before Justice MacArthur on writ of habeas corpus. His Honor, however, discharged the writ and remanded the soldier to the custody of the military authorities. He has since been sent under guard to Jefferson Barracks.

COMMANDER-IN-CHIEF FAIRCHILD, of the G. A. R., has directed special services to be held by each Post of the Order on April 27, the sixty-fifth anniversary of General Grant's birth, at which time contributions will be solicited to the Memorial Fund.

NOTHING has yet been definitely decided regarding the contemplated changes in the stations of Assistant Adjutants-General. General Drum said this week that as there were no funds available for travelling purposes he would not be in a hurry to place his "slate" before the Secretary of War.

SECRETARY WHITNEY is particularly fortunate at this time in having Commander Chadwick at hand for consultation. This officer has been employed for considerably more than a year in collecting information and data in connection with the latest foreign ideas on armored vessels of various types, and today the result of his skill and his investigations is to be seen in Mr. Whitney's ability to go about the construction of the 6,000-ton armored cruiser authorized by the last Congress, with some degree of assurance that the result will be commensurate with the reasonable expectations of the nation.

DESIGNS for a 6,000-ton cruiser were opened in the presence of Secretary Whitney and the bureau chiefs on Friday. Those forwarded by Commander Chadwick were the work of Mr. Mackrow, of the Thames Iron Shipbuilding Company, Blackwall, London; Wm. John Barrow, of the Shipbuilding Company; Mons. Grandjean, of St. Nazaire, France; W. Watt, of Birkenhead, Eng., and W. L. Clayton, of Australia.

Among the Americans who submitted plans were Lieut. Chambers, Chief Constructor Wilson, Naval Constructor Pook, U. S. Navy, Francis L. Norton and L. Towns. The Secretary will appoint a board to select plans from those submitted. It will probably consist of civilian experts and Naval officers not on duty in the bureauss.

PAYING THE ARMY.

To the Editor of the Army and Navy Journal:

IN your edition of March 19, 1887, you reprint from the Baltimore *Sun* a letter from "a discharged non-commissioned officer of long service and experience," making a rather petulant attack upon the methods of the Pay Department. The style of the criticism bears evidence of its source, and it would not have been noticed had you not, by your endorsement, and the prominence given it in your valuable paper, attached a weight to it that is not inherent in the article—and, I presume from your broad sense of justice and desire to promote the interests of the Service, that you would not have made this publication unless you felt assured that the very general and sweeping statements made therein had some foundation in fact. Now, it is to ascertain these facts that I write, and at the same time to show that so far as tangible matter is contained in the article in question, it was written without due consideration.

A criticism to be of value should be practical; should be made with at least a fair knowledge of all the circumstances surrounding the subject under review; should not only point out the evil to be remedied, but also show wherein it is an evil—otherwise it becomes a mere literary production. The burden of this correspondent's plaint against the Pay Department, divested of its verbiage, seems to be its failure to insure "a prompt and regular payment of the wages when due to the nation's soldiers." He cites the Navy and Marine Corps as models of punctuality it is presumed in this respect. Let us extend the parallel to embrace the various circumstances by which each class of payments is environed and see wherein the Pay Department of the Army suffers by the comparison.

The enlisted force of the Navy is limited to 8,250 men and boys. This force is distributed among 40 vessels and 10 naval stations. To pay this force the Naval Register shows there are 112 officers in the Pay Corps of the Navy, an average of two to each vessel and station, with a surplus of 12 officers for contingencies. Further, it will be observed that the naval stations are at commercial centres where the needed currency is readily obtained. When the vessel is at sea the paymaster has his cash box with him. With this force available and these facilities at hand, it is an easy matter for the Pay Corps of the Navy to meet all demands upon it promptly.

Now as to the Marine Corps, upon which this writer in the *Sun* lays so much stress. The enlisted strength of the corps is 2,000 men, not 2,400 as stated. About one-half the force is attached to vessels in commission, and paid by the paymasters of the Navy. The remainder is distributed among the various navy-yards and shore stations, eight in number, not nearly a score as stated. These enlisted men are mustered monthly, the rolls are then signed and forwarded by mail to the paymaster at Washington, who, upon their receipt and after examination, sends his check for the amount of the roll to the commanding officer. This officer obtains the necessary currency therefor and pays to the men the amount due each. The promptness with which they are paid depends upon the distance the station is from Washington, and will vary from three days to three weeks after the roll is made up. The enlisted force of the Army is 25,000 men, not including 470 men of the Signal Corps. These men are distributed among 144 posts, scattered throughout the length and breadth of the land, many of them in almost inaccessible regions distant from money centres, and to be reached only after days and nights of travel by ambulance and stage. To pay these 144 posts the Pay Department of the Army has available for duty only 43 officers. Now as it is not possible to station a paymaster at each post, as in the Navy, though there were three times the number available, I presume the method in practice in the Marine Corps would be recommended—concentrate the force in Washington, or some other centre and pay the troops by check. Such an order, I have no doubt, would be very acceptable to the officers of the Pay Department, so far as their personal comfort and interest is concerned, as it would entirely relieve them of the hardships of travel, and the risks incident upon the personal custody of the money. The last annual report of the Paymaster General shows that of the 234,000 miles travelled by paymasters, 42,292 miles were by stage and ambulance, and that the field payments alone amounted to over $5,250,000. But how would the troops in garrison receive such an order? Of what value would a paymaster's check be to an enlisted man at a frontier post? It would be of just the value the post trader chooses to put on it. At posts near towns where banks are located, the commanding officer would have the option of collecting the checks from the men, have them cashed and the proceeds distributed, or of granting leave to his command to collect their own checks. This would be a change from the old fogy, senseless method of paying by the paymaster only, in cash, to each man the amount due him, at the pay table in the presence of his officers. It might be more modern, but I doubt if company commanders would strenuously urge it.

There is one point that the advocates of more frequent payments fail to consider. A recent writer, the prize essayist of the Military Service Institution, outlined a scheme which he deems practical, as follows: The captain every six days gives to each man an order on the quartermaster for a certain amount, to be paid by him in cash. Very good—but he neglects to state where the quartermaster is to get his cash. Let the paymaster send it, I suppose, once a week by express. But how about those posts to which the express companies will not ship funds? When that problem is solved, another presents itself—a quartermaster's receipt for funds will not relieve a paymaster, in case of loss, from his accountability. The accounting officers have gone still further, and hold that the paymaster is responsible for the money until it reaches the soldier's hands, though he may hold a valid receipt for the same.

The method of payment outlined by the writer referred to is but a return in effect to the old system of Regimental and Battalion Paymasters which prevailed in our Army over half a century ago. The records show that under that system of payments, from 1808 to 1811, the average annual loss by defalcation was 1.58 per cent. on the amount disbursed, while the expense was 3.1 per cent. From 1811 to 1816, under the same system, these averages were: Defalcations, 2.98 per cent., and expenses 4.36 per cent.

Under the present system, from 1861 to 1866 (during the war), Gen. Brice reports that the total losses and expenses of every kind, including defalcations, captures, accidents, the salaries and expenses of paymasters and their clerks, fell short of three-fou ths of one per cent. on the amount disbursed. During the past ten years, with an aggregate disbursement of over $130,000,000, the total loss to the Government by defalcation was a trifle over $3,000. It certainly behooves those charged with the administration of our Army affairs to move slowly and considerately before casting aside a system that will produce such results. So much for the interests of the Government.

Now what interests of the enlisted man will be conserved, either by a change in the mode of payment or in the times of payment? Wherein is he placed at a disadvantage, or does his personal interest suffer, by the present system? All his material and necessary wants are fully provided him. His pay when received goes either to the trader, the gaming table, or back to the paymaster as a deposit. Now, how will more frequent payments affect this disposition of his funds? Will it be urged that because he receives his pay more frequently, and in smaller amounts, he will value it the more, be the more apt to deposit it and less likely to spend it inconsiderately; that these frequent payments will induce habits of economy and thrift, and educate him as to the proper use of money? Is it expected to relieve the strain on discipline that payday always brings by having pay-day come oftener? It may distribute the strain from one month's end to the other, which I think will be a severer test to discipline, and to the temper of commanding officers, than that under which they now suffer. I am surprised that Dr. Woodhull, in his article, "The Enlisted Soldier," should so far depart from the teachings of his school and openly advocate, as a remedy for the complaint, the well known principles of homeopathy, "*similia similibus curantur.*" That is, if large doses of pay produce the evil, small ones will cure it.

If it is the mature judgment of officers who are in daily contact with troops that the interests of the Service and the interests of the soldier will be promoted by payments to the latter at more frequent intervals, I am sure from what I know of officers of the Pay Department, that they are willing and desirous to undertake any duties that may be imposed on them looking to the betterment of the Service, provided their accountability is restricted to the funds under their immediate and personal control. The Pay Department stands not in the way of reform, but a change to cater too a fancied evil is not a reform. K.

(Correspondence of the Army and Navy Journal.)

ENGLISHMEN VISITING FORT BARRANCAS.

THE Duke of Sutherland has been cruising around the coast of Florida during the last month. March 17 his steam yacht, the *Sans Peur*, R. Y. S., came to anchor in Pensacola harbor, twenty-five hours from Tampa.

On Saturday afternoon the Duke visited Fort Barrancas and was invited by Col. Langdon, commanding Fort Barrancas and Fort Pickens to visit the latter fort and inspect the Indian prisoners. The Colonel accompanied the party and introduced his guests to Natchez, Mangus, Geronimo and the other prisoners. The interview was quite interesting, for one of the ladies of the Duke's party, the Hon. Mrs. Blair, on a recent visit to Fort Marion, at San Augustine, had seen and fondled little Marion Geronimo, born in Fort Marion last July, and the lady's assurance of the health of the child seemed highly satisfactory to Geronimo and his friends.

After interviewing the Indians the party adjourned to the terreplein overlooking the entrance to the harbor, Fort McRee, and the Gulf of Mexico, and there partook of a lunch *al fresco*. It was an odd scene. The table was an old magazine door laid on two trestles and set in the shade of the Service magazine of the 15 inch gun. The Indians hurried up with garrison chairs made in the prison at Fort Leavenworth, while an English sailor brought a bucket of water from the guard house, and the lunching party waited on themselves.

The Duke's party consisted of the Duke of Sutherland; Hon. Mr. Osmond C. Howe, English Vice-Consul at Pensacola; Mr. John McNicoll, Civil Engineer, lately residing in the Reviera; Dr. Bervin, an American doctor recently from Paris, and decorated some years ago by the Emperor of Austria; the Hon. Mrs. Blair, widow of Col. Blair, of the English Army, and Miss Emily Smith of Scotland. After lunch the party returned to Fort Barrancas and paid their respects to Mrs. Col. Langdon.

The Duke and his party expressed themselves in warm terms of the courtesies shown them and the pains taken by Col. Langdon to make their stay agreeable and interesting to them.

MORE AMUSING THAN TRUE.

THE Boston *Commercial Bulletin* tells of a dandified young second luff "who graduated at the head of his class at West Point," and who had a practice when officer of the day of turning out the guard half a dozen times a day to salute his highness. Finding that the soldiers had accordingly nicknamed him "Johnnie-come-home-lately," he subjected them to a series of petty persecutions.

The commandant, an old dragoon of the Mexican War, was wild on discovering that some of the best soldiers in his command were being persecuted by a nincompoop, and he at once ordered the latter before him.

"What the devil do you mean, sir," he roared, "by confining half my command."

"The men are in a state of mutiny," tremblingly replied the lieutenant, "and besides their impudence has reached such a height that they call me 'Johnnie-come-home-lately' to my face."

"What!" fairly howled the irate commander, "is it for that reason you have been persecuting them? Why, d— you, sir, I have been, man and boy, over forty years in the Service, and the name the men best know me by is 'Old Boots.' Get out of my presence and order every prisoner to be released."

The officer was so mortified that he hastened to effect an exchange with an infantry officer, and to this day is still known by the distasteful sobriquet even by the ladies of the Army.

This is a very good story, undoubtedly, but how happened it that an officer who graduated at the head of his class at the Military Academy was sent to the cavalry? Not to go further back, no one graduating at the head of his class from the Military Academy since 1840 has been assigned to the cavalry or could have served as a subaltern in a cavalry regiment under an "old dragoon of the Mexican War."

HUMORS OF THE WAR RECORD OFFICE.

A FEW weeks before his death Col. Scott said: "A Major-General is not often any more sure of facts twenty-five years old than a private, and a dispute with a brother officer sends both here for the record. It not infrequently happens that I unwittingly deal some of my best friends cruel blows. A Western Senator came here a year or so ago and got documents from me that made Admiral Porter ridiculously imaginative, where everybody supposed he was precisely historical, in regard to President Lincoln's visit to Richmond at the surrender, and an alleged interview en route with Duff Green. The greater part of the story turned out to be fiction. One day an old officer came rushing in, and, in an excited tone, exclaimed:

"'Have you said I was not in the second battle of Bull Run?'

"'No, not exactly that,' I said.

"'Well, Bob Scott, I was told you said so, and I came in here to put daylight through you if you stuck to it.'

"'Oh, no,' I replied, laughing, 'I never said you were not in that battle. What I said was that you yourself, in an official report dated the day of the battle had said you were in the Cumberland valley, a hundred miles from Centreville and Bull Run.'

"His eyes looked dizzy and his face was a most amusing picture of consternation. What I said was true. I tapped a bell, called a clerk, who brought the officer's official report, and there in his own handwriting, over his signature, in black and white, was his own word that he was not at Bull Run. He read the report through twice in silence, so solid you could slice it. Then he took his hat, and, without a word, arose and left the building. There is a good deal of fiction in our war stories.

"The greatest number of inquiries about war history," said Col. Scott, "comes from the South. The Johnnies fought well, and, in the absence of a good deal else to give them satisfaction, take great pleasure in their fighting. Nearly all the prominent Confederate officers have visited this old building, and hardly a day passes that we do not receive half a dozen letters from Southerners asking for information."—*N. Y. Sun.*

HOW JOHN CHAMBERLAIN DID IT.

"DID you hear how John Chamberlain got the bulge on the boys on the last day of the session?" asked one of the Treasury officials. "Well you know the Government owns all the shore land down at Old Point Comfort, Va., and years ago granted a concession for the ground now covered by the Hygeia Hotel at that place. The grant has been a good deal of a bonanza to the company owning the hotel as it is the only place of the kind on that coast. John got a bill quietly introduced in the Senate, granting place to himself for another hotel, and it went through with bells on. When it reached the House, however, the fight began, for there it was antagonized by Congressman Libby for the Hygeia people, whose district he represented. John waited quietly. No man in Washington has more friends in the House and Senate, so he could wait hopefully. But the days went by, and John's bill lay away down on the calendar. The last day came, so did the last hour of the session, and John sat up in the members' gallery, his big, good-natured face dark with prolonged disappointment, for there was no quorum on the floor. Speaker Carlisle suddenly called Mr. Hatch, of Miss., over to the chair, and went to his retiring room for a few moments. There was a mob of members on the floor howling for recognition, and swinging over their heads the bills in which they were interested. Hatch is one of John's warmest friends—so is genial old ex-Gov. Curtin, of Penn., and when the gallant white haired member from the iron regions walked down the centre isle and held up a bill high above the crowd, Hatch saw John's chance had come. The noise was deafening. The speaker's gavel came sharply down and Hatch recognized Mr. Curtin. 'As many as are in favor of the passage of this bill will stand to be counted.' Some one announced 181 votes in the affirmative and a few in the negative—and there may have been 100 members all told in the House. Anyhow the bill went through in grand style, was rushed over to the President, who promptly signed it, and John is down at Old Point Comfort the happiest man in Virginia."—*N. Y. Graphic.*

ZALINSKI'S DYNAMITE SHELLS.

LIEUT. ZALINSKI'S pneumatic dynamite gun was tried Saturday at Fort Lafayette. Four shots were fired, each shell containing 50 pounds of dynamite. The air pressure was 1,000 pounds. The first shot took 9 3-5 seconds to travel 1,816 yds., and on touching the water it exploded. The second shot, with a slow fuse, struck the water 2,500 feet away, ricochetted and disappeared. A second later, a huge column of mud and water arose for many feet. The third shot, with the gun at an elevation of 33½ degrees, was a failure, owing to a delayed fuse. The fourth shot, at the same angle of elevation, was twenty-five seconds in the air, and it struck 3,868 yards away, or about two miles and a quarter. The guns for the Government dynamite cruiser that Cramp and Sons are building will carry a charge of 400 pounds. The bore of these guns will be 10 inches. The cruiser will carry three of them. They will measure, in the barrel, 40 feet long. Among those who witnessed the exhibition were Maj.-Gen. Schofield, Adjt.-Gen. Whipple, Col. Hamilton, Maj. Randolph, Comdr. O'Neil, of the Brooklyn Navy-yard; Comdr. Wild, of the *Dolphin*; Col. Carr.

A RECENT special from St. Petersburg asserts that one general officer in active service, three cavalry officers and seventeen infantry, artillery and engineer officers, have been suddenly removed from their quarters and shot on alleged proof of treason.

THE STATE TROOPS.

THE ARMY AND THE NATIONAL GUARD.

THE Brooklyn *Eagle* has some very sensible remarks on the subject of the benefit accruing to both the Army and the National Guard, as a result of the intercourse between the two, which it has been our endeavor through so many years to promote. As the *Eagle* says:

Fraternization between the two Services has come to be the rule where before it was the exception. Men educated at the U. S. Military Academy are everywhere to be found holding commissions and doing yeoman service as officers of the National Guard. In the leading organizations of the citizen soldiery it is a matter of common occurrence for the brightest intellects in the Regular Army to assist in the work of the practical education of the militia by giving the benefit of their knowledge and experience to the seekers after information on military topics through the medium of lectures and papers and demonstrations in tactics relating to the care, instruction and manœuvring of troops. Clubs composed of National Guard and Regular Army officers are in active being in New York and elsewhere, at the stated meetings of which military subjects are earnestly and intelligently discussed. The portals of the United Service Institution, originally organized solely for the benefit of officers of the Army and Navy and Volunteer forces, have been thrown wide open to officers of the National Guard, and from the lieutenant general commanding the National military force to the youngest subaltern, the kindliest feeling obtains. To every State militia camp held in the country, a Regular officer is annually detailed as a Government inspector by the War Department. As a result of this oversight of the helpful disposition which is manifested on all sides, and the spirit of fraternization which prevails, the National Guard largely owes the elevation to which it has attained of late years. And it is hazarding little in saying that the Army, not alone in rifle shooting, but in discipline, drill and general efficiency, has correspondingly benefited by contact with the National Guard.

THE ARMORY QUESTION.

AT a session of the New York Armory Board on March 25 the report of the Comptroller stating that the Rink Building at 104th St., which had been proposed as a temporary armory for the 8th New York for two years, is in its present condition unfit for the purpose and not worth the large expenditure (estimated at $20,000) was put before the Board, which thereupon resolved to non-concur in the proposed arrangement, and the method of procuring the "Rink" as an armory for the Eighth was thus finally sat down upon. Col. Geo. D. Scott, who was present, agreed to accept instead the present armory of the Seventy-first as temporary quarters. This is certainly an improvement on their present armory.

The 71st Regiment on May 1 will move into the present 12th Regiment armory at Broadway and 45th St., which is to be leased for an additional two years at an annual rental of $20,000, the 2d Battery remaining in the building where it is now quartered.

Resolutions were also adopted to lease the present armories of the 9th and 22d Regiments and the 1st Battery each for one year from May 1, 1887, at rentals of $15,000, $20,000 and $2,750, respectively.

The architect for the new armory of the 22d Regiment, was instructed to modify his specifications so as to extend the time for the completion of the building, ready for occupancy, to Oct. 1, 1888.

The Secretary was instructed to advertise for proposals for the new 22d Regiment armory according to the plans, etc., approved Nov. 30 1886.

Minor repairs, with a view to the completion of the 12th Regiment armory were considered, a payment of $20,000 for mason work to the contractor authorized. Col. J. H. Jones offered that, if the Board will put into the armory a cooking apparatus, complete as recommended by him, at a cost of $725, the necessary connection with the boilers will be made without cost to the city as soon as the regiment enters the armory. The matter was referred to the committee. It is one well worthy of favorable action, because a cooking apparatus like this is one of the most necessary and useful adjuncts to an armory. We learn that the Armory Board does not look favorably upon the use of Bryant Park as an armory site, and that scheme may, therefore, be regarded as exploded.

William H. Webb, David Banks, E. Ellery Anderson, L. S. Burchard, and others, residing in the vicinity of Bryant Park, waited upon Mayor Hewitt to protest against a project which they had seen noticed in the newspapers to build a new armory on the site of the park. Mayor Hewitt said: "I know of no such project now pending. I should not be willing to sanction it if it were proposed. You will see by a communication that I shall send to the Aldermen next Tuesday that I am in favor of making more such parks all over the city rather than expending millions for parks away up town where no one can use them but the rich, such as Pelham Bay Park. There has been something said about the use of the reservoir site for an armory, but that would make an architectural improvement that would benefit your property."

It is satisfactory to know that the Mayor of New York favors the project for substituting for the useless reservoir on the corner of 5th Avenue and 42d Street a much-needed armory. No one proposes, so far as we know, to interfere with the park adjoining the reservoir, and to that we should be as much opposed as anyone. There seems to be no good reason, however, why the reservoir should longer cumber the ground, and its site is an admirable one for a new armory.

After repeated delays, postponements and disappointments, the inauguration of the 12th N. Y.'s new armory has now become a reality. On April 11 the regiment will march into its new castle, and the grand celebration of the event has been definitely fixed for April 21. It being the first armory constructed by the city according to the requirements of the present age, the affair attracts almost as much attention outside as inside of the regiment. The Twelfth themselves are in a complete state of enthusiasm about it, and the occasion is to be made one of the most brilliant in the history of the regiment. The preparations as determined upon by the meeting of the Board of Officers on Monday evening, March 14, will be of the most elaborate kind. Efforts are made to have President Cleveland, Governor Hill, and other dignitaries present, and with the popularity of the Twelfth among Regular officers, as well as in the National Guard, the opening celebration may confidently be predicted as one of unusual splendor, not even to be outstripped by the Old Guard Ball.

HOW TO PASS AN EXAMINING BOARD.

To the Editor of the Army and Navy Journal:

SOME little military wind-bag, gave vent to his spleen, in last Sunday's issue of a Sensational Story paper, by finding fault with Lieut. Col. Harding, for refusing to sign the examination papers, approved by the other members of the board, in his absence. If the rumor be true, that a member of this board recently procured the questions for an officer elect, in advance of his examination, thereby enabling him to pass in flying colors, regardless of his merits, and also, if it be true, that such member is illiterate, murders the Queen's English, and cannot propound a question grammatically, then Col. Harding's course will receive the unanimous approval, not only of the officers and enlisted men of the 1st Brigade, but that of the entire forces of the State.

It strikes me, the Adjutant General should poke his official nose into the record of this board, and if de does not find it like Cæsar's wife, above suspicion, have it reorganized, with at least five members. NATIONAL GUARDSMAN.

NEW YORK, March 29, 1887.

SILVER ANNIVERSARY OF THE 47TH NEW YORK.

ON the 29th of March, 1862, the 47th New York of Brooklyn (Williamsburg) was mustered into the Service. Gen. Jesse C. Smith, then commanding the 11th Brigade, was the mustering officer. On Tuesday evening, March 29, the 25th anniversary of the event was celebrated by the 47th in its new roomy and sumptuous quarters (such as were not dreamt of a quarter of a century ago), and to complete matters Gen. Smith, who is still alive, was invited to act as reviewing officer. It was quite an event, and not even at the inauguration of the armory was there such an audience present. Gen. Smith reviewed the regiment, dressed in civilian clothes, stove-pipe hat, Prince Albert coat, with one silver star on each shoulder. This was rather unique, but very effective under the circumstances, and very much appreciated.

The regiment having been promptly formed and turned over, Col. Gaylor opened the ceremonies with a review. The men had responded in large numbers to the call, and the line was consequently unusually long. All seemed impressed with the importance of the occasion, and scarcely a hand, head or foot moved while the reviewing party passed around. For the march past, the regiment was massed by wings, because the space was entirely too small to go through the affair in regular tactical manner. The companies, however, executed the passage in the best possible manner under the circumstances, and all did fairly well. The salutes in many instances were crude and awkward, and not by any means first-class. This is an affair concerning the officers alone.

Another presentation of long service medals followed. The regimental chaplain made the presentation speech. The medal is an iron cross, with the figure 47 at the intersection of the bars and a sunburst of copper. The following responded to the call of the adjutant and stepped to the front:

Twenty-five years, diamond medal—Capt. Alfred A. Doughty, Privates John W. Locke and Jas. McCormack.

Twenty years, gold medal—Col. Truman V. Tuttle, Capt. John M. Rankin, Sergt.-Major Stephen K. Glover, Quartermaster-Sergt. Chas. H. Ridgway and Private Andrew W. Winckler.

Fifteen years, silver medal—Col. Edward F. Gaylor, Capts. Frank J. Le Count, Jr., Alvah G. Brown, George H. Streat, Henry J. Richardson, Adjt. Wm. H. Hubbell, 1st Sergt. Thos. Lamb, and Privates John McCormack, John H. Sharot, Wm. Connor, Wm. D. Mashon, Peter Stoldt, Geo. W. Place and Alexander Anderson.

Ten years, bronze medal—Gen. Wm. H. Brownell, Col. David E. Austen, Lieut.-Col. Geo. Conover, Major John G. Eddy, Q. M. Edward Milner, Chaplain Newland Maynard, Capts. Willard T. Allen, Edward L. Bonney, Wm. Lamb, Wm. R. Pettigrew, Wm. H. Eddy, Lieuts. Peter J. Hoffman, Wm. T. De Nyse, Chas. M. Simonson, David Brower, Edw. Lawrence, Drum Maj. Daniel Brinsley, Sergts. J. Moore, E. Moore, R. V. M. De Nyse, Morton De Nyse, Chas. E. Streat, Wm. T. Townsend, Wm. Hyson, Chas. A. Miller, Jos. Hart, 1st Sergt. Edward Spackman, Corp. Andrew Childs and Privates John H. Bailey, Frank Buchenberger, David Dietrich, Edward H. Emerson, Robert Ferguson, Samuel S. Hicks, Peter Kinsey, Alfred Metcalf, John Schaffer, Chas. O. Walgrain, Jos. R. Keltner, Geo. J. La Haucka, J. Alonzo Palmer, John Taliman, Chas. A. Williams, R. George Williams, Henry B. Miller, Geo. H. Bishop, Thos. H. Burnett, Geo. L. Judson, Jos. Gilbert, John J. Gillies, John Kelly, Edward Vaughn, Wm. Elliott, Wm. J. Bedell, Geo. Palmer, Geo. W. Peasell, Geo. Kingsland, Geo. H. Starr, Geo. W. Wells, Edward W. Clarendon, Frederick Atwood, Bethuel G. Conklin, Reuben Cornell, John S. Fleming, Isaac Lee, Henry Sears, Henry M. Wunder, Jos W. Waite, C. Henry Young, D. B. Harrison, Thos. Knight, Thos. Lethbridge, Frank J. Mulligan, Josiah P. Marquand, J. H. Withers, C. A. Tubbs.

Among the above we noticed, at least, one who wore the uniform of a sergeant of the 23d Regt.

At the conclusion of the presentation the regiment reformed for dress parade under Lieut.-Col. Frederick S. Benson, who has returned from his European trip. The parade was well executed, and when Gen. W. H. Brownell had presented to Lieut. F. J. Veritzen a handsome sword with belt and knot the military performance terminated, and the armory floor became the scene of one of those animated and brilliant terpsichorean entertainments for which the 47th is so justly celebrated. The whole affair was a decided success and clearly and convincingly demonstrated the vitality and sturdy progress of the 47th under Col. Gaylor.

Thirteenth N. Y.—Colonel Edward Fackner.

THE 13th drilled as a regiment on Wednesday, March 23, with an equalization of 10 commands of 12 files, under command of Col. Fackner. From the time the companies appeared on the main drill floor until the regiment was turned over, exactly ten minutes elapsed, an improvement in promptness, upon which Adjt. Clark, who reads the ARMY AND NAVY JOURNAL and tries to profit by the mistakes pointed out in its columns, deserves commendation. We had occasion some time ago to find fault with him on account of tardy formations.

The regiment was first exercised in the manual, where the men exhibited considerable of the old snap and regularity which used to be one of its peculiarities. The command fours right was then given, but the step during the march was so irregular that the instructor was compelled to repeat the command mark time, alternately with forward march, until a good regular swinging step could be obtained. He was partially successful, but the right hardly ever settled down to the proper cadence. There appeared too much hurry at the head of the column. The battalion, however, re-formed in line in tolerable shape and then began one of the most interesting drills we have ever witnessed in the armory of the 13th.

The instructor at once started in with a close ployment on 1st division rights in front and deployed on some division to the left, followed this up with a similar ployment left in front and a deployment on the first division to the right, both well executed. The next was close column on 5th division right in front. This movement seemed generally well understood in principle, but the commander of the 4th division (7th and 8th companies) caused some confusion. Instead of going three yards to the front (par. 475) he advanced nearly three times that distance before changing direction, which caused all the divisions which had to form in his front to go too far ahead, and when the movement was completed a general backward dress had to be ordered to straighten the matter out. The whole probably resulted simply from a misjudgment of distance but the confusion was there all the same. The battalion then deployed on 5th division to the right and repeated the ployment with better success and the colonel re-established line by a deployment on an interior division (the 3d) without hitch. He then ordered fours right and followed up with to the right close column of divisions, broke into column of fours to the front, formed on the right close column of divisions and broke into fours left into front. The next was on the left close column of division, column of fours right in front, and on the left close column of companies. All these evolutions were smoothly and rapidly executed, the officers apparently being thoroughly conversant with the movements and the principles governing them. When the commander, however, ordered form single rank fours right, a number of them proved themselves less correctly posted. The principle that in this movement the dress is to the pivot flank and that the company commanders should align their companies to that point proved to be only indifferently understood.

Several neglected to take their proper positions by which the guides were thrown out of their places and the colonel had to order them to cover and dress the battalion to the left. After rectification of the mistake the command was column of fours, first company right forward fours right, followed by the order in double rank on right into line (by wings). After line had been re-established, the battalion formed in double column, changed direction by the right flank and formed line by the movement right into line wheel, left companies on right into line. Of course the left companies come on the line by a turn and all but the commander of the eighth company observed this rule. The latter tried to bring his company up in column of fours and made an attempt to form on right into line by fours, by which irregularity he marred the formation. As a mild correction the instructor broke into column of companies and executed companies on right into line, which was correctly performed. The drill ended with the manual which was quite snappy and regular, but there was too much thunder accompaniment to the order arms. While we do not agree with those who execute this portion of the drill without noise whatever, too much of it, as on this occasion, is also out of place. Such matters as those properly belong to the sphere of the company commander and it should not fall to the lot of the battalion commander to waste time and trouble in trying to correct them at battalion drill. We have pointed out similar cases on numerous occasions.

The drill lasted about an hour and 45 minutes with two short rests, and had it not been a quick and lively one so many intricate movements could not have been executed. Company commanders and guides were very attentive and generally well prepared.

Companies have been ordered to drill in aiming and sighting and for gallery practice as follows: F and I, March 29; K, March 30; G, March 31; B, April 1; A, April 4; D, April 5; H, April 6; C, April 7, and E, April 8. Companies A, C, D, E, and H drilled as a battalion March 31; B, F, G, I, and K will similarly drill April 7.

In accordance with a decision by Lieut.-Gen. Sheridan published in G. O. 6, S. N. Y., series 1886, that "it is irregular and unauthorized to divide any part of the manual into more motions than is laid down in Tactics," Col. Fackner revokes all orders in conflict with the above, which does away with all extra touches and motions introduced into the manual of the 13th under the régime of a former commander.

Col. H. C. Beadle writes us that the conjunction of Cols. Austen and Christensen on the Field of the 13th N. Y. never took place. The Field in 1878 and early part of 1879 were: Col. Daniel E. Austen, H. C. Beadle as Lieut.-Colonel, and Gen. H. C. King, Major. On the retirement of Gen. King to assume the duties, I think, of Judge-Advocate on the staff of Gen. Molineux, Gen. Christensen was elected to the Majority, and on Col. Beadle's retirement in the fall of 1879, he was promoted Lieut.-Colonel and J. F. Dillont was made Major.

ELEVENTH SEPARATE COMPANY, N. G. S. N. Y.

ON Tuesday, April 12, the non-commissioned officers of the "11th Sep. Co." will give their first annual reception at the armory on Fifth avenue, Mt. Vernon. This will be a most enjoyable affair as the several committees are doing all they can to make it a success and a good time is promised to all who attend. The drill room will be converted into a tower of flowers and palms and the decorations will be unique and elegant. The best music which New York can furnish has been secured and will begin the march at 9 o'clock promptly. The members of the company have given up the use of their large and beautiful meeting room to the ladies for a dressing room. Members of the National Guard will be received in the officers' room. A smoking room will be provided on the drill room floor for those who wish to smoke. The following gentlemen are members of the staff: Sergeants, 1st, Fred. Schneider, Frank W. Sageman, Andrew M. Colvin, M. L. Aitken, Geo. Conklin; Corporals: D. F. Clark, Charles W. Barker, W. F. Johnson, Frederick Abel, W. D. Gorham, E. Arthur Perry and E. Charles Schrimer.

MILITARY ATHLETIC GAMES.

AMATEUR Military Athletic games will be held at the grand new armory of the 12th Regt., 62d street and 9th avenue, New York, on Monday evening, May 2, under the auspices of the 12th Regt. Athletic Association. The programme of events are: One-half mile run, handicap; one mile walk, handicap; five-mile bicycle race, handicap; 220 yard hurdle race, handicap; one-quarter mile run, handicap, and one mile run, handicap—open to all amateurs. Individual tug of war—open to all members of the National Guard (amateurs), weight unlimited, any belt. Tug of war teams of four men each from any company or regiment in the National Guard, or amateur club, any belt, weight limited to 650 pounds. Potato race—open only to members of 12th Regiment A. A. (1 prize.) One-quarter mile run, handicap—open to all members of the 12th Regt. Obstacle race—open to all members of 12th Regiment. Professional bicycle race—America v. England. An entrance fee of 50 cents per man must accompany each and every entry, and must be sent to C. J. Leach, P. O. box 3201, New York City. Entries close promptly April 22. The right to reject any entry is reserved. Handsome gold medals to first and silver to second will be presented in each event, except in the tug of war, in which a gold medal will be presented to each man of the winning team. Rules of N. A. A. A. govern all contests except the tug of war. A reception will follow the games. The programmes to be issued on the occasion will be exceedingly handsome.

MILITIA ITEMS.

The company of infantry located at Orange, N. J., announced in G. O. No. 1, dated March 23, 1887, will be known as Co. C, 3d Battalion, N. G.

Gen. Daniel Butterfield desires all honorably discharged ex-members of the 12th Regiment, New York Volunteers, who are able to take part in the parade April 11, when the 12th will take possession of its new armory, 9th avenue and 62d street, to communicate with him at once, or with Major H. A. Bostwick, at the armory, Broadway and 45th street. The reception at the new armory will take place on the evening of April 21.

The Court-martial appointed for the trial of several privates of the 13th Regiment, Brooklyn, was adjourned for the fifth time without taking evidence on Friday evening, March 25.

Co. C, 11th N. Y., desires another bayonet drill with the squad of Co. D, 12th N. Y., the competition to take place at the armory of the 11th Regiment.

Major F. A. Jones, 11th N. Y., has offered a prize of $25 to the company who secures the greatest number of recruits in three months' time.

The following non-commissioned officers, 8th N. Y., have been elected to make arrangements for the coming ball on April 14: President, Ordnance Sergt. Thomas R. Murphy; treasurer, 1st Sergt. Charles Allen, E; secretary, 1st Sergt. Thomas F. Coen, F. The ball will take place at Cosmopolitan Hall.

The 22d N. Y. will assemble in full dress uniform, black helmets, for review and presentation of marksmen's badges by Brig.-Gen. Charles F. Robbins, General Inspector of Rifle Practice, State of New York, on Monday, April 11, at 8 o'clock P. M.

The 3d Battery, N. G., S. N. Y., is ordered to assemble at the armory, in fatigue uniform, for drill and instruction, as follows: 1st Platoon, 1st Lieut. William W. Hanold, Chief of Platoon: 1st Section, Sergt. Harry L. O'Brien; 2d Section, Sergt. Henry H. Royce—March 28, April 11, 18, and 25. 2d Platoon, 2d Lieut. Samuel D. Bell, Chief of Platoon: 3d Section, Sergt. Charles Ruston, Jr.; 4th Section, Sergt. Frank P. Cheesman—March 30, April 13, 20, and 27.

Cos. A, C, D, E, and H, 13th N. Y. Regt., will assemble at the armory, for drill and instruction, March 31; B, F, G, I, and K, April 7. Assembly at 8 P. M. The several companies will assemble for instruction in aiming and sighting, and gallery practice, as follows: F and I, March 29; K, March 30; G, March 31; B, April 1; A, April 4; D, April 5; H, April 6; C, April 7; E, April 8. Assembly at 8 P. M.

About 400 members of the 23d Regt., Brooklyn, attended St. Luke's P. E. Church last Sunday to listen to the annual sermon of the chaplain, Rev. Dr. Geo. R. Van de Water.

At the joint athletic exhibition of Co. K, of Wallingford, Conn., and Co. B, 22d N. Y., which took place at New Haven, Conn., March 19, the regimental tug-of-war was won by the team of Co. B, 22d Regt., N. Y., and not Co. K, 2d Conn., as announced last week.

Capt. Chas. P. Kretschmar, 13th N. Y., is seriously ill, and it may be some time before he can attend to his military duties.

Sickness prevented Colonel Dillont, elected Captain of Co. F, 13th N. Y., from appearing before the examining board at its last session.

Capt. David Moffat, Jr., of the 23d N. Y., died on Wednesday, March 30, at his home in Brooklyn.

The 1st Battery, N. G. S. N. Y., gave a reception March 29 at Wendel's Assembly Rooms in West 42d st. They received their military guests with military honors in the large ball room, which was decorated with bunting, and under the command of Captain Louis Wendel executed an exhibition platoon drill in the armory of the battery. A handsome set of accoutrements was presented to Capt. Wendel by the members of the battery and Brig.-Gen. Fitzgerald, who was present with his staff, presented several gold medals for faithful attention to military duties.

Major-General Plume has issued a circular to the N. J. State troops to use their influence for the purchase of the Sea Girt camp ground. He says: "This is the best camp ground in the United States. If we lose it we will also lose the seacoast battery offered by the Government and the excellent range we now have for rifle practice."

(Correspondence of the Army and Navy Journal.)

OREGON.

DURING the recent session of the State Legislature, there was passed a new militia law, which will place Oregon on nearly the same footing as her sister States. The National Guard, State of Oregon, under this new law, will be composed of not more than thirty companies of infantry, forming three regiments, two troops of cavalry, and one battery of light artillery, all comprising one brigade. Each company, troop, or battery, to be of not more than sixty or less than forty enlisted men, to serve for three years, and to be uniformed, armed, and equipped the same as the United States Army.

The Governor, as commander in chief, to have a military staff of an adjutant general, quartermaster general, paymaster general, inspector general, judge advocate general, and surgeon general, each with the rank of colonel; also three aides-de-camp, with the rank of lieut. col., and an asst. adjutant general, with rank of major. The brigadier general commanding to have a personal staff of an asst. adjutant general, a quartermaster general, each with the rank of captain, and two aides-de-camp with the rank of 1st lieutenant. All general, staff and field officers to hold office for a term of four years, and all line officers for three years.

The new law calls for an election of line officers on June 1 by each company, etc., the line officers of each regiment to elect the field officers on July 1, 1887.

The State to have a Military Board, consisting of the brigadier general (chairman), adjutant general, judge advocate general, inspector general and surgeon general, who are to meet quarterly, and to have the entire supervision of the Guard. The code also calls for an annual encampment of not less than three or more than six days. It is believed by old national guardsmen that this new code will make an excellent nucleus for a future law, which will place this State on a good militia footing, the old law having been a mere misnomer.

There was also passed a law empowering counties, in which there are cities of 10,000 inhabitants, to build armories. This will enable the five very good companies in Portland to have good quarters, and the "boys" feel very happy over it.

As this county has purchased a block 200 feet square in a central locality, it is hoped that they will soon commence to erect the building, so as to be entirely settled before next winter's "mist" commences. LIGGOC.

OHIO NATIONAL GUARD.

COL. JOHN C. ENTREKIN, 6th Inf.; Lieut. Col. James E. Shellenberger, 3d Inf., and Maj. A. B. Colt, 14th Inf., who were appointed by Adjt. Gen. Axline a board to revise the code of regulations for the government of the Ohio National Guard under the present laws, are in session at Columbus.

MASSACHUSETTS MILITIA.

IN the recent inspection of the 5th Massachusetts Regiment it was found that of the eight companies four were above the standard, while the others were slightly below. Of these the Charlestown City Guards made a very poor showing, the inspection showing 29 men present and 31 absent.

A despatch from Newburyport, Mass., March 24, gives an account of a fight between some inebriated members of Co. A, 8th Regt., M. V. M., and a couple of policemen, one of whom was a lieutenant in the company. The despatch says: "Both officers received cuts and bruises. The row caused a general disorganization of the ranks, and it was some time before Capt. Towne could restore order. One man, Dow, was fined $15 and costs for assault on an officer. The names of the participants will at once be sent to regimental headquarters, and several courts-martial will probably follow. This company dates as an organization from 1775." It is hoped that these pugnacious rowdies will be summarily dealt with.

In G. O. 5, of March 24, Adjt.-Gen. Dalton publishes a letter from the Mayor of Cambridge to Governor Ames expressing the general appreciation of the prompt and faithful and full response of Co. B, 1st Regt., and of Co. B, 5th Regt., to the recent call upon them for their services. Their promptness, discipline, and bearing, says the Mayor, were very creditable, and entitle them to commendation.

VERMONT NATIONAL GUARD.

THE officers of the National Guard of Vermont have been in session two days this month at Brattleboro', for instruction in tactics, guard duty, skirmish drill and ceremonies, by General Greenleaf, Colonel Esty, Colonel Kinsman, Major Bond and Captain Fuller, instructors. The separate company of infantry authorized by the last Legislature will soon be formed at Richford, and uniformed in the United States Army regulation dress of blue.

The Vermont troops are rejoicing in the receipt of 560 new Springfield .45 calibre rifles, an instalment of Frazer's improved cartridge box and 20,000 rounds of rifle ball cartridges. The new arms will be distributed as follows: 46 guns to the Estey Guard, Brattleboro; the Park Guard, Bennington; the Kingsley Guard, Rutland; the Sprague Guard, Brandon; the Barlow Grays, St. Albans; the Grout Guard, Newport; the St. Johnsbury Guard, St. Johnsbury; the Capital Guard, Montpelier; the New England Guard, Northfield; the Bradford Guard, Bradford; the Barre company and the new Richford company. The new arms and equipments were contracted for by Quartermaster-General Gilmore. The Quartermaster-General has realized by the sale of old arms and equipments which were stored in the arsenal a sum sufficient, with the amount appropriated by the State, to pay for the new rifles and equipments $10,000. 2,200 muzzle loaders and a lot of carbines, sabres, tents and other stores were sold.

CALIFORNIA NATIONAL GUARD.

IT is hoped by many that the joint drill and review of the Regular forces at the Presidio and the National Guard, postponed Feb. 22, will take place after the parade, on Memorial Day.

The question of a brigade or a regimental camp is still a discussed one and each has its backers. The general sentiment, however, seems to be in favor of a brigade camp. The *Alta* sensibly says: "Unfortunately, the summer's encampment is too often made the occasion for a picnic and a general good time instead of a training school. If the members of our organization can only be made to see this matter in its proper light, they would soon realize that a 'good time' can be had by marching to some quiet place, well wooded and watered, pitching tents and entering upon a brief season of rigid military training. Under the new law Lieut.-Col. J. Mervyn Donahue has applied to have the Santa Rosa Cadet Company (known as Co. E) mustered as a company, and Gen. Dimond has approved the application."

(Correspondence of the Army and Navy Journal.)

ILLINOIS NATIONAL GUARD.

SUBSCRIPTIONS to the new armory of the 1st Infantry are coming in slowly, but it is hoped that a sufficient amount will be guaranteed prior to May 1, to make the building an assured fact. It is a source of annoyance and regret to all true friends of the militia that some of its pretended friends persist in attacking the Adjutant-General and the estimates he has submitted to the Legislature for the next two years, through the columns of the Chicago papers. Newspaper warfare of this character seldom achieves the desired object, and it not only gives the opponents of the militia in the Legislature an opportunity to cut down the necessary appropriations, but it tends to bring the National Guard into disrepute by advertising one side of a controversy to the public in a very unmilitary manner.

The new band of the 1st Infantry is progressing finely, and it is expected that the first public rehearsal will be given on March 31. Prof. Currier hopes to make this band the finest in the West.

THE staff officers of the 1st Brigade of the Massachusetts militia have voted unanimously not to carry any intoxicating drinks of any kind to camp this year, and not to permit drinking in their tents during the encampment. That is good gospel soldiery. "No man that warreth, entangleth himself," etc.—*Springfield Union.*

MEDICAL INSTRUCTION TO THE ARMY.

ASST. SURG. JAS. E. PILCHER, U.S.A., has just completed, at Fort Custer, a course of four lectures on Popular Medicine and Surgery, in compliance with the recent order from the War Department, assisted by a class of 16 men, being two volunteers from each troop and company in the post. These men received special instruction and training in the subjects discussed, the idea being to have at least two men in each organization who should be fully instructed in all that is necessary to meet ordinary emergencies. The lectures were given from the stage of the Post Theatre, which was fully lighted and set as for a dramatic play, and upon the stage the doctor performed every manœuvre mentioned in his lectures. In the first lecture, under the title "The Mysteries of the Human Body," a description of the anatomy and physiology of the human system was presented. The second lecture was one entitled "Broken Bones and Bleeding Wounds," special attention being given to extemporized splints for fractures, showing how the arms and clothing of the soldier could be useful for the purpose, and to extemporized tourniquets, and other easily applicable means of arresting hemorrhage. Under "Swooning, Drowning and Deaths," the Doctor discussed the kinds of insensibility which the soldier would be likely to meet, and the methods of treating them, including resuscitating the apparently drowned and determining the question of death. A notable feature of this lecture was the demonstration of the various methods of transporting an insensible or wounded man by extemporized means, and the rapid extemporization of litters from articles usually found on or near a field of battle. The last lecture was on "Poisoned and Preventable Diseases." After a brief discussion of the dangers of excessive use of tobacco and alcoholic liquors, the lecture closed with a discussion of the social evil in relation to the soldier, and the various affections arising from it. There was a large attendance of both officers and men, and vigorous applause greeted the Doctor on his appearance before his audience and at the close of each lecture.

At Fort Lewis, Colorado, also, Capt. T. A. Cunningham, Assistant Surgeon, U. S. A., a pioneer in this good work, is delivering weekly lectures, and the interest taken in them at the post is reported extremely satisfactory.

NEW PUBLICATIONS.

The story, "A Zealot in Tulle," by Mrs. Wildrick, wife of Major Wildrick, of the 5th Artillery, published by D. Appleton and Co., has for its heroine a beautiful woman, so named by the lover who finds her conscience too exacting. It is a story of Army life, related in a picturesque fashion, and the plot is founded upon the search for old Spanish treasures in the ancient fort of San Carlos de Barraneas. Mrs. Wildrick has excellent powers of description and characterizes vividly the Army people whom she draws; the old Colonel Finisterre, pathetically awaiting removal, lovely young Polly, treacherous "Bunny," the gossip of the post, are very suggestive sketches of character to those familiar with life on an Army post.

In the "Southern Bivouac" for April is a paper on "The Fight for Richmond," by Gen. E. M. Law, of the Confederate Army, which will attract attention. M. M. Cassiday, in an account of "The Surrender of Fort Donelson," tells how it came that Gen. S. B. Buckner, third in command, was left to surrender the fort.

Military Order of the Loyal Legion.

The next meeting of the Ohio Commandery takes place April 6 and promises to be a very interesting one, from the fact that Capt. Wm. Rule, of Knoxville, Tenn., will read a paper on that occasion entitled "The History of East Tennessee Unionists in the Late War." Capt. Rule is a native Tennesseean, and was one of the Southern-born men who was true to the "old flag." A large reunion is expected.

At a meeting of the Minnesota Commandery, to be held at St. Paul April 6, the following will be balloted for: Col. Jas. Gilfillan, U. S. V.; Col. A. P. Stearn, U. S. V., and Capt. J. N. Searles, U. S. V. Gen. S. P. Jamison will read a paper on the "Illusions of a Soldier."

At a meeting of the New York Commandery, to be held at Delmonico's April 6, the following will be balloted for: Capt. H. L. Beach, U. S. V.; Col. H. A. Gildersleeve, U. S. V.; Col. Walter McFarland, Corps of Engineers, U. S. A.; Capt. G. H. Cook, U. S. A.; Col. R. Loughran, U. S. V.; Medical Inspector A. C. Rhoades, U. S. N.; Captain W. F. Tiemann, U. S. V.; Lieut. J. R. Moore, U. S. V.; F. B. Gilbert, late A. A. Paymaster, U. S. N.; Major L. C. Brackett, U. S. V.; Col. W. Jay, U. S. V.; Major M. W. Tyler, U. S. V.; Surg. J. Shrady, U. S. V.; Col. A. F. Walker, U. S. V.; Capt. B. Lockwood, U. S. V.; Major R. C. Kellogg, U. S. V.; Col. G. S. Batcheller, U. S. V.; Lieut. G. S. Batcheller, U. S. V.; Lieut. A. M. Burtis, U. S. V.; Lieutenant W. E. White, U. S. V.; Gen. E. S. Parker, late U. S. A.; Major W. M. Este, U. S. V.; Lieut. C. W. Ely, U. S. V.; Lieut. C. H. Barney, U. S. V.; Col. A. Strain, U. S. V.; Lieutenant G. W. Ford, U. S. V.; F. J. Hall and C. O. Belden, M. D. At this meeting General James Grant Wilson will read some "Personal Reminiscences of the War." Among the recent contributors to the library are General R. C. Drum, U. S. A., and Chief Clerk J. W. Hogg, of the Navy Department.

At a meeting of the District of Columbia Commandery to be held April 6, the following will be balloted for: Paymr. H. T. Wright, U. S. N.; Col. L. P. Wright, U. S. A.; Nichols Pratt, late Acting Master, U. S. N.; Capt. L. A. Beardslee, U. S. N.; Gen. A. Rutherford, U. S. V., and Col. S. E. Blunt, U. S. A. The total membership is now 375.

At a meeting of the Michigan Commandery, to be held at Detroit April 6, Col. S. E. Pittman will read a paper on "The Operations of General Alpheus S. Williams and his Command in the Chancellorsville Campaign Spring of 1863."

ANSWERS TO CORRESPONDENTS.

B.—You stand 39 on Commissary Sergeant list.

I See.—You stand No 15 on Commissary Sergeant list.

X. C. T.—Information as to standing on list for ordnance sergeants cannot be given.

J. S.—Ordnance Sergeant David Porter, U. S. A., is stationed at Fort Pike, Orleans Parish, Louisiana.

Vet.—Yes. Captain William O'Connell, U. S. A., retired, formerly of the 4th Cavalry, is still alive and resides at Winamac, Indiana.

Captain.—The probabilities are that there will be no chance for civilian candidates to Army 2d lieutenantships for the next two years at least.

10th Cavalry.—The two you mention were not recommended for appointment to P. Q. M. Sergeants by the Board before which they appeared.

Where can I procure copies of Sousa's Trumpet and Bugle Instructor? ANS.—Of Carl Fischer, No. 6 Fourth Avenue, New York City. Price $1.

Ney.—The last appointment to Commissary Sergeant, Feb. 5, had 19 years' service. The other four were appointed during the preceding two years.

Seeker asks: Company is marching in column of twos, single rank formation. What distance is the leading guide from the leading two? ANS.—Twenty-one inches.

M. K. N.—The regulation clothing should be worn like the prescribed uniform "in camp or garrison." Deviations would undoubtedly subject the offender to a reprimand if noticed.

Stickler.—Lieut. C. L. Potter, recently transferred from the 5th Cavalry to Engineers, graduated fifth in his class last year. The four above him, Newcomer, Patrick, Roché and Rees are already in the Engineers.

P. E.—There is no law, so far, changing the present requirements of the 103d Article of War. If a deserter should enlist under an assumed name, of course trial by court-martial and punishment would follow detection.

W. B. F.—The only book publishing rulings and changes in regard to Upton's Tactics is issued by the War Dept. and republished by the State of New York. It is not for sale anywhere. Either write to the War Dept. or to the Adjt.-General, S. N.Y., Albany, N. Y. You may possibly obtain one gratis in that way.

F. H.—You could apply through your company commander to the Adjutant-General of the Army to have your name changed, but we understand it to be the invariable rule of the War Department that a soldier must be borne on the records of his company and regiment as of the name under which he enlisted. On re-enlistment the change might be effected.

National Guard asks: Please inform me what are the leading organizations in this city in the infantry, cavalry and artillery (both heavy and light) arms of the service of the State. ANS.—The 2d Battery, Capt. F. P. Earle, in the artillery, the 7th, 23d and 12th Regiments in the infantry. Until the hussar troop is definitely established and incorporated in the National Guard there will be no cavalry organization.

J. H. G.—Referring to answer in JOURNAL of March 5, you are further informed that the daughter and only child of the late Capt. Samuel McKee, 1st U. S. Cavalry, is living at Frankford Arsenal, Philadelphia, with her aunt, Mrs. D. W. Flagler, whose husband is in command of the arsenal. Any information you may wish may be obtained from her. Address, Miss M. F. McKee, Frankford Arsenal, Philadelphia, Pa., care of Col. D. W. Flagler, U. S. A.

G. L. S.—No person shall be enlisted in the Navy as a landsman *over* the age of 24 years unless he possesses some mechanical trade, nor after 34, even with a trade, without the consent of the Navy Department. A person to be enlisted as an ordinary seaman must have been two years at sea. Applicants must be of good moral character and free from all physical defects. You can enlist at the Brooklyn, N. Y., Navy-yard, and from there be transferred to a seagoing vessel. The *Atlanta* and *Dolphin* will probably be the next vessels to leave the yard. For information as to vessels read the ARMY AND NAVY JOURNAL.

Discharge asks: A is discharged after expiration of first enlistment, transfers his final statement to B; B in calculating allows A travel pay to place of enlistment at the rate of $13 per month, or 43 cents for each 20 miles, and 30 cents for subsistence at a total of 73 cents for each 20 miles. A claims that his pay is $16 per month on fifth year of enlistment and should receive at the rate of 53 cents travel pay and 30 cents subsistence for each 20 miles at total of 83 cents. Who is correct? ANS.—A is right. In the case as stated travel pay should be computed at the highest rate of pay, *including retained pay*, which would be at the rate of $16 per month, or 53 cents for each 20 miles with 30 cents subsistence, making total of 83 cents per day.

Information asks: 1. Par. 16, Inf. Tactics.—In the 2d, 3d, and 4th exercises, after the command "continue the motion," does the recruit execute "resuming the position of the soldier" till the command three? ANS.—He does not resume the position of the soldier until the command three. Such is our understanding from reading the Tactics, as well as from custom and practical experience.

2. Par. 255. Inf. Tactics.—Commands are: 1. Platoons right wheel. 2. March. "1. Platoon. 2. Halt. 3. Left. 4. Dress. 5. Front." "At the command *halt*, the right guide of the right platoon passes by its front, in double time to its left," etc. Should that guide come to a "right shoulder arms" or "trail arms?" ANS.—Both are permissible under the Tactics and are used.

Pro Patria and Gloria asks: 1. What are the necessary qualifications for admission to membership of the 1st Hussars, of this city, or to whom I may apply for such information or admission to membership. ANS.—Inquire of Captain Thomas Manning, whose office is 53 Beaver St., and who lives at 34 W. 26th St.

2. Is there any *good* organization of light artillery in this city, connected with the National Guard, and, if so, the name or designation and where located, and all about it? ANS.—The 2d Battery, Capt Ferdinand P. Earle, located at Broadway and 45th St. Write to Capt. Earle at the "Hotel Normandie," cor. 38th St. and Broadway, or to 1st Lieut. David Wilson at the armory, 45th St. and Broadway, and they will tell you all about it.

C. S.—You are correct in saying that a color sergeant should wear "three bars and a sphere one and one-fourth inches in diameter." Tactics do not provide for a permanent color sergeant. The latest regulation fixing rank in the Army published in G. O. 6, of January 9, 1886, ignores this rank entirely. Gen. Sheridan, October 14, 1886, made the following decision, according to which the appointment of any color sergeant, except a *regimental* one, seems improper. "The display of a flag and the use of a color-guard with a battalion of troops not at regimental headquarters, or representing a regimental organization, is not proper. Flags issued to regiments according to regulations should be kept in the custody of the regimental commander and paraded when he may so direct. For any other officer to procure and display a flag which has not been regularly and properly issued to his command, or which might probably be refused him should he make requisition for it, seems to be clearly improper."

A correspondent takes exception to our statement last week in our observations upon armor-plates that "the idea of an ironclad, the inspiration was our own and the first trial of armor in warfare was in American waters." He says: "In 1856 I visited a badly-scarred ironclad at Toulon just fresh from the Crimea." So early as 1814, a patent was issued to Thomas Gregg, of Pennsylvania, and in 1842 R. L. Stevens, of New Jersey, commenced the construction of an iron-armored war ship. The ironclad which our correspondent saw at Toulon was one of the armor-plated floating batteries built by the French in 1853, and used with good results in the bombardment of Kinburn, 1855. King, in his "War Ships and Navies," says: "The armor-clad epochs, however, may be dated from the first battle between ironclads, which occurred between the little *Monitor* and *Merrimac*. From that day dates the contest which is still raging between gun and armor." Not only is this statement justifiable, but it is also true that both the vessels engaged possessed distinctive structural features, the *Monitor* in her turret and the *Merrimac* in her deflecting sides, which were not thought of by the French engineers, but have since 1862 been copied by all great naval powers.

B. M. G. asks: 1. In executing the first motion of present sword, should the blade be straight up and down or inclined? Ans.—The Tactics say it is carried *vertically* to the front. See par. 755.

2. In executing the second motion, should the hand be extended full length and the point be direct to the front or in the direction of the right foot? Ans.—We cannot answer this question more explicitly than by giving the language of the Tactics, which is: Drop the sword by extending the arm so that the right hand may be brought to the side of the right thigh, the back of the hand down, the blade inclining downward and to the front.

3. When arms are ordered, should the point of the sword be directly to the front or between the feet? Ans.—At order arms the point of the sword is simply dropped to the front into the position where it naturally finds itself back of the hand up. See par. 757. At parade rest it is between the feet.

4. In the salute with the hand for officers, how is the second motion executed; in lowering the hand how far should the fingers be from the shoulder, and how is the elbow advanced? Ans.—The Tactics tell all that is necessary in the matter. We cannot instruct you further.

Soldier asks: 1. In the official decisions just issued to the N. G., S. N. Y., paragraph 23, reference is made to paragraph 139, Infantry Tactics. Should it not be paragraph 189? Ans.—It would seem so.

2. Where the Tactics are explicit it is not necessary to obtain any further decision. Par. 32, Upton's Tactics, says that "the side step is always executed in quick time unless common time be specified." By this we understand that the feet move at the rate laid down for quick time, now 120 steps to the minute. It is an absurdity to assume that the cadence of the step should increase in proportion as its length decreases. According to this the back step would have to be executed at the rate of 240 per minute. It is well known that the side step has a tendency to accelerate the cadence, and it is generally executed swifter than in quick time, but 120 per minute is tactical. Some people hold that a "side step" is not complete until the foot which moves second is replaced by the side of the one which made the initial move. If this is correct, then the feet move at the rate of 240 per minute, which seems to us a physical impossibility.

3. Should a Chaplain wear a sword? Ans.—All those we have seen did wear swords.

4. Should not officers on all occasions when commanding troops (at attention) have swords drawn, whether troops are armed or not? Ans.—When armed with the sword they should draw it while giving commands.

5. Par. 171, Official Decisions, would arms be presented if commissioned officer was in command? Ans.—No: the decision says that if the detachment is commanded by a commissioned officer the *same compliment* should be paid, etc. The "same compliment" means a carry by the men and a salute by the officer in command. Read par. 170 in connection with this.

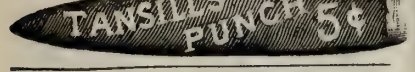
6. Your question about the formation of a battalion we do not remember to have received. What was it?

THE ENGLISH 110⅓-TON GUN.

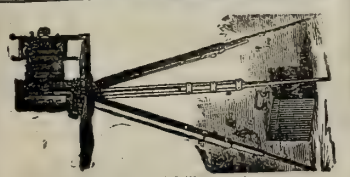
We copy from the London *Engineer* an illustration of the new 110, 110⅓, or 111-ton gun, as it is variously called, as it appears, mounted on the barbette towers of H. M. S. *Benbow*. The gun is held down on the bed by steel bands and recoils in its bed on the slide. The slide and ram are shown in the cut. The latter is hinged or pivotted in front and is elevated by elevating ram. When the slide is fully down the gun is in the loading position. The ammunition lift brings the projectile and charge, which latter is subdivided like those employed in the German guns, in succession to the breech, the hydraulic rammer forcing them home. The recoil always acts parallel to the slide. Theoretically the recoil is not so perfectly met as in some of the earlier Elswick designs, in which the presses were brought opposite to the trunnions, so that they acted symmetrically on each side of the centre of resistance. The barbette tower is covered by a steel plate, shown in the figure, fitting close to the gun slide, so that the only opening is that behind the breech when the gun is in the forward position, and this is closed as it recoils. The only man of the detachment even partly exposed is the number one, while laying the gun, and in that position he is nearly covered by the gun and fittings. The *Engineer* says:

"Common shell, shrapnel shell, and steel armor-piercing projectiles, have been approved for the 110⅓ ton gun. The first, like the common shell for all the larger natures of new type guns, is made of steel. It has been found necessary to support the core used in casting these projectiles at both ends; consequently there is a screw plug at the base as well as at the apex. The hole at the base is used as a filling hole for the insertion of the bursting charge, which consists of 179 lbs. of powder, the total weight of the filled shell being 1,800 lbs. The apex has a screw plug of larger diameter than that of the fuse. The fuse is a direct action one. The needle is held in the centre of a copper disk, and is safe against explosion until it is actually brought into contact with an object, when it is forced down, igniting a patch of cap composition and the magazine, and so firing the bursting charge of the shell below. There are three priming charges of seven grains of pistol powder made up in shalloon bags to insure the ignition of the bursting charge, which is in a bag of serge and shalloon beneath. The use of this fuse involves the curious question of the physical conditions now existing in the discharge of our projectiles by slow burning powder. The forward movement of the shell is now so gradual that the inertia of a pellet is only sufficient to shear a wire of one-tenth the strength of

ROYAL



BAKING POWDER



Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* Royal Baking Powder Co., 106 Wall st., New York.

AN EXTRAORDINARY RAZOR

Has been invented by the Queen's own Company of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

How to Cure Skin & Scalp Diseases with the Cuticura Remedies.

Torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp, and blood with loss of hair, from infancy to old age, are cured by the Cuticura Remedies.

Cuticura Resolvent, the New Blood Purifier, cleanses the blood and perspiration of disease, sustaining elements, and thus removes the *cause*.

Cuticura, the great Skin Cure, instantly allays itching and inflammation, clears the skin and scalp of crusts, scales and sores, and restores the hair.

Cuticura Soap, an exquisite Skin Beautifier, is indispensable in treating skin diseases, many humors, skin blemishes, chapped and oily skin. Cuticura Remedies are the great skin beautifiers.

Sold everywhere. Price, Cuticura, 50c.; Soap, 25c.; Resolvent, $1. Prepared by the Potter Drug & Chemical Co., Boston, Mass.

Send for "How to Cure Skin Diseases."

PAINTED with the loveliest delicacy is the skin bathed with Cuticura Medicated Soap.

ALLAN RUTHERFORD,

Late Third Auditor U. S. Treasury, late Capt U. S. Army, and Colonel of Volunteers,) ATTORNEY AND COUNSELOR AT LAW, Corcoran Building), F and Fifteenth Streets, Washington, D. C.

Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D.C.; Hon. John S. Williams, 3d Auditor, U.S. Treasury, Washington, D.C.; Hon. W. P. Canaday, Sergt. at Arms, U. S. Senate, Washington, D. C.; Gen. O. O. Howard, U. S. Army.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL,

20 Nassau St., New York.

Improving Newtown Creek, New York.

Engineer Office, U. S. Army, Room 31, Army Building, Cor. of Houston and Greene Streets, New York, March 2, 1887.

SEALED PROPOSALS for Improving Newtown Creek, by dredging, will be received at this office until twelve (12) o'clock, M., on Wednesday, April 6, 1887.

Proposals must be made in triplicate. Specifications, blank forms and instructions to bidders may be had on application at this office.

WALTER McFARLAND,
Lieut. Col. of Engineers.

PROPOSALS FOR RATIONS, FUEL, AND MILITARY SUPPLIES.

Headquarters U. S. Marine Corps, Quartermaster's Office, Washington, D. C., March 8, 1887.

SEALED PROPOSALS, in duplicate, will be received at this office until 12 o'clock M. of the 31 day of May next for furnishing Rations, and until 12 o'clock M. of the 4th May, for furnishing Fuel, to the United States Marines, at one or more of the following stations, from the 1st July, 1887, to the 30th June 1888, viz.: Portsmouth, N. H.; Charlestown Mass.; Brooklyn, N. Y.; Philadelphia and League Island, Pa.; Annapolis, Md.; Washington, D. C.; Norfolk, Va.; Pensacola, Fla., and Mare Island, Cal.

Specifications and blank proposals can be obtained upon application at any of the stations named above, or at the office of the Quartermaster, Washington, D.C., and Assistant Quartermasters, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal.

Sealed proposals will also be received at this office until 12 o'clock M. of the 5th day of May next for furnishing Supplies, consisting of Cloths, Kerseys, Flannels, Blankets, Hats, Helmets, Military Stores, Brooms, Brushes, Axes, etc., to be delivered at the office of the Assistant Quartermaster, Philadelphia, Pa, free of expense to the United States.

Schedules, with specifications of the supplies required, can be obtained, and the standard samples seen, at the offices of the Quartermaster, Washington, D.C., Assistant Quartermasters' offices, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal., and at the Marine Barracks, Brooklyn, N. Y., and Boston, Mass.

Blank forms of proposals and all information can be had by applying at any of the places named above.

This office reserves the right to reject any and all bids and to waive defects; and bids from manufacturers in, or regular dealers of, supplies only will be considered.

Proposals may be made for one or more articles, deliverable at one or more stations, and will be considered separately for each article and place of delivery. They should be indorsed "Proposals for Rations, Fuel, or Military Supplies," as the case may be, and addressed to Major H. B. Lowry, Quartermaster U. S. Marine Corps, Washington, D. C.

Kinney Bros.

that which might formerly have been sheared by a similar pellet in an old type gun with quick burning powder; consequently, in many cases, it is found better not to depend on a suspending wire thus sheared, but to adopt direct action. The fuse in question would, we believe, act even on graze, at any angle over 10 degs. Probably at less angles than 10 degs. it would not explode against water, which would be an advantage in firing at ships. The shrapnel shell, like the common shell, is made of steel, and it is of the general form of the pattern of General Boxer, with wooden head, central tube, and bursting charge in the base. It contains 2,300 four ounce sand shots and an 8 lb. bursting charge. It weighs 1,800 lb. The fuse is time and percussion. It closely resembles the original Armstrong time and percussion patteru. The armor piercing projectile is to be made of forged steel, and supplied by Elswick. In appearance it very closely resembles those fired from the 100 ton gun at Spezia, but if it is made on the Firmini system it will differ from it in the composition of its metal, inasmuch as it will contain a large proportion of chromium, probably from 1 to 2 per cent., whereas an analysis of Krupp's shell gives none; in fact, as Krupp's agent at Spezia predicted, the analysis is less instructive than we could wish."

A SKETCH OF GENERAL BOULANGER.

GENERAL BOULANGER continues to be the observed of all observers. In the course of the week I had the pleasure of breakfasting with him at the War Office, where his family do not live, "because," said the General, "there are only two bedrooms in this immense palace; just room for myself and my wife. But there is not a spot where I could put my daughters to sleep." The General chats delightfully. He is very anecdotic and very frank. We talked a good deal of Algeria, Ceylon, and Canada. Now and then, but never at any length, the situation of Europe was discussed. The General is not for war unless France is attacked, in which case there should not be an instant of indecision, but a girding up of the loins and a resolute facing forward. He thinks war, even though it should end for France in a brilliant triumph, would be a terrible misfortune.

General Boulanger has a deal of moral courage and does not mind what is said about him. He had early to steel himself against harsh gibes. "How was that, General?" I asked. "Simply by being often and for long intervals when a boy in England. You know how intolerant English schoolboys are of foreign peculiarities, or indeed peculiarities of any sort. Now, whenever I went on a visit to my uncles in Brighton, I always had French-made clothes and spoke English with a strong French accent. My name, too, was very un-English. So I was not only for my schoolmates but for the young street arabs, a 'French dog,' and 'froggy,' and many other things equally hateful in their eyes. The boxing matches were endless. My uncles insisted on my learning how to defend myself and take my own part. My temperament is a British product. I learned in Brighton how to stand being 'roasted' with gibes, and don't mind a bit how I am abused, laughed at, or calumniated."—*N. Y. Tribune.*

(From the Court Journal.)

A SMALL CAL. RIFLE AND A COPPER BULLET.

THE Danish War Department has for some considerable time been directing its attention to a small calibre rifle. The result is giving great satisfaction. The department have not only succeeded in producing a thoroughly satisfactory repeater model, but the difficulties from the small calibre have been satisfactorily overcome, and an 8-millimetre cartridge has been adopted. By coating the leaden ball with copper, and by pressing the powder in the cartridge, a velocity of 150 feet above that mentioned by the Austrian Minister of War has been obtained. There is no depositing of lead in the barrel, and the wear and tear from a bullet coated with copper is of course very small. The accuracy of the shooting continues unaltered without cleaning the barrel—even when as many as 50 to 100 shots have been fired. The accuracy of the fire is proved by the fact of more than half of the shots at a distance of 1,200 feet being covered by a belt about 6 inches broad, and the distance between the highest and the lowest hit being only about 8 inches, as far as half the shots were concerned. At a distance of 3,200 feet these figures were only increased to 2¾ feet and 2 5-6 feet respectively.

Proposals for Lamp Chimneys.

DEPOT QUARTERMASTER'S OFFICE, HOUSTON ST., CORNER GREENE, NEW YORK CITY, March 16, 1887.

SEALED PROPOSALS in triplicate, subject to the usual conditions, will be received at this office until 11 o'clock A. M., April 18, 1887, at which time and place they will be opened in presence of bidders, for furnishing and delivering at this depot, free of charge for cartage and packages, 100,000 best annealed flint glass lamp chimneys, polished ends, of size and pattern to be seen at this depot.

Proposals must give price "in bond" and "duty paid," be accompanied by samples, delivery to be made July 1, 1887, or soon thereafter.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department.

A preference will be given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked "Proposals for Lamp Chimneys," and addressed to the undersigned.

HENRY C. HODGES, Lieut.-Colonel and Deputy Q. M. General, Depot Quartermaster.

DEPOT QUARTERMASTER'S OFFICE, HOUSTON ST., CORNER GREENE, NEW YORK CITY, March 8, 1887.

SEALED PROPOSALS, in triplicate, are invited and will be received at this office until 11 A. M., April 16, 1887, at which time they will be opened in the presence of the bidders, for the erection at Willet's Point, New York Harbor, of a double set of officers' quarters, with cistern, plumbing, tank, &c., for each set, and for a 24-bed hospital and a dead house, with the plumbing, &c., complete: all in accordance with plans and specifications, which can be seen at this office, and at the Post Quartermaster's Office at Willet's Point. Bids, which must be on the blank forms of this department, may be made for either building complete or for both, and must state the time required for the completion of each.

The Government reserves the right to reject any or all bids.

Envelopes containing proposals should be addressed to the undersigned and indorsed: "Proposal for Erection of Officers' Quarters," or for the hospital, or both, as the case may be.

HENRY C. HODGES, Deputy Quartermaster-General, United States Army.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 37. WHOLE NUMBER 1233. | NEW YORK, SATURDAY, APRIL 9, 1887. | SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE sixty-fifth anniversary of the birthday of the late General U. S. Grant, U. S. A., will occur April 27, an occasion which is to be duly remembered and honored in many parts of the country.

WE are glad to note that the system of medical lectures at our military posts for the instruction of officers and enlisted men has now taken thorough root, and bids fair to prove an interesting feature of garrison life, especially during the winter season.

IT is a good sign that things are moving in a right direction, when a soldier is brought to trial for "knowingly purchasing from a recruit a uniform coat." The facilities for selling articles of uniform clothing, as we have more than once remarked, are somewhat too easy, and the practice, in every respect a vicious one, should be sternly repressed.

THE lists of candidates for appointment as members of the Boards of Visitors to the Military and Naval Academies are being prepared at the War and Navy Departments, and will be sent to the President in a few days. The appointments are usually made during the first week in May. There are about twenty-five candidates for the West Point Board and about fifteen for the Naval Academy.

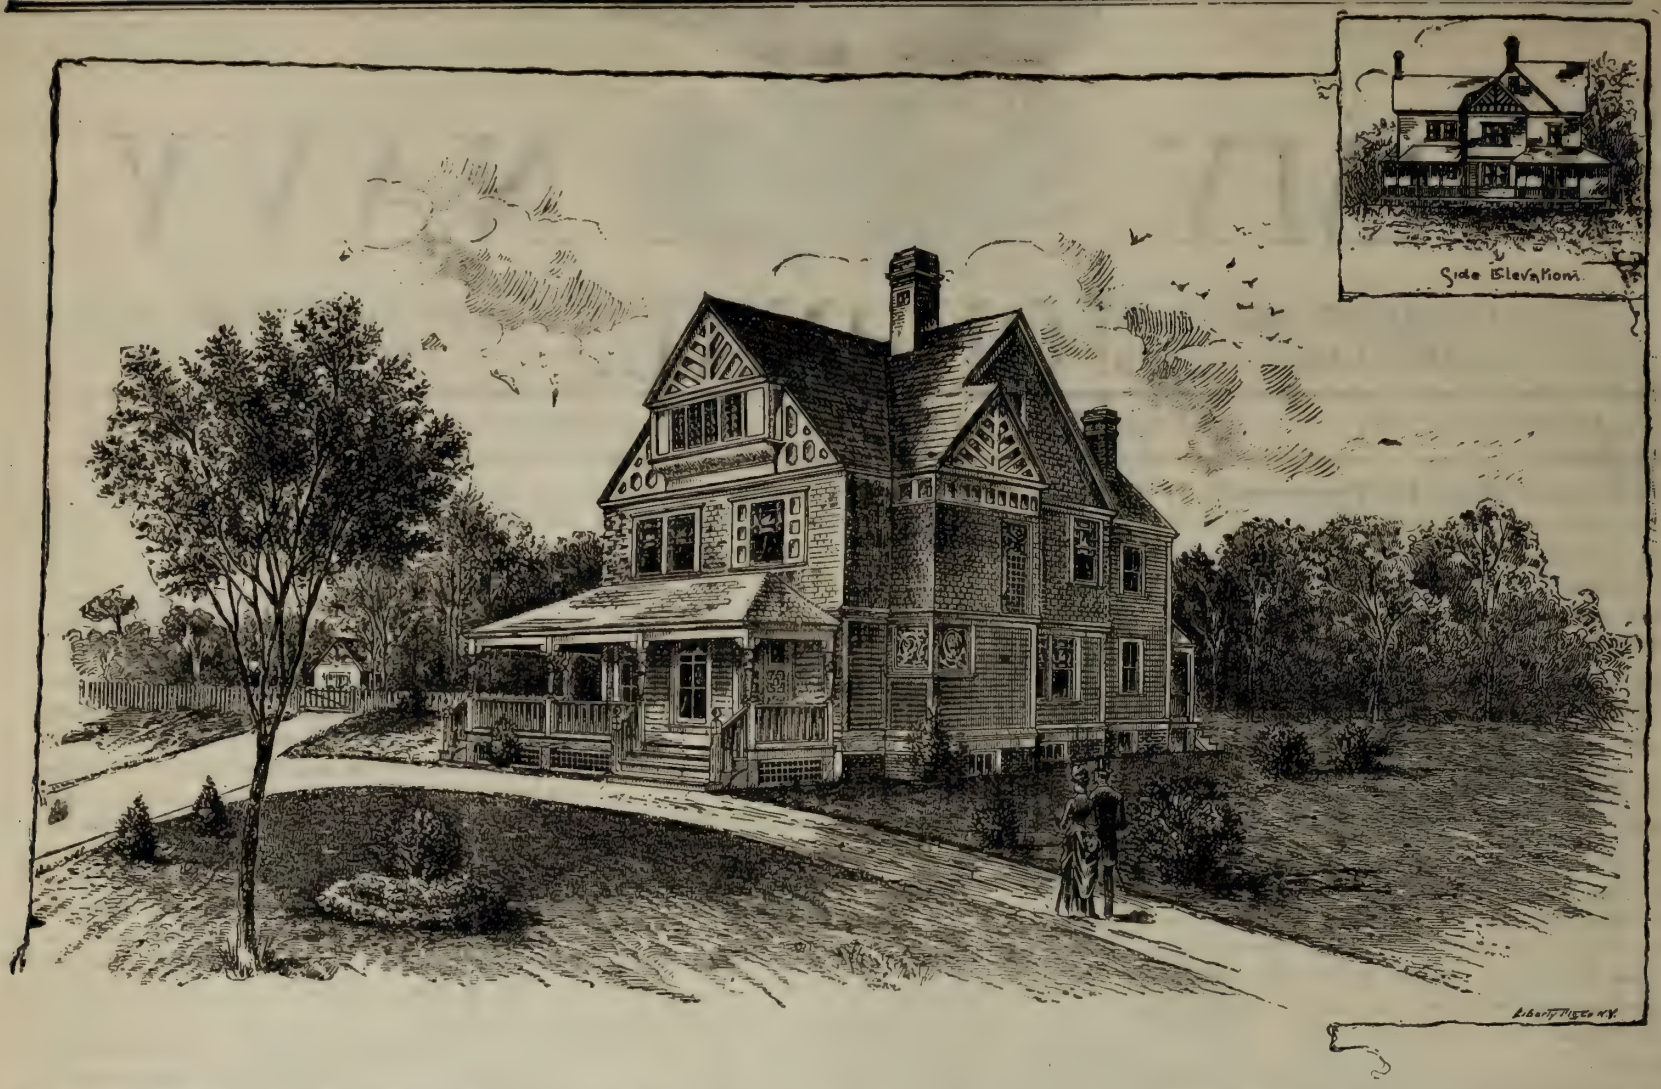
THE Cabinet, on Monday, considered the question of removing the Indian prisoners at St. Augustine and Fort Pickens to the reservation at Mount Vernon Barracks, Ala. From our knowledge of this latter reservation, we should deem it a suitable place for these unfortunates, being healthy and of considerable extent, in the neighborhood of 3,000 acres, covered mainly with pine trees, but susceptible of cultivation.

SEVERAL firings with the Army 8-inch steel gun, for the purpose of testing another sample of DU PONT powder, were made this week at Sandy Hook. The results were not so satisfactory as those obtained from either the German or American powder used during the experiments last month. A lower pressure was registered, but the velocity was also lower than during the first trials. Another sample lot is expected from DU PONT in a few days, when the experiments will be resumed.

THE annual report of the Lieutenant-General commanding, for 1886, with the accompanying reports of the Division and Department commanders for the same year is now receiving the finishing touches at the Government printing office, and will, it is expected, be ready for distribution during the present month. The report has been delayed on account of some trouble in lithographing the large and valuable map showing the operations of General MILES'S command during the GERONIMO Campaign.

OFFICERS throughout the Service will commend the Secretary's decision to refit the *Kearsarge*, now lying at the Portsmouth Navy-yard, for another commission. The *Kearsarge* and *Hartford* are the two ships in the U. S. Navy around which cluster the most glorious memories of its history, and the refitting of the first-named vessel may be followed by similar orders relative to the noble flagship of the Great Admiral. This action will, it is believed by many, go far towards strengthening the Naval spirit in Congress.

ONE of the signs sometimes found in shops reads, "If you do not see what you want ask for it." So we may say to the readers of the JOURNAL, if you do not find here the information you desire on any given subject ask for it. It is within our power to obtain information on almost any subject of interest to the Services, and if it does not appear here it is because our attention has not been called to the fact that it is wanted. Those, therefore, who visit us with inquiries confer a favor upon us as well as upon our readers who have the benefit of the information called for.



THIS last outbreak of duplication of pay accounts has suggested to the Paymaster-General of the Army the necessity of remedying the system which admits of such an abuse. A careful study of the plan in vogue in the Navy has convinced him of its applicability to the Army, and he has accordingly recommended to the Army Regulation Board an amendment to the regulations requiring that each officer of the Army be assigned for payment to a particular paymaster, necessary provision being made for transfer of accounts from one paymaster to another when the station of an officer is changed. As a further means of breaking up this duplication business, the Secretary of War has informed the firms who are sending out circulars to Army officers tempting them to pawn their pay receipts, that it is illegal for officers to hypothecate these accounts, and that the Department will in no way be responsible for the payment of accounts held by them.

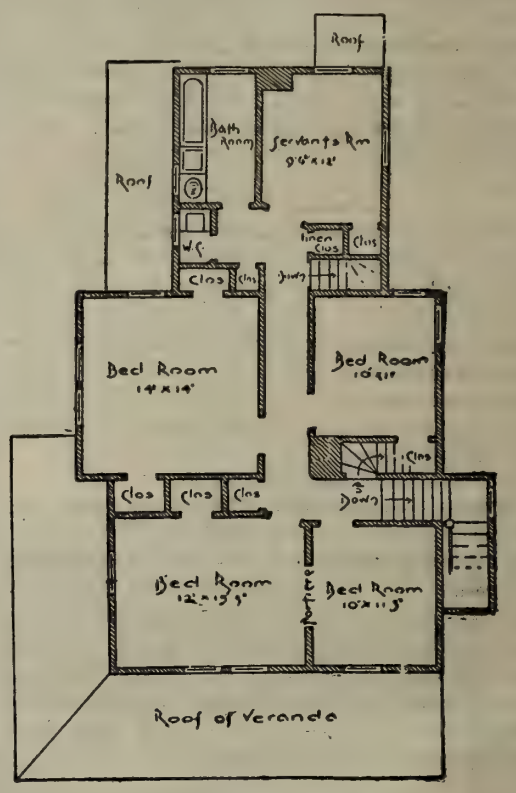
THE work of revising the Army Regulations is being carried on at the present time by a single member of the Board—Colonel OTIS. General BENÉT is too busy with militia and other matters connected with his office to devote much attention to the work; Lieutenant DAVIS is absent, having been called as a witness before the Civil Court at Lincoln, Neb., and the vacancy caused by Colonel SCOTT'S death is still unfilled. Colonel OTIS is thus left in full charge for the time being. The Board is more than half through with the work of striking out obsolete paragraphs and noting the amendments that have been made by General Orders since the last edition. By July 1, they expect to have the book, containing all the regulations as they actually exist up to that time, ready for the approval of the Secretary of War. It will then be in order to consider propositions for modifications of, and additions to, the regulations then existing, for recommendation to the Secretary of War.

THE busiest branch of the Quartermaster-General's office at this time is the Barracks and Quarters Division over which Colonel CHANDLER presides. Plans are now being prepared for the new 10 company post at Denver, Col., and reports written showing the condition of the posts at which improvements are most urgently needed. The $200,000 appropriated in the Sundry Civil bill for improvement of barracks and quarters will be available on July 1, and it is the purpose of Colonel CHANDLER to have all plans for improvements ready by that time, so that the actual work of construction can be immediately begun. The plans for the Chicago military post were prepared some time ago under the direction of Colonel TOMPKINS, but they are still awaiting the approval of the Lieutenant General. There is no hurry about them, however, as an appropriation from Congress will be first needed before any buildings can be erected there. Besides some months must elapse before all the papers are in shape for the formal acceptance by the Government of the site.

CAPTAIN F. V. GREENE, late U. S. A., has been instructing the members of the Massachusetts Reform Club in Boston on the subject of coast defences. He quite took away the breath of the sober Boston men by this statement: "The United States will probably be called upon before long to be the arbitrator between the nations of Europe. The latter cannot stand the financial strain much longer, and inside of 20 years we shall probably be the equal in the population and wealth of any two, if not three, nations of Europe, and to us will be referred all their disputes for settlement. When we become the referees of the world we must have the force behind us, so that when we give a decision we shall be able to enforce it; and this can only be adequately effected by a perfect system of coast defences." The argument in favor of coast defences may be sound, but is not this rather a large contract for Uncle Sam to undertake—to "boss" the entire world, and to realize the dream of the enthusiastic Yankee, who beheld him in prospect issuing his orders, "By Nations right (or left) wheel, march?" We are disposed to think that more than 20 years preliminary instruction will be required to reduce all to the happy condition of tractability foreseen by the gallant Captain. Still, we are inclined to believe that it would be a good thing for all concerned that Uncle Sam should grow big enough and strong enough to dominate the effete despotisms and bump their heads together every time they undertook to quarrel.

ON Saturday of next week, April 16, that gallant and veteran soldier, Brigadier and Brevet Major-General ORLANDO B. WILLCOX, U. S. Army, the present commander of the Department of the Missouri, will have reached his sixty-fourth birthday, and the day when, by law, he has to relinquish the cares and responsibilities of active service and take his place on the retired list of the Army. A review of the General's military career scarcely seems necessary, for in October last, when he was appointed to his present position, the press of the day did full justice to his honorable and distinguished services. Born in Michigan, he entered the Military Academy in 1843, joined the 4th Artillery, served in the war with Mexico, was promoted 1st lieutenant in 1852, resigned in 1857, and entered upon the practice of law at Detroit. In May, 1861, he received the appointment of colonel, 1st Michigan Volunteers, and in the following July was promoted brigadier general of volunteers. His service during the war as a division and at times a corps commander was of a high order, and in August, 1864, he received the brevet of major general U. S. Volunteers for "distinguished and gallant services in the several actions since crossing the Rapidan." He was mustered out in January, 1866, but in the following July returned to his old love, the Regular Army, as colonel of the 29th U. S. Infantry, and received the brevets of brigadier and major general for his gallantry at Spottsylvania and Petersburg. From that time forward he has served in many responsible positions; was for a long time commander of the Department of Arizona, then came to Sackett's Harbor with his regiment, and from there went, in October last, as brigadier general to Fort Leavenworth, to command the Department of the Missouri.

DESIGNS FOR OFFICERS' QUARTERS.



MUCH attention is being given to the subject of the improvement of officers' quarters now that the erection of new posts and the renovation of old ones offers an opportunity for change. To assist in this work we propose to publish a series of designs to give some idea of what can be done for a given sum and within a given space. For these designs, the first of which appears here, we are indebted to the Co-operative Building Plan Association of 191 Broadway, New York, who are doing an excellent work in the direction of improving country houses by furnishing designs in great variety and at a moderate cost. The numbers given with the designs appearing here refer to the corresponding numbers in the publication called Shoppell's Modern Houses, which is issued quarterly by the Co-operative Building Plan Association, each number containing more than fifty designs. The design given here (No. 390) is for a house with a front of 26¾ ft. and an extreme width, including verandas and staircase projection, of 37½ ft.; side, not including front veranda, 48½ ft. The floor plans show the size of the rooms, which are ten in all, besides the attic and the square hall. the first story, 10 ft. high; second story, 9 ft.; attic, 8 ft.; cellar, 7 ft.

The foundation is of stone and brick; the first story is clapboarded and the second shingled. The estimate of cost is from $3,500 to $4,000, complete, except mantels, range, and heaters. We would say once for all that these estimates are on the basis of prices in the vicinity of New York and that they allow nothing for builders or architects' commission or profit, including only the actual outlay for labor and material. There are open fire places in hall, library, and dining room; false chimney-breast in the parlor. The openings between the rooms of first story are intended for curtains, but doors can be hung if desired. The parlor windows have sliding sash and are carried to the floor. A door opens from dining room to rear porch. Stained glass in the hall windows. Cellar under the whole house; laundry under the kitchen. Heater pipes and registers are provided. The attic is not finished. With reference to this subject of quarters an officer writes us as follows:

"Let it be urged in construction of quarters at the new posts, Riley, Denver, and Chicago, that consideration of the needs and conveniences of those who shall occupy them be considered and avoid old ruts. The important need of bath rooms in company barracks is of course of first importance, though it has been known to have been overlooked; and in plans for officers' quarters it is suggested that double sets of quarters for officers be abandoned, the only advantage, a minor one, is economy in the dividing wall; real estate is not an element for consideration, as in cities, and even if it were, there are many grave objections to existing plans of having a porch in common with one's neighbors; aside from the fact that friendly relations do not always exist, and children trespass across the imaginary line of demarcation, there is at times a just desire for seclusion, even among the most cordial and friendly. This is not attainable with the present arrangements, and embarrassments and annoyances will arise. If for some other inscrutable reason the double sets of officers' quarters are an essential of life in garrison, at least plan the entrance at either side so that it will be separate and distinct from the immediate neighbor; even in city residences this is arranged, and the entrance steps and porch are separate and distinct. The absolute need of a bath room and retiring closets (where water supply is obtainable) in officers' quarters are so obvious, that these accessories, common in even the cheapest built houses, will not be forgotten. We are used to baths and we want baths; it can also be intimated that servants need a sleeping room and apart from the other rooms. These propositions are not extravagant, and we who have lived in log huts and wintered in tents on the frontier, as even now at Fort Du Chesne, will rejoice not only at proximity to real civilization, if we get there, in the vicinage of those cities, but also in the long haul and the short haul, live like similar people under similar conditions."

FIRST FLOOR. NO. 390.

SECOND FLOOR. NO. 390.

(Paris Despatch to the London Daily Telegraph.)

TEACHING CIVIL WAR TACTICS.

THE ex-Fenian and ex-Communist, Cluseret, still continues his treatise on civil war in the columns of a revolutionary paper with absolute impunity. His instructions are laid down with a precision worthy of Count von Moltke himself, and he calmly tells his readers how to erect barricades and to defend them against cavalry. The men marked out for barricade work should remember, he says, that their works are not destined for defence, but simply to prevent the circulation of the enemy's forces, to bring them to a full stop, and thus to facilitate a steady downpour on them from the houses of all sorts of missiles, including broken furniture as well as explosive matters. There is, therefore, no need to make the barricades finished works. They should be composed of overturned carts, doors lifted off their hinges, broken furniture, paving stones, if possible, and big barrels. In front of them should be strewn broken bottles, large pieces of glass, boards with nails sticking out of them, and explosive bombs. Not a man should be left behind the barricades. Such are "Gen." Cluseret's instructions to his friends, who read them with avidity in their dingy wine taverns, and long for the day when they can put them into practice against the detested bourgeoise.

PERSONAL ITEMS.

GENERAL T. G. PITCHER, U. S. A., was a visitor to New York City early in the week.

LIEUTENANT R. M. ROGERS, 2d U. S. Artillery, of Fort Leavenworth, is visiting in the East.

CAPTAIN C. L. DAVIS, 10th U. S. Inf., has rejoined at Fort Union, N. M., from a fortnight's leave.

LIEUTENANT R. W. HOYT, 11th Inf., was a visitor to Helena, Montana, this week on civil business.

GENERAL S. K. DAWSON, U. S. A., sailed for Liverpool on Saturday last on the *Etruria*, of the Cunard Line.

CHAPLAIN F. H. WEAVER, 10th U. S. Cav., has left Fort Grant, Ariz., to be absent on leave for several months.

HERR KRUPP is to start a daily newspaper at Essen for the instruction and pleasure of his 20,000 workmen.

LIEUTENANT E. E. HATCH, 18th U. S. Infantry, on sick leave from Fort Hays, Kansas, is visiting at Liberty, Mo.

LIEUTENANT GEORGE BELL, JR., 3d U. S. Inf., has left Fort Missoula, Montana, for the East, to remain for seven or eight weeks.

CAPTAIN J. B CAMPBELL, 4th U. S. Artillery, rejoined at Fort Monroe, Va., early in the week from a brief visit to Washington.

LIEUTENANT G. J. GODFREY, 12th U. S. Infantry, was to leave Sackett's Harbor, N. Y., the latter part of this week on a short leave.

LIEUTENANT C. L. POTTER, Corps of Engineers, arrived at Willet's Point, N. Y. H., early in the week from Fort Leavenworth.

GENERAL J. J. DANA, U. S. A., retired, of Washington, D. C., celebrates his sixty-sixth birthday on Saturday of this week, April 9.

GENERAL J. B. FRY, U. S. A., has rented for the summer the cottage at the corner of Francis Street and Everett Place, Newport, R. I.

CHARLES DUDLEY WARNER, the author, Mr. and Mrs. V. Lawrence, of Montreal, and Mrs. E. B. Custer, the widow of General Custer, are of a party visiting the Pacific Coast.

LIEUTENANT G. F. COOKE, 15th U. S. Infantry, now in Europe, is expected to return home soon and spend a short season in the East before rejoining his company at Fort Randall.

LIEUTENANT JAMES CURRY, U. S. Army, retired, reached his sixty third birthday on Monday, April 4, an occasion which was duly remembered by his friends at Old Point Comfort.

CAPTAIN CLARENCE E. DUTTON, Ordnance Department, will read a paper at the next meeting of the National Academy embodying the results of the study of the Charleston earthquake.

JEFF DAVIS, says a Mississippi correspondent, though close on his eightieth birthday, still journeys out into the brambles near his home at Beauvoir and shoots an occasional rabbit for sport's sake.

SURGEON W. H. GARDNER, U. S. A., returned this week to Fort McHenry, Md., from Washington, D. C., where he was called last week by the serious illness and subsequent death, April 1, of his mother, Mrs. Rebecca C. Gardner.

COLONEL H. C. MERRIAM, 7th U. S. Infantry, looked up old friends in New York this week, and sails for Europe on Saturday, April 9, on the *Aurania*. His address is, care of Bank of Montreal, 22 Abchurch Lane, London.

GENERAL C. B. COMSTOCK, U. S. A., turned over the command of Willet's Point and the Engineer School of Application this week, to Major W. R. King, Corps of Engineers, U. S. A., and returns to his old station in New York City.

THE officers "mess" of Fort Leavenworth has appointed a committee of five officers, consisting of Cols. J. P. Martin and Hawkins, Lieuts. Byrne and Barney and Dr. Ewing to make arrangements for a house-warming to take place next week.

GENERAL LOGAN'S book entitled "The Volunteer Soldier of America," to be published in Chicago next June, is dedicated "To the Immortal Host of Citizen Soldiers and Sailors, who, from Lexington to Appomattox, have Won the Liberty of the Republic, Maintained its Honor, and Preserved its Integrity."

MAJOR JAMES DANIEL SCOTT, of Philadelphia, Ark., a hale and hearty old gentleman of 84 years of age, is a son of Samuel Scott, who, as a private under Gen. Morgan, witnessed the surrender of Cornwallis at Yorktown, and his mother was a sister of Gen. Winfield Scott, and both parents (cousins), it is asserted, were first cousins of Sir Walter Scott.

LIEUTENANT R. K. EVANS, 12th U. S. Infantry, who has succeeded to the adjutancy of his regiment, is an extremely capable officer who was graduated from West Point in 1875. Lieut. F. A. Smith, who has held the position since 1878, has joined Captain Norvell's Company, which, much to the gratification of his friends, retains him at his present station —Madison Barracks.

CAPTAIN W. R. SMEDBERG, U. S. A., retired, of San Francisco, late Dept. Commander of the G. A. R. in California, in his farewell report indicates the fine condition of the Order on the Pacific Slope, and "cherishes the hope and sincere conviction that it will move on in Fraternity, Charity and Loyalty, making itself felt more and more, with the passage of years, as a power for good in the great land of American Union."

FATHER OSBORNE, in a recent address at Trinity Church, New York, to business men, spoke in apt terms of the respect and dignity that legitimately belong to a soldier's life. He said that people were too apt to think of the soldier as a rude, passionate, often brutal being, and as arbitrary and overweening in authority, but, on the contrary, his calling was not in the least incompatible with the best graces of the Christian life.

LIEUTENANT J. A. EMERY, 11th U. S. Infantry, has been visiting at Hardway, Ga.

LIEUTENANT S. C. MILLS, 12th U. S. Infantry, was in New York City this week, on his way South.

MAJOR G. E. HEAD, 31 U. S. Infantry, at Fort Missoula, is a recent guest at the Ryan House, St. Paul.

MRS. MARTIN, wife of Col. J. P. Martin, U. S. A., has returned to Fort Leavenworth from a short visit East.

LIEUT. L. H. STROTHER, 1st U. S. Infantry, will remain a few weeks longer in the East before going to San Francisco.

CAPTAIN F. A. WHITNEY, 8th U. S. Infantry, will rejoin at Fort Niobrara, Neb., next week, from a fortnight's leave.

PAYMR. GEN. W. B. ROCHESTER, U. S. A., paid a visit to New York City this week, quartering at the Murray Hill Hotel.

COL. JOHN MENDENHALL, U. S. A., Commandant of Fort Trumbull, Conn., paid a short visit this week to friends in Boston.

MAJOR W. E. CREARY, Paymaster, U. S. A., on leave, from Omaha, is visiting at 415 4th Street, N. W., Washington, D. C.

GENERAL L. P. BRADLEY, U. S. A., has settled upon Chicago for a residence, and is located at 375 Dearborn street, in that city.

CAPTAIN GREGORY BARRETT, 10th U. S. Infantry, now of Fort Selden, N. M., has recently been visiting friends at El Paso, Texas.

LIEUT. J. E. RUNCIE, 1st U. S. Artillery, of the Presidio of San Francisco, is on a short visit to Vancouver, Washington Territory.

A PAPER on "The Siege of Charleston" will be read April 20 before the United Service Club of Philadelphia by Major Isaiah Price.

CAPTAIN ARTHUR MCARTHUR, 13th Infantry, and family, have returned to Fort Leavenworth from a visit of two months to Washington, D. C.

MRS. THADDEUS DAVIS has returned to Buffalo from a visit to her son, Lieutenant G. B. Davis, 23d U. S. Infantry, at Fort Mackinac, Michigan.

COLONEL HENRY PRINCE, U. S. A., retired, whose residence is at 47 Pleasant street, Fitchburg, Mass., has been for some weeks in New York city.

THE New Jersey Senate on Monday killed the bill appropriating $5,000 for a monument to the late Gen. McClellan, at one time Governor of the State.

LIEUT. H. DE H. WAITE, 5th U. S. Cavalry, after a pleasant two years' course of instruction at Fort Monroe, Va., will shortly rejoin his troop at Fort Reno, I. T.

CAPTAIN A. S. DAGGETT, 2d U. S. Infantry, of Fort Omaha, contributes to the Philadelphia *Times* an interesting article on the Battle of Rappahannock Station, fought Nov. 7, 1863.

CAPTAIN JAMES ROCKWELL, JR., Ordnance Corps, U. S. A., was at Pass Christian, Miss., this week, to await the arrival of guns from Fort Jackson, to be used for instruction purposes.

ASSISTANT SURGEON J. V. R. HOFF, U. S. A., and MRS. HOFF, lately in Albany, visited, early in the week, at Fort Leavenworth, Kas., and will go to a post in the Department of the Missouri.

LIEUTENANTS F. A. EDWARDS and J. B. ALESBIRE, 1st U. S. Cavalry, of Fort Custer, Montana, started this week for Camp Sheridan, Wyo., to sit on a Court martial which meets Monday next.

MAJOR E. B. WILLISTON, 3d Artillery, now at Riley, did not visit at Fort Leavenworth, as his friends hoped, says the Kansas City *Times*, but he will be received with open arms when he does come.

GENERAL SHERIDAN'S increasing stoutness, says the Philadelphia *Inquirer*, has caused him to make friends with a pair of Indian clubs, whose size and weight would shock even the æsthetic John L. Sullivan.

LIEUT. H. T. REED, U. S. A., paid a brief visit to New York this week, and has gone to Indianapolis on his way home to Chicago. He finds nothing to complain of as regards the sale of his several military works.

LIEUT. A. W. VOGDES, 5th U. S. Artillery, who goes to Fort Hamilton, N. Y. H., April 15, to take over the duties of regimental quartermaster, will be much missed at Governor's Island, both professionally and socially.

THE HON. J. G. BLAINE is en route to Fort Gibson, Indian Territory, to visit his daughter, Mrs. Coppinger, wife of Col. J. J. Coppinger, 18th U. S. Infantry, and will then return East, to go to Europe in June for a year.

GENERAL J. P. HAWKINS, U. S. A., Chief Commissary of the Department of the Platte, has in the *American Grocer*, of March 23, an excellent article on "Corn Bread." He gives several excellent recipes for making corn bread and corn pone, and a copy of his article in full would be of much value to each company mess throughout the Army.

GENERAL W. T. SHERMAN, U. S. A., was a guest at the annual dinner on Monday evening at the Hotel Brunswick, of the New York Post Graduate Medical School. He related some humorous experiences during the war, and in the course of his remarks spoke in a highly complimentary manner of the present Surgeon-General of the Army, John Moore.

An Army retiring board consisting of Quartermaster-General Holabird, Medical Purveyor Baxter, Assistant Adjutant-General Kelton, Assistant Commissary-General DuBarry, and Assistant Surgeon J. O. Skinner, with 1st Lieut. Constantine Chase, 3d Artillery, recorder, convened at the Army Medical Museum, Washington, D. C., on April 7, and examined Major Warren Webster, Medical Dept., who has been confined for some time in the General Naval Asylum. Those who are familiar with the nature of his ailment are inclined to anticipate a recommendation that he be "wholly" retired.

LIEUTENANT F. G. HODGSON, 6th U. S. Cavalry, has recently been visiting at Owensboro', Ky.

CHAPLAIN M. C. BLAINE, U. S. A., left Fort Spokane, W. T., early in the month on a few weeks' leave.

LIEUTENANT J. H. H. PESHINE, 13th U. S. Infantry, on leave from Fort Elliott, Texas, is visiting at Milburne, N. J.

MAJOR G. A. PURINGTON, 3d U. S. Cavalry, of Fort Sill, has gone to Fort Worth, Texas, for a few weeks for the benefit of his health.

CAPTAIN W. A. THOMPSON, 4th U. S. Cavalry, now visiting in Washington, will shortly go to St. Louis to conduct recruits to Arizona.

COLONEL RICHARD LODOR, U. S. A., formally relinquished command of Fort McHenry, Md., April 6, preparatory to leaving for duty at Washington Barracks.

CAPTAIN H. G. BURTON, assistant surgeon, will shortly leave Fort Assiniboine, Montana, for temporary duty at Plattsburg Barracks, N. Y., not far from his home in Vermont.

THE marriage of Lieut. George Palmer, 9th U. S. Infantry, to Miss Bertha E. Wardrobe, will take place at Waukesha, Wis., April 21. The married couple will be "at home" at San Diego, Cal., May 12.

MR. CHARLES P. ECHOLS, of Huntsville, Ala., son of William H. Echols, who was graduated from West Point in 1858, assigned to the Topographical Engineers and resigned in 1861, has recently received an appointment to the Military Academy.

MAJOR ASA B. CAREY, Paymaster, U. S. A., has relieved Major Charles J. Sprague as Chief Paymaster of the Department of California, and the latter will be retired for age on Tuesday next, April 12, after a long and honorable career, which we outlined last week.

CAPTAIN WM. FLETCHER, 20th Infantry, has made application to be retired the 6th of August next, when he will have completed forty years' honorable service. Orders were issued this week relieving him from duty in the Department of Dakota and directing him to repair to his home in Washington to await retirement.

AT a meeting of the Executive Council of the Military Service Institution, held at Governor's Island, on Monday, Gen. John Gibbon, U. S. A., was elected a Vice President, and Lieut. E. R. Hills, late Adjt. 5th U. S. Art., Treasurer, in succession to Lieut. A. W. Vogdes who goes to Fort Hamilton to assume the duties of regimental quartermaster.

W. T. BLACKWELL, who is one of the richest men in North Carolina, owes his fortune to the war, his half million dollars having been made in handling the bright tobacco that Sherman's men found at Durham, subsequently spreading the knowledge of its excellence throughout the land. He is described as one of the shrewdest business men in the country.

THE sole surviving representative of the Revolutionary War, as recognized by the Government, is Abigail S. Tilton, of North Woodbridge, Rockingham County, N. H., the widow of Benj. Stevens, who participated in the battle of Bennington as a member of Capt. McConnell's company, under the command of Gen. Stark. Mrs. Tilton is now a trifle more than one hundred years old.

IN last week's JOURNAL we published under the head of "Deaths" that of Mrs. Elizabeth Fisher, at Pittsburg, Pa., March 21, "mother of Mrs. C. L. Best." We desire to say that neither the Mrs. Best referred to nor the deceased lady is related to any member of the family of Col. C. L. Best, 4th U. S. Artillery, a fact which, to allay anxiety, we would have published last week had time permitted.

AT a meeting in New York on Tuesday evening of the Society of Veterans of the Regular Army and Navy the following officers were elected: Alexander B. Butts, commander-in-chief; F. R. Meres, adjutant general; Chas. Holman, judge advocate general; Chas. Wilson, commissary general: Geo. Jeffreys and Miles M. Anderson, aides; A. J. Farmer, captain of General George A. Custer Command No. 1, and H. W. Spooner, captain of U. S. Grant Command No. 6.

HENRY VILLARD, tall and of fine physique, is daily seen in Wall Street. He looks not unlike a younger Bismarck. He lives in Charles L. Tiffany's splendid mansion far uptown, and pays a rent of $20,000 a year. It is a new house, which Mr. Tiffany doesn't care to occupy the first year. There is a superstition among some rich men about living in new houses. It is supposed to hasten death. A. T. Stewart died in a new house which he entered with reluctance. So did R. L. Stuart, the millionaire sugar refiner.

LIEUTENANT P. A. BETTENS, 9th U. S. Cavalry, and bride, says a Fort Robinson correspondent, were agreeably "surprised" on the evening of March 22, and the whole affair was one of the most pleasant ever enjoyed here. The guests were Maj. and Mrs. Burt, Miss Burt, Capt. and Mrs. Corliss, Capt. Winslow, Capt. Steedman, Dr. and Mrs. Reed, Capt. and Mrs. Humphry, Lieut. and Mrs. Wright, Lieut. and Mrs. Murcer, Lieuts Hayden, Wilson, E. S. Wright, Mr. Ben Paddock, Mrs. and Miss Brisbin; also Miss Blanche Brisbin and Master Reynolds Burt. This is but one of the several entertainments given the Lieutenant and his bride.

ON March 28 a Five o'clock Tea was given in Cincinnati by MRS. O'CONNELL, wife of Lieut. J. J. A. O'Connell, 1st Infantry, in honor of Mrs. Benj. Butterworth, of Washington, D. C. As each lady entered she was presented with a corsage bouquet tied with red, white and blue satin ribbons, to which was attached a card embossed in gold with the Infantry crossed rifles and the guest's name. The bouquets were distributed by two pretty girls, half hidden by the pyramid of roses, lilies, pinks, and violets. During the tea, which was served in courses, the well known virtuosi, Rurso and Visconti, played several musical selections. Being Lent, the invitations were limited to the personal friends of the wife of the popular Ohio Congressman, but the entertainment was pronounced to be one of the pleasantest of the year.

THE late Sir Joseph Whitworth, engineer and artillerist, left a personal estate valued at more than $1,812,500, net.

PROFESSOR S. E. TILLMAN, U. S. A., will leave West Point about April 20, and his marriage to Miss Williams, of Flushing, will take place soon after. The married couple will join at West Point the first week in May.

CAPTAIN CHAMBERS MCKIBBIN, 15th Infantry, has been relieved, at his own request, from recruiting duty at Harrisburg, Pa., and granted sick leave for two months, after which he will join at Fort Pembina, Dakota.

MRS. CROOK, wife of Gen. George Crook, U. S. A., has recently had for her guest Miss Kate Field, who delivered her famous lecture on Mormonism at Omaha on the evening of April 1 to a large audience. Miss Field has since gone to Denver.

THE notorious General Cluseret, in turn a Garibaldian, aide to General McClellan, Fenian and Communist cut-throat, is, says the New York *Tribune* of April 7, now occupied with instructing Parisian Anarchists in the fine arts of arson and murder.

LIEUTENANT-COLONEL CLOSSON, 5th Art., has been mentioned to the Secretary of War by some of his friends in Washington as an officer eminently well qualified for the charge of the War of the Rebellion Records, and from the manner in which the recommendations were received, his friends believe that he stands an excellent chance for the detail.

THE following Army officers are registered at the War Department this week: 1st Lieut. Henry Wyggant, 24th Inf.; 1st Lieut. Charles A. Churchill, 5th Inf.; Chaplain David Wilson; 2d Lieut. H. H. Benham, 2d Inf.; Col. Henry L. Abbot, Engs.; Lieut.-Col. Walter McFarland, Engs.; 1st Lieut. Wm. H. Coffin, 5th Art.; Capt. Chas. King, retired.

LIEUTENANT EDWARD S. FARROW'S mission to Washington at this time is understood to be in connection with the scheme he has had in view for some time of establishing a system of gymnastic exercises at the various posts. He is anxious to secure a tour of special duty for the purpose of introducing his plan. It is said that he has given up all hope of securing the detail in charge of the "Rebellion Records."

CAPT. MONTGOMERY SICARD, Chief of the Bureau of Naval Ordnance, registered at the Everett House, New York, on Thursday.

MISS FLORENCE ANDENRIED, daughter of the late Col. J. C. Andenried, U. S. A., a valued member of Gen. Sherman's staff, is engaged to be married to Mr. Horace Washington, son of Pay Director R. Washington, U. S. N.

LIEUTENANT-COMMANDER H. E. NICHOLS, U. S. N., late in command of the *Pinta*, has been assigned as inspecter of steel for the new cruisers, and will take the place of Lieut.-Comdr. Very recently detached from duty at Pittsburgh Pa.

EX-LIEUTENANT EDW. S. VERY, formerly one of the bright lights of the Naval Ordnance Bureau, but now of the Hotchkiss firm, of Paris, is visiting friends in Washington. This is his first visit here since he resigned from the Navy in 1883.

LIEUTENANT J. H. C. COFFIN, U. S. N., has been visiting Washington for a few days past. Lt. Coffin is on duty at Phœnixsville, Pa., as inspector of beams and hull iron for Cruiser No. 2 and Gunboat No. 1. His stay was necessarily brief, as his only assistant is a carpenter, whose only duty is that of inspector and recorder of weights.

THE detachment of Surgeon Beaumont, U. S. N., from the receiving ship *Minnesota*, in consequence of ill health, will be noted with pain by a large circle of friends in civil life and also in the Navy. The Dr. has been granted a sick leave of indefinite duration, and it is hoped that a short relief from duty may bring about a restoration to health and strength once more.

THE engagement of Passed Asst. Surgeon George Arthur, U. S. N., and Miss Stella Evans, of Tennessee, is announced. Miss Evans was in Washington during the past winter as the guest of her sister, Mrs. A. M. Moore, wife of Surgeon Moore, of the Navy. The date of the marriage is not generally known, but it will probably occur before Christmas. Dr. Arthur is widely known in Washington, where he has been on duty in previous years.

VERY grave stories come from the Mare Island Navy-yard regarding the condition of Medical Inspector Somerset Robinson, U. S. N., who was recently transferred to the Naval Hospital there from his station at San Francisco. He has Bright's disease, and while he was here last year his friends were already alarmed at his condition. The story coming from Mare Island gives little hope of his lasting much longer.—*Washington Critic.* Later official information, however, states that Doctor Robinson is convalescent, which all will be glad to hear.

THERE is a coming vacancy in the New York Board of Health, for appointment to which the name of Dr. Titus Munson Coan is suggested. Dr. Coan was during the war an acting assistant surgeon in the Navy and served as medical officer on the flagship of Farragut. He was for several years connected with the Board of Health, and is equally well known as an author and a physician. His appointment would be received with satisfaction, as that of a man of ability and high personal character.

THE detachment of Comdr. Frederick Rodgers from the command of the *Independence* at Mare Island, is a change which has been impending for some time, as Comdr. Rodgers original assignment to that ship was made in November, 1883. Comdr. Philip, who relieves Comdr. Rodgers, has been on duty as Light House Inspector at San Francisco since April 1, 1884, so it is not probable that he will put in a full tour of three years on the *Independence*. Comdr. Philip is now counted as a permanent Pacific Sloper, having married in San Francisco, and for many years he has been on duty on that coast.

COMMODORE D. B. HARMONY, U. S. N., left Washington this week for Pensacola.

LIEUTENANT-COMMANDER J. C. MORONG, U. S. N., and family are recent guests at the Perry House, Newport, R. I.

SURGEON N. MCP. FEREBEE, U. S. N., lately visiting at Oxford, N. C., joins the receiving ship *Franklin* at Norfolk, Va.

THE family of Lieut. W. H. Emory, U. S. N., commanding the *Thetis*, are recent guests at the Atlantic Hotel, Norfolk, Va.

COMMANDER R. P. LEARY, U. S. N., has arrived at Aspinwall, on his way to assume command of the *Iroquois*, on the Pacific station.

COMMODORE D. B. HARMONY left this week for Pensacola. He will examine the naval station there, and report on the proposed change of site.

MRS. GEO. C. REMEY, wife of Capt. Remey, U. S. N., rejoined her husband last Saturday at the Norfolk Navy-yard, from a visit to Washington.

MEDICAL DIRECTOR P. J. HORWITZ, U. S. N., retired, and Miss Horwitz, of Philadelphia, are recent guests at the St. Charles Hotel, New Orleans.

PROF. ASAPH HALL, U. S. N., expects soon to issue the programme of the meeting of the National Academy of Sciences at Washington, D. C., April 19.

LIEUTENANT G. C. HANUS, U. S. N., has been selected by Governor Hill, of New York, as one of the commissioners to determine the boundary line between New York and New Jersey.

JOHN TAYLOR WOOD, of Halifax, N. S., a former officer of the U. S. Navy, and who joined the Confederate Service at the outbreak of the War, has been visiting old friends in Baltimore, Md.

LIEUT. W. H. COFFIN, 5th U. S. Artillery, left Fort Schuyler, N. Y. H., early in the week for Washington, D. C., called there by the serious illness of his father, Prof. J. H. C. Coffin, U. S. N., retired.

RECENT advices from the South Pacific Station contain, among other items, the survey and condemnation of Chief Engr. Geo. P. Hunt, U. S. N., of the *Juniata*. He has been invalided home, and it is likely that a relief will be sent out before a great while.

THE following officers registered at the Navy Department this week: Ensign A. B. Clements, P. A. Surgeon E. H. Marsteller, Medical Director S. F. Coues, Lieut. Wm. S. Cowles, Asst. Engineer B. C. Bryan, Lieut. L. C. Logan, Lieut. J. H. C. Coffin, and P. A. Surgeon A. C. Heffenger.

THE remains of Henry B. Rumsey, formerly of the Navy, who was killed in the hotel fire at Buffalo while trying to save a child, were interred last week amid public demonstrations of respect at Fort Wayne, Ind. His widow, a delicate lady, who was completely prostrated by the sad event, is improving.

CAPTAIN FREDERICK V. MCNAIR, U. S. N., has been ordered to take command of the U. S. S. *Omaha*, on the China station, as the relief of Capt. T. O. Selfridge, the latter being detached, ordered home and placed on waiting orders. Capt. McNair, following a tour of duty at Mare Island, Cal., has been residing at the Dennis Hotel, Atlantic City, but will leave at once for his new sphere of duty.

THE difficulty which Lieutenant S. W. Very, U. S. N., has had with the steel men which led to his detachment from inspection duty at Pittsburgh is explained by the announcement which appears elsewhere, under the heading of "births." Lieutenant Very's detachment was at his own request, as stated last week, and this request was a duplicate of a request made Jan. 1 last not to be ordered to that duty. He has had no difficulty with the steel men, which statement explains why these gentlemen in answer to the inquiries of a *Tribune* correspondent expressed their surprise at the detachment and their ignorance of its cause.

A DESPATCH from San Francisco reports that "Among the passengers quarantined on the steamer *City of Pekin*, which arrived at San Francisco, Monday, from Yokohama, is Capt. T. O. Selfridge, late commander of the United States warship *Omaha*, who is en route for Washington, under suspension. On March 4, while a group of Japanese were examining a shell which had been fired from the *Omaha*, it exploded, killing four and wounding seven. Rear-Admiral Chandler placed Capt. Selfridge under suspension, and ordered him to report to the Secretary of the Navy. The Navy Department is informed of the arrival of Capt. Selfridge at San Francisco under suspension, but Admiral Chandler's report of the accident, for which the Captain was held responsible, has not yet been received, so it does not appear in what way Captain Selfridge became responsible for it."

THE assignment of Passed Asst. Surgeon A. C. Heffenger, of the Navy, to special duty in the construction of the Naval Hospital on Widow's Island, Maine, is a most fitting detail. Dr. Heffenger has long given considerable attention to hospital construction, and if he is allowed full control in this work the result will be fully up to the expectations of the Medical Bureau. The intention of a sanitary station on the coast of Maine is to provide a sort of place for vessels infected with yellow fever or similarly infectious diseases to work out a quarantine far removed from centres of population and consequent danger. In obedience to this detail, Dr. Heffenger has been detached from the *Atlanta*, his place being taken by Asst. Surg. E. C. Tracy, U. S. Navy. This latter officer has been detached from the receiving ship *Vermont*, under date of March 31.

THE CONSOLIDATED MESS.

JUDGING from reports received, the system of a consolidated mess at the recruiting depots at David's Island and Columbus Barracks put into operation a few weeks ago is proving a success. At Columbus Barracks the company messes were discontinued March 1, and one mess for the entire garrison established, 1st Lieut. R. P. Brown, 4th Inf., being appointed to the immediate supervision and charge. A correspondent says: Major W. L. Kellogg, 19th Inf., commandant, who had this scheme in view ever since he has been at Columbus Barracks, is to be congratulated in his selection of Lieut. Brown, who has been untiring in his efforts for the success of the new system, devoting all of his available time in directing its working and planning for its improvement. From the first meal its superiority over the old way was recognized, the only drawback being the table service and means for serving the food. This is being improved upon from time to time, and will be till everything is perfect.

NEW ENGLISH SHIPS.

THE following 13 new ships are to be laid down in 1887–8 in England:

Two 20-knot, steel bottomed, protected cruisers at Chatham; three 19¾-knot, copper-bottomed, protected cruisers, two by contract and one at Portsmouth; one composite sloop, "Buzzard;" six composite gunboats (improved "Rattler"), and one vessel of the "Grasshopper" class. Of the "Rattler" type it need only be said that they differ from the "Rattler" herself only in having a poop, being about one foot broader and 40 tons greater displacement. The steam trials of the "Rattler" and "Wasp" have been very satisfactory, speeds of 13¼ to 13¾ knots having been attained. The new "Buzzards" are repeats of the "Buzzard," now building at Sheerness. Speed on the measured mile, 15 knots. Both the "Rattlers" and "Buzzards" have a fair amount of sail and coppered bottoms. All of the vessels now laid down have a speed equal to, if not in excess of, any of their class elsewhere, and will therefore be a match for anything of like displacement which they might encounter, and the new 20-knot protected cruisers about to be commenced will be faster than any ocean war cruiser in the world at present completed, and consequently of the highest possible value for the protection of commerce.

The most notable vessels to be laid down in 1887–8 are two protected cruisers. Their dimensions are: Length, 265 ft.; breadth, 41 ft.; Displacement in tons, 2,800; speed on measured mile with 400 tons of coal, and fully equipped, 20 knots; ocean speed, 17 to 18 knots; radius of action at 10-knot speed, 8,000 knots. The vessels will have a protected steel deck extending from stem to sterm, and sheltering machinery, magazine, steering gear, etc.

Vertical (inverted cylinders) triple expansion engines are to be fitted in the steel bottomed ships, a special arrangement of armored combings being built for the protection of that portion of the cylinders. Above the protective steel deck the space will be minutely subdivided, coal bunkers, coffer dams, etc., being built, as is usual in vessels of the protective class. A double bottom, on the cellular principle, adapted for water ballast, will be fitted. The armament will include six 8. L. R. guns on central pivot mountings, nine 6 lb. rapid firing guns, machine guns, six torpedo tubes (all under cover.) The bow will be strengthened for ramming in the usual manner.

In all respects the vessel will be made suitable for independent sea service and for being driven at high speed in rough water.

They will have only five light steadying sails, being dependent upon their steam power and twin screws for propellers.

It has been decided to vary the designs in the three copper sheathed 19¾ knot cruisers, in the following particulars:

1st. To wood, sheath and copper the bottoms so as to make vessels capable of remaining afloat without fouling and consequent loss of speed.

2d. To adopt horizontal engines placed entirely below the protective deck. These changes involve an increase in displacement and a slight decrease in maximum speed, which are accepted in view of the special services for which the vessels are intended.

In armament, protection and all other qualities, the conditions are the same in those as in the steel ship. The trial of these vessels will be made under the new regulations with all weights aboard.

GEN. BUTLER ON THE ARMY CHAPLAIN.

THE Rev. John F. Moore recently delivered a lecture at Concord, Mass., on the "Army Chaplain," which has elicited a friendly letter from Gen. Benjamin F. Butler to the lecturer, which closes as follows: "The Chaplain who did his duty and lived an upright and conscientious life was respected by the men. He got no sobriquet or pet name, but heartfelt love and respect. The sutler class of Chaplains always got pet names, and when the soldiers called the Chaplain, as they usually did of that class, 'Holy Joe,' or 'Holy John,' as the case might be, God help him, for all influence of his for good was gone. He simply became the butt of ridicule of his comrades. I have the most vivid memory of many good and true men who were Chaplains in my army; nor were they by any means always in the rear on the day of battle, using the word 'rear' as afar off. I have seen Chaplains helping to take care of the wounded, directing their transportation to the rear, easing their pains, and in one case, by the timely application of an improvised tourniquet, stopping the blood that was ebbing the life of the soldier away, and would have done so before the Surgeon could have been reached."

ARMY MUTUAL AID ASSOCIATION.

WAR DEPARTMENT, April 1, 1887.

THE Executive Committee directs the Secretary to inform the members of the association that the annual meeting which, under the revised constitution, could be held Tuesday, April 19, will be omitted. No propositions have been received for the action of such meeting; and, besides, the committee does not think that the association intended to have two annual meetings with an intervening period of less than 12 months.

The membership this date is 991. The deaths since January 1, two—but as both these claims have been paid from benefit surplus there still remains to each member's credit the full amount that he has paid for the year 1887. Therefore no assessment notices will be sent till October 1 (unless abnormal mortality should occur). Said notices will then be issued to cover the nine months from July 1, 1887, to April 1, 1888, and the three months, January 1 to April 1, 1888, on the basis of the membership and classification, April 1, 1887. The reports to be made to the meeting in April, 1888, will be for the preceding 15 months.

WM. P. DUVAL,
1st Lieut., 5th U. S. Art., Secretary and Treasurer.

THE 26th anniversary of the "First Defenders' Association" will take place at Pottsville, Pa., April 18.

ARMY RETIREMENTS.

IN the ARMY AND NAVY JOURNAL of May 12, 1883, we published a list of Army retirements, which included all the general officers, most of the officers of the staff departments, all the field officers of cavalry, artillery and infantry, and the captains and lieutenants of the line down to the year 1902. This list was subsequently published, with additions and corrections, in a pamphlet, of which we have some copies left. We now give a further list, which includes all the staff officers whose dates of retirement were not given them and all the captains of the line and some of the lieutenants; also a few majors of infantry whose names do not appear in our published list:

Adjutant General's Department.

Schwan, Theodore, July 9, 1905.

Judge Advocate General's Department.

Clous, John W., June 9, 1901. | Gardiner, A. B., Sept. 30, 1903.

Quartermaster's Department.

Saxton, Rufus, Oct. 19, 1888.
Hoyt, Chas. H., Sept. 30, 1889.
Blunt, Asa P., Oct. 19, 1890.
Young, A. H., June 16, 1891.
Haynsworth, H.J., Oct. 25, 1891.
Jones, Francis B., Oct. 26, 1901.
Forsyth, Lewis C., June 11, 1897.
Bird, Chas., June 17, 1902.
Furey, John V., May 22, 1903.
Simpson, John, Jan. 21, 1904.
Lord, Jas. H., Feb. 27, 1904.
Booth, Chas. A., Sept. 18, 1904.
Wheeler, D. D., June 12, 1905.
Atwood, F. B., March 18, 1906.
Jacobs, J. W., June 24, 1907.
Marshall, Jas. M., May 31, 1908.
Humphrey, C. F., Sept. 2, 1908.
Barnett, Chas. R., Sept. 4, 1908.
Hathaway, F. H., Oct. 7, 1908.
Millimore, A. E., Oct. 12, 1908.
Pullman, J. W., Feb. 17, 1910.
Campbell, L. E., May 9, 1910.
Cook, Geo. H., Oct. 10, 1910.
McCauley, C. A. H., July 13, 1911.
Floyd, Dan'l H., Sept. 25, 1913.
Clem, John L., Aug. 13, 1915.
Patten, Wm. S., April 13, 1916.
Williams, C. W., Sept. 17, 1917.
Ingalls, Chas. H., Jan. 17, 1919.

Corps of Engineers.

Taber, H. S., July 11, 1913.
Kingman, D. C., Mar. 6, 1916.
Griffin, Eugene, Oct. 13, 1917.
Young, Willard, Apr. 30, 1916.
Black, Wm. M., Dec. 8, 1919.

THE ARMY.

G. O. 27, H. Q. A., March 30, 1887.

Publishes acts of Congress granting a right of way through certain public lands of the U. S. in the Territory of Utah, and for other purposes; and granting to the Saint Paul, Minneapolis and Manitoba Railway Company the right of way through the Indian reservation in Northern Montana and Northwestern Dakota.

CIR. 5, DEPT. OF THE PLATTE, March 30, 1887.

The "full kit" for Infantry on a "Practice March" (par. 1345, A. R.), will be the equipment for field service, as follows: Each man will wear the blouse, trousers and campaign hat prescribed for such service (see A. R. 2725, 2749, 2776) with the "campaign" shoes, and will carry on his person the blanket bag supplied by the Ordnance Department, in which will be packed one dark blue flannel shirt; one knit undershirt; one pair of drawers; two pairs of stockings, and one pair of "campaign" shoes; forty cartridges; and one blanket; and on which will be carried the overcoat rolled to contain one-half of a shelter tent and, for every even numbered man, the shelter tent poles, also. The haversack will be worn on the left side, and will contain one or more day's rations, one meat ration can, one knife, one fork and one spoon. The canteen will be worn on the right side. The tin cup will be carried suspended to the right lower front corner of the blanket bag. Each man will carry his rifle, without the bayonet, and will wear the prescribed field belt with twenty cartridges in the loops.

CIR. 4, DEPT. OF THE MISSOURI, March 26, 1887.

Publishes memoranda of laws relating to the action of detachments operating in the Indian Territory, in conjunction with Indian agents, in arresting and expelling intruders and persons found violating the Indian intercourse laws.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

P. Q. M. Sergt. John McConnell, recently tried at Fort Stanton, for "insulting and disrespectful conduct to A. A. Surg. R. P. Finley, U. S. A.," has been acquitted.

P. Q. M. Sergt. Hugh Conn, at Fort McIntosh, will proceed to Fort Gibson, I. T., reporting to relieve P. Q. M. Sergt. Charles Remi, who will proceed to Fort McIntosh, Texas, for duty (S. O., April 1, H. Q. A.)

P. Q. M. Sergt. Charles Harvey, Willet's Point, will proceed to Fort Stanton, N. M., to relieve P. Q. M. Sergt. John McConnell, who will proceed to Willet's Point for duty (S. O., April 1, H. Q. A.)

Pay Department.

Major John C. Muhlenberg, Paymr., will report to the comdg. gen., Dept. of the Columbia, to relieve Major De Witt C. Poole, paymaster, who will report for duty to the comdg. gen., Dept. of Texas (S. O., April 4, H. Q. A.)

Major Asa B. Carey, Paymr., is announced as Chief Paymaster of the Dept., relieving Major Charles J. Sprague, Paymr. (G. O. 5, March 25, D. Cal.)

Medical Department.

Capt. Henry G. Burton, asst. surg., will report to the C. O., Plattsburg Barracks, for temporary duty (S. O., April 5, H. Q. A.)

Capt. Louis A. La Garde, asst. surg., will be relieved from duty at Camp Sheridan, Wyo., and will report to the C. O., Fort Assiuniboine, for duty (S. O., April 5, H. Q. A.)

Leave for one month is granted Capt. W. H. Corbusier, asst. surg. (S. O. 35, March 29, D. Ariz.)

A. A. Surg. A. P. Frick will proceed to Fort Grant, and report for duty during the absence on leave of Asst. Surg. Corbusier (S. O. 35, March 29, D. Ariz.)

A. A. Surg. David S. Snively, Fort Sisseton, will proceed to Fort Randall, D. T., and report for duty (S. O. 28, March 30, D. Dakota).

A. A. Surg. Eugene L. Swift will proceed from Brooklyn to Willet's Point, N. Y., and report for duty (S. O., April 1, H. Q. A.)

Hospl. Steward James Carroll will proceed to Camp Pilot Butte, Wyo., and report for duty (S. O. 31, March 29, D. Platte).

Engineers and Ordnance Departments.

A Board of Officers of the Corps of Engineers, to consist of Col. John M. Wilson, Lieut. Col. Peter C. Hains, and Major Garret J. Lydecker, will assemble in Washington, D. C., upon the call of the Senior Member, to consider such matters relating to the proposed Bennington Battle Monument as may be referred to it for action (S. O. 51, March 31, C. E.)

Lieut. Col. Peter C. Hains, C. E., is assigned to the charge of the construction of the new wharf at Fort Monroe, Va. (S. O. 52, April 4, C. E.)

Leave of absence for two months is granted Lieut. Col. Cyrus B. Comstock, C. E. (S. O., April 6, H. Q. A.)

Major Wm. R. King, C. E., in addition to his present duties, is assigned as a member of the Board of Engineers for Fortifications and River and Harbor Works, and will report to Colonel Thomas L. Casey, C. E., president of the board (S. O., April 4, H. Q. A.)

Lieut. Col. C. B. Comstock, C. E., relinquishes command of the Post and Engineer School of Application at Willet's Point, N. Y. H. (Orders 57, Engr. School, April 5.)

Major W. R. King, C. E., assumes command of the Post and Engineer School of Application at Willet's Point, N. Y. H. (Orders 58, Engr. School, April. 5.)

Capt. John G. Butler, O. D., will proceed to the Colt's Patent Firearms Manufacturing Co.'s Works, Conn., to inspect Gatling guns being manufactured for the Q. D. (S. O., April 5, H. Q. A.)

Chaplains.

The station of Chaplain Orville J. Nave, on sick leave, is changed from Fort McIntosh to Fort Brown (S. O. 41, March 30, D. Texas).

Chaplain George W. Simpson is assigned to duty at Fort McIntosh, Texas (S. O. 41, March 30, D. Texas).

Leave for twenty days is granted Post Chaplain Malnor C. Blaine, Fort Spokane (S. O. 49, March 26, D. Columbia).

Signal Corps.

Leave for four months, to take effect June 15, with permission to apply for an extension of two months, is granted 2d Lieut. Frank Greene, S. C. (S. O., April 5, H. Q. A.)

2d Lieut. Leroy E. Sebree, S. C., will, while on duty at San Antonio, in addition to his other duties, re-

port to the Comdg. Gen., Dept. of Texas, to place in working order the telephone and signal systems on the rifle range at San Antonio (S. O., April 2, H. Q. A.)

Leave for two months, to take effect July 3, is granted 2d Lieut. William D. Wright, Signal Corps (S. O., April 1, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

1st Lieut. H. L. Ripley, Act. Chief Engr. Officer, will proceed to Fort Riley, Kas., on public business (S. O. 39, March 26, Dept. M.)

Leave for fifteen days on Surgeon's certificate, with permission to visit Fort Worth, Tex., is granted Major George A. Purington, Fort Sill (S. O. 38, April 4, Div. M.)

A furlough for four months, with permission to go beyond the sea, will be granted Private Frederick Gros, Troop G (S. O. 39, April 6, Div. M.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A and E, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; L, Ft. Stanton, N. M.; M, Ft. McDowell Ariz.

The C. O. Fort Lowell will relieve 1st Lieut. Fred Wheeler of his duties as A. A. Q. M. and A. C. S., and order him to join his troop (S. O. 33, March 24, D. Ariz.)

2d Lieut. Samuel Reber is appointed recruiting officer at Fort Lowell, relieving 1st Lieut. Fred Wheeler (S. O. 33, March 24, D. Ariz.)

The following promotions are announced: 1st Lieut. Alexander Rodgers, Troop A, to Captain, Troop M, Feb. 11, 1887, vice Callahan, retired; 2d Lieut. Alexander T. Dean, Troop M, to 1st Lieutenant, Troop A, Feb. 11, 1887, vice Rodgers, promoted. Lieut. Dean will proceed to Fort Lowell, A. T. (S. O. 34, March 26, D. Ariz.)

Capt. William A. Thompson, now on leave, will report to conduct the first detachment of recruits which may leave for his regiment in the Dept. of Arizona (S. O., April 5, H. Q. A.)

The leave of absence of Col. William B. Royall has been extended six months on account of disability. (S. O., April 6, H. Q. A.)

Before a G. C.-M. at Fort McDowell, A. T., of which Col. J. S. Mason, 9th Inf., is president, was tried 1st Lieut. Alexander T. Dean, 4th Cav. Charge—"Conduct to the prejudice," etc. Specifications—"In that whilst in command of Troop M, 4th Cav. and on the march from Mesa City, A. T., to Fort McDowell, A. T., he did arbitrarily punish Blacksmith Charles Grigoleit, Troop M, 4th Cav., by dragging or causing him to be dragged, by a lariat tied to his body, 100 yards, more or less; did point a loaded pistol at Private Thomas Storrie, Troop M, 4th Cav., and threaten to shoot him, and did give a loaded pistol or revolver to Private Storrie and walk away 50 paces, more or less, face about and order him, the said Private Storrie, to shoot him, the said Dean." Finding—"Guilty." Sentence—"To be suspended from rank and command on half pay for one year and to be confined during that time to the limits of the post, where his troop may be serving." The proceedings, findings, and sentence are approved and confirmed, and the sentence will be duly executed (G. C.-M. O. 15, March 24, D. Ariz.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

2d Lieut. Henry De H. Waite is relieved from further duty at the Artillery School, Fort Monroe, Va., and will join his troop (S. O., April 6, H. Q. A.)

Leave for two months upon Surgeon's certificate, with permission to leave the limits of the Division, is granted Capt. William P. Hall (S. O. 39, April 6, Div. M.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

A furlough for two months is granted Sergt. John F. Crawford, Troop D (S. O. 35, March 29, D. Ariz.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The C. O. Fort Meade will grant a furlough for two months to Corpl. Henry Broas, Troop M (S. O. 27, March 28, D. Dak.)

Veterinary Surgeon M. J. Treacy will proceed to Jefferson Barracks, Mo., and report to the president of the Board on horseshoeing (S. O., April 5, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Veterinary Surgeon R. B. Corcoran will proceed to Jefferson Barracks, Mo., and report to the president of the Board of Officers on horseshoeing (S. O., April 5, H. Q. A.)

In Orders 13, of March 31, Col. Otis relieves 1st Lieut. J. B. Hickey as Adjutant of the 8th Cavalry, and says: "In severing the close and pleasant official relations with Lieut. Hickey, the Colonel commanding feels it his duty and takes pleasure in adding, if possible, to the excellent record already established by him, for faithfulness and efficiency during more than fifteen years' continuous service with the regiment, and more particularly in the capacity of Adjutant during the past five years, where he has exhibited an administrative ability far beyond the ordinary, winning the respect and confidence of all connected with him. It is, therefore, with much regret that necessity compels a separation of those ties which have existed since I have been in command of the regiment. 1st Lieut. Charles M. O'Connor is announced as Adjutant, and will relieve Lieut. Hickey of his duties."

9th Cavalry, Colonel Edward Hatch.

Hdqrs., D, and H, Ft. McKinney, Wyo.; C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

1st Sergt. M. A. Wilkins, Troop E, tried for engaging in a drunken brawl, using disrespectful and insubordinate language to his troop commander, and making false statements, has been reduced to the ranks and mulcted in the sum of $20.

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas A. T.; M, Ft. McDowell, A. T.

Leave for one month, with permission to apply for an extension of three months, is granted Capt. F. H. Weaver, Chaplain (S. O. 33, March 24, D. Ariz.)

The troop from Fort Thomas, temporarily at San Carlos, will be reported on detached service from that post (S. O. 33, March 24, D. Ariz.)

Capt. T. C. Lebo is relieved from duty on Board for inspecting and purchasing cavalry horses (S. O. 34, March 26, D. Ariz.)

Major C. B. McLellan is relieved from duty at Fort Verde, and will proceed to Fort Thomas and take station (S. O. 35, March 29, D. Ariz.)

The leave of absence of Chaplain F. H. Williams has been extended three months. (S. O., April 6, H. Q. A.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

1st Lieut. James E. Runcie will proceed to Vancouver, W. T., in charge of a shipment of public animals (S. O. 15, March 26, Div. P.)

Light Battery K will start on its annual marching trip in May. It will first go to Santa Cruz, thence over the mountains to Madera in the San Joaquin Valley, from thence to the Yosemite. Reaching the river on the return trip the battery will go by way of Modesto and return by Livermore, reaching the Presidio after a good march, occupying nearly three weeks. If it can be arranged Major-Gen. Howard will probably accompany the battery to the Yosemite.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

1st Lieut. L. V. Caziarc is announced as Adjutant of the post of Fort Monroe and Secretary of the Staff of the Artillery School (G. O. 9, March 31, Art. School.)

The C. O. St. Francis Barracks, Fla., will issue a furlough for four months to Sergt.-Major Edward J. Owens (S. O. 72, April 7, Div. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

The following transfers have been made: 1st Lt. Alexander B. Dyer, from Batty. D to Batty. G; 1st Lieut. Walter S. Alexander, from Batty. G to Batty. D. (S. O., April 6, H. Q. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; E and K, Ft. Schuyler, N. Y.; M, Ft. Wood, N. Y. H.
* Light battery.

The assignment by the C. O. 5th Art., to Bat. A, at Fort Columbus, to take effect April 15, of 1st Lieuts. Frank Thorp and Elbridge R. Hills, lately relieved from duty as R. Q. M. and Regtl. Adjt., respectively, is approved, and these officers will proceed to join their proper battery (S. O. 70, April 5, Div. A.)

1st Lieut. Anthony W. Vogdes having been appointed Quartermaster, and 1st Lieut. William B. McCallum, Adjutant, to date from April 15, the officers named will proceed, in due season, from Fort Columbus to Fort Hamilton, N. Y. H., and report for duty (S. O. 71, April 6, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs. E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

The C. O. Benicia Barracks, Cal., will relieve 1st Lieut. Charles G. Starr from duty at his post, and order him to join his company at the Presidio of San Francisco (S. O. 21, March 28, D. Cal.)

Leave for one month is granted 1st Lieut. Lewis H. Strother (S. O., April 4, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

The order dated March 1, to Col. John R. Brooke, under which he proceeded from Fort Shaw, M. T., to Helena, M. T., and return, is confirmed (S. O. 26, March 26, D. Dak.)

The *Missoulian* of March 25 says: As is well known, the 3d Infantry stands at the head of the Army as regards target practice. Among the soldiers of the 3d probably no man has attained, in competition, a better record than Sergt. Gustav Zobel, Co. G. He took his discharge about a year ago, went to Chicago to enlist in the 2d Regiment, Illinois National Guard, and has been made assistant instructor of musketry for that organization.

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

A furlough for four months, to take effect about May 15, will be granted Sergt. George Atkins, Co. D (S. O. 39, April 6, Div. M.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Leave for one month, to take effect March 27, is granted Col. H. C. Merriam, Fort Laramie, Wyo., with permission to apply for extension (S. O. 31, March 29, D. Platte.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

The leave granted Capt. F. A. Whitney, Fort Niobrara, Neb., is extended ten days (S. O. 31, March 29, D. Platte.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

1st Lieut. J. A. Baldwin is appointed recruiting officer at Fort Thomas, relieving 2d Lieut. A. S. McNutt (S. O. 33, March 24, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

The leave for seven days granted Capt. C. L. Davis, Fort Union, N. M., is extended eight days (S. O. 33, March 24, D. Ariz.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

1st Lieut. Ralph W. Hoyt, A. A. Q. M., Bismarck, will be governed by the subpœna to appear as a witness, April 7, at the term of the U. S. District Court, in Yankton, D. T. (S. O. 27, March 28, D. Dak.)

A furlough for four months is granted Sergt. David Gemmell, Co. F (S. O. 38, April 4, Div. M.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

1st Lieut. J. S. Bishop is relieved as J.-A. of the G. C. M. at Fort Wingate, N. M., and 1st Lieut. J. B. Goe is relieved from duty as member and appointed J.-A. in his stead (S. O. 33, March 24, D. Ariz.)

The following promotions are announced: 1st Lieut. John S. Bishop, Co. D, to Captain, Co. E, March 1, 1887, vice Pratt, deceased; 2d Lieut. Charles S. Hall, Co. A, to 1st Lieutenant, Co. D, March 1, 1887, vice Bishop, promoted. Capt. Bishop will proceed to Fort Stanton and Lieut. Hall to Fort Wingate, N. M. (S. O. 34, March 26, D. Ariz.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for twenty days is granted 2d Lieut. Andrew S. Rowan, Fort Pembina, D. T. (S. O. 27, March 28, D. Dak.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

A furlough for four months is granted Sergt. George W. Hollar, Co. H (S. O. 36, March 31, Div. M.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

Leave for one month is granted 2d Lieut. Albert D. Niskern, Camp Poplar River, M. T. (S. O. 26, March 26, D. Dak.)

Leave for two months, to take effect about May 1, is granted 1st Lieut. Frederick D. Sharp, Fort Assiniboine (S. O. 38, April 4, Div M.)

At the request of Capt. William Fletcher, 20th Inf., he will be relieved from duty in the Dept. of Dakota, to take effect July 15, and will then repair to his home and await retirement (S. O., April 4, H. Q. A.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Leave for ten days is granted Capt. Evan Miles, R. O. (S. O., April 4, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, April 2, 1887.

PROMOTION.

2d Lieutenant Walter S. Alexander, 4th Artillery, to be 1st Lieutenant, March 31, 1887, vice Miller, appointed Regimental Quartermaster.

CASUALTIES.

1st Lieutenant George M. Love (retired), died March 15, 1887, at Buffalo, New York.

1st Lieutenant Adolphus H. Von Luettwitz (retired), died March 29, 1887, at Washington, D. C.

Military Academy.

Leave for seventeen days, from April 20, is granted Professor Samuel E. Tillman, Military Academy (S. O., April 2, H. Q. A.)

The resignation of Cadet Harry Burton McMaster, 4th Class, is accepted (S. O., April 1, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Totten, D. T., April 4. Detail: Capt. Henry J. Nowlan, 7th Cav.; Capts. Frank D. Baldwin and Edmund Rice, 1st Lieuts. William H. C. Bowen and Hunter Liggett, 5th Inf.; 2d Lieut. John C. Waterman, 7th Cav.; 2d Lieut. William H. Sage, 5th Inf., and 2d Lieut. James E. Wilson, 5th Inf., J.-A. (S. O. 26, March 26, D. Dak.)

At Fort Sully, D. T., April 6. Detail: Capts. Ira Quinby, William Hoffman, and Albert L. Myer, 1st Lieuts. George Le R. Brown, R. Q. M., James E. Macklin, and John H. Philbrick, and 2d Lieut. Odon Gurovits, 11th Inf., and 1st Lieut. Pierce M. B. Travis, 11th Inf., J.-A. (S. O. 26, March 26, D. Dak.)

At Fort Custer, M. T., April 6. Detail: Major Henry Carroll, 1st Cav.; Capt. James A. Snyder, 3d Inf.; Capts. Max Weserdorff and Frazier A. Boutelle and 1st Lieut. William H. Miller, 1st Cav.; 1st Lieut. Lorenzo W. Cooke, 3d Inf.; 2d Lieut. James B. Aleshire, 1st Cav.; 2d Lieut. Frank G. Kalk, 3d Inf., and 2d Lieut. Willard A. Holbrook, 1st Cav., J.-A. (S. O. 27, March 28, D. Dak.)

At Fort Bridger, Wyo., April 6. Detail: Major John N. Andrews, 21st Inf.; Capt. Clarence M. Bailey, 8th Inf.; Capt. Henry S. Howe, 17th Inf.; Capt. Louis W. Crampton, Asst. Surg.; Capt. Thomas H. Bradley, 21st Inf.; 1st Lieut. William H. McMinn, 8th Inf.; 1st Lieut. Francis E. Eltonhead, 21st Inf.; 2d Lieut. William H. Camp, 17th Inf.; 2d Lieut. Charles G. Dwyer, 21st Inf.; 2d Lieut. Frank Owen, 8th Inf.,

and 2d Lieut. Edgar Hubert, 8th Inf., J.-A. (S. O. 31, March 29, D. Platte.)

At Camp Sheridan, Wyo. T., April 11. Detail: Capt. Moses Harris, 1st Cav.; Capt. Louis A. LaGarde, Med. Dept.; 1st Lieuts. Herbert E. Tutherly and Frank A. Edwards and 2d Lieut. Daniel L. Tate, 1st Cav., and 2d Lieut. James B. Aleshire, 1st Cav., J.-A. (S. O. 28, March 30, D. Dak.)

At Fort Randall, D. T., April 7. Detail: Capts. Casper H. Conrad, Henry R. Brinkerhoff, John W. Bean, and Stephen R. Stafford, 1st Lieuts. David D. Mitchell and Alexis R. Paxton, and 2d Lieut. Robert C. Williams, 15th Inf., and 2d Lieut. Edward Lloyd, 15th Inf., J.-A. (S. O. 28, March 30, D. Dak.)

At Fort Keogh, M. T., April 7. Detail: Lieut.-Col. Melville A. Cochran, Major Simon Snyder, Capts. Ezra P. Ewers and Mason Carter, 5th Inf.; 1st Lieut. Ezra B. Fuller, 7th Cav.; 1st Lieut. Hobart K. Bailey, 2d Lieuts. Frederick Perkins, Frederick C. Kimball, and Charles G. Lyman, 5th Inf., and 1st Lieut. Samuel W. Miller, 5th Inf., J.-A. (S. O. 28, March 30, D. Dak.)

At Fort Monroe, Va., April 5. Detail: Major Alexander C. M. Pennington, 4th Art.; Capt. John H. Calef, 2d Art.; Capt. Samuel M. Mills and 1st Lieut. John McClellan, 5th Art.; 1st Lieut. Henry B. Osgood, 3d Art.; 1st Lieut. Thomas C. Patterson, 1st Art.; 2d Lieut. William F. Hancock, 5th Art.; 2d Lieut. Willoughby Walke, 2d Art.; 2d Lieut. John C. W. Brooks, 4th Art., and 2d Lieut. Samuel Rodman, Jr., 1st Art., J. A. (S. O. 68, April 2, Div. A.)

At Fort Columbus, N. Y. H., April 7. Detail: Capts. William B. Beck and Charles Morris, 5th Art.; Capt. Henry P. Birmingham, Asst. Surg.; 1st Lieuts. Benjamin K. Roberts, David D. Johnson, and Samuel E. Allen, and 2d Lieut. Harvey C. Carbaugh, 5th Art., and 2d Lieut. W. P. Newcomb, 5th Art., J.-A. (S. O. 71, April 6, Div. A.)

—o—

Army Boards.

An Army Retiring Board will meet at the Army Medical Museum, Washington, April 7, for the examination of such officers as may be ordered before it. Detail: Brig.-Gen. Samuel B. Holabird, Q. M. Gen.; Col. Jedediah H. Baxter, Chief Med. Purveyor; Col. John C. Kelton, Asst. Adjt.-Gen.; Lieut.-Col. Beekman Du Barry, A. C. G. S.; Capt. John O. Skinner, Asst. Surg., and 1st Lieut. Constantine Chase, 3d Art., Recorder (S. O., April 5, H. Q. A.)

A Board of Survey, to consist of Lieut.-Col. Charles Page, Med. Dept.; Major James Gilliss, Q. M. Dept., and Capt. R. G. Hill, A. J.-A., will meet at Fort Leavenworth, March 29, to fix the responsibility for damaged subsistence stores, for which Major Thomas Wilson, C. S., is accountable (S. O. 40, March 28, Dept. M.)

A Board of Survey, to consist of 1st Lieut. Richard E. Thompson, 6th Inf., A. S. O., and 2d Lieuts. John C. Walshe and John P. Finley, Signal Corps, will assemble to fix responsibility for loss of a telescope at Cape Henry (S. O. 23, March 28, Sig. Office.)

A Board of Survey will assemble at the Q. M. Depot, San Francisco, March 18, to report upon the loss of a quantity of mineral oil. Detail: Lieut.-Col Isaac D. De Russy, 14th Inf.; Capt. Daniel D. Wheeler, A. Q. M., and 2d Lieut. Edwin St. J. Greble, 2d Art. (S. O. 14, March 16, Div. P.)

—o—

Mileage.—In view of the depleted condition of the appropriation for payment of mileage for the current fiscal year, the Secretary of War has directed that no orders be issued from Division and Dept. Headquarters involving the payment of mileage to officers from the appropriation for the current fiscal year.

—o—

DEPARTMENT NEWS.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The Tucson *Star* says: "There is evidence of trouble at San Carlos and one thing will soon again be demonstrated, and that is that the Indian question of Arizona will never be settled as long as the San Carlos Reservation is maintained, and that the only permanent solution of the question will be found in the removal of every reservation Indian to a new land, far away from their old haunts and where they will be surrounded by entirely new and strange conditions."

Dept. of the Missouri.—Brig. Gen. O. B. Willcox.

There is a rumor of anticipated troubles at Oklahoma, but the troops in the vicinity are on the alert.

Indian Agent E. C. Osborne, of the Ponca, Pawnee and Otoe Agency, I. T., reported this week to Washington "that in discharging, April 1, E. M. Smith, a farmer at the Otoe Agency, for general bad conduct but chiefly because of his ungovernable temper, which was continually turned loose on both employees and Indians, I had to kill him in self-defence. He had repeatedly threatened to kill the clerk in charge, Mr. Young, who reported his conduct, and asked that he be discharged."

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

On the night of April 1, two ragged and emaciated men staggered into Fort Assininiboine and related a terrible story of suffering. March 12 James Waldron, Stephen Owens, and John McCuig left Lethbridge, Northwest Territory, mounted on horses, which they were obliged to abandon the third day, having nothing for them to eat, and from that time waded through the snow on foot. Their supply of food became exhausted two days later, and losing their way their only food for 15 days consisted of a few berries gathered off bushes. About 22 miles from Assininiboine Owens fell exhausted and the others, being too weak to assist him, left him to his fate. Upon hearing the case the post commander immediately sent out an ambulance and relief party, who found Owens still alive and returned with him. All three are now in the hospital. Waldron and McCuig may recover with the loss of their feet, but Owens cannot. They say they are deserters from the Northwest Mounted Police force.

Dept. of the Platte—Brig. Gen. George Crook.

G. O. No. 2, D. Platte, which prescribes the target practice season, in addition to the requirements of the book of instructions calls special attention to the three days' consecutive practice. On those days the firing to have precedence of other duties. The other three days of the week, drills will have precedence. The full strength of every troop or company is required to go into camp for six days' target practice at least 14 miles from posts. This will be a relaxation to the men, teach them marching, pitching and striking tents, and camp duties. The cavalry are to pay special attention, out of the target practice season, to pistol firings mounted.

GENERAL LOUIS TERAN, Governor of Oaxaca, is regarded as the most promising Presidential candidate in Mexico. He is an old and intimate friend of President Diaz.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

APRIL 6, 1887.

WE are having plenty of cold weather. April came in with a snowstorm, and the thermometer registered ten below the freezing point. There were but two infantry drills in March, and so far this month there have been but two artillery drills.

Lieut. Mills, 12th Infantry, was here last Sunday in time to see the first dress parade of the year. Last year the first was Jan. 2 and the next Feb. 22.

Mr. Charles Rehm moved to New York last Friday. His place as leader of the band is to be taken by Mr. Fredrer Linden, who comes well recommended from the David's Island Band. Corpl. McAllister has been promoted, and is now the drum-major of the band.

A hop will be given by the cadets on the 16th, in the evening. The cadets of all classes can now attend the hops, for on March 31 all traces of last August's famous "rush" were removed. A general jollification was indulged in, and a long walk taken around the post to gaze once more on scenes that had become somewhat unfamiliar.

—

Eugene Oliver Ingram, Manning, S. C.; Charles P. Echols, Huntsville, Ala., and Wm. H. Fletcher (Alt.), Alabama, were designated this week as candidates for admission to the Military Academy in June next.

ARTILLERY SCHOOL, FORT MONROE.

IN G. O. 9, Gen. Tidball announces Lieut. L. V. Caziarc, 2d Artillery, as Adjutant of the post and Secretary of the staff of the School.

In G. O. 10, of April 2, it is directed that instruction in Ballistics, under Capt. J. M. Ingalls, 1st Artillery, having been completed, the course of Artillery will continue, under Capt. J. B. Campbell, 4th Artillery, commencing April 4. Instruction in Chemical Analysis and Manipulation, under 1st Lieut. T. C. Patterson, 1st Art., will commence the same day. Officers not engaged at the Chemical Laboratory will be assigned to out-of-door artillery exercises—Mechanical Manœuvres—under Capt. S. M. Mills, 5th Artillery.

(Correspondence of the Army and Navy Journal.)

FORT WALLA WALLA.

A VISIT to Ft. Walla Walla, says the Walla Walla *Statesman*, shows that numerous improvements have been made and are now going on under the direction of the present efficient commanding officer, Colonel N. B. Sweitzer, 2d Cavalry.

Many improvements have been made with special reference to the comfort of the soldiers. New porches have been made about the barracks and larger spaces fenced around them, obviating to a considerable extent the clouds of dust from passing teams, heretofore blown through the barracks during the dusty term. Altogether the soldiers can feel that under the present regime their lines are cast in pleasant places, and appreciate the fact by their gentlemanly behavior and admirable discipline.

Walla Walla is fortunate in having a military post at its doors, and doubly so in its present management, which we hope may be long continued.

(Correspondence of the Army and Navy Journal.)

FORT SULLY, DAKOTA.

March 28, 1887.

THE past week has been rather a gay one. On Wednesday evening the band gave one of its enjoyable concerts, the programme being an excellent and artistic one.

Lieut. Macklin's sons, Edgar and Charles, are home from the Pierre University for a few days' vacation.

Col. Dodge is expected back early in April. Major Roche payed off, Sunday, and made the boys happy.

Base Ball fever has struck the post, and the men expect to organize quite a good nine soon.

Saturday evening Mrs. Macklin gave a very pleasant Progressive Euchre Party. It was the first of its kind ever at the post, and all enjoyed themselves hugely. Mr. Vedder and Mrs. Quimby won the first prizes, and Dr. Dewitt and Miss Wells the booby. MARS.

(Correspondence of the Army and Navy Journal.)

FORT YATES, DAKOTA.

THE gayeties, which have rendered our frontier post pleasant during the severe winter, have the past two weeks continued to enliven our little community. Following numerous parties and dinners of previous weeks, on the evening of the 14th the friends of Dr. and Mrs. Spencer gave them a very pleasant surprise party, the occasion being Mrs. Spencer's birthday.

On Tuesday evening Capt. and Mrs. DeRudio entertained the garrison with a very enjoyable "progressive euchre party," given in honor of their daughter, which was a great success and a very pleasant occasion. This was followed the evening of Monday after, by another surprise party, given Captain Ilsley, which it is needless to add was also a pleasant affair.

Our Post Chaplain, Rev. Mr. Dunbar, is giving a very instructive course of lectures upon U. S. History, which is much enjoyed by all.

The Post Surgeon, Dr. Spencer, gave the last lecture of his winter course on Tuesday evening last, having continued his lectures weekly since January. Dr. Spencer, being a very pleasant speaker, has rendered his subjects interesting as well as instructive, and the course has been decidedly a success. Rumors come to us that an operetta is soon to be given by Mrs. Spencer, Mrs. Heistand, Major Page and Lieuts. Penrose and Lewis. From the well known talent mentioned, we trust it is more than a rumor.

(Correspondence of the Army and Navy Journal.)

FORT DU CHESNE, UTAH.

MARCH 26, 1887.

THE famous Ute Chief "Colorow" has left the reservation, taking with him about a dozen of his fellow "red skins." Lieut. Burnett, of the 9th Cav., with a detachment of horsemen, have gone after him to fetch him back, and will, no doubt, succeed.

Sergeant Bolten, Signal Service, U. S. A., arrived at post and is now surveying the contemplated telegraph line between Price, Utah, and this place. If fortune favors us and the post has not been blown away in the meantime, or becomes "no longer useful for military purposes," we might have a chance of getting some news now and then from the outside world, and will run no risks of having our mail dumped into "bitter creek," and, afterwards, at the option of the driver, fished out, if he feels at all inclined to do so. It is really strange that the authorities don't "tumble" and establish a mail route to such an "important" post as Du Chesne, for we had to wait three weeks lately before we got a paper over the Green River Route.

General Hatch has run irrigation pipes into the post, sowed grass and clover, planted trees, established post garden, and done everything in his power to make the place lovely and useful at some future day, though it is not expected to have the post built before the next five years.

The only pleasure and amusement at this post consists in fishing. Really beautiful trout can be got if one only knew how to get them. There is but one man here whom fortune favors and who, in the person of Hospital Steward J. S. Sweeney, has caught at an average, daily, 50 to 75 fish of various sizes, and not only does he turn them into the hospital mess, but generously distributes them to whomsoever it pleases to take them. J. S. A.

(For the Army and Navy Journal.)

FORT McREE.

A DESOLATED beach—a ruined fort,
Whose one great arch was standing grimly there,
Lashed by the furious waves in angry sport,
A glorious ruin—fanned by sweet South air.

Its mighty battlements had washed away,
Cumbering the whites and at its trembling feet;
The raving ocean thundered at its base,
Like cannon when the deadly foemen meet.

A stretch of white beach glimmered in the sun—
A sand-crane like a lonely sentry stood,
Where gun and sabre guarded once the wall
And men repelled assaults of fire and flood.

Hid in the ruined cistern owlets cried,
Rending with piteous moans the sultry air—
Where once the bugle's notes in clarion tones
Gave warning that the enemy was there.

The eagle swept athwart the sullen sky,
The lizard darted in and out the wood
Which drifted in the darkness and the gloom,
From wrecks deep sunken in the angry flood.

No habitation marked the lonely spot,
No living creature walked the snow-white sand.
The deep lagoon encroaching from the bay,
Had left old Fort McRee divorced from land.

The dark-green sea-weed tossed upon the waves,
Came drifting in like "night upon the plain."
The curlew cried from out the maddened foam,
And dolphins sported in the seething main.

The sea-oats waved their graceful golden heads,
And sea-shells lay, ungathered on the shore—
Dead soldiers' ghosts patrolled the walls at night
And cursed the barren sand-spit evermore.

—VINNIE REAM HOXIE.

NOTE.—Fort McRee was built many years ago on the point of beach that lies on the western side of the entrance to Pensacola Harbor. It was built for three tiers of guns, and at the breaking out of the War of the Rebellion was occupied by a Confederate force, commanded by Gen. Villepigne. In one of the engagements that followed Villepigne lost his arm, and his fort was silenced by the combined fire of some of the guns in Fort Pickens and those of the steam frigate *Niagara*. Since the war the sea has undermined the fort, and by successive storms all of it has been washed away except one arch, on the top of which lies driftwood, left there by heavy seas that at different times have swept over the sand spit on which the ruin stands.

It is hard to imagine a more desolate spot. To the westward of the now strip of beach where Fort McRee was built lies a salt water lagoon, separating it from the mainland. To the northward a dangerous quicksand, which looks deceptively dry, is the only apparent connection with the banks (Barrancas) near the lighthouse. To the eastward is the harbor entrance, and across this is seen Fort Pickens, strong, silent, stern, and apparently lifeless. Three thousand yards to the northeast, across the harbor, is old Fort San Carlos de Barrancas, the modern Fort Barrancas, and Barrancas Barracks.

But Fort McRee is not entirely without inhabitants. In a cheap little cottage close by the ruined arch lives Capt. Hoxie, of the U. S. Engineer Corps, with his wife and child. It was a rough change from the responsible duties he was performing in Washington to be brought down to this desolate spot, where he is engaged in improving the channel entrance to the harbor. Both Capt. and Mrs. Hoxie take the situation philosophically, and though banished from the gayeties of Washington and comfort and health in this beautiful climate. Residence at Fort McRee is, however, not without a spice of danger to relieve its dullness. Violent storms are frequent, and more than once, even in the last ten years, a tidal wave has engulfed the place, and nearly every fall the sand spit is swept over during storms by the waves from the Gulf of Mexico. L. L. L.

FORT NIOBRARA, NEB.

FROM the *Blade* of April 1 we extract the following: Gen. and Mrs. Kautz have returned from their trip East.... A rumor prevails, but not verified, that one of our young officers was married this week to the belle of the Post. An evening dress ball was given by the officers on the night of March 29. It was an enjoyable affair.... ..Capt. Cusack raffled off one of his race mares for $200, forty chances at $5 a chance. Sadoler Pringle, of Capt. Cusack's company, won the mare. ....On Tuesday evening last Maj. Henry Lippincott, post surgeon, gave the second of his series of medical lectures. It was illustrated by a large number of transparencies, prepared and thrown on the screen by Maj. Wilhelm, 8th Infantry. The pictures and drawings were taken by the major from American and foreign works furnished from the doctor's well-stocked library. The lecture was rendered in such plain and simple language that the men could follow and understand with ease.

BEECHER ON STANTON.

THE New York *Ledger* prints the following:

My Dear Mr. Bonner: . . . I think Stanton has all the elements of old John Adams: able, staunch, patriotic, full of principle, and always unpopular. He lacks that sense of other people's opinions, which keeps a man from running against them, and so he is not unfrequently found with a plan pitched right into somebody who by tact might have been avoided. But this is an honest trait, and I quite like to see among supple, dainty, ducking men, now and then, one who, like a bull, does his work by downright strength. Truly yours, H. W. BEECHER.

MAY 20, 1865.

Military Order of the Loyal Legion.

At a meeting of the Wisconsin Commandery at Milwaukee April 6, the following were balloted for: Col. W. H. Plunkett, U. S. V.; Lieut. R. W. Jackson, U. S. V.; Lieut. E. H. Smith, U. S. V., and Major Edward Scofield, U. S. V. The membership is now 150.

At a meeting of the California Commandery to be held at San Francisco, April 13, the following will be balloted for: Major M. J. Leaming, U. S. V.; Captain D. S. Blackburn, U. S. V.; Captain C. C. Hunt, U. S. V.; Captain F. L. Clarke, U. S. V., and 2d Lieut. E. P. Johnson, U. S. V., also the candidates named in Circular 4, previously given. The "Ladies' Reception" has been postponed until May 26.

The New York Commandery had one of its largest and most interesting meetings at Delmonico's Wednesday night. Gen. E. L. Molineux presided, and at his right sat Gen. J. W. Schofield. Gen. James Grant Wilson was introduced. He related several personal reminiscences of the war, both serious and humorous, and other speakers followed.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Aspinwall March 7. Will await the arrival of the *Mohican* at Panama.

All mail must be addressed to the *Galena*, care of Navy Pay Office, 29 State St., N. Y.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Left New York, March 29, on a cruise to the West Indies.

The Prospective cruise of the *Richmond* is as follows:

Port.	Arrive.	Leave.
New York, N. Y.	———	March 28.
St. Thomas, W. I.	April 5	April 9.
Martinique, W. I.	April 13	April 17.
Curacoa, W. I.	April 20	April 25.
Matanzas, Cuba	May 5	May 9.
Key West, Fla.	May 10	May 13.
Hampton Roads, Va.	May 20	———

Ship will travel about 4,864 miles in making this cruise.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Santiago de Cuba April 1.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Zanzibar Feb. 23.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Reported by cable to have arrived at Montevideo, Uruguay, March 16. All well. Expects to reach Rio about June 1, 1887.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. At Montevideo, Uruguay, Feb. 16.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Sailed from Athens, Greece, for Leghorn, Italy, April 4.

QUINNEBAUG, 3d rate, 8 guns, Comdr. Geo. W. Coffin. Reported by cable to have arrived at Tangier March 18. Comdr. W. M. Folger was ordered to command.

Pacific Station—Captain H. L. Howison (in temporary command).

Rear Admiral L. A. Kimberley is ordered to command, and leaves per steamer of April 1.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham, Arrived at Acapulco March 18.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Arrived at Mazatlan April 6, and after taking on stores will return to Acapulco.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Talcahuano, Chile, Feb. 26.

IROQUOIS, 3d rate, 7 guns, Comdr. J. Crittenden Watson. At Talcahuano, Chili, March 31. Commander Richard P. Leary was ordered to command this vessel per steamer of April 1.

The *Iroquois* will remain where she is until the approach of cold weather in May, and then begin her northward cruise which will end at San Francisco, where it is more than probably that she will be repaired for renewed duty on the same station.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Reported by cable to have arrived at Callao, Peru, March 22. She was refused communication with the shore, and left for Panama.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. At Sitka, where she will winter. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. At Norfolk, Va., from which place she will finally leave for her station in Alaskan waters.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Taboquilla, in Panama Bay, March 28. After a short stay intends to sail northward.

Capt. H. L. Howison, commanding the *Vandalia*, in a letter dated Coquimbo, Chili, Feb. 8, 1887, reports the arrival of the *Vandalia* at that port, having left Talcahuano, Chili, on the morning of the 2d inst. The *Mohican* and *Monogahela* were in the harbor, and the following named British men-of-war: *Triumph*, *Conquest*, *Caroline*, *Hyacinth*, *Wild Swan*, *Pelican*, and the store ship *Liffy*; also the Prussian man-of-war *Vitias*. The *Iroquois* remains at Talcahuano, where she arrived 28th ult.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, Capt. E. O. Matthews. Sailed from Batavia for Yokohama Feb. 22.

Capt. E. O. Matthews, commanding the *Brooklyn*, writes from Batavia, Java, under date of Feb. 22, that he left Singapore on the 2d inst., and reached Quop anchorage, Sarawak river, seven miles below Kuching, the afternoon of the 5th inst. Rajah Brooke, a nephew of Sir James, was away at the time of our visit, but Mr. Maxwell, the resident and the other officials did all in their power to make our time pass pleasantly. The government of this little State is entirely in the hands of the Rajah, who is absolute. He is assisted by a number of Englishmen, and as far as possible by the native chiefs. Industry is encouraged, but the lawless tendency of some of the sea Dyaks and Malays is put down with a strong hand. The Chinese do the mining and trading, but the Dyaks and Malays are beginning to work. Leaving Sarawak on the 8th, we reached this place the evening of the 11th. A few miles to the northward we passed through large quantities of pumic stone souvenirs of the explosion of Krakatao in 1883. We found the new harbor at this place in use (Priak Point) so came in, as the communication at the old anchorage is very uncertain, and sometimes unsafe during this monsoon. This harbor will be formally opened next month, when the custom house will be transferred here, and closed at the old landing place. This is connected with Batavia by canal and railway. On the 19th we participated in the festivities upon the King's seventieth birthday. On the 17th I received a telegram from Admiral Chandler annulling the unexecuted part of my orders, and directing me to proceed to Yokohama.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, Japan, Feb. 21.

MARION, † 3d rate, 8 guns, f. s. a. s., Commander Merrill Miller. At Yokohama, Japan, Feb. 21. Expecting then to leave for Kiobe and Nagasaki, and return to Yokohama early in March.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. Was at Hong Kong, China, Feb. 21. Expecting to sail for Canton shortly.

OMAHA, † 2d rate, 12 guns, Lieut. Commander Frank Courtis in temporary command. Comdr. F. V. McNair has been ordered to command. Sailed from Yokohama for Kiobe and Nagasaki Feb. 19. Expecting to return to Yokohama March 15.

PALOS, † 4th rate, 6 howitzers, Commander T. Nelson. At Tientsin, China, Feb. 21. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent after March 24, to Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Was to sail from St. Thomas, April 3, for Newport, R. I.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Was to sail from St. Thomas, April 3, for Newport, R. I.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Was to sail from St. Thomas, April 3, for Newport, R. I.

On Special Service.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Arrived March 28 at Norfolk, Va.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York, undergoing slight repairs. The delay in properly arranging her steering gear has practically exhausted the season for contemplated surveying work in South America, and it is no longer probable that the ship will go in that direction this year.

Another pattern of steam steering gear is to be placed on the *Dolphin*, the original type having proved a failure.

MICHIGAN, 4th rate, 8 guns, Comdr. John J. Read. At Erie, Pa.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. At Norfolk, Va. Will be refitted for service. The work will be commenced at once. It is estimated that the cost of repairs will be $25,000.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. At San Diego, Cal., Feb. 10. Mail address, San Diego, Cal.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Alongside of dock, foot of East 31st Street, New York City. She is being fitted for her annual Summer cruise. Will leave New York May 10, arrive at Glen Cove May 16, reach New London May 26, leave for Fayal, Azores, a few days later, arrive at that port June 10, reach Cadiz June 21, leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard. A report from the yard this week states that the ship is now in the granite drydock, has been thoroughly scraped and cleared of an enormous mass of barnacles and weeds and well painted with a fine coating of patent paint. She will be taken out of the dock in four or five days, and will be ready for a preliminary test of her machinery. It is reported that Chief Engineer Loring and a number of assistants will accompany her on trial trip in a moderate seaway up the Sound. The separator will be finished at that time, and excellent results are anticipated.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. Henry Wilson. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York. Capt. Cooke was detached from command March 31.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. The construction work will be completed about the middle of June. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. Will be ready in a few months, and in all probability be assigned to the North Atlantic Squadron.

Trenton—Undergoing repairs at Norfolk, Va. Expects to be ready for commission about May 1. It is not known at present where she will be ordered.

Chicago—Will be finished at New York. The engines are practically completed, and but little construction work remains to be done. (Report of March 19.)

Boston—At New York. Is being fitted with ice machines, electric lights and steam separators. She will be ready for a trial trip in about 60 days. (Report of March 19.)

Kearsarge—At Portsmouth, N. H. Is to be repaired for active service.

VARIOUS NAVAL ITEMS.

THE tug *Fortune* arrived at the Washington Yard April 3.

ORDERS have been issued to proceed with the work of altering the buildings in the Washington Navy-yard for gun foundry purposes.

SIR EDWARD REED, in a recent speech in Parliament, described the *Admiral* class of armor-clads as traps in which to send officers and men to destruction. The *Imperieuse* and *Warsprite* designs are also failures.

THE *Japan Gazette* announces that a new armor-clad, on the plans of M. Bertin, of the Japanese Navy, has been laid down in the yards of Ishikawa-Schima. The vessel is 150 feet long, 25 feet in beam, and 16.2 feet in draft, with a displacement of 750 tons.

THE New York and Norfolk Navy-yards having been favorably decided upon as the most desirable places for the two drydocks authorized at the last session of Congress. The next step of the Secretary of the Navy will be to appoint a Board to visit the two yards and select the sites for the erection of the docks.

AS THE Naval Bureau of Ordnance intends to use electricity for working armaments of naval vessels, it has opened correspondence with various electrical firms with this object in view. Guns and other weapons will be trained, pointed, loaded, fired, etc., by means of this power, which can readily be generated and transmitted to any particular point.

THE *Italia Militare* (Rome), states that the *Manchooria*, a gun-boat constructed in the yards of Burmeister and Waim at Copenhagen for the Russian Government, was recently launched. The principal dimensions are: Length between perpendiculars, 63 metres; beam, 11 metres; draft, 3.35 metres; displacement, 1,213 tons. The indicated horse-power is 1,500.

THERE have been ten vacancies in the Medical Corps of the Navy for nearly two years. An examination is now in progress before the Medical Board of Examiners in Philadelphia of applicants for appointment. As only four physicians have appeared the Surgeon-General will make an effort to increase the importance of the Assistant Surgeons, so that he may obtain recruits of acknowledged ability.

PASSED ASSISTANT ENGINEER PERRY, for a long time attached to the *Dolphin*, has been granted a three months' leave of absence from that ship. He has been detached from the *Dolphin*, and his relief will soon be assigned if it is decided to send the vessel on a cruise. It is thought by many officers that this vessel would fill the requirements of a training-ship for the Bureau of Equipment and Recruiting, while waiting for the influences to turn in the right direction for constructing one or more for that purpose, as proposed by Comdr. Schley.

THE long-contested case of D. W. Bouldin et al. v. Thomas S. Phelps et al., a suit to recover possession of Mare Island, was decided March 28 in the U. S. Circuit Court at San Francisco in favor of defendants. The Court expressed the opinion "that Alvarado did not sign the alleged grant until the country had passed into the hands of the United States Government, and after his term as Governor had expired, and at the time of writing the alleged grant he had antedated it." In conclusion the court says: "There must be findings and a judgment for defendant on the ground indicated in the opinion, and it is so ordered."

FOLLOWING the recommendations of the recent Board of Survey held on the *Powhatan*, *Tennessee* and *Ticonderoga*, the Secretary of the Navy has decided to issue advertisements for proposals for the purchase of these old vessels, in accordance with the provisions of law. Of these vessels, the *Powhatan* is by far the most antiquated, having been built at Nortolk, Va., in 1848. The engines were designed by the venerable engineer, Chas. Haswell, of New York, and were triumphs of their type and day. The first Japanese embassy immediately following Perry's expedition, were brought to this country on the *Powhatan*, and for many years before, during and after the war, this staunch old craft was in almost continuous commission. With the single exception of the *Michigan*, the *Powhatan* is the only remaining vessel representing the old regimé in the Navy, and under the decision referred to, she will soon become but an imaginary point, an historical episode.

NAVY GAZETTE.

Ordered.

APRIL 1.—Captain F. V. McNair, to command the Omaha, per steamer of May 12 from San Francisco.

Captain John W. Philip, to command the Independence, April 30.

APRIL 2.—Lieutenant-Commander H. E. Nichols, to report to Commander Evans for duty as inspector of steel for the new cruisers.

APRIL 4.—Lieutenant W. B. Caperton, to duty as inspector of steel at Pittsburg, Penn., April 12, under general direction of Commander Evans.

APRIL 6.—Captain James O'Kane, to Navy-yard, Portsmouth, N. H., May 2.

APRIL 7.—Lieutenant W. C. Babcock, to special duty in Bureau of Navigation.

Mate J. M. Creighton, to Havre de Grace, Md., to report to Mate J. A. Smith, on the Fish Hawk.

Passed Assistant Engineer John D. Ford, to continue as President of Baltimore Manual Training School until June 30, 1888.

Detached.

APRIL 1.—Captain Thomas O. Selfridge, from the command of the Omaha on reporting of his relief, and ordered to return home and report arrival.

Commander Frederick Rodgers, from the command of the Independence April 30, and placed on waiting orders.

Passed Assistant Engineer J. H. Perry, from the Dolphin, and granted three months' leave.

APRIL 7.—Commander John J. Read, from the Michigan and ordered to duty as Inspector of the 4th Lighthouse District as relief of Captain G. B. White, May 2, Captain White to continue as a member of the Advisory Board on the improvement of Philadelphia harbor.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending April 7, 1887:

Charles Williams, seaman, died March 24, 1887, at Naval Hospital, New York.

MARINE CORPS.

APRIL 7.—Colonel Thomas Y. Field, ordered to proceed to Norfolk, Va., and report as directed October 1, 1886.

Paymr. F. H. Hinman, of the Vandalia, has been condemned by a Medical Board of Survey and ordered home. Pay Clerk Roach has been appointed Acting Paymaster, with instructions to assume charge of Paymaster Hinman's accounts.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., April 6, 1887.

THE pleasant weather at the Academy this week has been very propitious for various reasons. Work on the buildings and grounds by the workmen employed at the Academy, under direction of Lieut. Belknap, has begun in earnest, and the terrace behind the Naval Institute building is the first to receive attention. Moreover the drills in boats on the Severn and down the bay could hardly take place, if the snow and rainstorms of last week were repeated. The steamer *Standish* leaves daily at 4 o'clock and goes eight or nine miles down the bay for target practice. She is commanded by Lieut. Ingersoll. The first and second classes of one division of cadets man the guns and watch the working of the engine. Another division drill with torpedoes, under direction of Ensign Muir. The targets are floating barrels, and the cadets are very successful in destroying them. The instruction in steam tactics is superintended by Lieut. Leutze, while Ensign Eyre has charge of the target practice with Gatling guns in the steam launches. The third and fourth classes are exercised in boats under oars.

The first company of the battalion is having skirmish drill under Ensign Haeseler. The battalion has been armed with Hotchkiss repeating rifles. The cadets complain that they do not drill as well as when they had the plain cadet rifles, owing to the great increase in weight and the thick stock. No bayonets are carried, and this detracts considerably from the appearance of the battalion.

The hospital is unusually full of cadets; most of these have sore throats, caused by exposure during the recent bad weather. The *Phlox* made its usual trip to Baltimore on Thursday last, but, owing to the rough passage, many of the officers' wives and children returned by rail to Annapolis.

A number of candidates for admission to the Academy are present in the city, and often visit the yard to watch the cadets at drill. Those admitted in May will go on the four months' cruise proposed for this summer. It is thought that a large number will be admitted in May, owing to the large number of appointments already made. The reception at the Superintendent's residence on Saturday evening was well attended, and very pleasant for all concerned. The usual stag hop was given on Saturday evening, and, as usual, it was well attended. This is the last week for stag hops, as it is positively announced that the first officers' hop on April 16 will give way to the comedy to be presented by the private theatrical club. Services will be held in the chapel by Chaplain Rawson every evening during the week, Saturday excepted. These services begin at 7 and close at 7.30, in order that cadets may attend without interfering with their studies.

The new 5-inch steel rifles have been lying at the *Phlox*'s wharf for a week, and are now ready for shipment to the experimental battery.

Four cadets of the third class have been placed upon the *Santee*, and deprived of all privileges until further orders. They were reported for insubordinate conduct, making a great disturbance after "taps" and throwing water from the upper floors to the lower ones. They are now the only ones under punishment. Miss Taft, of Rhode Island, is still the guest of Mrs. Lieut. Miller. Mrs. Wilson, of Norfolk, is visiting, with her daughter, Mrs. Lieut. C. R. Miles. Mrs. Driggs is visiting her son, Cadet Driggs of the third class.

It is reported that the watchman and sentry at the main gate discovered one of the colored servants, employed as a cook in the cadets' quarters, attempting to pass a wagon through the gate containing a large quantity of bread taken from the cadets' stores. It has been suspected that food was being stolen for a long time, but this is the first case where the offender was captured with a considerable amount.

FOR COAST DEFENCE.

THE members of the Massachusetts Reform Club assembled at Parker's, Boston, on Wednesday evening, March 30, for their regular monthly meeting and dinner. About seventy-five gentlemen were in attendance. Among the guests of the Club were: Capt. F. V. Greene, late U. S. A.; Capt. David A. Lyle, U. S. A.; Comdr. Albert S. Barker, U. S. N.; Col. Thos. C. Sullivan, U. S. A.; Col. George L. Gillespie, U. S. Engineers. Letters of regret were received from Secretary Endicott and the commanders of Fort Warren and the Charlestown Navy-yard. The feature of the evening was an address by Capt. F. V. Greene upon the subject of our coast defences, which was further discussed by Comdr. Barker, the Hon. John E. Russell, Capt. Lyle, the Hon Leopold Morse, and Mr. Sherman Hoar. Comdr. Barker said: "We need torpedo boats. I was present at the bombardment of Foochow by the French, and saw in twenty minutes the entire fleet of eight Chinese vessels burned by the use of machine guns. The largest Chinese vessel was blown up by torpedoes. I don't believe in automatic torpedoes. Give me a man like Cushing, with nerve, in a boat with a spar torpedo. We need a human controlling power over the torpedo up to the last moment."

Captain Lyle delivered an address on "Improvements in Artillery." He said that no guns in the world are equal to our 8-inch guns, and at the present time we have no steel gun larger than that. The Army and Navy are thoroughly prepared to go ahead in gun construction the moment they get a proper appropriation. We know now the exact elasticity of steel, and just what it will do. Our guns are the finest in the world, and I will get mechanics enough right here in Massachusetts to make all the guns you want. The contract system of the United States is a system of legalized fraud, still if I give a contract to the lowest bidder I clear myself, though I cannot tell what the quality of the work or material may be. He paid a high tribute to the Army engineers, who, he said, had no hope of promotion, and nothing to encourage them in their arduous labors save the love of their country and the consciousness of doing their duty faithfully.

REVENUE MARINE.

The following assignments of officers in the Revenue Marine Service were made this week:

1st Lieutenant W. D. Roath, detached from the steamer *Grant* and assigned to steamer *Crawford* at Key West.

1st Lieutenant W. J. Herring, from steamer *Manhattan* to steamer *Grant*, New York.

Chief Engineer G. M. Robinson, assigned to steamer *Woodbury*, Eastport.

2d Assistant Engineer E. P. Webber, from launch *Discover* to steamer *Gallatin*, Boston.

1st Lieutenant T. S. Smyth, from steamer *Crawford* to *Woodbury*.

2d Lieutenant C. T. Bryan, from launch *Hawley* to steamer *Dix*, Galveston.

3d Lieutenant K. W. Perry, from *Hamilton* to *Crawford*.

Chief Engineer J. E. Jeffris, from *Woodbury* and placed on waiting orders.

2d Assistant Engineer C. F. Nash, from the *Gallatin* and granted leave of absence.

3d Lieutenant J. H. Quinan, from *Woodbury* to *Boutwell*, Savannah.

3d Lieutenant P. W. Thompson, from *Crawford* to *Dallas*, Portland.

COMPLETING THE CHICAGO AND DOLPHIN.

SECRETARY WHITNEY, under date of April 6, 1887, sent the following letter to the Chiefs of the Bureaus of Construction and Steam Engineering:

Referring to the fact that under the 12th clause of the respective contracts for the construction of the cruisers *Chicago*, *Boston* and *Atlanta*, and after the preliminary proceedings required under the 11th clause had been duly taken, it was decided that the Government should proceed with the work of completing said vessels, I deem it proper at this time to invite your attention to the provisions contained in the 13th clause of said contracts, and especially to the requirement that in case the Secretary of the Navy should proceed to complete the work necessary thereunder, such procedure, while at the risk and expense of the contractor, should be without unnecessary delay. Although more than 44 months have elapsed since the construction of these vessels was commenced under the contract and 20 months since the Government took possession of the vessels for the purpose of completing them, it appears that much yet remains to be done on the *Chicago* and the *Boston* before they will be ready for the first trial. Under these circumstances, I have to request that the unfinished contract work on said vessels may be prosecuted to its proper and final completion with as little delay as possible.

Referring to the present status of the *Chicago* and *Boston*, and to the general requirements of the contracts for their construction, I have to state that the first duty of the Department, under existing circumstances, is to push forward the completion of the contract work as embraced in the respective plans and specifications which constitute a part of the respective contracts, and while the Department is aware that there is room for improvement in many details of construction, it is of opinion that all changes which may tend to hinder or delay the completion of the contract work, should, so far as practicable, be deferred until a point shall have been reached where there can be a proper accounting and settlement, under the 13th clause of said contracts. It is, therefore, directed that the work now going on at Chester, Pa., on and towards the completion of the *Chicago*, be continued and prosecuted at that place, with all the speed compatible with its proper performance, until the contract work is completed; that only such extra work as is essentially necessary to prepare the vessel for her first trial shall be done at present, and that all other extra work heretofore ordered, or which may be contemplated as an improvement on the existing plans and specifications be postponed until further orders; that, before leaving Chester, the *Chicago* shall be so far complete, under the contract, as not to require any work to be done on her after her arrival at the Navy-yard, New York, and preparatory to her first six hours' trial, except to place on board the weights necessary to bring her to her contemplated mean draught (19' 0"), and that as soon as the machinery is in proper condition, such trial shall be had at such time and place as the Department may designate. The same general instructions, so far as the same are appropriate and necessary, will also govern the further prosecution of unfinished work on the *Boston* and *Atlanta*.

NAVY MUTUAL AID ASSOCIATION.

THE following officers and directors of the Navy Mutual Aid Association, for the fiscal year ending March 31, 1888, were elected at the Eighth Annual Meeting, April 5, 1887:

President—Capt. R. W. Meade. 1st Vice-President—Chief Engr. W. H. Harris, 2d Vice-President—Comdr. W. M. Folger.

Directors—Lieut.-Comdr. C. H. Stockton, Commo. A. W. Weaver, Civil Engr. A. G. Menocal, P. A. Surgeon G. Arthur, Lieut. N. E. Miles, Lieut. G. A. Merriam, Boatswain J. McDonald, Paymr. L. G. Boggs, P. A. Surg. C. W. Deane, Chief Engr. P. Inch, Pay Insp. L. G. Billings, Ensign N. J. L. T. Halpine, Surgeon C. H. White, Lieut. N. E. Mason, Lieut. E. B. Underwood, P. A. Engr. W. A. H. Allen, Lieut. F. L. Denny, U. S. M. C., and Lieut. Richard Rush.

Non Resident Directors—Comdr. W. C. Wise, Portsmouth Navy-yard; Capt. A. Kautz, Boston Navy-yard; Civil Engr. P. C. Asserson, New York Navy yard; Paymr. W. Goldsborough, League Island Navy-yard; Prof. W. W. Hendrickson, Naval Academy; Capt. George Brown, Norfolk Navy-yard; Pay Director H. M. Denniston, Mare Island Navy-yard; Comdr. C. F. Goodrich, Torpedo Station; Paymr. Geo. H. Read, North Atlantic Station; P. A. Engr. C. W. Rae, European Station; Lieut J. H. Moore, Asiastic Station; and Lieut. A. Ross, Pacific Station.

The annual report of the Secretary and Treasurer showed a balance on hand of $35,039.43. The assets of the Association are invested as follows: $24,000 invested in 4 per cent. bonds, costing $28,939.92; deposited in Riggs's bank, $5,296.28; checks and cash in treasurer's hands, $803.23. Thirty-two members were admitted during the year, seven died and four resigned, making total membership 779 and the benefit $3,644.20.

THE Secretary of War is receiving requests daily, from officers anxious for promotion, to fill the four vacancies existing on the disability retired list.

RECENT DEATHS.

FIRST LIEUTENANT ADOLPHUS H. VON LUETTWITZ, U. S. A., retired, who died at Washington, D. C., March 29, was born in Prussia, and when the war broke out, being a resident of New York, joined the 54th New York Volunteers in January, 1862, rose to the grade of captain, and was mustered out in September, 1865. In August, 1867, he was appointed 2d Lieutenant, 3d U. S. Cavalry, promoted 1st Lieutenant in January, 1870, and cashiered July 8, 1870, for sundry offences. He was reappointed 1st Lieutenant, 3d Cavalry, with original date, by the Act of June 23, 1874, and was retired in 1879, for disability caused by the loss of his left leg from a wound received in the line of duty. He served with great credit during the war, being in several battles.

COMMODORE CHALES GREEN, U. S. Navy, retired, died suddenly at Providence, R. I., April 7, of Angina Pectoris, in the 74th year of his age. He was born in Connecticut, and entered the Navy, May 1, 1826. During the war he served with distinction and gallantry. While commanding the *Jamestown* in blockade duty, he captured six prizes and destroyed the bark *Alvarado* under the guns of the fort at Fernandina. In March, 1867, he had attained the grade of Commodore on the retired list, having been retired as Captain, November 15, 1832, on account of incapacity arising from long and faithful service.

COLONEL SIR WILLIAM OWEN LANYON, K. C. M. G., C. B., who has been travelling for the past six months through the South, died April 6 at the Windsor Hotel, New York City, from a cancer in the throat, contracted in the last Soudan campaign, through which he served. He was educated for the army, and in early life won his way to the rank of Staff Colonel. He served through the Zulu war, and through both the Soudan campaigns.

THE funeral of the late General Roswell S. Ripley, took place at Charleston, S. C., amid solemn ceremonies, the body being interred in the Magnolia Cemetery. Municipal flags and flags on public and private buildings and on shipping were displayed all day at half mast. Bells were tolled, and every possible mark of respect was shown the deceased.

THE Hon. D. W. Maxon, who died at Santa Cruz, March 19, was the father of Lieut. M. M. Maxon, 10th U. S. Cavalry, and a gentleman of high character, and had filled many important public positions. Lt. Maxon immediately upon hearing of his father's death left Fort Grant for Santa Cruz and will remain there a few weeks.

MRS. GARDNER, widow of Charles T. Gardner and mother of Major W. H. Gardner, Surgeon, U. S. A., on duty at Fort McHenry, died at Washington, D. C., April 1, in the 73d year of her age. The funeral took place on Sunday, and was attended by many relatives and friends of the family.

MR. EDWARD WILLARD, who died at Los Angeles, Cal., March 24, was a grandson of the late General Anthony Lamb, who was appointed to the Quartermaster's Department, U. S. Army, in 1809, and was for many years a resident of New York City.

MRS. VAN VLIET, mother of General Stewart Van Vliet, U. S. A., and Major Frederick Van Vliet, 10th U. S. Cavalry, died last week, aged 90.

BERKELEY SCHOOL PRIZE DRILL.

ONE of the best organized, as well as one of the largest schools, in New York, is the Berkeley, of which John S. White, LL. D., is principal. Under the instructien of Dr. White, his pupils have been formed into an infantry battalion commanded by officers chosen from among their own number. The battalion drill regularly in the armory of the 22d N. Y., and once a year they give an exhibition drill. This year the drill was held in the armory of the 7th Regiment, on the evening of Thursday last.

Three divisions, in six companies, numbering altogether 125 youths, took part in the exercises. The officers were Col. Robert N. Brockaway, Lieut.-Col. Thos. Denny, Jr., Major Edward C. Moen, Adjt. Jacob Wendell, Jr., and Capt. Stead. First Division, Co. A—H. B. Slayback; Co. B—Joseph Rudd; Second Division, Co. F—Elliott White; Co. E—N. E. Stout. Third Division, Co. O—I. C. McKeever; Co. D—James K. Parker.

A school band and drum corps furnished the music, and very good music it was. The exercises included a review by Col. Bankson T. Morgan, a battalion drill, bayonet exercise and a competitive drill for the colors, which went to Co. F. The judges were Col. Clark, Major Kip and Adjt. Rand, of the 7th Regt. A Gatling battery drill by four volunteer detachments followed. The guns used were those belonging to Capt. Earles's Battery and they were excellently served. At the close of the drill Dr. Gatling was brought out and expressed to the young gentlemen his satisfaction with it. The drill was in every way creditable and showed marks of close attention to the requirements of the tactics.

LATE ARMY ORDERS.

Chaplain Henry Swift, recently appointed, will proceed to San Antonio, Texas, and report to the Commanding General, Department of Texas. (S. O. H. Q. A., April 8.)

Chaplain W. F. Hubbard will report in person to the commanding officer at Fort Buford, D. T. (S. O., H. Q. A., April 8.)

THE discussion of the question of heavy guns was continued before the American Society of Civil Engineers on Thursday evening last, by Lieut. W. H. Jaques, U. S. N.; J. N. Knap, Dr. R. J. Gatling, Theo. Cooper, A. H. Emery, Comdr. E. T. Goodrich, U. S. Navy; Lieut. R. R. Ingersoll, U. S. N.; Lieut. Austin M. Knight, U. S. N., and others. We shall have occasion to refer to this discussion again when we get a full report of it.

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer, we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

ANNOUNCEMENT.

TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

F. A. KENDALL, Capt. U. S. A. (Retired.)

SPON'S MECHANICS' OWN BOOK,

Explaining the various mechanical trades that deal with the conversion of wood, metal, and stone into useful objects from an every day practical view. 702 pages with 1420 illustrations. Sent, postage prepaid, on receipt of $2.50.

E. & F. N. SPON, 35 MURRAY STREET, New York.

THE orders of Lieutenant O. E. LASHER, U. S. N., to the *Fortune*, is a recognition of the ability with which this officer has at various times performed duty in command of the tug on special duty in connection with removing the surplus plant and material from the Washington Yard. Lieutenant LASHER has become quite a proficient in the difficult navigation of the Potomac river, and during the approaching summer it is probable that he will still further perfect himself in the duties of a Chesapeake and Potomac pilot. It would seem to be a good suggestion, in this connection, for the Navy Department to allow such of the younger officers as choose, or who show a predilection for this service, to familiarize themselves with the duties of piloting on all parts of the Atlantic coast, by actual practice in conjunction with the regular pilot system of the coast. There are, undoubtedly, many officers who would gladly avail themselves of the privilege of acquiring an actual and practical knowledge of a profession so in keeping with their normal duties.

LIEUTENANT E. L. ZALINSKI, 5th U. S. Artillery, will read a paper on "The Pneumatic Dynamite Torpedo Gun," before the Military Service Institution at Governor's Island, on Thursday next, April 14, at 1.45 P. M. The importance of the subject and the author's well known professional experience should attract a large audience.

THE Ordnance Department has advertised for proposals for furnishing the New York State militia troops with 400,000 metallic rifle ball cartridges, the bids to be in by April 12.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, APRIL 9, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

Cable address: ARMYNAVY. 240 Broadway, New York.

OUR NEW NAVY.

THE first important step toward carrying into effect that portion of the act of March 3, 1887, relating to the increase of the naval establishment, was taken by the Secretary of the Navy on April 6, under which date advertisement appeared inviting proposals for the construction of five new vessels. This advertisement is inserted elsewhere in this number of the JOURNAL, and in it will be found details as to the character of the vessels called for. They are the *Newark*, the appropriation for which was increased by the act of March 3, '87, from $1,100,000 to $1,300,000, the two 4,000-ton cruisers to have a speed of 19 knots, and the two gunboats of the type of gunboat No. 1, authorized by the same act. The plans and specifications for the *Newark* are about complete. Those for the two gunboats are in course of preparation; nothing has yet been done upon the designs for the two 19 knot cruisers, and it will require rapid work to get the plans and specifications ready by June 1, the date when, according to the advertisement, all information is to be ready for bidders. They were designated in our list of new vessels authorized, published March 12, as 5,000-ton vessels, the law of March 3, '87, authorizing their construction, not specifying their tonnage. Some of the officers of the Department think that the Secretary was a little premature in advertising for these two vessels at this time, and say that an extension of time, for the submission of bids, will necessarily follow.

The Secretary of the Navy is now considering the detail for the board to examine the plans opened last week for the two 6,000-ton vessels authorized by the act of Aug. 3, '86. Capt. Ramsay, Comdr. Goodrich and Asst. Naval Constructor Bowles, it is expected, will be the naval members of the board; the civilian members are still under advisement. The Secretary is known to be very favorably disposed toward the plans submitted by the Bureau of Construction and Repair for the armored cruiser, and if the board are of the same opinion he will probably have this vessel built at the Brooklyn Navy-yard, thus giving the Navy a chance to build its own vessel upon its own design in competition with private designers and builders. Private builders will probably be invited to bid for the construction of the other 6,000-ton vessel, known as the double bottomed armored battle ship.

We learn that of the ten designs for new cruisers submitted to the Navy Department last week, at least six are worthy of close attention. The one submitted by a young Naval officer, Ensign W. I. Chambers, is spoken of very highly, and he claims for the vessel proposed a capacity to steam across the Atlantic at an average speed of 17 knots. Besides this we have the designs of the Chief of the Bureau of Construction, Chief Constructor T. D. Wilson, and that of Constructor S. H. Pook, U. S. N. It will certainly be a satisfactory conclusion if the

contest of the award should fall to one of the three named. It will serve to show that our Naval officers can hold their own in competition with the world. The Thames Shipbuilding Co., which offered a design, built the *Benbow*, 10,000 tons, and the *Superb*, 9,000 tons, and are now engaged upon the *Sansparie*l. Besides these English naval vessels they have built for Germany the *Koenig Wilhelm*, 9,700 tons, and for Turkey, the *Mesoodiyeh*, 8,994 tons, the German vessel being originally built for the Turks under the name of the *Fatikh*. The first English sea-going armored ship, the *Warrior*, was also their work. The Barrow Shipbuilding Co. constructed the torpedo cruiser *Fearless*. They offer a design for the line of battle-ship, as well as the cruiser. The first provides for the protection of the water line and the guns on the upper deck, leaving the intermediate space unarmored. A deflective deck rises from the water line armor. Mr. N. L. Tonns, who offers a design, was formerly foreman for Mr. Steers. The plans from New Zealand were only rough tracings representing some special ideas of the designer, who is Lloyd's surveyor at Auckland. The design of F. L. Norton, of Washington, had reference, chiefly to methods of construction of hull and citadel.

The following table will show the general character of some of these designs in comparison with each other:

Guns.		4-10 in. 6 6 in. 13-R. fire.	2-12 in. 2-10 in. 2 6 in.	4-10 in. 6-6 in. 12-R. fire.	4-10 in. 6 6 in.	2-12 in. 6 in.

Designer.		Chief Constructor, Cruiser.	do. Line of battleship.	Lieut. Chambers' Cruiser..	Thames Co. Cruiser.....	do. Battleship.....

The machinery for the department line-of-battle ship was designed by Engineer-in-Chief Loring. The Secretary is reported as being much gratified with the work of his bureau chiefs on the battle ship, and thinks it proper to encourage officers who are capable of removing the imputation from the Navy that its personnel cannot compete in matters of ship construction with civilian experts.

Every effort has been made to combine all modern improvements. All parts of the work were decided upon by the bureau officers after mature deliberation and consultation, and they are in perfect accord on all matters that relate to them. As it was fully understood that these plans were not made to be placed in competition with others presented under the Department's circular, but only in case that no satisfactory designs were furnished, they will not be taken into consideration by the Board that will examine and report upon the plans, unless all others fail to meet requirements.

The design of Mr. Chambers includes a novel rig, which gives great spread of fore and aft sail, admits of being quickly cleared for action and allows of two military tops to each masts, in the lower of which are mounted four 37 mm. revolving cannon. There are six torpedo tubes, giving an all around torpedo fire. The two which fire ahead are fixed in line with the keel under water. The gun deck battery and the berth deck compartments are protected against bursting shells by double splinter screens between the guns and by several continuous athwartship bulkheads. The design includes two armored conning towers, widely separated, so situated that a clear view all around may be obtained from each. The engines are especially designed for continuous working at high speed. This ship has no projecting sponsons along the side, is provided with torpedo defence nettings and will carry fourteen boats, two of which are second class torpedo boats and two steam cutters.

The designs of Mr. Grandjean are after the model of the tumble-home sided French ironclad. That of Mr. Watts is for a modified central citadel battery ship. Secretary Whitney is quoted as saying: "I shall appoint as fair a board as I can constitute to examine and report upon them. Persons interested in the subject, as we are, detect new ideas at once in the plans. I believe that the spirit is becoming thoroughly established in the Department of welcoming new ideas from any quarter. The truth is if we can begin our new construction by utilizing the best ideas wherever they are to be found, we shall soon not only make them our own, but our inventive genius which is of the first order, will carry us ahead of others. The policy of enlisting outsiders and making it for their pecuniary interest to become allies of the Department is getting systematized here."

This is the spirit for which we have always contended here, and it is the one that should be infused into every branch of the Service. We have heard quite enough of the talk in which too many naval officers indulge, to the effect that we must depend upon foreign brains and foreign material for our improvement in naval matters. The result may not come at once, but we have no doubt that abundant success will attend Mr. Whitney's efforts to stimulate home production. The New York *Morning Journal* says: "Secretary Whitney is likely to live in history as the great Naval Secretary. He has bid the dry bones live. Until he took hold of our leaky hulks and our grass-grown yards our Navy resembled Coleridge's 'painted ship upon a painted ocean.' There is life where there was lethargy, hope where there was despair. We have but one favor to ask of Mr. Whitney. It is: Let Americans plan the vessels, let Americans construct them, let Americans man them."

JUSTICE TO THE ARTILLERY.

Prof. Michie's monograph on the Artillery has been received with general favor by that arm of the service, for they see in his criticisms the hope for an improvement of their condition. There is one thing in regard to which the active minded officers of the artillery seem to be united in sentiment, and that is that some opportunity should be given to them to acquire a practical idea of modern artillery—its construction, manipulation, and management. This applies especially to the Captains. The subalterns are sent to the artillery school and to the torpedo school, but what means of instruction have officers of higher rank in the practical knowledge of the machinery of war which they will be expected to set in motion in case of war? Assuming, for the sake of the argument, that modern guns and forts can be improvised, will not the captains in attempting to use them be too greatly dependent on others? No study of professional papers will supply the need of actual experience with modern appliances for war. Why is it that our artillery Captains are so entirely overlooked in the schemes for professional improvement? What is to prevent their being sent in turn to witness the operations at the ordnance proving grounds, torpedo schools and arsenals of construction, foundries, etc.? No professional ambition can supply the lack of means for instruction. How many officers of artillery of long service ever saw a modern breech-loading gun, or who know anything practically of torpedoes, chronoscopes, dynamite, modern powder, and the other new material with which they must deal? No opportunity is given for practice even with the antiquated tools that do duty as guns in our forts. Upton's Tactics, though very interesting to novices are not a perennial source of delight, and the moving of a mortar to the "right" or "left" or planting the pointing status, losing something of its excitement by too frequent repetition.

A little time spent at public or private arsenals of construction would give to our officers new ideas that would be found very serviceable in their profession. As Professor Michie well says: "No foreign service possesses a body of officers so unspotted in honor and integrity in general, so capable in intellectual and scientific ability, or so single-minded in devotion to their profession as those who grace the rolls of the artillery of the U. S. Army. Perfectly competent to master every requirement of the modern system of seacoast defence, they ask only the means and the opportunity. They cannot make bricks without straw. They have a professional right to demand a knowledge of the guns they are to fight, the works they are to defend, and the harbors they are to protect."

He contrasts the state of mind of the three hundred officers of artillery who passed under his hands when they left the Academy and their condition when he met them in after years—"listless, depressed and cynical. The Academy sent them out bright, capable, and full of ambition; the Service enveloped them with such an atmosphere of professional inactivity and narrowing routine as to effectually suppress them."

Most of the artillery officers above the grade of 1st lieutenant performed valuable service during the war, and many of the senior 1st lieutenants commanded batteries during that critical period. In the 1st Regiment four officers declined commissions in the cavalry or in the infantry; so did three in the 2d Regiment; four in the fourth, and one in the 3d. Had these twelve officers accepted these tenders of rank, one grade above that which they held, many of them would have been field officers years ago. But the artillery arm has been treated unfairly. The Ordnance Corps, the Engineers, and the officers of the Medical Corps are eligible to promotion every fourteen years. The artillery almost—never. With but five regiments, of twelve companies, or batteries, as they are called, with four lieutenants to each battery, promotion is practically at a standstill. Artillery officers must witness their classmates' promotion over their heads in every other branch of the Service, and in many instances captains and majors fill those positions who were not even entered at West Point when the old 1st lieutenants graduated.

Two years ago it was proposed to make the senior lieutenants captains, and to give a senior and a junior captain to each battery, but for some reason the bill never became a law. In 1879 the patient subalterns were forced to exercise still greater patience. A large number of unassigned infantry lieutenants were assigned to the artillery, taking rank according to the date of their commissions in the infantry arm. This was anything but just, and in some instances the injustice was glaring. Considering all the disadvantages against which they have had to contend, it is not strange that the artillery should have settled into a state of hopeless apathy, but it is an encouraging sign that they welcome so cordially Prof. Michie's attempt to arouse public attention to their just demand and obvious necessities.

An "Act to provide for the bringing of suits against the Government of the United States" was passed by the last Congress and approved on the last day of the session, March 3. It gives the Court of Claims jurisdiction over all claims against the United States, except those for pensions, war claims and claims which have heretofore been rejected or reported on adversely by any court, department or commission. Set-offs, counter claims and claims for damages or other demands against the Government are also to be determined by the Court of Claims. Concurrent jurisdiction is given to the U. S. District Courts on claims not exceeding $1,000, and to the United States Circuit Courts for amounts between that and $10,000. Suit must be brought within six years of the time when the right accrues, and when an account has been left unsettled by the proper Department of Government for three years after an application for its settlement, and no suit has been brought by the United States, the claimant may petition the court for a hearing, and its judgment as to the amount due

shall be final. When the decision is in favor of the United States it must bring suit to collect within three years or its claim is barred. Suit is to be brought by filing a petition with the clerk of the court having jurisdiction and serving a copy of it upon the U. S. Attorney for the district in which the suit is brought and mailing another copy to the Attorney-General of the United States. Affidavit of such service and the mailing must be filed with the clerk of the court. The Government must make answer within sixty days, unless an extension is granted, and in default of such answer the plaintiff may go on and prove his claim. Parties in interest are allowed to testify, and the same rights of appeal and writs of error are allowed as in other cases, provided that this right is exercised within six months. Interest is given at the rate of four per cent. on claims allowed until an appropriation is made for their payment. This law also permits the transfer to the Court of Claims all disputes as to questions of fact which may arise between a claimant and the Department, both parties to the controversy consenting thereto, and authorizes that court to render judgment upon cases coming before it, or now pending, under the Act of March 3, 1883, "to afford assistance and relief to Congress and the executive departments in the investigation of claims and claimants against the Government. This act also authorizes either House of Congress to refer to the Court of Claims for a report upon the facts any bill, except for pension, pending before it, providing payment for a claim, or for a grant, gift or bounty to any person. Finally, the act allows to the prevailing party witness fees, costs of summonses and court fees. Sec. 1079, Rev. Stat., forbidding parties in interest to testify, is repealed and the provisions of Sec. 1080 made applicable to this act. It is a most righteous law, and will greatly improve the position of all who have dealings with the Government, putting it in their power to compel a settlement of their claims and a final adjustment of accounts within a reasonable time.

WE find that there was one exception to our statement of last week, as to no officer graduating at the head of his class in the Military Academy having been assigned to the cavalry. James R. Wasson, who headed the class of 1871, was assigned to the 4th Cavalry, but the colonel of that regiment, R. S. Mackenzie, was not an old dragoon of the Mexican War. The lieut.-colonel, Jas. H. Carleton, was an officer of the 1st Dragoons during the Mexican War, but Wasson did not serve under his command, as he went to Japan immediately upon his graduation on a leave of absence for one year, at the end of which he resigned. Twelve cadets, who graduated at the head, have been assigned to the artillery, viz.: Sam'l Gates, 1804; Wm. Gates, 1806; Justus Post, 1807; Christopher Van de Venter, 1809; Ebenezer S. Sibley, 1827; George W. Ward, 1832, to the 2d Artillery; Geo. W. Gardiner, 1814; Wm. H. Wright, 1838, to the 1st Artillery; Albert E. Church, 1828, and John R. Williams, 1876, to the 3d Artillery; John Cleve Symmes, 1847, to the 4th Artillery; Eric Bergland, 1869, to the 5th Artillery. To the infantry have been assigned Joseph M. Wilcox, who headed the class of 1812, and who went to the 3d, and Rogers Birnie heading the class of 1872, who went to the 13th; Augustus L. Roumfort, who headed the class of 1817, went to the Marines. Of the officers named the following were afterwards transferred to the Engineers: Wright, Bergland, and Greene. Birnie was transferred to the Ordnance in 1878. We observe that Lord Wolseley says that Gen. Lee graduated head of his class; he was No. 2, Charles Mason being head. Gen. McClellan is also credited by a writer in the Sunday *Sun* as being head; he also was No. 2, Col. C. S. Stewart, U. S. A., retired, being No. 1.

THE Italians appear to have been subjected to extraordinary humiliations by the Abyssinians. For the release of the Italian prisoners RAS ALOULA demanded not only several thousand rifles and ammunition, but, among other demands, the surrender of five men of an Arab tribe friendly to the Italians. One thousand rifles were sent, and the friendly Arabs were handed over and executed by RAS ALOULA. All the Italians are released excepting Count SAVIORNOUX. The Arabs are naturally greatly incensed against the Italians and threaten reprisals. The officers of the Italian Army, it is believed, disapprove of the surrender of the friendly Arabs. RAS ALOULA'S further demands are said to be very pretentious, and an Italian expedition is reported to be in preparation. England is subjected to much criticism in reference to her dealings with foreign tribes, but it shines by contrast with this.

THE present English scheme for examinations for Sandhurst and militia candidates for the Army, framed in 1885, allows 3,000 marks each for Mathematics, *i. e.*, Algebra, Logarithms, Euclid, Plane Trigonometry, Mensuration; Latin, French, and German in the Class 1, and, in Class 2, 2,000 marks each for Greek, Higher Mathematics, *i. e.*, Conics, Calculus, Statics, Dynamics; English History, (*a*) general sketch and (*b*) special period; Science, (*a*) Inorganic Chemistry, (*b*) Mechanics, Hydrostatics, Pneumatics, Electricity, Magnetism, and (*c*) Mechanics, Hydrostatics, Pneumatics, Heat, Light; Physical Geography and Geology. *A*, *b*, *c* are alternative only. In Class 3, 500 marks are allowed for English Essay, Freehand and Geometrical Drawing, each. This gives the higher place to Languages and puts Science in the rear. The result is shown in the fact that in December, 1885, one successful candidate took Science, ninety-two took Latin; in July, 1886, six took Science, 109 Latin; in December, 1886, three took Science, 120 Latin. The French scheme for St. Cyr allows 10 each for Arithmetic, Algebra and Trigonometry, Geometry, Descriptive Geometry, Mechanics, Physical Science, Chemistry, History and Literature from Henri Quatre to 1870, Geography, German, English, French Composition; all are compulsory. The German scheme for *Cadetter* Corps comprises the following subjects, also compulsory: Religion, Leading Points in Church Doctrine and History; German, Lessing, Schiller; German Literature, Goethe; Latin; French; English, Macaulay, Extracts of English Literary History, some Shakespeare; Mathematics; History and Geography of Germany in the Eighteenth and Nineteenth Centuries; Physics, Heat, Acoustics, Optics, Magnetism, Electricity; Mechanics; Physical Geography; Chemistry and Mineralogy. A correspondent of the *United Service Gazette* criticises this neglect of Science as dangerous, from both a military and commercial point of view.

THE *Admiralty Gazette* argues that the recent experiments on the *Resistance* go to prove that the destructive power of the torpedo is not nearly so great as was expected, and this after a trial when the ship was placed in the most favorable position to be attacked. The only certain progress made with torpedoes, since the Oberon experiments, is in the development of their greater speed. This to a great extent is met by the increased speed attained by ships. The case of the *Polyphemus*, when she was attacked by torpedo boats in Bantry Bay, is an instance of their uncertainty, for out of the many fired at her there was only one decided hit, when no resistance was offered. The report of a recent exercise at night quarters on board H. M. S. *Bellerophon* shows that a target having been put overboard, after half an hour's firing, with the aid of the electric search light, was found to be riddled with holes, so that no torpedo boat could have lived through the fire. The erratic nature of these weapons of destruction was shown in Plymouth Sound recently, when a torpedo, fired at a target, struck the bow of a mail steamer, lying at anchor, instead of going in the direction intended. Torpedo boats have yet to be tested in actual conflict. Their inability for actual sea service has been satisfactorily demonstrated during the last two years, though they may be able to perform useful and valuable service as aids to coast defence.

CAPTAIN KENDALL, U. S. Army, retired, in an announcement which appears elsewhere, offers his services gratuitously in advising officers and others as to the best form of life insurance. Taking it altogether there is probably no better form of investment than this for the married officer. He is assured an income so long as he lives, and his main anxiety is for those dependent upon him, to whose grief in the event of his death will be given the added sting of poverty in default of some provision for their support. The Penn Mutual is one of the best of the old line companies, and while Captain Kendall's immediate connection is with that, he is prepared to give advice as to other companies. With life insurance, as well as with other investments, it is well to divide your risks.

THE annual report of the Lieutenant-General of the Army for 1886, with the accompanying reports of Division and Department commanders, has been received from the Public Printer, and a corps of messengers is now engaged sending copies throughout the Army. A noticeable and very valuable feature of the report is the large outline map of the "field of operations against hostile Chiracahua Indians, showing operations from April 12 to date of surrender, Sept. 4, 1886, compiled and drawn by direction of Brigadier General N. A. Miles, commanding the Department of Arizona, in the office of 1st Lieutenant E. J. Spencer, Corps of Engineers, Engineer officer of the Department.

THE statue in honor of Gen. Albert Sidney Johnston was unveiled with great ceremony at New Orleans on Wednesday, April 6. In response to an invitation, Albert G. Blanchard, of New Orleans, writes: "I shall be happy to be present as a feeble mark of my respect and regard for my schoolmate at West Point U. S. Military Academy, and my brother officer in the Army. He was a noble gentleman and a good man. He was noble in mind and person, and as gentle and brave. In all things he reminded us of the French saying: 'Noblesse oblige.'"

CAPTAIN FERDINAND P. EARLE, of the Hotel Normandie, New York City, is treasurer and chairman of a committee of citizens organized for the purpose of assisting in the proper observance of "Memorial Day," May 30 next. Capt. Earle is collecting funds for the purpose in question and, we are informed, would be glad to receive a larger sum this year, as that raised last year was entirely inadequate and left nothing to be applied to the relief of needy and disabled veterans, their widows or orphans.

Two of the changes of stations of paymasters, hinted at in the JOURNAL on March 26, we observe, are announced in orders this week. These officers—Majors Muhlenberg, of the Department of Texas, and Poole, Department of Columbia—have been in the Departments named since their appointments in 1832. The exchange is in pursuance of Secretary Endicott's four year rotation order. The other two changes foreshadowed will not take place until after July 1. Majors Witcher and Whipple, it is presumed, are the officers concerned.

THE SURGEON GENERAL'S OFFICE.

A CORRESPONDENT of the N. Y. *Times* gives a circumstantial account of Secretary Endicott's dealings with the office of the Surgeon General which agrees in substance with the statement originally made here. In response to complaints from the Interior Department that pension papers were delayed, the Adjutant General and Surgeon General were at once requested to take steps to relieve the War Department as speedily as possible from this cause of reproach. Gen. Drum responded promptly. Volunteers were called for to do extra work at night, and although this extra labor brought no extra compensation and provoked some growling it was obtained. In the office of the Surgeon-General, however, the Secretary's admonition did not meet with the same sort of response. The great trouble in that office was found to exist in the Record and Pension Division, in charge of Major B. F. Pope. He could not give assurance even of a hope that help could be expected from his division.

Yet he sent word to the Secretary of War that there was no necessity for improvement or change in the methods of his office, notwithstanding the fact that the office was nearly 10,000 cases in arrears. Secretary Endicott did not enjoy the reply made by Dr. Pope. It revealed unexpected and uncalled-for opposition on the part of a subordinate who had been requested to do a very reasonable thing. So Dr. Pope was informed that he "must" take prompt measures to bring up the arrearages of work in his division.

The answer to this was unsatisfactory and the Secretary relieved Dr. Pope, assigning Surgeon C. T. Armstrong to his place, Dec. 8. The Surgeon-General assigned Dr. Pope, who had been for five years in Washington, to duty in New York, but he was at once informed that Dy. Pope must go to a western post. Dr. Pope thereupon applied for a long leave of absence which was refused. It was concluded that Dr. Pope's friend in the Surgeon-General's office was the head of the administrative branch, Dr. Huntington, and the Surgeon-General was made acquainted with this view of the situation, and was requested to name some other man in Dr. Huntington's place, and an unsatisfactory report being received in regard to matters of administration, in regard to which inquiries had been made, the Secretary of War at once took the matter in hand personally peremptorily relieved Dr. Huntington from duty in the Surgeon-General's office, and ordered for duty in his place, Dr. Chas. H. Greenleaf.

Three months after Dr. Ainsworth took charge the 9,511 of pension cases in arrears had been reduced to 419, all of which were in the hands of the clerks, and the oldest case on hand had been there but five days as against three months at the time he took charge. The average time for examining cases had been reduced from 63 days to four. 30 of the 300 clerks were found disabled and assigned to light duties, and 20 undesirable clerks were discharged.

THE KING WHO WENT OUT GOVERNING.

To the Editor of the Army and Navy Journal:

IT seems it is not so much the artillery in general that are in such an otiose condition, but the colonels particularly who content themselves with the disposal of the patronage of the band, the ratification of the appointments of non-com. officers they never see, and the perusal of quarterly reports of instruction they are prevented from giving.

The principal use of a "chief" then would be to find something for the colonels to do, just as the colonel in his turn is to poke up the post commanders, and these the lesser fry of the regimental menagerie.

There is no better way, however, as experience has shown, than to give each local authority the means to instruct his own command, and hold him responsible for their efficient use and a satisfactory result.

It is quite possible that the artillery would be improved by mustering out the colonels, consolidating the enlisted men into battalions, with a field officer to each, and the selection of five of the most prominent harbors for the five battalions, say Boston, New York, Fort Monroe, San Francisco, and Portland.

But even this would not extend to the real *kernel* of the question, which is the armament, and only that.

If the appropriations by Congress permitted the Corps of Engineers to build our defences and the Ordnance Corps to arm them, the artillery would find itself again at the entrance of that land of Canaan where Prof. Michie thinks we had our abode about the time of the war.

For the half of forty years, however, we have been in the wilderness, with no hope but to clamor loudly for a Joshua to lead us on, that we may chase our enemies victoriously along the way that goeth up to Beth-horon and smite them from Azekah to Makkedah, which being interpreted is from San Antonio Arsenal to Picatinny Powder Depot. But it would take another pen than mine to record that triumph. He or she might well undertake the task who could write of "lethargic omnipotence, oscitant inertness, habile supineness," etc., if it were not for a suspicion that under such acrobatic objurgation there lay more of a personal grievance than professional zeal.

Perhaps there has been some unkind filtering by ordinary intellects through the "regular channels" of such adulterated English as that quoted above of all its alleged "sense, substance, and vitality."

Perhaps there is some uneasy consciousness that the right person was in the wrong place, and that unusual merit had been wantonly overlooked in not bringing West Point, Fort Monroe, and possibly Fort Riley under its wise control, and he who is to chronicle the career of the coming "chief" must have no axe to grind but Alexander's, and will need rather the brevity of "Corporal" Wooster than the rhetoric of Corporal Nym.

There are a good many things that begin at home besides charity, and beginning at home should also stay there. To any unquiet soul who feels he has a mission for reform, and who aches to carry some instructive gospel of his own particular make into the benighted lands across the water, we recommend the study in the January "Atlantic" of the story of the "King who went out Governing."

FORT WADSWORTH, N. Y., March 26.

MUSKETRY AND INSPECTORS.

To the Editor of the Army and Navy Journal:

I HAVE but just noticed the growl "One of the Inspected" publishes on "Inspectors-General" in your issue of March 5. Musketry is not so important to any other arm of the Service as to the infantry, and the words which so exasperate your correspondent are from Lieut.-Col. Mason, an experienced officer of infantry. The interest of infantry officers in what so nearly affects their special arm must be permitted to continue through such temporary details as Acting Inspector-General. Your correspondent is, doubtless, right in his innuendo that what they say may not always receive earnest attention and lead to prompt and emphatic action. The words of even Acting Inspectors-General are not accepted as infallible. If they were the commandants of some posts would soon see that there were no longer several hundred paragraphs of the A. R. habitually ignored, and other commandants would bestir themselves to see that their commands shall not continue as ignorant as wharf rats of the effective use of the military weapons they carry. But that the words of even Acting Inspectors-General are given some weight is demonstrated by recent orders about target practice, which is not restricted to two months, as your correspondent suggests, but to three, which may not be "as deep as a well, but will do."

Your correspondent's suggestion that Acting Inspectors-General had better come to a halt after reporting so much on this matter of target practice, and confine themselves to the duties prescribed in the Army Regulations from paragraph 1320 to 1377, gives a really sweet-scented illustration of the fardels Acting Inspectors-General have to bear, and the crass and bumptious ignorance they have to contend with. For paragraph 1345 expressly mentions target practice as one of the subjects they must report upon, and paragraph 1338 gives such general powers that the reiteration of this specialty but indicates its importance to all concerned. And both of these paragraphs are within the limits numbered by your correspondent.

Our Acting Inspectors-General are as deserving as the officers they praise or the commands they criticize. Zealous, meritorious, intelligent, industrious, well-informed, manly, soldierly and self-reliant, they are not presumed to be the best officers in the Service, for our Service is too full of admirable officers for any small selection to be accepted as the best. But these are good and their best efforts are conscientiously and effectively directed solely to the best interests of the Service. If their words were given more immediate power more good would be done the Service. They do all that is within their power for the good of the Service. Can the rest of us say as much for ourselves with our hands upon our hearts? That their efforts have stirred up the ignorant, the indifferent, the heedless, and the worthless is some satisfaction to us lookers-on in Vienna, that they cannot eradicate them from the Service is a regret. The reticence and self-restraint imposed in the Inspectors-General Department and the evident callowness or crankiness of your correspondent may prevent any notice from them of this little attack. But it furnishes a sufficiently good text to record the impression of many fair-minded officers who wish good and only good to every branch and phase of the Service, that the Service is not perfect, that its excellence depends upon the united and zealous efforts of all, and the growing habit of the inspected inspecting the inspectors is an unsoldierly symptom of how all authority is becoming undermined in our Army. Only higher authority has authority to inspect. Acting Inspectors-General can do nothing of themselves. They are set to it by the authority to whom they report. And these reports set the little people they report upon to defaming them and worse, if one chose to tell the gossip of the garrisons and officers. If our Army is too perfect or too rotten to endure inspection, let us dispense with it and go each his own way, or if the present Acting Inspectors-General are not fairly good officers for the purpose let us relieve them with better or confess the Line has no officers fit for these duties. Four of our six Brigadiers have three Acting Inspectors-General. But if we are to be inspected like other armies let us be as soldierly as they in sustaining our inspectors, remembering their reports get all their weight and significance from us as we are worthy or unworthy, and if we accept, as they must submit, their reports like men, and each make them profitable, like another writing, "for reproof, for correction, for instruction that we may be thoroughly equipped for all good works."

Yours truly, for THE FOUR ARMS.

(Correspondence of the Army and Navy Journal.)

THE U. S. SENATE IN 1860.

THE CAPITAL CITY—SOME PERSONAL NOTES.

A RETROSPECTIVE glance over twenty-six years, to *ante bellum* times, reveals innumerable changes in government and many modifications and alterations in the laws relating to the administration of public affairs, especially military and naval.

The great Civil War has been fought, slavery has been abolished, and the herculean task of reconstruction has been successfully accomplished. In 1860 President James Buchanan was serving the last year of his term as Chief Magistrate of the nation. His commanding figure and venerable face, with snowy hair brushed straight back, was often seen in the Capitol or on Pennsylvania avenue.

Vice-President John C. Breckenridge, of Kentucky, presided over the Senate in a manner both dignified and capable. He was a remarkably handsome man with strong, aquiline features, dark complexion, and jet black hair.

John P. Hale, of New Hampshire, was hale by nature as well as by name. Intellect shone in his closely shaven, ruddy face, and he was withal a clear and a forcible speaker.

Of Charles Sumner, of Massachusetts, a personal description alone is necessary. Picture, then, a tall, rather spare man with features somewhat resembling those of Geo. William Curtis. His side-whiskers, of the style termed mutton-chop, increased the resemblance to the journalist.

For months Mr. Sumner lay at death's door from the effects of the fierce and cowardly assault made upon him in a Senate committee room by Brooks, the fire-eating South Carolinian.

Connecticut's two Senators were James Dixon and La Fayette S. Foster. Both were men of powerful intellect and pure lives, while the first named was among the foremost orators of that time. Henry B. Anthony, of Rhode Island, was a universal favorite. When he died a quarter of a century later, he was about entering upon his sixth consecutive term of office. He was a fine appearing, fresh-faced man of much dignity and refinement.

William H. Seward and Roscoe Conkling were the Senators from the Empire State. Mr. Seward was not a handsome man, but his face denoted great mental vigor. His colleague was of imposing appearance. He usually wore a dark blue, frock-coat, which was—like old Grimes's—"all buttoned down before." Simon Cameron, of Pennsylvania, was of about the middle height. He was an eloquent speaker and was much respected by his fellow Senators. Reverdy Johnson, of Maryland, resembled somewhat Gen. Benj. F. Butler. He was regarded as among the ablest lawyers of that day. James Mason, of Virginia, became more widely known a little later because of his nautical association with John Slidell, of Louisiana.

Jefferson Davis, of Mississippi, was a graduate of West Point, and prided himself upon his military knowledge. Whether or not he subsequently employed that knowledge to the benefit of his country is a matter of opinion. He was a man of ordinary size, rather slim, with gray hair, and he suffered with his eyes to such an extent that he always wore goggles.

Of the great orators, Stephen A. Douglas, of Illinois, yclept "the little giant," looms up physically about five feet five, metaphorically and mentally, to a vast altitude. Whoever has heard him speak upon the floor of the Senate never can forget him. Small in stature he was great in intellect and unsurpassed in eloquence. He could have commanded the attention of the empty chairs themselves, had not the very rumor of a speech by him invariably filled them, as well as every available seat in the Senate galleries.

Judah P. Benjamim, Slidell's colleague from Louisania, was, as his name denotes, of the Hebrew race. A man of great ability, his name is well known throughout this country and England.

McDougal, of California, was a very eloquent speaker; so was James Doolittle, of Wisconsin, and there were many others there of whom "we shall not gaze upon their like again."

Gen. Sam. Houston, of Texas, used to sit at his desk during the session and whittle. Little bobbins for winding silk he fashioned without number, and his desk was always surrounded by whittlings. Somewhere a strain of Yankee blood must have mingled in his veins, if there be any truth in tradition.

Old Captain Bassett, the veteran doorkeeper, was then, as now, a universal favorite, and his prematurely gray hair gave to him the appearance of venerable dignity.

John Sherman, of Ohio, was a thin-faced man with gray hair, and he was a good speaker. Yulee, of Florida, was a short man, who wore a yellow vest.

The Senate pages were bright, intelligent boys; they were widows' sons, all under sixteen years of age, and some much younger. They were all upon the best of terms with themselves and with the Senators. Polite and gentlemanly always, they yet were no respecters of persons, and the eccentricities and peculiarities of the Senators were mimicked and imitated by them, to the great delight of whoever were admitted as spectators to their mock sessions of the Senate.

These meetings were usually held during the Executive Sessions of the real Congress, when pages and spectators alike were banished by the sergeant-at-arms. They were invariably conducted in strict accordance with parliamentary law and usage. The presiding officer was entirely capable of conducting a real session, and Senators have been known while temporarily occupying the chair, to puzzle over far less complex questions of procedure than were settled by him without a moment's hesitation. All the great questions of the day and of the hour were presented at these meetings, and no knotty point was too difficult or hard of adjustment and disposition for these amateur statesmen.

The pages augmented their monthly pay of $60 by collecting the autographs of the Senators and selling them to visitors for from $2.00 to $2.50 a set. A handsome album was procured for this purpose and the President's and Vice-President's names appeared on the first and second pages, followed by that of each Senator, as convenience and opportunity rendered most desirable.

Washington to-day is scarcely recognizable as the Capital of a quarter of a century ago. Pennsylvania avenue, that broad and beautiful thoroughfare, was paved with common cobble stones of unequal size, and abounded in holes and ruts, which rendered riding or driving over it extremely disagreeable. The other streets were little better than mud-holes during the winter months and it was not an uncommon sight to witness carriages immersed in mud up to the wheel-hubs. No better paved streets can now be found in any city in the United States and the maxim, "extremes meet," is here strikingly verified. Some handsome residences there certainly were in Washington in 1860, but a peculiarity of the city then was that often a negro's cabin stood in close proximity to a handsome domicile. W. W. Corcoran, the well-known philanthropist, occupied a very handsome house of dark red, pressed brick, at the corner of Seventeenth and H streets. Mrs. Freeman Clark and her sister, Miss Coleman, another on H street, opposite Lafayette square. Near it on the present site of the Arlington Hotel was Gen. Cass's residence. Montgomery Blair lived on Pennsylvania avenue, in a plain brick house opposite the old War Department. Geo. M. Riggs, the banker, had a house on I street, near Mr. Corcoran's.

Judge Wayne, of the Supreme Court, lived on D street near Judiciary Square.

Mrs. Ogle Tayloe, who used to drive out to the races four-in-hand, and who was one of the most popular ladies in Washington, lived on Sixteenth street, east of La Fayette Square. Her residence was noticeable for the long line of carriages that stood in front of it upon her reception days.

Next door to it was Wormley's Club House, at the entrance of which Sickles shot Philip Barton Key. Near by also lived William H. Seward, in a plain but comfortable house.

The old Blair mansion at Silver Spring, in the northern suburb of Washington, and "Arlington," the home of General (then Colonel) Robert E. Lee, with a few of the residences on Georgetown Heights, were the most noticeable suburban residences. The two first named were rendered historical by the Civil War. The Blair homestead from the battle of Fort Stevens and its occupancy by Confederate troops in July, 1864, until Major-General H. G. Wright, with his invincible Sixth Corps, drove Jubal A. Early out of Maryland, much faster than he entered that State. Arlington is now renowned as having received to her bosom many thousands of Union dead. "The Soldier's Home" *this* spot should have been named. The place that bears that name is, however, one of the loveliest spots near Washington.

Willard's was *the* hotel. The Ebbitt, Brown's, the National, the Metropolitan, the old Washington House, the home of Henry Wilson, of Massachusetts, and possibly other hotels existed in those days.

A well-known figure in Washington was that of Brevet Lieut.-General Winfield Scott. He lived at Wormley's Club House, and his gigantic and martial form was daily to be seen entering or leaving his cab at the door. His dark bay coupé horse, like himself, was far above the ordinary height, and everybody looked around when General Scott drove past. Society was then much the same as now. A freer, more generous hospitality prevails there than elsewhere in America. It is said that "All good Americans go to Paris when they die." They should go to Washington while they live, and should remain there at least one season if they wish to enjoy life.

JAMES W. DIXON.

A NEW LIFE BUOY.

NAVAL CADET A. RUST, U. S. N., at present attached to the U. S. S. *Richmond*, has recently invented a "Reel Life Buoy," designed to be used on seagoing vessels of all kinds for the purpose of rescuing any person who may happen to fall overboard in the shortest possible time—and recover man and buoy without the necessity of lowering a boat. The buoy is intended to be suspended from a platform built over the stern of the ship. The reel is on a pivot above, and around it is wound a steel wire or rope, as desired, one end of which is attached to the buoy. This rope is intended to be able to pay out for half a mile. The reel is also provided with a crank and brake. It is dropped quickly into the water by disengaging a hook. The buoy contains a port fire, friction primers and a "Very" signal pistol, with water-proof cartridges, to enable a man at night to signal the ship. The locker containing the latter is also spacious enough to hold a can of hard bread and a flask of stimulants, so that if the rope should break and the buoy get adrift there would be food enough for a man for several days. There is also an arrangement by which oil is used to smooth the sea in rough weather.

PASSED ASST. ENGR. E. R. FREEMAN, U. S. N., has been on a visit to his brother at Jackson, Miss.

THE STATE TROOPS.

THE NATIONAL DRILL.

THE entries for the national drill to be held in Washington the last week in May closed April 2. A number of entries not yet recorded are on their way and will be received, having been mailed before the date of closing. The entries recorded are distributed as follows among the different branches of the service: Regimental drill 4; battalion, 5; artillery, 7; Gatling gun, 2; infantry companies, 65; school cadet corps, 7; zouave, 5; individual drill (about) 82; rifle practice (about) 98; military bands and drum corps (about) 22. The entries from New York are: 8th Separate Company, of Rochester; Keek Zouaves, of Johnstown; Cadet Corps, Peekskill Military Academy; and a large number of entries for rifle practice. New Jersey will send Company C, 1st Battalion National Guards. From Rhode Island will come the 5th Battalion of Infantry, four companies which will also compete in the infantry drill by companies. Connecticut will be represented by the Sarsfield Guards, of New Haven, and New Hampshire by the Sheridan Guards, of Manchester. The States which will be most strongly represented are Virginia; Kentucky, which will send a regiment, a battalion and a battery; Ohio, which will send a regiment, two battalions and several companies of infantry; Michigan, Illinois, Indiana, Wisconsin and Iowa. From Tacoma, Washington Territory, a company of infantry will cross the continent to take part in the competition. The Southern States except Virginia and Kentucky will be slimly represented, even if all the organizations which have been entered apnear and take part. The entries are as follows, by separate companies: Alabama, three, including the two Montgomery companies; Georgia, one, the Atlanta Rifles; Louisiana, two; Texas, two; North Carolina, three; Mississippi, two. Arkansas, Florida, South Carolina and Tennessee are not represented by entries.

A despatch from Montgomery, Ala., states that two military companies of that city, the Grays and Blues, have determined to withdraw because military companies composed of colored men have been allowed to enter. A despatch from Jackson, Miss., says: Capt. George L. Green, of the Capital Light Guards, which are entered for the Washington Drill, has telegraphed the Secretary of the National Drill Association, asking if negro companies would be allowed to compete.

The following telegram was sent to the San Antonio and Belknap Rifles, in response to one sent asking if the colored troops would camp and drill with the whites, and if they would be recognized in the appointment of officers of the day:

WASHINGTON, April 6.

To Capt. F. J. Badger, San Antonio:

No. There seems to an entire misconception. Gen. Anderson enters the Virginia Brigade. In it are two negro companies. If they come they will be camped separately and drilled separately. Please show to this to Capt. Green.

ALBERT ORDWAY, Chief of Military Committee.

The three colored organizations entered are Co. A, Washington Cadets, of Washington, and the State Guard and Attucks Guard, of Richmond, Va. Gen. Charles J. Anderson, of Richmond, commander of the 1st Brigade of Virginia Volunteers, expresses himself emphatically as approving the position of the committee with reference to allowing colored companies to participate in the drill. Gen. Anderson's command includes the two colored Virginia companies. The general says he will bring the whole brigade, horse, foot and artillery, amounting to about 30 companies and five batteries. Adjutant-General Jones, of North Carolina, has also expressed strongly his approval of the position taken by the management on this question. He says they could have no other position in a National drill, and that law, reason and justice are all on their side, as they undoubtedly are.

THE NEW YORK CAMP.

ADJ. GEN. JOSIAH PORTER has now under consideration the formal order for the arrangements of this year's camp. It will be published about the middle of the month. The details have not yet been quite perfected, but the date for the beginning of the camp is definitely settled as June 18. The 7th Regiment will be the organization to open the affair. This is certain, and there is no doubt as to the 12th being selected to follow next. No other details have as yet been made. The command of the whole has not been fixed; but the desire that the Adjutant General should take command in person, just as he did last year, is so universal that there is hardly a way for him to escape. The whole affair was conducted with so much satisfaction, and was attended with such gratifying results, that it would be a pity not to continue the experiment for another season with the best organizations in the State.

ARTILLERY AT THE NATIONAL ENCAMPMENT.

NEW ORLEANS, March 30.

To the Editor of the Army and Navy Journal:

MUCH dissatisfaction has been expressed of late among the members of the different artillery organizations, and the press has also reported the dissatisfaction of their artillery companies regarding the artillery rules of the drill which takes place at Washington in the latter part of May next.

It appears that the management has taken a new departure in that particular branch of the service by making a specialty of platoon drills in artillery. In all successful contests standing gun drills have taken the precedent and have brought to the front the crack artillerymen from all sections of the country and have in their particular line far excelled the Regular Service.

In the first place a platoon of artillery proper requires entirely too many men, and in consequence the expenses attached to the competing artillerymen will by far exceed the amount of prize money.

Again, a platoon drill in artillery requires a great deal of practice for both men and horses, but in this instance the officers and drivers to be used are to be from regulars, therefore all the practical working of the platoon in field movements will be done by the Regulars and only the detachment proper will consist of the volunteer cannoneers.

A platoon drill in artillery is decidedly a bobtail affair, so far as the public is concerned. It is not at all practicable for field service, and, in fact, would be a parallel case on moving two companies of infantry in battalion movements. It is an indisputable fact that the perfection attained in this artillery branch of the militia service has been confined to dismounted detachments, and if the management would offer the $2,000 prize money (that is, $1,200 to the first and $800 to the second) and divide it differently so that a portion of the same could be made a prize for dismounted attachments, it would be the cause of bringing to Washington the finest artillery commands in the country.

If the programme remains as it is, only for platoons, the chances are that the artillery part of the programme will be very tame. It would be far more practicable to offer of the two, prizes money $1,000 and $500, respectively, for the best standing gun drill. This would, no doubt, bring together the crack detachments of Indianapolis, St. Louis, Louisville, Dallas, Mobile, New Orleans, and all others of prominence, which would be the feature of the great drill, and then offer the remaining $500 for the best drilled detachment in a battery drill, commanded by U. S. officers and worked by U. S. drivers. As to the practicability of the battery drill there can be no doubt, for the last competition in Galveston clearly illustrated the fact. In the opinion of all present the drill under Capt. Lancaster was the finest exhibition of battery drill seen upon a drill ground.

In a battery drill under the above suggestions the public would be treated to an exhibition that has as yet never been given under such favorable circumstances, because the United States officers in command would know exactly how to handle a battery.

The three combined, the Regular U. S. officers, the drivers of the Regulars, and the National Guard cannoneers will, beyond a doubt, make the finest display ever given.

NEPTUNE.

ELECTION v. APPOINTMENT OF N. C. OFFICERS.

By Capt. Jos. R. K. Barlow, C'g Co. E, 14th Regt. N. G. S. N. Y.

IN reading "Ours" for March, I was struck with the fact that one of the company communications, as well as the editorial columns, contained statements in condemnation of the resolution passed by the recent National Guard Convention, recommending the appointment of non-com. officers. In both articles, the delegates who favored this resolution, are spoken of as the pushers and promoters of a *scheme*, and in fact by their general tone, seem to imply that only those who oppose such a change in the code, have the interest of the National Guard at heart, while its advocates are actuated by personal and unworthy motives. Now this is so far from the truth that I feel contrained, as an act of justice, to ask for the publication of a few lines on the other side of the question.

It may be stated as a proposition, not to be refuted, that for a company to become what it should be, it must have in addition to earnest, enthusiastic members, a set of non-com. officers who are competent to fulfil the requirements of their positions, and who will also work in thorough harmony with the commandant, on whom rests the responsibility for the discipline, efficiency in drill and general state of the company, and whose authority under the present laws, is not at all commensurate with the cares and responsibilities of his position.

In this connection I agree with one of the writers in "Ours," that the non-coms, are on a different footing from the members of a General's or Colonel's staff, who retire, with their superior, from office, but I would rather liken them to the heads of departments in our city government, the non-com. officers of the Mayor who serve for a stated term, and the same principle that after years of agitation, gave to our city single headed departments, with the authority and responsibility placed where they belong, in one and the same person, should govern the affairs of a company in the N. G.

As to the ill-effects of the present elective system of non-com. officers, I can say without fear of contradiction, that in a very large number of organizations, the most popular men socially are elected, irrespective of ability or fitness, and even in the organizations using the proper discretion in this matter and choosing competent non-com. officers, it is often the case that men are elected not in accord with the commandant.

The damage done to an organization by non-coms. of the 1st class does not need to be enlarged upon, but that resulting from those of the 2d class is greater than would be supposed at first thought. An experience of 15 years in the National Guard, seven years as company commandant, has taught me that without the earnest support, the hearty co-operation of, and the most harmonious accord between the officers and non-com. officers of a company, the commandant will vainly try to raise the standard of his command, or meet in any way the many and varied requirements of his position.

Conceding that in a few regiments the elective system is productive of only the lesser evil and that only in occasional instances, I ask the members of these organizations, whether, taking into consideration the impossibility of having one law for part of the National Guard and another law for the other part, it is not their duty, if they have any regard for the welfare and advancement of the National Guard as a whole, to submit gracefully to the necessary yielding up of their little prejudices and pet personal ideas for the benefit of the entire Service.

It has been said that it would be a reflection on the good sense of the men and on their ability to govern themselves were the appointment of non-coms. vested in the captain, but are not the men casting a greater reflection on themselves by their attitude on this subject?

Do they not practically say, that while the Code gives them the privilege of electing their commandant, that privilege is used to elect a man whom they do not respect or trust sufficiently to give him the power to appoint his assistants for fear of his abusing that power or showing favoritism? The ability of men who choose such a captain, to make a careful selection of non-coms. is not very apparent to my mind.

Here I would call the attention of these men to the paragraph in Regulations which says that the authority of the Capt in in military matters shall be supreme, and to ask if that principle does not cover the designating of the fittest men to hold non-com. offices.

I have lately heard two expressions from the mouths of military men, that in my opinion are much to be condemned. One is the word rights as applied to the privileges now enjoyed by the men of electing their officers and non-com. officers, and the other is the word representative as applied to the commissioned officers of the National Guard. The mistaken idea these two words express if carried to any length lead to disastrous results. We have had only too lately in our own city an example of this fact, where the majority of the men in a regiment, deluded by these false ideas, broke out in open rebellion because the officers exercised the privilege given them by the Code of voting according to their good judgment and personal opinions at an election for Colonel.

I am bold enough to declare that the officers or members of the National Guard have no *rights* in connection with their strictly military duties, that are either inherent in themselves or guaranteed by law or constitution, but they do have certain privileges granted by the Code and liable to change or to be taken away by the same power that conferred them, and all good soldiers are willing to accept and obey the law as made by the proper authority, without regard to their personal feelings or private opinions

While on this subject I must say that my own experience has been that not over one man in a hundred joins the N. G. with any idea of, or desire for *rights* in regard to the election of non-commissioned officers, but solely from liking for military life or desire to form pleasant associations. The false ideas as to rights, duties, etc., now so much in vogue, are gradually instilled into his mind after becoming a member. I would also earnestly disclaim the idea that the commissioned officers are in any sense representatives to do the will of the rank and file as the delegates to a political convention obey the behests of their constituents, or the public civil officer carries out the ideas and principles of those who elect him.

On the contrary, a military officer is elected to command, not to represent: in fact, his sworn duty is to carry out the laws governing the National Guard, irrespective of the wishes or desires of the men under his command, and regardless of the effect on his own popularity with the members of his company or organization.

In conclusion permit me to say that the person who would accept a commission, knowing that he was expected to be a figurehead, to defer his own judgment to the varying will of 50 or 100 men under him, would be unworthy of holding his rank or filling his position, and, in fact, hardly fit to be honored with the title of MAN.

TWO NEW COMPANIES FOR NEW YORK.

ON Monday, March 25, Col. J. H. McGrath, of the Inspector-General's Department, mustered into service what will hereafter be known as the 24th Separate Co., located at Middletown, N. Y. The new company is composed of healthy, able-bodied, intelligent material and numbers at present 57 men, a very promising outlook. The command, considering all the circumstances, made a very satisfactory showing both as regards drill and general appearance of the men. The commander is Captain Charles B. Wood, who, although he has no record as a National Guard soldier, served through the entire war and left the service as Captain of the 124th N. Y., with the brevet of major. He was wounded at Spottsylvania. The Ordnance Department provided the company with arms early during the present week.

Another company was mustered in at Olean on Tuesday, March 29, which will take the number 43. Its captain is Culver G. Thyng, who has not served in the State troops, but made considerable record as drill master of a private organization. This company musters 56 men, of superior material. The commander and the rank and file are reported as very energetic, anxious to improve, and full of military ardor. What they lack is a thorough knowledge of the Tactics, the system under which they were instructed so far being somewhat irregular.

Both companies are certainly vast improvements on those recently disbanded, and the State, to all appearances, made a profitable exchange.

Twelfth New York.—Col. J. H. Jones.

ON Monday, April 11, at 3.30 P. M., the 12th New York will leave forever their present quarters, at 45th street and Broadway, to move into the new quarters provided for them by the city. It is a memorable event in the history of the regiment. The new armory is commodious, solid, and constructed according to the best, most modern and practical principles applicable to structures of this kind. It contains comfortably well-fitted up quarters, and roomy drill halls for times of peace, and can sustain a protracted siege in times of trouble. The regiment for the past few years has built up numerically, and improved tactically and in point of discipline to such an extent that it is safe to say that the expense for the new armory was a wise investment.

Col. Jones orders as follows: To take formal possession of the new armory, the regiment will parade in full dress uniform, knapsacks with overcoat rolled thereon, field and staff mounted, on Monday, April 11, 1887. Assembly at the armory, Broadway and 45th street, at 3.30 o'clock P. M.

Gen. Daniel Butterfield, who commands the Veterans of the regiment who served in the campaigns of 1861, '62 and '63, and also those who have been honorably discharged from the present regiment for full term of service, to participate in the parade on taking possession of the new armory. The committee for this purpose consists of Gen. Wm. G. Ward, Col. Henry A. Weeks, Gen. Fred. T. Locke, Maj. Henry A. Bostwick and Capt. Jas. A. Boyle.

MILITIA ITEMS.

Captain A. B. Garland, Jr., has been appointed Adjutant-General of the State of Alabama, with rank of Colonel of Cavalry, to date from February 16, 1887.

MASSACHUSETTS MILITIA.

IN S. O. 33, of April 2, the Governor grants permission to military organizations of other States to enter and pass through the Commonwealth, armed and equipped, en route to and returning from the National Encampment and Drill at Washington in May and June next.

The Boston *Globe* says: "The success of the prize drill to be held at Tremont Temple, Boston, on the evening of April 7, is now assured. Entries numbering nearly 50, among them being the pick of the best drilled soldiers of the militia, representing every regiment in the service, have already been received. The committee appointed to select the judges have succeeded in securing the following named officers to act in that important position: Major George A. Copeland, 8th Mass. Infantry; Lieut. Charles L. Cornell, Light Battery B, 4th Artillery, U. S. A., and Lieut. Winthrop Alexander, Co. A, 1st Mass. Infantry. Companies of the militia all over the State are taking an unusual interest in the affair, and tickets, with good seats, are already bringing a premium."

MISSOURI.

GOVERNOR MARMADUKE was expected to issue an order this week disbanding the entire militia force of the State in consequence of the failure of the Legislature to pass the necessary appropriations.

SECOND COMPTROLLER'S OFFICE.

THE Second Comptroller has written a communication to the Secretary of War in which he says:

"I am in receipt of your letter of Jan. 17, 1887, requesting to be informed as to the status of the following accounts in this office and whether or not any of them have been allowed by me after reconsideration: Accounts of Surg. Billings, Lt. Ray, 8th Inf., and Capt. Wheeler, Corps of Engrs. Accounts of Capt. J. B. Rawles, 5th Art., and other light battery officers for mounted pay prior to time when battery was fully equipped and mounted. Accounts of Majors Smith and Tucker, Pay Dept., for payments made by order of Secretary of War to expert witnesses in case of Cadet Whittaker. In the same letter it is announced that 'it is the intention of the Secretary to submit these cases to the Court of Claims, under the provisions of section 2, Act of March 3, 1883, as matters pending in an Executive Department involving a controverted question of law, viz.: The right of the Secretary of War to exercise this discretion in determining what is proper military duty; the right to order officers abroad and direct the payment of mileage to them when necessary, and in the performance of what, in the exercise of that discretion, the Secretary of War deems proper military duty; and the right of the Secretary to direct payment to be made from an appropriation under his control for services which he deems necessary for the discipline and maintenance of the Army.'"

In reply the Comptroller says the cases referred to were settled several months ago, but were carefully re-examined and the decision adhered to and the vouchers were again rejected. In regard to submitting the cases to the Court of Claims, the Comptroller states that only the Secretary of the Treasury can take such action. In conclusion he says:

If the Secretary of War has any doubt with reference to the correctness of his own views upon any or all of the abstract questions of law propounded in his letter, the opinion of the Court of Claims thereon might be of value to him, but as this officer has no doubt, and, so far as it can be learned, this Department has none with reference to the correctness of the adjustment of the accounts referred to, it is not seen how a reference of these cases by another Department to the Court of Claims can affect the past or control the future action of the Treasury Department thereon."

The Second Comptroller has disallowed the claim of Lieut. John O. Nicholson, U. S. Navy, for sea pay on the U. S. S. *Constitution* and *Minnesota*. In support of his ruling the Comptroller quoted from Gen-

eral Orders No. 230, of Aug. 3, 1877, in which it is provided that

"Vessels in commission, lying in port, held in reserve for sea services, and reduced in complement, will be considered by the Department as on special shore service, and the officers attached thereto on shore duty."

Comptroller Maynard has returned to the Fourth Auditor the papers relating to the cash accounts of Charles W. Whipple, Lieut. of Ordnance, U. S. A., from July 1, 1884, to May 31, 1885, wherein three vouchers were disallowed. He re-examined the case because the Chief of Ordnance claimed that the expenditures were made with the express consent of the Second Comptroller. Judge Maynard failed to find anything in the papers present to warrant such a broad assertion. He says:

"There is an entire failure of satisfactory evidence that these vouchers represented the actual and necessary expenses of the members of the board at the Proving Ground at Sandy Hook, and until that fact is established further discussion of the other question raised is unnecessary."

The Comptroller has also disallowed the claim of Surg. Hampton Aulick, U. S. N., for sea pay while serving on the monitor *Ajax*. In speaking of the monitors at City Point, the Comptroller states that they are not in condition for sea service, and that service rendered by an officer on a vessel for its preservation merely cannot be considered sea service.

ANSWERS TO CORRESPONDENTS.

Subscriber.—The names were given in JOURNAL of March 12, p. 657. The dates are not obtainable.

J. G.—The "Army and Navy Gazette" is published at 16 Wellington Street, Strand, London, England.

J. K.—Your service counts from date of *surrender*. Your enlistment, therefore, expires on or about July 6, 1888.

H. W.—Write to the Chief Signal Officer, U. S. Army, for a copy of the printed circular giving full particulars as to qualifications, enlistment, etc.

A. S. K. wishes to know the name and address of a firm that publishes a Guard Roster ready ruled. Can any of our readers furnish the information?

Signalist.—You may find "Signal Tactics, Illustrated," price 75 cents, to suit your purpose. Author: Lieut. H. T. Reed, U. S. A., Box 647, Chicago, Ill.

M. M.—Allopathic—Everett Herrick, M. D. (Mayor Hewitt's doctor), 126 Madison ave. Homœopathic—Egbert Guernsey, M. D., 526 Fifth ave., New York City.

F. P. R.—Write to the Chief Signal Office, U. S. Army, Washington, D. C., for full particulars. Faithful service in the Army or Marine Corps should be a material assistance in the advancement of your wishes.

Constant Reader.—Yes. There are marines stationed at Norfolk, Va. If you re-enlist in the Marine Corps (from the Army) within the prescribed limit you are entitled to the increase of pay authorized for re-enlistment.

Artillery.—The sergeant did not "decline" to appear for promotion so far as we understand the matter, but simply wanted another year for study, as he scarcely felt himself, at the time, as competent as he would wish.

G. S. H.—As you live in Washington, we should advise you to call in person upon the Surgeon General of the Army, and he doubtless would give you full information as to your chances for appointment as hospital steward.

Constant Reader.—Benedict Arnold was appointed to the command of Philadelphia in 1778, after that place had been evacuated by the British. While there he married a Miss Shippen, a lady of strong Tory sentiments, who is supposed to have had some influence subsequently in shaping his traitorous conduct.

R. C. S.—The law provides that the pension shall continue during widowhood, and to the child or children of the deceased, on account of whom the pension is drawn, until they severally attain the age of sixteen years, and no longer. But if the widow remarries while the children are under sixteen they will then take the pension until they attain that age.

Soldier asks: In Brownell's Street Riot Tactics, page 21, in fifth line, the words, "execute right and left front into line respectively" are used. Should it not be "left and right"? ANS.—Yes. You are right. We have called the attention of the author of the tactics to the matter, and as the present edition is nearly sold out, the necessary correction will be made in the next edition, which will be issued at an early date.

Pennsylvania asks: At dress parade of a regiment of infantry. The parade has been dismissed. The colonel saying, as he returns the officer's salute, "Take position on my left." The companies are then marched in review by their 1st sergeants. Now it is the custom here for the colonel and his officers (field, staff and line) to return the salute of the 1st sergeants as they pass. Is this proper, and, if so, why? ANS.—The commanding officer does not say, "take position on my left;" nor do the tactics require that the 1st sergeants shall march the companies in review. It is a nice little by-play to do so, but it is entirely wrong to require any salutes.

We publish the following in response to the inquiry of a correspondent:

ADJT.-GENERALS'S OFFICE, WASHINGTON, April 2.

To the Editor of the Army and Navy Journal:

SIR: In reply to your letter of the 21st ultimo requesting the decision of certain tactical questions I have the honor to inform you as follows:

1. With a battalion marching in line, when broken to pass an obstacle, it should be left to the discretion of the Colonel to provide for the proper direction of march of his battalion and for the preservation of the interval for the rear companies during the temporary absence of the color guard from the line.

2. A battalion in line without color guard and color bearer, should march as provided for a battalion advancing to an attack—Paragraph 410; the guide of the battalion would be the non commissioned officer between the right and left centre companies, the basis of alignment would be the Captains of the right and left centre companies and the front rank of the left set of fours of the right centre company.

3. Battalion in line—At the command "Rear open order, march," the left sergeant and left file closer face to the front.

Very respectfully,
Your obedient servant,
J. C. KELTON, Asst. Adjt.-General.

THE following employees of the War Department have resigned: Thomas M. Thatcher, agent in the Q.-M. General's Office; Peter C. Cheeks, a clerk in the Surgeon-General's Office; Edwin G. Temple and Wilber F. Melbourne, clerks in the Adjt.-General's Office; Frank T. Randolph, assistant messenger in the War Records Office.

REACTIONARY OPINIONS ON MAGAZINE RIFLES.

A DESPATCH from St. Petersburg says: "Gens. Dragomiroff and Suebecheff, the former of whom is a well known Russian authority on all military matters, have each published an article against the alleged advantages of the adoption of a magazine repeating rifle. Gen. Dragomiroff claims that the present arming of European armies with magazine weapons is due solely to the force of imitation and example set by the inordinate military rivalry which exists between France and Germany, not only in the matter of rifles, but also in melinite, robarite and everything else that would give the one an undue advantage over the other in the coming struggle. He recommends the retention of the American Berdan rifle at present used in the Prussian army, with a smaller calibre, pressed powder and steel pointed bullets."

The Commandant of the Military District of Odessa has issued a general order to the same effect. He says, among other things it may be seriously doubted whether rapidity of fire—the only advantage of the repeating rifle—is not more than compensated by all these inconveniences. Is it not better to await patiently the perfection of the repeating rifle than to condemn offhand an arm which has shown its value on so many fields? Even those who have decided in favor of the new rifle confess that it is not the system of the arm used, but the manner in which it is handled, and the character of the troops who bear it, that really counts. A General Order addressed to the Guards on August 28, 1877, contained among others the following passage: "'It is neither by superiority in numbers, nor armament, nor the strength of defensive positions that our leaders have rendered their names immortal in victories over their enemies, but by their initiative, their generalship, and the valor of their soldiers.' These words of the august commandant of the Guards were brilliantly justified on the field of battle. Let us be convinced that the time for a change in the armament of our army has not yet arrived: and that with the historical valor of our troops we shall have nothing to fear with our magnificent Berdan rifle from any arm our enemies may bring against us."

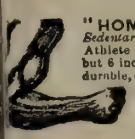
An English officer holding an enviable command in India says, on the contrary: "Bear in mind it will be nothing more than manslaughter to send our men into the field with single breechloaders against an enemy using repeating rifles."

CHINESE INSIGNIA OF RANK.

"THE worthy, the Editor of the Philadelphia *Inquirer*," has received a letter from a Chinaman with the suggestive name of "He-Li-Too," who describes the insignia of Chinese rank. He says:

What surprises your attention? To meet a dignitary wearing on his hat a ball or glooule, called better a "sphere," and being about an inch in diameter. We know officials by these spheres, and they mark rank the same as do your stars, bars and buttons. You may not understand the precedence of our "two-nine ranks," or of the "twenty-and-nine classes of the Able Eyes." See, sir, the sphere represents an eye, for is not the official a man who must be keen of eye? Does he wear a feather also? Then it is his to fly, to be swift, to fly like the brilliant humming bird. Does he carry on his person a sweet odor? Then is it his to smell out secret things. Are his lips anointed and painted? He, then, is to taste in his place. Are his ears bright? Then it is his to hear well and direct.

The military ranks are not altogether military. The two first officials of the civil rank are members of the Imperial War Board, and in interchange the two first-class officials of the military have some civil rank. By name these two officials are the Chiang-Chun, or Secretary of War, and the Tu-T'ung, or Under Secretary. Each provincial capital has one of these officials, who wears carbuncles and corals. The Chiang-Chun commands the Chinese troops, and the Tu-T'ung direct the Tartar contingent. The generals reside one in each province, and are called Ti-T'u. If afloat the Ti-T'u is an admiral. At court he wears a coral sphere; in ordinary, a read ivory; at the head of his command, a red porcelain, and when abroad or afloat a diamond. He is assisted by an assistant-general, the Chen-T'ai, one in each district, and designated like his superior, except that his spheres are smaller. The Chen-T'ai also has his assistant, the Haieh-T'ai. These three generals go into the Imperial War Board in time of war, as, for instance, three years since at Anam.



First-class of the third military class are the Tsau-chiarys, and second class are the Fu-chiangs, wearing respectively a light blue and a dark blue sphere. When the Fu-chiang commands Tartars their denomination is Lu-Tchi. The officer of the fourth rank is called the Tu-Ssu, wearing a dark opaque blue sphere. In the fifth rank are two officials—the Shou-Pei, who commands Chinese soldiers, and the Chien-Tsung, commanding a Tartar regiment. Both wear glass spheres, and in actual war the Chien-Tsung is recognized as the sixth rank. The seventh has one officer, the Pa-Tsung, wearing a porcelain ball. The eighth has one, the Wai-Wei, wearing a plain gold sphere, and the ninth has one representative, the Nge-Wei, wearing a gilt spheroid. Do not mix up all of these, but remember in addition, that the cavalry soldier is denominated a Mai-ping, and the ordinary soldier or sailor a Pu-ping. The two orders or ranks, civil and military, are commonly said to be "answerable by spice and the glory of tea, and sun at night, and the blood of dragons" to the Imperial Council, and they to the Emperor. An official's title appears on all of his papers; records, tablets and tombstone. In addition to it the Emperor bestows on his best loved officials the yellow jacket and a peacock's feather. A private soldier who has won distinction has conferred on him a crow's feather as a decoration. The Emperor alone wears the pearl sphere, and this, together with the remainder of his attire, is plain and unadorned.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

"HOME EXERCISER" *for Brain-Workers and Sedentary People.* Gentlemen, Ladies, and Youths, the Athlete or Invalid. A complete gymnasium. Takes up but 6 inches square floor-room; something new, scientific, durable, comprehensive, cheap. Send for circular. "HOME SCHOOLS FOR PHYSICAL CULTURE," 16 East 14th St. and 713 5th Ave., N. Y. City. Prof. D. L. Dowd. Wm. Blaikie, author of "How to Get Strong," says of it: "I never saw any other I liked half as well."

BEAUTY of Skin & Scalp RESTORED by the CUTICURA Remedies.

NOTHING IS KNOWN TO SCIENCE AT all comparable to the CUTICURA REMEDIES in their marvellous properties of cleansing, purifying and beautifying the skin and in curing torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp and blood, with loss of hair.

CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, prepared from it, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, are a positive cure for every form of skin and blood disease, from pimples to scrofula. CUTICURA REMEDIES are absolutely pure and the only infallible skin beautifiers and blood purifiers.

Sold everywhere. Price, CUTICURA, 50c.; RESOLVENT, $1; SOAP, 25c. Prepared by the POTTER DRUG & CHEMICAL CO., Boston, Mass.

☞ Send for "How to Cure Skin Diseases."

HANDS Soft as dove's down, and as white, by using CUTICURA MEDICATED SOAP.

FOREIGN ITEMS.

Several captured Burmese guns, which have been presented to the Queen, have arrived at Windsor Castle. The trophies will be placed, it is expected, in the State apartments.

Lord Randolph Churchill claims that his resignation resulted in the direct saving of £1,400,000, while it had exposed the scandalous waste of public money in the War and Admiralty Departments.

The *Militar Zeitung* (Vienna) states that a new repeating-rifle, which is said to be superior to all others hitherto invented, has been submitted to the Austrian Technical and Administrative Committee. An extensive series of trials is to be carried out with this weapon. The inventors are Capt. Hermann Schmitz and Herr Bela Schratzenthaller.

President Diaz, in his message to Congress, says that with the United States there is no question pending which is likely to disturb the existing good understanding, and alludes to the co-operation of Mexican and American troops in the war against the Apache Indians as an occasion for increasing the harmony and cordiality which should prevail without interruption between the two republics.

A correspondent of the N. Y. *Sun* says: "The Czar, who seems, unlike his friend the pheasant, to be always in season, has been shot at again within the last few days, and is busy with his own people. I should say that a fight between Russians—a Russian revolution—is more to be looked for than any other Russian complication just now. The attacks on the Czar have caused that potentate literally to sour on everything in the shape of democracy. He has replied to the French Ambassador's invitation to join in the French exhibition in 1889 in a tone not to be expected from one usually so brimful of love for the French. He would give no encouragement to a demonstration organized in honor of a successful revolution, and he would not allow his subjects to take any part in such an affair either."

The 2,000 passengers who were snowbound on the Intercolonial Railway will probably have a poor appreciation of the advantages of this branch of the Canadian route to the Pacific. Travelling at the rate of two miles in 100 hours is rather monotonous, to say the least. The Canadians seem to be badly in need of snow-sheds while waiting for an improvement in their climate.

As indicative of Chinese enmity to King Kalakaua, it is stated that a certain Chinese firm paid a bribe of $70,000 to a native officer holding a high position to secure his influence in obtaining the exclusive right to sell opium in the Hawaiian Kingdom, and that the Chinese firm in question failed to secure the prize. They then demanded a return of the bribe, which was refused. The Chinese have decided not to submit to what they consider an outrage, and the walls of Honolulu are covered with handbills, in Chinese, offering a reward of $5,000 for the head of King Kalakaua. It is said that the guards have been doubled about the palace.

SEAMLESS AND WHITE IN COLOR
SEND FOR (Pat. 1888.) CIRCULAR.

THE last number of the "Neue Militärische Blätter" (Berlin) publishes a review of the present state of the repeating rifle question.

SOME Canadian officers have been testing a theory that a snow bank will stop bullets, with the natural result. At 200 yards it was found that the bullets went through the snow bank (in some cases near the base, over nine feet), and imbedded themselves in the fence about 100 yards in the rear. At 500 yards the result was the same, with the exception that the bullets did not strike the fence.

AS RECENTLY announced, Abdurrahman sent a printed circular to the tribes in Kohistan and the Kohdaman Hills, calling upon his subjects to raise a holy war. In this document the Ameer denounces the Czar as a great tyrant and promise-breaker, whose troops are daily advancing. He says: "If they ever occupy Afghanistan all will be lost. It is, therefore, expedient to take measures to check their advance."

A RUSSIAN artillery officer, specially attached to the Toula gun foundry, has discovered a new alloy, which is stated to possess the hardness and ductility of steel and bronze combined. It is claimed to be preferable to either metal for artillery castings, as its density is only about 8.44 degrees, and this reduction will sensibly diminish the weight of large guns without impairing their power of resistance to the ponderous charges employed at the present day.

ACCORDING to the *Republicain de Constantine*, the recent camel races at Biskra have given surprising results. The camels covered the distance between Tuggurth and Biskra—225 kilometres—in from 26 to 30 hours. It is suggested that the French Cavalry stationed in the south of Algiers might with advantage be mounted on camels for work in the Sahara. This would also set free an immense number of Barbary horses for service in France.

IN a private letter H. M. Stanley says that he is completely bewildered at the constant yielding and shrinking of British power and influence in Africa. In the west and north France and Portugal have made audacious haste to exclude British trade. At Zanzibar the British fleet has given way to the German, whose traders there already largely outnumber the English. The Germans are ominously aggressive, as well as haughty and overbearing. The natives look on and wonder at this changed state of affairs, and the British are superbly indifferent.

ACCORDING to the *Revue du Cercle Militaire* (Paris), the Austrian Crown Prince lately visited the Vienna Arsenal, where Nordenfeldt five-barrel machine-guns are being manufactured. These weapons, accepted by the government, fire 700 shots per minute.

A LONDON correspondent writes: "The state of Europe waits upon Easter. To-day Germany's new troops all join the colors. A fortnight hence they will be scarcely distinguishable from the others, and then if Bismarck wants to push his game, whatever it may be, he is in shape to do so."

THE close care and attention bestowed by the German Government on the merest minutiæ connected with military economy is shown by an official announcement to the effect that a late competition for the best pattern of a "pannikin," or bowl for campaign purposes, has failed in the desired result. A further competition will take place, and tinplate workers and other manufacturers are invited to send in exhibits, for which two money prizes, respectively of 1,000 and 500 marks will be awarded.

THE French Infantry Technical Commission has provisionally adopted for trial a leathern rifle charger to hold eight cartridges. This portable magazine is tubular in form, and so contrived that the marksman can pass and work it with the fingers of his left hand, directly the command for rapid fire is given, as, for instance, directly an assault is ordered. The cartridges work towards the outlet by means of a spiral spring inside the case, and, it is stated, are more readily obtainable than from the belt pouches, but the plan is not generally approved by the practical musketry instructors.

NO HALF-WAY WORK. Cure your cough thoroughly. HALE'S HONEY OF HOREHOUND AND TAR will do it.
PIKE'S TOOTHACHE DROPS Cure in one Minute.

"SOME of our farmers who have used PHENOL SODIQUE, pronounce it one of the best remedies they have ever used for HURTS, GALLS, SCRATCHES, ITCH, and other diseases of animals. It is an excellent remedy to prevent the spread of CONTAGION."—*Jeffersonian*, West Chester, Pa.

ONE by one the roses fall, but "Tansill's Punch" 5c. Cigar outlives them all.
Do you smoke "Tansill's Punch" 5c. Cigar?

BIRTHS.

CARMODY.—At Bellevue Naval Magazine, Washington, D. C., April 4, 1887, a son to Lieut. and Mrs. Robert E. Carmody, U. S. Navy.

VERY.—At Warehouse Point, Connecticut, April 2, to the wife of Lieutenant Commander Samuel W. Very, U. S. N., a son.

DIED.

GARDNER.—At Washington, D. C., April 1, Mrs. REBECCA C. GARDNER, widow of Charles T. Gardner and mother of Major W. H. Gardner, U. S. Army.

GREEN.—Suddenly, at Providence, R. I., April 7, 1887, Commodore CHARLES GREEN, U. S. Navy, retired.

LANYON.—At Windsor Hotel, New York City, April 6, Col. Sir W. OWEN LANYON, K. C. M. G., C. B., of England, in the 45th year of his age.

MAXON.—At Santa Cruz, March 19, 1887, D. W. MAXON, father of Lieut. M. M. Maxon, 10th U. S. Cav.

MUELLER.—At a meeting held by the members of Troop F, U. S. Cavalry, at Fort Walla Walla, Wash. Ter., March 20, the following preamble and resolutions were adopted: Whereas—The sudden and untimely death of our beloved comrade and fellow soldier Theodore Mueller, Troop F, 2d Cavalry, deprives us of a true comrade and the Troop of a good and faithful soldier, and whereas, the suddenness and circumstances of his death cast a gloom upon us that will ever be remembered by us; therefore be it Resolved, That we, the members of his late Troop, will ever cherish his memory as one who, by his kind, cheerful and honorable character, had endeared himself to us, and Resolved, That while we deplore his death, we sincerely sympathize with his relatives and friends, and assure them of our affectionate remembrance of him: be it further Resolved, That a copy of these resolutions be sent to his relatives and to the ARMY AND NAVY JOURNAL. The funeral took place March 19, with full military honors.

TOWLER.—At Bethlehem, Pa., March 25, Mrs. NANCY LOUISA TOWLER, widow of Major Reginald H. Towler, Paymaster U. S. Army.

VAN VLIET.—Mrs. VAN VLIET, aged 90, mother of General Stewart Van Vliet, U. S. A., and Major Frederick Van Vliet, 10th U. S. Cavalry.

VON LUETTWITZ.—At Washington, D. C., March 29, 1st Lieutenant ADOLPHUS H. VON LUETTWITZ, U. S. Army, retired.

WILLARD.—At Los Angeles, Cal., March 24, EDWARD WILLARD, son of the late John Willard and grandson of General Anthony Lamb.

THE REVIEW. ADVICE TO INVALIDS. NINTH YEAR

HEALTH AND STRENGTH REGAINED.

COPIES FREE.

INVALIDS AND OTHERS SEEKING HEALTH,

Strength, and Energy, should avoid Drugs, Secret Medicines, etc., and send for "The Review," or "Health and Strength Regained," a large Illustrated Journal, published entirely for their benefit.

It Treats on Health, Hygiene, Physical Culture, and Medical Subjects, and is a complete encyclopædia of information for suffering humanity afflicted with long standing, chronic, nervous, exhausting, or painful diseases. Every subject that bears on health and human happiness receives attention in its pages; and the many questions asked by ailing persons and invalids who have despaired of a cure are answered, and valuable information is volunteered to all who are in need of medical advice. No similar work has ever been published. Every sick or ailing person should have it.

Young and Middle-Aged Men, and others who suffer from nervous and physical disability, exhausted vitality, premature decline, etc., are especially benefited by consulting its contents. Everything such sufferers wish to know is fully given in its pages. If in need of medical aid or counsel, read it before "doctoring" or investing in medicines or appliances of any description, and you will save time, money, and disappointment. If using medicine, or medical treatment of any kind, read it and learn the better way.

THE REVIEW exposes the frauds practiced by quacks and medical impostors who profess to "practice medicine," and points out the only safe, simple, and effective road to health, vigor, and bodily energy.

Beware of the sham curative articles called Shields, Generators, Girdles, Pads, Brushes, Corsets Clothing, Plasters, etc., now deceptively advertised as Electric, Voltaic, or Magnetic. These articles are as entirely spurious as the advertisements concerning them are insidious. This can be easily detected by a simple test which is fully explained in THE REVIEW.

Electric Belts and all curative appliances are treated upon: all about them. Belts on thirty days' trial (?) and other fallacies reviewed. Thousands of dollars saved nervous-debility sufferers and others by the advice given.

Reader, are you afflicted and wish to recover the same degree of health, strength, and energy experienced in former years? Do any of the following symptoms, or class of symptoms, meet your deceased condition? Are you suffering from ill-health in any of its many forms consequent on a lingering, nervous, chronic, or functional disease? Do you feel nervous, debilitated, fretful, timid, and lack the power of will and action? Are you subject to loss of memory, have spells of fainting, fullness of blood in the head, feel listless, moping, unfit for business or pleasure, and subject to fits of melancholy? Are your kidneys, stomach, urinary organs, liver, or blood in a disordered condition? Do you suffer from rheumatism, neuralgia, or other aches and pains? Are you timid, nervous, and forgetful, with your mind continually dwelling on the subject? Have you lost confidence in yourself and energy for business pursuits? Are you subject to restless nights, broken sleep, nightmare, dreams, palpitation of the heart, bashfulness, confusion of ideas, aversion to society, dizziness in the head, dimness of sight, pimples and blotches on the face and back, and other despondent symptoms? There are thousands of young men, middle-aged and old, who suffer from nervous and physical debility. There are thousands of females broken down in health and spirits, and who, from false modesty or neglect, prolong their suffering.

Why further neglect your health and future happiness, or continue to be dosed, drugged, and quacked, when THE REVIEW, which costs you nothing, teaches the true and only way to permanent health, strength, and vigor?

"THE REVIEW," OR "HEALTH AND STRENGTH REGAINED,"

Contains particulars and information worth thousands to suffering humanity.

THE REVIEW is now in its ninth year of publication. Complete specimen copies mailed free. Address, naming this paper,

PULVERMACHER COMPANY, 1164 Broadway, New York.

Now is the time to apply, as you may not see this notice again. Send your address on postal card to-day.

ADDITIONAL CRUISERS & GUN-BOATS FOR THE UNITED STATES NAVY.

NAVY DEPARTMENT,
WASHINGTON, April 6, 1887.

Under authority conferred by the act of Congress making appropriations for the naval service, approved March 3, 1885, (23 Statutes at Large, page 426,) and the act making appropriations for the naval service, approved March 3, 1887, sealed proposals are hereby invited and will be received at this Department until 12 o'clock noon, on Monday, the 1st day of August, 1887, for the construction, exclusive of equipment and armamen , by contract, of five vessels for the United States Navy, which, for the purposes of this advertisement, are designated as follows:

CRUISER NO. 1.

One steel cruiser of about 4,000 tons displacement.

CRUISER NO. 4.

One steel cruiser of about 4,000 tons displacement.

CRUISER NO. 5.

One steel cruiser of about 4,000 tons displacement.

GUN-BOAT NO. 3.

One steel gun-boat of about 1,700 tons displacement, of the type of Gun-boat No. 1.

GUN-BOAT NO. 4.

One steel gun-boat of about 1,700 tons displacement, of the type of Gun-boat No. 1.

Cruiser No. 1, authorized by the act of March 3, 1885, is to be constructed in the manner and in conformity to the conditions and limitations provided for the construction of the new cruisers in the acts of August 5, 1882, (22 Statutes at Large, page 284,) and March 3, 1883, (22 Statutes at Large, page 472,) except so far as said acts provide for and define the duties of the Naval Advisory Board.

Cruisers No. 4 and No. 5 and gun-boats No. 3 and No. 4 are to be constructed in accordance with the requirements of the aforesaid act of March 3, 1887, viz.: That "all of the provisions of the act of August 3, 1886, entitled 'An act to increase the naval establishment,' as to material for said vessels, their engines, boilers and machinery, the contracts under which they are built, the notice of and proposals for the same, the plans, drawings and specifications therefor, and the method of executing said contracts, shall be observed and followed, and said vessels shall be built in compliance with the terms of said act, so far as the same relate to vessels constructed under contract, save that in all their parts [including shafting] they shall be of domestic manufacture."

The contracts for the construction of cruisers No. 4 and No. 5 will "contain provisions to the effect that the contractor guarantees that when completed and tested for speed, under conditions to be prescribed by the Navy Department, the vessel shall exhibit a maximum speed of at least 19 knots per hour; and for every quarter knot of speed so exhibited above said guarantee the contractor shall receive a premium, over and above his contract-price, of $50,000, and for every quarter knot that said vessel fails of reaching said guaranteed speed there shall be deducted from the contract-price the sum of $50,000."

The aforesaid act of March 3, 1887, further provides that "in making proposals for contracts for building" cruisers No. 4 and No. 5 and gun boats No. 3 and No. 4, "it shall be required that one of such vessels shall be built on or near the coast of the Pacific Ocean, or the waters connecting therewith, one of them on or near the coast of the Gulf of Mexico, or the waters connecting therewith, and two of them on or near the coast of the Atlantic Ocean, or the waters connecting therewith, and at such places on or near such coasts or waters as the Secretary of the Navy shall approve;" and that "if it shall appear to the satisfaction of the President of the United States, from the biddings for said contracts, * * * that said vessels cannot be constructed at a fair cost on or near the coast of the Pacific Ocean or the Gulf of Mexico, he shall authorize the construction of said vessels or either of them elsewhere in the United States."

It is therefore required that each bidder shall state explicitly in his proposal the place where the vessel for which he bids is to be constructed.

Proposals for the construction of cruiser No. 1, authorized by the act of March 3, 1885, will be received "from all American shipbuilders, whose ship-yards are fully equipped for building or repairing iron and steel steamships, and constructors of marine engines, machinery and boilers." Satisfactory evidence that the bidders are such builders or constructors must accompany the proposals or be submitted to the Department in advance.

Proposals for the construction of cruisers No. 4 and No. 5, and gun-boats No. 3 and No. 4, authorized by the act of March 3, 1887, will be received "from every American shipbuilder and other person who shall show, to the satisfaction of the Secretary of the Navy, that within three months from the date of the contract he will be possessed of the necessary plant for the performance of the work in the United States which he shall offer to undertake." The evidence thus required must accompany the proposals or be submitted to the Department in advance.

All the vessels included in this advertisement are to be of the best and most modern design, having the highest attainable speed, and to be constructed in accordance with the plans and specifications provided or adopted by the Secretary of the Navy. Plans and specifications, appropriate forms of proposals and general forms of contract for each vessel will be prepared by this Department, and may be seen and examined, on and after June 1, 1887, at the Department, where all information essential to bidders can be obtained. Full information as to the general characteristics and essential requisites of each vessel can be obtained by bidders at any time on application at the Department.

The conditions to be prescribed by the Department, under the provisions of section 2 of the aforesaid act of March 3, 1887, for testing the speed of cruisers No. 4 and No. 5, will be included in the general form of contract, above referred to, for the construction of those vessels.

Proposals for each vessel are divided into three classes, as follows:

PROPOSALS FOR HULL AND MACHINERY.—CLASS 1.

For the construction of the hull and machinery, including engines, boilers and appurtenances, complete in all respects, in accordance with the plans and specifications provided by the Secretary of the Navy.

PROPOSALS FOR HULL AND MACHINERY.—CLASS 2.

For the construction of the hull and machinery, including engines, boilers and appurtenances, complete in all respects, in accordance with the plans and specifications provided by the contractor. But no such proposal will be considered unless accompanied by full and complete plans and specifications of such hull and machinery, and a satisfactory guarantee of the results of the same if adopted.

PROPOSALS FOR HULL AND MACHINERY.—CLASS 3.

For the construction of the hull according to the plans and specifications provided by the Secretary of the Navy, the contractor to put in engines, boilers and appurtenances of any design which he may consider more suitable than those called for by said plans and specifications, not to exceed, however, in weight, nor in the space to be occupied, that allotted in said plans and specifications. But no such proposal will be considered unless accompanied by full and complete plans and specifications of such proposed engines, boilers and appurtenances, and a satisfactory guarantee of the results of the same, if adopted.

Proposals must be made according to forms which will be furnished by this Department on application. No offer for more than one vessel, complete, including hull and machinery, is to be embraced in the same proposal; but bidders are not restricted to one proposal, *i. e.*, the same bidder may propose separately for one or more of the vessels, and under one or more of the three classes of proposals, as above specified.

Each proposal must be preceded or accompanied by a cash deposit or satisfactory certified check, payable to the order of the Secretary of the Navy, which shall become the property of the United States in case the successful bidder shall fail to enter into a contract, with sureties, as required, on the acceptance of his proposal. The amount of such deposit or check shall be five per cent. of the amount of the bid. All deposits and checks of bidders whose proposals shall not be accepted will, on the award of the contracts, be returned to them, and those of each successful bidder will be returned to him when his contract has been duly entered into.

Contracts will be awarded separately for each vessel, including hull and machinery.

Every successful bidder will be required, on the acceptance of his proposal, to enter into formal contract for the performance of his work, and to give a bond therefor, with sufficient sureties, and in a penal sum equal to fifteen per cent. of the amount of his bid.

The three cruisers must be completed within twenty-four months, and the two gun-boats within eighteen months, from the execution of the respective contracts.

The cost of cruiser No. 1, exclusive of armament but including equipment, is limited to an amount not exceeding $1,300,000.

The cost of cruisers No. 4 and No. 5, including equipment, but exclusive of armament and premiums for speed, is limited to an aggregate for both vessel of not more than $3,000,000.

The cost of gun-boats No. 3 and No. 4, exclusive of armament, but including equipment, is limited to an amount not exceeding $550,000 each.

Payments to each contractor will be made in ten equal installments, as the work progresses, upon bills duly certified, from which 10 per cent. will be reserved to be paid on the full and final completion of the contract.

The Secretary of the Navy reserves the right to reject any or all bids, as, in his judgment, the interests of the Government may require.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Proposals for Fuel, Forage, and Straw.

ACTING ASST. QUARTERMASTER'S OFFICE,
WATERVLIET ARSENAL, WEST TROY, N. Y.,
April 1, 1887.

SEALED PROPOSALS, in triplicate, subject to the usual conditions, with copy of this advertisement attached, will be received at this office until twelve o'clock noon, the 5th day of May, 1887, at which time and place they will be opened in the presence of bidders, for furnishing and delivering to U. S. Quartermaster's Department at Watervliet Arsenal, West Troy, N. Y., such Fuel, Forage and Straw, as may be required during the fiscal year, commencing July 1st, 1887.

The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information will be furnished by this office upon application.

Envelopes containing proposals should be marked—"Proposals for Fuel," (or "Forage and Straw,") at Watervliet Arsenal, West Troy, N.Y., and addressed to the undersigned.

O. E. MICHAELIS,

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL,
20 Nassau St., New York.

Proposals for Miscellaneous Supplies.

WAR DEPARTMENT, April 2, 1887.

SEALED PROPOSALS, (in duplicate,) will be received at this office until 1 o'clock P. M., Wednesday, June 1st, 1887, for furnishing Miscellaneous Supplies, consisting of Brooms, Brushes, Soaps, Towels, etc., etc., for the War Department and its Bureaus in Washington, during the fiscal year ending June 30, 1888.

Blank forms of proposals, showing the items and estimated quantities required, together with instructions to bidders, will be furnished on application to this office.

Bids will be considerd on each item separately.

Proposals must be addressed to the undersigned, endorsed on the outside of the envelope "Proposals for Miscellaneous Supplies."

C. H. HOYT,
Assistant Quartermaster, U. S. A.

PROPOSALS FOR RATIONS, FUEL, AND MILITARY SUPPLIES.

HEADQUARTERS U. S. MARINE CORPS,
QUARTERMASTER'S OFFICE,
WASHINGTON, D. C., March 8, 1887.

SEALED PROPOSALS, in duplicate, will be received at this office until 12 o'clock M. of the 31 day of May next for furnishing RATIONS, and until 12 o'clock M. of the 4th May, for furnishing FUEL, to the United States Marines, at one or more of the following stations, from the 1st July, 1887, to the 30th June 1888, viz.: Portsmouth, N. H.; Charlestown Mass.; Brooklyn, N. Y.; Philadelphia and League Island, Pa.; Annapolis, Md.; Washington, D. C.; Nortolk, Va.; Pensacola, Fla., and Mare Island, al.

Specifications and blank proposals can be obtained upon application at any of the stations named above, or at the office of the Quartermaster, Washington, D.C., and Assistant Quartermasters, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal.

Sealed proposals will also be received at this office until 12 o'clock M. of the 5th day of May next for furnishing SUPPLIES, consisting of Cloths, Kerseys, Flannels, Blankets, Hats, Helmets, Military Stores, Brooms, Brushes, Axes, etc., to be delivered at the office of the Assistant Quartermaster, Philadelphia, Pa., free of expense to the United States.

Schedules, with specifications of the supplies required, can be obtained, and the standard samples seen, at the offices of the Quartermaster, Washington, D.C., Assistant Quartermasters' offices, 216 South 2d Street, Philadelphia, Pa., and 615 Sansome Street, San Francisco, Cal., and at the Marine Barracks, Brooklyn, N. Y., and Boston, Mass.

Blank forms of proposals and all information can be had by applying at any of the places named above.

This office reserves the right to reject any and all bids and to waive defects; and bids from manufacturers in, or regular dealers of, supplies only will be considered.

Proposals may be made for one or more articles, deliverable at one or more stations, and will be considered separately for each article and place of delivery. They should be indorsed "Proposals for Rations, Fuel, or Military Supplies," as the case may be, and addressed to Major H. B. Lowry, Quartermaster U. S. Marine Corps, Washington, D. C.

HOW TO SECURE A GOOD ROOF.

ROOFS

READ why we were obliged to stamp every sheet of our Guaranteed Brands, every box of which we are importing under a positive guarantee.

OWING to the many cases in which our brands had been estimated upon, and inferior brands substituted, we were induced to bring out the sheets stamped, not only with the NAME OF THE BRAND, but also the THICKNESS.

OUR action in STAMPING and GUARANTEEING Roofing Plates exhausts our own means of insuring the use of first class materials when required. It now therefore rests with the Architect and Builder to protect the Owner and Roofer by seeing that the sheets on the roof are stamped.

FIRST-CLASS Roofing Plates if properly laid upon the roof should last thirty to forty years; while the cost of same would be but little more than that of the inferior tin, which has caused so much trouble and expense to all concerned.

SHEETS that are GUARANTEED and STAMPED are the only protection to the Roofer, Owner, Architect, against dishonest competition, and the use of inferior material.

It will cost NOTHING however to obtain FULL FACTS and SAMPLES, which may be had by addressing

MERCHANT & CO.,

PHILADELPHIA. NEW YORK. CHICAGO.

THE SHURLY WATCH AND JEWELRY M'F'G COMPANY.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
For prices and other information please address

ARMY NAVY

GAZETTE OF THE REGULAR

JOURNAL.

AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 38. WHOLE NUMBER 1234.

NEW YORK, SATURDAY, APRIL 16, 1887.

SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THURSDAY of this week, April 14, was the twenty-second anniversary of the assassination of ABRAHAM LINCOLN, and on that day his remains, which had been secretly interred to protect them against desecration, were removed to their final resting place in the mausoleum at Springfield, Ill.

THE Norfolk *Landmark*, in referring to the selection of the Norfolk yard as a site for one of the dry docks, thanks Commodore HARMONY in very complimentary terms for his "intelligent presentation of the case," and remarks that his administration will be gratefully remembered by great numbers of persons in that part of Virginia.

WE trust that the English opinion upon the subject of England's naval guns is not indicated by the fact that Lord ALCESTER thinks it necessary to crow through the columns of the London *Times* because Captain BRIDGE of the *Colossus* reports from Malta that his crew were able under favorable circumstances to fire two rounds from her guns without a mishap.

WE note as a singular feature of military discipline that a soldier recently visited a certain post guard house in a drunken condition, and being repeatedly ordered by the Sergeant of the guard to leave "did fail and neglect to obey the order' and was afterwards tried for this failure. The question naturally arises, "Why was he not at once confined when he made his inebriated visit?"

THE general court-martial proceedings in the case of Major Benteen, 9th Cavalry, have been commented upon by Acting Judge Advocate General Lieber, and are now in the hands of Lieutenant General Sheridan for review before being submitted to the President. This of course points to but one conclusion, but it is hoped by Major Benteen's many friends that there may be sufficient in the case and in his record to warrant the exercise of Executive clemency.

FOUR subalterns in the Royal Barracks at London were recently disciplined for taking the starch out of a staff officer by turning the water-hose upon him. The result was that the three seniors were transferred to other corps and the junior hugs himself as he contemplates the three steps in promotion he has secured as his dividend in the results of this practical joke. We fear that we have subalterns in our Army who are sufficiently depraved to be willing to direct a water-hose upon a staff officer for a whole day for an even less reward.

THE San Francisco *Report*, now that the morning and evening gun has been discontinued, caustically remarks: "The sun will rise and set as usual, of course. But the custom was ancient, picturesque and suggestive and did not cost much. Now, however, that we are going in for economy at such a pace, what is the use of a flag anyway? Let us save the money uselessly expended in bunting and silk and tassels, in the tall poles, halliards and gilt eagles. Let us also issue our commissions on ordinary letter paper and clothe our soldiers in blue jean, fustian and four-bit felt derbys."

A REARRANGEMENT of Department commands is likely to follow the retirement of General WILLCOX, as it is probable that the present commanders will be given the preference in selecting his successor in the command of the Department of Missouri. Changes are also in contemplation in the Engineer Corps; it is understood that Colonel PARKE, who is now in Europe, will be relieved, and it is not impossible that he will succeed Colonel MERRITT as Superintendent of the Military Academy. It is certainly the expectation of Colonel MERRITT's friends that his term of office will terminate before the June examinations.

THE thrifty Japanese have adopted the novel expedient of insuring their war vessels, the London *Times* reporting that insurances on the Japanese frigate *Unebi Kan* had been effected to a large amount in England. There is another form of naval insurance with which other nations content themselves, and that is the insurance furnished to the marine by naval establishments. Capt. Colomb estimates that for this insurance Germany pays $1.68 for every ton of shipping entering and clearing her ports; Italy $3 12; Russia, $12.20; France, $5.12, and the British Empire five cents.

PRESIDENT CLEVELAND will have the appointment of three bureau chiefs of the Navy Department during the remainder of his administration. These will be successors to Engineer-in-Chief LORING, Surgeon-General GUNNELL and Commander SCHLEY, whose terms of office expire Jan. 18, 1888, March 27, 1888, and Jan. 9, 1889, respectively. That Commander SCHLEY does not anticipate a re-appointment is indicated by the fact that he is already an applicant for the command of the *Baltimore*. The terms of service of the other bureau chiefs expire upon the following dates: Commodore HARMONY, March 27, 1889; Captain WALKER, Jan. 13, 1890; Chief Constructor WILSON, Dec. 15, 1890; Captain SICARD, Jan. 13, 1890, and Paymaster General FULTON, Dec. 15, 1890.

THE Shanghai *Courier* reports that the dispute between the French and Chinese Delimitation Commissioners with reference to Cape Paklung is still unsettled. The French have placed Mongkai in a state of defence, and it is now in a position to withstand not only a sudden assault but a prolonged siege. The troops are supported by a number of men-of-war, and the correspondent of the *Courier d'Haiphong* says the Chinese mandarins pause before they take any hostile steps, as Admiral RIEUNIER told them a short time ago that if anything happened to a member of the Commission he would bombard a hundred leagues of the Chinese coast. The Viceroy of Canton is credited by the correspondent with having instructed the Chinese Commissioners to lay claim to the disputed territory, which, it is said, is undoubtedly Annamite.

IN noticing the recently published work, Exterior Ballistics, by Capt. James M. Ingalls, 1st Artillery, the *Engineer* says: "We do not pretend to have done justice to this book. It calls for months of study, and the application of high mathematics. We can now, however, state that those who devote themselves to this branch of work speak most highly of this book. Profs. Bashforth and Greenhill both have expressed strong opinions in its favor. The work is done in a good shape, and is rather in advance of any hitherto published; the method of Siacci in which the (A) function of altitude is employed, being embodied for the first time in a work in the English language. The writer appears to have largely employed the data supplied by Mayevski and Russian authorities, although Niven, Greenhill and Flogel and Krupp are fully quoted. Maj. Mackinlay has reviewed this work favorably in the 'Proceedings of the Royal Artillery Institution.' We are almost tempted to hope that the number of American artillery officers who read it easily is very limited, as we fear that the mathematical standard is higher than in our own Service."

THE committee recently appointed to inquire into the defective condition of English cutlasses prepared a report in which they say: "The converted cutlasses and cutlass sword-bayonets, pattern 1871, with which the navy is now for the most part armed, are absolutely inefficient, untrustworthy and unfit for service." They are "badly designed, the metal in them being unskilfully distributed; they are thus too weak to stand the vertical strain which thrusting weapons should endure without bending, and for want of proper temper they are too soft for efficient service." All these weapons are to be called in, and 30,000 old unaltered cutlasses are to be issued instead. The report says "that the evidence the committee have received from practical sword manufacturers has convinced them that the temper of the steel of which these arms were made was in all cases deteriorated, and in some instances destroyed, during their conversion. This point in the history of these arms strongly illustrates the disadvantages which arise from the periodical change of the superintending and other officers of the manufacturing departments at the end of five years or some other term of office, when they have just learned their business."

NOW THAT the regimental staff is being regulated a correspondent thinks that the swords of these officers should receive attention. Each change, he complains, brings with it a change of these weapons. The infantry have now two, the infantry sword proper and the light cavalry sabre, the artillery three: the infantry, light artillery, and the light cavalry for field and regimental staff. The regulation infantry foot sword, says our correspondent, is of no use whatever; too light and ungainly, poor quality (pot metal), and not at all adapted to mounted service, hence the use of the cavalry sabre for mounted officers of Infantry. A good broadsword with steel scabbard is suggested for all infantry officers. The basket hilted English sword is well adapted to all uses. The light artillery sabre should, he argues, be used by *all* artillery officers, foot or mounted. The present sabre is too short in the gripe for a man with a large hand to use well and is of poor metal. Hard wood handles should replace the rough shark skin. This is a subject worthy of attention, for, it is to be presumed, officers want a weapon, not a toy, and they should have only one sword to carry so long, at least, as they remain regimental officers in the corps to which they were originally assigned. Our correspondent cannot say why the staff sword was ever imposed on the line, but holds it to be "a trifling, useless, unsoldierlike thing for a *soldier* to carry, and ridiculous as a side arm on a large man, resembling as it does an exaggerated darning needle."

PERSONAL ITEMS.

GENERAL H. G. THOMAS, U. S. A., is recuperating at the Walnut Crest Farm, Saccarappa, Me.

THE Hygeia Hotel, Fortress Monroe, was sold, April 7, for $352,500. It was bought by Mrs. Phœbus.

LIEUTENANT F. S. CALHOUN, 14th Infantry, has returned to Vancouver from a trip to Fort Townsend.

CAPTAIN S. W. GROESBECK, U. S. A., of General Ruger's staff, is East from St. Paul on a few weeks' visit.

CAPTAIN W. H. CORBUSIER, assistant surgeon, U. S. A., has left Fort Grant, Arizona, on a month's leave.

MAJOR C. B. MCLELLAN, 10th U. S. Cavalry, lately of Fort Verde, has joined for duty at Fort Thomas, Arizona.

LIEUTENANT C. M. O'CONNOR, adjutant 8th U. S. Cavalry, has taken charge of recruiting matters at San Antonio.

CAPTAIN J. S. BISHOP, 13th U. S. Infantry, under his recent promotion has joined at Fort Stanton, New Mexico.

LIEUTENANT A. B. DYER, 4th U. S. Artillery, under recent transfer has joined Morris's Battery at Fort Adams, R. I.

LIEUTENANT A. R. PAXTON, 15th U. S. Infantry, assumed charge this week of the recruiting rendezvous at Harrisburg, Pa.

INSPECTOR-GENERAL G. H. BURTON, U. S. A., and family, have returned to Fort Leavenworth, Kas., from a visit to Delaware.

CAPTAIN T. C. LEBO, 10th Cavalry, lately at Los Angeles, Cal., on inspection service, has joined his troop at Fort Grant, Ariz.

LIEUTENANT LOUIS OSTHEIM, 3d U. U. Artillery, rejoined at Washington Barracks this week from a tour of duty at Fort Meyer, Va.

CHAPLAIN G. W. SIMPSON, U. S. A., late of Fort Bridger, Wyo., finds himself very pleasantly situated at Fort McIntosh, Tex., his new station.

MAJOR GENERAL A. H. TERRY, U. S. A., is to deliver the oration at the dedication of the Soldiers' Monument at New Haven, Conn., on June 17.

LIEUT. A. S. CUMMINS, 4th U. S. Artillery, left Boston early in the week on a visit to friends, and will return to Fort Warren at the end of April.

COLONEL C. B. COMSTOCK, Corps of Engineers, U. S. A., will avail himself of two months' leave before settling down to duty in New York City.

SURGEON WARREN WEBSTER, U. S. A., who has been on sick leave for a long time past, was examined by the Washington Retiring Board last week.

COLONEL F. H. PARKER, U. S. A., Commandant of Watertown Arsenal, Mass., was in New York this week, with headquarters at the Murray Hill Hotel.

LIEUTENANT EDWARD DAVIS, 3d U. S. Artillery, of the Washington Barracks garrison, took charge early in the week, under Gen. H. G. Gibson, of Fort Myer, Virginia.

MAJOR-GENERAL O. O. HOWARD, U. S. A., has followed energetically in the wake of his predecessors in regard to improvements at the Presidio of San Francisco.

ASSISTANT SURGEON R. W. SHUFELDT, U. S. A., has been elected a member of the Academy of Sciences of Chicago, and of the Linnæan Society of New York.

THE garrison circle of Fort Columbus, N. Y. H., was augmented this week by the arrival of Lieuts. Frank Thorp and E. R. Hills, 5th U. S. Art., with their families.

MAJOR WILLIAM STANTON, Corps of Engineers, U. S. A., was called to Old Point Comfort, Va., last week by the serious illness of his mother, visiting relatives there.

LIEUTENANT GEORGE PALMER, 9th U. S. Infantry, was expected to arrive this week at Waukesha, Wis., where he is to be married April 21 to Miss Bertha E. Wardrobe.

MAJOR GEORGE A. ARMES, U. S. A., lately superintendent of the Maryland Military and Naval Academy, has returned to Washington to resume his business as a real estate broker.

LIEUTENANT C. MCD. TOWNSEND, Corps of Engineers, U. S. A., much to the satisfaction of his many friends in Washington, again returns to that city for duty under Major Lydecker.

LIEUTENANT T. R. ADAMS, 5th U. S. Art., returned this week to Fort Schuyler, N. Y. H., from a six weeks' leave, and resumes charge of the quartermaster and subsistence departments there.

LIEUTENANTS W. B. MCCALLUM and A. W. Vogdes, 5th U. S. Artillery, removed their "lares and penates this week from Governor's Island to Fort Hamilton and with their families prepared to follow.

COUNT KUJOLAKA KURODA, Lieut.-General of the Army of Japan, and Chancellor of the Imperial Cabinet, with his staff of ten young noblemen have been enjoying the hospitalities of San Francisco, returning homeward after a semi-official tour of the world.

THE Hon. James G. Blaine visited his daughter, Mrs. Coppinger, last week at Fort Gibson, I. T., and while there had an attack of broncho-pneumonia, the news of which when received in the East excited much interest. Mr. Blaine received every attention at the post, from Surgeon C. B. Byrne, U. S. A., and other medical gentlemen called in.

MISS AUDENREID, daughter of the late Col. J. C. Audenreid, U. S. A., will be married to Mr. Horace Lee in November next, and the young couple will go to live upon a farm in Virginia. Miss Audenried says the papers have located them in almost every city in the country, but this is their intention. There they will live in the English country style, keep open house, ride, drive and hunt.

CAPTAIN A. B. MCGOWAN, 12th U. S. Infantry, left Sackett's Harbor, N. Y., on Monday, on a short leave.

LIEUTENANT G. N. WHISTLER, 5th U. S. Artillery, will remain at St. Augustine, Fla., for a few weeks longer.

LIEUTENANT S. M. FOOTE, 4th U. S. Artillery, rejoined at Fort Monroe, Va., early in the week from a short leave.

CAPTAIN ARTHUR MORRIS, 4th U. S. Artillery, and Mrs. Morris, have returned to Fort Adams, R. I., from New York.

MRS. RUGGLES, wife of Gen. Geo. D. Ruggles, U. S. Army, expects to visit Europe this summer to place her family at school.

COLONEL JOHN CONLINE, 9th U. S. Cavalry, on leave from Nebraska, visited friends in New York City early in the week.

CHAPLAIN W. F. HUBBARD, U. S. A., recently appointed, is the latest addition to the garrison circle at Fort Buford, Dakota.

LIEUTENANT W. H. COFFIN, 5th U. S. Artillery, returned to Fort Schuyler, N. Y. H., from a visit to his father at Washington.

LIEUTENANT H. C. HALE, 12th U. S. Infantry, rejoined at Fort Niagara, N. Y., on Tuesday, from a short visit to friends in Buffalo.

LIEUTENANT H. DE H. WAITE, 5th U. S. Cavalry, visited friends in Washington this week preparatory to joining his troop at Fort Reno.

CHAPLAIN O. J. NAVE, U. S. A., visiting at Delaware, O., will go to Fort Brown, Tex., on his return to duty instead of to Fort McIntosh.

COLONEL H. C. MERRIAM, 7th U. S. Infantry, on a long leave, is due in London on Tuesday next. We hope he will have a pleasant time abroad.

COLONEL A. L. HOUGH, U. S. A., returned to New York this week from a tour of inspection to Columbus Barracks, O., and Jefferson Barracks, Mo.

CAPTAIN J. P. STORY, 4th U. S. Artillery, has succeeded to the command of Fort Warren, Mass., lately relinquished by Col. L. L. Livingston, on promotion.

LIEUTENANT C. A. CHURCHILL, 5th U. S. Infantry, lately visiting at 221 E. Walnut street, Kentucky, will return to Fort A. Lincoln towards the end of May.

LIEUTENANT J. CARLAND, 6th U. S. Infantry, on leave from Fort Leavenworth, and lately in California, is now visiting old friends at Fort Douglas, Utah.

MAJOR CHAS. J. SPRAGUE, paymaster, U. S. A., now in San Francisco, was duly retired for age on Tuesday of this week, April 12, after a long and honorable service.

LIEUTENANT M. F. STEELE, 8th U. S. Cavalry, of Fort Clark, Tex., visited at Fort Leavenworth early in the week, and afterwards left on a short visit to friends in the East.

LIEUTENANT D. DUB. GAILLARD, Corps of Engineers, U. S. A., of Willet's Point, packed up his effects and started this week for Jacksonville, Fla., his new post of duty.

LIEUTENANT C. H. GRIERSON, 10th U. S. Cav., will break up the recruiting rendezvous at Lexington, Ky., this month and open one at Richmond, Va. The latter city should certainly furnish some good material.

LIEUTENANT W. W. ROBINSON, Quartermaster of the 7th U. S. Cavalry, was married at Rapid City, A. T., March 31, to Miss Minnie L. Ten Eyck, of Chicago. The married couple go to Fort Meade, Dakota.

LIEUTENANT IRVING HALE, Corps of Engineers, U. S. A., has taken charge of quartermaster and commissary matters at Willet's Point, N. Y. H., in succession to Lieut. C. McD. Townsend, who goes to Washington for duty.

IT is reported at Fort Leavenworth that Lieut. Wilcox, 7th Cav., arrested for desertion and duplicating his pay accounts 19 times, will plead guilty if the court will let him off with simple dismissal from the Army.—*Kansas City Times.*

LIEUTENANT J. F. MORRISON, 20th U. S. Inf., is the selection of the Board of Regents of the State Agricultural College at Manhattan, Kas., as Professor of Military Science and Tactics in succession to Lieut. Nicholson, 7th Cav., whose detail expires in June.

CAPTAIN E. B. SAVAGE, 8th U. S. Inf., has sailed for Europe on the *City of Richmond* on a ten months leave. He will make a tour of the continent, his address while absent being care of Drexel, Harjes and Co., 31 Boulevard Haussmann, Paris, France.

THE "Overland Monthly" for March gives a prominent place to a graphic description of the cattle business in Arizona, with some sketches of ranch life in that Territory. The article, which is entitled "The Cattle upon a Thousand Hills," is understood to have been written by Mrs. O'Connell, wife of Lieut. O'Connell, 1st U. S. Inf.

IT having been stated that many of Lieut.-Gen. Sheridan's friends wish him to be a candidate for the Presidency, the New York *Sun* says: "The curious feature of the case is that some zealous Democrats have also been thinking and talking about running Sheridan as the Democratic candidate for the same office. This confidence of men of both parties is a noteworthy compliment to the gallant General. It will be remembered the same thing happened to Gen. Grant in 1863.

DOM PEDRO, says a despatch from Rio Janeiro, has been seriously ill, but is convalescing. The Emperor's health has of late years been much undermined by confirmed diabetes. The anxiety on his behalf has been intensified by the absence of the heiress apparent and her eldest son, and by the little trust reposed upon the discipline and loyalty of the garrison of Rio, a city in which, moreover, the disorderly element is great and ready to seize every opportunity for revolution.

LIEUTENANT J. D. MANN, 7th U. S. Cavalry, is a recent visitor in San Francisco.

MAJOR H. M. ADAMS, Corps of Engineers, U. S. A., visited friends at Fort Leavenworth, Kas., early in the week.

MAJOR C. A. WIKOFF, 14th U. S. Infantry, has joined, under his recent promotion, at Vancouver Barracks, Wash. Ty.

MAJOR JOHN EGAN, 4th U. S. Artillery, is temporarily commanding at Fort Adams, R. I., during the brief absence on leave of Col. C. L. Best.

GENERAL O. B. WILLCOX, U. S. A., was given a brilliant farewell reception at Fort Leavenworth on Wednesday evening by the officers' mess.

MRS. THOMPSON, wife of Lieut. J. T. Thompson, U. S. A., of Little Rock Barracks, is the guest of her mother at the Araminta Hotel, Hot Springs.

LIEUTENANT R. B. WATKINS, Signal Corps, U. S. Army, accompanied by Mrs. Watkins, was at Santa Fe and El Paso last week, on an inspecting tour.

COL. B. J. D. IRWIN, M. D. U. S. A., on duty in N. Y. City, is now residing at 36 New Montgomery street, in San Francisco, Cal., where he is at present stationed.

LIEUTENANT C. G. MORTON, 6th U. S. Infantry, lately Acting Depot Quartermaster at Ogden, Utah, during the absence on leave of Capt. J. L. Clem, has returned to Fort Douglas.

LIEUTENANT B. W. ATKINSON, 6th U. S. Infantry, has effected a transfer from Co. B to Co. H of his regiment which will retain him at Fort Leavenworth after his tour of instruction there has expired.

CAPTAIN ARTHUR MORRIS, 4th U. S. Artillery, is residing at Highland Park Hotel, Aiken, S. C. He reports the weather there delightful, and climate most beneficial in dispelling the effects of pneumonia.

MRS. GENERAL HANCOCK is residing for the present with a friend at Yonkers, N. Y., and is busily engaged upon her "Reminiscences," which it is thought will be a highly valuable contribution to the war literature of the period.

WATERVLIET ARSENAL, West Troy, N. Y., presented a gay scene on Wednesday of this week, April 13, the occasion being the marriage of Miss Cora Young, daughter of Capt. D. J. Young, U. S. A., to Lieut. Ernest V. Smith, 3d U. S. Inf. After a short bridal tour the married couple will go to Fort Missoula, Montana.

THE girls at the Hygeia made a dead set for the Army men from the fort. "Whom have you asked to the german to-night?" was inquired of a lieutenant the other day. "I haven't asked any one." "Why, what does that mean? Aren't you going?" "Oh yes; but we don't do business that way here. Just wait a little and plenty of the pretty girls will ask me."—*Town Topics.*

IN the St. James Hotel Sunday was Jesse Grant, son of the General. His face is covered with a short curly growth of light brown whiskers, and his skin is browned as if by exposure to the weather. Answering an inquiry he said: "I have turned granger and am living on my brother 'Buck's' farm in Westchester County, near Purdy's Station. It quite agrees with me out there."—*N. Y. Tribune.*

THE Doylestown *Democrat* of April 12 says: "The lecture of Col. John P. Nicholson on 'Gettysburg, the Pinch of the Fight,' next Thursday evening, in Lenape Hall, before the Sons of Veterans, should draw a crowded house. We never listened to a more graphic description of a great battle. It will repay any one to listen to Col. Nicholson's admirable account of the great conflict, between the North and South, that sealed the fate of the Rebellion."

AT the last meeting of the Grant Monument Fund Association Mr. Cornelius Vanderbilt tendered his resignation as a member of the Executive Committee and it was accepted. On April 8 he received official notification that he had been elected president of the association, and promptly declined the honor, explaining that the same reason which prompted his resignation as a member of the Executive Committee—a pressure of important private business—would prevent him from accepting the position.

A CORRESPONDENT from St. Augustine, Florida, writes that "the wife and three children of Lieutenant Sebree Smith, 2d Artillery, had a narrow escape while driving on Wednesday last. Mrs. Smith had the reins in her hands when the horses became frightened and ran, throwing her violently to the ground; the wheels went over her body and she was dragged some distance, as she held fast the reins, trying to save her children. By some wonderful chance the reins broke and became entangled in the wheels; the horses were suddenly stopped and the children saved. The many friends of Mrs. Smith will be glad to hear that she is not seriously injured.

JEFFERSON DAVIS'S cabinet officers were as follows. State Department—Robert Toombs, R. M. T. Hunter, Judah P. Benjamin. Treasury Department—Charles G. Memminger, James L. Trenholm. War Department—L. Pope Walker, Judah P. Benjamin, James A. Seddon, John C. Breckinridge. Navy Department—Stephen R. Mallory. Attorney-General—Judah P. Benjamin, Thomas H. Watts, George Davis. Postmaster-General—Henry J. Ellet, Jno. H. Reagan. The Generals were as follows: S. Cooper, commissioned May 16, 1861; A. S. Johnston May 28; R. E. Lee, June 14; J. E. Johnston, July 4, and G. T. Beauregard, July 21. Braxton Bragg was made General after the death of A. S. Johnston.

AT Fort Adams, R. I., April 9, 1887, the employees in the Q. M. Department presented to Capt. Frederick Fuger, late 1st Lieut. and R. Q. M., 4th Art., a beautiful meerschaum cigarholder, accompanied by the following address:

The following-named Quartermaster's employees take the liberty in presenting to their former "Chief" a small token of their esteem and of their appreciation of his kindness while working under him during his administration as post quartermaster. We all sincerely regret the loss of Captain Fuger, but as his departure is connected with his long-merited promotion, we tender our warmest congratulations on this event, and our best wishes for his and his family's future, welfare and prosperity go with them.

MRS. BOWEN, wife of Captain E. C. Bowen, U. S. Army, retired, died at St. Paul, April 9.

COLONEL ANSON MILLS, whose leave of absence has expired, is now stationed at Fort Grant, Arizona Ty.

MR. J. SPRAGUE, son of Col. C. J. Sprague, U. S. A., is to be married May 1 to Miss Laura Ainsworth, of Oakland, Cal.

GENERAL J. C. DUANE, Chief of Engineers, U.S.A., was in Cincinnati, O., early in the week, the guest of Major J. C. Post.

LIEUTENANT G. J. GODFREY, 12th U. S. Infantry, on leave from Sackett's Harbor, N. Y., is visiting friends in New York City.

GENERALS S. B. Holabird and J. C. Kelton, U.S.A., have been elected Vestrymen of the Church of the Ascension, Washington, D. C.

GENERAL J. S. BRISBIN, U. S. A., who is an enthusiast touching Nebraska matters, is writing a series of articles for the Omaha *Republican*.

COLONEL G. L. ANDREWS, 25th U. S. Cavalry, will preside over a General Court Martial to meet at Fort Snelling April 25th, for the trial of Lieutenant J. H. G. Wilcox, 7th Cavalry.

LIEUTENANT H. S. COLE, 3d U S. Infantry, will be married April 27th, at the Central Presbyterian Church, St. Louis, to Miss Mary Meuse, daughter of Mrs. M. E. H. Meuse, of that city.

GENERAL W. L. ELLIOTT, U. S. A., and Mrs. Elliott of San Francisco, gave a reception a few evenings ago in honor of Governor and Mrs. Alger, of Michigan, who are visiting on the Pacific Coast.

CAJENE YAQUI, the Indian chief, was captured April 12 by General Martinez 10 miles from Guaymas, and thus ends the war between the Yaqui and Mexicans which has been waged in Sonora for two years.

PAYMASTER-GENERAL ROCHESTER has received a telegram from Chief Paymaster Terrell, reporting that Charles P. Parker, the man who several weeks ago robbed Paymaster Bash of $7,400, has been captured.

THE following officers are registered at the War Department: 1st Lieutenant Edward S. Farrow, 21st Infantry; Captain Thomas Turtle, Engineers; Captain Gaines Lawson, 25th Infantry; Captain A. E. Woodson, 5th Cavalry.

MR. CONRAD RENO, of Boston, a son of the gallant Captain Jesse L. Reno, U. S. A., who was killed at the battle of South Mountain, Md., September 14, 1862, was married at Springfield, Mass., to Miss Susan Moore Eustis, of that city.

CHAPLAIN J. D. PARKER, U. S. A., of Fort Riley, delivered an interesting lecture at Junction City last week, his subject being "Our Prairie World with its Forest Border." A vote of thanks was tendered the chaplain at the close of the lecture.

THE official report of the Court of Inquiry in the Cœur d'Alene matter has not been received at the War Department. It is understood unofficially that Colonel Frank Wheaton, 2d Infantry, and Lieutenant Clarke, Regimental Quastermaster, the two officers chiefly concerned, have been exonerated.

PROFESSOR S. E. TILLMAN, U. S. A., will be married on April 20th, at Grace Chapel, New York, to Miss Williams, of Flushing. Immediately after the ceremony the couple will start on a short tour, visiting the Professor's home in Tennessee and returning to West Point about May 5th. In June they will sail for Europe to be absent several months.

GENERAL H. G. GIBSON, U. S. A., has selected Lieutenant Constantine Chase for Regimental Adjutant, 3d U. S. Artillery, in succession to Lieutenant Hoskins, Lieutenant Lemly not being eligible, being on duty with Turnbull's Light Battery C. Lieutenant Chase, it will be recalled, was for some years Adjutant of the Artillery School, and is therefore fully up to the requirements of his new position.

GENERAL W. W. AVERILL, a dashing cavalry commander during the late war, has accepted an invitation to participate in the ceremonies of Confederate Decoration Day at Staunton, Va., on the 9th of June. In accepting the invitation General Averill says he "is filled with the liveliest anticipations of the pleasure he will experience in meeting some of those gallant soldiers among the survivors whose names and deeds are indelibly impressed on his memory."

THE marriage of Miss Kittie Sharpe, daughter of Gen. George H. Sharpe, at Kingston, N. Y., to Congressman Ira Davenport, April 27, will be the most fashionable social event of a decade along the Hudson River, says a despatch from that place. The marriage ceremony will be performed in the old, historic Dutch Church at Kingston, where the sons and daughters of the Hollanders sit and listen to the preaching of Rev. Dr. Van Slyke, who will officiate on the happy occasion.

MASTER THEODORE JEWELL, son of Commander T. F. Jewell, U. S. N., who has been appointed as cadet at large to the Naval Academy, is a member of the Second Middle class of the Rogers High School, Newport, R. I., where he has proved a bright pupil.

LIEUTENANT G. C. HANUS, U. S. N., one of the commissioners to determine the boundary line between New York and New Jersey, visited Washington this week, and afterwards returned to New York to meet the Joint Commission at the Astor House on Friday.

CAPTAIN THOMAS O. SELFRIDGE, U. S. N., now on his way from Washington to San Francisco, the *Telegram* reports, who was recently detached from the *Omaha*, will spend the summer on Conanicut Island, where a handsome cottage has been erected by Mrs. Selfridge during his absence.

MISS ELLA WHARTON, daughter of Mr. Francis Wharton, of the Department of State, was married at Washington, D. C., April 14, to Mr. John Caldwell Poor, son of the late Rear Admiral Chas. H. Poor, U. S. N. The groom is also a brother of the wife of Medical Inspector D. Kindleberger, U. S. Navy.

COMMANDER F. E. CHADWICK, U. S. N., is visiting friends at Newport, R. I.

LIEUTENANT-COMMANDER E. W. WATSON, U. S.N., visited friends in Norfolk, Va., this week.

PAYMASTER T. S. THOMPSON, U. S. N., registered at the Gilsey House, New York, on Monday.

PROFESSOR SIMON NEWCOMB, U. S. N., visited New York this week, locating at the Buckingham Hotel.

WE are glad to learn that Lieut. R. M. G. Brown, U. S. N., of Norfolk, Va., who has been quite ill with rheumatism, is recovering.

THE Medical Examining Board of which Medical Director A. C. Gorgas is president, is doing quite a brisk business just now, a number of candidates for naval medical honors having presented themselves recently for examination.

P. A. ENGR. C. P. HOWELL, U. S. N., who has been assigned to temporary duty on the *Atlanta*, but lately returned from a full cruise on the China Station in the U. S. S. *Alert*, and since then has been enjoying his *otium cum dig.* at Goshen, N. Y.

SURGEON NELSON MCP. FEREBEE, says the Norfolk *Landmark*, has reported for duty on the receiving-ship *Franklin*. The doctor's return to this station is gladly welcomed, as he has been located here several times and is well-known and has many friends. Withal he is a "tar heel," having been appointed from the Old North State in 1872.

B. F. COLHOUN, son of Rear Admiral E. R. Colhoun, U. S. N., was married on his deathbed at Washington, April 12, to Eleanor M. Semmes, of that city. He died a few hours afterward of pneumonia. They had been engaged for three years, and when Mr. Colhoun learned that he could not live he expressed a wish to be married before he died.

LIEUT. W. F. Halsey, U. S. N., remains on duty at the Branch Hydrographic Office in New York City for another year at least, and perhaps for a longer period. His family reside in Elizabeth, N. J., and he makes the trip between the two places twice a day. Mr. Halsey's last cruise of over three years was on the *Iroquois* in the South Pacific Station.

CHIEF-ENGINEER HUNT, whose death we notice elsewhere, was an officer of fine ability in his profession, and stood deservedly high in the Corps of Naval Engineers. His death promotes Passed Assistant-Engineer A. Kirby to Chief Engineer, and Passed Assistant Engineer Tower, on the *Boston*, will get his promotion on the retirement of Chief Engineer Stamm, December 1st, of the present year. It is quite likely that Chief Engineer Kirby will be assigned to fill the place left vacant on the *Juniata*.

SIR PROVO W. PARRY WALLIS, G. C. B., admiral of the fleet and oldest officer on the active list of the British Navy, celebrated his 96th birthday April 12. He was 2d lieutenant of the *Shannon*, and succeeded (then being only 21 years old) to the command of that ship when both of his senior officers were wounded in her memorable marine duel with the *Chesapeake* on June 1 1813, in full sight of Boston Harbor. He is well preserved in mental and bodily health, and resides, in his happy old age, at Huntington House, a beautiful mansion in the suburbs of Chichester.

THE Albany *Journal* says: "Admiral Porter, who put too much of his prize money into bricks and mortar when he reconstructed his house, has found literary work an easy way of replenishing his coffers. He received $30,000 bonus when he handed in the last page of manuscript of his naval story, and, in addition, a royalty of 20 per cent. is paid him on books sold, so that he has thus far pocketed about $30,000 cash from this source. The admiral has also written two novels which have been mercilessly criticized, but from which he has derived a handsome revenue. His inventions in torpedo boats and other naval matters have not been practically successful."

A WIDE circle of friends will learn with deep concern that Paymr. Frank H. Hinman, U. S. N., of the U. S. S. *Vandalia*, has been condemned by medical survey and invalided home. It is not probable that a relief will be sent to the *Vandalia* at once, but within a month or so the Bureau will probably assign a paymaster to that vessel. The *Vandalia* is now at the Island of Taboquilla, off the mouth of Panama Bay, but will probably sail for the North as soon as Rear Admiral Kimberly arrives on board, as he probably did the early part of the week. As a consequence of Paymr. Hinman's detachment, Pay Clerk Roach has been appointed acting paymaster, and has taken charge of the accounts of the vessel.

RECENT DEATHS.

CHIEF ENGINEER GEO. P. HUNT, U. S. N., died April 5 on board the steamer *Catalonia*, while returning to Boston from Europe, where he had been on sick leave. The remains were buried at sea. The deceased was born in England Sept. 17, 1836, was appointed Third Assistant Engineer in 1861; in 1863 was promoted to Second Assistant, and in 1866 to First Assistant. He performed highly meritorious service during the war and since then has had his full share of duty. He was promoted Chief Engineer, July 4, 1880.

From correspondence, it seems that the deceased on his arrival at Liverpool on his way home, was so ill that he could not be moved for two weeks, and it was only at his urgent solicitation, and because of his anxiety to see his family, that the Cunard company gave him a passage, as they feared what afterwards proved too true, that he would not live to reach Boston. A cablegram was sent to the commandant of the navy-yard and another to his wife announcing his departure from Liverpool. He died of gastralgia when seven days out from Liverpool, and was buried at sea. A widow, two sons and a daughter are left to mourn the loss of an affectionate husband and father, and a bright and happy home is filled with sadness.

—

LIEUTENANT CHAS. V. MORRIS, U. S. Navy, retired, a grandson of Robert Morris, one of the signers of the Declaration of Independence, died at Sackett's Harbor, N. Y., April 11, aged eighty-five. The deceased officer entered the Navy as Midshipman, Jan. 1, 1818, resigned in 1827, was appointed Master, July 19, 1842, and retired Sept. 13, 1855. During the war he rendered faithful service. The funeral took place on Wednesday, the deceased being buried with military honors under the direction of Col. E. F. Townsend, 12th U. S. Infantry, commanding Madison Barracks.

—

THE remains of the late Commodore Green, U. S. Navy, who died April 7, at Providence, R. I., were interred April 11 in South Windsor, Conn. The casket was covered with an anchor of white flowers, and the inscription was: "Commodore Charles Green, U. S. N. Died April 7, 1887. Aged 74 years."

THE Arizona papers report the death of the Hon. W. S. Oury, Collector of Customs at Tucson, A. T. He was born in Virginia in 1816, and would have reached 71 years of age on Aug 13 next. A large portion of his life was spent in Texas, and he was in the Texas war under Col. Jack Hayes, and was also in the Mexican war. He was a member of the garrison at the Alamo in San Antonio, Texas, and escaped the massacre by having been detailed to carry a despatch, and was on this duty when this event occurred. Another man had been detailed for this duty, to whom Mr. Oury was requested to lend his horse; this he objected to, but offered to go himself, and was therefore detailed on account of the superiority of his horse, and thus escaped the fate of Crockett, Bowie, Traverse, and comrades. He was in the engagement at San Jacinto and other affairs between the Texans and Mexicans, and was also the captain of the Papago expedition in the old Camp Grant affair, and these Indians still hold him in such high respect that a large delegation of them were among the mourners at his funeral. Mr. Oury leaves a widow and two daughters, one the wife of Major Gilbert C. Smith, quartermaster, U. S. A., stationed at Baltimore; the other the wife of Dr. Joseph B. Girard, captain and assistant surgeon, U. S. A., post surgeon, Fort Schuyler, N. Y. He had one son, who was at college in Berkeley, Cal., at the time of his death. Mr. Oury enjoyed an extensive acquaintance and had many friends among Army officers. Was a brother of the Hon. G. H. Oury, the Representative from Arizona in Congress for so long, and was a prominent county officeholder for many years previous to his appointment as Collector. He is described as a man of strong physical constitution, clear discerning mind, and an excellent memory. He was a close observer of men and events, a man of strong convictions and indomitable will. Naturally a leader of men, he always stood in the front rank and commanded the respect of all, even of his political opponents, in spite of his strong partisan proclivities. He was a man of strict integrity, generous, hospitable, and genial.

HON. WM. S. PEIRCE, who died in Philadelphia on April 4, was for twenty years an honored judge of the Court of Common Pleas of that city, and notwithstanding his advanced age he was last fall elected for a third term of ten years, upon which he had but just entered. In the early days of the anti-slavery agitation Judge Peirce, in association with Isaac Hopper, was the attorney for the fugitive slaves, braving the social ostracism which followed the course he took. He lived to see that course approved and honored by those who had been his fiercest opponents, and his death leaves a vacancy upon the bench which can hardly be filled. He was the father of the wife of Commander Brown of the Navy, whose friends will regret to hear of the loss which has befallen her.

THE remains of the unfortunate Lieut. Seward Mott, 10th U. S. Cavalry, who was killed by an Indian at San Carlos, Ariz., March 11, were interred with due solemnity at Bouckville, Madison County, N. Y., April 10. Among those present at the funeral were Lieut. F. B. Fowler, 4th U. S. Cavalry, of San Carlos, and Lieuts. Rees and Potter, of the Corps of Engineers, from Willet's Point. Lieut. and Mrs. Holley sent floral tributes. Delegates from Cornell and Madison Universities and from Williams College were also present.

DR. ELIJAH PILCHER, who died in Brooklyn, N. Y., April 7th, aged 77, entered the Methodist ministry in 1830, and labored and served for 50 years in Michigan. In 1882 he suffered a stroke of apoplexy from which he never recovered. He leaves a wife and five children, one of whom is 1st Lieutenant Jas. E. Pilcher, Assistant Surgeon, U. S. A., of Fort Custer.

MRS. DE EGINA, wife of Jose de Egina and daughter of the late Capt. Dominick Lynch, U. S. N., died April 9, at Red Bank, N. J., at the residence of her brother-in-law, Th. E. Ridgway, M. D.

SAMUEL SIMPSON, an uncle of the late Gen. Grant, died at Bantam, O., April 8, aged 91.

THE ARMSTRONG 110-TON GUN.

THE proof of the second 110 ton Armstrong gun commenced April 1 at the butts at Woolwich Arsenal. The first round was fired with a small charge of 575 lb. of powder, giving only 10½ tons pressure per square inch in the chamber of the gun. The second round was with 850 lb. of German powder, "Prismatic Brown, No. 1," which gave 2,143 ft. velocity to the 1,800 lb. projectile and a gas pressure in the chamber of the gun of 21 tons per inch. The six proof rounds will be continued with increasing charges to 1,000 lb. of Waltham powder as before. The shot penetrates over 60 feet into the sand of the butts. The third 110-ton gun has been delivered by the Newcastle firm, and is now in the arsenal.

THE OMAHA ACCIDENT.

WE find in the *Rising Sun and Nagasaki Express* of March 9 the following account of the sad accident resulting from the explosion of a shell fired in target practice by the U. S. S. *Omaha:*

"A most lamentable catastrophe occurred on the island of Ikeshima, about twenty-five miles distant from here, on the evening of March 4, resulting in the death of four Japanese and the wounding in various degrees of seven others. The circumstances of the case, so far as we have been able to gather, are, that the U. S. S. *Omaha*, Capt. Selfridge, while on the voyage down from Kobe, stopped off Ikeshima, for gun practice, and as fishing boats were scattered about in every direction out to sea, it was decided to put up a floating target about 50 yards from the beach, below a bluff about 400 feet high, at which some thirty shots were fired, at a distance of about 1,000 yards, between the hours of 10 and 11 A. M. At the conclusion of the firing, the officer of the ship in charge of the target reported that the whole of the shells fired had exploded, and the ship proceeded on her voyage, arriving here about 1 P. M. Unfortunately, however, shortly after the *Omaha* left, an unexploded shell was found, and while a group of resident natives were examining it, it suddenly, through some unexplained cause, exploded, with the fatal result as stated above. The dead were composed entirely of the male sex. The wounded comprised one man, one woman, and two boys, seriously; and one woman and two girls slightly. Even those most seriously wounded are reported to be confidently expected to recover under medical treatment. All the wounds are on the front parts of the bodies, and were evidently inflicted while the unfortunate people were standing together in somewhat close proximity to the shell at the time it exploded—the killed and severely wounded probably being in the front rank of the spectators, and those slightly wounded close behind them. A Court of Inquiry into the matter will no doubt be held by Admiral Chandler and a thorough investigation made. A private subscription for the wounded and the relatives of the dead was made on board the *Omaha*, realizing about $550, in addition to which the U. S. Government will no doubt pay any reasonable indemnity to the unfortunate sufferers that may be demanded. In placing a target close to the Ikeshima beach and firing at it, no matter what precautions were taken to prevent accidents, the *Omaha* undoubtedly acted wrongly, as the Japanese Government has distinctly prohibited gun or torpedo practice within three miles of the shore. That so sad a misfortune should have attended the non-observance of the regulation is a matter for sincere regret, which probably no one deplores more deeply than Capt. Selfridge and his officers.

"The result of the police inquiry had not been made public up to the time of going to press, but we learn privately that four other unexploded shells were found buried in the beach. We also learn that the shell which exploded with such fatal result was also found buried in the beach, and was carried round to the village, in the vicinity of the school house, which building was destroyed by the force of the explosion. The *kamadokoro*, or cooking place, in a house on the island is also reported to have been struck by a piece of shell weighing several pounds; but whether it was a splint from one of those which exploded upon being fired from the ship, or from the one which exploded accidentally afterwards, we have not been able to learn."

NOT ALL BRASS BUTTONS AND UNIFORMS.

RICHARD SMITH, of the Cincinnati *Commercial Gazette*, chatting about Mr. Blaine's visit to his daughter at Fort Gibson, where her husband, Lieut.-Col. Coppinger, is stationed, referred to the avidity with which young women in Washington seek alliances with Army officers only to be disappointed when their husbands are ordered to frontier posts. Said Mr. Smith: "One of our Cincinnati young ladies was married to an Army officer in Washington, and could never tire of writing home to her people about the wonders of Washington society. Everything was lovely for a couple of seasons. Then her husband was ordered to the West, and for two years I doubt if there was a day that some of the members of the family did not receive a doleful and complaining letter from her. It is pretty hard on a young girl to be shunted off like that. I went to Gen. Sherman to see if something could not be done to bring her husband nearer the centre of civilization. The General was agreeable enough to listen to me, but when it came to the question of doing anything I might as well have tried to remove a rock. 'Why,' said he, 'all these young fellows must take their chances at hard work and light work alike. There seems to be something about their brass buttons and their uniforms that sets the girls crazy. It is just as well for a young woman to get a taste of frontier life once in a while as it is for the men. It makes it understood that the Army business is not all brass buttons and uniforms.'"

(Special Despatch to the Evening Post.)

SEC. ENDICOTT AND JUDGE MAYNARD.

WASHINGTON, April 8.—The Secretary of War is much annoyed by a sharp letter addressed to him by Judge Maynard concerning the accounts of Surgeon Billings and others, which were disallowed. The sarcasm of the letter cut him deeply, and he complains that it was discourteous in Judge Maynard to make the letter public. He insists that he had a right to order the payment of the accounts under dispute, and that he may carry the cases to Court of Claims.

There has been bad feeling between these officers for some time, and Mr. Endicott feels that it was unfair in Judge Maynard to give a parting shot just on the day when he took leave of the office, so that he could not be answered. Whatever reply Mr. Endicott makes now must go to the new Second Comptroller.

As to the charge of discourtesy made against Judge Maynard, it is but just to him to state that he did not give the letter out for publication. It is the custom in the office to place all letters relating to decisions and all decisions on a docket, to which the newspaper men have free access, and this went with the rest on the docket, probably without thought, on the very day Judge Maynard made the transfer to his new position as Assistant Secretary.

TARGET PRACTICE IN THE ARMY.

To the Editor of the Army and Navy Journal:

IN your issue of April 2 appears a letter from Lieut. Merriam, 4th Inf., which calls for some remarks. He says that "it is well-known as anything can be that it is not positively known that numbers of marksman's badges are now worn by men who never obtained them strictly in accordance with Regulations."

Does Lieut. Merriam speak from known facts in this matter or is this simply his opinion? If from the former why, as range officer at Fort Niobrara, did he not prefer charges or report this falsifying of the required certificates on the monthly reports, which were sent to these headquarters? This was his duty, to keep the commanding officer advised of any irregularities, in fact the duty of any officer not to allow discreditable practices on the part of any one.

If his statement is only his opinion, is it just to others, who by hard work and zeal do well, to be thus thought falsifying a certificate? This certificate is too serious a matter to be thus trifled with, and I do not believe any officer would so risk his commission, independent of the dishonor which would be attached to such a falsification. Let this matter of questioning scores be dropped by every officer till it can be proved, when charges should be preferred against the one so offending and dismissal would soon settle the matter. Such publications read by the outside public hurt the Army, in fact every one of us, and nothing is gained by their expression; false scoring, if it exists, is easily remedied by action, and not by talk.

Lt. Merriam refers to my opinion that 100 per cent. can be made in skirmish firing and emphatically says that such high per cents. as over 33 cannot be made by companies, as only that much was obtained by the teams at Fort Leavenworth. The firing of these teams, each member on his own target, and these targets high up on top of parapet are not comparable with the company firing on a line of continuous targets, on the level, with men firing, and whose firing is converging and with the advantage of ricochet shots.

I cannot prove that 100 per cent. can be made, but I do know great progress is making in rifle practice, such as a few years ago would not have been credited. A company of the 24th U. S. Infantry, which made a figure of merit of 100 at that time, was thought to have done so by fraud. Its Captain, Thompson, an honorable man, succeeded, after one year's hard work on his men, in accomplishing this result; his reward was to be vilified in the newspapers outside of being mentioned in orders by Gen. Sherman.

I also believe Captains Wm. W. Rogers, 9th Inf., and Freeman, 7th Inf., who, target year of 1885, made 80 and 78 per cent., and others this year who reported higher per cents., are honorable men, and attained these results by only honorable means; and yet, inferentially, from Lieut. Merriam's opinion they did not do so in accordance with rules governing target practice, which they certified on honor they did.

As to a remark made by a man of the 9th Cavalry at Fort Niobrara, who had just been discharged from the 24th Infantry, wore marksman's buttons, and yet could not hit the target, and on being asked how he obtained his buttons, replied: "We shot by proxy in de Twenty-fourf, sah," I will take it upon myself, knowing the officers of that regiment, to say that the man lied, and I regret that this statement to the disparagement of a brother officer should have been accepted by Lieutenant Merriam and published to the country. That man, however, can now hit the target, as no 3d class man is on the target reports of the troops at Fort Niobrara.

Now, as to the system of our practice being right or wrong, we are bound by it in orders, and criticisms and publications of such are forbidden by Regulations. Time will bring necessary changes and with them corrections of such faults as may exist, but this one thing we must admit that the Army today is as much in advance of the rifle practice of five years ago as the present rifle and ammunition is ahead of the old smooth bore musket buck and ball paper cartridges. Frequent changes are bad, and the motto "*Festina lente*" is a good one in target practice, as well as in other matters of importance.

GUY V. HENRY, Major, 9th Cavalry,
Insp. of Rifle Practice, Dept. Platte.

OMAHA, NEB., April 6, 1887.

STEEL FOR THE NAVY.

ADVICES received at the Navy Department from the Inspector of Steel at San Francisco are regarded as highly encouraging. Lieut. Gilmer, who is charged with the duty of inspecting the steel to be used by the Union Iron Works in the construction of the *Charleston*, reports that he has tested some of the bars and other material turned out by the contractors and found that they blended beautifully, and he thinks that with a little patience they will be able to turn out as good material as there is made. It certainly shows excellently so far, says the lieutenant; it is as good as that made East, and in some respects superior. All of the preliminary work is now being pushed by the contractors, so that the actual work of construction can be started as soon as the materials are ready. The testing machine has arrived at the works, and has already been put in service. Comdr. Evans, President of the Inspection Board, has just returned from a visit to Cramp's works, at Philadelphia. He says that the framing for the *Baltimore* is excellent, and he doubts it better steel was ever put into the frames of a vessel. The steel stem for the new cruiser weighed 15,000 pounds, and was cast without a defect. Comdr. Evans says that it is probably the best piece of steel casting ever done in this country, and the result of the casting is the more remarkable and encouraging from the fact that success was obtained at the first attempt.

THE INDIANS AT FORT MARION.

A CORRESPONDENT, adverting to the sympathetic story by Herbert Welsh, Secretary of the Indian Rights Association, concerning the 447 Indians at Fort Marion, says: "To read his account you would suppose the Indians were in a second Sing Sing, bolted and barred out from the world, pining and dying for want of liberty, and in an overcrowded, filthy condition. The fact is Marion is large enough for 3,000 men, and was also intended as a place of refuge for the inhabitants of St. Augustine. The interior parade ground of the fort is 100 feet square. The Indians roam in and out of the fort, wander through the town, and are out on the waters of the bay in row and sail boats, and kicking football with the young men from the different hotels, look very clean and neat, are compelled to bathe quite often, and are well dressed. A large number of them are being taught their A, B, C's, and to speak English. Now as to the mortality. Gen. R. B. Ayres, a brave, gray-haired veteran of the late war, informed me that more were born than had died. And it is natural to expect that, after the terrible hunting down, with the privations and exposures they were subjected to, to capture them, that it should result, when they first came to the fort, in a number of deaths."

THE PROPERTY OF GENERAL TWIGGS.

GENERAL B. F. BUTLER gave some interesting testimony in a case before the Court of Claims last Friday in reference to the disposition made by him of the property of Gen. Twiggs at the time of the capture of New Orleans, on the 1st of May, 1862. Twiggs's swords were sent to President Lincoln and then transferred to the Treasury. Gen. Butler said: "Having learned that Twiggs had abandoned his house, and knowing that he had been dismissed from the United States Army, by a general order, for disloyalty, and needing quarters where I could have at least a portion of my staff with me, I gave an order to take the house and have it fitted up for my occupation with my staff." Twiggs's agent was compelled to restore the house to the condition in which it was when he left it. On transferring the command to Banks, Butler took a receipt for everything under his control, excepting a tin box of jewelry, which was sealed and stored in the Custom House, and for which the Chief Q. M., Capt. McClure, receipted. Of his action with reference to the property of Gen. Twiggs the witness said: "His want of loyalty was exceedingly notorious, and if you will look in the general orders of the War Department you will find that very early in April, 1861, I think, issued by Joseph Holt, an order dismissing him from the Army of the United States for disloyalty in surrendering his Army in Texas: and I deemed him to be and treated him as a disloyal absconder from New Orleans, where he abandoned his property and his home. I took possession of his property for the United States, as he was such a person."

THE DYNAMITE GUN.

In his lecture on the dynamite gun before the Military Service Institution on Thursday, Lieutenant Zalinski said that the gun had been invented to project large charges of high explosives with safety and accuracy. The first of these guns was of two-inch calibre, length twenty-eight feet, and was invented by Mr. Mefford in 1883, and brought to Fort Hamilton for experiment in 1884. It had been the rule in the United States to decry American inventions and neglect to adopt them until they had received foreign approval. Was it not about time, he asked, for Americans to judge independently of their merit? He said:

"I have repeatedly denied the statement that the gun is of my invention. I have, however, given direction to its development as a practical military appliance. I am not a mechanical engineer, and could not have worked out the mechanical details unassisted. This has been done by Mr. Nat. W. Pratt, of the Babcock and Wilcox Company, mechanical engineer of the Dynamite Gun Company, Mr. George W. Reynolds and Mr. Charles Emory."

With a percussion cap in front a shell in exploding failed to produce any marked effect. It was assumed that the gases evolved by the explosion of the layers in front tended to throw back the gases evolved afterward—a certain amount of time being required to explode the entire charge. This was the point that led to the invention of the electrical fuse. It is so devised and arranged in the shell that the circuit is closed by means of a sensitive plunger an instant before the body of the projectile has struck the target. Indeed the latest projectiles containing large charges, have two or more batteries, so as to explode the charge at several points immediately. The solution of problem resulted in a primer, which in striking the target explodes the charge an instant before impact; if a ship be missed explosion follows an instant after the projectile enters the water; failing in this the explosion follows on the projectile reaching bottom; and fourth there is certainty of the circuit remaining open until the projectile leaves the gun.

I have pushed this work as quickly as I could, because aside from the professional interest involved, I saw in it possibilities of usefulness in cases of public emergencies which may arise even now, before a regular modern armament could be provided. While I have never considered it all-sufficient for defensive purposes, I have thought it a very valuable auxiliary in any event, but most of all if we were attacked before modern guns, ships and forts are provided, we could, at least, seriously injure any attacking force before being ourselves destroyed.

A discussion followed in which Gen. Fry, Col. Hamilton and others took part. Lieut. Zalinski was awarded a vote of thanks.

DECISIONS BY THE SECOND COMPTROLLER.

ACTING SECOND COMPTROLEER MCMAHAN has disallowed the claim of Lieut. Winslow, of the Navy, for mileage from New Orleans to Raleigh, upon the ground that the travel was not a public service. The order issued by Secretary Chandler was made at the request of the North Carolina authorities, who desired Lieut. Winslow to lecture before the Legislature on the fishery question. The Comptroller says that Lieut. Winslow was handsomely compensated by the State.

The Comptroller has also disallowed the claim of Chief Engineer Melville upon technical grounds, and suggests that remedy might be had in the Court of Claims. Chief Engineer Melville, when he went on the Arctic cruise, assigned half his pay to his wife. Shortly after he left promotion came to him, and with it increased pay. Mrs. Melville claimed half the increase and obtained it. Chief Engineer Melville desires to recover half the increase so paid.

THE HEAVY GUN QUESTION.

In the discussion before the American Society of Civil Engineers last week on Mr. Wm. Metcalf's paper on "Steel; some of its Properties; its use in Structures and Heavy Guns," Lieut. Jaques, U. S. N., after speaking in complimentary terms of the subject-matter of the original paper, outlined a plan for a competitive test of cast-steel rifled guns, of 6-in. calibre and high power and made of Bessemer, open-hearth and crucible steel; the competition to be open to the world and at the expense of the gun makers so far as the cost of the gun was concerned, and ultimate efficiency to be the ruling condition. In commenting upon Mr. Metcalf's statement that heat and static pressure in the manipulation of the requisite steel, was superior to forging in good effect, the speaker asked the question why this method was not employed by steel-makers instead of the machines that are in universal use. In answer to this query Mr. Metcalf replied that as there were some 6,000 different shapes required in his own work alone, the hammers and rolls were as yet the only means of economically producing these; while the same good qualities, and better, could be obtained by casting in any mass, this casting could not be applied to merchant shapes.

Mr. J. regarded the action of the Bethlehem Iron Co. as a powerful indorsement of the decision reached so long ago by the Naval Bureau of Ordnance that forged steel built-up guns were the best and solid steel armor the most efficient. He could not understand why the Pittsburgh manufacturers, who have urged the use of cast guns, have not made them at their own expense and risk if such guns can be made so cheaply and are so sure of success. Whitworth and Krupp and Schneider have succeeded because they have heeded the laws that a long experience has provided; because they understand the benefits of annealing and the controlling power of heat, and they build up guns because they have acquired methods of performance which are both scientific and mechanical.

Mr. A. H. Emery acknowledged the good work of the Rodman cast-iron gun but pointed out that the conditions had changed very much in the last 20 years, in weight of charge and projectile, muzzle velocity and initial pressure on the gun. He thought, moreover, that there was an element of safety and strength in the old cast-iron gun that was lacking in mild steel. That while cast-iron had a low limit of elasticity it would bear very high compressive strains and transmit such strains without flow of metal. Mild steel on the other hand met the limit of resistance to this flow at 40,000 lbs. pressure, and pressures of more than 30,000 lbs. were now applied to guns, with a rapid tendency to increase the pressure in practice. The speaker illustrated this theory by describing some experiments at the Watertown Arsenal where the wax test was applied to two similar cylinders, one wholly of cast-iron and the other having a portion of the cast-iron replaced by a lining, 9-10 in. thick, of wrought iron; the latter burst first, though it would seem to have had in it the stronger combination of metals. The explanation was that the wrought-iron commenced to flow under the pressure applied and assisted the wax in bursting the outer shell of cast-iron instead of strengthening it. Mr. Emery described the process of drawing down steel bars by machine hammering and testified to the good qualities of this steel, and for his ideal gun only asked for a piece of metal of similar quality four feet square and about 40 ft. long. But he did not expect to live long enough to see such a mass made equal in quality to the smaller sections first referred to. He thought therefore to insure the best material and perfect homogeneousness, we must depend upon built up guns made from comparatively small parts.

Dr. R. J. Gatling thought that gun-steel should not be too hard or too soft and not hammered; for the result of this latter treatment was to render the perfect homogeneous character of the mass less reliable. The best steel for guns was perfectly homogeneous mild and tough and of high elasticity. He believed it was perfectly feasible to make steel guns on the Rodman principle. Such guns will have a great elasticity, springiness and power to resist abrasion, combined with high strength and power to offer a uniform resistance in every direction to all the strains to which they might be subjected.

Mr. F. C. Collingwood believed that the system proposed by Mr. Metcalf was worthy of a full test of its stated results.

Mr. Jos. M. Knapp agreed with Mr. Metcalf that the best heavy gun of the future will be that known as the steel-cast gun; for smaller gun, 8 in. and less, he thought present experience abroad was sufficient to warrant our efforts in the direction of built-up guns. He thought that nothing but practice, and careful experiment would decide the endurance, and reliability of heavy cast guns; he thought that Congress should appropriate a sufficient sum for the construction of a steel-cast gun of say, 12 in. calibre, and 50 tons weight with about 1,000 pounds projectile; the necessary plant was already available in private establishments, requiring but a comparatively trifling addition for heavy hammers, etc. The speaker closed with a compliment to the Army and Navy officers for the high standard of efficiency obtained by them in guns, with the small appropriations at their command.

Mr. Dorsey requested Lieut. Jaques to give to the Society the results of his investigations into the actual work done by the Armstrong wire-wound gun. Lieut. Jaques acknowledged that a gun of this description of 9 2-10 in. calibre, with from 200 to 330 lbs. of powder, and a comparatively light projectile had given a record of 2,200 to 2,520 ft. per second muzzle velocity; but as to the saving in weight for same power, referred to by Mr. Dorsey, he believed that in a very few months we would see a built up gun which would be its peer in all practical respects; for the wire-wound gun was simply an enormously costly experimental machine, although it had stood successfully many rounds of high power; he was not aware that this wire gun was unprotected by patents, and required a very inexpensive plant to construct, and had hence been suppressed because it was open to the world.

Mr. Theo. Cooper said that high steel from its character was subject to many risks in its manipulation. Stretch in steel was of no avail in guns, for there practically any stretch meant destruction. The ideal gun would be made of material having high tensile strength, free from injurious internal strains and thoroughly homogeneous in its character. He believed that when we once get through the experimental stage, which the Government and not individuals should pay for, that steel-cast guns should be made superior to the best European built guns. The speaker ridiculed the late appropriation of $25,000 for three 6-in. cast guns of steel, and suggested that the testing alone would about consume that sum. Mr. Cooper in discussing the bursting effect in guns called attention to the interesting arrangement of the lines of flow, or stress lines in passing from the bore to the exterior of the gun barrel. Mr. Cooper thought it was much more reasonable to expect a greater resistance to stress from a solid barrel than one made of hoops or tubes, when the direction and effect of these lines were considered.

Mr. Metcalf in summing up upon the discussion stated that he had long ago practically lost his direct interest in gunmaking, and in his paper intended to call more especial attention to certain properties in steel and its better manipulation for the peaceful arts. His paper had been written for engineers, to show them that steel was useful and safe, but required the greatest care in its manufacture and handling. In regard to the extended remarks upon cement carbons, hardening carbons, carbidés, etc., contained in the papers brought out by the original subject of his own paper, he thought the Scotch verdict of "not proven" would well apply. The susceptibility of steel to marked changes of dimensions and condition under heat application was very important in considering the gun question, and from actual experiments in this direction, he would ask what would become of the elaborately figured strains in the shrunk-on hoops of built-up guns when subjected to this heating action from the powder gases.

In this connection we publish a table received some time ago from a correspondent who raises a question whether a high velocity gun is a high power gun. His table is as follows:

Guns.....	Calibre....	Round shot.....	Projectile	Ratio.....	Initial velocity.	Muzzle velocity.	Velocity 3,500 yds.	Energy 3,500 yds.	Loss....	Hearth, calibre...	Pressure...
	in.	lbs.	lbs.		f. s.	f. t.	f. s.	f. t.	p.c.		tns.

* Krupp. † U. S. Army. ‡ U. S. Navy. § Woolwich. ‖ Armstrong.

In explanation of this table our correspondent says:

Most persons judge of the power of a gun by the initial velocity and muzzle energy. For the English naval officer, who wishes to follow the traditions of his service and engage his enemy "yard arm to yard arm," a high velocity, light projectile, and small *ratio* (of weight of solid cast-iron sphere of equal calibre to actual weight of shot), are all right, for the tremendous energy due to the second (square, M. V. 2,) power of the velocity, will not be much affected by the resistance of the atmosphere before his shot strikes.

But when it comes to seacoast guns, you see what a difference an increase of range makes. You have to fight the atmospheric resistance alone for a long distance, say 3,500 yards for a "mean battle range." When this is the case, you can see at once that a very "high velocity" gun may be quite a "low power" one, and *vice versa*. With guns of anything like similar calibres, etc., the power of the gun is at once indicated by the ration of round to elongated projectile.

Now please to observe that an excessive velocity and light projectile require a very strong gun, no matter what the ballistic results may be. Cast-iron, or steel-cast guns are, or will not be probably as strong as the built-up steel guns. Consequently, if they are to be used for seacoast, or *long range* purposes (and not as the English naval officer can and probably will use his strong, high velocity gun), unquestionably they should be fired with these low velocities, and the heaviest possible projectile, to get the best results. (See Report Chief Ord., 1885, p. XI.)

Gun.	Calibre.	Round Shot.	Projectile.	Ratio.	Initial Velocity.	Muzzle Energy.	3,500 Yards. Ter. Velocity.	3,500 Yards. Ter. Energy.
South Boston Iron Co.....	12 in.	2,293	800	3.49	1,709	16225	1,306	9,444*
Krupp. ...	12 in.	2,293	1,003	4.37	1,556	16805	1,282	11,443

*Latitude, Fort Monroe, Va.

No gun for seacoast purposes should be fired with a projectile weighing only 3 5 times the round shot of the same calibre. Mr. Krupp's gun is a good one, and a strong one, and only 22 *calibres long*, but look at the results which a proper application of ballistic laws give him. If I wished to demonstrate the worthlessness of this cast-iron gun, I would reduce this weight of projectile and increase the velocity. But if I wished to demonstrate the value of a cast-iron gun, I would first see that the chase of the gun was left sufficiently strong to stand a slow-burning powder, a relatively low velocity and the heaviest possible projectile.

Gun.	Calibre.	Round Shot.	Projectile.	Ratio.	Initial Velocity.	Muzzle Energy.	3,500 Yards. Ter. Velocity.	3,500 Yards. Ter. Energy.	Loss.
S. Boston Iron Co.	12 in.	2,293	800 (1)	3.49	1,709	16,225	1,306	9,444	Per Ct. 41.8
	12 in.	2,293	1,003 (1)	4.37	1,556	16,805	1,282	11,443	31.1
	12 in.	2,293	1,032	4.5	1.500	16.125	1,243	11,088	31.3

(1) *Same shape* as the Krupp projectile, radii of head two calibres, instead of the antiquated one used in the United States and in England (1½ calibres). The first results are those obtained by th Ordnance Board, rival gun makers, by the way; the second will result from the use of Mr. Krupp's methods as applied to a gun only 22 calibres long, and this one is long enough to use Krupp's ratio with his 118-ton gun, if only 1,500 f. s. be used. If the chase of the gun be properly made, this projectile can be used with 1,550 f. s., when much better results will follow: 17,152 foot tons muzzle energy, 1,282 f. s. terminal velocity, and 11,652 f. ts. at 3,500 yards.

More than half the people who made so much fuss about "high power" guns really do not know what such a gun is. You lay down a rule that all who wish to publish the wonderful results they have obtained must not only give gun the usual data which they dish out, but also the "mean battle range" at which their guns are to be effective, and this ratio for their projectile, and we shall see fewer of these nonsensical and misleading statements about "our guns being the equal of any foreign guns," etc.

LIEUTENANT PHILIP READE.

LIEUT. PHILIP READE, 3d U. S. Infantry, General Terry's Inspector of Rifle Practice, is described by the Chicago *Times* as "one of the characters of the regular service." The *Times* says:

He entered West Point as a cadet during the war, after having spent a short time on the personal staff of General Benjamin F. Butler. Even as a "plebe" he became one of the most popular fellows in the corps. He sang a good song, while as a mimic and story teller he was unequalled. One of the nattiest and most precise of soldiers when on duty, the "delinquency books" of the academy were too limited to keep record of his innumerable pranks and practical jokes. One of the brightest men intellectually of his day, his propensity for fun and deviltment kept him constantly in danger. He simply could not settle down to steady study. Mathematics floored him in the course of a year or two. He was discharged, came back on a reappointment, and plunged into new and improved pranks, letting study go to the devil. Mathematics and fun were too much for him. The whole corps flocked to bid him good-by, and all were rejoiced when some years later he was commissioned in the infantry with some other civilian appointments. He joined the 3d Infantry in Kansas, became the life of every garrison as a leader in theatricals and the like, but all the time sticking to his work as subaltern, and making a tip-top officer. Then Gen. Myer, the originator of the signal service, got Reade into his office, found him an adept at signaling and speedily an expert at telegraphy. The next few years the lieutenant was employed building military telegraph lines all over the western country and convulsing every garrison he got into with his mimicry and stories. He became known everywhere from Fort Leavenworth to San Diego, and was at home in every community. There was a hot fight over the election of a territorial delegate from New Mexico about the time Reade finished the telegraph line to the upper Rio Grande, and he, finding time heavy on his hands, and being a lion among the people, took a hand in politics. With characteristic impartiality he made fluent speeches for both candidates and enraptured the frontiersmen. The result was a boomerang. They held mass meetings, threw over both candidates, and nominated Reade by acclamation. Then they wanted to shoot him—some of them—because he wouldn't run. Phil rejoined his regiment finally, just as the rifle practice idea took hold of the Army, and as usual, went in heart and soul to develop all there was in the thing. The 3d Infantry began to climb to the top, and Reade was the pusher. No match, no department competition was complete without him. He speedily became an expert, and made his pupils the same. In four years the 3d Infantry took, and kept, the lead of the whole Army, and became known as "The Rifle Regiment." Therefore, when General Terry was called upon to name an officer who should be inspector of rifle practice for the biggest division in the Army, his choice naturally fell on Phil Reade.

COURT-MARTIAL CASES.

Before a G. C. M. at the Presidio of San Francisco was tried Private Louis Zimmerman, Co. D, 21st Infantry. Charge—Desertion, June 10, 1874; surrendered Nov. 12, 1886. He first pleaded in bar that he was not a duly or legally enlisted soldier of the Army; that not being sustained he then pleaded in bar under the 103 Article of War. This the court sustained. The reviewing authority, Major-General Howard, then returned the proceedings to the court for completion—"by expressing some opinion in the shape of findings." The court returned them, stating its action on "the prisoner's plea in bar of trial, which was based upon the 103d Article of War, is considered . . . as fulfilling all the requirements of . . . finding in the case." Gen. Howard then reviews the case as follows: "The proceedings, as far as they go, are approved. The reviewing officer, believing that the 103d Article of War, when properly applicable to a case, is tantamount to a pardon for the offence committed, disapproves the action of the court in not bringing the case to completion. All the facts were before the court, and the accused, in the interests of justice, which should be administered according to law, is entitled to a finding. The authorities differ with regard to the nature of the offence of desertion. In certain military reviews it is pronounced 'a continuous offence,' and is undoubtedly an offence repeated every day till the close of the term of enlistment; and possibly a strict adherence to the letter of the law would extend it to an indefinite period, unless, in some way, the time lost by desertion 'be made good;' but as the opinion of the reviewing officer in this case inclines to the belief that the commission of the offence terminates at the close of the period of enlistment, he does, in keeping with this conviction, and in presence of the facts furnished by the court, hereby order that the accused be freed from arrest, and declare that he is not liable to be tried and punished by Court-martial for the offence of desertion herein charged. To complete this case, as the court declines a finding, it is recommended that a formal discharge from the Service be given by the War Department (G. C. M. O. 10, D. Cal., 1887).

In the case of a soldier recently tried at Fort Niobrara, Neb., for drunkenness on guard and acquitted, Gen. Crook expresses his regret that the soldier "should have been brought to trial, or charges preferred against him, before a more careful examination of the facts in the case, by the officers preferring and forwarding the charges—it appearing in the evidence that shortly after the accused had been ordered into confinement, by the post quartermaster, he was carefully examined by the officer of the day, in the presence of two other officers, neither of whom could discover any evidence of intoxication—the officer of the day so reporting to the post commander, and also to the post quartermaster, before charges had been preferred by the latter." (G. C. M. O., D. Platte, 1887.)

In the case of a soldier tried for violation of the 47th and 50th Articles of War (desertion and enlisting in another regiment while a deserter), the reviewing authority, Major-General Schofield, says: "The finding upon the second charge is disapproved. In the opinion of the Division Commander, the enlistment of a soldier in a second regiment or company, without discharge from the first, does not constitute a crime *distinct from and additional to* that of desertion from the first regiment or company. The meaning of the 50th Article of War is understood to be that a soldier who quits a regiment or company where he owes service shall be reputed a deserter, *notwithstanding* his enlistment in another regiment or company. The intention of the Article is not to make the second enlistment an offence but to deprive it of the character it would otherwise have, or seem to have, of an atonement or mitigation of the crime of desertion from the regiment or company in which service is due. (G. C. M. O. 39, Div. A., April 11.)

(Correspondence of the Army and Navy Journal.)

FORT MONROE, VA.

A GERMAN by the young ladies of the Hygeia to their friends was given at the Pavilion on April 13, and was one of the events of the season so far. It was matronized by Mrs. Gen. Tidball and Mrs Cazlarc, of the Fort, and other ladies. Among the dancers were Miss Patterson of New York, Miss Lodor of Washington, Miss Alexander of West Point, Miss Brown, Miss Potts of Washington, Miss Kimberley, Mrs. Booth, Mrs. Nye, Mrs. Bailey, Mrs. Walke, Mrs. Haines, Mrs. Richardson and Miss Baker; Lieuts. Walke, Haines, Foote, Treat, Hancock, Ludlow, Davenport and Hubbell; Majors Calef and Kobbe; Lieuts. Bailey, Dunn, Waite, Rodman and Cazlarc; Medical Director Gorgas of the *Thetis*, and P. A. Surg. Dear, U. S. N.

THE ARMY

G. O. 28, H. Q. A., April 8, 1887.

By direction of the Secretary of War, par. 2466 of the Regulations, as amended by G. O. 72, of 1885, from this office, is further amended to read as follows:

2466. The transfer by an enlisted man of a claim for pay due him on his final statements can only be recognized when made after his discharge, in writing, indorsed on the final statements, signed by the soldier, and witnessed by a commissioned officer, when practicable, or by some other reputable person known to the paymaster. The person witnessing the transfer must deliver the discharge to the soldier, indorsing thereon the fact of transfer of the final statements, and on the latter that such indorsement has been made on the discharge.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 29, H. Q. A., April 11, 1887.

Publishes the act to organize the Hospital Corps of the Army of the U. S., and to define its duty and fix its pay. [Heretofore given in full in the JOURNAL.]

G. O. 30, H. Q. A., April 12, 1887.

The following order, received from the War Department, is published for the information of all concerned:

WAR DEPARTMENT, WASHINGTON, April 6, 1887.

By direction of the President, the military post situated on the north shore of Cœur d'Alene Lake, Idaho Territory, now called Fort Cœur d'Alene, will hereafter be known and designated as Fort Sherman, in honor of General William Tecumseh Sherman, U. S. Army (retired), by whom the site was selected.

WM. C. ENDICOTT, Secretary of War.

By command of Lieut. Gen. Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 1, CORPS OF ENGRS., March 21, 1887.

The practice season for the post of Willet's Point, N. Y., for the current target year, will be the months of May, June, and July.

G. O. 2, CORPS OF ENGRS., March 25, 1887.

The following information, relating to the course of instruction at the Engineer School of Application during the term beginning December 6, 1886, is selected from the report of the semi-annual examination held at Willet's Point, New York Harbor, on January 28, 1887, and published as matter of general interest to the Corps of Engineers.

The Third Year Officers have been engaged in the study of Civil Engineering, comprising the subjects of measurement of river discharge, improvement of non-tidal rivers and an introduction to the improvement of tidal rivers and harbors. Text-books: Schlichting's Regulation and Canalization of Rivers; Harcourt's Rivers and Canals; Hartcourt's Harbors and Docks. The examination was written.

The Second Year Officers have completed the prescribed course in Military Engineering, embracing the subject of modern guns, carriages and projectiles; steel, compound, wrought and cast-iron armor; ships of war and sea coast defences; modern fortifications and their attack and defence. Text-books: Woolwich Text-book of Fortifications; Maguire's Attack and Defence of Coast Fortifications; Fortifications of To-day; Inglis on Armor, 1880; Inglis on Armor, 1884; Report of Committee No. 6, Board on Fortifications: Squadrons of Evolutions and Recent Development of Naval Material. Naval Intelligence, June, 1886; Bayley on Modern Guns; Adams on Spezia Experiments, 1886. The examination was written.

The First Year Officers (Engineers and Artillery) have been engaged in the study of electricity, supplemented by extensive laboratory practice in electricity and in electrical tests and measurements. Text-books: United States Torpedo Manual, Part I.; Gray's Measurements, Chapter X. The examination was oral.

By command of Brig. Gen. Duane:
CHAS. W. RAYMOND, Maj. of Engrs.

STAFF CORPS AND DEPARTMENTS.

Aide-de-Camp.

Capt. Joseph P. Sanger, A. D. C., will proceed to Fort Warren, Mass., on special duty (S. O. 77, April 13, Div. Atlantic).

Judge Advocate General's Department.

Leave for twenty days is granted Captain Stephen W. Groesbeck, A. J. A. (S. O. 29, April 1, D. Dak.)

Pay Department.

General J. R. Brooke, Commanding Fort Shaw, has issued the following notice: "Paymaster Bash, U. S. A., en route for Fort McKinney, Wyo., was robbed at 11 A. M., on the 18th inst., at Antelope Springs, 43 miles north of Douglas Wyo. The robber was known by the name of George Parker, is 28 years of age, about 5 feet 8 inches in height, light complexion, light brown hair and eyes, whiskers all over his face; had on cowboy belt with 45-calibre revolver and cut off to shell extractor, ivory handle; light hat with leather band; rode a dark bay or brown horse fifteen or sixteen hands high, with some roan hair; horse has had scratches and feet still look scabby. Is supposed to have gone towards the British possessions. Major Bash has offered $1,000 reward for the apprehension of the robber."

The retirement from active service, April 12, by operation of law, of Major Charles J. Sprague, paymaster, under the act approved June 30, 1882, is announced (S. O., April 12, H. Q. A.)

Medical Department.

The resignation of Capt. John J. Kane, asst. surg., has been accepted by the President, to take effect April 13 (S. O., April 14, H. Q. A.)

Leave for two months, on surgeon's certificate, is granted Capt. Charles Richard, asst. surg. (S. O., April 9, H. Q. A.)

Leave for fifteen days is granted Major Albert Hartsuff, surgeon, Fort Hamilton, N. Y. H. (S. O. 75, April 11, Div. Atlantic.)

Acting Hospl. Steward Max Eisenberger is relieved from duty at Camp Pilot Butte, and will proceed to Fort Du Chesne, and report for duty. Upon his arrival Actg. Hospl. Steward Henry Muller will return to duty with his company (I, 21st Inf.) (S. O. 34, April 6, D. Platte.)

Capt. John Van R. Hoff, asst. surg., will proceed to Fort Reno, I. T., and report for duty. Upon the arrival of Capt. Hoff at Fort Reno, Asst. Surg. Walter Whitney will proceed to Fort Lyon, Colo., and report for duty (S. O. 43, April 4, Dept. Mo.)

Col. David L. Magruder, surgeon, will proceed to Lancaster, Pa., on public business (S. O., April 8, H. Q. A.)

Hospl. Steward Daniel B. Miller will be relieved from duty in the Div. of the Atlantic upon the receipt of this order at Fort Myer, Va. (S. O. 77, April 13, Div. Atlantic.)

Engineers and Ordnance Departments.

Leave for ten days is granted Major W. S. Stanton, C. E. (S. O., April 12, H. Q. A.)

1st Lieut. Irving Hale, at Willet's Point, will relieve 1st Lieut. Curtis McD. Townsend, C. E., of his duties as Q. M. of the Battalion and A. A. Q. M., and Actg. C. of S., at Willet's Point. Lieut. Townsend, on being relieved, will proceed and take station at Washington, D. C., reporting to Major Garrett J. Lydecker, C. E., for duty under his immediate orders. 2d Lieut. David Du B. Gaillard, C. E., is relieved from duty at Willet's Point, N. Y., and will take station at Jacksonville, Fla., reporting to Capt. William M. Black, C. E., for duty (S. O., April 9, H. Q. A.)

Ord. Sergt. Peter Sutton, having been granted a furlough for six months, the C. O., Jackson Barracks, La., will send a reliable sergeant to Fort Massachusetts, Ship Island, Miss., for duty as acting ord. sergeant (S. O. 75, April 11, Div. Atlantic).

Ordnance Sergt. John Barr is, upon his own application, placed upon the retired list (S. O., April 14, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A and C, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Cœur d'Alene, Idaho.

Col. Nelson B. Sweitzer will proceed to Forts Spokane and Cœur d'Alene and inspect the troops of his regiment (S. O. 52, March 31, D. Columbia.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A, E, and L, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; M, Ft. McDowell, Ariz.

Troop L (Wint's) is relieved from duty at Fort Stanton, N. M., and will proceed to Fort Lowell, A. T. (S. O. 37, April 1, D. Ariz.)

1st Lieut. Fred Wheeler is relieved as J.-A. of the G. C.-M. at Fort Lowell, A. T., and 2d Lieut. Samuel Reber is relieved as member and appointed J.-A. in his stead (S. O. 37, April 1, D. Ariz.)

The leave for seven days granted 2d Lieut. R. D. Walsh, Fort Huachuca, is extended twenty-three days (S. O. 38, April 5, D. Ariz.)

Capt. A. Rodgers is relieved from duty at the Military Academy, West Point, to take effect July 1 (S. O., April 11, H. Q. A.)

5th Cavalry, Colonel Wesley Merritt.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

1st Lieut. Ebenezer Swift is relieved from duty as R. O. at Fort Riley, and 1st Lieut. Francis Michler, Adjt., is appointed in his stead (S. O. 43, April 4, Dept. M.)

At his own request, 2d Lieut. John M. Carson is transferred from Troop K to Troop B (S. O., April 8, H. Q. A.)

Leave for four months, to take effect Aug. 28, is granted Capt. J. A. Augur (S. O., April 12, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

1st Lieut. W. H. Carter, relieved as R. Q. M., is assigned to Troop C (Orders 33, April 4, 6th Cav.)

1st Lieut. Edward E. Dravo is appointed Regimental Quartermaster (Orders 33, April 4, 6th Cav.)

In Orders 33, of April 4, Col. Carr relieves 1st Lieut. W. H. Carter from duty as Regimental Quartermaster, he having held the position for more than four years, and takes the opportunity to bear testimony to the many sterling qualities of Lieut. Carter as an officer, a gentleman, and a man. He has been Regimental Quartermaster, says Col. Carr, for almost exactly eight years; during which time he has acted as Quartermaster, in the field, of several posts, of different Districts—military and disbursing—and nearly all the time as Assistant Commissary of Subsistence of Posts, Districts, or in the field; also frequently as Post Treasurer, and has disbursed moneys and handled property to the value of many hundreds of thousands of dollars. He has, in addition, frequently taken the duties of Adjutant and Troop Commander. He was Adjutant as well as Quartermaster during the summer of '81, at Fort Apache, and on the Cibicu campaign, and displayed the most conspicuous and distinguished gallantry in the battles of the Cibicu, Aug. 30, and of Fort Apache, Sept. 1, 1881. During the past two years he has supplied the troops employed in the campaign in Southwestern New Mexico against the Chiricahua and Warm Spring Indians and their allies, and it is universally agreed that they were well and promptly supplied, and the accounts well kept and promptly paid. His courteous and obliging disposition, and his prompt settlements, have made him universally popular with officers, soldiers, and civilians.

7th Cavalry, Colonel James W. Forsyth.

Hdqrs. B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

A. G. C.-M. will meet at Fort Snelling, April 25, for the trial of 2d Lieut. J. H. G. Wilcox (S. O. 32, April 7, D. Dak.)

Chief Trumpeter William G. Hardy will return to Fort Meade, D. T. (S. O. 29, April 1, D. Dak.)

The C. O. Fort Meade, D. T., will grant a furlough for two months to Sergt. Edward Garlick, Troop G (S. O. 30, April 4, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

1st Lieut. Frederick E. Phelps is appointed to act as inspector on certain property at the cavalry recruiting rendezvous, Lexington, Ky., for which 1st Lieut. Charles H. Grierson, 10th Cav., R. O., is responsible (S. O., April 13, H. Q. A.)
